Proposed Policy: Overview

The recommended policy revisions maintain the basic structure of current AUSD Board Policy/Administrative Regulation while introducing revisions to content:

1. Board Policy 6154 provides BOE beliefs, foundational values, and broad policy positions.
2. Administrative Regulation 6154 requires sites to develop and regularly review a school-site homework plan and outlines elements that must be articulated within that plan.

A proposed Exhibit (E 6154) would establish a template to be used as a reference document and, in the absence of a school-site's own development process, serve as the plan in place.
