

# **Highlighting Alameda Schools and Employee Spotlight: Wood Middle School**

**February 12, 2019  
Cammie Harris, Principal**

# Introduction

---

Wood Middle School prepares students to be lifelong learners who competently navigate the changing demands of the 21<sup>st</sup> century to positively affect the world.

- One of our major goals is to allow students the opportunity to become independent learners who can be creative, innovative, and divergent thinkers.
- Grades are important, but a greater emphasis is placed on the enjoyment of learning:
  - **Observe** by looking closely,
  - **Envision** by imagining possible next steps,
  - **Understand the World** by learning about history and current practices,
  - **Engage and Persist** by embracing problems and developing focus to persevere,
  - **Stretch and Explore** by reading beyond one's capacities toward the opportunity to learn from mistakes,
  - **Develop Craft** in technique and practice,
  - **Express** by creating works that convey an idea, feeling, or personal meaning, and
  - **Reflect** by questioning, explaining, and evaluating.
- We strive to provide brains-on engaging instruction and encourage students to think outside the box.
- We work collaboratively to connect students' learning in the classroom with practical application to the real world and across disciplines.

# Employee Spotlight

Kent Peterson, Assistant Principal

Monica Blea, Office Manager

# S.T.E.A.M

**Hands on, inquiry based cross-curricular projects at each grade level**
