

AMENDMENT NO. 1 to Professional Services Agreement

Dated June 22th, 2023

This Amendment is entered into between the Alameda Unified School District (District) and Brelje & Race Consulting Engineers (CONTRACTOR). District entered into a Professional Services Agreement with CONTRACTOR for surveying services at Encinal Junior & Senior High School and the parties agree to amend that Agreement as follows:

1. Services

- **Additional services necessary for Measure B:** Conducting field survey, supporting office calculations, and drafting to create a design level topographic map.
- See details attached in Exhibit A and Exhibit B.

2. Compensation

Original PSA - \$5,000.00
Amendment No. 1 = \$9,500.00
Amended PSA - \$14,500.00

3. Remaining Provisions: All other provisions of the Agreement, and prior Amendment(s) if any, shall remain unchanged and in full force and effect as originally stated.

4. Amendment History:

- ☒ There are no previous amendments to this Agreement.
☐ This contract has previously been amended as follows:

EXHIBIT "A"
SCOPE OF SURVEYING SERVICES
ENCINAL HIGH SCHOOL
STADIUM TOPOGRAPHIC MAPPING SUPPLEMENT
PREPARED FOR
ALAMEDA UNIFIED SCHOOL DISTRICT
PREPARED BY
BRELJE & RACE ENGINEERS
B&R Job No. 3882.13
November 20, 2023
Revised December 4, 2023

1. Design Survey

Conduct field survey, supporting office calculations, and drafting to create a design level topographic map with the extents generally depicted on the attached Exhibit "B". Topographic mapping within the limits shown will include:

- Building corners.
- Bleacher limits/corners.
- Fence and gates.
- Existing walkways with paired elevations at 15' O.C. for cross slope determination.
- Grade shots through boat ramp access road and other areas at 15' O.C. maximum.
- Hardscape features.
- Walls, including TW and BW elevations.
- Surface location of any utility features including invert elevations of sewer and storm drain structures where possible.
- Storm drain alignment, including invert elevations, to Central Avenue, if possible.

Mapping to be prepared at a scale of 1" = 10' with a contour interval of 1 foot, on the NAVD88 Datum, matching the previous topographic survey of Encinal High School Stadium conducted by Brelje and Race. Provide completed mapping in both pdf and AutoCAD format to client and design team for use in design.

2. Storm Drain Video Survey

Conduct video survey of approximately 600' of existing 24" storm drain along westerly property line. Observations will be presented on a USB and a NASSCO PACP database, as well as a written report. Footage and asset ID numbers will appear on screen for the duration of the survey.

3. **Fee**

Our fees for this work shall be billed monthly on a lump sum, percentage of completion basis, as follows:

Item 1: Design Survey:	\$5,600
Item 2: Storm Drain Video Survey:	\$3,900
Total Fee:	\$9,500

Excluding fees for reproduction and plotting services which will be billed in addition to the engineering fees.

4. **Assumptions and Limitations**

- Survey will not include features (cleanouts, manholes, drop inlets, etc.) that are obscured by vegetation, debris, or otherwise hidden.
- Topographic survey does not include a boundary survey. Property lines will not be shown on the topographic map.
- Owner to provide any existing record utility plans available.
- Depths of utilities will be provided where possible to access through storm drain and/or sanitary sewer manholes, inlets, etc..
- The Engineers Services Rate Schedule is adjusted March 1 of each calendar year. Any work performed more than 4 months from the date of this proposal would be subject to adjustment based on the current fee schedule.
