Briefly describe why you would like to serve on the Committee:

Since becoming an Alameda resident in June 2018 and living in the Paden/Wood/Encinal attendance area, I have watched with great interest the thoughtful process surrounding high school consolidation and the subsequent decision to invest in the facilities at Encinal High School. While state of the art facilities are necessary for a first class education, they are not sufficient. In the Local Control Funding Formula era, additional funds are essential to provide the high quality education all AUSD students deserve. While the Measure B1 dollars are substantial they are also finite. It is critical that the AUSD staff have input from stakeholders in order to make the best decisions possible for both current and future students.

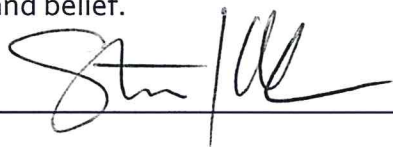

Describe your qualifications or skills that you believe will benefit the Committee:

With 25 years of experience in public education as a teacher, site and district administrator, and, ultimately, superintendent I am uniquely positioned to understand the impact of parcel tax funds on every level of the district. Currently, as the director of a San Francisco-based education non-profit I can see the impact of disparate levels of financing across California. Finally, as a parent of a fourth grader at Paden I can understand the day to day importance of high quality neighborhood schools. This combination of technical knowledge and practical understanding can make me an asset to the Measure B1 Oversight Committee.
