

BOARD OF EDUCATION AGENDA

REGULAR MEETING

March 26, 2024 - 6:00 PM

Alameda City Hall - Council Chambers

2263 Santa Clara Avenue
Alameda, CA 94501

Regular meetings held in Council Chambers will be recorded and broadcast live on Comcast, Channel 15

The Board of Education will meet for Closed Session and to discuss labor negotiations, student discipline, personnel matters, litigation, and other matters as provided under California State law and set forth on the agenda below. Following Closed Session, the Board reconvenes to Public Session. Adjournment of the Public Session will be no later than 10:30 PM for all regular and special meetings, unless extended by a majority vote of the Board.

Writings relating to a board meeting agenda item that are distributed to at least a majority of the Board members less than 72 hours before the noticed meeting, and that are public records not otherwise exempt from disclosure, will be available for inspection at the District administrative offices, 2060 Challenger Drive, Alameda, CA. Such writings may also be available on the District's website. (Govt Code 54957.5b).

Individuals who require special accommodations (American Sign Language interpreter, accessible seating, documentation in accessible format, etc.) should contact Kerri Lonergan, Assistant to the Superintendent, at 337-7187 no later than 48 hours preceding the meeting.

IF YOU WISH TO ADDRESS THE BOARD OF EDUCATION

Please submit a "Request to Address the Board" slip to Kerri Lonergan, Assistant to the Superintendent, prior to the introduction of the item. For meeting facilitation, please submit the slip at your earliest possible convenience. Upon recognition by the President of the Board, please come to the podium and identify yourself prior to speaking. The Board of Education reserves the right to limit speaking time to three (3) minutes or fewer per individual. Speakers are permitted to yield their time to one other speaker, however no one speaker shall have more than four (4) minutes.

Closed Session Items: may be addressed under Public Comment on Closed Session Topics.

Non Agenda and Consent Items: may be addressed under Public Comments.

Agenda Items: may be addressed after the conclusion of the staff presentation on the item.

A. CALL TO ORDER

1. Public Comment on Closed Session Topics: The Board of Education Reserves the Right to Limit Public Comment to 10 Minutes. For members of the public who are unable to log in or attend in person, please send public comments related to Closed Session agenda items to: publiccomments@alamedaunified.org. Public comments received prior to 5:00 PM on March 25, 2024, 2024 will be distributed to the Board of Education prior to the meeting.

C. COMMUNICATIONS

1. Public Comments on Non-Agenda Items:
There were no public comments on non-agenda items.
2. Written Correspondence:
The Board received four emails regarding General Business item #5: *The Selection of a Provisional Appointee for the Vacant Board of Education Seat.*
3. Report from Employee Organizations:
Amy Keegan, President CSEA 27: Ms. Keegan announces Tara Shelton has been elected as the new VP of CSEA 27, there is a paraeducator conference in March, and applications for CSEA scholarships will open this winter.
4. Report from PTA Council:
Barbara Muramoto, President of Ruby Bridges Elementary PTA: Ms. Muramoto describes her school and some of its ongoing challenges, including vulnerable students, opportunity gaps among students, and funding challenges.

5. Board Members' Report:

Board President Heather Little: Board President Little wished everyone a safe and happy holiday season.

Board Clerk Gary K. Lym: Board Clerk Lym wished everyone a wonderful winter holiday.

Board Member Ryan LaLonde: Board Member LaLonde wished everyone a safe and healthy holiday season. Board Member LaLonde stated last week he and other Board members attended the Annual CSBA Education Conference. Board Member LaLonde enjoyed engaging with other Board members from around the state. Board Member LaLonde congratulated Tara Shelton at Edison Elementary School who was just elected Vice President of CSEA 27.

Board Vice President Jennifer Williams: Board Vice President Williams wished a very happy holiday break to families, staff, and students. Board Vice President Williams stated starting in January at all our Board meetings we will be taking a deep dive into our budget so we can look at things closely. Board Vice President Williams stated the Board and AUSD leadership must make tough decisions by June, and this will help us to be prepared and it will help our community know what is going on.

6. Superintendent's Report:

Superintendent Pasquale Scuderi: Superintendent Scuderi wished everyone a happy holiday season, and he stated the New Year will require "sustained and thoughtful focus" due to looming state budget cuts. Superintendent Scuderi also stated that he wanted to be very open and transparent about the fiscal challenges AUSD will be navigating in January.

7. Student Board Members' Report:

Lianna Lau (ASTI): Student Board Member Lau announced that ASTI has their last and final SSC meeting of the year. Student Board Member Lau stated college finals and ASTI finals are coming next week. Student Board Member Lau announced the application for ASTI is still available for incoming 9th grade students for the 2024-2025 school year. Student Board Member Lau congratulated Peralta Chancellor Dr. Jannet Jackson on her retirement.

Talia Kotovsky (Alameda High School): Student Board Member Kotovsky announced that Spirit Week is underway. There is a Diversity Club Trivia Day on Friday, this Thursday is the Annual Winter Dance Showcase.

Mirabelle Kruger (Encinal High School): Student Board Member Kruger announced finals are next week, the Health Center is doing a De-Stress Event at lunch tomorrow ahead of finals, this week is the last Spirit Week of 2023, and donation drives end this Friday.

E. GENERAL BUSINESS

1. Deliberation and Selection of Provisional Appointee for Vacant Board of Education Seat

With the recent resignation former Board Vice President Megan Sweet on October 26th, there is currently a vacant seat on the Board of Education. Education Code gives the Board two options for filling the vacant seat: calling a special election, or appointing an applicant. At its Special meeting on November 3rd, the Board voted unanimously to use the appointment method to make a provisional appointment of a new Board member who will fill former

Board Vice President Sweet's vacancy on the Board until the end of her term, which is November 2024.

Applications for the vacant seat were made available to the public on November 6th. Applications were due back by 5pm on December 6th. Eleven people applied for the position. The eleven candidates are (in alphabetical order):

1. Joyce Boyd
2. Lee Conway
3. Marnie Curry
4. Dan Hurst
5. Shulin Lin
6. Barb McClung
7. David Nelsen
8. ~~Elena Rivkin~~ (*application withdrawn*)
9. Margie Sherratt
10. ~~Jeff Smith~~ (*eligibility not able to be determined*)
11. Alanna (Alex) Spehr

At a Special Board meeting held on December 8th:

- Candidates who attended the in-person meeting gave a three-minute opening statement.
- Each candidate answered a question posed by the Board.
- Board President Heather Little provided an opportunity for public comment.
- The Board discussed the candidates and deliberated with the hope of coming to a consensus on a candidate to be appointed as a provisional Board member.

The provisional Board member will be sworn in at the Board's January 9th meeting.

Public Comments:

Olivia Higgins, parent of AUSD students and Founding Member of the LGBTQ Round Table: Ms. Higgins asked the Board to select candidate Barb McClung to fill the vacant seat left by Dr. Megan Sweet when she resigned from the Board.

Krista Arrington, AUSD Psychologist: Ms. Arrington asked the Board to select candidate Barb McClung to fill the vacant seat left by Dr. Megan Sweet when she resigned from the Board.

Board members discussed the many attributes of the Board candidates, and they came to a consensus on this being the most experienced and knowledgeable group of candidates they have seen.

Board members let all candidates know they would love to see the candidates who were not selected at this time, be involved in other District committees.

Motion to nominate Margie Sherratt as the Provisional Board of Education member.

2. Recognition of Outgoing Board President, Acknowledgement of Incoming Board President and Vice President, and Election of Board Clerk

The Board has designated today's meeting as the annual organizational meeting required by section 35143 of the Education Code. Section 35143 states that the Board shall elect officers at its annual organizational meeting. One such officer is the Board Clerk.

Board Bylaw 9123 states that the duties of the Clerk shall be to:

1. Certify or attest to actions taken by the Board when required.
2. Maintain such other records or reports as required by law.
3. Sign documents on behalf of the district as directed by the Board.
4. Serve as presiding officer in the absence of the President and Vice President.
5. Notify Board members and members-elect of the date and time for the annual organizational meeting.
6. Perform any other duties assigned by the Board.

Motion to elect Ryan LaLonde as the Board Clerk.

Board President Heather Little left the meeting at 7:23pm

3. Approval of First Interim Budget and Resolution No. 2023-2024.29
Designating Certain General Funds as Committed Fund Balance

Shariq Khan, Assistant Superintendent, Business Services, gave the Board information on the First Interim Budget. Twice during the fiscal year, school districts are required to submit a financial report certifying the district's ability to meet its financial obligations for the current and two subsequent years. The reports examine the district's attendance, spending patterns, fund balance, reserve for economic uncertainties, and multi-year projections. Staff will present the 2023-2024 First Interim which reports the district's financial position as of October 31, 2023.

Resolution No. 2022-2023.72 was approved with the 2023-2024 budget adoption at the June 27, 2023 Board of Education meeting to maintain a prudent level of financial resources and to comply with the requirements of the Government Standards Accounting Board (GASB) statement number 54. Resolution No. 2022-2023.72 authorized and directed the district Superintendent or designee to finalize the amounts to be committed for the purposes directed within based on the unaudited actual financial report for fiscal year 2022-2023 no later than September 15, 2023.

Therefore at the Board's September 12, 2023 meeting, Resolution No. 2023-2024.11 was presented and approved to adhere to that requirement.

The attached Resolution No. 2023-2024.29 presents updated committed fund balance amounts, purposes and justifications since September 12, 2023, and its adoption by the Board is required as a successor resolution in order to revise the fund commitments as indicated.

Public Comments:

Joyce Boyd, parent of AUSD student: Ms. Boyd shared that other districts in the Bay Area are struggling to maintain solvency. Ms. Boyd shared that SFUSD is facing huge budget cuts and they have many unstaffed positions they can't afford to fill. Ms. Boyd thanked Mr. Khan and the Fiscal team in AUSD for their hard work.

Motion to Approve of First Interim Budget and Resolution No. 2023-2024.29
Designating Certain General Funds as Committed Fund Balance

4. Resolution 2023-2024.30 Adoption of Wood Middle School Measure B Modernization and New Construction Phase 1: Initial Study and Mitigated Negative Declaration

The district is in the process of constructing a replacement building and modernizing the site at Wood Middle School located at 420 Grand Street. Due to its scope, this project requires a California Environmental Quality Act (CEQA) review.

The district contracted with consultants Brelje & Race Consulting Engineers (“Brelje & Race”) to conduct the CEQA process. At the November 14, 2023, Board of Education meeting, Brelje & Race presented the Initial Study (“IS”) as a platform for the Board to receive public comment on the project.

In accordance with State CEQA guidelines, on November 3, 2023, a Notice of Intent to Adopt a Mitigated Negative Declaration (“MND”) was published to inform agencies and interested parties that the district was releasing an IS and Proposed MND for the project. The Notice informed the public of the 30-day public review through December 3, 2023, and provided details on how to provide comments. The Notice was communicated through the following channels:

1. Mailed to all properties within 500 feet of Wood Middle School and the future Phase 2 athletic stadium site
2. Posted at the County Clerk’s office
3. Posted at Wood Middle School
4. Posted at the District Office
5. Published in the Alameda Times-Star,
6. Published on the District website
7. Mailed to concerned public agencies, such as the City of Alameda, tribal agencies, and EBMUD

Tonight, representatives from Brelje & Race will return to address the comments received and subsequent mitigation measures taken.

Based on recommendation from Brelje & Race, the district finds the impact of the project to be of No Impact, Less Than Significant Impact or Less than Significant Impact with the incorporation of mitigation, and therefore, staff recommends the Board adopt the proposed MND.

Public Hearing Opened: 7:47pm

5. Resolution No. 2023-2024.31 Annual Accounting for Developer Fees for Fiscal Year 2022-2023 Collected by the District in Account: Fund 25

Government Code sections 66001 and 66006 imposed detailed requirements on public agencies that levy development fees. These sections require school districts collecting statutory school facilities fees to make an annual accounting of those fees available to the public within 180 days of the end of the fiscal year which is on or before December 28, 2023. The annual accounting must then be reviewed by the governing board at its next regularly scheduled meeting, at least 15 days after the accounting was made available to the public.

Attached to the agenda item online are as follows:

- Resolution No. 2023-2024.31
- Exhibit A - 2022-2023 Developer Fee Annual Report
- Exhibit B - Capital Facilities Fund 25 posted on November 22, 2023

By disclosing the reports, the District will have met the requirements of Government Code sections 66001 and 66006.

6. Introduction of Board Members and Staff:
B. Board of Education Members present: Board President Jennifer Williams, Board Vice President Gary K. Lym, Board Clerk Ryan LaLonde, Board Trustee Heather Little, and Board Trustee Margie Sherratt.

Student Board Members present: Talia Kotovsky (Alameda High), and Lianna Lau (ASTI).

Student Board Member Mirabelle Kruger (Encinal High) was absent.

AUSD staff members present: Superintendent Pasquale Scuderi, Assistant Superintendent, Human Resources, Timothy Erwin; Assistant Superintendent, Business Services Shariq Khan; Assistant Superintendent, Educational Services, Kirsten Zazo; Senior Manager of Community Affairs, Susan Davis and Senior Executive Assistant to the Superintendent, Kerri Lonergan.

1. Closed Session Action Report:

In Closed Session the Board voted 5-0 to approve staff's recommendation that student #96757 be expelled from the Alameda Unified School District through June 6, 2024, with conditions outlined in the rehabilitation plan. Student may apply for readmission after June 7, 2024.

C. MODIFICATION(S) OF THE AGENDA:

There were no modifications of the agenda.

D. COMMUNICATIONS

1. Swearing in of Newly Appointed Board Member by Board President Jennifer Williams:

Board President Williams performed the swearing in of newly appointed Board Member Margie Sherratt.

2. Public Comments on Non-Agenda Items:

Leland Tramain, parent of AUSD student: Mr. Tramain asked voters to vote no on the District's parcel tax renewal, which is on the ballot for the March 5th.

3. Written Correspondence:

The Board did not receive any email related to this agenda.

4. Report from Employee Organizations:

Martha Zenk, President Alameda Education Association (AEA): AEA Co-President Martha Zenk announced AEA is in negotiations with the District. Ms. Zenk also stated AEA is in support of Measure E, the parcel tax renewal that is on the ballot for the March 5th election.

5. Report from PTA Council:

The PTA Council did not make a report.

6. Board Members' Report:

Board President Jennifer Williams: Board President Williams welcomed newly appointed Board member Margie Sherratt, and she stated she was very excited to work with Board Member Sherratt. Board President Williams also stated there were people in the audience, including former Student Board Member Henry Mills, to welcome Board Member Sherratt back to the Board.

Board Vice President Gary K. Lym: Board Clerk Lym wished everyone a happy new year, and he welcomed newly appointed Board member Margie Sherratt.

Board Member Heather Little: Board Member Little welcomed Margie Sherratt and announced the Encinal vs. Alameda Soccer Game this Friday. Board Member Little wished the Encinal team, including her son, good luck.

Board Clerk Ryan LaLonde: Board Member LaLonde wished everyone a happy new year and he welcomed Board Member Sherratt back to the Board.

7. Superintendent's Report:

Superintendent Pasquale Scuderi: Superintendent Scuderi wished everyone a happy new year, and he welcomed newly appointed Board member, Margie Sherratt.

8. Student Board Members' Report:

Lianna Lau (ASTI): Student Board Member Lau announced applications for ASTI are still available for incoming 9th grade students for the 2024-2025 school year. The application period ends on January 19th. Student Board Member Lau welcomed the Adult Transition students to the ASTI/COA campus. Student Board Member Lau also welcomed Board Member Sherratt back to the Board.

Talia Kotovsky (Alameda High School): Student Board Member Kotovsky announced there is a Diversity Club event on Friday, and she welcomed Board Member Sherratt.

E. ADOPTION OF THE CONSENT CALENDAR

1. Approval and Acceptance of Donations
2. Approval of Bill Warrants and Payroll Registers
3. Approval of CSBA Recommended Updates to Board Policies
4. Approval of Facilities Bond Measure I and Measure B Contracts (Standing Item)
5. Approval of Quarterly Report on Williams Uniform Complaints
6. Approval of Special Education Local Plan Area Master Contracts
7. Ratification of Contracts Executed Pursuant to Board Policy 3300
8. Resolution No. 2023-2024.34 Approval of Budget Transfers, Increases, Decreases
9. Resolution No. 2023-2024.35 Delegation of Authority to Purchase and Contract
10. Resolution No. 2023-2024.36 Approval of Notice of Completion: Wood Middle School HVAC Modernization Project
11. Resolution No. 2023-2024.37 Approval of Notice of Completion: District-Wide Safe School Locks Project

12. Resolution No. 2023-2024.38 Approval of Notice of Completion: Bay Farm School New Classrooms

F. GENERAL BUSINESS

1. District Audit Report for Fiscal Year Ended June 30, 2023

Each year, the law requires school districts to review the annual audit of the school district's financial records for the prior fiscal year at a public meeting.

The audit examines the District's compliance with state and federal standards and procedures for the District to implement sound fiscal management practices for the most effective and efficient use of public funds.

Aurthur Ngo from audit firm Moss Adams, LLP gave the Board the District Audit and Financial Statements for 2022-2023.

A Board member remarked on the excellent report received and he complimented Shariq Khan and his team on the tremendous amount of work this involved.

Motion to approve the District Audit Report for Fiscal Year Ended June 30, 2023.

2. Measures I and B Bond Audit Report for Fiscal Year Ended June 30, 2023

Each year, the law requires school districts to review the annual audit of the school district's financial records for the prior fiscal year at a public meeting.

The Measure I and Measure B Bond audit examines the District's compliance with state and federal standards and procedures for the Measures, facilities bonds, which the citizens of Alameda approved in November 2014 and November 2022. Measure I authorized the District to issue General Obligation Bonds (GO Bonds) up to \$179.5 million, and Measure B authorized the District to issue GO Bonds up to \$298 million.

Aurthur Ngo from audit firm Moss Adams, LLP gave the Board the Measure I and B Bond Performance Audit and Financial Statements for 2022-2023..

Motion to approve Measures I and B Bond Audit Report for Fiscal Year Ended June 30, 2023.

3. Report on Budget Priorities, Challenges, and Constraints for 2024 and Beyond

Pasquale Scuderi, Superintendent, gave the Board information on AUSD's budget priorities. Back in September, AUSD published its first Budget Summary for community members. The summary provided basic information about the cycle and elements of a school district's budget, as well as specifics about the 2023-24 budget.

As we start the New Year, we want to provide an update to that budget, which we published just a few months after the Board adopted it. Our intention in providing this update is threefold:

- To raise community awareness of changing conditions in the budgetary landscape
- To be transparent about some of the decisions our staff, in partnership with school communities, may need to make over the coming months
- To help the community the process by which we will make those decisions

Changing Budget Conditions

When the Board of Education adopted the 2023-24 budget last June, the state was projecting fairly high revenues for last year (2022). Typically, a prior year's taxes don't affect the current year's budget very much. However, the extension of the deadline to submit 2022 taxes (from April 2023 to November 2023) created a unique challenge, and the complete revenue picture for 2022 is just now emerging.

To be specific, taxes collected for 2022 are significantly below the state's expectations and, per the Legislative Analyst's Report issued on December 7, 2023, the State of California is facing a \$68 billion deficit for next year starting on July 1, 2024. To put that in perspective, the state's entire budget is about \$300 billion.

Since K-12 education is approximately 40% of the state budget, this reduction means that school districts across the state will face a significant budget challenge in 2024-25.

Specifically, while the projected Cost of Living Adjustment (COLA) for this year remains at 8.22%, the COLA for next year has dropped from 3.94% to 1.00%. And while the state projected a 3.29% COLA for 2025-26, we now don't know what it will be.

How does that affect AUSD's bottom line? The reduction of COLA from 3.94% to 1% in 2024-25 wipes away approximately \$5 million from the school district's revenue over the next three years (2023-24 through 2025-26). That is significant.

Parcel Tax Uncertainty

In addition, a measure to combine and renew our parcel taxes – Measure B1 and Measure A – is now on the March 2024 ballot. If that measure fails, we will have one more year of Measure B1 parcel tax revenue, but will need to identify \$12.5 million in budget reductions by June 2024 for the 2025-2026 school year. While those cuts have not yet been specified, we do know that they would likely include a combination of reduced programs and services, lay-offs, salary rollbacks or freezes, and school consolidations or closures.

Moving Forward

School districts need to submit a three-year budget to the county by June 30 of each year. Given the condensed timeline between the March 5 election and the budget deadline, we are planning on initiating public dialogues about educational and financial priorities after Winter Break in order to identify what cuts could or should be made in the event the parcel tax does not pass. We understand that talking about cuts can be painful. But we think the best approach is to be transparent and proactive about some of the challenges we are currently facing.

As a first step, we presented the Board with the First Interim Budget Report publicly at the December 12 Board of Education meeting. To see this presentation or the video of the agenda item, please click on the following link for the December 12 Board Meeting agenda.

We'll have further details when the governor releases his proposed budget on January 10. Over the next several months, however, we are committed to providing public updates on AUSD's budget situation and projections on a regular basis, as well as providing opportunities for public engagement.

Public Comments:

Ryan Brazil, AUSD teacher: Ms. Brazil stated it is her 7th year teaching and 5th year teaching in Alameda. Ms. Brazil listed all the ways she works to supplement her income due to the low salaries in Alameda. Ms. Brazil stated that she is living paycheck to paycheck. Ms. Brazil stated it is hard to serve her students when she cannot even serve her family.

4. The Approval of 2024 Board Committee Assignments and Appointment of Board Representatives to Non-AUSD Committees

Each year during the Board's annual organization meeting and in accordance with Board Bylaw 9130: Board Committees and Board Bylaw 9140: Board Representatives, the Board assigns members to its standing committees and assigns representatives to other public agencies or organizations.

At its organizational meeting on December 12, 2023, the Board appointed Margie Sherratt to fill a vacancy caused when former Board Vice President, Megan Sweet, resigned in October. Due to the timing of the appointment, the Board decided to select Subcommittee and Committee assignments at the first meeting where Margie Sherratt would be in attendance. This meeting occurs on January 9, 2024.

Board Committee	Purpose	Board Member for 2024
<i>City/School Joint Subcommittee</i>	Informational discussions facilitated by the Mayor/City Manager and Board President/Superintendent on areas of mutual interest	Heather Little Margie Sherratt Talia Kotovsky* Lianna Lau*
<i>Wellness Advisory Council</i>	Responsible for implementation of Wellness Policy through outreach to sites and eventual development of Wellness site councils	Ryan LaLonde Heather Little Lianna Lau*
<i>Board Policy Subcommittee</i>	Reviews recommended changes to Board Policies	Gary K. Lym Ryan LaLonde Talia Kotovsky*
<i>AUSD/Peralta Joint Subcommittee</i>	Informational discussions facilitated by AUSD Superintendent and Board and Peralta Community College Trustee(s) on areas of mutual interest	Jennifer Williams Gary K. Lym Lianna Lau*
<i>Diversity, Equity, and Inclusion Workgroup</i>	Informal discussions on the topics of Diversity, Equity, and Inclusion.	Gary K. Lym Margie Sherratt

Non-AUSD Committee	Purpose	Board Member for 2024
<i>Alameda County School Boards Association</i>	Alameda County School Board members' networking and information sharing	Ryan LaLonde
<i>Alameda Collaborative for Children, Youth, and Families</i>	Joint committee of the City, County, and District focused on improving opportunities for Alameda youth	Jennifer Williams Talia Kotovsky* Mirabelle Kruger* Lianna Lau*
<i>Redevelopment Successor Agency Oversight Board</i>	The Redevelopment Oversight Board shall meet with the City of Alameda in its capacity as Successor Agency of the City.	Jennifer Williams

□ Resolution for School Library Month	3/20/2024	Resolution Letter

ALAMEDA UNIFIED SCHOOL DISTRICT
Alameda, California
Resolution

March 26, 2024

Resolution No. 2023-2024.53

Resolution in Recognition of School Library Month

WHEREAS, School Library Month is a national observance sponsored by the American Association of School Librarians, a division of the American Library Association, and school libraries across the country; and

WHEREAS, Alameda Unified School District's (AUSD) certificated teacher librarians provide the leadership and expertise necessary to ensure that the school library is an integral part of the instructional program and school community; and

WHEREAS, AUSD's school libraries provide a safe, inclusive, and engaging learning environment that empowers students to be lifelong readers, critical thinkers, inquisitive learners, and respectful and responsible citizens; and

WHEREAS, teacher librarians promote safe, responsible, and ethical use of information and technology; and encourage creativity, communication, and collaboration within the learning community; and

WHEREAS, school libraries provide materials which reflect the ideas and beliefs of different religious, social, political, historical, and ethnic groups and their contributions to the American and world heritage and culture; and

WHEREAS, across the nation, libraries, and librarians, are facing censorship and attacks for championing diversity, inclusion, and equity. It is more important than ever that we protect equitable access to school libraries and defend their essential role in defending intellectual freedom and providing inclusive spaces for learning and empowerment for all.

NOW, THEREFORE, BE IT RESOLVED, that the Alameda Unified School District's Board of Education does hereby recognize April as School Library Month.

PASSED AND ADOPTED by the following called vote this 26th day of March, 2024.

ALAMEDA UNIFIED SCHOOL DISTRICT
BOARD AGENDA ITEM

Item Title: Approval of 2023-24 Consolidated Application Winter Reporting

Item Type: Consent

Background: The Consolidated Application and Reporting System (CARS) is the California Department of Education's (CDE) application and reporting mechanism for selected categorical funding. Each summer (June) Local Education Agencies (LEAs) apply for funding and each winter (February) LEAs provide a status update. The Alameda Unified School District programs funded through the Consolidated Application for 2023-24 are the following:

Federal Programs:

- Title I, Part A (Basic Grant)
- Title II, Part A (Teacher Quality)
- Title III, Part A (Immigrant)
- Title III, Part A (LEP Students) (LEP=Limited English Proficient Students/English Language Learners)

AUSD LCAP Goals: 1. Eliminate barriers to student success and maximize learning time.| 2a. Support all students in becoming college and career ready.| 2b. Support all English Learners (ELs) in becoming college and career ready.| 3. Support parent/guardian development as knowledgeable partners and effective advocates for student success.| 4. Ensure that all students have access to basic services.

Fund Codes:

Fiscal Analysis

Amount (Savings) (Cost): N/A

Recommendation: Approve as submitted.

AUSD Guiding Principle: #1 - All students have the ability to achieve academic and personal success.| #5 - Accountability, transparency, and trust are necessary at all levels of the organization.| #6 - Allocation of funds must support our vision, mission, and guiding principles.

2023–24 LCAP Federal Addendum Certification**CDE Program Contact:**Local Agency Systems Support Office, LCAPAddendum@cde.ca.gov, 916-323-5233**Initial Application**

To receive initial funding under the Every Student Succeeds Act (ESSA), a local educational agency (LEA) must have a plan approved by the State Educational Agency on file with the State. Within California, LEAs that apply for ESSA funds for the first time are required to complete the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum Template (Addendum), and the Consolidated Application (ConApp). The LCAP, in conjunction with the Addendum and the ConApp, serve to meet the requirements of the ESSA LEA Plan.

In order to initially apply for funds, the LEA must certify that the current LCAP has been approved by the local governing board or governing body of the LEA. As part of this certification, the LEA agrees to submit the LCAP Federal Addendum, that has been approved by the local governing board or governing body of the LEA, to the California Department of Education (CDE) and acknowledges that the LEA agrees to work with the CDE to ensure that the Addendum addresses all required provisions of the ESSA programs for which they are applying for federal education funds.

Returning Application

If the LEA certified a prior year LCAP Federal Addendum Certification data collection form in the Consolidated Application and Reporting System, then the LEA may use in this form the same original approval or adoption date used in the prior year form.

County Office of Education (COE) or District For a COE, enter the original approval date as the day the CDE approved the current LCAP. For a district, enter the original approval date as the day the COE approved the current LCAP	06/27/2023

2023–24 Application for Funding**CDE Program Contact:**Consolidated Application Support Desk, Education Data Office, ConAppSupport@cde.ca.gov, 916-319-0297**Local Governing Board Approval**

The local educational agency (LEA) is required to review and receive approval of their Application for Funding selections with their local governing board.

By checking this box the LEA certifies that the Local Board has approved the Application for Funding for the listed fiscal year	Yes
---	-----

District English Learner Advisory Committee Review

Per Title 5 of the California Code of Regulations Section 11308, if your LEA has more than 50 English learners, then the LEA must establish a District English Learner Advisory Committee (DELAC) which shall review and advise on the development of the application for funding programs that serve English learners.

By checking this box the LEA certifies that parent input has been received from the District English Learner Committee (if applicable) regarding the spending of Title III funds for the listed fiscal year	Yes
---	-----

Application for Categorical Programs

To receive specific categorical funds for a school year, the LEA must apply for the funds by selecting Yes below. Only the categorical funds that the LEA is eligible to receive are displayed.

Title I, Part A (Basic Grant) ESSA Sec. 1111 et seq. SACS 3010	Yes
Title II, Part A (Supporting Effective Instruction) ESEA Sec. 2104 SACS 4035	Yes
Title III English Learner ESEA Sec. 3102 SACS 4203	Yes
Title III Immigrant ESEA Sec. 3102 SACS 4201	Yes
Title IV, Part A (Student and School Support) ESSA Sec. 4101 SACS 4127	Yes

*****Warning*****

2023–24 Federal Transferability

Federal transferability of funds is governed by Title V in ESSA Section 5102. An LEA may transfer Title II, Part A and/or Title IV, Part A program funds to other allowable programs. This transferability is not the same as Title V, Part B Alternative Fund Use Authority (AFUA) governed by ESEA Section 5211.

Note: Funds utilized under Title V, Part B AFUA are not to be included on this form.

2023–24 Substitute System for Time Accounting

This certification may be used by auditors and by California Department of Education oversight personnel when conducting audits and sub-recipient monitoring of the substitute time-and-effort system. Approval is automatically granted when the local educational agency (LEA) submits and certifies this data collection.

CDE Program Contact:
Hilary Thomson, Fiscal Oversight and Support Office, HThomson@cde.ca.gov, 916-323-0765

The LEA certifies that only eligible employees will participate in the substitute system and that the system used to document employee work schedules includes sufficient controls to ensure that the schedules are accurate.

Detailed information on documenting salaries and wages, including both substitute systems of time accounting, are described in Procedure 905 of the California School Accounting Manual posted on the web at <https://www.cde.ca.gov/fg/ac/sa/>.

2022–23 Request for authorization	Yes
LEA certifies that the following is a full disclosure of any known deficiencies with the substitute system or known challenges with implementing the system (Maximum 500 characters)	Substitute System Based on Sampling Method:

ALAMEDA UNIFIED SCHOOL DISTRICT
BOARD AGENDA ITEM

Item Title: Approval of 2024-2027 Triennial Plan for Providing Educational Services for Expelled Pupils

Item Type: Consent

Background: With the enactment of AB 922, Statutes of 1995, Chapter 974, California Education Code Section 48926 requires each County Superintendent who operates community schools pursuant to Education Code Sections 1980 and 1986, in conjunction with the Superintendents of the school districts within the county, develop a countywide plan for providing education services for all expelled pupils in the county. The plan is to be adopted by the Governing Board of each school district within the county and by the County Board of Education. The plan is to be submitted to the State Superintendent of Public Instruction and updated and re-approved by the aforementioned parties triennially. This plan covers the 2024-2027 school years.

AUSD LCAP Goals: 1. Eliminate barriers to student success and maximize learning time.| 2a. Support all students in becoming college and career ready.| 2b. Support all English Learners (ELs) in becoming college and career ready.| 4. Ensure that all students have access to basic services.

Fund Codes:

Fiscal Analysis

Amount (Savings) (Cost): N/A

Recommendation: Approve as submitted.

AUSD Guiding Principle: #1 - All students have the ability to achieve academic and personal success.| #2 - Teachers must challenge and support all students to reach their highest academic and personal potential.| #3 - Administrators must have the knowledge, leadership skills and ability to ensure student success.| #5 - Accountability, transparency, and trust are necessary at all levels of the organization.

Introduction

Background

With the enactment of AB 922, Statutes of 1995, Chapter 974, California Education Code Section 48926 requires each county superintendent who operates community schools pursuant to Education Code Sections 1980 and 1986, in conjunction with the superintendents of the school districts within the county, develop a countywide plan for providing education services for all expelled pupils in the county. The plan is to be adopted by the governing board of each school district within the county and by the county board of education. The plan is to be submitted to the State Superintendent of Public Instruction and updated and re-approved by the aforementioned parties triennially.

Education Code Section 48926 provides specifically that:

1. The countywide plan shall enumerate existing educational alternatives for expelled pupils; identify gaps in educational services to expelled pupils; and strategies for filling those service gaps.
2. The countywide plan shall identify alternative placements for pupils who are expelled and placed in district community day school programs but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils, as determined by the district governing board.

In 2012, the recommended content of the countywide plan was amended to address additional, more detailed questions that were raised and supported by the State School Attendance Review Board and the Student Programs and Services Steering Committee of the California County Superintendents Educational Services Association. These recommendations include:

- Strategies for improvement during the next three years, including any behavioral intervention practices, at the site and district levels, and options used to:
 - Minimize the number of suspensions leading to expulsions
 - Minimize the number of expulsions being ordered
 - Support students returning from expulsions
 - Specific explanation for how those practices relate to any disproportionate representation of minority students in such interventions.
- Analysis of the existing plan's strategies for filling gaps in educational services.
 - Whether the strategies were successful or not; and why and how they were or were not successful.
 - Whether any additional strategies were implemented, and if so, why and how they were or were not successful.
 - For strategies that were not successful, any additional measure(s) or approach(es) taken, and the outcome(s).

Alameda County's original countywide plan was adopted by the local governing boards of education and the Alameda County Board of Education in 1997. This current countywide plan is the triennial update to the existing plan.

Educational programs within Alameda County provide numerous alternatives and opportunities for students who are in need of traditional and/or alternative education programs. Individual school districts offer a broad spectrum of services and the County Office of Education (COE) offers additional options. In combination, these two sources provide a continuum of education alternatives to expelled and high-risk students.

Under Education Code Sections 48916 and 48916.1, school districts throughout California are mandated to provide educational services for students expelled from their district. The law also states that "At the time an expulsion of a pupil is ordered, the governing board of the school district shall ensure that an education program is provided to the pupil who is subject to the expulsion order for the period of the expulsion."

In Alameda County, this mandate impacts 18 school districts spread over a region comprising urban, suburban, and semi-rural or isolated communities. The educational placement of a student is determined on an individual basis by the district's governing board based on: 1) seriousness of the offense, 2) available educational alternatives, and 3) other related factors.

Students expelled from charter schools that operate within Alameda County pursuant to procedures outlined in the charter are returned to the jurisdiction of their school district of residence for the same individualized placement determination by that district's governing board.

2023-2024 Student Services Council Membership

The Student Services Council for Alameda County consists of student services representatives from each district as well as county office personnel. The purpose of the council is to share updates and practices for best serving the county's students through district student services departments and ACOE's Student Programs and Student Services divisions. The Council provides input on the triennial updates to the Educational Services Plan for Expelled and High-Risk Students in Alameda County.

Existing Educational Alternatives for Expelled Students

ACOE is committed to providing the highest possible education for our most vulnerable students through our County-Operated Community Schools. Across the County, fewer and fewer students are being expelled as schools and districts have more programs to support the diverse needs of our most vulnerable youth. Programs such as Response to Instruction and Intervention (RtI²), Positive Behavioral Intervention and Supports (PBIS), Multi-Tier System of Supports (MTSS) and Restorative Justice are now included in almost all of the 18 districts in Alameda County. In addition, more districts have programs that provide counseling and mental health services that support children, youth and their families, which has substantially reduced 9-12 expulsions, and in many districts, eliminated K-6 expulsions over the past 9 years.

In addition to educational alternatives for expelled students offered by ACOE specifically, some of the school districts in the County offer educational alternatives for expelled or high-risk students. The descriptions of services offered by each district in Alameda County are provided in the final section of this document.

ACOE's Quest Academy

ACOE's Quest Academy provides educational opportunities for students in grades 7-12 who are referred by districts due to expulsion or by the Alameda County Probation Department. Quest Academy aims to provide positive learning environments that are safe, promote positive self-esteem and self-concept, and are respectful of student diversity so that students can set and attain goals in learning, work, and life, while meeting certain goals to complete their expulsion and/or probation plans.

Our Schoolwide Learner Outcomes make clear what students should know, understand, and be able to demonstrate by the time they graduate or exit ACOE's school program.

- Students will be active learners:
 - Take responsibility for their own learning.
 - Create and assess short and long-term academic and career goals.
- Students will be effective & skilled communicators
 - Utilize multiple modalities of communication including print and digital, literature, and technological tools.
 - Express personal opinions and emotions appropriately.
- Students will be critical thinkers
 - Work independently and collaboratively.
 - Create environments of safety and respect for themselves and others.
- Students will be citizens of their communities and the world
 - Identify data-informed problems and solutions.
 - Apply knowledge to changing conditions.
 - Access and manage information and tools effectively

ACOE's Parenting Teen Program

ACOE's Parenting Teen Program community school sites in Hayward and San Leandro provide academic instruction, support services, and child care for pregnant and parenting students. Teachers and staff offer a nurturing learning environment for young moms and dads as they complete their high school education. Students have access to curriculum and support services to develop the skills and experiences needed to provide a safe and caring environment for themselves and their children. The Parenting Teen Program is available to serve pregnant or parenting teens who are expelled from their home district and follows a similar enrollment process as Quest Academy (see Transition sections below).

ACOE Opportunity Academy

ACOE's Opportunity Academy is an Alameda County Board of Education authorized charter school. It serves students ages 16 and over who have previously separated from school or have been unsuccessful in school, desire a high school diploma, and will benefit from support with employment readiness and obtaining employment. Opportunity Academy utilizes independent studies with blended learning models; incorporating computer-based curriculum, small group instruction, independent and classroom-based study options. Opportunity Academy offers: individual learning and support for all; flexible hours to accommodate work and child care; referrals to support services; job readiness and training; and opportunities for internships, apprenticeships, and career placement internships.

Opportunity Academy partners with Youth Employment Partnership (YEP) in Oakland, La Familia in Hayward, organizations providing Workforce Innovation & Opportunity Act-funded services to similar populations, and Next Step Learning Center, which provides an environment that encourages student growth and success in and out of the classroom. Opportunity Academy also partners with REACH Ashland Youth Center, which serves young people throughout Alameda County to honor youth power and build the community's resilience. Finally, Opportunity Academy partners with Civicorps, which provides simultaneous paid job training through their Conservation Program.

Opportunity Academy is an option for expelled students, however, due to its charter school status, it is not an option for district referrals. Thus, families will need to initiate the enrollment process directly with ACOE. Enrollment forms can be found at acoe.org/opportunity.

Transition To ACOE

ACOE programs are open-entry throughout the school year. The transition from the school of residence to the Alameda County Community Schools begins with receipt of complete student records from the district of residence. Note, the below process is for ACOE's Quest Academy and Parenting Teen Program. Opportunity Academy enrollments do not follow the same process. Parents/Students will need to apply directly to Opportunity Academy without a district referral because Opportunity Academy operates as a charter school.

Referring District Responsibilities:

1. As far in advance as possible, notify Quest principal or spasenrollment@acoe.org of pending expulsion hearing(s), student's special education status, and estimated timeline(s).
2. For special education students, refer to transition processes detailed in [Special Education Memorandum of Understanding \(MOU\)](#).
3. Upon expulsion determination, send the following documents to ACOE Centralized Enrollment (SPaSEnrollment@acoe.org) in PDF format: 1) [ACOE County Community School Referral Form](#), 2) transcript, 3) expulsion order (including rehabilitation plan or disciplinary hearing requirements, 4) immunization record, 5) state assessment information (including ELPAC if applicable), 6) 504 plan if applicable, and 7) IEP with related assessments per Special Education MOU if applicable.
4. Follow up with parents/guardians when notified by ACOE that a student failed to report to the assigned County Community School Program within five (5) school days of district's referral. Referring district sends a copy of the parent/guardian follow-up correspondence to spasenrollment@acoe.org.

ACOE Responsibilities:

1. Conduct an intake meeting which will include the student, parents, referring district representative, county community school site principal or other administrator, special education, and probation officer (if applicable).
2. Contact the parent and the referring school district by email, mail, and/or phone if a student is not registered within five(5) school days of district referral to ACOE.

Transition From ACOE

Exit referrals from ACOE back to districts normally occur at the end of a semester based on the expelling school districts readmission eligibility timeline. Moving from an ACOE small classroom environment, with its personalized care and intense supervision, to a traditional larger school mainstream education settings presents challenges for both the student and the teachers. In order to support this process, the following steps will occur:

1. ACOE will send to the referring district a draft [Readmission Report](#) twenty-five (25) school days prior to the student's scheduled readmission to the home district.
2. School Student Review Team (including teachers, ACOE principal/designee or transition coordinator, home district representative, and probation officer, if applicable) will conduct a re-entry assessment of satisfactory completion of rehabilitation plan requirements twenty (20) school days prior to the student's scheduled readmission to the home district. The Student Review Team will finalize the [Readmission Report](#).
3. ACOE & Home District representatives will meet with the student and family to discuss the Student Review Team's readmission decision.
4. If readmission is recommended, home district will prepare materials for board approval.
5. Community School Site Administrator will prepare an overview supporting the student's readmission, including the [teacher's student evaluation form](#).
6. District will confirm student's re-enrollment with ACOE by sending a completed [Readmission Notification Form](#) to spasenrollment@acoe.org upon student's re-enrollment.
7. An ACOE designee will support the student's transition, including a 30 day check-in after re-enrollment.

Re-Entry Recommendations to Home District

Districts can ensure a more successful transition by implementing the following recommendations for students returning from a minimum of 30 days in a County Community School program:

Readmission Steps

1. Conduct a meeting to determine student placement in district.
2. Review educational and juvenile records.
3. Clearly communicate expectations to all parties.
4. Review IEP or Section 504 plan & related assessments. Schedule a meeting as needed.

Welcoming Procedures

1. Review student/parent handbook.
2. Develop and discuss individual behavior plan.
3. Create a behavior contract that is signed by the student and parent.
4. Conduct re-entry IEP or 504 plan meeting (if applicable).

Staff Preparation

1. Share relevant information with teacher and staff members

Behavioral Intervention Strategies to Minimize Expulsions

Comprehensive behavioral intervention strategies have become mainstream programs in all districts. Programs such as Response to Instruction and Intervention (RtI²), Positive Behavioral Intervention and Supports (PBIS), Multi-Tier System of Supports (MTSS) and Restorative Practices are part of the culture at all schools in Alameda County. Additional strategies and initiatives have included anti-bias and cultural responsiveness training, trauma-informed practices, and a renewed focus on civic engagement. The Local Control Accountability Plans (LCAP) and the CA Dashboard are part of the reasons for the change.

LCAP

The LCAP requires the districts to clearly describe the behavioral intervention strategies and identify the amount of funds supporting these activities. State and local performance indicators are often signs of at-risk student/students with a high potential for expulsion. The state performance indicators include Chronic Absenteeism and Suspension. The local indicators include School Climate. All districts describe their strategies for improving school climate and reducing absenteeism and suspensions in their LCAPs.

CA Dashboard

The CA Dashboard provides a variety of data that is disaggregated by student groups and clearly describes performance gaps. The intensity of the need for behavioral interventions is indicated and districts are required to identify strategies to reduce the performance gaps. Districts with the greatest gaps are required to work with the County Office of Education in the Differentiated Assistance process.

RTI, PBIS, MTSS, & COST

RtI² focuses on the needs of individual students and includes a process of bringing teachers, counselors, mental health professionals and families together at the first sign of problems. Additional services are recommended by the team. This data-driven approach supports high-quality, culturally responsive differentiated instruction, positive behavior systems, universal screening and data analysis of all student's classroom learning.

PBIS and MTSS are evidence-based multi-tiered behavioral frameworks for improving learning conditions that consists of three tiers of support: Tier 1 Universal Supports: School and classroom-wide systems for all students, staff, and settings; Tier 2 Supplemental Supports: Mentoring and small group interventions for some students who need additional support; Tier 3 Intensified Supports: Specialized, individualized interventions from specialized service providers for high-risk students, such as behavioral assessments, behavioral support plans, counseling,

and referrals for support services for students and their families. Tier 2 and 3 supports are for students who do not respond to the "universal" supports in Tier 1.

RtI², PBIS and MTSS promote students' social-emotional learning and well-being which help reduce suspensions and expulsions and support students returning from expulsions. These approaches are also meant to help address the disproportionately high number of minority students being suspended and expelled by providing a more in-depth understanding of all factors that have led to a student's misbehavior or continued misconduct, and a variety of evidence-based responses.

Many districts in Alameda County have implemented Coordination of Services Teams (**COST**), many with guidance from the Alameda County Center for Healthy Schools. COST plays a critical role for schools and districts striving to build a strong continuum of supports for students under models such as the Response to Intervention (RTI) Framework. A COST identifies and addresses student needs holistically and ensures that the overall system of supports for a student works together effectively. A COST is a multidisciplinary team of school staff and providers who: 1) Create a regular forum for reviewing the needs of individual students and the school overall; 2) Collaborate on linking referred students to resources and interventions; and 3) Support students' academic and behavioral success and healthy development.

Restorative Practices

Restorative Practices build community and utilize the conflict mediation approach to respond to student misconduct with the goal of repairing harm and restoring relationships between those affected. It is best accomplished through cooperative processes that include all school community members. It transforms the traditional relationship between schools, teachers, and student communities in responding to suspension or expulsion situations and allows for a smooth transition for the student back into a school setting. This approach incorporates four key values or components:

1. Encounter: Create opportunities for persons harmed, persons who caused harm, and community members with a stake in the incident or who serve as support to those harmed or who have engaged in harm, to meet (in a "restorative justice circle") to meaningfully discuss the incident and its aftermath, affording everyone the opportunity to be heard.
2. Amends: Expect persons who caused harm to take steps to repair the harm they have caused.
3. Reintegration: Seek to restore persons harmed and persons who caused harm, to the whole, contributing members of society that they are.
4. Inclusion: Provide opportunities for parties with a stake in a specific incident to participate in its resolution.

Social-Emotional Learning

Districts continue to ramp up their Social-Emotional Learning (SEL) strategies through the training of staff and implementation of designated and integrated SEL curricula and practices. SEL competencies that can support the reduction of suspensions and expulsions include teaching students about and incorporating a schoolwide culture focused on: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Several districts have implemented initiatives aimed at helping improve behavioral and academic outcomes for African American students, who have historically been disproportionately represented in chronic absenteeism, suspensions, expulsions, subpar academic achievement, and dropouts. OUSD African American Male Achievement Initiative includes a Manhood Development program. This unique academic mentoring model focuses on social-emotional learning and life skills development designed and implemented by African American males for African American males and offered at 15 middle and high schools. A parent leadership development program is also included. African American Female Excellence is a comparable program that supports African American girls attending OUSD. HUSD's African American Student Achievement Initiative incorporates targeted intervention for African American students, culturally relevant practices, improved discipline and school climate policies and practices, and parent and community partnerships to help improve outcomes for these students.

School-Based Behavioral Health Services

Several districts provide school-based mental health services to students and their families at some or all schools and plan to continue to do so in the coming years. These counseling, case management, and crisis intervention programs, which increasingly incorporate trauma-informed or healing-centered services and wraparound supports, can help improve students' engagement, behavior, and success in school.

Eleven districts in Alameda County are participating in the **Student Behavioral Health Incentive Program (SBHIP)**, leveraging state funding to increase the capacity and sustainability of behavioral health services at school sites. Some of the SBHIP strategies include, but are not limited to: the creation of wellness centers at school sites; implementation of peer-to-peer mentoring programs; partnerships to expand the behavioral health workforce in schools, including MSW internship programs; and trainings for staff on a range of behavioral intervention strategies.

Alameda County is aiming to increase access to and sustainability of behavioral health services for students through its countywide participation in the Children and Youth Behavioral Health Initiative (CYBHI) **Multi-Payer Fee Schedule**. This will provide sustainable revenue streams for additional behavioral health services provided by school districts.

Expanded Learning Time

In recent years school districts countywide have expanded school-based after-school programming. These programs incorporate a range of enriching activities - including academic assistance, arts, sports, service learning and other vehicles to engage students' meaningfully in their schools and promote positive relationships with their peers and caring adults, while building students' academic, pro-social, and 21st century skills. These assets are crucial in helping reduce behavioral problems in school leading to suspension or expulsion.

Career Pathways

Increased attention has been given to Career Pathway over the past decade. Districts are required to describe the services offered as evidence of the College and Career State Indicator in the LCAP. Pathway programs are designed to make students' education more engaging and equip students to graduate from high school prepared for college, career, and productive life in the community. Pathway programs help the highest-need students, including those who have been expelled, to better understand the relationship between their education and their future; provide opportunities to be exposed to and become motivated regarding particular career paths; and build skills that will better equip them to function smoothly in school and in life.

Re-Entry Programs

Re-entry programs have expanded over several districts throughout the county. Oakland Unite sponsors Welcome Circles to accept youth back into the school community after being expelled. Some districts provide a case manager, life coach or mentor who provides individual support and encouragement for each student.

Incarcerated Students Transitions

Expelled students who are enrolled in County Community Schools sometimes find themselves in Alameda County's Juvenile Justice Center (JJC), where they become court school students (Butler Academic Center). When a student is released from the JJC, they are supported by ACOE staff in transitioning back to either their last school of attendance and/or their school of origin. Expelled students who had been enrolled in an ACOE community school prior to incarceration, are expected to return to the County Community School to complete their rehabilitation plans established by the referring district.

In ACOE's JJC Transition Center, student enrollment and expulsion status is confirmed in our student information system (AERIES) as well as CALPADS. ACOE Transition Center staff contact the Community School principal to make sure any concerns are addressed while the student re-enters immediately into the school without delay. The Transition Center education liaison follows up on the student after release and provides case management support, if needed.

Educational Service Gaps & Strategies

Assessment of 2021-2024 Countywide Plan Strategies

Service Gap #1

Transportation for Students to County Community Schools

2021 Strategy

Travel to County Community School sites for expelled or at-risk students is a barrier for some students, especially those living in the eastern and southern regions of Alameda County. To address this problem, bus passes are provided on a case-by-case basis and in collaboration with the district.

Was the strategy successful or not? Why and how?

This strategy has helped some students overcome transportation barriers, however, transportation remains a consistent barrier for student attendance.

Were any additional strategies implemented? If so, why and how were they successful or not successful? If they were not successful, what additional measure(s) or approach(es) were taken and what were the outcomes?

ACOE schools sites began participation in the BART reduced-fee Clipper Card program. That has been helpful to some students, though the program only reduces fees by 50%, so there is still a financial barrier that some students face.

ACOE also implemented a contract in 2023 with HopSkipDrive. Due to the significant cost of HopSkipDrive rides for students, access has been limited to students experiencing homelessness and middle school students.

Service Gap #2:

K-6 Alternative Programming

2021 Strategy

Expelled students who are in grades K-6 do not have the same educational options available as do their 7-12 counterparts. The K-6 expelled students cannot be merged or combined with 7-12 expelled students. Currently, the districts are responsible for providing educational services for K-6 expelled students.

Was the strategy successful or not? Why and how?:

This concern has been diminishing since the 2015 Plan as fewer K-6 students are being expelled. Since the 2018 Triennial Plan, the previously identified gap has become a relative non-issue as districts have built strong prevention and intervention strategies to avoid expulsion of younger students. County and district efforts are focused on prevention and intervention strategies including behavioral Response to Intervention programs, restorative justice approaches, mental health services, and after-school programs in elementary and middle schools.

Were any additional strategies implemented? If so, why and how were they successful or not successful? If they were not successful, what additional measure(s) or approach(es) were taken and what were the outcomes?

No additional strategies were implemented.

Service Gap #3

Continued Funding to support Alternative Education

2021 Strategy

The number of students in need of County Office Alternative Education declined significantly from 2015-2022, creating a funding gap and a revenue loss.

Was the strategy successful or not? Why and how?

Opportunity Academy is a Charter school that opened in September 2017 and was readily embraced by the districts, students and their families. The flexible hours, 130 credit diploma and the emphasis on career readiness make it an attractive option. Unlike the other ACOE Community School offerings, districts cannot “refer” students to the Opportunity Academy. Students can elect to leave their home district and attend Opportunity Charter. For some youth, this may be the best option. This additional ACOE program offering has strengthened the overall foundation for the ACOE Division of Student Programs and Services as well as filling a gap in terms of programming.

Were any additional strategies implemented? If so, why and how were they successful or not successful? If they were not successful, what additional measure(s) or approach(es) were taken and what were the outcomes?

Additionally, a statewide coalition, with significant leadership and participation from ACOE staff, led a successful effort for the State of California to increase funding for county-operated student programs starting in the 2023-24 school.

Service Gap #1

Expelled Students are Struggling to Access Counseling Resources Necessary to Meet District Readmission Requirements

In recent years, ACOE was able to provide only limited on-site counseling services for enrolled students. This resulted in students and families needing to seek counseling services from external agencies referred by ACOE or secured independently by families. The lack of on-site access created an additional burden on families for students to access counseling elsewhere and outside of the school day (or students would miss significant school time if counseling occurred off-site during the school day).

Over the past year, ACOE has made significant strides to address this gap, primarily through the addition of contracted on-site counselors. However, funding for the additional counselors is from one-time funding sources, so sustainability of funding and services will need to be addressed in the coming years. Additionally, there continues to be a need for specific drug counseling and anger management counseling specialists.

Strategies

1. ACOE will increase its utilization of the LEA BOP and begin participation in the Multi-Payer Fee Schedule in order to draw down reimbursements for behavioral health services provided by ACOE providers. This will provide additional revenue to sustain more on-site counseling services for students.
2. ACOE will contract with providers to provide on-site counseling services and will contract or hire staff that can help students meet drug counseling and anger management counseling needed for students and sometimes required for district readmission.
3. Districts will consider broadening their definition of what will qualify as counseling for readmission requirements. For example, Union City Youth and Family Services operates a mentorship program that now counts as counseling based on New Haven USD's board approval of the mentorship program as a qualifying counseling program.
4. Districts will help families understand what resources are within the district area, especially drug counseling.
5. ACOE and districts will collaborate to support students who are monolingual speakers to receive counseling in their home language, including possible use of

district's counseling services or resources for students who need counseling in a language not available from ACOE's counseling services.

Service Gap #2

Capacity for County Community Schools to Comprehensively Serve Referred IEPs

Strategies

1. By December 31, 2024, ACOE will conduct a review of IEPs served over the past 5 school years. ACOE will analyze which special education services were provided by ACOE and which were provided by districts to help determine if/how ACOE can increase its special education services to meet the needs of all special education students referred to ACOE.
2. District special education staff and ACOE special education staff will meet after a student's manifestation determination review and disciplinary hearing panels but prior to the district taking an expulsion to the district board (Pre-Referral IEP Review Meeting).
3. Student Services Council members, district special education directors, and Alameda County SELPA directors will convene periodically to review and consider updates to the Countywide Plan for Expelled Students in order to identify strategies to meet the needs of all expelled students with IEPs.

Service Gap #3

Transportation Continues to Be a Barrier to Attendance at County Community Schools

Strategy(ies)

1. By December 31, 2024, ACOE will complete a transportation assessment that reviews 5-year historical trends of student live-go data, school site locations, public transportation routes, and the feasibility of other transportation options, such as funding sources for HopSkipDrive, or ACOE-provided transportation. Based on this assessment, ACOE will implement a comprehensive transportation plan that ensures transportation access to County Community Schools for all students by June 30, 2025.

Alternative Placements For Pupils Who Are Expelled And Placed In District Community Day School Programs, But Fail To Meet The Terms And Conditions Of Their Rehabilitation Plan Or Pose A Danger To Other District Pupils, As Determined By The Governing Board

If an initial placement is made to a district-operated educational program and the student commits an expulsion offense or fails that program, the school district board of education shall review the rehabilitation plan that is established at the time of the expulsion and make the necessary adjustments. If there is no appropriate educational alternative within the district, the student may be referred to the County Community Schools Program.

Some school districts use the Alameda County Community Schools Program as an educational option for those students mandatorily expelled under provisions of the Education Code and/or district policy. The Community Schools Program is a permissive educational option, which provides the local school districts with another educational alternative for its expelled students.

Students expelled pursuant to Education Code Sections 48900-48900.8 and 48915 who are enrolled in the County Community Schools and who fail a County Community School placement will be referred to another County School educational program, if appropriate. When the students exhaust the County Community Schools resources, these students will be referred back to the school district of residence for a review of the rehabilitation plan and possible placement into another alternative educational setting (per Education Code Section 48915(f)).

Existing Educational Alternatives for Expelled Students Offered by Districts

Educational alternatives provided by the California school districts vary and some are not available to all expelled students. Proper placements must be based upon the seriousness of the offense, location of the offense, and grade level of the student. These factors have the potential to restrict the educational alternatives offered for these students during their expulsion period. The existing educational alternatives for expelled and high risk students offered by each of the school districts in Alameda County are identified on the following pages.

Alameda Unified School District

Alameda Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

The Alameda Unified School District believes it is essential that students enjoy a secure learning environment, with a sense of order and high expectations. During the 22-23 school year, Alameda Unified School District revamped their discipline matrix. The resulting [AUSD Positive Behavior Expectations and Discipline Matrix](#) outline the district's values around positive behavior and discipline strategies.

We believe that schools can support families in helping students develop a sense of personal responsibility. Discipline guidelines are created to promote consistency in dealing with unacceptable behavior, with an understanding that students are likely to make good choices when they clearly understand the rules and the consequences for engaging in behavior that is not appropriate for a school setting.

School discipline should be consistent, reasonable, fair, age appropriate, and matched to the severity of the student's misbehavior. Consequences that are paired with meaningful interventions, instruction and guidance (corrective feedback and re-teaching) offer students an opportunity to connect their misconduct with new learning, participate in contributing back to the school community, and are more likely to result in re-engaging the student in learning. Any use of consequences should be carefully implemented with well-defined outcomes in order to provide the greatest benefit

Alameda Unified Positive Multi-Tiered Systems of Support

Per [Board Policy 5144](#): The Board desires the adoption of a Multi Tiered System of Support to facilitate a consistent approach for positive, prosocial behavior management. The District expects teachers to attempt interventions prior to making a referral out of the classroom except where suspension for a first offense is permitted or mandated by law.

Each school is responsible for incorporating a Multi Tiered System of Support (MTSS) wherein schools provide a tiered system of academic and behavioral supports to enable all students to equitably access the core curriculum. Each school site will incorporate these practices... to reduce referrals and suspensions through proactive intervention, positive behavioral support, restorative practices, and other non-punitive approaches to discipline.

AUSD subscribes to the principle that discipline should be viewed as a positive concept. In exercising discipline, the ultimate goal should be to help each student develop self-control and self-discipline. AUSD believes in the principle that a student grows from dependence to independence. As students grow toward independence, acceptable behavior includes respect for constituted authority, respect for the rights of others, and development of high personal standards. It is therefore an obligation of the schools to provide experiences which lead toward a student's self-discipline and independence.

AUSD recognizes its responsibility to provide an orderly environment that is conducive to the development of self-discipline and academic achievement. An individual who fails to develop sufficient self-discipline to function properly in a classroom constitutes an impediment to the progress of their classmates. In that event, it is the responsibility of the educators to protect the rights of all students to an education.

The best alternative to suspension is prevention. Alternatives to suspension are utilized with all students in a consistent and age-appropriate manner with an emphasis on teaching and learning the skills necessary to enhance a positive school climate. No student shall be suspended or expelled for willful defiance.

AUSD does not encourage exclusionary discipline, especially if a lesser intervention, consequence, or other means of correction will adequately address the violation. The best alternative to suspension is prevention. Other means of correction or alternatives to suspension are utilized with all students in a consistent and age-appropriate manner with an emphasis on teaching and learning the skills necessary to enhance a positive school climate.

Expulsion Process

Alameda Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation, which includes a manifestation determination for students with a 504 or an IEP. The focus is on making decisions that will provide the student with opportunities to continue to make

progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

When a student has been recommended for expulsion an Extension of Suspension meeting is scheduled with the Coordinator of Student Services, the student, caregivers and/or family members. The agenda of the meeting include the following:

- Purpose of the meeting
- Timeline of the process
- Describe the process and the role each person plays in the process.
- Review the options that the student and family have (Administrative Hearing Panel or Stipulated Expulsion)
- Review with them the incident and Notice of Charges.
- Inform and give the Board Policy and Ed Code on suspension and expulsion to the guardian.
- Provide an opportunity for a student to give his/her statement, receive input from the guardian and review the expulsion file.
- Extend the suspension
- Set up student to continue receiving classwork and receiving credit while on suspension
- Answer any questions they may have throughout the process

A follow up meeting is scheduled with the parent/guardian and student for the following week, allowing them time to review the expulsion packet. At the follow-up meeting the parent/guardian and student are encouraged to ask any questions they may have after reviewing the packet. The Coordinator of Student Services will then review the options that the student and family have (Administrative Hearing Panel or Stipulated Expulsion).

Throughout the entire process parents/guardians are encouraged to ask questions to ensure understanding.

District school site teams are expected to look at other means of correction prior to moving towards expulsion. The district will rarely look at recommending an expulsion if it is not listed as a mandatory expulsion.

The following are the descriptions of the district's educational alternatives and other services for expelled students:

Expelled Students (Grades 7 to 12)

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent

student options to meet the student's needs. Participation in mental health services may be recommended or required.

Expelled Students (Grades K to 6)

Students in grades K to 6 who are expelled are placed on suspended expulsion and transferred to another school within the district. Students and their families are required to participate in school-based counseling and/or referred to off-site mental health services.

Suspended Expulsions (Grades K to 12)

In certain cases, suspending the expulsion order and allowing the student to attend school at a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Transfer to another school within the district (Grades K to 6)

Students in grades kindergarten through fifth grade may be placed at another elementary school in the district. This provides the student with a fresh start or access to special educational services which are not available at their neighborhood school of residence.

Transfer to another school within the district (Grades 7 to 12)

Students in grades 7 to 12 may be placed at another middle or high school in the district. This provides the student with a fresh start or access to special educational services which are not available at their neighborhood school of residence.

District Operated Alternative School

Island High School provides students with an alternative educational setting to continue their learning. The smaller school setting allows for more individualized attention to student needs. Students are placed at Island as allowed by law.

Island High is a continuation school and is different from most traditional high schools in the state of California, in that it allows students to earn at the minimum of 7.5 credits every semester, instead of the usual 5 at a traditional high school. Moreover, the school doesn't give out "F" grades; instead, a "No Mark" is given in lieu of a failing grade. "F" and "NM" grades do not give

credit. Students are also given credit through special optional assignments called Contracts, and can earn credits in a class by taking Challenge Exams, which, if passed, apply 5 credits in the exam's subject area, which is worth a semester of credits at a traditional high school.

Island High follows the same calendar as the rest of the Alameda Unified School District. However, instead of splitting the year into four nine-week-long quarters like a traditional high school, Island splits its year into six hex-mesters, each six weeks long. Students can earn 2.5 credits per hex, allowing 7.5 credits per semester in every class. Additional credits can also be earned by completing academic contracts. Semester end dates and holidays are the same as the other high schools in the district.

The student body of Island High has always been relatively small, with approximately 70 students. Most students at Island High are transfer students from Alameda and Encinal High Schools who need credit recovery options. Once a student has a certain number of credits, he or she may choose to transfer back to their traditional home school. Few students actually choose to do this.

Despite being a continuation school, the diploma received at Island High is recognized just like one from a traditional high school in California.. The day a student successfully completes all graduation requirements is the day that they graduate. Given the many ways to earn credit at Island High, graduation can occur on any regular school day. Students who graduate midway through the school year are invited back in June to participate in a commencement ceremony.

District Operated Independent Study Program

Independent Study is an alternative program for high school and some middle school students offered by Alameda Unified School District. Instead of attending classes at school, students meet with a teacher 60-90 minutes each week, then complete all assigned work at home.

Independent Study is on the quarter system. Each student takes 3 classes per quarter. For each class there is about 10 hours of work each week. Students must attend their weekly meetings with their teachers. Students may request to take a class at their home school if it is not offered through Independent Study.

District Operated Home Based Instruction

Home based instruction is provided to students in particular circumstances. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the comprehensive school. Home Instruction is provided in the student's home for any student physically or emotionally unable to attend school for a period of at least three weeks. A health related recommendation from a licensed physician or psychiatrist is required for home instruction.

Specialized Placement or Program

In some cases, expelled students are placed or referred to specialized programs. Placement is informed by the student's needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled but may be placed into an educational environment that is supportive of their needs and in compliance with their IEP.

Referral to County Operated Community School

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Students who fail to reach their rehabilitation plan are transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the Alameda County Office of Education

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Students who are expelled receive support from the district. District Administrators and/or Counselors communicate with families and make referrals for counseling and other social services. In addition, they continue contact with the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the home district.

Albany Unified School District

Albany City Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Caregivers and family members are always included in the process.

The expulsion process follows all state laws, guidelines and applicable education codes. In accordance with our District's Board policy, families who are recommended for expulsion are contacted by the District's expulsion coordinator to review the expulsion process and all available options for expulsion and rehabilitation.

Additionally, our district seeks to prevent expulsions when at all possible. We use preventative approaches by implementing PBIS and restorative practices. Our district's primary initiatives include MTSS, UDL, and Culturally Responsive Practices which is implemented through professional development, lesson protocols, classroom practices, and schoolwide protocols. In matters of response to behavior we take a two pronged approach that integrates restorative justice with some more traditional disciplinary practices when appropriate.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 7 to 12)

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required. If a student has an IEP, there may be opportunities to have that student serve their expulsion at a school within our SELPA.

Expelled Students (Grades K to 5)

Students in grades K to 6 who are expelled are placed on suspended expulsion and transferred to another school within the district. Students and their families are required to participate in (school-based) counseling or referred to (off-site) mental health services.

Suspended Expulsions (Grades K to 5)

In certain cases, suspending the expulsion order and allowing the student to attend school as a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and

placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Transfer to another school within the district (Grades K to 5)

Students in grades kindergarten through fifth grade may be placed at another elementary school in the district. This provides the student with a fresh start or continued access to services available in the district of residence.

Transfer to another school within the district (Grades 10 to 12)

Students 16 or older may be placed in the District's alternative high school. This provides the student with a fresh start.

Inter-District Transfer to another school district

A student is involuntarily transferred to another school district if the student is currently on an inter-district transfer and commits an expellable offense. The inter-district transfer is revoked and the student is returned to his/her home school. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Alternative School

MacGregor High School provides students with an alternative educational setting to continue their learning. The smaller school setting allows for more individualized attention to student needs. Students are placed at MacGregor High School as allowed by law. MacGregor High School serves students 16 years old or older and provides credit recovery in smaller classes with a reduced instructional day.

District Operated Home-Hospital Based Instruction

Home based instruction is provided to students in particular circumstances. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the comprehensive school.

District Operated Online or Virtual Education Program

Albany High School with credit recovery or through Home Hospital uses online programs when appropriate. **Specialized Placement or Program**

These services are not offered.

Referral to County Operated Community School

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Students who fail to reach their rehabilitation plan are transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Students who are expelled receive Case Management support from the district. District staff communicate with families and make referrals for counseling and other social services. In addition, they continue contact with the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the home district.

Berkeley Unified School District

Berkeley Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

Berkeley Unified School District Board Policy 5144.3-Expulsion

The Governing Board is dedicated to implementing graduated discipline practices and policies that aim to keep all our students in class, receiving instruction and support. Expulsion from school is an extreme and severe disruption of the educational process, and shall be reserved for behavior that requires expulsion process, and shall be reserved for behavior that requires expulsion under law or that poses a serious future threat to the safety of students or staff.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 7 to 12)

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Expelled Students (Grades K to 6)

Students in grades K to 6 who are expelled are placed on suspended expulsion and transferred to another school within the district.

Suspended Expulsions (Grades K to 12)

In certain cases, suspending the expulsion order and allowing the student to attend school at a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Transfer to another school within the district (Grades K to 6)

Students in grades kindergarten through fifth grade may be placed as another elementary school in the district. This provides the student with a fresh start or access to special educational services which are not available at their neighborhood school of residence.

Transfer to another school within the district (Grades 7 to 12)

Students in grades 7 to 12 may be placed as another middle or high school in the district. This provides the student with a fresh start or access to special educational services which are not available at their neighborhood school of residence.

Inter-District Transfer to another school district

A student is involuntarily transferred to another school district if the student is currently on an inter-district transfer and commits an expellable offense. The inter-district transfer is revoked and the student is returned to his/her home school. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Alternative School (Grades 10-12)

Berkeley Technology Academy (BTA) serves students 16-18 years of age. This program provides students with an alternative educational setting to pursue the core curriculum of the District. The smaller school setting allows for closer attention to individual student needs. Students on a suspended expulsion may be placed at BTA, as allowed by the law.

District Operated Independent Study Program

Independent study may be provided for students in particular circumstances who are not expelled (Education Code does not allow districts to place expelled students on independent study). Students will arrange to meet with credentialed teachers within the structure of the particular program they are participating in.

District Operated Home Based Instruction

Home-based instruction is provided to students in particular circumstances. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the comprehensive school.

Home & Hospital Instruction (HHI) is available to all Berkeley Unified students who are unable to attend school for extended periods of time due to physical or mental incapacity. Students must have authorization from a medical doctor and the school district to enroll. The student that is

approved must have a need to be out of the school on record for 30 days or more. HHI is individualized instruction that is available to students with temporary disabilities whose disability makes attendance in the regular day classes or alternative education program in which the student is enrolled impossible or inadvisable.

District Operated Online or Virtual Education Program: These services are not provided

Referral to County Operated Community School: Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory may be referred to Alameda County Community Schools. These schools and programs are specially designed to educate expelled students and offer a variety of classroom-based and independent study options to meet the student's needs. Participation in mental health services may be recommended or required.

Referral to County Operated Independent Student Program: Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education

In Lieu of Expulsion:

In certain expulsion cases, suspending the expulsion in lieu of other serious disciplinary outcomes may be appropriate for a student.

Rehabilitation Plan, Transition and Support: All Berkeley Unified School District students who are expelled automatically receive a Rehabilitation Plan. Rehabilitation plans include counseling, community service, positive attendance, progress towards graduation, and positive behavior requirement (student will not commit any suspendable or expellable offense under Education Code sections 48900 et seq.; violate any school rules, District policies; or, violate any other laws).

Castro Valley Unified School District

Castro Valley Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 7 to 12)

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent study options to meet the student's needs. Participation in counseling or mental health services is typically required.

Expelled Students (Grades K to 6)

Students in grades K to 6 who are expelled are placed on suspended expulsion and transferred to another school within the district. Students and their families are required to participate in (school-based) counseling or referred to (off-site) mental health services.

Suspended Expulsions (Grades K to 12)

In certain cases, suspending the expulsion order and allowing the student to attend school at a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Code. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary status, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion may be revoked, which would result in the student being placed in an appropriate alternative educational setting.

Transfer to another school within the district (Grades K to 5)

Students in grades Kindergarten through fifth grade may be placed at another elementary school in the district. This provides the student with a fresh start or access to special educational services which are not available at their neighborhood school of residence.

Transfer to another school within the district (Grades 6 to 12)

Students in grades 6 to 12 may be placed at another middle or high school in the district. This provides the student with a fresh start or access to special educational services which are not available at their neighborhood school of residence.

Inter-District Transfer to another school district

A student is involuntarily transferred to another school district if the student is currently on an inter-district transfer and commits an expellable offense. The inter-district transfer is revoked and the student is returned to his/her home school. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Alternative School

Redwood Continuation High School provides students with an alternative educational setting to continue their learning. The smaller school setting allows for more individualized attention to student needs. Students are placed at Redwood Continuation High School as allowed by law. The smaller school setting allows for closer attention to individual student needs, and provides credit deficient students with the opportunity to get caught-up and back on-track for graduation.

District Operated Independent Study Program

Redwood Independent Study (Grades 9-12) is an independent study program operated by the Castro Valley Unified School District. The decision for approval is based on individual circumstances and the ability to work independently. Students come to independent study once or more times per week and spend a minimum of one hour with their teacher. Students receive weekly assignments during their scheduled appointment time, and are expected to spend a minimum of twenty hours per week on academic work.

The program helps students pursue the educational requirements of the Castro Valley Unified School District. The nature of the independent study program gives students the opportunity to personalize their instruction and the freedom to utilize resources and activities to create an exciting and flexible educational experience. While attending independent study, students may take courses concurrently at the local community colleges and the Eden Area Regional Occupation Program.

District Operated Home Based Instruction

Home-based instruction is provided to students in particular circumstances. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the comprehensive school. The student will meet with an appropriate credentialed teacher for a

minimum of one-hour per week. The instruction is provided to keep the student up to date with assignments when the student cannot attend the regular, comprehensive school setting.

District Operated Online or Virtual Education Program

Castro Valley Unified School District provides curriculum through an online learning platform. The Castro Valley Virtual Academy (CVVA) provides a full time or concurrent option for students and currently serves students in grades 9 to 12 in a rigorous A-G program. The CVVA offers weekly workshops with highly qualified teachers to support student work and provide direct instruction.

Specialized Placement or Program

In some cases, expelled students are placed or referred to specialized programs. Placement is informed by the student's needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled but may be placed into an educational environment that is supportive of their needs and in compliance with their IEP. Castro Valley Unified School District partners with area Non Public Schools (NPS) to provide specialized academic instruction and related services for students who required an alternative placement. The students are provided with all services included in their Individualized Education Plan (IEP) and are case managed by District special education staff to ensure access to their education. Students may receive educationally related mental health and behavior intervention services as appropriate while in the alternative placement.

Referral to County Operated Community School

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are specially designed to educate expelled students and offer a variety of classroom-based and independent study options to meet the student's needs. Participation in mental health services may be recommended or required.

Students who fail to reach their rehabilitation plan while serving a suspended expulsion may be transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education upon mutual agreement between all parties.

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Students who are expelled from Castro Valley Unified School District receive Case Management support from district staff. Counselors and Social Workers communicate with families and make referrals for counseling and other social services. In addition, they continue contact with the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the home district.

Dublin Unified School District

Dublin Unified School District has a clearly delineated process for the expulsions of students per Board Policy and Administrative Regulation 5144.1. The district's process provides full due process for each student and their families in this challenging situation, including a manifestation determination for students with a 504, an IEP, or a suspected disability. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavioral outcomes. Whenever possible, parents/caregivers are included in the process.

When a student has been recommended for expulsion, a pre-expulsion meeting is scheduled with the Director of Student Services to determine if the expulsion process should be enacted. The Director of Student Services and parents/caregivers are in attendance. The agenda of the meeting includes the following:

- Purpose of the meeting is shared with the parent, which includes the following:
 - Timeline of the process
 - Extend the suspension
 - Set up the student to continue receiving classwork and receiving credit while on suspension.
 - Share the two options parents/caregivers can choose in the process
 - Inform and give the Board Policy and Ed Code on suspension and expulsion to the parent/caregiver.
 - Describe the process and the role each person plays in the process. Provide an opportunity for a student to give their statement, receive input from the parent/caregiver, and review the expulsion file.

If it is determined the expulsion process should move forward, the Director of Student Services will share the following options:

- *Option 1: Administrative Hearing Panel* the following information is shared:
 - Scheduled 10 days out to give caregivers/guardians time to obtain legal counsel if they wish. A panel of impartial administrators within the district does not know the student or the family.
 - Panel will review the expulsion file and listen to testimonies given on both sides.
 - Have three days to deliberate and give their decision. Before or on the third day, Director of Student Services contacts parents/guardians to inform them of the recommendation to the Board.
 - Share the final decision-making body is the Board of Trustees, with the expulsion file reviewed and discussed in close session with the student assigned a case number.

- At the next board meeting, decide to accept, recommend, or go in another direction.
- **Option 2: Stipulated Expulsion** and the following is shared:
 - Waive the right to an administrative hearing.
 - Student admits guilt.
 - Expulsion recommendation with a rehabilitation plan to go to the Board is shared.
 - Parents/guardians sign off.

Through the process, parents/guardians are encouraged to ask questions and follow up with the process.

The following are the descriptions of the district's educational alternatives and other services for expelled students.

Expelled Students (Grades 6 to 12)

Students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are specially designed to educate expelled students and offer various classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Expelled Students (Grades K to 5)

Students in grades K to 6 who are expelled are placed on suspended expulsion and transferred to another school within the district. Students and their families must participate in (school-based) counseling or referred to (off-site) mental health services.

Suspended Expulsions (Grades K to 12)

In certain cases, suspending the expulsion order and allowing the student to attend school in a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Intra-district transfer to another school within the district (Grades K to 5)

Students in grades kindergarten through fifth grade may be placed at another elementary school in the district. This provides the student with a fresh start or access to special educational services that are not available at their neighborhood school of residence.

Intra-district transfer to another school within the district (Grades 6 to 12)

Students in grades 7 to 12 may be placed at another middle or high school in the district. This provides the student with a fresh start or access to special educational services that are not available at their neighborhood school of residence.

Inter-district transfer to another school district

A student is involuntarily transferred to another school district if the student is currently on an inter-district transfer and commits an expellable offense. The inter-district transfer is revoked, and the student is returned to his/her home school. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the student's best interest.

District-Operated Alternative School-Voluntary(Continuation High School):

Valley Continuation High School is the Alternative Education High School for Dublin Unified School District. Valley students are afforded a program that provides a lower teacher-to-student ratio, an opportunity to make up credit deficiencies, and a setting designed to support students with social, emotional, and academic concerns. When necessary, the Hume Center and Axis Community Health provide mental health counseling services to Valley students.

Valley High has a long tradition of being an inclusive small community for learners who want to earn a diploma but who need flexibility as well as structure to achieve their goals. Valley High School prepares students to be critical thinkers, collaborators, effective communicators, and positively contributing global citizens.

District-Operated Independent Study Program

Edgenuity is an independent study program operated by the Dublin Unified School District. The decision for approval is based on individual circumstances and the ability to work independently. This online program includes a meeting with a teacher once a week at an alternative site and is available for grades 7 through 12.

District Operated Online or Virtual Education Program:

York Alternative Learning Center. DUSD families can enroll in the York Alternative Learning Center (YALC). 6th-12th grade students work on their Edgenuity classes at home, complete tests in person at the Valley High School Campus, and meet with a teacher at least once a week.

Students who are full-time at YALC, taking four or more classes, are required to check in daily; a variety of communication modes are used: text, email, zoom, and phone calls.

District Operated Home-Based Instruction:

Home/Hospital-based instruction is provided to students in particular circumstances that are generally medical in nature. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the comprehensive school. This is a short term placement (9 weeks) to support students while they are unable to physically attend school. The school site administrator approves participation in the program upon discussion with the student, parent, counselor, physician, and often teachers. Students served through the home-based instruction program have a note from a physician indicating why the student would need this setting and the anticipated return date.

Specialized Placement or Program

In some cases, expelled students are placed or referred to specialized programs. Placement is informed by the student's needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled but may be placed into an educational environment that is supportive of their needs and in compliance with their IEP. Specialized programs are recommended through the IEP process. This process is available to grades 3 through 12.

Referral to County Operated Community School

Students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are specially designed to educate expelled students and offer various classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Students who fail to reach their rehabilitation plan are transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition, and Support

Students who are expelled receive Case Management support from the DUSD social worker. Student Services Staff communicate with families and make referrals for counseling and other social services. In addition, they continue contact with the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the home district.

Emery Unified School District

Emery Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

When a student is referred for an expulsion for any acts other than those enumerated in 48915(c), the District and the Board considers secondary findings, in addition to evidence confirming the allegations. These additional findings include whether the student has received appropriate interventions to correct and/or change his/her behavior.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 7 to 12)

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Expelled Students (Grades K to 6)

Students in grades K to 6 who are expelled may be placed on suspended expulsion and provided with Home Instruction, Independent Study (at parent request), or granted an InterDistrict Transfer out of the District. Students and their families may be required to participate in (school- based) counseling or referred to (off-site) mental health services.

Suspended Expulsions (Grades K to 12)

In certain cases, suspending the expulsion order and allowing the student to attend school at a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Inter-District Transfer to another school district

A student is involuntarily transferred to another school district if the student is currently on an inter-district transfer and commits an expellable offense. The inter-district transfer is revoked and the student is returned to his/her home school district. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Independent Study Program (Grades 6-12)

Emery Unified School District provides an independent study program through either teacher prepared work packets or an on-line program. The District has adopted and modified the curriculum from the Edgenuity online program to meet EUSD standards and course requirements. Students access the course work electronically from home or community locations. Both options include weekly meetings with a teacher to review work, take tests, and grade essays. The decision for approval is based on individual circumstances and the ability to work independently.

District Operated Home Based Instruction (Grades K-6)

Home based instruction is a short term program of 5 hours per week, designed to accommodate students in particular circumstances. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the comprehensive school. A home teacher coordinates school work with the school site and assists the student in maintaining progress until the student can return to school.

Specialized Placement or Program (Grades K-12)

In some cases, expelled students are placed or referred to specialized programs. Placement is informed by the student's needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled but may be placed into an educational environment that is supportive of their needs and in compliance with their IEP. Specialized programs may include those located in districts other than the student's home district through the North Region SELPA placement process, or Non-Public Schools.

Referral to County Operated Community School (Grades 7-12)

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Students who fail to reach their rehabilitation plan are transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Students who are expelled receive Case Management support from the district. Counselors communicate with families and make referrals for counseling and other social services. In addition, they continue contact with the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the home district.

Fremont Unified School District

Fremont Unified School District has a clearly delineated process for the expulsion of students per Board Policy & Administrative Regulations 5114. The District provides full due process for each student and their families in this challenging situation which includes a manifestation determination for students with a 504 or an IEP. The District's focus is on making decisions that will provide the student with opportunities to remedy the behavior for which the expulsion recommendation has been made. This also provides the student with the opportunity to continue making progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

Students on a suspended expulsion who fail to meet the conditions of their expulsion order and rehabilitation plan may be transferred to the Alameda County Community School at any time.

Expelled Students (Grades 7-12) / Referral to County Operated Community School/Program

Students in grades 7-12 who are expelled from the Fremont Unified School District are referred to an Alameda County School/Program with a rehabilitation plan. These schools and programs are designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required as part of the student's rehabilitation plan.

These students may apply for QUEST independent study program operated by the Alameda County Office of Education.

Expelled Students / Suspended Expulsion (Grades K-6)

Students in grades K-6 who are expelled are placed on suspended expulsion with a Rehabilitation plan and transferred to another school within the District. Individual student counseling is required and family counseling is highly recommended at no cost to the District.

Expelled Students / Suspended Expulsion (Grades 7-12)

When a student is expelled, the District believes that sometimes this is a more appropriate placement than expelling to an Alameda County school/program. Therefore, the district will place a student on a suspended expulsion which allows the student to attend another comprehensive school or a District operated alternative school/program in the Fremont Unified School District with a rehabilitation plan. In addition, when a student has an IEP, the Special Education Department is consulted to ensure the student receives FAPE.

Placement in every suspended expulsion matter is determined on a case-by-case basis. Placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and

California Education Codes. During the term of the suspended expulsion, the student must meet the conditions set forth in the rehabilitation plan to continue attending the assigned site.

Students on a suspended expulsion who fail to meet the conditions of their expulsion order and rehabilitation plan may be transferred to the Alameda County Community School at any time.

District Operated Alternative School (Robertson Continuation High School)

Fremont Unified School District provides students with an alternative educational setting to continue their learning. Students on a suspended expulsion may be placed at Robertson High School as allowed by law. (16 years of age, teen parent or pregnant minor, McKinney-Vento/Foster Youth).

The program at Robertson High School is designed to assist students in earning a high school diploma, college and career readiness, developing vocational skills, and providing an opportunity for personal growth. The program is designed to allow students the opportunity to make up academic deficiencies and provide the student with a smaller learning environment. This setting allows for more individualized attention (22 to 1 student-teacher ratio) to better meet student needs. At Robertson, a student can complete classes in an accelerated manner, earning more than 80 credits per year. Students are encouraged to take additional coursework either on campus, at ROP, or adult school (if 18 years of age).

District Operated Independent Study Program (Vista Independent Study Program)

Students on a suspended expulsion may request placement at Vista (parent/guardian request only). Vista is an independent study program operated on the Robertson High School campus by the Fremont Unified School District for students in grades 7-12. A referral form to this program is completed at the assigned site and forwarded to Vista. The decision for approval is based on individual circumstances and the ability to work independently. If the student is not successful in this program, the student will be returned to the assigned school/program.

Intra-District Transfer to another site (Grades K-12)

An expelled student may apply for an intra-district transfer to another school only if both sites agree that the placement is in the best interest of the student. The intra-district transfer may be revoked by the receiving school at any time and the student returned to the assigned site.

Inter-District Transfer to another school district (Grades K-12)

An expelled student may apply for an inter-district transfer to another district only if both the districts agree that the placement is in the best interest of the student. The inter-district transfer may be revoked by the receiving district at any time and the student returned to the home district.

Home-Hospital Instruction for students with an IEP or 504 plan (Grades K-12)

In rare circumstances, a student shall be placed on a suspended expulsion into home-hospital instruction if it is determined through the student's IEP or 504 plan that this is an appropriate placement. The student will receive a maximum of five (5) hours per week of instruction unless otherwise specified in the IEP.

Students who commit an offense that is a manifestation of their disability are not expelled but may be placed on Home-Hospital Instruction if the placement is the least restrictive environment for the student and it is in compliance with the student's IEP. The student will receive a maximum of five (5) hours per week of instruction.

District Operated Online or Virtual Education Program

These services are not provided.

Specialized Placement or Program

These services are not provided.

In Lieu of Expulsion (Grades K-12)

In rare cases, an administrative change of placement may be processed in lieu of recommending the student for expulsion.

A meeting is held with the student and parent/guardian to discuss the student's most recent disciplinary action. The student is placed on a Behavior/Performance Contract with a review to be held at the end of the current school year. Placement on a Behavior/Performance Contract does not minimize the seriousness of the student's actions and continued negative behavior may result in an expulsion recommendation.

Rehabilitation Plan, Transition and Support

All Fremont Unified School District students who are expelled automatically receive a Rehabilitation Plan, which includes but is not limited to 98% attendance, C+ grade average, counseling, community service, and a reflective essay to be submitted at the end of the expulsion term.

Hayward Unified School District

Hayward Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

Upon the determination that it is appropriate to extend the suspension of a student pending an administrative hearing (within the first 5 days of suspension), a hearing is scheduled and every student is referred for interim educational services through the Independent Studies program or the Home Study K-8 program at the Brenkwitz High School Campus.

Students with Individualized Education Plans (IEPs) are also provided interim services in accordance with their IEPs while the student is pending an administrative hearing and ultimately a final Board decision regarding student placement.

Administrative Hearing panel members hear each student case and based on the individual facts of each case, the needs of the student, and with a focus on the safety of all students on our campus', the panel makes a recommendation to the Board of Education that includes a suggested placement option, the length of expulsion and terms and conditions of an individualized Expulsion Rehabilitation Plan.

Upon review of expulsion hearing documentation and the recommendation of the Administrative Hearing panel, the Board of Education makes a final determination for each expulsion recommendation, formally placing the student in an educational setting for the duration of the expulsion term.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 7 to 12)

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in counseling services may be required as may community service.

Expelled Students (Grades K to 6)

Students in grades K to 6 who are expelled are placed on suspended expulsion and transferred to another school within the district. As part of the student's Rehabilitation Plan, the student is required to participate in counseling services and additional resources for support are shared with the family. The Intervention Counselors work with the student and their family, ensuring they are connected to resources and supporting the student to complete the Rehabilitation Plan within the term of expulsion.

Suspended Expulsions (Grades K to 12)

In certain cases, suspending enforcement of the expulsion order and allowing the student to attend school at a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting with the County Office of Education.

Transfer to another school within the district (Grades K to 6)

Students in grades kindergarten through sixth grade, who are expelled with a suspended enforcement, may be placed at another elementary school in the district. This provides the student with a fresh start and the opportunity to participate in a complete academic program in a comprehensive setting.

Transfer to another school within the district (Grades 7 to 12)

Students in grades 7 through 12, who are expelled with a suspended enforcement, may be placed at another middle or high school in the district. This provides the student with a fresh start and the opportunity to participate in a complete academic program in a comprehensive or alternative setting.

Inter-District Transfer to another school district

A student is involuntarily transferred to another school district if the student is currently on an inter-district transfer and commits an expellable offense. The inter-district transfer is revoked and the student is returned to their home school. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Alternative School: Brenkwitz Continuation High School

This program offers a support system that allows students who are not on track for graduation to experience educational success in a smaller, more structured learning environment. Brenkwitz emphasizes individual learning plans, occupational opportunities, standards-based core class instruction, and online credit recovery. All students have a counselor as well as an academic advisor.

District Operated Independent Study Program: Independent Study Program (grades 9-12)

Students meet with a teacher 2-3 times weekly working on district adopted standards based curriculum. All students and parents must sign a contract that is renewed every semester. Failure to comply with the terms of the contract or missed appointments will result in the student being returned to the home school of residence. Students must be able to work independently while keeping weekly appointments. The program is strictly voluntary.

Home Study K-8 Program (grades K-8)

Parents and legal guardians work in conjunction with a credentialed teacher to implement district approved, state adopted curriculum. The parent/legal guardian is the primary instructor at home and attends weekly appointments with the child and the child's teacher. Before enrolling in the program, students and parents must sign a contract.

District Operated Home Based Instruction

Home Based Instruction is provided within the district when an IEP determines that a student requires this type of service to best meet their individual learning needs. Home Based Instruction is not used as a placement for disciplinary reasons. Home Hospital Instruction is available to students who, due to medical necessity, must receive instruction in their home while they recover from a significant, short term disabling condition such as surgery, chemotherapy, etc. when they are not able to participate in any other regular program offered by the school district.

District Operated Online or Virtual Education Program

Service is not available

Specialized Placement or Program

In occasional cases, when a student's exceptional needs cannot be met in the programming available within the district or the programming available at the County operated programs, expelled students may be placed in specialized programs operated through other agencies by IEP team decision. Placement is informed by the student's assessed needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled, but are served in the

Least Restrictive Environment with appropriately supportive programming that meets the assessed needs of the student, as determined by the IEP team.

Referral to County Operated Community School

Students in grades 7 to 12 who are expelled for serious incidents where the Board finds that the student cannot be safely served on a district campus (48195 B2, E2) are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Students placed at district schools while their expulsion order is suspended, who then fail to meet the safety conditions of their rehabilitation plan by violating education codes 48900/48915, are transferred to the Alameda County Community School or Quest Independent Study Academy for the remainder of their term of expulsion.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education, program participation is based on the individual needs of the student and their family.

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Hayward Unified School District Intervention Counselors follow up with all students who have an open expulsion order, whether placed on District campus' or in County programs, to verify enrollment, support connections to services and to support the student and family to begin working on meeting the conditions of the Rehabilitation Plan that will lead to reinstatement to the district with regular student status.

Hayward Unified School District Intervention Counselors have positive working relationships with staff at all 30 district schools K-12 and staff in County programs and visit the sites weekly to see students, provide ongoing support and ensure ongoing, timely and accurate communication with staff where the student is placed and the District, ultimately to ensure a coordinated network is supporting each student to success.

For students with IEPs or 504 Plans, staff in the Student & Family Services department ensures connections are made between County staff and Hayward Unified School District staff so IEP

services and 504 accommodations are provided for eligible students with minimal gaps due to transitions between programs.

High-Risk Students:

Students across the district identified as possibly at-risk for expulsion based on student discipline data are also referred for support by the Intervention Counselors. The Intervention Counselors work with school site leadership and the Coordination of Services Teams (COST) at each site to ensure that students are connected to socio-emotional support resources, such as participation in student support groups, 1:1 counseling, case management and coaching of the classroom staff in behavior support strategies.

Livermore Valley Joint Unified School District

Livermore Valley Joint Unified School District (LVJUSD) has a clearly delineated process for the expulsion of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes.

The Livermore Valley Joint Unified School District believes it is essential that students enjoy a secure learning environment, with a sense of order and high expectations. We believe that schools can support families in helping students develop a sense of personal responsibility. Discipline guidelines are created to promote consistency in dealing with unacceptable behavior, with an understanding that students are likely to make good choices when they clearly understand the rules and the consequences for engaging in behavior that is not appropriate for a school setting.

School discipline should be consistent, reasonable, fair, age appropriate, and matched to the severity of the student's misbehavior. Consequences that are paired with meaningful interventions, instruction and guidance (corrective feedback and re-teaching) offer students an opportunity to connect their misconduct with new learning, participate in contributing back to the school community, and are more likely to result in re-engaging the student in learning. Any use of consequences should be carefully implemented with well-defined outcomes in order to provide the greatest benefit

The following are the descriptions of the District's existing educational alternatives for expelled students.

Expelled Students (Grades 6 to 12)

Students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required. Student participation in community service may also be required as part of the student's rehabilitation plan.

Expelled Students (Grades K to 5)

Students in grades K to 5 who are expelled are placed on suspended expulsion and transferred to another school within the District. For some students, a transfer to another comprehensive site allows a student a new start, or access to services that may not be available at the previous school site.

Suspended Expulsions (Grades K to 12)

In certain expulsion cases, suspending the expulsion order and allowing the student to attend school in the District is more appropriate than expelling the student to an out-of-District school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting. Students may also be required to participate in mental health services and community service as part of the student's conditions of their rehabilitation plan.

Transfer to another school within the District

Due to age constraints with programs offered through Alameda County Community schools students in grades kindergarten through 5th grade may be involuntarily placed at another school in the District. Students in grades 6 to 12 may be placed at another middle or high school in the District. This provides the student with a fresh start. Students who receive special education services may be referred to a school in the District where their educational needs are met in accordance with their IEP. The student is placed at another school in the District with probationary conditions outlined in the rehabilitation plan. Students have a period of time, up to a year, to meet the conditions and be considered for a return to the program from which they were expelled.

Inter-District Transfer to another school District

The only time a student is involuntarily transferred to another school District is if the student is currently in LVJUSD on an Inter-District transfer and commits an expellable offense or does not meet the academic, attendance, and behavior expectations of the District. In these cases, the Inter-District transfer is revoked and the student is returned to his/her home District. A student may be allowed to transfer to another school District only if both the family and the Districts agree that placement in another District is in the best interest of the student.

Continuation High School - Voluntary

Students may be placed at Del Valle Continuation High School as an alternative educational setting. The program provides a lower teacher to student ratio, an opportunity to make up credit deficiencies, and a setting designed to deal with at-risk students. Mental health counseling services are provided by the Hume Center, Horizons and Axis Community Health. Horizons provides career exploration speakers and one of our senior English teachers offers a transition class to help students transition to college or career. They provide a career pathway in culinary arts in which the

students test, qualify and earn the food handler's certificate as well as learn entry level culinary skills. Students are encouraged to enroll in ROP classes at the local high schools.

Independent Study – Voluntary

Vineyard Alternative School is a school of choice that offers an independent study educational program. Students in grades one through twelve have access to the curriculum and learning opportunities through the state approved independent study model. Students are assigned weekly appointments to meet with content area teachers to receive instruction. Therefore, students can be expected to be on campus one to three times per week based on the courses they are taking and their scheduled meetings which are at least forty-five minutes long each. Students are also offered the opportunity to attend a support class and math tutoring if they are in need of additional academic assistance. High school students are expected to complete at least twenty credits per trimester or sixty credits per school year in order to be on track to graduate. They also have the opportunity to recover credits or work at an accelerated pace as well as concurrently enroll at our local Community college to further their education.

Adult Education

When age appropriate, students transfer to the Adult Education program to work on a high school diploma or prepare for the GED exam. Students attend classes at least two times per week where they have the opportunity to work one-on-one with credentialed teachers. Both the adult high school diploma and the GED preparation classes are taught using a blended learning model where students use online programs to access curriculum and assessments to earn credits and/or prepare them for the GED exam. Occasionally, these students also take concurrent classes at the local junior college.

Specialized Placement or Program

In some cases, expelled students are placed or referred to specialized programs. Placement is informed by the student's needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled but may be placed into an educational environment that is supportive of their needs and in compliance with their IEP.

LVJUSD anger management through Horizon's Counseling, offers a Violence Prevention Program for students who have engaged in high risk behaviors. Students who are on extended suspension pending an expulsion hearing are required to participate.

Referral to County Operated Community School

Students are referred to an Alameda County community school program when expelled by the LVJUSD Board. Alameda County has day school and independent study programs available. They can place students in grades 6 – 12; as well as special education students on a case by case basis.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Students who are expelled receive support from the District. Administrators communicate with families and make referrals for counseling and other social services. In addition, they continue contact with the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the District. Once a student returns to the district, the receiving school holds a transition meeting with the student and family in order to set the student up for success.

New Haven Unified School District

New Haven Unified has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

Students being recommended for expulsion and their families are invited to attend an Extension of Suspension meeting with the Coordinator of Pupil Services. At this meeting, the student's due process rights are explained and an explanation of the process is shared. Parents are afforded an opportunity to have any and all questions answered.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 7 to 12)

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are specially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Expelled Students (Grades K to 6)

Students in grades K to 6 who are expelled have the enforcement of that expulsion suspended and are transferred to another school within the district. Students and their families are required to participate in counseling appropriate for their level of development.

Suspended Enforcement of Expulsions (Grades K to 12)

In certain cases, suspending the expulsion order and allowing the student to attend school at a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Transfer to another school within the district (Grades K to 6)

Students in grades kindergarten through fifth grade may be placed at another elementary school in the district. This provides the student with a fresh start or access to special educational services that are not available at their neighborhood school of residence.

Transfer to another school within the district (Grades 7 to 12)

Students in grades 7 to 12 may be placed at another middle or high school in the district. This provides the student with a fresh start or access to special educational services that are not available at their neighborhood school of residence.

Inter-District Transfer to another school district

When a student attending in New Haven on an inter-district transfer commits an expellable offense, the district moves forward with the expulsion process while also revoking the student's inter-district transfer. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Alternative School

Conley-Caraballo High School (CCHS) provides students 16 years and older with an alternative educational setting to continue their learning. The smaller school setting allows for more individualized attention to student needs. The vast majority of students attending CCHS do so because they have requested to attend there. Additionally, a small number of students are placed at CCHS as allowed by law. Students enrolled at CCHS benefit from the smaller number of students and a sense of connection with all staff. No one is anonymous at CCHS.

District Operated Independent Study Program

The Decoto School for Independent Study (DSIS) is an independent study program operated by New Haven Unified. The decision for approval is based on individual circumstances and the ability to work independently. Students attend classes at least twice a week and regularly meet with their teachers. Students are expected to spend at least twenty hours a week on academic work. The independent study program is a voluntary program. Students are able to access multiple support services at the site and are housed on the same campus as the Union City Family Center, a hub for family-support services for the city.

District Operated Home Based Instruction

Home based instruction is provided to students in particular circumstances. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the

comprehensive school. Home instruction provides students one hour per day of time with an appropriately credentialed teacher.

District Operated Online or Virtual Education Program

The New Haven Unified School District offers the Personalized Learning Academy which is a strictly online instructional model. Students check-in, virtually, with a teacher several times a week and daily instruction is delivered through an online platform. This Personalized Learning Academy is available for students in Transitional Kindergarten through 12th grades.

The New Haven Unified School District also utilizes some online or virtual education programming for students to make up classes and recover credits.

Specialized Placement or Program

In some cases, expelled students are placed or referred to specialized programs. Placement is informed by the student's needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled but may be placed into an educational environment that is supportive of their needs and in compliance with their IEP.

Referral to County Operated Community School

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are specially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Students who are expelled are offered support to meet the conditions of their Rehabilitation Plan from the district. The Coordinator of Pupil Services provides support in accessing counseling services based on parents' desire. In addition, the Coordinator of Pupil Services monitors and supports the student and family in meeting the requirements of the rehabilitation plan.

Newark Unified School District

The following are the descriptions of the district's existing educational alternatives for expelled students.

Suspend expulsion:

In certain expulsion cases, allowing the student to attend school at a comprehensive school site is more appropriate than expelling the student to an alternative school site. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made in light of the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student attends a comprehensive campus on a probationary basis, and must meet certain conditions to continue in attendance, or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Transfer to another school within the district (K-6):

For some students, a transfer to a different comprehensive site allows a student a fresh start, or access to special education services which are not available at the neighborhood school of residence.

Reassigned with special contract conditions:

In some matters, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for an individual student.

Placement into continuation high school:

The Bridgepoint Continuation High School provides students with an alternative educational setting to pursue the core curriculum of the district. The smaller school setting allows for closer attention to individual student needs, and fosters credit-deficient students to get caught-up and back on-track for graduation.

Independent study (at parent request):

Crossroads Independent Study is a high school, which delivers the curriculum through virtual independent study. Students receive weekly assignments during their scheduled appointment time, and are expected to spend a minimum of 20-hours a week on academic work. Crossroads students are highly capable learners.

Students attend Crossroads by choice. Crossroads helps students pursue their educational requirements of the Newark Unified School District. The nature of the independent study program gives students the opportunity to personalize their instruction and the freedom to utilize resources and activities to create an exciting and flexible educational experience. While attending Crossroads, students may take courses concurrently at the local community colleges and Mission Valley Regional Occupational Program. Students learn and practice the self-discipline necessary for future success.

Crossroads High School is dedicated to providing a place where all students feel valued and unique. Students are offered creative opportunities to learn and to accomplish their academic goals. The program offered is tailored to meet students' individual needs and incorporates individual learning styles, interest, aptitudes and passions. Crossroads is constantly examining the program and seeking new strategies to better meet the ever-changing needs of students and the demands for the 21st century.

Home instruction (regular and special education):

Home instruction provides students in particular circumstances one-hour per day of time at minimum or per their IEP recommendation with an appropriately-credentialed teacher. The instruction is provided to keep the student up to date with assignments when the student temporarily cannot attend the regular comprehensive school setting.

Oakland Unified School District

The following are the descriptions of the district's existing educational alternatives for expelled and high-risk students.

Expelled Students

County Community School (Grades 7-12)

Secondary-level students who are under expulsion and are then subsequently expelled from Oakland Unified School District for serious incidents may be referred to an available county community school program.

Suspended Expulsion

In certain expulsion cases, suspending the expulsion order and allowing the student to attend school at a comprehensive or alternative school site in the district is more appropriate than expelling the student to a county community school site. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary status, and must meet pre-established conditions to continue enrollment, or the suspended enforcement of the expulsion is revoked. The expulsion is enforced and the student is placed in an appropriate community day school or community school setting for the remaining period of the original expulsion. Where the student meets the pre-established conditions to continue enrollment, upon the expiration of the original expulsion the Board of Education may destroy the record of said expulsion.

High-Risk Students

Transfer to another comprehensive school within the district (Grades K-12):

In some cases, on a voluntary basis, a student may be transferred to a different comprehensive site in order to allow the student to achieve academic success.

Transfer to an Alternative School of Choice (Grades 9-12)

Students may be transferred to an alternative school of choice if it is determined that the student would benefit from the small school environment or particular support services available. Oakland offers three alternative schools of choice—Gateway to College at Laney College, Emiliano Zapata Street Academy and Oakland International High School. Placements at alternative schools of choice are voluntary and require parent consent.

Placement into Continuation High School (Grades 10-12, Ages 16-18):

Oakland's three continuation high schools—Rudsdale, Dewey, and Ralph J. Bunche high schools--provide students with a small alternative educational setting. The smaller school setting allows for closer attention to individual student needs, and fosters credit-deficient students to get caught up and back on-track for graduation. Comprehensive mental health and other support services are available to provide students with the tools necessary for success in school. In addition, Rudsdale offers a program for high-risk newcomer students, students who have been in the country less than three years and are at risk of not graduating from a comprehensive high school, in which additional resources are provided in a small alternative setting to support this specific population to be successful.

Independent study (Grades 7-12) or Home School (Grades K-6):

In rare circumstances, a student will be placed at Sojourner Truth Independent Studies for HomeSchool (grades K-6) or Independent Study (grades 7-12). Independent study and home school are strictly voluntary options that parents must request. Students on suspended expulsion are generally not considered candidates for independent study or home school options, but requests are considered on a case by case basis.

Home and Hospital (Grades K-12)

Students on expulsion, suspended expulsion, or deemed high-risk are eligible for Home and Hospital instruction when there is medical necessity. Credentialed teachers provide individualized instruction for students with medical needs at their homes, in hospitals, or at other medical facilities.

Piedmont Unified School District

Piedmont Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their family in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavioral outcomes. Whenever possible, caregivers and family members are included in the process.

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is used only when there is a history of misconduct, when other forms of discipline, including suspension, are not feasible or have failed to bring about proper conduct, or when the student's presence causes a continuing danger to him/herself or others. (Education Code 48915)

The Board shall provide for the fair and equitable treatment of students facing suspension and expulsion by affording them their due process rights under the law. The Superintendent or designee shall comply with procedures for notices and appeals as specified in administrative regulation and law (Education Code 48911, 48915, 48915.5).

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order typically shall not be suspended by the Board, although the Board has the authority to do so. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918(a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the

expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year (Education Code 48918(a)).

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay (Education Code 48918(a)).

For additional details surrounding expulsion due process, please refer to PUSD Board Policy and Administrative Regulation 5144.1 and 5144.2

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 6 to 12)

Students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are specially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Expelled Students (Grades K to 5)

Students in grades K to 5 who are expelled are placed on suspended expulsion and transferred to another school within the district. Students and their families are required to participate in (school-based) counseling or referred to (off-site) mental health services.

Suspended Expulsions (Grades K to 12)

In certain cases, suspending the expulsion order and allowing the student to attend school at a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student, and others, as well as all applicable Board Policies, Administrative Regulations, and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Transfer to another school within the district (Grades K to 5)

Students in grades kindergarten through fifth grade may be placed at another elementary school in the district. This provides the student with a fresh start or access to special education services that are not available at their neighborhood school of residence.

Inter-District Transfer to another school district

A student will be involuntarily transferred to their home school district if the student currently attends PUSD schools on an inter-district transfer and commits an expellable offense. The inter-district transfer will be revoked and the student will be returned to his/her home school district. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Alternative School

Millennium High School provides students with an alternative educational setting to continue their learning. The smaller school setting allows for more individualized attention to student needs. Students are placed at Millennium High School as allowed by law.

Millennium High School (MHS) is the alternative high school in Piedmont Unified School District. It serves a broad cross-section of students, grades 9-12, with diverse learning styles, proficiency levels, and personal needs. Students at MHS complete the same graduation requirements as students at Piedmont High School. The MHS curriculum is aligned with Content Standards for California Public Schools, and our courses satisfy UC “a-g” admission requirements. MHS prides itself on building an educational community, with an array of educational options and instructional strategies not readily available in traditional classrooms. It supports students to achieve their full potential and meet their self-defined academic, career, and life goals. Most MHS graduates pursue higher education at community colleges or four-year colleges and universities.

Students at MHS are instructed in small, interactive, non-competitive classes. Instruction is individualized, and students work until mastery is achieved. Many opportunities are provided for experiential learning, self-directed projects, small group discussions, tutorials, community-based learning, service-learning, interdisciplinary and multiple intelligences instruction, flexible scheduling, and personal counseling.

MHS has developed a unique “community-building approach to education” guided by four principles: Respect, Communication, Empowerment, and Community. Students and staff agree to respect each other, recognizing our diverse backgrounds and learning styles are a strength, not a weakness. Direct and honest communication is emphasized, with collective responsibility for addressing problems when they arise. MHS views everyone as both learner and teacher, and encourages students to make choices about how their learning will be structured. Students connect classroom and community-based learning by engaging in service-learning projects that address real issues and needs in society.

District-Operated Home Hospital-Based Instruction

Home Hospital-based instruction is provided to students in particular circumstances. The instruction is provided to keep students, grades K-12, up-to-date with assignments when the student cannot attend the comprehensive school due to a medical condition. Services provided consist of direct instruction up to 5 hours per week.

District Operated Online or Virtual Education Program

Piedmont Unified School District provides curriculum through Accelerate Education to students in grades 6-12. Accelerate Education is an online platform where students can access both college-preparatory and graduation-required courses for both semester and year-long credit.

Specialized Placement or Program

In some cases, expelled students, grades K-12, are placed or referred to specialized programs. Placement is informed by the student's needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled but may be placed into an educational environment that is supportive of their needs and in compliance with their IEP.

Referral to County Operated Community Day School

Students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are specially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required. Students who fail to reach their rehabilitation plan are transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education

Rehabilitation Plan, Transition and Support

Students who are expelled receive Case Management support from the district. Counselors communicate with families and make referrals for counseling and other social services. In addition, they continue to contact the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the home district.

Pleasanton Unified School District

The Pleasanton Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

To summarize our expulsion process, after a student is recommended for expulsion, they are invited to participate in a meeting with the Director of Student Services, and the Principal to review the incident and reason for the recommendation for expulsion. During this meeting, we take a restorative approach with the student and family. As appropriate or able, we ask the student:

1. What happened and what were you thinking at the time?
2. What have you thought about since?
3. Who has been affected by what happened and how?
4. What about this has been hardest for you?
5. What do you think needs to be done to make things as right as possible?

Based upon the conversation during the meeting, the specific violation of Ed. Code, previous discipline and means of corrective action taken, and an evaluation of if the student poses a continued threat or danger to the campus, a decision on how best to move forward to resolve the student discipline issue is made.

Sometimes, the student is placed on a behavior contract, and in this contract a restorative approach and rehabilitation plan is drafted. Other times, a formal Stipulated Suspended Expulsion Agreement with rehabilitation plan is taken to the Board of Trustees for their approval, and occasionally the District chooses to move forward with an Expulsion Hearing or Expulsion Agreement to expel the student and develop a rehabilitation plan.

As we develop the rehabilitation plans, we seek to individualize the plan to meet the unique and specific needs of each student. We also typically try to incorporate family or individual counseling sessions, as well as a way to give back to the community through service hours.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 6 to 12)

Pleasanton students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to the Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom- based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Expelled Students (Grades K to 5)

Students in grades K to 5 who are expelled are placed on suspended expulsion and transferred to another school within the district. Students and their families are required to participate in (school-based) counseling or referred to (off-site) mental health services.

Suspended Expulsions (Grades K to 12)

In certain cases, suspending the expulsion order and allowing the student to attend school at a comprehensive school site in the district is more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Transfer to another school within the district (Grades K to 5)

Students in grades Kindergarten through fifth grade may be placed at another elementary school in the district. This provides the student with a fresh start or access to special educational services which are not available at their neighborhood school of residence.

Transfer to another school within the district (Grades 6 to 12)

Students in grades 6 to 12 may be placed at another middle or high school in the district. This provides the student with a fresh start or access to special educational services which are not available at their neighborhood school of residence.

Inter-District Transfer to another school district

A student is involuntarily transferred to another school district if the student is currently on an inter-district transfer and commits an expellable offense. The inter-district transfer is revoked and the student is returned to their home school. An expelled student may be allowed to transfer to

another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Alternative Education School (Continuation High School)

Village High School is the Alternative Education high school for Pleasanton Unified. A part of the Educational Options that Pleasanton Unified provides for students, Village students are afforded an alternative educational setting to continue their learning. The smaller school setting allows for more individualized attention to student needs. Students are placed at Village as allowed by law and are available for students in 10th-12th grade.

The mission of Village High School is to foster educational achievement and character development by providing a student with a more intimate atmosphere and an educational program that will enable them to explore career choices, develop academic and technical skills, and feel successful and succeed if he/she desires to do so.

Students may attend VHS, for a variety of reasons such as for credit recovery, a small school environment, or a more personal relationship with teachers. Village staff focus on individualizing student needs and creating a community of character. They have been accredited by the Western Association of Schools and Colleges (WASC) and received the maximum six-year term.

The Village High campus plays host to students who are engaged in meeting district graduation standards, as well as exploring career interests and focusing on future goals. Instruction is geared to maximize the learning experience for each individual student, and, with a class-size average of 20 to 1, teachers are able to support student learning throughout the curriculum.

Students come to Village for a variety of reasons, but they leave with a healthy respect for themselves, the staff, and the community in which they live.

District Operated Online or Virtual Education Program

The Pleasanton Virtual Academy (PVA) is a school that is part of the Pleasanton Unified School District for students grade K-12. The Pleasanton Virtual Academy is a flexible option that allows learners to learn from home, in person, and online. This option provides excellent PUSD support for families who choose to homeschool their students or for students who just need an alternative to daily, in-person attendance. The high school courses are WASC accredited, and most are UC A-G aligned.

District Operated Independent Study Program

Pleasanton Unified also has an Independent Study Program through Pleasanton Virtual Academy. The decision for approval is based on individual circumstances and the ability to work

independently. Independent Study through Pleasanton Virtual Academy is open to Elementary, Middle and High School students and contracts are reviewed and renewed as appropriate each year.

District Operated Home Based Instruction

Home/Hospital based instruction is provided to students in particular circumstances that are generally medical in nature. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the comprehensive school. This is a short term placement (6 weeks) to support students while they are unable to physically attend school. Participation in the program is approved by the school site administrator upon discussion with the student, parent, counselor and often teachers. Students served through the home-based instruction program have a note from a physician that indicates the reason the student would need this setting, as well as the anticipated return date.

Specialized Placement or Program

In some cases, expelled students are placed or referred to specialized programs. Placement is informed by the student's needs and their IEP. Students who commit offenses that are a manifestation of their disability are not expelled but may be placed into an educational environment that is supportive of their needs and in compliance with their IEP.

Referral to County Operated Community School

Students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required. Students who fail to reach their rehabilitation plan are transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST Independent Study Program operated by the Alameda County Office of Education.

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Students who are expelled receive Case Management support from a PUSD Social Worker. Staff within the Student Services Department communicate with families and make referrals for counseling and other social services. In addition, they continue contact with the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the home district.

San Leandro Unified School District

San Leandro Unified School District has a clearly delineated process for the expulsions of students. Our process provides full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible the goal is to recommend the readmission of the student once successful completion of rehabilitation is achieved. Caregivers and family members are included in the process.

SLUSD Expulsion Process

The following section provides details regarding the expulsion process in SLUSD. Throughout the duration of the expulsion a rehabilitation plan is developed for the student and SLUSD staff will support with monitoring the progress that is made toward meeting the goals of the plan. The SLUSD expulsion process is held within thirty school days of the principal or designee's determination to recommend expulsion in which the student is entitled to a hearing. The student receives written notice of an expulsion hearing at least ten days prior to the hearing. This notice includes:

- Date and location of the hearing.
 - The specific facts and charges upon which the proposed expulsion is based.
 - Explanation of the right for the student or student's parent or guardian to appear in person, or to obtain and be represented by an attorney.
 - Explanation of the right to inspect and obtain copies of all documents to be used at the hearing.
 - Explanation of the right to confront and question all witnesses who testify at the hearing and to question all other evidence presented.
 - Explanation of the right to present evidence on the student's behalf, including witnesses.
- A parent or guardian may also choose to waive their rights and agree to a stipulated agreement.

The Expulsion Hearing Process

An Expulsion Hearing Panel conducts the hearing to consider the recommendation to expel a student. The panel is made up of at least three district certificated administrators such as principals or vice principals, who are not employed at the student's school. The meeting is closed to the public unless the student or student's parent or guardian submits a written request that the hearing be conducted in public. Hearings are tape-recorded and students have access to written materials presented to the panel. At the end of the hearing, several different actions may take place:

- If the Expulsion Hearing Panel decides not to recommend expulsion, the proceedings are terminated and the student is immediately reinstated. The Family and Student Support Services Department will inform the parent or guardian of the panel's decision. The parent or guardian must then contact the school and arrange a meeting with the principal or principal's designee regarding subsequent placement for the student. This may include a return to the classroom instructional program, any other instructional program, a rehabilitation program, or a combination of these programs. A decision not to recommend expulsion is final.
- If the Expulsion Hearing Panel decides to recommend expulsion, it must also recommend a rehabilitation plan for the student. The rehabilitation plan may include a review and assessment at the time of the application for readmission to school. The plan may also include recommendations for counseling or other intervention support. The evidence supporting the decision to recommend expulsion, along with the proposed rehabilitation plan, is submitted to the Board of Education.
- Upon reviewing the recommendations, the Board of Education will either support the recommendation and order the expulsion, or reject the recommendation and suspend the expulsion order. The Board may also choose to suspend the expulsion order, but still assign the student to a school, class or alternative educational program considered appropriate for the rehabilitation plan.

The Stipulation Process

A stipulated agreement is made when a student's parent or guardian agrees that the student did commit an act included in the reasons for expulsion and is being recommended for expulsion. As part of reaching a stipulated agreement, the student and a parent or guardian will meet with the Director of Family and Student Support Services. They will review the evidence gathered in the investigation of the incident leading to the expulsion recommendation. The parent or guardian will be given 24 hours to notify the Director of Family and Student Support Services if they agree to the stipulated decision or if they would prefer to proceed with an expulsion hearing. At that time, if they agree to a stipulated decision, the student, parent or guardian and the director must initial and agree upon the following:

- They have been informed of and understand the right to due process with regard to the expulsion recommendation.
- They have had the opportunity to review the reasons for the recommendation for expulsion and to discuss them with district personnel.
- They agree to the facts as stated in the expulsion recommendation.
-

As part of a stipulated agreement, the student's parent or guardian waives a number of rights:

1. The right to an expulsion hearing.
2. All notices and timelines required by policy or law.
3. The right to be represented by an attorney at the expulsion hearing.
4. The right to inspect and have copies of the documents which would have been used at the hearing.
5. The right to confront and question all witnesses who would have testified at the hearing.
6. The right to question all written evidence presented.
7. The right to present witnesses and evidence on the student's behalf.
8. The right to appeal to the county Board of Education if the stipulated expulsion is approved by the Board of Education as agreed upon.

A student's parent or guardian may consult with an attorney about the stipulated expulsion process. The Board of Education must still approve a stipulated expulsion agreement.

The Reinstatement Process

Before the end of the last day of the academic year of an expulsion, the student will be contacted by the district's Family and Student Support Services Department, which will determine if the student has completed the rehabilitation plan and should be readmitted. The student and their parent guardian will participate in a Re- Entry Meeting. At this meeting the receiving site administrators and support staff will determine if the student has evidence that demonstrates completion of the rehabilitation plan.

An expulsion order remains in effect until the Board of Education orders the readmission of the student.

- Upon completion of the readmission process, the Board of Education will readmit the student, unless it determines that the student has not met the conditions of the rehabilitation plan, or continues to pose a danger to others. The student and the student's parent or guardian receives a description of the readmission process at the time the student is ordered expelled.
- If the Board of Education denies the readmission of an expelled student, the board must decide whether to continue the placement of the student in an alternative educational program. The Board must provide written notice to the expelled student and the student's parent or guardian describing the reasons for denying the student readmittance into the regular school district program.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Alternative Educational Programs

A student who is denied readmission to his or her regular classroom instructional program as a result of an expulsion may be assigned to an alternative educational program.

ACOE Quest Academy

A student in grades 7-12 can enroll in Quest Academy which offers an alternative to in-class classroom instruction with a standard-based course of study that is held. Quest Academy aims to provide positive learning environments that are safe, promote positive self-esteem and self-concept, and are respectful of student diversity so that students can set and attain goals in learning, work, and life, while meeting certain goals to complete their expulsion and/or probation plans.

Expelled Students (Grades 6 to 12)

Students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health counseling services may be recommended or required.

Expelled Students (Grades K to 5)

Students in grades K to 5 who are expelled are placed on an independent study home instruction program in which the student receives up to 5 hours of instruction per week. This instruction takes place at the student's residence or at an agreed upon location. Participation in mental health counseling services may be recommended or required.

Suspended Expulsions (Grades K to 12)

In certain cases, the Board of Education may determine to suspend the expulsion order, allowing the student to attend school at a comprehensive school site in the district as deemed more appropriate than expelling the student to an out-of-district school. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made based on the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions to continue enrollment or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Transfer to another school within the district (Grades K to 5)

Students in grades kindergarten through fifth grade may be placed at another elementary school in the district. This provides the student with a new environment or access to special educational services which may better support the implementation of their behavior support plan which may not have been available at their neighborhood school of residence. The student's background, history, safety and safety of others will be considerations in determining placement at another school.

Transfer to another school within the district (Grades 6 to 12)

Students in grades 6 to 8 may be placed at another middle school in the district. This provides the student with a fresh start or access to behavioral and or academic support which may not have been operational at their neighborhood school of residence. Students in grades 9-12 may be placed at the alternative high school if they meet the eligibility criteria.

Inter-District Transfer to another school district

If a student is currently on an inter-district transfer and commits an expellable offense the inter-district transfer is revoked and the student is returned to his/her home school in their corresponding district. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Alternative School

Lincoln Alternative Education Center provides students with an alternative educational setting to continue their learning. The smaller school setting allows for more individualized attention to student needs. Students are placed as allowed by meeting the criteria of the specialized program. Lincoln Alternative Education Center offers a variety of responsive, personalized educational pathways for career and college readiness. Through the use of student centered learning, the pathways, this center serves as both a trajectory, and a bridge, to ensure our students' success. The site offers two programs: Lincoln High School and Lighthouse Independent Studies, which allow our scholars to meet their graduation requirements, academic goals, and socio-emotional needs.

District Operated Independent Study Program

San Leandro Unified School District offers an independent study program. The decision for approval is based on individual circumstances and the ability to work independently. Independent Study provides students who are able to effectively manage their time and work well on their own an opportunity to also achieve their high school diploma. Our staff and teachers understand that

health, family and or work obligations can interfere with daily schooling so our educators provide structured curriculum to help ensure the success of the students. The Independent Study Program grants flexibility in student scheduling and support, without the loss of rigor. Eligible to secondary students only.

District Operated Home Based Instruction

Home based instruction is provided to students in particular circumstances. The instruction is provided to keep the student up-to-date with assignments when the student cannot attend the comprehensive school. This option is offered to eligible students in grades K-12. Instruction is provided through a certificated teacher.

Specialized Placement or Program

In some cases, expelled students are placed or referred to specialized programs. Placement is informed by the student's IEP as well as their behavioral, social and academic needs. Students who have been identified to receive special education services and who engage in expellable offenses will be subject to a Manifestation Determination Review IEP. During the course of this review, if the LEA, the parent, and relevant members of the IEP team determine that either the expellable conduct in question was directly and substantially related to the child's disability or a failure to implement the IEP the conduct shall be determined to be a manifestation of the child's disability. If the District, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP team must carry out the following:

- Conduct a functional behavioral assessment and implement a behavioral intervention plan for the child, unless the District conducted a functional behavioral assessment prior to the manifestation determination
- If a behavioral intervention plan has been developed, the team must review the plan and modify it, as necessary to address the behavior; and
- Return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan or if the conduct is subject to a 45 day interim alternative removal for inflicting serious bodily injury, knowingly possessing or using drugs, or carrying or possessing weapons

Referral to County Operated Community School

Students in grades 6 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent

student options to meet the student's needs. Participation in mental health services may be recommended or required. Students who fail to reach their rehabilitation plan are transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student.

Rehabilitation Plan, Transition and Support

Each student, who is expelled, is given a rehabilitation plan upon expulsion as developed by the Expulsion hearing administration panel at the time of the expulsion order. The rehabilitation plan includes a date when the pupil may re-apply for readmission or reinstatement.

The home district stays in constant contact with the alternative education program to ensure the student successfully completes the expulsion order.

These programs' primary goal is for students to return to their home school, with a better understanding of the connection between their behavior and positive or negative consequences.

The Reinstatement Process

Before the end of the last day of the academic year of an expulsion, the student will be contacted by the district's Family and Student Support Services Department, which will determine if the student has completed the rehabilitation plan and should be readmitted. The student and their parent guardian will participate in a Re- Entry Meeting. At this meeting the receiving site administrators and support staff will determine if the student has evidence that demonstrates completion of the rehabilitation plan.

An expulsion order remains in effect until the Board of Education orders the readmission of the student.

- Upon completion of the readmission process, the Board of Education will readmit the student, unless it determines that the student has not met the conditions of the rehabilitation plan, or continues to pose a danger to others. The student and the student's parents or guardians receive a description of the readmission process at the time the student is ordered expelled.

- If the Board of Education denies the readmission of an expelled student, the board must decide whether to continue the placement of the student in an alternative educational program. The Board must provide written notice to the expelled student and the student's parent or guardian describing the reasons for denying the student readmittance into the regular school district program.

San Lorenzo Unified School District

San Lorenzo Unified School District has a clearly delineated process for the expulsions of students. Our process provided full due process for each student and their families in this challenging situation. The focus is on making decisions that will provide the student with opportunities to continue to make progress toward positive academic and behavior outcomes. Whenever possible, caregivers and family members are included in the process.

This section is designed to serve as a tool and guide for administrators contemplating the feasibility and appropriateness of an expulsion referral and for administrators who will be called to serve on an expulsion panel. Expulsion hearings typically begin at 9:15 am and panelists are expected to arrive at 8:30 am to review expulsion panelist instructions, expectations, and receive answers to any expulsion panelist questions about the process. Typically the documents related to the expulsion case are not reviewed by the panel until the start of the hearing or shortly before. Every administrator is expected to volunteer for expulsion-panel duty at least once a year.

The Director or Coordinator of the Department of Student Support Services will serve as the hearing officer. The hearing officer serves as a neutral party and is not a deciding member of a hearing panel, but will facilitate the flow of the hearing. Hearing panels will consist of three administrators with relatively little to no history of the student. Each school is responsible for presenting the facts of their expulsion case to the hearing panel. If the student/family is represented by legal counsel, SLZUSD legal counsel will also be provided for case presentation. All expulsion hearings are recorded.

All expulsion referral packets are to be in line with education code requirements, sound, thorough, well written, and illegible student statements must be typed by referring school personnel. Expulsion cases can be appealed to the Alameda County Office of Education, placing all documents, writings, and school/district professional decorum on stage. See the expulsion checklist for specific expulsion packet documentation requirements.

According to EC 48900.5, out of school suspensions “shall be imposed only when other means of correction fail to bring about proper conduct.” Similarly, aside from EC 48915 (c) cases, expulsion should be considered only when other means of correction have routinely failed. As indicated in EC 48900.5, Restorative Practices and Restorative Justice methods, by way of community building, repair building, and re-entry circles are excellent responses to student discipline.

Mandatory 48915 (c) Expulsion Referrals:

48915 (c) “The principal or superintendent of schools shall immediately suspend, pursuant to Section 48911, and shall recommend expulsion of a pupil that he or she determines has committed any of the following acts at school or at a school activity off school grounds.”

1. Possessing, selling, or furnishing a firearm
2. Brandishing a knife at another person
3. Unlawfully selling a controlled substance
4. Committing or attempting to commit a sexual assault
5. Possession of an explosive

Optional 48915 (a)(1) Expulsions Referrals:

48915 (a)(1) "...The principal or the superintendent of schools shall recommend the expulsion of a pupil for any of the following acts committed at school or at a school activity off school grounds, unless the principal or superintendent determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct."

- A. Causing serious physical injury to another person...
- B. Possession of any knife or other dangerous object
of no reasonable use to the pupil
- C. Unlawful possession of any controlled substance
- D. Robbery or extortion
- E. Assault or battery on a school employee

Under EC 48900 a-e and EC 48915 (a)(1) A-E (above), a decision to expel a student for any of those violations shall be based on a finding of one or both of the following:

(1) "*Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.*" Through the expulsion referral documentation this must be substantially proven through historic documentation. Proof cannot be based on perception or personal preference.

(2) "*Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.*" Through the expulsion referral documentation this must be substantially proven through actual impacted student or district adult personnel declarations, and cannot be based on personal preference or perceptions.

Student Due Process: Per Education Code 48918 (b)(5) at any hearing, unless waived by the student/family, they have the right to 1) appear in person, 2) to employ and be represented by counsel, 3) to inspect and obtain copies of all documents to be used at the hearing, 4) to confront and question those who testify at the hearing, 5) to question all other evidence presented, 6) and to present oral and documentary evidence on the pupil's behalf, including witnesses.

Special Education & Section 504s: If a student with an IEP or 504 is recommended for expulsion, remember that if the suspension is extended there must be a manifestation determination meeting by the 10th day of suspension. If a student with an IEP is being

recommended for expulsion contact the School Psychologist and Special Services (x4791) or (x4774) if the student has a 504.

The following are the descriptions of the district's existing educational alternatives and other services for expelled students.

Expelled Students (Grades 7 to 12)

Secondary-level students who are expelled from San Lorenzo schools for serious incidents where expulsion is mandatory are placed into the county community school program. These schools and programs are specifically designed to educate expelled students, and they offer a variety of classroom-based and independent-study programs to meet student needs. Students have the opportunity to participate in counseling programs, as an extension of the school day.

Expelled Students (Grades K to 6)

It is rare for SLZUSD to expel a student in grades K-6, but should that occur, they are placed on suspended expulsion and transferred to another school, kept at the same school, within the district. Students and their families are required to participate in (school based) counseling or referred to (off site) therapeutic services.

Suspended Expulsions (Grades K to 12)

In certain expulsion cases, students who are recommended for expulsion may be sent to an alternative program within the San Lorenzo School District under a suspended expulsion contract. Each expulsion is determined on a case-by-case basis and in the case where the enforcement of the expulsion has been suspended, the student is considered to be on academic and behavioral probationary status. These students may be placed in an Independent Study Program or another comprehensive school site within the district. Student placement is based on the student's discipline history, the safety of the student and others, Board Policy, Administrative Regulations, and California Education Code. All students placed on a suspended expulsion must complete a rehabilitation plan which includes, but is not limited to counseling, community service, satisfactory attendance, and academic achievement, and enrollment in the re-entry empowerment workshop in August.

Transfer to another school within the district (Grades K to 6)

In some cases, students in grades K-6 may be voluntarily transferred to a different comprehensive site in order to allow the student to achieve academic success. A specific district designee may place students on an administrative placement transfer based on the district process.

Transfer to another school within the district (Grades 7 to 12)

In some cases, students in grades 7-12 may be voluntarily transferred to a different comprehensive site in order to allow the student to achieve academic success. A specific district designee may place students on an administrative placement transfer based on the district process.

Inter-District Transfer to another school district

A student is involuntarily transferred to another school district if the student is currently on an inter-district transfer and commits an expellable offense. The inter-district transfer is revoked and the student is returned to their home school. An expelled student may be allowed to transfer to another district only if both the family and the districts agree that the placement in another district is in the best interest of the student.

District Operated Independent Study Program

The DICE Independent study program is a voluntary program for students of multiple grades. In this program, students meet with a teacher 2-3 times per week to work on district adopted standards based on curriculum. Students must be able to work independently and must be able to keep all weekly appointments with the teacher. Student failure to comply with sufficient completion of the homework and /or missing appointments with the teacher will result in the student being dropped from the program. The DICE program also offers a home-based instructional program if it is the most viable option.

District Operated Home Based Instruction

See DICE Home-Based instruction option above.

Referral to County Operated Community Day School

Students in grades 7 to 12 who are expelled for serious incidents where expulsion is mandatory are referred to Alameda County Community Schools. These schools and programs are especially designed to educate expelled students and offer a variety of classroom-based and independent student options to meet the student's needs. Participation in mental health services may be recommended or required.

Students who fail to reach their rehabilitation plan are transferred to the Alameda County Community School.

Referral to County Operated Independent Student Program

Students may be allowed to participate in the QUEST independent study program operated by the County Office of Education.

In Lieu of Expulsion

In rare cases, an administrative change of placement in lieu of other serious disciplinary outcomes is appropriate for a student. In such cases the placement of the student is agreed upon between the District and family.

Rehabilitation Plan, Transition and Support

Students who are expelled receive Case Management support from the district. Counselors communicate with families and make referrals for counseling and other social services. In addition, they continue contact with the student about progress made on the Rehabilitation Plan and establish a timeline for returning to the home district.

Re-Entry Program:

Purpose: The San Lorenzo Unified School District Re-Entry & Intervention Program is designed to re-engage, reconnect, and prepare the following secondary populations for campus and academic success:

- Students returning from expulsion
- Students returning from Juvenile Hall/Camp
- Students enrolled in the District SARB program
- Students with 10 or more days of suspension who appear on track for expulsion

Traditionally the aforementioned populations struggle academically and behaviorally upon re-entry because of the sudden shift within educational and campus dynamics. The purpose of this program is to reduce the predictability that such students will repeat with similar problematic behaviors and patterns.

Restorative Practices: In terms of our equity lens, wheel, and response to student discipline, SLZUSD now has restorative circles and restorative conferences as alternatives to suspension and expulsion as appropriate. The process of Restorative Practices requires collaboration from all stakeholders responsible for addressing and or handing out discipline. The concept of Restorative Practices allows adults to deepen adult-to-adult relationships and student's to repair harm imposed upon the school community. It also allows the student and family to take full responsibility and accountability for their actions in a proactive fashion. Suspensions and expulsions result in the removal of students from the school community, but often fail to deal with the root cause or allow for harm to be repaired, restored, or reconciled. Our Restorative Justice model includes the response and approach of teachers, admin, central office, counselors, and CSOs. It will require the understanding of SROs. Our Restorative Justice model will not result in the total removal of suspensions and expulsions, but it will look at ways to productively restore as a first layer of intervention, as opposed to using suspension as a first reaction.

Sunol Glen Unified School District

Suspended Expulsion

In certain expulsion cases, allowing the student to attend school at a comprehensive school site is more appropriate than expelling the student to an alternative school site. Placement in every expulsion matter is determined on a case-by-case basis, and placement recommendations are made in light of the incident, the student's background and history, the safety of the student and others, as well as all applicable Board Policies, Administrative Regulations and California Education Codes. During the term of the suspended enforcement of the School Board's expulsion order, the student is on a probationary basis, and must meet certain conditions in attendance, or the suspension of enforcement of the expulsion is revoked, and the student is placed in an appropriate alternative educational setting.

Consider Interdistrict Transfer

The only time a student is involuntarily transferred to another school district is if the student is currently in SGUSD on an interdistrict transfer and commits an expellable offense or does not meet the academic, attendance and behavior expectations of the district. In these cases, the interdistrict transfer is revoked and the student is returned to his/her home school.

Offer Placement in County Alternative Education Programming if Deemed Appropriate for Expelled Student from the District

Students who fail to meet their rehabilitation plan are transferred to County Community School. The school and programs are specifically designed to educate these expelled students, and they offer a variety of classroom-based and independent-study programs to meet students' needs. Students have the opportunity to participate in counseling, as an extension of the school day.

The Governing Board desires to provide district students access to educational opportunities in an orderly school environment that protects their safety and security, ensures their welfare and well-being, and promotes their learning and development. The Board shall develop rules and regulations setting the standards of behavior expected of district students and the disciplinary processes and procedures for addressing violations of their standards, including suspensions and/or expulsion, which should be considered a last resort in the process.

County-Wide Educational Services Plan for
Serving Expelled and High-Risk Students

AB922 Triennial Plan Update
July 1, 2024 - June 30, 2027

California Education Code (EC) Section 48926 requires each county superintendent of schools, in conjunction with district superintendents in the county, to submit a triennial update to the State Superintendent of Public Instruction.

The AB922 Triennial Plan addresses the following components:

- Existing Educational Alternatives Provided by the Alameda County Office of Education
- Alameda County Community Schools Transition Process
- Educational Services Provided to Expelled Students with Exceptional Needs
- Gaps in Educational Services to Expelled Students
- Alternative Placement for Students who Fail Placement or Pose a Danger to Other District Students
- Existing Educational Alternatives for Expelled Students Offered by Districts

I have reviewed and approve the contents and the process that has occurred for updating the triennial plan.

Signature of Superintendent: _____ Date: _____

ALAMEDA UNIFIED SCHOOL DISTRICT
BOARD AGENDA ITEM

Item Title: Approval of AUSD's Comprehensive School Safety Plans (CSSP)

Item Type: Consent

Background: Per Education Code 32281, "Each school district is responsible for the overall development of all Comprehensive School Safety Plans (CSSP) for its schools operating kindergarten or any of grades 1 to 12, inclusive."

The Comprehensive School Safety Plans shall be reviewed and updated by March 1 of each year and presented to the Board for approval (Ed. Code 32286, 32288). The Board shall review the CSSPs in order to ensure compliance with state law, Board policy, and administrative regulation and shall approve the plans at a regularly scheduled meeting.

Tonight, the following CSSPs are being presented to the Board for approval:

- Alameda High School
- Alameda Science & Technology Institute
- Bay Farm School
- Earhart Elementary
- Edison Elementary
- Encinal Jr./Sr. High School
- Franklin Elementary
- Island Continuation High School
- Lincoln Middle School
- Love Elementary
- Maya Lin School
- Otis Elementary
- Paden Elementary
- Ruby Bridges Elementary
- Wood Middle School

AUSD LCAP Goals: 4. Ensure that all students have access to basic services.

Fund Codes:

Fiscal Analysis

Amount (Savings) (Cost): N/A

Recommendation: This item is presented for information only.

AUSD Guiding Principle: #1 - All students have the ability to achieve academic and personal success.| #2 - Teachers must challenge and support all students to reach their highest academic and personal potential.| #3 - Administrators must have the knowledge, leadership skills and ability to ensure student success.| #4 - Parental involvement and community engagement are integral to student

success.| #5 - Accountability, transparency, and trust are necessary at all levels of the organization.

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at .

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Assessment of School Safety

Current Status of School Crime. Each school is required to assess the current status of school crime committed on the school campus and at schoolrelated functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment. Insert Aeries data here.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.

4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.

5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
 - Routinely check that battery-operated equipment is in working condition.
- Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Insert link to REMS packet here

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.
3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

<https://docs.google.com/document/d/1W89n1wJwXVvA-ygKLDjIGvR8Wzvz-UeKwfEGVylveSw/edit>

Element:

Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment.

https://drive.google.com/file/d/1ouAhMf942Lk_w49wWsuKP4zyfYf5DlvO/view?usp=share_link

https://drive.google.com/file/d/1QNkHtkmc0RH1m3UxFI7jbBDh3-aIP7E0/view?usp=share_link

Opportunity for Improvement:

Goal: Provide useful and staff supported professional development to all staff members to create a culturally responsive classroom with rigorous curriculum and differentiated instruction that connects to students' lives.

Objectives	Action Steps	Resources	Lead Person	Evaluation
Provide useful and staff supported professional development to all staff members to create a culturally responsive classroom with rigorous curriculum and differentiated instruction that connects to students' lives.	Provide staff with regular data updates and information relating to underperforming groups of students	AERIES data	Admin	Review by Principal's cabinet
	Provide opportunities for staff to share best practices in the delivery of differentiated instruction to meet the needs of students from under performing groups	Time at staff meetings	Various teachers	Review by Principal's cabinet
	Provide targeted and staff supported professional development to all staff members to support student achievement	Time and PD opportunities	Admin, District office personnel	Staff survey
Provide effective interventions both inside (Tier I and Tier II) and outside (Tier II) the classroom to support underachieving students in meeting academic standards.	Work to re-establish lunchtime and after school tutoring to support students and develop a plan to recruit and encourage at risk students to attend and participate in after school tutorial	Discretionary and LCFF budget	Admin Link Crew Team	Semester grade reports
	Provide targeted and staff supported professional development in the delivery of TIER II in-class interventions to all staff members to support student achievement.	Time at staff meetings and discretionary budget to pay for PD	Principal and Intervention Lead	Teacher survey
	Continue to stress the "Essential Six" elements designed to deliver better Tier I instruction in the classrooms	Staff meeting time	Admin	Walk throughs and classroom observations

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Create a campus that is safe for students and staff

Objectives	Action Steps	Resources	Lead Person	Evaluation
Determine ways to increase the safety of the campus	Perform perimeter assessment to determine which doors can be locked during the school day.		Admin, MOF	
Install camera in hallways to track dangerous behavior	monitor cameras when something occurs on campus	Verkada camera system	Admin	
Provide consequences to decrease tardies and absenteeism	Daily lunch detentions, weekly Wed. detentions, ineligibility to participate in extra-curricular activities	AERIES reports	Principal, Dean of Students	Attendance trends

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)**Alameda High School Student Conduct Code****ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL**

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures

All Alameda Unified School District students are held to a high standard of behavior. Students are also privileged to participate in many positive school-sanctioned senior activities. These include; AUSD Graduation Ceremony, Senior Prom/Ball, Senior Banquet and Senior Picnic, Junior Prom, Sports, etc.. Note: Student participation in any non-sanctioned activities (e.g. senior cut day or any senior prank) may result in disciplinary consequences, including but not limited to suspension, and may include loss of the privilege of participating in the graduation ceremony.?

Any student's first suspension will result in the denial of participation in one of the above privileges at the discretion of the school site administrator.

Any students' second suspension will result in loss of all remaining privileges, and may include the privilege of participating in the graduation ceremony.

Each semester, students who have more than one truancy notice and/or are not passing all of their classes with a D or higher during that semester will be ineligible to participate in senior activities that semester.

Any senior with more than 10 unexcused period absences without a valid medical excuse may be denied participating in one of the above senior privileges at the discretion of the school site administrator.

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior

6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

School Community Meeting	3/22/23	SSC approval of plan

Alameda High School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander:

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief:

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader:

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader:

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor:

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor:

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor:

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor:

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer:

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader:

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).
Organize supplies and treatment area.
Help with wounded.
Keep Check Out Station informed.
Request additional help (ambulances, etc.) through Check Out Station.
Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT

TRIAGE

RECORDER

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, DO NOT TOUCH OR MOVE IT!!

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

Sound the school alarm.

Notify the Superintendent or Assistant Superintendent.

Notify utility companies of a break or suspected break.

Notify fire and police departments and direct further action as required.

Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.

If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.

Move to an area of safety and maintain control of students.

Notify principal of students needing first aid as necessary.

Fight incipient fires without endangering life.

Take roll. Report absent students to principal.

Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.

- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
 "I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter-in-place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.

2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Main Office.

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Alameda Science and Technology Institute Safety Committee

Role Name

Principal Tracy Corbally

Teacher Lynn Lebo-Planas

Teacher Aimee Craig

AUSD Liaison Vernon Walton

CoA Liaison Shuntel Nathaniel

Assessment of School Safety

Current Status of School Crime. Each school is required to assess the current status of school crime committed on the school campus and at school related functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment. Insert Aeries data here.

ASTI has little to no crime on our campus, a magnet school with 170 students and 10 staff members, located on a college campus.

We had 3 suspensions in 2022-23, and we have had no expulsions since the school opened in 2004. We have an active COST that meets twice per month, and we partner with two local organizations to provide 1-1 therapy for students. Staff have access to a behavior support referral form, which serves as a data capture tool as well. It is reviewed by the counselor and administrator, and referred to services or COST as warranted. Our attendance rates are above 97%%, so we focus site efforts on tardies, with progressive response including teacher contact to home, letter, a second letter, lunchtime reflective detention, parent meeting. Our CHKS survey data indicates that overall students feel safe on our campus, with minimal declines at 11th grade.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

ASTI staff serve as a safety committee of the whole, and the principal collaborates with both AUSD and CoA to align drills and emergency responses. The school has radios networked to both AUSD and CoA. The principal, office manager and counselor are building monitors for CoA emergencies and drills, and pertinent CoA staff are included in the ASTI Share911 network. ASTI uses Marina Security along with CoA for campus supervision issues. The principal holds an annual Safety Assembly for students at the start of the school year and emails the safety pamphlet home for parents to review, translated into Chinese. Tier 1 approaches include universal instruction and RP responses; Tier 2 includes after school tutoring and study spaces, and tier 3 includes SSTs. The RISE (PBIS) Action Plan includes rebooting our student acknowledgement system, tier 2 art therapy groups, and rollouts and lessons in classes at the start of each semester, as well as activities and events run by Leadership class.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number. Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation.

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
- Routinely check that battery-operated equipment is in working condition.

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Insert link to REMS packet here

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.

- a) If students are on their way to school they should proceed to school.
- b) If students are on their way home from school they are to continue home.

3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment. Continue to strengthen key components of MTSS as they pertain to school culture and student mental health/wellbeing.

Opportunity for Improvement:

Continue MTSS alignment with post-pandemic needs and resources, with focus on:

- Tier 1 Build school culture via bonding events and programs run through the Leadership class. Collaborate with student leaders on the events calendar and events curriculum.
- Tier 2 Build an art therapy group run by one of our parentered therapists
- Tier 1 Continue the RISE PBIS program of student recognition and curriculum across content areas.
- Tier 3 Use COST to utilize the resource of 1-1 therapeutic support for students

Objectives	Action Steps	Resources	Lead Person	Evaluation
Rebuild School Culture	Revise and develop bonding events to connect students between grade levels	ASB funds, Student Leadership previous events/calendars	Anthony Long/Tracy Corbally	End of year student survey to capture Deltas and Pluses and inform next year; ongoing formative assessments of events by students
RISE PBIS Program	Tiered Fidelity Inventory and map out annual events and benchmarks, meet once monthly in committee including student rep, counselor, advisor, admin; reboot RISE rewards program	Parent donations for RISE rewards, staff collaboration, Intervention Lead support	Ripon Mann/Cassie Ferguson/Tracy Corbally	TFI, formative team assessments
COST-- Maximize 1-1 therapeutic support for students	Secured confidential meeting space and schedule for 2 therapists to work 3 days; coordinate with partners AFS and KCCEB to refer and follow up on students to maintain wraparound support for students	KCCEB and AFS therapists; support from COA to provide the space	Ripon Mann/Tracy Corbally/Christina Yu/Kelvin Arenas	COST team notes

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment. Re-establish safety measures, protocol and procedures for postpandemic in person school in our new campus setting.

COA Map: https://drive.google.com/file/d/1nU_78MI_KozjxfRaJ0QdkbdnCKvzodMB/view?usp=sharing

ASTI Site Map: <https://drive.google.com/file/d/1zMXDXBqJutCwY5k4vKr0QRAAIBHCg6y6/view?usp=sharing>

Opportunity for Improvement:

Goal:

- Align ASTI/AUSD safety protocol with host college COA/Peralta
- reestablish drills procedures and practice with new technologies

Objectives	Action Steps	Resources	Lead Person	Evaluation
align safety protocol with COA	Admin attends COA & AUSD safety trainings & committee meetings with AUSD representatives, shared communication technology (radios, share911) with COA and AUSD, Marina Security patrols and communication, alert college to drills schedule, refined and align intruder protocol, participate in college-wide staging drill TBD	Share911, radios, intercom security staff	Tracy Corbally/Vernon Walton/Diana Bajrami/Shuntel Nathaniel	Ongoing formative as COA is replacing some staff members who left
Continue drill procedures with new technologies	Create and implement drills calendar, including fire, earthquake, lockdown, shelter in place. Collaborative drill with AUSD & COA. Both schools use ALICE protocol. Utilize intercom, share911, radios for broadcast and integration of Marina Security/police/emergency as needed, Marina Security patrolling ASTI campus on their rounds	share911, radios, intercom, security staff	Tracy Corbally/Vernon Walton	Drills calendar complete, posted to sharepoint, implemented with formative assessment during and after each drill.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Alameda Science and Technology Institute Student Conduct Code

ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Alameda Science and Technology Institute Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander:

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief:

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader:

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader:

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor:

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor:

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor:

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor:

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer:

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader:

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Aimee Cole, Ripon Mann

SEARCH TEAM #2 Jon Hallstead, Lynn Lebo-Planas

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).

Organize supplies and treatment area.

Help with wounded.

Keep Check Out Station informed.

Request additional help (ambulances, etc.) through Check Out Station.

Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT Anthony Long/Michele Johnson

TRIAGE Anthony Long/Michele Johnson

RECORDER Laurel McCoy

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located in office

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate.

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, DO NOT TOUCH OR MOVE IT!!

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

Sound the school alarm.

Notify the Superintendent or Assistant Superintendent.

Notify utility companies of a break or suspected break.

Notify fire and police departments and direct further action as required.

Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.

If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.

Move to an area of safety and maintain control of students.

Notify principal of students needing first aid as necessary.

Fight incipient fires without endangering life.

Take roll. Report absent students to principal.

Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.

- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
"I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.

2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Bay Farm School, 200 Aughinbaugh Way, Alameda, CA 94502.

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Bay Farm School Safety Committee

Katherine Crawford, Principal
Scott Slez, Safety Lead & PE Teacher
Pat Lewis, Safety Committee & 2nd Grade Teacher
Rich Mendez, Head Custodian

Assessment of School Safety

Current Status of School Crime: There has been no crime reported to law enforcement in the 2021-2022 school year, or to date in the 2023-2024 school year.

Bay Farm Culture Data
Total Enrollment 572
Chronic Absence 9.8%
Average Daily Attendance 95.6%
Suspension Rate 0.3%
Office Discipline Referral Rate 6.3%

California Healthy Kids Survey Data 2022 - 2023

5th grade had a 10% decrease from 2022 in response to feeling harassed at school. 78% reported that adults at school care about them. Student perceived safety is above the state average as well as Low Violence Victimization.
7th grade-91% of students report that they "Feel a Part of the School"; 45% reported feeling harassed or bullied at school (an increase of 14% from prior year), Over 70% of students reported "No Fear of Getting Beaten Up"

SPSA Information: If we increase students' sense of belonging and connection to caring adults and peers, student behavior on the playground and in the classroom will improve leading to a reduction of MDD (minor discipline data referrals). We hypothesize that improving staff capacity with culturally responsive practices will support student connection and sense of belonging.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Here is the PBIS Action Plan to promote campus climate and safety .

<https://docs.google.com/document/d/1gpw8MdNeKIKbuZk4wCfOX698iW45qJWZk825LuPWm2E/edit?usp=sharing>

We have a positive and inclusive school climate and culture grounded in PBIS (Positive Behavior Intervention and Support); reteaching behavior expectations in the classroom and through grade level assemblies. Our PBIS work has been recognized with a Gold Award in 2022 and a Platinum award in 2024 from the State of California.
Through recent bond measures, gates and fencing have been installed to secure the campus during the instructional day.

Safety Committee Mission: To create a plan so all people on campus know and understand safety procedures from any place on campus and trust the procedures will be followed through with integrity. We have multiple trainings and drill practices throughout the school year. We work in collaboration with the district, local law enforcement and the fire department to continually monitor and improve our safety protocols.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
- Routinely check that battery-operated equipment is in working condition.

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Insert link to REMS packet here

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.

- a) If students are on their way to school they should proceed to school.
- b) If students are on their way home from school they are to continue home.

3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
6. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Improve Student/Family/Community Involvement

Objectives	Action Steps	Resources	Lead Person	Evaluation
Faculty Involvement - all staff monitor and track minor discipline & give input to schoolwide incentive program	Provide 2-3 additional staff presentations on structure of PBIS and COST systems. Provide bi-yearly surveys to staff on incentive and discipline systems.	Staff Meetings	Culture & Climate Lead	AERIES Data tracking with support from district PBIS lead; Staff Meeting Agendas
Student/Family/Community Involvement	Publish yearly calendar of Events Have a weekly PBIS section in the Principal Newsletter (assign to PBIS committee member) Invite 2 ES and 2 MS students to join the PBIS Team Have parent representation on PBIS Team Provide opportunity for MS to assist stations in Hour of Play	PBIS Meetings, Site Newsletter (The Wave)	C&C Lead & Principal	Culture & Climate Meeting Agendas, The Wave Newsletter
Ability for teachers to request assistance for struggling students	More training needed on what COST is, and train/offer time for entering referrals into Aeries.	Staff Meetings	Intervention Lead	Staff Meeting Agendas
Tier 2 Critical Features	Formalize robust pre and post assessment structure for all T2 groups	COST Team and adopted intervention programs	Instructional Coach and Intervention Lead	Intervention Tracking Spreadsheet
Professional Development around Behavior	The Sped team, counselor, behaviorist, Intervention Lead participate in training around basic behavior theory. Toolbox has provided some resources.	CPI Training; Toolbox Program	Site Behaviorist	Certification of training
Increase Implementation of Toolbox	Create and implement timeline for teaching Refine program for middle school	Toolbox Manual	C&C Lead	Training Timeline Review;

Objectives	Action Steps	Resources	Lead Person	Evaluation
Increase Culturally & Linguistically Responsive Practices	Book Study & Professional Development	Culturally and Linguistically Responsive Teaching and Learning – Classroom Practices for Student Success, Grades K-12 (2nd Edition) PD Provided by AUSD Office of Equity	Principal and Instructional Coach	Class Walkthroughs and CHKS

Component:

Component II: Physical Environment

Element:

Updated yearly in coordination with district office, APD & AFD.

Opportunity for Improvement:

Goal: Secure campus that allows for safe egress when needed

Objectives	Action Steps	Resources	Lead Person	Evaluation
Secure physical campus during the school day	Refine Gate locking and unlocking timing and procedures	MOF	Principal & Head Custodian	Drills and security alerts
Improve ability to leave campus safely in an ALICE response	Change gate so that campus can be exited safely throughout school day	MOF	Principal & Office Manager	Completion of project
Entire Campus Rekeyed	Install "Columbine" Locks on all classroom doors	MOF	MOF	Completion of Project

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Bay Farm School Student Conduct Code

ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures

Bay Farm PBIS Staff Handbook: <https://docs.google.com/presentation/d/11mgCAsDBoulgNLMFLZ0EExrRIUQghRRei0gh-A7FVal/edit?usp=sharing>

AUSD District Student Conduct Policy

The Board of Education believes that all students have the right to be educated in a positive learning environment free from disruptions. Students shall be expected to exhibit appropriate conduct that does not infringe upon the rights of others or interfere with the school program while on school grounds, while going to or coming from school, while at school activities, and while on district transportation.

Conduct is considered appropriate when students are diligent in study, careful with school property, courteous, and respectful toward their teachers, other staff, students, and volunteers.

Prohibited student conduct includes but is not limited to:

- (1) Conduct that endangers students, staff, or others
- (2) Conduct that disrupts the orderly classroom or school environment
- (3) Harassment of students or staff (such as bullying, cyberbullying, intimidation, hazing or initiation activity, ridicule, extortion, or any other verbal, written, or physical conduct that causes or threatens to cause bodily harm or emotional suffering) in accordance with the section entitled "Bullying/Cyberbullying" below

"Cyberbullying" includes the transmission of communications, posting of harassing messages, direct threats, social cruelty, or other harmful texts, sounds, or images on the Internet, social networking sites, or other digital technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation or friendships.

- (1) Damage to or theft of property belonging to students, staff, or the district
 - (2) Possession or use of a laser pointer, unless used for a valid instructional or other school-related purpose
- Prior to bringing a laser pointer on school premises, students shall first obtain permission from the principal or designee. The principal or designee shall determine whether the requested use of the laser pointer is for a valid instructional or other school related purpose.

- (1) Use of profane, vulgar, or abusive language
- (2) Plagiarism or dishonesty in schoolwork or on tests
- (3) Inappropriate attire
- (4) Tardiness or unexcused absence from school
- (5) Failure to remain on school premises in accordance with school rules
- (6) Possession, use, or being under the influence of tobacco, alcohol, or other prohibited drug in violation of school rules

Employees are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or receive a report of a violation of these standards, to immediately intervene or call for assistance. If an employee believes a matter has not been resolved, he/she shall refer the matter to his/her supervisor or administrator for further investigation.

Students who violate district or school rules and regulations may be subject to discipline including but not limited to suspension, expulsion, transfer to alternative programs, or denial of participation in extracurricular or cocurricular activities in accordance with Board policy and administrative regulation. The Superintendent or designee shall notify local law enforcement as appropriate.

Students also may be subject to discipline for any off-campus conduct during non-school hours which 1) poses a threat or danger to the safety of students, staff, or district property or 2) substantially disrupts the educational program of the district or any other district in accordance with law, Board policy, or administrative regulation.

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate-motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Bay Farm School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Katherine Crawford 510-326-6550

Scott Slez

Incident Commander:

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief:

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader:

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader:

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor:

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor:

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor:

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor:

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer:

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader:

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in I?????yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).

Organize supplies and treatment area.

Help with wounded.

Keep Check Out Station informed.

Request additional help (ambulances, etc.) through Check Out Station.

Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT

TRIAGE

RECORDER

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate.

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Tillman Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, DO NOT TOUCH OR MOVE IT!!

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

Sound the school alarm.

Notify the Superintendent or Assistant Superintendent.

Notify utility companies of a break or suspected break.

Notify fire and police departments and direct further action as required.

Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.

If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.

Move to an area of safety and maintain control of students.

Notify principal of students needing first aid as necessary.

Fight incipient fires without endangering life.

Take roll. Report absent students to principal.

Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.
- b) Call the local law enforcement agencies to provide protection and to handle arrests.

- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
"I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the MPR.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

It is essential that students and staff remain aware of the following basic actions:

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.

- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.
2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at School Main Office.

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Amelia Earhart Elementary School Safety Committee

Bryan Dunn-Ruiz

Assessment of School Safety

Current Status of School Crime. Each school is required to assess the current status of school crime committed on the school campus and at schoolrelated functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment. Insert Aeries data here.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Provide emotional and physical safety for all students using PBIS and periodic drills and review of safety procedures

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
 - Routinely check that battery-operated equipment is in working condition.
- Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Insert link to REMS packet here

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.
3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update thier emergency contacts. In the event students are held at a school, they may be released only to the student’s own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school’s Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

- Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:
- 1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
 - 2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
 - 3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
 - 4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can’t be reached.
 - 5. Periodically, as students are released, remaining students will be consolidated.
 - 7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:
Component I: The Social Climate, People, and Programs

Element:
Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:
Use data to improve tier I and tier II identification and support

Objectives	Action Steps	Resources	Lead Person	Evaluation
Create and assess ability to collect student data and address areas of concern	PBIS team will create a low level incident system (Uh-oh) to track and review data	PBIS / Forms	PBIS Leas - Suzy Arena	Ongoing monitoring of systems with Principal and PBIS Team

Component:
Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Provide assessment of safety for fire escape routes

Objectives	Action Steps	Resources	Lead Person	Evaluation
Review and assess fire escape routes	Physical review of fire escape routes	MOF / Administration	Principal - Bryan Dunn-Ruiz	Ongoing review of safety routes during fire drills

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)**Amelia Earhart Elementary School Student Conduct Code****ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL**

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures**(K) Hate Crime Reporting Procedures and Policies**

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Safety Plan Review, Evaluation and Amendment Procedures

Activity Description (i.e. review steps, meetings conducted, approvals, etc)	Date and Time	Attached Document (description and location)
Faculty Meeting		Emergency response training with all staff
Safety Committee Meeting		Review of Safety Plan and procedures, roles and responsibilities, maps and evacuation routes
Faculty Meeting		Safety Committee share out
Safety Committee Meeting		Table top drill and training planning
Faculty Meeting		Review of REMS roles and responsibilities
Safety Committee Meeting		Update Safety plan with revisions
Public Hearing		Safety plan review with community
School Community Meeting		SSC approval of plan

Amelia Earhart Elementary School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall: Romeo Fernandez

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander: Matt Huxley

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief: Susan Bonino

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys

- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader: Matt Huxley

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader: Susan Bonino Solis

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor: Karen Cheung

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor: Raines Taylor

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor: Erica Veruzco

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students

- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor: Melissa Saunders

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer: Romeo Fernandez

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader: Nick Wolf

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).

Organize supplies and treatment area.
Help with wounded.
Keep Check Out Station informed.
Request additional help (ambulances, etc.) through Check Out Station.
Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT

TRIAGE

RECORDER

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, DO NOT TOUCH OR MOVE IT!!

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

- Sound the school alarm.
- Notify the Superintendent or Assistant Superintendent.
- Notify utility companies of a break or suspected break.
- Notify fire and police departments and direct further action as required.
- Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- Move to an area of safety and maintain control of students.
- Notify principal of students needing first aid as necessary.
- Fight incipient fires without endangering life.
- Take roll. Report absent students to principal.
- Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

- Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
- Follow procedures for principal -- 'c' and 'd' above.

Teacher

- Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.

- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
 "I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.

2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Edison School Office.

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Edison Elementary School Safety Committee

Greg Sahakian, Principal
Beth Clifford, Teacher
Kate Flanagan, Teacher
Ana Soria-Kevy, Teacher
Kelly Lara, Parent

Assessment of School Safety

No incidents of crime committed. 2023-24 Student Discipline behavior summary, as of 2/26/24: 34 incidents of Assertive Discipline, 55 incidents of (low level) Discipline, 1 incident of Suspension. Year to Date attendance rate: 95.1% schoolwide. Counseling referrals: 18 students.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

PBIS Program Components (Focus Areas from 2023-24 Edison School PBIS Action Plan):

Classroom Procedures - All classrooms have schoolwide expectations posted in a visible location.

Faculty Involvement - Staff shown PBIS data at least quarterly, staff provides feedback on incentive systems and discipline systems.

Data-based Decision Making - The PBIS team can show evidence of making adjustments to teaching plans or reinforcement systems because of data trends.

Fidelity Data - PBIS team reviews the TFI data multiple times and uses it to inform their action plan.

Annual Evaluation - PBIS team documents their fidelity of Tier 1 implementation and shares with staff, community/parent stakeholders.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.

4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.

5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
 - Routinely check that battery-operated equipment is in working condition.
- Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Insert link to REMS packet here

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.
3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions:

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses:

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court:

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions:

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment:

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer:

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training:

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications:

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures:

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel:

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms:

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES:

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Schoolwide implementation of Positive Behavior Intervention and Support (PBIS) program, to provide positive reinforcement of expectations for students:

Objectives	Action Steps	Resources	Lead Person	Evaluation
Teach and reinforce PBIS expectations	PBIS Kickoff (August) and Reboot (January) - teaching of student expectations in various areas of school	PBIS Successtour Expectations (in PBIS Handbook)	Beth Clifford - PBIS Lead	Tiered Fidelity Inventory Student Discipline, Assertive Discipline and Suspension Data Otter Card positive reinforcement data
Student Incentive to follow expectations	Otter Card Chart reward program: Otter cards, Class Otter Card Charts, with school wide goal for Otter Card Charts. Reward examples: ? Classroom recognitions for Otter Card Charts ? Community Meeting recognitions (Raffle for GL Otter Card Awards) ? Hour of Play as schoolwide recognition	Otter cards, charts, awards, Hour of Play game equipment, Hour of Play schedule	Beth Clifford - PBIS Lead	Tiered Fidelity Inventory Student Discipline, Assertive Discipline and Suspension Data Otter Card positive reinforcement data
Schoolwide events to promote school community:	Bi-Monthly Community Meetings Buddy Class time Field Day Readathon Walk & Roll events	Equipment and materials for Community Meeting (Speaker, microphone, flag, awards). Equipment and materials for Field Day (Speaker, microphone, game supplies) Equipment and materials for Readathon (supported by PTA) Equipment and materials for Walk and Roll events(supported by Safe Routes to School program and PTA)	Beth Clifford - PBIS Lead Greg Sahakian - Principal	Tiered Fidelity Inventory Student Discipline, Assertive Discipline and Suspension Data Otter Card positive reinforcement data

Objectives	Action Steps	Resources	Lead Person	Evaluation
Socioemotional Learning Program - Toolbox	Reboot training and implementation of the Toolbox Socioemotional Learning Curriculum for staff, students and families. Schoolwide plan to teach tools at start of year, including presenting tools at Community Meetings Family "Kickoff" and monthly communications, to reinforce use of strategies at home Recognition through Otter Card reinforcement system Parent Toolbox/SEL Info Night	Toolbox manuals for teachers, copies of materials (including "Tools" for students), Toolbox lanyards for staff.	Greg Sahakian - Principal	Tiered Fidelity Inventory Student Discipline, Assertive Discipline and Suspension Data Otter Card positive reinforcement data
Socioemotional Learning Program - Soul Shoppe Peacemakers (conflict managers)	Training of Student Peacemakers (6 hour program) Schedule students for recess duties Monthly meetings for Peacemakers to review past month, make improvements.	Soul Shoppe Peacemaker Manual Peacemakers supplies (Clipboards, Peace Keys, Peace Path) Copies of initial and monthly training materials, including folders for students.	Greg Sahakian - Principal	Tiered Fidelity Inventory Student Discipline, Assertive Discipline and Suspension Data Otter Card positive reinforcement data

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Improve safety of students and families to and from school

Objectives	Action Steps	Resources	Lead Person	Evaluation
Establish school Safety Patrol	Staff to reach out to AAA for Safety Patrol materials	AAA Materials	Ana-Soria Kevy, classroom teacher	Visual survey of adherence to safety procedures when Safety Patrol is present, vs. when not present.
	Train students for how be Safety Patrol Members	Vests, signs, sashes		
		Copes of training materials		

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Edison Elementary School Student Conduct Code

ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL:

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints:

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Safety Committee Meeting		Update Safety plan with revisions
Public Hearing		Safety plan review with community
School Community Meeting		SSC approval of plan

Edison Elementary School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY

COMMAND POST PERSONNEL AND DUTIES:

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation
2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander: Greg Sahakian 415-350-0883
Logistics Chief: Chris Lonsdale 510-418-7356
Communication Unit Leader: Nicci Woodward 415-812-5950
Parent Reunification Unit Leader: Nicci Woodward 415-812-5950
Student Accounting/Group Supervisor: Nicci Woodward 415-812-5950
Search & Rescue Group Supervisor: Natasha Westlund 619-709-0333
First Aid/Triage Group Supervisor: Lucia Lin 510-502-9286

Crisis Intervention/ Counseling Group Supervisor: Carrie Green-Zinn 510-504-6862

Facilities and Safety Officer: Vai Maulupe 510-990-1759 (custodian cell) 510-861-5416 (personal cell)

Emergency Drill Leader: Greg Sahakian 415-350-0883

Incident Commander:

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief:

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader:

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader:

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor:

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor:

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor:

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor:

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer:

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader:

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.
Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).
Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by Natasha Westlund (Operations)

Sarah Hinds
Mary Lee
Regina delRosario

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).
Organize supplies and treatment area.
Help with wounded.
Keep Check Out Station informed.
Request additional help (ambulances, etc.) through Check Out Station.
Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT
Lucia Lin

TRIAGE
Nicole Korpell

RECORDER
Zoe Boese

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT:

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

ANIMAL DISTURBANCE:

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

ARMED ASSAULT ON CAMPUS:

Follow A.L.I.C.E Procedures

Biological or Chemical Release

BIOLOGICAL OR CHEMICAL SPILL:

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.

- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

BOMB THREAT/THREAT OF VIOLENCE:

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, **DO NOT TOUCH OR MOVE IT!!**

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.

- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

- Sound the school alarm.
- Notify the Superintendent or Assistant Superintendent.
- Notify utility companies of a break or suspected break.
- Notify fire and police departments and direct further action as required.
- Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- Move to an area of safety and maintain control of students.
- Notify principal of students needing first aid as necessary.
- Fight incipient fires without endangering life.
- Take roll. Report absent students to principal.
- Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

- Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
- Follow procedures for principal -- 'c' and 'd' above.

Teacher

- Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS:

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.
- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
"I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

EARTHQUAKE:

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION:

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

FIRE IN SURROUNDING AREA:

Follow Shelter In Place procedures

Fire on School Grounds

FIRE ON SCHOOL GROUNDS:

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION :

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

FLOODING:

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE:

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

MOTOR VEHICLE CRASH:

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

PSYCHOLOGICAL TRAUMA:

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.
2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Encinal Main Office: A-103.

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Encinal Junior/Senior High School Safety Committee

Safety Team Roster

Tim Zolezzi - Lachelle Morris - Jenna Phillips - Josh Linville - Amy Dellefield - Cat Silverman

Assessment of School Safety

Assessment of Safety

There have been 25 cases of "Willful Use of Force" recorded this school year, of those cases, 8 were the result of a fight that happened in front of school on a single afternoon. There have been no recommendations for expulsion. Only one of the suspensions resulted in bodily injury that required medical attention and that altercation took place on the campus of Alameda High School.

There has been an increase in suspensions due to smoking. This is less the result of an increase in cases and more a result of a tougher stance of this particular infraction.

Our score on the "Perceived School Safety" has climbed for the last 4 school years, with 67% of students feeling very safe on campus. This trend of increased school safety is corroborated by a decrease in reported feelings of being the target of rumors, harassment, victimization, fear of being beaten up. No weapons have been found/confiscated on campus this school year.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Strategies and Programs to Maintain High Levels of Safety

We've held two all staff safety meetings (9/20/'23 & 10/18/'23) where we reviewed staff responsibilities for active shooter scenarios, natural disasters, and fire threats. Emergency response committees were established at this time. We have held 2 planned drills as of 10/25/'23; one Active Shooter and one Fire Drill. Our front office safety team debriefs after each drill to tighten up protocols and procedures. Our average evacuation time is still under 3 minutes.

All students have engaged in an ALICE (active shooter lesson) where students learned how to play a positive role in a potentially dangerous situation. We also have conducted a lesson about bystanders and upstanders, and how to support potential dangerous situations in a positive way. Students have also had lessons on each element of our PRIDE acronym, as well as formal lessons on the impact done by hate speech.

We have Narcan and Fentanyl test stripes on campus, and 7 staff members were just trained in the usage of epi-pens.

A detailed plan for our advisory and other safety and PBIS related interventions are highlighted in our Fall TFI self assessment rubric (attached).

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number. Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation.

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.

- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
- Routinely check that battery-operated equipment is in working condition. Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
 2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
- a) If students are on their way to school they should proceed to school.
b) If students are on their way home from school they are to continue home.

3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Increase student understanding of school values via formal Advisory lessons and intentional community building.

Objectives	Action Steps	Resources	Lead Person	Evaluation
80% of students will report having a safe adult with whom they can connect on campus.	Creation of the Advisory class at the beginning of the day for each student.	Curriculum for advisory lessons being created by the PBIS Team.	Sara Rousseve & Melissa Sackett	Melissa Sackett and Admin Team
Students will have the knowledge, confidence and skills to be "upstanders" in potentially dangerous situation.	Students will receive a series 3 lessons in Advisory	Advisory Slides and supplemental materials.	Sara Rousseve & Zolezzi	PBIS/School Culture Committee
At least 70% of interviewed students can list all the expectations Yearly calendar is available that shows the expectations teaching for the year & included in PBIS manual Calendar available that shows when expectations are taught school-wide and in classrooms.	Expectations taught/retaught at least 4 times over year	Weekly Advisory slides created by the PBIS/School Culture Committee	Sara Rousseve	Periodic check of participation by monitoring the advisory slide doc history.
Decrease chronic absenteeism by 10%	Increased home communication; postcards, ineligibility notifications	Aeries & Schoolzilla attendance data	Tim Zolezzi	Data review at Attendance & Admin meetings

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Increase safety on campus by tightening up our perimeter and increasing capacity to monitor.

Objectives	Action Steps	Resources	Lead Person	Evaluation
Increased campus safety	Mesh added to exterior gates	Mesh	Kirstin Snyder	MOF
Increased campus safety. Ability to investigate and follow through in discipline cases.	New camera system as of 2021. Two new cameras as of 2022. 4 more cameras added in 2023	New cameras.	Zolezzi & Snyder	Ongoing
Increased campus safety	Exterior doors locked at set times.	Gates & Campus Supervisors	Zolezzi & Campus Supervisors	Ongoing
Increased campus safety by adding a fence around the front of campus	Fence committee convened twice in 2023 to finalize plans. Fence construction will begin in 2024.	District Funds	MOF	MOF

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Encinal Junior/Senior High School Student Conduct Code

ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate-motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Encinal Junior/Senior High School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander: Tim Zolezzi

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief: Jamilah Jones-McLean

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader: Blanca Cardenas

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader: Vi Doan

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for: Michelle Mason

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor: Ralph Nelson

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor: Kevin Gorham

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor: Frances Johnson

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor: Tiffany Meissan

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer: Greg Clayton

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader: Tim Zolezzi

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by Kevin Gorham

Team Members: Kate Werner - Jack Lane

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).
Organize supplies and treatment area.
Help with wounded.
Keep Check Out Station informed.
Request additional help (ambulances, etc.) through Check Out Station.
Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT: Frances Kahuanui-Johnson

TRIAGE: Lori McDonald & Lachelle Morris

RECORDER: Amy Dellefield

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, DO NOT TOUCH OR MOVE IT!!

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

Sound the school alarm.

Notify the Superintendent or Assistant Superintendent.

Notify utility companies of a break or suspected break.

Notify fire and police departments and direct further action as required.

Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.

If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.

Move to an area of safety and maintain control of students.

Notify principal of students needing first aid as necessary.

Fight incipient fires without endangering life.

Take roll. Report absent students to principal.

Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.

- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
 "I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.

2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

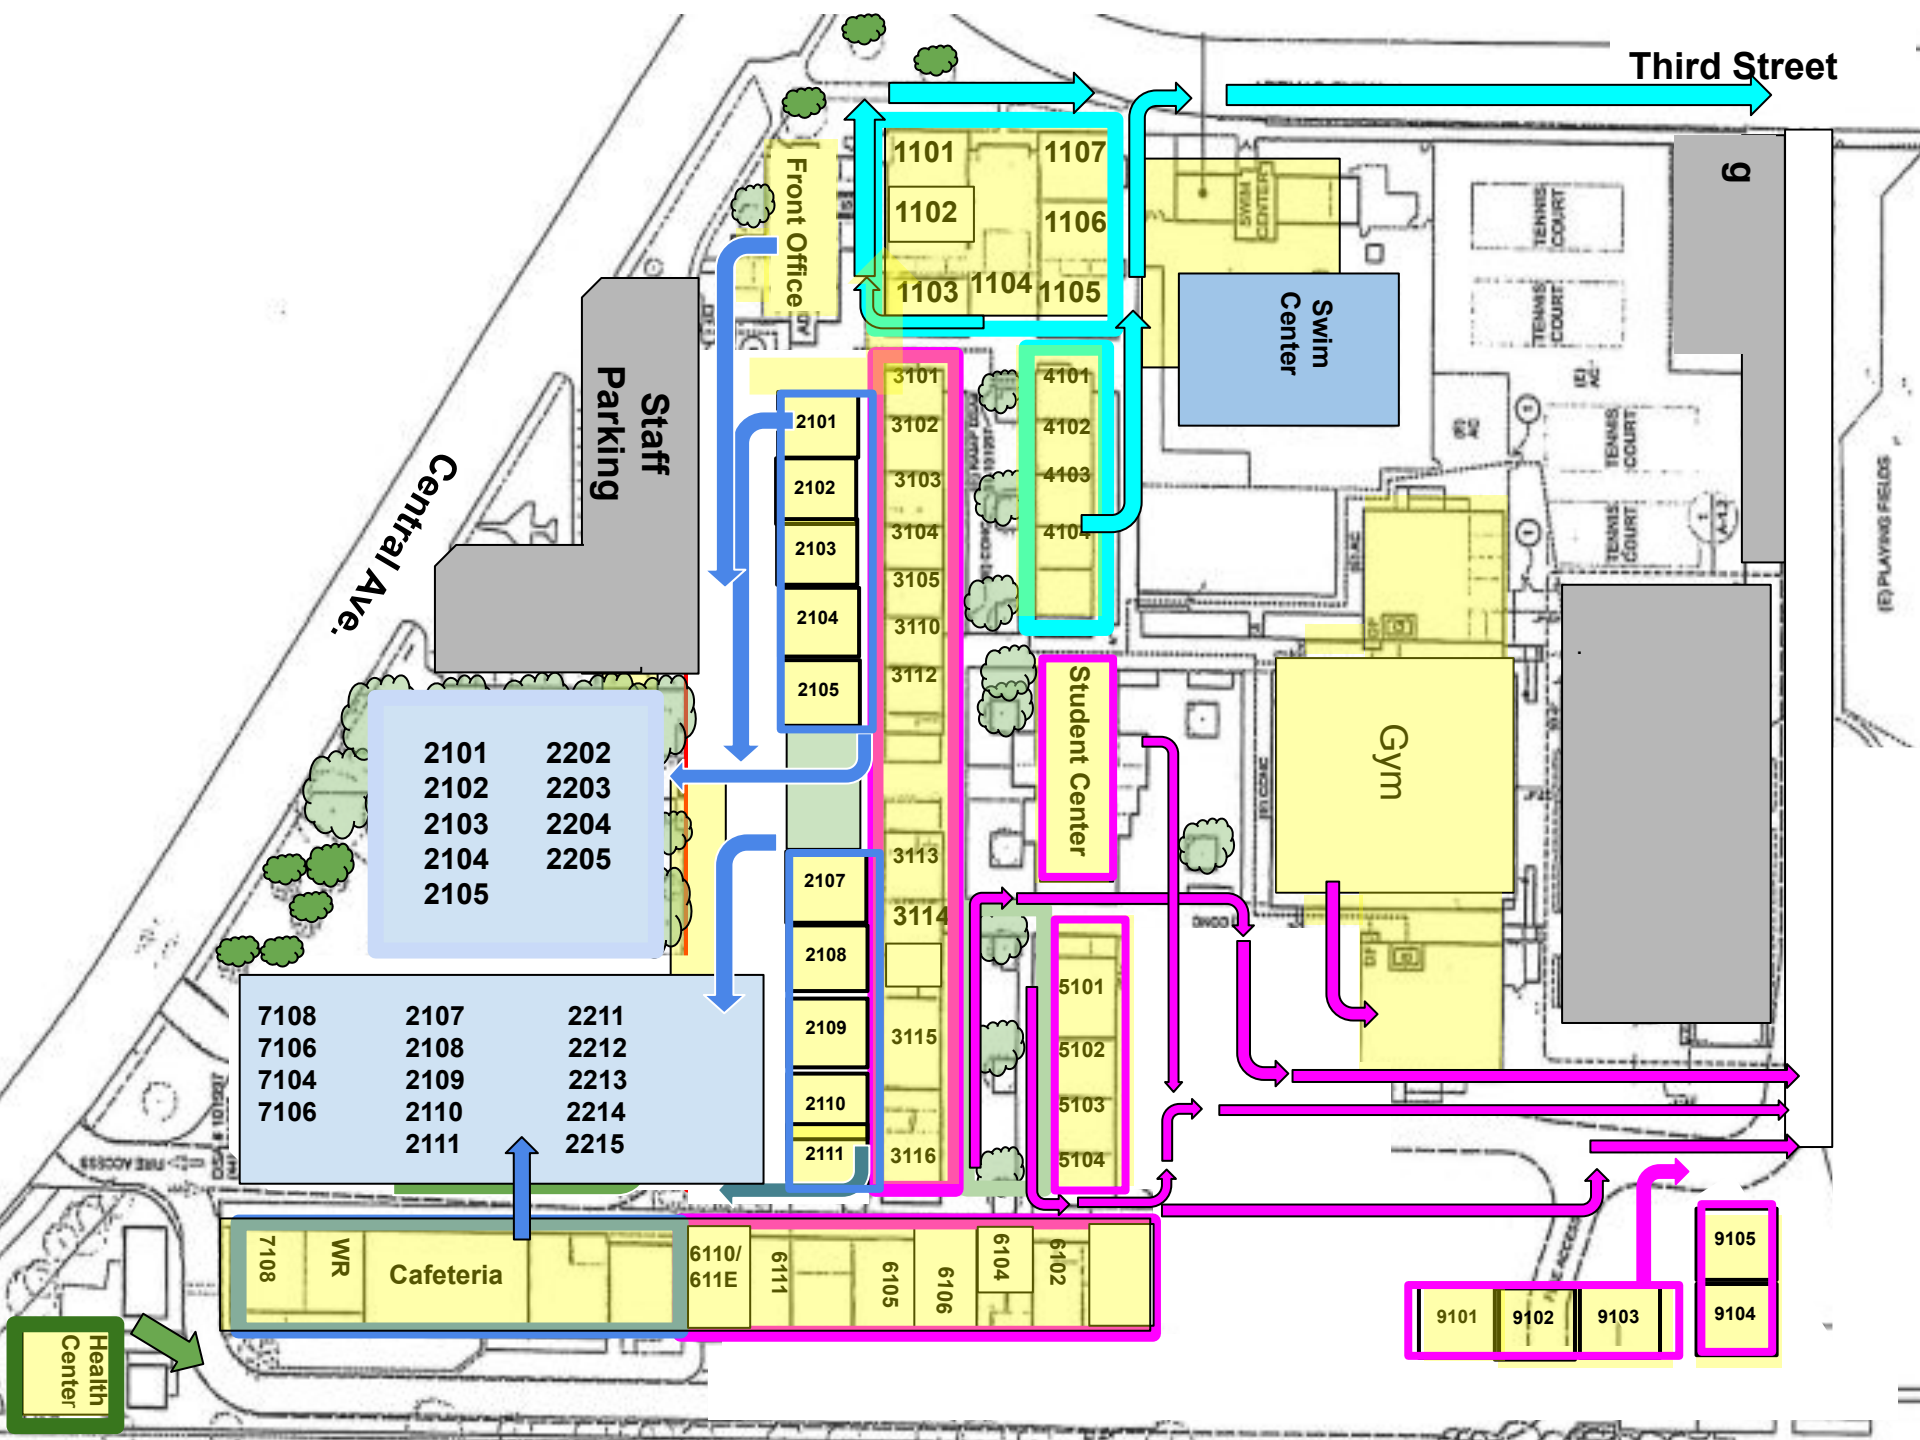

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at the Franklin Elementary School Office.

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Franklin Elementary School Safety Committee

Lynnette Chirrick, Principal

Tim Smith, Custodian

Hyunji Lee, Health Assistant

Martha Zenk, Intervention Lead

Erin Gilchrist-Brown, Office Manager

Assessment of School Safety

Current Status of School Crime: There has been no crime reported to law enforcement in the 2022-2023 school year, or to date in the 2023-2024 school year. Similarly, we have had no suspensions or expulsions in these past two years. In review of behavior referrals, there has been some minor vandalism, such as urinating on the bathroom floor, not criminal. Last year's Office Discipline referral rate was 6.4%. We are also addressing rough play, as according to minor behavior and office referrals, it results in larger conflicts. Another priority for us this year is incorporating kindness into our SOAR expectations - Safe, On-task, Accountable, Respectful. We find that as we have developed respect, the extra step of kindness is a next goal. Improving student attendance is a goal in our Single Plan for Student Achievement. To date in the 2023-2024 school year, we have 19.1% of students chronically absent. Last year in June it was 11.7%.

Our renewed commitment will be to continually monitor chronic absenteeism throughout the year, responding with compassion, support, and an inquiry based approach for identifying root causes and addressing each family's needs." The highest percentages of chronic absenteeism were in kindergarten and first grade in the 2022-2023 school year. We continue to have certain student populations with disproportionate amounts of chronic absenteeism. We believe by taking the measures indicated in our SPSA goal 2, we can take an individualized approach to lessening chronic absenteeism as a whole school and within student populations where there is disproportionality.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

During August staff site PD staff engaged in circle using affective statements and questions to discuss PBIS. A site menu of Tier 1 interventions has been created and shared with teachers/PD provided; common practices exist across the site (ex. reflection forms). Tier 1 features (schoolwide expectations, routines, acknowledgements, in-class continuum of consequences, circles) are implemented within classrooms and consistent with school-wide systems. At least once a week, classroom teachers are conducting circles or class meetings/community-building. Teachers model affective language and active listening when responding to students. Behavior matrix clearly delineates when and how RP should be used to respond to problem behaviors, but will change to RP reflection forms. For those needing T2 and T3 supports, each student's support team meets at least monthly and uses data to modify the support plan to improve fidelity and/or impact on quality of life, behavior, or academics; COST meets and reviews and members consult individually with families and students.

For next steps, per our most recent TFI, we will be:

Monitoring implementation amongst our Recess Coaches in Restorative Conversations to respond to challenging behavior. Ms. Guha has trained the recess coaches (formerly Conflict Managers), and Mr. Brantley and Ms. Manalili has also worked on Restorative Conversation implementation.

Considering roles for students on our PBIS Team.

Mx. Martha will offer Restorative Practices Discussion sheets to staff.

Ms. Chirrick will agendaize RP follow up with staff.

Students participate in community-building circles, are taught how to have informal RP conversations or participate in repair circles

New system for entering minor discipline data in AERIES

Pre and Post intervention progress is reported to teachers in Aeries and parents in email (make standard form), consider inclusion of GEMS

COST team tracks the proportion of students experiencing success in T2 interventions and makes adjustments based on this data;

Team can show evidence of adjustments that have been made to interventions based on outcome data for academics - need formal for behavior

T3 team is in contact with outside agencies able to be included in support plans. Agency involvement is documented in support plans; next step AFS

August PD- Mx. Martha engaged staff in activity about connection/inclusion; Lynnette to schedule presentation by either School Psychologist or Behaviorist for a review of functions of behavior. Check-in's with individual students based on Wellness Survey Resources, and monitor overall results data for progress monitoring. Our School Site Council believes that communication surrounding events such as those described in this plan, should also be a part of response. Specific information about this will be a next step discussion with AUSD Communications Department.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
 - Routinely check that battery-operated equipment is in working condition.
- Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.
3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.
4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1: For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3: The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))

- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))
- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))

- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplinary record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly/Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Staff will discuss the Franklin PBIS plan work together to refine posters, positive incentives, re-teach SOAR acronym and associated expectations, and students will demonstrate expectations across settings.

Opportunity for Improvement:

PBIS Next Steps from Tiered Fidelity Inventory:

Spiral training and implementation of the Toolbox Socioemotional Learning Curriculum for staff, students and families.

Schoolwide plan to teach tools at start of year, including communication tools in Facebook posts, on Parent Square, to reinforce use of strategies at home in the second part of the year.

Revisit student reinforcement systems and revise using recommendations from the TFI

Revise lessons for the buddy bench to include specific language students can say to students sitting on the buddy bench, what to do when nobody joins. Add a duty to Recess Coaches to monitor. Include the buddy bench in the Welcoming Committee responsibilities.

Retrain Friendship Coaches & Noon Supervisors and volunteers to include restorative questions and Toolbox tools

Spiral training and implementation of the Toolbox Socioemotional Learning Curriculum for staff, students, families

Relationships among students:

Establish class reading buddies to help rebuild some of the student to student relationships in other grades. Provide time for cross grade level collaboration time to develop opportunities for students to participate in transition and build relationships with staff and students in other grades, providing leadership opportunities and relationship and community building with students in other grade levels.

Empower students to lead clubs that engage students in leadership opportunities, and provide students a place to go and build relationships outside of physical sports at recess.

As we currently have much higher chronic absenteeism than prior to COVID, additional practices for family partnerships should be explored in order to improve attendance and help students build relationships with one another.

Objectives	Action Steps	Resources	Lead Person	Evaluation
Design and develop lunch time activities to increase student involvement	Empower students to lead clubs that engage students in leadership opportunities, and provide students a place to go and build relationships outside of physical sports at recess. Clubs will publicize their focus and recruit members. Use bulletin boards to recognize campus groups and their activities	PTA Funds, Clubs will submit individual resource needs	Erin, Lynnette	Connectedness Survey Results, Participation Rates
Increase usage of Toolbox Tools by students when needing support with emotional regulation or in conflict.	Schedule Common Toolbox Lessons, Create Toolbox Resources for Families	Possibly PTA funds for materials for families	Martha	Implementation Data
Continue the redesign of "Conflict Managers" to make them "Recess Coaches" and focus on the Restorative Questions and Practices while helping to support student interactions on the playground	Recruit students to be trained as Recess Coaches; Train Conflict Manager Supervisor, who will then train Recess Coaches; Monitor implementation, providing feedback necessary	PTA Funds	Lynnette, Martha, Debamitra	Implementation and Observation data
Continue to promote relationships amongst students	Provide Social Skills Groups; Buddy Bench update listed above; reading buddy implementation. Focus on the R in Soar: Define Respect for students and implications as we continue to learn about DEI and C&LRTP, move into kindness.	N/A	Lynnette, Erin, Martha, PBIS Team	AERIES Pre-Intervention and Intervention Data; Connectedness Survey
Continue to focus Professional Development for the 23-24 school year on Culturally and Linguistically Responsive Teaching Practices	See SPSA, PD Plan	PTA Funds for Sharroky Hollie Books (C&LRTP), release time to visit classrooms	Lynnette, Leadership Team	PD Exit Tickets, implementation data

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Provide a closed school environment, with a locked exterior. This is still in progress with our District's IT Team

Objectives	Action Steps	Resources	Lead Person	Evaluation
Install doorbell, camera, and buzzer system for secure access to the facility.	Work with MOF and Technology to revise installation and software for our door buzzer system	MOF, Technology	Lynnette Chirrick, Robyn O'Dell Kondo	Completion of Project

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)**Franklin Elementary School Student Conduct Code****ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL**

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix:

<https://resources.finalsite.net/images/v1690242530/alamedak12caus/wn5ia23etcutqlmp7tej/AUSDPositiveBehaviorExpectationsandDisciplineMatrix.pdf>

Conduct Code Procedures**Student Conduct Policy**

The Board of Education believes that all students have the right to be educated in a positive learning environment free from disruptions. Students shall be expected to exhibit appropriate conduct that does not infringe upon the rights of others or interfere with the school program while on school grounds, while going to or coming from school, while at school activities, and while on district transportation.

Conduct is considered appropriate when students are diligent in study, careful with school property, courteous, and respectful toward their teachers, other staff, students, and volunteers.

Prohibited student conduct includes but is not limited to:

- (1) Conduct that endangers students, staff, or others
- (2) Conduct that disrupts the orderly classroom or school environment
- (3) Harassment of students or staff (such as bullying, cyberbullying, intimidation, hazing or initiation activity, ridicule, extortion, or any other verbal, written, or physical conduct that causes or threatens to cause bodily harm or emotional suffering) in accordance with the section entitled "Bullying/Cyberbullying"

below "Cyberbullying" includes the transmission of communications, posting of harassing messages, direct threats, social cruelty, or other harmful texts, sounds, or images on the Internet, social networking sites, or other digital technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation or friendships.

(1) Damage to or theft of property belonging to students, staff, or the district

(2) Possession or use of a laser pointer, unless used for a valid instructional or other school-related purpose. Prior to bringing a laser pointer on school premises, students shall first obtain permission from the principal or designee. The principal or designee shall determine whether the requested use of the laser pointer is for a valid instructional or other school-related purpose.

(1) Use of profane, vulgar, or abusive language

(2) Plagiarism or dishonesty in schoolwork or on tests

(3) Inappropriate attire

(4) Tardiness or unexcused absence from school

(5) Failure to remain on school premises in accordance with school rules

(6) Possession, use, or being under the influence of tobacco, alcohol, or other prohibited drug in violation of school rules

Employees are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or receive a report of a violation of these standards, to immediately intervene or call for assistance. If an employee believes a matter has not been resolved, he/she shall refer the matter to his/her supervisor or administrator for further investigation.

Students who violate district or school rules and regulations may be subject to discipline including but not limited to suspension, expulsion, transfer to alternative programs, or denial of participation in extracurricular or co-curricular activities in accordance with Board policy and administrative regulation. The Superintendent or designee shall notify local law enforcement as appropriate.

Students also may be subject to discipline for any off-campus conduct during non-school hours which 1) poses a threat or danger to the safety of students, staff, or district property or 2) substantially disrupts the educational program of the district or any other district in accordance with law, Board policy, or administrative regulation.

Possession/Use of Cellular Phones and Other Mobile Communications Devices

No student shall be prohibited from possessing or using an electronic signaling device that is determined by a licensed physician or surgeon to be essential for the student's health and the use of which is limited to health-related purposes. (Education Code 48901.5)

Students may possess or use on school campus personal electronic signaling devices including, but not limited to, pagers and cellular/digital telephones, as well as other mobile communications devices including, but not limited to, digital media players, personal digital assistants (PDAs), compact disc players, portable game consoles, cameras, digital scanners, and laptop computers, provided that such devices do not disrupt the educational program or school activity and are not used for illegal or unethical activities such as cheating on assignments or tests.

If a disruption occurs or a student uses any mobile communications device for improper activities, a school employee shall direct the student to turn off the device and/or shall confiscate it. If the school employee finds it necessary to confiscate the device, he/she shall return it at the end of the class period or school day.

In accordance with the Board's policy and administrative regulation on search and seizure, a school official may search a student's mobile communications device including but not limited to reviewing messages or viewing pictures.

Students shall not use mobile communications devices, even in hands-free mode, while driving on school grounds or to or from a school-related activity.

A student who violates this policy may be prohibited from possessing a mobile communications device at school or school-related events and/or may be subject to further discipline in accordance with Board policy and administrative regulation.

At Franklin School, we want all our Falcons to SOAR - to be:

Safe

On-Task

Accountable

Respectful

The goal of our PBIS plan is to:

- *Creating a positive, inclusive environment for students
- *Shape desired behaviors by recognizing positive behaviors
- *Increase student achievement as a result of positive relationships
- *Create an environment where students are excited to go to school
- *Decrease minor behavior incidents

Teachers have used PBIS as a framework to establish supplemental class policies, suitable to grade level and subject taught which support a positive learning environment in classroom. Referral to the principal is used as a last resort after teachers have followed a progressive discipline policy and have exhausted all other appropriate preventative and corrective measures. Each disciplinary case will be handled as collaboratively, timely, and fairly as possible. In most instances, the student's parent/guardian will be notified by a teacher and/or administrator regarding the particular disciplinary issue.

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Franklin will also collaborate with our school community and the district to identify and reduce incidents of microaggressions, which are defined as subtle, unconscious, or unintentional behaviors prejudicing or excluding a member of a marginalized group. Although these behaviors do not meet the definition of a hate crime, these behaviors contribute to an unsafe school environment. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate motivated acts. Franklin will also collaborate with our school community and the district to identify and reduce incidents of microaggressions, which are defined as subtle, unconscious, or unintentional behaviors prejudicing or excluding a member of a marginalized group. Although these behaviors do not meet the definition of a hate crime, these behaviors contribute to an unsafe school environment.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Franklin Elementary School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY

COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
 2. Current roster of students and staff
 3. Emergency forms and documents
 4. Office supplies to assist unit leads
- B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

- A. Team up with other personnel as a member of a Site Emergency Team, otherwise:
- B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

- A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

- A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.
- B. Check the site completely for:
1. Fire and electrical hazards
 2. Chemical hazards (Chlorine storage)
 3. Other hazards
- C. Notify Site Manager of hazards and services needed
- D. Barricade hazardous areas using whatever materials handy
- E. When site is secure, report to the Command Post for direction
- F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

- A. Respond immediately to emergency signals requiring specific actions and check in on Share911
- B. If signal is one to Leave Building, know if signal is for:
1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number
Lynnette Chirrick 209-620-7924

See REMS Documents for additional team contact information

Incident Commander: Lynnette Chirrick

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief: Michelle Thomas, Darlene Norman

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader: Erin Gilchrist Brown

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader: Erin Gilchrist Brown

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for: Erin Gilchrist Brown

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor: Judith Manalili and Dustin Brantley

Team:

K - Danielle LaBarre

1st - Jill Ingram

2nd - Tina Twite

3rd - Julia Shafer

4th - Debamitra Guha

5th - Darlene Norman

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor: Greg Kontzer and Emily Pieri

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist

- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor: Hyunji Lee & Jodi Barzelatto

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor: Martha Zenk and Jair Morales

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer: Tim Smith

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader: Lynnette Chirrick

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search Team 1: Emily Pieri, Judith Manalili

Search rooms 14, 15, Girls and Boys downstairs bathrooms, Rooms 5,4,3,2, elevator, MPR, Basement, Resource, Speech/Psych rooms, custodian's rooms, storage area, lift. Put up No entry sign when done. Report cleared rooms and all findings to command.

SEARCH TEAM #2 Search Team 2: Greg Kontzer & Lynn Kinsey (Joan Pon backup on M, T)

Search Rooms 12, 11, 10, 9, 8, 7, 6, Upstairs Elevator, Psychologist's Room, Girl's upstairs bathroom, Women's Staff Bathroom, All areas in the administration offices, unisex bathroom, Rooms 1 & 16. Put up no entry signs when done. Report cleared rooms and findings to command.

Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).

Organize supplies and treatment area.

Help with wounded.

Keep Check Out Station informed.

Request additional help (ambulances, etc.) through Check Out Station.

Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT - Jodi Barzelatto

TRIAGE - Hyunji Lee

RECORDER - Joan Pon, if not serving as backup runner

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – PARU GATE

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures, REMS, This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: "I'm sorry, I did not understand you. What did you say?"
- b) Use Bomb Threat Checklist (see form at the end of this "Bomb Threat" section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, **DO NOT TOUCH OR MOVE IT!**

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

- Sound the school alarm.
- Notify the Superintendent or Assistant Superintendent.
- Notify utility companies of a break or suspected break.
- Notify fire and police departments and direct further action as required.
- Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- Move to an area of safety and maintain control of students.
- Notify principal of students needing first aid as necessary.
- Fight incipient fires without endangering life.
- Take roll. Report absent students to principal.
- Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

- Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
- Follow procedures for principal -- 'c' and 'd' above.

Teacher

- Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he or she shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom. Activate Share911

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.
- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
"I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the classrooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

Franklin School participates in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures, contact MOF to shut off air if possible.

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area.
- Remain with students in designated area until notified of next action.

- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.

- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud"

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party. Ask teachers to keep students indoors if students should not see what is happening.

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.
2. Work with your school psychologist and or counselors to determine identification of short-and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications

because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at .

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Island Continuation High School Safety Committee

Ben Washofsky, Eduardo Garcia, Juanita Williams, Amy Haines, Matthew Giles, Ross Becht, Jhune Rosalio

Assessment of School Safety

Current Status of School Crime. Each school is required to assess the current status of school crime committed on the school campus and at schoolrelated functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment. Insert Aeries data here.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

The School follows best practices for around MTSS and PBIS.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
 - Routinely check that battery-operated equipment is in working condition.
- Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Insert link to REMS packet here

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.
3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update thier emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Increase student participation and student voice and build up community

Objectives	Action Steps	Resources	Lead Person	Evaluation
increase student participation and student voice	Restorative practices trainings	All staff recieved a book titled beyond the surface of restorative practices	Heidi Guibbord and Delinda HAnsen	staff PD meetings and share out
Community building	RP training	Cassie Fergusson lead multiple trainings on all day PD days	Cassie	Survey and increased participation fo students.

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Create a space where students feel comfortable gathering

Objectives	Action Steps	Resources	Lead Person	Evaluation
create comfortable gathering space	with move to campus, reconfigured outside areas to create a quad	repurposing of furniture	Ben Washofsky	Kids gather

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)**Island Continuation High School Student Conduct Code****ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL**

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures**(K) Hate Crime Reporting Procedures and Policies**

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate-motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Island Continuation High School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander: Ben Washofsky

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief: Juanita Williams

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader: Juanita Williams

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader: Cora Keeney

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor: Aki Moore

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor: Ben Washofsky

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor: Juanita Williams

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor:

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer: Jhune Rosalio

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader:

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).
Organize supplies and treatment area.
Help with wounded.
Keep Check Out Station informed.
Request additional help (ambulances, etc.) through Check Out Station.
Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT

TRIAGE

RECORDER

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, DO NOT TOUCH OR MOVE IT!!

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

Sound the school alarm.

Notify the Superintendent or Assistant Superintendent.

Notify utility companies of a break or suspected break.

Notify fire and police departments and direct further action as required.

Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.

If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.

Move to an area of safety and maintain control of students.

Notify principal of students needing first aid as necessary.

Fight incipient fires without endangering life.

Take roll. Report absent students to principal.

Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.

- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
 "I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.

2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at .

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Lincoln Middle School Safety Committee

Jessica Lucio, Assistant Principal

Christine Weidler, Teacher

Joslyn Olsen, Teacher

Joan Hulihan, Office Manager

Assessment of School Safety

Current Status of School Crime at Lincoln primarily is focused on preventing vandalism. The campus is accessible from multiple points of entry and over the weekends each year we deal with spray painted vandalism 1-2 times per year. According to our suspension data the number one offense is taking something without permission, then will force used and third smoking. Our attendance data is outstanding and is consistently over 92%. We have only completed the SART process for one student this year and are in the process of the SARB process. No students have been recommended for expulsion. We do not have a campus supervisor, however, our head custodian is very present on campus, and the school is consistently not accessible to the public during the school day.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Our action plan for school wide expectations is sustained through our advisory period weekly. We reteach expectations through advisory. In addition, we have our PBIS manual posted on our internal website, as well as review it with staff monthly in our Tier 1 and Co Teaching collaboration. Our COST team has built in time at the end of our meetings to provide feedback to teachers to update them on students who have been referred to COST. Our Tier II menu continues to grow and we have added significantly more academic groups this year for both reading, math and school readiness or executive functioning. We have consistently used SABRES for our assessment, however we are working on an additional evaluation that we will use for various types of groups to do in addition to SABRES. We have at least two staff meetings per year dedicated to reviewing the data for COST and reviewing the expectations of teachers. We have also refined our understanding of how students are accepted into COST as well as exited, and we have clearly defined when we hold an SST.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.

4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.

5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
 - Routinely check that battery-operated equipment is in working condition.
- Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.
3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update thier emergency contacts. In the event students are held at a school, they may be released only to the student’s own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school’s Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

- Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:
- 1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
 - 2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
 - 3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
 - 4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can’t be reached.
 - 5. Periodically, as students are released, remaining students will be consolidated.
 - 7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:
Component I: The Social Climate, People, and Programs
Increase the percentage of students who have a trusted adult by 10%

Element:
Compare the wellness survey data from Spring 2022 to Spring 2023

Opportunity for Improvement:
Goal: Build restorative practices in the classroom to promote student's socio-emotional safety and mental health

Objectives	Action Steps	Resources	Lead Person	Evaluation
Quiet corners in all classrooms	provide the materials to staff to create the quiet corner	Survey of staff for how often they have restorative circles?	Sheila SatheWarner	Walk through data on quiet corners
		Survey students out of class what would help them to stay in classs?		

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Improve site safety with the installation of a push gate near the front bike racks of the school.

Objectives	Action Steps	Resources	Lead Person	Evaluation
Work with the district to get the funding for this push gate	Address in weekly site meetings	Minutes from meetings	Assistant Principal	Gate installed

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)**Lincoln Middle School Student Conduct Code****ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL**

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures**(K) Hate Crime Reporting Procedures and Policies**

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate-motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Lincoln Middle School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?
 - 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander: Sheila SatheWarner 415-225-1800

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief: Jessica Lucio 510-207-1717

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader: Joan Hulihan 510-853-0809

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader: Jonquil Walls 510-491-6872

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor: Shane Reno 925-216-8370

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor: Steve Allen 510-561-3606

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor: Emilia Marchese-Barker 757-947-8251

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor: Kelsey Patterson Hall 760-815-3296

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer: Lee Reece 510-850-9273

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader: Jessica Lucio 5610-207-1717

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).
Organize supplies and treatment area.
Help with wounded.
Keep Check Out Station informed.
Request additional help (ambulances, etc.) through Check Out Station.
Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT

TRIAGE

RECORDER

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, DO NOT TOUCH OR MOVE IT!!

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

- Sound the school alarm.
- Notify the Superintendent or Assistant Superintendent.
- Notify utility companies of a break or suspected break.
- Notify fire and police departments and direct further action as required.
- Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- Move to an area of safety and maintain control of students.
- Notify principal of students needing first aid as necessary.
- Fight incipient fires without endangering life.
- Take roll. Report absent students to principal.
- Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

- Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
- Follow procedures for principal -- 'c' and 'd' above.

Teacher

- Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.

- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
 "I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.

2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

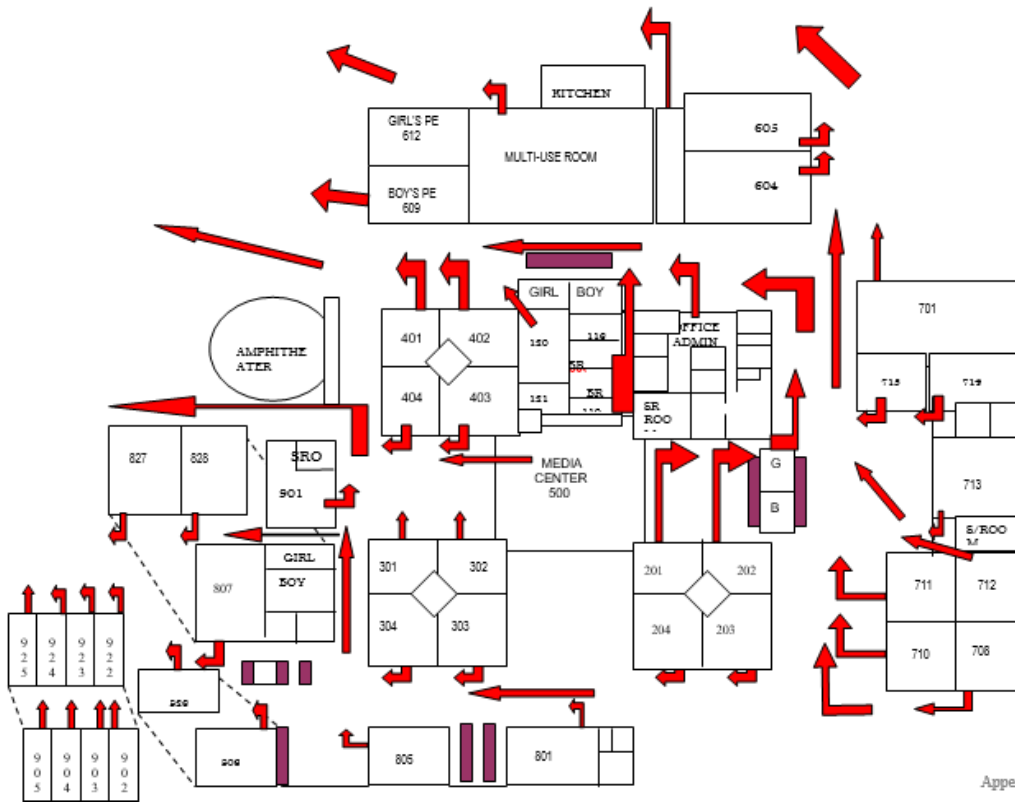

Consider a plan of care for the students' safe return to school

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at .

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Love Elementary School Safety Committee

Insert safety committee roster here

Assessment of School Safety

Current Status of School Crime. Each school is required to assess the current status of school crime committed on the school campus and at schoolrelated functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment. Insert Aeries data here.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Insert what the school does to support and build positive school climate. (use PBIS action planning tool)

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
 - Routinely check that battery-operated equipment is in working condition.
- Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.
3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
