Site Office Staff: School Administrative Assistants or attendance staff will continue to monitor attendance and respond, but this will also change to adapt for distance/hybrid learning. Reminders to teachers to document, new coding procedures, and outreach will change. Attendance is now multi-faceted, joining a Zoom session alone will not suffice. When a student is ill, staff will have to proceed according to the Alameda County guidance. Parents will have limited access to the school, so all registration procedures have been changed to online.

Custodial: During distance learning the custodial staff roles and responsibilities will be more focused on disinfecting staff used areas, keeping an inventory of masks, gloves, and disinfectants for use by staff who are on site. Staff will work on preparations for opening in a hybrid model

including relocating desks and chairs. They will be responsible for modeling the social distancing, mask wearing, and representing the current health safety requirements.

School Psychologists: School Psychologists will gather and analyze available assessment data in order to provide guidance on determination of special education eligibility if possible taking into consideration shelter in place and social distancing. They will complete assessments to the extent possible within the mandated IDEA timelines. In addition, they are supporting case managers and students with socio-emotional support.

Nutrition Services Staff: Some staff worked over the summer at central locations providing meals for our students. This school year, while in distance learning, instead of working out of their usual sites preparing breakfast and lunch for students, they are stationed at centralized locations distributing grab and go meals to all AUSD students.

District Nurse: Responsible for collaborating with state and local health departments to update emergency operations plans for all sites.

District Administrators: Many District administrators including and staff worked beyond their work calendar in order to create plans for distance learning including professional development plans, technology plans, and plans for assessment. Their jobs continue to focus on providing support for teachers instructing in a distance learning environment.

District Office Staff: Staff are able to continue supporting the schools by working from home with some opportunities to work from the District Office as permitted.

Both Flexible and Remote:

Attendance and Participation Tracking: Teachers will be responsible for monitoring attendance in a whole new way. Attendance is no longer a simple operation as it was in the past with “present,” “absent,” or “tardy.” Attendance now is defined by student participation by logging onto online sessions, completion of assignments, completion of assessments, and parent/guardian and/or student contact. Teachers will be required to keep systems for tracking daily participation and will be required to input this data into Illuminate weekly.

Teaching and Learning Department:

The Teaching and Learning department made some position shifts that were not specifically related to COVID-19 but in order to align better with the needs of our sites. While the changes were not based in a response to COVID-19, these positions, as with all in our district, had to adapt to the shifts and needs of our schools sites during COVID-19.

The TK-12 Language and Literacy Coordinator specifically focused on English Language Development and organizing our programming for our English Language Learners, this position supports academic language development across content TK-12. This position is paying special attention to supporting school sites with the needs of our English Language Learners during Distance Learning and working with the Instructional Coaches to develop plans to support individual students needs.

The TK-12 STEAM Coordinator focuses on Science, Technology, Engineering, Arts, and Mathematics instruction across the district.

Language and Literacy Coaches work closely with school sites to analyze curricular resources connected to our AUSD priority standards, and plan for how to teach these units and lessons in the context of blended and flipped learning, backwards plan Structured Discourse from Language Objectives, develop a capacity for self-study and continuous improvement through reflection on instruction and student data, with a focus on ELLs, students w/ disabilities, and black students.

Supports for Pupils with Unique Needs

[A description of the additional supports the LEA will provide during distance learning to assist pupils with unique needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness.]

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In order to address this disproportionate impact, we have worked to support our students in the following ways:

Foster Youth:

Improve our communication connected to the needs of our students in Foster care. This includes: Immediate enrollment; district/school connection and communication with County case manager; high school guidance and communication around AB 167/216 grad requirements.

AUSD's Foster Youth Liaison collaborates with Alameda County child welfare social workers, Alameda County Probation officers, Alameda County courts, and East Bay Children Law Office in order to minimize school placement changes, provide needed supports, and improve educational outcomes for Foster Youth. All Foster Youth are ensured immediate enrollment, regardless of the availability of required documents (ex. Immunization records, birth certificates, transcripts, etc.). AUSD's Foster Youth Liaison also provides training to district enrollment staff, site office staff, Intervention Leads and school counselors. Training topics include information on specific education laws that are specific to foster youth, when and how to notify the Foster Youth Liaison when there are concerns, and policies around graduation requirements outlined in AB 167 / AB 216.

McKinney Vento Homeless Youth:

Continue to provide differentiated support for our students experiencing homelessness: AUSD's McKinney Vento Liaison works closely with and provides training to enrollment staff, office staff, intervention leads, and school counselors to identify students who are experiencing homelessness and provide them extra support. If the youth is enrolling in the district, they are enrolled immediately regardless of being able to provide required documentation (ex. immunization records, birth certificates, transcripts, etc.). When a youth is identified as qualifying for McKinney Vento services, the liaison conducts an intake with the family. Needs are identified and resources are provided. All McKinney Vento youth are provided with AC Transit bus passes for transportation when the district is able to provide in-person instruction and backpacks filled with school supplies. Additionally, all McKinney Vento youth are enrolled in the Free and Reduced Lunch program.

McKinney Vento families are given referrals to: Alameda Food Bank for food access; Alameda Family Services Family Support Center for case management and assistance in enrolling in CalFresh, MediCal, and other assistance programs; Homeless Action Center for legal assistance; All Good Living Foundation for shoes, clothing, toiletries, and hot food delivery from local restaurants; Dine and Connect information about the faith based organization that host dinner and information for homeless; Safe Parking and Day Center information where homeless families can do laundry, charge their phones, watch TV, and have a safe place to park at night and be supported by Village of Love social services; and City of Alameda Homeless Hotline for additional resources that are provided by the City of Alameda. Intervention Leads at each school site do a weekly data review on their McKinney Vento youth to ensure attendance, engagement, and school success. High school counselors meet with their McKinney Vento families to discuss and review eligibility for reduced credit requirement graduation per AB 1806.

Immediate enrollment; transportation (via bus passes); enrollment into Free-Reduced Lunch program; Backpack and School supplies at the beginning of the school year and at the midpoint of school year (after winter break); referrals to social service and health agencies that address specific needs; Holiday toy drive recipients; secondary school counseling regarding AB 1806.

Pupils with Exceptional Needs:

Create an Individualized Education Aligned Plan to be followed during Distance Learning for students with IEPs. The District has planned to provide Student's operative IEP to the greatest extent practicable, through a combination of in-person and distance learning in the "Flexible Model" or distance only learning in the "Remote Model". As indicated in the contingency "IEP Aligned Plan" with components required by Senate Bill 98, the following information regarding services are delineated: access to the general curriculum, specialized academic instruction ("SAI") based on areas of need, related services, accommodations and modifications, supplementary aids and services, transition services (e.g., in effect when Student is 16 years of age or older or younger if deemed appropriate by the IEP team), and extended school year services where appropriate, to be implemented during an emergency. Please be aware that the educational placement and services made available during the time frame of "emergency conditions" are not stay-put, and upon termination of the emergency Student's stay-put IEP is the most recent IEP with parental consent. Please note that some distance learning or related services will involve small and large group learning, meaning other students might be involved in the same instructional or related services activities. Educators and service providers will communicate schedules with individual parents based upon the students' IEP.

Additional Summer Instruction: In the summer, any student with an IEP in AUSD can access additional instruction to address learning loss and assist with recovery. Small group sessions for academics as well as social emotional learning and mental health were provided 4 afternoons per week by District Education Specialists and a Board Certified Behavior Analyst, following Extended School Year in the morning. The Adaptive Physical Education teacher enhanced wellness sessions with online movement games that students and families participated in. Over 40 students requested the program. In the summer, research-based curriculum for online Lexia reading intervention was piloted and received well by staff and parents. The Lexia program was purchased and will be extended to all Mild/Moderate Education Specialists during the 2020-2021 school year. Teachers were trained in a session held during the August Learning Summit held for staff for 4 days before students returned to distance learning.

Additional Fall Instruction: Similar plans are being made to provide students with IEPs across the district additional instruction to support learning loss. This opportunity will be announced soon after the school year begins.

Research-based Curriculum: The special education team reviewed various online instructional curricula to determine programs that would best support learning loss during COVID, including those programs previously used augmented with new programs.

New and continuing curricula include:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

Assessment and Evaluation: Assessment is critical to determine students' learning needs following a period of Shelter-in-Place last Spring. Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans. Assessment efforts include: (1) Training of teachers in STAR benchmark assessment system; (2) development of a plan for addressing assessments due last Spring and coming due in order to inform instruction and annual or triennial IEPs. Temporary NPA Psychologists were hired to complete assessments in the interim until assessments can be completed.

IEP Aligned Plans (IAP): Contingency plans as defined by SB 98 to address student needs for instruction and related services that align with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

Individual Education Plan (IEP): Initial, annual and triennial IEP meetings will continue as prescribed by the Individuals with Disabilities Education Act (IDEA), to provide students an offer of FAPE when schools return to typical times, while also providing an opportunity to discuss emergency plans per Senate Bill 98.

English Language Learners

Our LCAP names that we will support all English Learners in becoming college and work ready. Our vision for English Language Learner (ELL) success certainly includes mastery of Academic Language skills. But the ultimate goal for ELLs is

joyful and fulfilling participation in the community and the world. It is precisely by working towards this goal in our schools and communities that ELLs will have the most powerful opportunities to use, develop and master rich and complex language.

English language learners have been disproportionately impacted during distance learning by losing English language exposure at school and interactive experiences with peers that assist with English language development. We will be intentional in giving English learners opportunities for additional support.

Teachers will continue to deliver Designated English Language Development, except that what they do will now need to be done in a virtual classroom. Time blocks are embedded in our Distance Learning plan so that elementary teachers will be able to pull students into small groups for Designated ELD instruction, and our secondary ELD teachers will continue to have class periods for Designated ELD instruction. The times for instruction do not interfere with ELL students’ access to Tier 1 instruction. We will continue to use our adopted ELD instructional curriculum and materials as well as supplemental resources provided to all students, such as Raz, with access to leveled texts and reading records, and myON (similar), as well as Imagine Language & Literacy, a tech-enabled, adaptive program for all our ELL students in the Remote Program and our Newcomer students in the Flexible Program. This additional purchase was prioritized for our Remote Program students because the Remote Program is more self-paced and independent, and want to make sure students have additional opportunities to practice and demonstrate their Speaking and Listening skills. Newcomer students were also prioritized given their need for additional supports.

Teaching & Learning coaches will support general education teachers with integrating EL strategies into their instruction and providing added supports and scaffolds for English learners in order to support the development of Academic Language skills. This year, we’ve narrowed our EL strategies to our district-wide “Daily High-Impact Language Practices,” for which we will provide initial training and ongoing support. Middle and high school teachers will also continue to use Constructing Meaning strategies modified for online learning.

Pupil Learning Loss

[A description of how the LEA will address pupil learning loss that results from COVID-19 during the 2019–2020 and 2020–21 school years, including how the LEA will assess pupils to measure learning status, particularly in the areas of English language arts, English language development, and mathematics.]

During the 2019-20 school year, students participated in Distance Learning for the last three months of school. During that time, we observed variance in participation rates. As we begin the 2020-21 school year, it is important to determine how COVID-19, distance learning, and participation rates affected the academic mastery of our students. AUSD intends to administer the Star Reading K-12 and STAR Mathematics Assessments K-5, and the Mathematics Diagnostics Testing Project (MDTP) 6-12. Currently, three administrations are

scheduled: Fall, Winter, Spring. The Fall administration will function as the baseline to both observe growth during the 2020-21 distance learning program and ascertain potential opportunity gaps created by the pandemic. Data from Fall will be disaggregated into student groups, grade levels, and school sites. Site leaders and teachers will have access to individual student scores to plan interventions. Scores will be compared to previous average scores for the Fall administration of the Star assessment and MDTP for students who took them at that time. For students who have Individual Education Plans (IEPs), individual learning loss will be assessed based upon assessments, accommodations, and/or modifications articulated in the Individual Education Plans (IEPs).

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In addition, our LCAP names that we will increase capacity and systems for data-driven improvement. In order to continue to do this we must implement an academic diagnostic/screening tool so that we can increase the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports. With this data available, learning loss will be addressed in both our remote learning program and our flexible learning program models with built in time for teachers to hold equity based small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. In the next session our systems and strategies are described in more detail.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: MDTP - The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

In TK-5, we developed the Equitable Start schedule to allow teachers to get to know their students, families, and assess students' specific needs in order to inform their instructional planning. Teachers will use information from these meetings to create specific Tier 2 and 3 small group learning experiences.

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning

- Weekly engagement review

- Connections with parents and families to learn of student needs
- Teacher created assessments

English Language Learners will receive Designated ELD for 30 minutes a day and Integrated ELD through daily content

Based on the needs of students, teachers will work with students in small groups or one to one to provide Tier 2 and Tier 3 supports based on skills or standards mastery needs.

Pupil Learning Loss Strategies

[A description of the actions and strategies the LEA will use to address learning loss and accelerate learning progress for pupils, as needed, including how these strategies differ for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils experiencing homelessness.]

Learning loss will be addressed in both our Remote and Flexible learning models For both our remote learning program and flexible learning program models grades TK-12, time will be embedded in the schedule forwith built in time for teachers to hold equity based Tier 2 and Tier 3 small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. This time is for the purpose of providing additional support to students who most need it. Teachers will track student progress and review during Wednesday professional learning time. Staff will have structured collaboration time to engage in improvement cycles including reviewing student assessments, planning instructional shifts and strategies based on data, establishing clear outcome goals, debriefing lessons as a team, and reflecting on their practice. All of this will be done electronically, using a video conferencing platform if in the distance learning model.

In addition, sites will track achievement data and meet in Coordination of Services Teams (COST) to coordinate potential services for students performing below grade level standards. COST can consist-- Academic services include small group targeted instruction consisting of strategically placed students. These small groups of students will be assessed to determine growth in six week cycles. If a student is not making progress, COST will collaborate to regroup students and try different researched based interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students performing below grade level, but also our most vulnerable students including low socio-economic students, English learners, foster youth and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well.

We know that the burden of school changes has fallen disproportionately on students with greater needs and they will undoubtedly need more focus and attention. Based on Distance Learning in the spring, families reported experiencing anxiety about learning loss in their students with disabilities, difficulty keeping their students engaged in the virtual environment, worry about their students' social-emotional state, and frustration with not being able to receive some in-person services detailed in their IEPs. In addition school closures upended many students' Individualized Education Plans (IEP). In AUSD, our Special Education Department is working proactively to respond to the Covid-19 pandemic and what it means to provide continuity of learning during this time of distance learning. For special education students in AUSD, the IEP team will use the Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans for each student with an IEP. The IAP does not change the district's offer of a Free and Appropriate Public Education (FAPE) to students. These "Contingency" plans as defined by SB 98 to address student needs for instruction and related services that align

with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: Math Diagnostic Testing Project-MDTP- The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning:

- Weekly engagement review
- Connections with parents and families to learn of student needs
- Teacher created assessments

Assessments will be administered on an ongoing basis, The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

Kingmakers program:

Kingmakers of Oakland (KOO) provides Khepera Curriculum consulting to Chief Academic Officer. Khepera Curriculum consulting will support the implementation of the "Mastering Our Cultural Identity: African American Male Image" course at four AUSD school sites. Chief Academic Officer will participate in the KOO Learning Collaborative - Strategic Planning and implementation with Cross Functional, Intergenerational Team to address the systems, structures, conditions and culture that leads to improved educational outcomes for African American Male (AAM) students from Pre-K to 12th grade.

Summer programming

High School Credit Recovery:

Credit Recovery is an independent study course that gives students the time and support to complete course work required to receive a passing grade in a course needed for graduation or college eligibility. Credit Recovery can be accomplished through an accredited online learning platform. Select courses also meet the University of California’s “a-g” requirements. High School students can take self-paced courses through the online platform that make up credit deficiencies for high school graduation. Students may work online at their own pace throughout the semester and must check in frequently with their summer program instructor (a credentialed AUSD teacher) in order to take exams and receive credits for each course. Credits earned will be posted on the student’s AUSD transcript.

Elementary Summer School (TK-5):

Our Title 1/ELD summer program serves 200 students and is geared towards supporting English Language Learners and students who receive Free or Reduced lunch. Traditionally 4 weeks long, students receive reading instruction using Leveled Literacy Intervention, Math support through small group instruction, and ST Math and English Language development through integrated content.

Special Education Recovery:

1. We must address recovery per SB 98. The STAR assessment is being utilized to measure student regression areas and/or progress areas.
2. Additional Instruction was piloted in the summer months and went well per staff and parent interviews. Research-based online curriculum was applied (e.g. Multi-Sensory Reading through Lexia). Students were instructed in small groups (up to 4 students) in the areas of English Language Arts, Mathematics, and Social Skills. Any parent could sign up their student.
3. Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.
4. Additionally, we are now researching if we can offer “Learning Hubs” or in-person instruction with precautions to Moderate/Severe students. This is being explored at this time with Cabinet and the SELPA.

These opportunities are important to provide in order to respond to demands for compensatory time that have come or may come from the Spring Shelter-in-Place period. If a demand is made, parents could then be invited to join Additional Instruction Sessions and/or “Learning Hubs” if learning hubs are deemed safe.

Effectiveness of Implemented Pupil Learning Loss Strategies

[A description of how the effectiveness of the services or supports provided to address learning loss will be measured.]

As discussed in the previous sections, the Star Reading and Math as well as MDTP assessments will be administered three times throughout the year. The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

In addition, Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and Attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

The COST coordinates academic services for students performing below grade level standards in literacy and/or math. Academic services include small group targeted instruction by the classroom teacher or a specialist teacher. These small groups of students will have ongoing assessment to determine growth in six week cycles. If a student is not making progress, the COST will collaborate to regroup students and try different interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students' academic achievement level, but also on their social-emotional wellbeing. The Team also focuses on our most vulnerable students including immigrant students, low socio-economic students, foster youth, and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well through counseling services, social groups, and focused behavioral and social-emotional interventions.

District Leadership and School Site Leadership teams engage in Cycles of Inquiry throughout the year, using multiple forms of data from the above assessments and observations to determine which strategies and systems are working well and which need to be augmented to better support our students, plan for the use of these strategies, implement the strategies, review through progress monitoring, and adjust as needed.

Actions to Address Pupil Learning Loss [additional rows and actions may be added as necessary]

Mental Health and Social and Emotional Well-Being

[A description of how the LEA will monitor and support mental health and social and emotional well-being of pupils and staff during the school year, including the professional development and resources that will be provided to pupils and staff to address trauma and other impacts of COVID-19 on the school community.]

School closures and social isolation have affected all students, but particularly those living in poverty. Adding to the damage to their learning, a mental health crisis may be emerging as students have lost access to services that were offered by schools. In this new school year, teachers will face a pressing issue of how to help students recover and stay on track throughout the year even as their lives are likely to continue to be disrupted by Covid-19. To assess and strategize with students and family, the following structures are set up in our distance learning program.

Social and Emotional Learning:

School site's Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

Teachers follow the predetermined protocol for referring students to COST, including logging all pre-referral interventions into AERIES. Intervention Leads will utilize the COST Data Tracker to monitor student referrals and progress through the COST process.

Attendance Monitoring (per SB 98):

- AUSD Tiered Attendance and Re-Engagement

Tools for Assessing Student Basic Needs:

- Monthly needs survey for students (two surveys developed - one for elementary and one for secondary)
- Monthly needs survey for families assessing food, housing, internet, mental health
- Monthly Family Survey: <https://docs.google.com/forms/d/1nbnDRN-nb4fOXVF26krQBps5kp4c84C3C92W43hwLuQ/edit>

If a student or family indicates via the monthly survey that they are lacking food, housing, internet or indicate a need for mental health services, they are referred to COST for coordination of services with outside agencies and case management.

Indicators That Mandate an Immediate COST Referral:

- Suspected abuse, neglect or domestic violence (This also necessitates a call to CPS)
- Self harm behavior
- Suicidal ideation (follow AUSD suicide prevention policy)
- Academic Need (Below 10th percentile in STAR)

During Wednesday Site level professional learning, in addition to a focus on using priority standards, professional development will focus on Restorative Practices, Trauma informed instruction, building relationships, and Social and Emotional Learning.

Pupil and Family Engagement and Outreach

[A description of pupil engagement and outreach, including the procedures for tiered reengagement strategies for pupils who are absent from distance learning and how the LEA will provide outreach to pupils and their parents or guardians, including in languages other than English, when pupils are not meeting compulsory education requirements, or if the LEA determines the pupil is not engaging in instruction and is at risk of learning loss.]

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)
Synchronous = 25
Asynchronous = 155
Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)
(M/T/TH/F)
Synchronous = 120
Asynchronous = 125
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 200
Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 150
Asynchronous = 95
Total = 245

After teachers have made the primary calls and attempts to reach students who students are identified who are not meeting the compulsory education requirements and are unable to reach them, students will be referred to the site Intervention Leader and/or Family Liaison so that they are able to follow-up, attempt contact via phone or home visit, and then refer to COST.

Family Engagement and Training:

In order to have quality and high impact Family Engagement we must ensure the following:

- Multiple channels for accessible communication and feedback
- Staff are trained on Family Engagement
- Common priorities are developed to support students needs (prioritizing in-person and asynchronous learning for students with highest needs)

August Family Learning Conference (via Zoom, Facebook Streaming, and videos) to help parents/guardians support their children academically, socially, and emotionally during the coming school year. Our goals:

- Overview of the Flexible and Remote Learning Programs
- Help parents/guardians learn how best to support their children during distance and remote learning
- Teach parents/guardians to use various educational technology programs
- Show parents/guardians how best to stay connected with AUSD and their school sites

Continued family learning opportunities for supporting student engagement:

- Education Services: Primary and Secondary Parent Presentations on Grade Level Standards
- Collaboration with PTAs, ELACs, Equity and Inclusion Committees to pivot into inclusive and equitable practices; including sharing of islandwide asynchronous learning opportunities
- Family and Community Liaisons supporting Title 1 and multilingual communities to navigate Flexible/Remote learning times. Including School Smarts in English, Spanish, Chinese, Arabic, Vietnamese). New Mongolian language affinity group starting!
- Capacity Development for site level School Site Council (SSC) Leadership and DELAC
- CAC (LCAP) leveraging community leaders to support our journey through this pandemic.

School Nutrition

[A description of how the LEA will provide nutritionally adequate meals for all pupils, including those students who are eligible for free or reduced-price meals, when pupils are participating in both in-person instruction and distance learning, as applicable.]

When the school year starts in distance learning, breakfast and lunch meals will continue to be available for purchase at full price, reduced price, or free, depending on eligibility. (We are still waiting to hear from USDA if they will extend its current waiver to allow free meals during the regular school year to all regardless of eligibility).

Meals will be available for curbside Grab-N-Go pick-up Tuesdays and Fridays 11am-12pm at the following locations beginning Friday, August 28:

- Academy of Alameda, 401 Pacific Ave
- Earhart Elementary, 400 Packet Landing Road
- Encinal High, 210 Central Ave
- Lincoln Middle, 1250 Fernside Blvd
- Love Elementary, 2025 Santa Clara Ave
- Paden Elementary, 444 Central Ave
- Ruby Elementary, 351 Jack London Ave
- Wood Middle, 420 Grand Street

Families will be provided multiple days' worth of meals at a time. Parents or guardians may pick up meals for their children and can pick up from any of the following sites listed above regardless of which school your child attends.

Alameda Unified School District understands that the COVID-19 pandemic has brought hardship for many families in Alameda schools. Your child(ren) may qualify for free meals or for reduced price meals for the 2020-21 school year. Applications are now open, and you can access them online at [MySchoolApps.com](https://myschoolapps.com) or on Alameda Unified School Districts website's Meal Applications page. For support, please contact our Food and Nutrition Services Office at 510-337-7079 or email us at nutrition@alamedaunified.org.

[A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.]

The three-year Local Control and Accountability Plan describes the goals, actions, services, and expenditures to support positive student outcomes that address state and local priorities. The LCAP provides an opportunity for local educational agencies (LEAs) to share their stories of how, what, and why programs and services are selected to meet their local needs. Enacted along with California's Local Control Funding Formula (LCFF) regulations, the LCAP includes the requirement that districts outline their use of LCFF Supplemental and Concentration grant funding. These funds must be used primarily to serve unduplicated students. Unduplicated students are those students that are Socioeconomically Disadvantaged or English Learners. As a district with less than 55% unduplicated students, AUSD does not receive Concentration grant funding. AUSD does receive supplemental grant funding. This funding is used for centralized actions/services as well as distributed to sites for site-based unduplicated student supports.

AUSD allocates a significant portion of its LCFF Supplemental funding to school sites on a per-unduplicated pupil basis. The remaining LCFF Supplemental funds are retained at the central office level and used to enact broader actions/services such as supplemental resources for English Learners and provide specific services to school sites via targeted funding. This targeted funding includes actions/services such as the restoration of afterschool programming at selected sites with high unduplicated populations.

Regardless of the program (Flexible or Remote), we know resources including time are scarce. Focusing our district will allow us to deepen our support and practices to ensure we make the most of our time with students.

During the 2020-21 School Year, our Academic Guidance has a specific focus on the following:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards
- We integrate social emotional and trauma-informed approaches as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning

We have an intentional focus on creating access for our students, specifically our foster youth, English learners, and low-income students. We know that if we are focused on student talk, equity and rigor, we will be able to create successful outcomes for our students.

STAR Renaissance Assessment System: - Star Early Literacy, Star Math and Star Reading were purchased for all elementary and middle schools and MyOn access to online reading materials from Renaissance Learning - assessments to be given on multiple occasions throughout the school year. Prior to the 2020-2021 school year our district had purchased Renaissance Star Reading and Math for middle school, Star reading for 4th and 5th grade, and some star early literacy, reading and math licenses for a couple of schools that "opted in" for giving it to 1st-3rd graders. Due to school closures in March and moving into distance learning without a clear learning plan for students, we know that there will be learning loss for many students, and most pronounced for our unduplicated students. Racial and socio-economic achievement gaps will most likely widen because of disparities in access to computers, home internet connections and direct instruction from

teachers. In order to measure this learning loss, our district will need a reliable assessment tool and plan for consistent assessment. This school year we have increased licenses to include the capacity to assess all students, K-8, in early literacy and/or reading, and math. This will increase services for elementary students.

Fountas and Pinnell leveled books: Online materials and resources were purchased to support students who need extra support in reading. Our literacy coaches and RTI teachers pull small groups to provide reading intervention. This support staff use data to inform which students need the extra support and isolate the focus of the intervention based on need. Interventions are provided in six week cycles with a pre and post assessment. Grouping and exit decisions are determined using data. A majority of the students in our intervention groups are students who are included in our district sub groups of Black/African American students, low socio-economic students, English learners, foster youth and homeless students, though all students in need of this targeted academic support benefit from this system.

Curriculum and Supports for students with IEPs are meant to support students at their individual learning level and are adaptive to their needs. For instance, both ISME Orton Gillingham and Lexia use a multi-sensory approach to support struggling readers. Among these curricula are:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

BrainPop EL (Flexible) and Imagine Learning (Remote): Our designated ELD curriculum allows students to explore language in playful ways so they gain lots of ways to express themselves in speaking and writing. When delivering ELD in distance learning it will be more difficult for students to show their understanding because of the less personal platform of video conferencing. In addition students will have significantly less opportunities to experience the realia and visuals used to teach ELD in this model. In response to the need for supplemental ELD support due to this changed method of teaching, our district purchased BrainPop EL and Imagine Learning as an extra support. These programs are comprehensive English language learning programs for students of all ages. The programs feature short, animated movies as well as games, quizzes, and interactive features. It encompasses the four main language skills: listening, speaking, reading, and writing. This extra support will give EL students extra time for engaging in English learning activities.

Alameda Island Kids (AIK) Program for Title 1 Elementary Students:

We have been able to partner with the AIK childcare program to provide 8-4 child care support to 28 of our most in need students from our three Elementary sites that receive Title 1 funding. During this childcare program students are given support with their synchronous and asynchronous learning, provided with enrichment, and provided with meals.

RE: AUSD Learning Continuity and Attendance Plan

Dear Superintendent Scuderi, President Bonta and Members of the AUSD Board of Education:

Thank you for providing ASPED Families with the opportunity to provide written feedback for the district's Learning Continuity and Attendance Plan (LCP) on how Covid-19 and school site closure has impacted over 1,000 students with disabilities currently enrolled in Alameda Unified public schools. We have included many direct quotes from families to help humanize the loss and frustration experienced by many of our students with disabilities. It is our deepest and most profound wish that our education leaders and community recognize the sacrifice families have made during these emergency conditions and respectfully ask for solutions to the problems identified in this letter.

This letter is broken into five parts. The parts included are:

1. Covid-19 impact for academic year 2019-2020
2. Covid-19 impact for academic year 2020-2021
3. Comments related to assessments for learning loss
4. Comments related to interventions for learning loss
5. General comments related to the Learning Continuity and Attendance Plan

COVID-19 impact for academic year 2019-2020 The LCP as currently drafted does not adequately describe the full impact on students with disabilities during the 2019-20 school year. During school site closure and spring distance learning, Alameda Unified suspended all special education IEP services, postponed IEP meetings that were previously scheduled, suspended progress monitoring of all IEP goals and suspended assessments used to requalify/qualify students for special education. In addition to postponing already scheduled IEP meetings, AUSD failed to follow 30-day timelines when parents requested IEP meetings to discuss the suspension of special education services and their concerns about the obstacles related to accessing the

District's new distance learning program. Once IEP meetings resumed, the District would not honor requests by parents to discuss their concerns about accessing distance learning in IEP meetings during the 2019-2020 academic year. This decision by the district, denied communication and collaboration afforded by the IDEA to parents/caregivers and students with disabilities.

The impact of these unilateral decisions made by the District vary from student to student and family to family. However, there are several consistent themes conveyed by families during this time period. There are as follows:

1. Failure to provide services as specified in IEPs (even virtually), led to regression in behavior, social and emotional and academic skills while attempting to access distance learning as observed by parents and caregivers. 2. Frustration, fear and sadness for parents who found themselves having to fill school-based staff responsibilities (ex. speech and language pathologist, physical therapist, special education teacher, occupational therapist and paraprofessional) while simultaneously working full-time. 3. Worry and anxiety for the future academic, social and emotional, and behavior trajectory of their student including transitions from prek to elementary, elementary to middle school, middle school to high school, and high school to transition services. 4. Feelings of hopelessness when the District suspended primary communication and collaboration avenues (scheduling IEP meetings) to have parents' concerns heard and addressed. 5. Feelings of frustration from parents of students with disabilities grades Prek - 2nd grade and the expectation to access distance learning through chromebooks when keyboards and the delivery of learning through zoom and other websites aren't developmentally appropriate. 6. Students with classic autism, high anxiety and related attention and behavior needs were unable to maintain attention during Zoom meetings, follow teacher directed whole class instruction independently or with virtual support from a paraprofessional, and complete the assigned activities even with modifications by the special education teacher in the home environment.

The District supplanted services with "tailored supports" but these "tailored supports" were not IEP services delivered virtually. Instead, these "tailored supports" included:

- Office hours by service providers and case managers where no instruction or interventions were provided.
- Unspecified accommodations for students that were designed without discussion or consent from parents and outside the purview of IEP teams and IEP meetings.
- Supplanted evidenced-based and district approved curriculum (such as Transmath and Language Live) for students placed in Intensive Academic classrooms with non-evidenced-based and inappropriate online curriculum such as Moby Max.

"I felt pretty much abandoned last spring. My 2nd grader got zero speech and OT time once distance learning went into effect. Our speech therapist uploaded a bunch of stuff to google classroom basically shifting the responsibility of implementing the "therapy" to parents.

While special education services resumed this fall, all of it is in virtual small groups and not all that helpful. The time spent with a special education teacher has been significantly reduced compared to the SDC class had my student been able to remain with his classmates. Based on our own family circumstances we applied and accepted the remote program in order to reduce the risk to Covid-19. Unfortunately there isn't an equivalent virtual SDC classroom for my student to get the level of individualized support he needs.

I sometimes feel overwhelmed."

Parent of a SpEd 3rd grader in Remote Program

COVID-19 impact for academic year 2020-2021 The LCP as currently drafted also does not adequately describe the impact or potential impact of COVID-19 for the 2020-21 school year. The District has resumed IEP meetings and some related services and is monitoring progress towards IEP goals however, assessments related to requalifying and qualifying for special education have not fully resumed. In addition, the District's two models for distance learning (flexible and remote) have not virtually replicated mild/moderate or moderate/severe SDC classes that existed during on-site instruction. Based on these decisions made by the District, students with disabilities and their families have expressed the following concerns and observations:

1. There is a growing backlog of evaluations for special education. Families and students caught in this backlog have concerns about appropriate placement, services, goals, accommodations and supports their student needs in order to receive a free and appropriate public education (FAPE) with meaningful benefit. Without reliable special education evaluations, IEP teams cannot create meaningful IEPs for students who qualify. The longer this problem persists, the more students with disabilities risk being denied a FAPE. 2. Students with disabilities once placed in mild to moderate classes like Academic Strategies classes for math and ELA in HS and MS prior to Covid-19, have been placed in general education classes without the necessary support to complete assignments. 3. Elementary aged students with disabilities that were once placed in mild to moderate SDC classes during on-site instruction are placed in general education virtual classrooms in the remote program led by general education teachers. 4. Many students with disabilities continue to be unable to access all aspects of distance learning and virtual special education services including those with classic autism, physical impairments that require hands-on support provided by physical therapists and paraprofessionals, high anxiety, and attention related disabilities. 5. Parents and caregivers are observing that as part of the District's new

"IEP-aligned plans" their students with disabilities are receiving fewer services and in larger groups than during on-site instruction (i.e. 20 minutes of speech with 5 other students in a small group during distance learning vs. 30 minutes of speech with 2 to 3 other students during on-site instruction; or 40 minutes once per week, vs. 20 minutes twice per week).

"After 6 months of loss of meaningful speech, occupational therapy, and educational services, our family is looking to move out of state. The expectations of remote learning are unreasonable for mature elementary students, much less preschool 3 and 4 yr olds with special needs. The effects are devastating on behavior, with regressions commonplace. There is no way to work AND effectively assist a preschooler in virtual special education preschool. I don't even have childcare to be able to access the office hours for the therapists."

Parent of PreK

Student

3. Comments related to learning loss and STAR assessments The Learning Continuity and Attendance Plan (LCP) relies heavily on STAR data to quantify learning loss. This is not sufficient for a variety of reasons but the most important reason is that STAR data collected and going forward is typically compared to other STAR data from across the country. If every student is being impacted by COVID, then the entire data set is "lowered" for lack of better language. Because of this phenomenon, learning loss will likely be harder to quantify and identify with this type of assessment. We don't want to compare our current levels of student achievement to what's happening in other districts and communities across the country, especially for our students with disabilities. If the District collects STAR data and compares it to past data collected on the same

student, this might be useful in determining learning loss for our general education students, but not necessarily for our students with disabilities. STAR testing was not specifically designed with students with disabilities in mind but it is marketed and applied to students with disabilities regardless. Measuring learning loss for students with disabilities requires additional data, including:

1. Attendance, including time spent learning independently. This presents a challenge since many parents and caregivers are reporting that neither synchronous remote learning via “zoom” nor asynchronous independent learning time are accessible to their students. 2. Data from student IEPs, including comparing original baselines or last recorded progress information for IEP academic goals from the 2019-20 school year with baselines/progress data collected fall

2020-2021. If there is a regression in this data, then there should be intervention programs/practices put in place to help these students. 3. The intensive academic intervention curriculum (Transmath and Language Live), provides placement and progress monitoring assessments. This data should be collected and analyzed when determining learning loss. 4. The district has used the San Diego Quick and CORE reading assessments to determine baselines for students in reading. These should be named and considered as part of identifying learning loss. 5. There may be other assessments used district wide specifically for special education and if so, they should be named in the LCP.

On page 28 of the LCP under section “Special Education Recovery” it states that “Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.”

- Will instruction be offered for all academic classes or just math and reading?
- What staff will deliver the instruction?
- “Soon” is not specific enough. Please include a date when students will be identified and when instruction will start.
- What time of day will this instruction be delivered? How often will this instruction be delivered during the week?
- What is the duration for each session?
- Will this instruction be delivered 1 to 1 or in small group or both?
- How will parents know if this instruction is helping the student? What data will be collected and shared with IEP teams and how often will this data be collected?

“As a parent with 4 children we had no issues with school until our youngest with special needs started attending school. She is only 6 years old. We find the school team unsupportive. Our 6 year old has regressed due to SIP. AUSD only provides minimal support. The whole distance learning experience has been damaging. Our child cries and is so frustrated. We asked for a paraprofessional and were denied. We had to hire a tutor privately and other therapy in addition to an advocate. We receive less than 1 day notice of special education sessions. Our child needs advanced notice. This happens repeatedly.”

Parent of 4 children, 1st grader receiving special education services

4. Comments related to interventions for learning loss and increasing engagement during distance learning

We support Learning Hubs that provide in-person on-campus supports for students with disabilities unable to access distance learning in the home environment. Many of our most impacted students with disabilities are unable to access distance learning in its current format. 2. We support after class one-to-one tutoring especially in math for students currently not meeting pre-Algebra and Algebra requirements.

3. We support one-to-one tutoring for students with dyslexia to supplement the explicit, systematic, multi-sensory instruction (Structured Literacy) they receive during specialized academic interventions. 4. We support partnering with Non Public Agencies (NPAs) to provide in-home services when virtual services have been attempted and failure to engage the student has been observed repeatedly and persistently. 5. We notice that the LCP describes current practices and policies in place to support struggling students through MTSS. However, we anticipate an increase in the number of struggling students and an increase in the severity of the academic achievement gaps. It's unclear in the LCP if the District intends to use the funds to increase the scale of this program or the interventions available. If so, please provide the details that recognize the projected increase in the number of struggling students in tiers 2 and tiers 3.

“My son is a Sophomore at AHS and has auditory/slow processing disability. When the SIP happened his case manager/academic strategies teacher took a leave of absence and he didn't receive any support. This fall they forgot to put him in Academic Strategies and there hasn't been any support for him either. We are basically on our own. He is struggling with accessing and completing assignments. There is no support whatsoever.”

Parent of High School

Student

5. General comments related to the Learning Continuity and Attendance Plan

1. We are very concerned about the lack of specific details related to homeless and foster youth and the support they will be given to reduce chronic absenteeism and suspension rates. This specific population was underserved prior to Covid-19 as determined by the 2018 and 2019 CDE student group reports. In addition, homeless and foster youth need increased interventions for English Language Arts and Mathematics as determined by the same CDE reports. The District needs to name roles, funding, practices and programs that will address these long standing issues.

2. We are concerned about the increase in absences and the number of students dropping out of school during school closures. The LCP provides a detailed explanation of how the District intends to track and document absences however, it does not provide sufficient details on the policies, practices and programs designed to engage students with chronic absences and students who are dropping out. Students with disabilities fail to graduate at much higher rates than the general population. 3. Some families have reported that their case managers have not provided them with “IEP-aligned contingency plans” as specified in the District's communications. Sadly, some students have been attending distance learning for five weeks without a clear understanding of how their IEPs are being implemented. A few families in the remote learning program have reported not knowing who their student's case manager is. The reality shared by some families is

inconsistent with what's being described in the LCP. 4. On page 36, there are no specific details about how staff roles funded through

the LCP are defined and allocated based on ELL, foster youth, and low-income students. This includes the \$732,953 allocated for Instructional Coaches, \$158,283 for the Student Services coordinator and the Teaching and Learning coordinator for \$312,082. Did these roles exist prior to Covid-19? If so, how have these roles changed in order to meet the needs of our ELL, foster youth, low-income students with disabilities in this moment? 5. On page 36, there are site discretionary funds equal to \$324,114 without

explanation of how these funds will be spent in such a way that will effectively meet the needs of ELL, foster youth and low-income students with disabilities. 6. We request that a link to this letter be included in the final LCP.

We welcome communication and collaboration with the district and the board in order to meet the urgent and long-term needs of our students. We want to recognize and elevate the voices in our special education community as they advocate for dignity and respect during this time of distance learning. We stand as allies with English Language Learners with and without disability and refer to their letter for specific feedback.

Thank you for your consideration,
Heather Clapp Padgett and Christine Strena, Co-Chairs ASPED Families

September 30, 2020

Dear Members of PTAC,

Thank you for sharing your feedback on the 2020-21 Learning Continuity and Attendance Plan (LCP). We appreciate the time you took to provide such a detailed analysis.

The Learning Continuity Plan is not meant to be a substitute for the Local Control Accountability Plan (LCAP), which explicitly describes our program and budget for unduplicated students. Rather, the LCP is a snapshot of how our district responded - and continues to respond - to the pandemic. This does include how we plan to mitigate the impact of the pandemic on our students who meet the unduplicated criteria (Foster Youth, English Language Learners, and students who qualify for free or reduced lunch) as well as our students who have Individualized Education plans. While we plan to continue to focus on and respond to the needs of our most vulnerable students, full explication of those efforts is best saved for the next iteration of our LCAP.

Since March, we have worked hard to hold multiple types of engagements with our stakeholders to receive feedback on the best way to respond to the pandemic and support students learning during the 2020-21 School Year. We took this feedback and used it in all of our planning, including in crafting the Learning Continuity and Attendance Plan. While we believe that we engaged multiple stakeholders in this process, we do know that there are important ideas and feedback that must be incorporated into the final LCP.

Upon reviewing the PTAC sponsored feedback, we found there were some elements that absolutely can be incorporated into this year's LCP, other elements that should be addressed in our next full Local Control and Accountability Plan (LCAP), and some that will be better addressed specifically by AUSD's Special Education Department, as detailed below.

We have heard your concerns about ensuring that we are painting an accurate portrait of the impact of the pandemic on our students, specifically our students with special needs. We understand the specific and intense burden born by our students with disabilities under distance learning. We have listened carefully to the feedback provided by our families of students with special needs and done our best to respond to that feedback and alter our instructional programs as best we can under current health orders. We do not believe the LCP is the place to detail all of the dissatisfactions stated by these families, but we have added language that we hope captures the difficulties those families have experienced.

As detailed in the Prior Written Notice on [September 2, 2020](#), the District plans to provide students' operative IEP to the greatest extent practicable, whether the student is in the flexible or remote learning program, through students' emergency plans, called "IEP Aligned Plans". The IEP Aligned Plans delineate student needs and services during emergency times as required by Senate Bill 98. Parent input into the IEP Aligned Plan is welcomed through contact with their student's case manager. For concerns regarding access to any aspect of distance learning and virtual services and supports, parents should contact their child's case manager as soon as possible. Assessments for each student with a disability will be determined by their IEP. Both assessments and IEPs are currently underway. Additionally, instructional programming has been based on individual students' IEPs as written in the IEP Aligned Plans. We are pleased to hear that you support the idea of learning hubs. We believe that these

hubs will be able to address many of the concerns parents of students with special needs who are served in our Mod/Severe program have expressed.

In addition to addressing the above, we have added more detail to the LCP based on community feedback. We have added more to the section on mitigating pupil learning loss for our homeless and Foster youth. We have added more detailed descriptions of how we are supporting our English Language Leaders and which online programs we are using to support their learning of Academic Language. In addition, we added details on how the Teaching & Learning program was re-structured last spring. Granted, that re-structuring was planned before the pandemic began, but we are including information on how the roles and responsibilities changed due to the impact of COVID-19.

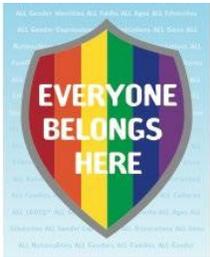

We plan to attach your feedback as well as our response to the LCP. We also plan to continue to hold engagements with our stakeholders this year to progress monitor our Learning Continuity Attendance Plan as well as re-start our Strategic Planning process. While we do not yet have clarity on next steps with the Local Control Accountability Plan, we know that our strategic planning must be directly connected to our overall plan for using our LCFF funds.

- Community Advisory Committee (CAC) meetings to review, monitor, and advise on Learning Continuity and Attendance Plan (9/29/20, 12/1/20, 2/2/21, 4/6/21, 6/1/21)
- District English Learner Advisory Committee (DELAC) meetings to review, monitor, and advise on the Learning Continuity and Attendance Plan (10/29/20, 1/7/21, 3/4/21, 5/6/21)

Specific engagement dates connected to our Strategic Planning will be announced soon.

Thank you for your continued engagement, partnership and feedback.

Pasquale Scuderi

Daily Attendance and Engagement

TIER ONE

Daily attendance is collected and monitored regularly for all students

Attendance Need

Intervention

Student is absent two days with no contact from guardian clearing the absence

- Attendance clerk calls home and documents the call in the attendance monitoring log. Daily absence call automatically generated (robo-call).

Student has unexcused absences three days, with no contact from guardian clearing the absence

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian.

Student is absent for four days, with no contact from guardian

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian again.
- Wednesday teacher (advisory teacher/home group teacher) calls other contacts on the student's record (including emergency contacts) and documents these attempts

TIER TWO

Student is absent for five days with no contact from guardian

- Teacher submits COST referral through AERIES and continues daily outreach to guardian through Parent Square
- Teacher will present all documented outreach to the COST team for review

- [Sample Script for Teachers Calling Parents/Guardians and Emergency Contacts](#)

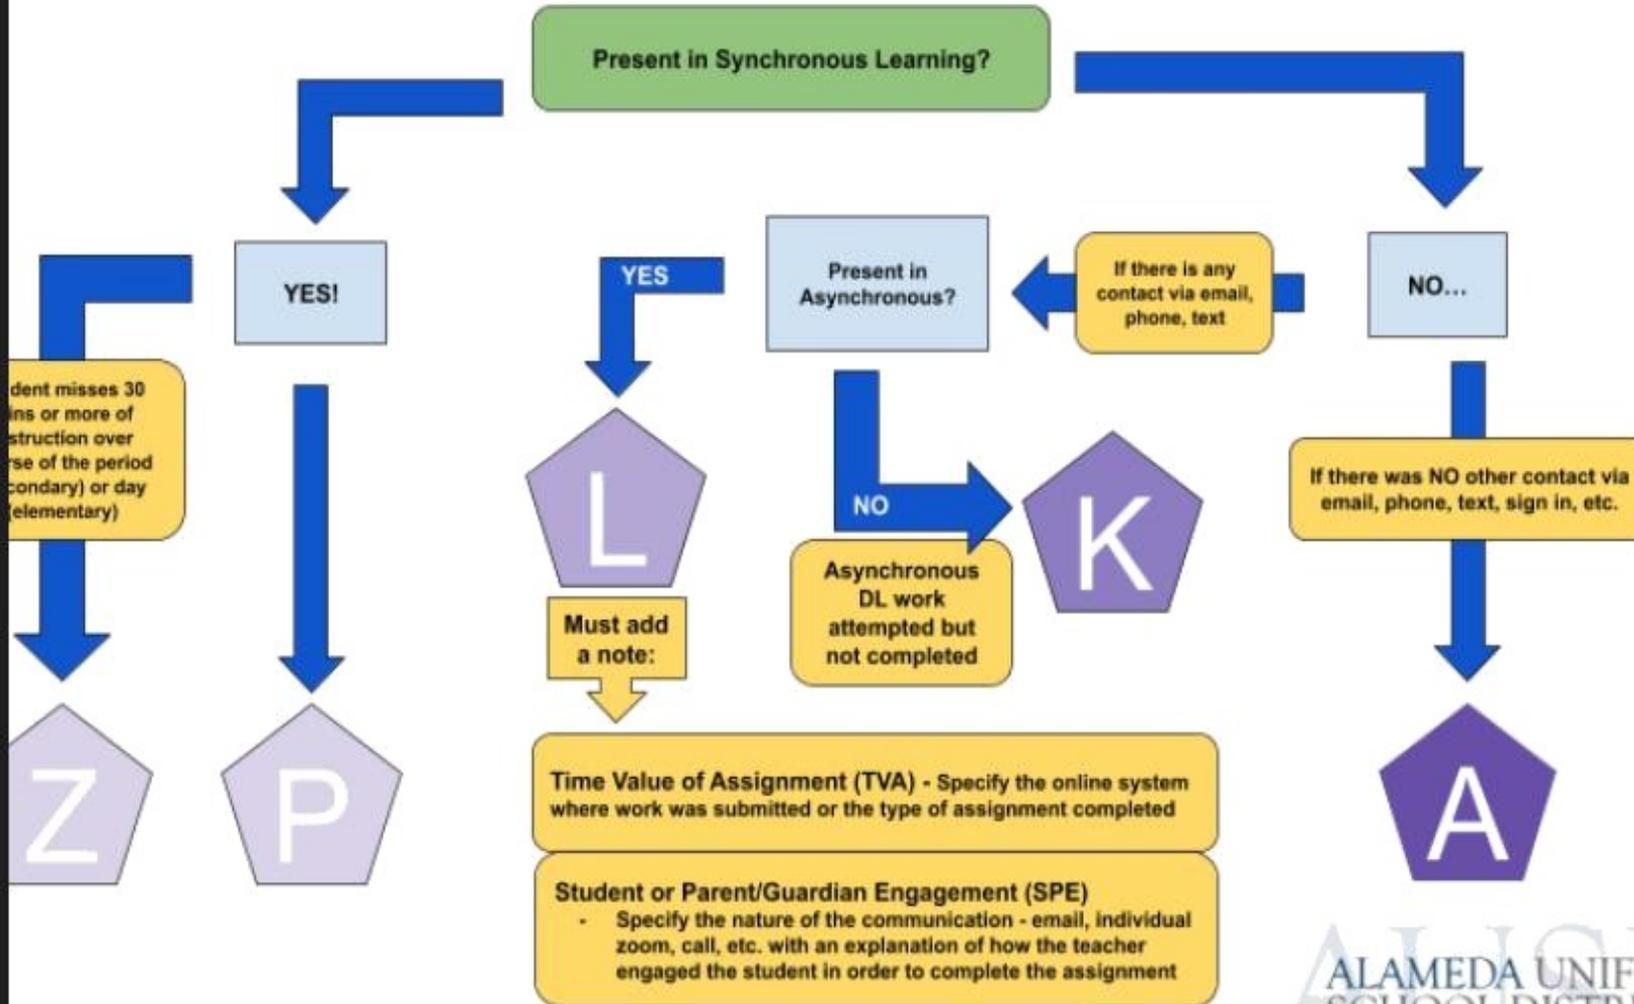

Attendance Need	Intervention
Student is absent for six days with no contact from guardian (this marks the second week of absence)	<ul style="list-style-type: none"> • COST Team will assign the student a case manager who will take over daily student/guardian outreach and documentation • A “Knock and Talk” will be initiated by school site Knock and Talk protocols
TIER THREE	
Student is absent for eight days with no contact from guardian (via phone, email, Knock and Talk, etc)	<ul style="list-style-type: none"> • COST team will request Child Welfare and Attendance Specialist to conduct a Wellness Check (20-21 Tiered Re-Engagement Wellness Check)

District Office	Intervention
Chronic Absence letters	(attach letter schedule here)
CWA Home Visits	CWA responds to COST team with results of Home Visit

Student level goals (across content, aligned to Graduate Profile)	Students dialogue about equity issues and take action to interrupt inequity		
	Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action	Read, think, talk, and write about complex texts every day	Establish and maintain healthy and rewarding relationships with diverse individuals and groups
Teacher priority practices (across content)	Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity		
	Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction	Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	Teachers build positive relationships with and among our students to create the conditions for learning
Leadership Practices	School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity		
	School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision	School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning
District Goals	We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID		
	We keep equity and rigorous content at the forefront of all decisions on what and how to teach students	We maximize interaction and independence in students' blended learning experience	We integrate social emotional and trauma-informed approaches as the foundation for learning experiences
Conditions for Adult Learning	We learn by collaborating, planning, doing, and reflecting	We have space to be vulnerable, self-reflective, and create meaning	Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Attendance Flow Chart

Mark the letter in the pentagon based on the flow chart.

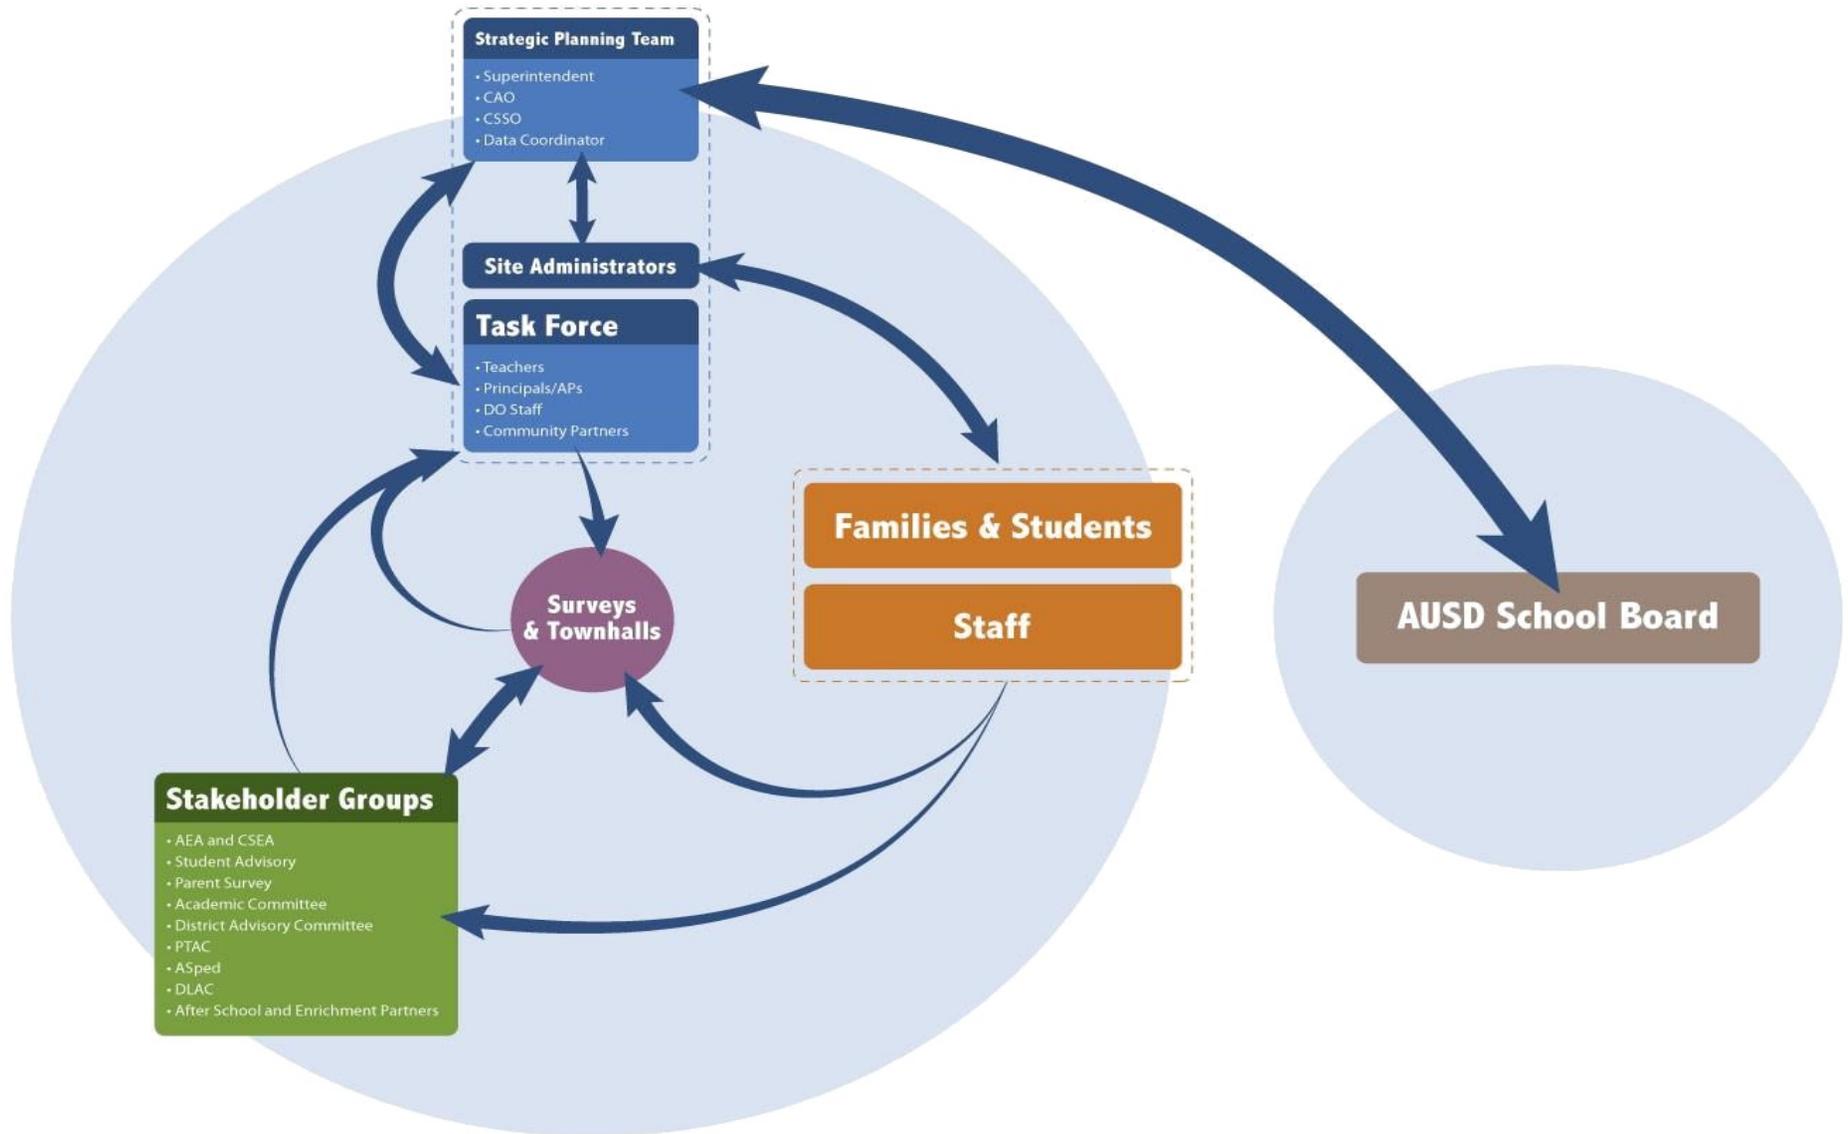

Core Value	Guiding Principles
<i>"We meet the needs of each learner."</i>	<i>Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.</i>
<i>"We develop the whole child."</i>	<i>Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).</i>
<i>"Mastery of Essential Standards through flexibility of structures"</i>	<i>Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.</i>
<i>"We will support all students to embody the AUSD Graduate Profile"</i>	<i>Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.</i>
<i>"Learning to read is key to students' academic success"</i>	<i>Our plan will prioritize students who are learning to read</i>
<i>"Coherent Systems to Ensure Students are College & Career Ready"</i>	<i>Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready</i>
<i>"We will invest in our staff in order to realize our vision for students"</i>	<i>Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.</i>

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at 444 Central Ave.

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Community Member Wendy Baty
Campus Supervisor Tri Nguyen

Assessment of School Safety

Current Status of School Crime. Each school is required to assess the current status of school crime committed on the school campus and at school-related functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment. Insert Aeries data here.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Our staff adheres to the Positive Students Interventions and Support Model when providing feedback to students. We actively teach, model, reinforce, and celebrate behaviors such as being safe, kind, and responsible across different areas of the campus. Furthermore, we align these expectations with the Toolbox Project, which equips students with self-advocacy, empathy, patience, and mindfulness strategies to navigate challenges they may encounter on campus.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.

4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.

5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
- Routinely check that battery-operated equipment is in working condition. Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication is must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Insert link to REMS packet here

Adaptations for Students with Disabilities

Please attached Appendix - Emergency Plan For Students With Disabilities

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on student information system (Aeries).
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.

3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting

requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made

in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
 - Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs
- With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
 2060 Challenger Drive
 Alameda, CA 94501
 (510) 337-7095
 kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Students and staff have monthly drills to ensure proper evacuation process. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: By 2026-2027 we will reduce suspensions behaviors of unduplicated students by 50%. As a team we very rarely suspend but students do still spend a significant amount of time out of class with restorative work.

Equitable (AA/EL/IEP/CCEIS):

All of the above will be measured in year one as we gather our baseline.

Objectives	Action Steps	Resources	Lead Person	Evaluation
Reduce Behaviors that can lead to Suspensions	Implement proactive systems in place (structured play, social groups, in-class intervention, reteaching of Toolbox for Learning)	Toolbox for Learning, PBIS, and TOSA	C&C Team, TOSA	Principal and C&C Team

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Provide additional exit route in an emergency in order to promote physical safety of the students and staff during an emergency

Objectives	Action Steps	Resources	Lead Person	Evaluation
Assessment of exit routes and locate any routes that may changes	Regularly assess exit routes for potential issues, practice evacuations to ensure a safe and orderly process, and continuously gather feedback to adjust routes based on emergencies and individual needs.	MOF if needed	Principal	Review Exit Routes with MOF if necessary

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

William G. Paden Elementary School Student Conduct Code

ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nALhYghgdznwzuQ/edit#>

Conduct Code Procedures

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously
- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias

- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Opioid Prevention and Life-Saving Response Procedures

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Response Procedures for Dangerous, Violent, or Unlawful Activities

Instructional Continuity Plan

Safety Plan Review, Evaluation and Amendment Procedures

Activity Description (i.e. review steps, meetings conducted, approvals, etc)	Date and Time	Attached Document (description and location)
Faculty Meeting	August 2024	Emergency response training with all staff
Safety Committee Meeting	August 2024	Review of Safety Plan and procedures, roles and responsibilities, maps and evacuation routes
Faculty Meeting	September 2024	Safety Committee share out
Safety Committee Meeting	September 2024	Table top drill and training planning
Faculty Meeting	September 2024	Review of REMS roles and responsibilities
Safety Committee Meeting	October 2024	Update Safety plan with revisions
Public Hearing	February 2025	Safety plan review with community
School Community Meeting	February 2025	SSC approval of plan

William G. Paden Elementary School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 1. Is campus secure?
 3. Are utilities off or secure?
 4. Are signs directing adults to release area up?
 5. Are traffic controllers needed?
 6. Is First Aid Center functioning?
 7. Have buildings been searched for victims?
 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
 2. Current roster of students and staff
 3. Emergency forms and documents
 4. Office supplies to assist unit leads
- B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

- A. Team up with other personnel as a member of a Site Emergency Team, otherwise:
- B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

- A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

- A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.
- B. Check the site completely for:
 1. Fire and electrical hazards
 2. Chemical hazards (Chlorine storage)
 3. Other hazards
- C. Notify Site Manager of hazards and services needed
- D. Barricade hazardous areas using whatever materials handy
- E. When site is secure, report to the Command Post for direction
- F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

- A. Respond immediately to emergency signals requiring specific actions and check in on Share911
- B. If signal is one to Leave Building, know if signal is for:
 1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members

Incident Commander:

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief:

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader:

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader:

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor:

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor:

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor:

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor:

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer:

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader:

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

SEARCH TEAM #1

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).

Organize supplies and treatment area.

Help with wounded.

Keep Check Out Station informed.

Request additional help (ambulances, etc.) through Check Out Station.

Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT

TRIAGE

RECORDER

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, **DO NOT TOUCH OR MOVE IT!!**

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal’s office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

- Sound the school alarm.
- Notify the Superintendent or Assistant Superintendent.
- Notify utility companies of a break or suspected break.
- Notify fire and police departments and direct further action as required.
- Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- Move to an area of safety and maintain control of students.
- Notify principal of students needing first aid as necessary.
- Fight incipient fires without endangering life.
- Take roll. Report absent students to principal.
- Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

- Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
- Follow procedures for principal -- 'c' and 'd' above.

Teacher

- Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.

- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
 "I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud"

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step 1: Assess the injured party's condition and determine if first aid or CPR is necessary.

Step 2: If 911 needs to be contacted, delegate another individual to make the call while you administer first aid or CPR.

Step 3: Assign someone to inform others and gather any necessary emergency equipment or information.

Step 4: Once it is safe, activate the 911 alert system to notify staff that an ambulance is en route.

Step 5: Allocate staff to designated gates or entrances to assist emergency services in reaching the injured party quickly.

Step 6: All staff members must complete and submit an Accident Report to the administration for any on-campus injuries.

Step 7: Ensure that Accident Report forms are forwarded to the business office promptly.

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.

2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff

traumatized by the event.

3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Alameda Unified School District Schools Emergency Plan for Students With Disabilities

Alameda Unified School District Schools Emergency Plan for Students with Disabilities

The Alameda Unified School District Schools Emergency Plans for Students with Disabilities consists of several components including the Model Plan, Appendices with Checklists, Forms, Sample Memos and Agreements, and Annexes. The Emergency Annex for Students with Disabilities is an incident management strategy that serves to augment the Alameda Unified School District Schools California Comprehensive Safety Plan. In order to ensure efficient and effective emergency management, the Model Plan should be implemented to the best of the site's ability and resources.

I. PURPOSE OF THE PLAN

The information contained in this document will assist school administrators, teachers, special education staff, parents, and students in planning for the support that may required for students with disabilities in the event of an emergency. For the purposes of this annex, students with Disabilities are those who cannot comfortably or safely access and use the standard resources offered in disaster preparedness, relief and recovery, whether their disability is chronic or temporary.

This plan includes procedures ensuring the full participation of students and staff with disabilities through the planning and implementation of mitigation, preparedness, response and recovery strategies as part of the overall management of school emergencies and disasters. Current thought identifies this population as those with access and functional needs (AFN).

A. Presidential Mandate

On July 22, 2004, President George W. Bush signed Executive Order 13347, Individuals with Disabilities in Emergency Preparedness, which adds to existing legislation policy to ensure that the safety and security of individuals with disabilities are appropriately supported and requires public entities to include the unique needs of individuals with disabilities in their emergency preparedness planning.

B. Planning Needs and Assumptions

For individuals with disabilities, physical environments become a great deal more hostile and difficult to deal with during and after an emergency. The ability to get to accessible exits and personal items may be reduced. Communication may be impeded at a time when clear and rapid communication is crucial to safety and survival.

To comply with statutes involving students with disabilities, individuals responsible for evacuation and emergency operation plans, notification protocols, shelter identification, emergency medical care and other emergency response and recovery programs must:

- **have sound working knowledge** of the accessibility and nondiscrimination requirements applicable under Federal disability rights laws;
- **know the students with disabilities demographics** of the students attending classes on site;
- **involve students** and with different types of disabilities and staff and teachers in identifying the communication and transportation needs, accommodations, support systems, equipment, services, and supplies that they will need during an emergency;
- **consider emergency accommodations** for those with temporary disabilities;
- **identify existing resources** within the school and local community that meet the needs of these students;
- **develop new community partners** and resources, as needed;
- **inform parents** about the efforts to keep their child safe at school;
- **identify medical needs** and make an appropriate plan;
- **determine transportation needs**, special vans and buses for students;
- **identify any necessary tools** such as personal response plans, evacuation equipment or visual aids;
- **include local responders** and establish a relationship with individual students with disabilities and their teachers.

II. STATUTES FOR SERVICES IN SCHOOL

Federal law mandates that every child will receive a free and appropriate public education (FAPE) in the least restrictive environment. Children who experience difficulties in school, due to physical or psychiatric disorders, emotional or behavioral problems and/or learning disorders or disabilities are entitled to receive special services or accommodations through the public schools. To support their ability to learn in school and participate in the benefits of any district program or activity, including emergency preparedness and school safety plans, three Federal laws apply to children with students with disabilities:

- Americans with Disabilities Act of 1990 (amended 2008)
- Individuals with Disabilities Education Act of 1975 (amended 1997)
- Section 504 of the Rehabilitation Act of 1973 (revised 1978)

A. Americans with Disabilities Act of 1990

The Americans with Disabilities Act (ADA) of 1990, including amendments which became effective in 2009, provides “a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities.” The ADA prohibits the exclusion of any qualified individual with a disability, by reason of such disability, from participation in or benefits of educational services, programs or activities.

B. Individuals with Disabilities Education Act (IDEA)

The Individuals with Disabilities Education Act (IDEA) is a 1975 federal law, amended by the Office of Special Education Programs in 1997, which ensures services to children with students with disabilities throughout the nation.

IDEA specifies 13 primary categories under the lead definition of a “child with a disability.” (See Table 1, Categories of Disability Under IDEA Law.) These federal definitions guide how states define who is eligible for a free, appropriate public education under special education law. The IDEA requires the school to provide an individualized educational program (IEP) that is designed to meet the child’s unique needs and provide the child with educational benefits.

Individual Education Program (IEP)

IDEA requires that planning for the educational success of these students is done on an individual, case-by-case basis through the development of an Individual Education Program (IEP). The IEP is a written statement developed for each child with a disability that outlines measurable annual goals for each child’s academic achievement and functional performance and specifies accommodations and modifications to be provided for the student.

Students with disabilities who are self-sufficient under normal circumstances may have to rely on others in an emergency. They may require additional assistance during and after an incident in functional areas, including, but not limited to: communication, transportation, supervision, medical care and reestablishing independence. While not explicitly stated, a component of the IEP for related services must consider the particular needs of the child to ensure his or her safety during an emergency that includes evacuation from a classroom and building.

C. Section 504 of the Rehabilitation Act of 1973

In 1978, the U.S. Department of Education (DOE) issued regulations to implement Section 504 of the Rehabilitation Act of 1973. These regulations applied to institutions receiving federal funds. Section 504, as revised, states in part: “No otherwise qualified individuals with disabilities in the United States . . . shall, solely by reason of the disability be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

Under Section 504, any student who has a physical or mental impairment that substantially limits one or more major life activities*, has a record of such an impairment and is regarded as having such an impairment is considered disabled. Typically, children covered under Section 504 either have impairments that do not fit within the eligibility categories of IDEA or that may not be as apparent as those covered under IDEA.

The Individualized School Healthcare Plan (ISHP) articulates the healthcare accommodations required for each student qualified for service under the Section 504 regulation. The ISHP assists in the safe and accurate delivery of healthcare services in school. It is specifically a nursing care plan, developed by the school nurse with parent input. A copy of this plan is included in the school disaster plan and attached to the IEP.

* Major life activities are those basic activities that the average person in the general population can perform with little or no difficulty, such as caring for one’s self, performing manual tasks, walking seeing, hearing, speaking, breathing, learning, working, sitting, standing, lifting, reaching, thinking, concentrating ,interacting with others and reading.

Table 1. Categories of Disability under IDEA Law

Federal Disability Term	Alternative Term	Brief Description/ Factors that Elevate Risk in Emergencies	Factors that Reduce Risk in Emergencies
Autism	Autism spectrum disorder	Characterized by extraordinary difficulty in social responsiveness; often resistant to environmental change or change in daily routine and experience anxiety over interruption. May be non-verbal or use argumentative communication.	Structure, routine, normalcy and familiarity with activity
Deaf-blindness		A simultaneous significant hearing and vision loss; limits the speed of movements.	Guidance from a sighted person
Developmental delay		A delay in one of the following areas: physical development; cognitive development; communication; social or emotional development; or adaptive (behavioral) development.	Minimized disruption of routine patterns of activity, modulate sensory input
Emotional disability	Behavior disorder, emotional disability	Has limited ability to understand environmental events, situations, or procedures. Needs are categorized as mild, moderate or severe. May disobey or resist direction, may panic.	Regulated sensory input
Hearing impairment	Deaf, hard of hearing	A complete or partial loss of hearing that adversely affects a child's educational performance. May not respond to auditory cues.	Written instructions, sign language, specialized communication for direction in an emergency
Intellectual Disability	Intellectual disability, cognitive impairment	Significant limitations in intellectual ability and adaptive behavior. This disability occurs in a range of severity.	Regulated sensory input
Multiple disabilities		The simultaneous presence of two or more impairments, the combination of which causes such severe educational needs that they cannot be accommodated in a special education program solely for one of the impairments. Does not include deaf-blindness	
Orthopedic impairment	Physical disability	A significant physical limitation that impairs complete motor activities, strength, vitality or an alertness to environmental stimuli	Adaptive physical equipment: cane, walker, wheelchair. May require alternative, accessible evacuation route
Other health impairment		A disease or disorder so significant that it negatively affects learning; examples include cancer, sickle-cell anemia, and diabetes	Continuity of medication management regime
Specific learning disability	Learning disability	A disorder related to processing information that leads to difficulties in reading, writing and computing.	
Speech or language	Communication disorder, stuttering	A disorder related to accurately producing or articulating the	Sign language, hand signals, specialized

impairment		sounds of language to communicate	communication for response in an emergency
Traumatic brain injury	TBI	An acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both that may affect cognition, behavior, social skills and speech.	
Visual impairment	Low vision, blindness	A partial or complete loss of vision	Guidance from a sighted person

Source: National Dissemination Center for Children with Disabilities at <http://www.nichcy.org/Disabilities/Categories/Pages/Default.aspx>

In addition to students with disabilities specified under IDEA law, the school site administrator or designee must identify individuals with a temporary impediment such as a broken leg or hidden impairments such as asthma, panic attacks, significant allergies or heart conditions. Students with such documented medical conditions may not have an IEP in place that would highlight the need for continuing a special medical regime, particularly during a crisis or disaster.

III. MITIGATION AND PREVENTION

Mitigation is the action districts and schools take to identify barriers students with disabilities may face during an emergency and eliminate or reduce their adverse effects. A hazards and vulnerability assessment of the site will help in preparing the emergency plan and identifying improvements for safety.

A. Teacher Survey - Students Needing Special Assistance

At the beginning of each year, Special Education Staff should provide to the main office and the students' respective teacher(s) the name(s) of students that will require special assistance in the event of an emergency. The type of assistance needed as a result of an injury is also required when applicable (i.e. broken leg during the year).

- **Review** how an emergency may impact the daily routine of students with disabilities.
- **Know who is on your school site:** Identify students and staff on the site with disabilities. The school principal must be aware of all students and/or staff with disabilities using school facilities and services.
- **Identify the students** with extensive support needs and who might need extra support in emergency crises.
- **Make a list** of the students on the school site who are on medication and their medication schedule.
- **Maintain a list of all resources** regularly relied upon and determine how a disaster might affect the use of them. Examples include (use of mobility aids, communication devices and electrically-dependent equipment).
- **Identify all the stakeholders** who should be considered in the plan (family, friends, service providers, personal attendants, physicians and others).
- **Determine what short term accommodations** to provide for students with temporary disabilities (e.g., injured limb)
- **Assess** potential hazards. Review evacuation equipment.

B. Mitigation Strategies

- **Learn about the types of hazards** that may impact the school (e.g., earthquakes, floods, wildfires) and assure that emergency response procedures address each one.
- **Identify a pre-evacuation site** that is accessible to students with disabilities

- **Plan a primary and secondary evacuation route** from each location the student is in during the course of the day.
- **Arrange sufficient transportation** ahead of time to accommodate the entire students with disabilities/staff population.
- **Develop a schedule** with daily activities and classes that identifies where a student with disabilities may be located each period of the day.
- **Consider classroom location** in placement of students with disabilities. Evaluate the accessibility of nearby exits and proximity to the school nurse.
- **Conduct a test of the family notification system** to assure that contact information is up-to-date to help decrease parent anxiety during a disaster.

IV. PREPAREDNESS

Preparedness focuses on what steps need to be taken to facilitate a rapid, coordinated, effective response when an emergency occurs to keep the students safe. Collaboration with first responders in preparedness strategies and ongoing communications is essential and facilitates the safe integration of students with disabilities into emergency procedures.

A. General Strategies

Use the forms in APPENDIX A to collect information about individuals with disabilities on site, e.g., who has a disability, nature of disability, implications for the student concerning full participation in school emergency planning. Include teachers, schedules, classrooms, potential needs during an emergency, relevant strategies enabling student(s) to participate successfully with peers in general school activities.

- **Build on current accommodations**, modifications and services.
- **Develop a policy** and consent form with legal counsel for medical information. The Americans with Disabilities Act (ADA) allows medical information to be given to people responsible for assisting in evacuating disabled individuals.
- **Consult parents or guardians** concerning care considerations if the student with disabilities is isolated at school for a short term or long-term basis. Inform parents about efforts to keep their child safe at school.
- **Incorporate pre-negotiated contracts** for services that may be needed in case of an emergency (e.g., transportation, food etc.).
- **Obtain necessary equipment and supplies**, create evacuation maps and facilities information.
- **Inform and train staff** about emergency response protocols. Encourage teachers to discuss emergency procedures with parents as part of IEP meeting or other review.

B. Buddy System

Pairing students up with students with disabilities for emergency response, e.g., the “buddy system”, can help with critical backup when a skilled assistant is unavailable or separated from the class. Buddies need to be willing and capable of assisting students in an evacuation to accompany the individual to a safer enclosure or wait for emergency responders. The buddy must be acceptable to the student with a disability. Also, teachers in adjacent classrooms can be pre-assigned joint responsibility for both classes if one of the teachers is busy with an injured student.

To have an effective buddy system:

- Give the student the opportunity to select his or her own buddy.
- Identify a buddy who is appropriate (e.g. strong enough).
- Designate a backup buddy.
- Train for the specific need of the student with disabilities.
- Hold practice sessions to assure that buddies can handle their tasks.
- Train the buddies on how to communicate with the students and how to safely evacuate.

Buddies must be able to make contact quickly with the student with disabilities when the need arises. The following situations may interfere with this critical communication. Use the suggested strategy as an alternative.

- The buddy is in the building, but away from the customary work area.
Have a trained backup buddy in place.
- The buddy cannot locate the person with a disability because the person is absent.
Keep an updated roster of who is at school each day. Assign a temporary buddy when the primary buddy is absent.
- The buddy has left the class/program, and a new one has yet to be identified. *Make an effort to find a replacement as soon as possible. Assign a temporary buddy until there is a permanent buddy.*
- The buddy forgets or is frightened and abandons the student with disabilities. *Check on each student with disabilities to assure he/she is accounted for during an evacuation. Practice drills will help diffuse real-time fright.*

C. Medication Management

with disabilities may have very individualized medication schedules that cannot be interrupted without serious consequences. Medicines or medical devices may not be available in emergency shelters. Make alternative arrangements to meet these needs. Consider how medicines can be stored in an emergency. Heat waves and power outages can affect the potency and integrity of some medications. Include an ice chest and cold packs among the school emergency supplies. If there is a power outage, the ice packs can extend the safe temperature range of medications requiring cold storage until the power is restored.

Some best practices to consider are:

- If the student is on medication, ask caregivers to supply a 72-hour supply in a Ziploc bag with instructions; a refrigerated kit is also advised for medication if needed with instructions.
- Gather all medications before evacuation.
- Transport special medications, supplies and equipment with the student with disabilities.
- Carry contact and medical information for all students and provide individual medical information on a laminated card with a lanyard to be worn around the neck. See Appendix C for an example of the Emergency Medical Card.

D. Access to Communication

Communication access enables effective interaction with people who are deaf or blind or who have speech, vision or hearing limitations. Make written materials available in alternative formats (e.g., Braille, large print, disks, and audio cassettes) and provide hearing- assistive technologies such as amplified phones. Include auxiliary aids and services such as sign language interpreters. Alarm systems for fire, etc. will benefit most people if they incorporate both audible and visual elements. The hearing impaired students may be best alerted by flashing light alarms. **An emergency is not the time to learn how to work a rarely-used assistive device. The most effective communication systems are those used daily.**

- Give clear, succinct verbal instructions.
- Communicate important information through gestures.
- Pictorial representations, where appropriate, can provide quick and easily understood instruction to many individuals with limited English proficiency, and some individuals with cognitive disabilities.
- Guide students with low vision or blindness.
- Utilize electronic variable messaging boards, short message systems (SMS), teletypewriters (TTY) or telecommunications display devices (TDD), if you have them.
- Identify staff with foreign language skills, if needed.
- Have aides, buddies, volunteers and evacuation assistants practice basic American Sign Language for emergency words and instructions such as:

• <i>important,</i>	• <i>emergency</i>	• <i>keep calm</i>
• <i>must leave now</i>	• <i>fire</i>	• <i>fire exit</i>
• <i>elevator closed</i>	• <i>stairs there</i>	• <i>okay</i>

E. Time Management

Children with disabilities are likely to respond to any form of stress following a crisis with more extreme reactions. Allow extra time for them than others to make necessary preparations in an emergency.

Some students with disabilities will need more time to comprehend the emergency. The earlier the notification, the better the chances are for a successful evacuation. Consider what are the triggers and cues for these students and anticipate rather than react. Prepare students for changes in routine. Some students may need to be more protected or isolated to minimize distractions and sources of agitation during the height of a crisis. Adult supervision may need to be more intense for a while.

Allow time for discussion of the traumatic events in a safe and familiar setting; provide choices in activities to the extent feasible to give these students some sense of control over even a small part of their lives.

F. Preparedness Supplies

Classroom Supplies. A classroom that is used for teaching students with disabilities should store disability-related supplies, assistive equipment and tools that may be required in an emergency. Parents should provide for students with dietary restrictions. Among the basic supplies to have in the classroom are:

- Batteries in different sizes, for adaptive equipment
- Lockdown kit, including portable toilet, privacy screen, toilet paper, toilet bowl liners disinfectant, and plastic bag for disposal
- Water pouches for drinking
- Water for hygiene purposes
- Copies of all students' Emergency Information Forms (secured)
- Backup copies of medical prescriptions (secured)
- Hand tools (e.g., screwdriver, wrench, pliers)
- Heavy work gloves
- Whisk broom
- Tarp
- Solar/crank/battery radio
- Cell phone and phone charger
- Flashlight and extra batteries or crank flashlight
- First aid kit

- Small ice chest for refrigerated medications
- Evacuation assistive equipment
- Protein bars (without nuts or nut oil)
- Canned fruit
- Carbohydrate-free foods for meals (e.g. canned meat, nuts, jerky)*
- Feminine hygiene supplies
- Household chlorine bleach to kill bacteria or antibacterial soap
- Facial tissues
- Whistle/noisemaker

* for diabetic students

Go Kits. Portable preparedness supplies individualized for each student's needs, called "Go Kits", are an integral part of preparedness planning. Ask parents and caretakers to provide Go Kits at the beginning of the school year. Plan for a child with special dietary needs. Designate which staff members are responsible for reminding parents to replenish their child's kit and notify the school of changes. Each Go Kit should include, as a minimum:

- Lightweight uncomplicated backpack
- Emergency Information Form – see Appendix B for example
- Medication for up to 36 hours
- Emergency Medical Card, laminated and attached to a lanyard to be worn during an emergency. See Appendix C for example. Card should include:
 - contact information
 - medical requirements
 - allergies and sensitivities
 - adaptive equipment used
 - assistance needs and limitations

G. Drills

Drill practice is very important; it increases skills and instills confidence in each individual's ability to cope during an emergency. Innovative educational techniques such as role-playing or the use of audio visual aids can also be helpful.

- Hold regular drills so that students become familiar with the procedures.
- Know how to get to all the exits.
- Practice using evacuation and assistive devices.
- Give clear, concise instructions
- Practice dealing with different circumstances and unforeseen situations, such as blocked paths or exits or buddies that cannot be located.

H. Key Practices for Certain Impairments

Emergency planning for students with disabilities should be as individual as the students. Some students may be at increased risk during an emergency and will need extra assistance or special attention. If possible confer with students and parents regarding their preference for emergency situations. Assess capabilities, limitations and needs and to determine what type of evacuation assistance will be required in an emergency for each student.

Children with disabilities generally have specific "triggers"—words, images, sounds, etc.-- that signal danger or disruption to their feelings of safety and security. If adults miss these cues, children may escalate their behavior to a point

where they completely lose control. *It is essential that parents/caregivers and teachers work together to share information about triggers and cues.* This is best done on a regular basis, such as during the IEP meeting or a periodic review meeting, rather than in response to a crisis.

There is no one-size-fits-all approach. However, there are key practices that should be considered for certain impairments.

- 1. Cognitive/Developmental:** Some students may not comprehend the nature of the emergency and could become disoriented or confused about the proper way to react. Students with hypertension, dyslexia or learning disabilities may have difficulty reading complicated directions for evacuation or response plans. Simple diagrams or pictures will give non-reading or overstressed students sufficient information to get to safety. Train your staff how to assist those who become upset. Check that evacuation routes have directional signs that are easy to follow. Practice evacuation route(s) with students regularly. Use simple diagrams or pictures to give non-reading or overstressed students sufficient information to get to safety. **Preparedness kits should include:**
 - comfort items
 - pen and paper
 - visual communication instructions

- 2. Hearing:** Provide sign language training to some staff for students who may not be able to hear emergency warnings. Have teachers practice basic hand signals for students with hearing impairments for emergency communications. Alerting devices, such as strobe lights and vibrating pagers can be used to supplement audible alarms and are useful for students with hearing impairments. Install both audible and visual smoke alarms in the classroom and building. **Preparedness kits should include:**
 - pen and paper
 - flashlight to communicate in the dark
 - extra hearing aid batteries
 - batteries for TTY and light phone signaler

- 3. Mobility:** Limited mobility may impair egress and access to locations. Arrange and secure furniture and other items to provide barrier-free paths of travel. Disaster debris may obstruct evacuation. Store a lightweight manual wheelchair, if available. Train the staff the proper way to move an individual in a wheelchair. Mobility impaired students should practice moving their wheelchairs or having them moved into doorways, locking their wheels and covering their heads with a book or with their arms or hands. **Preparedness kits for those who use wheelchairs should include:**
 - heavy gloves for making way over glass or debris
 - extra battery for electric wheelchairs recommended but may not be practical
 - patch kit for punctured wheels
 - flashlight and whistle

- 4. Respiratory:** Students with respiratory impairments may have difficulty breathing when walking distances or descending stairs. Smoke, dust, fumes, chemicals, and other odors often exacerbate such limitations. For these students, include emergency evacuation masks and respirators in

classrooms. Have oxygen and respiratory equipment readily available. Students and staff should practice putting on and removing this equipment as part of an emergency drill. **Preparedness kits should include:**

- medical schedule and dosages
- medical mask, if student can wear one
- any medical equipment needed for 72 hours
- note paper and pen

- 5. Medically Fragile:** Many illnesses can be aggravated by stress. In the event of a disaster that requires students to be at school for an extended period of time, medication may need to be administered to students with a healthcare plan. Schools should consider who will administer these medications in the event a nurse is not available during a disaster. Keep medications, authority to administer the medication forms, and healthcare plans in the vicinity of the medically fragile student.

It is the parent's responsibility to maintain medical supplies, notify the school of changes and provide new doctor's orders. It is the nurse's responsibility to remind the parent to provide medications and update orders when notified.

- 6. Speech/Auditory:** Determine in advance the best way for the student to communicate with others during an emergency. Provide written emergency and evacuation instructions on a card, carried at all times and placed in an easy to see location. **Preparedness kits should include:**

- extra batteries and chargers for communication equipment
- note paper and pen
- comfort items

- 7. Visual:** Those with visual impairments may have to depend on others to lead them to safety during a disaster and may be reluctant to leave familiar surroundings. Employ Braille signage or audible directions for students who are blind or have low vision. Emergency back-up lighting systems, especially in stairwells and other dark areas, will benefit those students with limited visual acuity. Mark emergency supplies with large print or Braille. Students should know where the nearest telephones and alarm boxes are located and how to describe their location. **Preparedness kits should include:**

- extra folding white cane
- heavy gloves for feeling the way over glass or debris
- colored poncho worn for visibility
- comfort items

I. Developing a Student with Disabilities Evacuation Plan

Creation of an Evacuation Plan should cover the evacuation, transportation and medical needs of students who will require extreme special handling in an emergency. In most cases, additional safeguards must be established regarding roles, responsibilities and procedures for students with physical, sensory, emotional and health disabilities. Review all paths of travel and potential obstacles.

- Know your school grounds, paths, exits and potential obstacles.

- Determine the primary and secondary paths of exit to be used during emergencies. Individuals with mobility impairments will need a smooth, solid, level walking surface, an exit that avoids barriers such as stairs, narrow doors and elevators and guardrails that protect open sides of the path.
- Compile and distribute evacuation route information to be used during emergency operations
- Include alternative evacuation route information, should the primary route be inaccessible due to damage or danger.

2. Install appropriate signage and visual alarms.

- Place evacuation information indicating primary and secondary exits in all offices, classrooms, multipurpose rooms, lunchrooms, hallways/corridors, lobbies, bathrooms and cafeterias. For passages and doorways that might be mistaken for an exit, place visible signs that proclaim, "NOT AN EXIT".
- Place emergency notification devices appropriate for each student.
- Post signage with the name and location of each area so that the students will know exactly where they are. In order to comply with ADA Accessibility Guidelines for Buildings and Facilities requirements, the signage should be:
 - approximately 60 inches above the floor;
 - in a location that is not obscured in normal operation such as a swinging door;
 - in all primary function areas

3. Identify the students and staff with disabilities and the type of assistance they will require in an emergency.

- Allow visitors to self-identify on a sign-in log if they have special evacuation needs.
- Discuss evacuation issues with the staff members and caretakers of students with disabilities. Include individuals, who may be temporarily disabled (i.e. a student with a broken leg).

4. Train staff in general evacuation procedures.

- Review the areas of rescue, primary exits, evacuation techniques, and the locations and operation of emergency equipment.
- Provide in-depth training to those designated to evacuate students with disabilities. Train the staff for proper lifting techniques when lifting a person for evacuation. Anyone can assist a student with a visual impairment.
- Check on each student with disabilities to assure he/she is accounted for during an evacuation.

5. Review the plan with emergency response personnel, including local police, fire and emergency medical technicians.

- Identify “areas of rescue” in your school for students to wait for evacuation assistance from emergency personnel.
- Before school begins in the fall, walk around the site with first responders so that they are familiar with the primary exits and all areas of rescue. These areas must meet specifications for fire resistance and ventilation.
- Ask the responders to conduct a special drill explaining how they will support the students and staff with disabilities during an emergency.

6. Complete all contracts and Statements of Understanding with key emergency support providers

- Ensure that sufficient transportation capacity exists with transportation providers, partner agencies, and suppliers to effectively meet the demand in an emergency.
- Identify transportation contracts through the district in case of an emergency. Emergency response for students with disabilities requires special vans and special equipment. Specify who will do what to address these transportation needs.
- Develop a list of school-owned vehicles, staff vehicles and parent vehicles that are available and make prior arrangements for their use in the event of an emergency.

7. Review the evacuation plan with students and staff to be familiar with the process and identify any problems.

- Practice implementation of special duck and cover actions by students with able-bodied partners.
- Students should be aware that evacuation by themselves may be difficult or impossible because of obstacles in their path or because electric-dependant machines may not function (i.e. elevator).
- Special pre-planned assistance must be provided and reviewed regularly. Classrooms should have emergency activity kits with items familiar to the students. Include students with disabilities in the selection of emergency evacuation devices.
- Mobility-impaired students should know how (through practice) to get in doorways, lock wheelchair wheels and cover head with book, arms or hands.
- Train all aides who are assigned to students with disabilities in evacuation procedures.

- Provide procedures for receiving students with disabilities at the pre-designated evacuation site.
- Remind parents and caregivers that they are responsible for updating emergency information with the schools.

IV. RESPONSE

Response is the immediate reaction to an emergency to save lives and protect property. Pro-active efforts in the Mitigation-Prevention and Preparedness phases will impact the quality of response. Responses will vary depending upon the severity and intensity of the event.

A. Leadership by District of Service

In an emergency, the site administrator has responsibility for the safety of all children on the site. The District of Service, rather than the District of Residence, assumes the leadership role for all students in an emergency.

B. Assess the Situation

- Determine the immediacy of the emergency.
- Remove anyone with respiratory complications from smoke and vapors immediately.
- If not in immediate danger, stay in place until staff personnel determine the nature of the situation.
- If trapped, get the attention of others by calling out or striking object together to make noise.

C. Announce the Emergency

- 1. To Alert Deaf and Hearing Impaired** – The primary goal is to effectively communicate the nature of the situation and direct them to the appropriate route of evacuation. Students with hearing impairments will most likely be able to follow the same exit route as those who can hear. Communicate with a notepad and pen, with simple, concise speech or with sign language. Regardless of the method of communication used, convey two key messages:
 - there is an emergency
 - how to exit
- 2. To Alert Blind or Visually Impaired** – Someone who is blind or visually impaired will generally be able to evacuate the same route as sighted students, but may need some assistance. Describe the nature the emergency and offer to guide him/her to the nearest emergency exit and evacuation assembly area.

- Touch the person on the elbow gently. Identify yourself and quickly explain the situation.
- Ask if the individual has any preferences regarding how to be guided.
- Clearly describe where you are going and any approaching obstacles or protruding objects which will require a change in your walking path or pattern.
- Be protective of your space as there may be many people using the same route to evacuate.

3. To Alert Cognitively or Emotionally Impaired – It is likely that students with cognitive or emotional impairments will be able to use the same evacuation routes as the other students. The challenge is to keep them calm as you exit. If there is a buddy or companion assistant, quickly describe the situation and how to involve him or her in the evacuation. Let the student know what is happening. Keep him/her reassured

D. Lockdown/Shelter-in-Place Strategies

- Set up screens/curtains for those needing privacy for emotional issues and personal hygiene.
- Use Go Kits for immediate necessities.
- Keep students away from windows and doors.
- Use the buddy system to provide comfort and reassurance.

E. Implement Evacuation

- Carry all medication, supplies, equipment and dietary needs with student, including the 72-hour disaster kit that has been prepared ahead of time for individual student needs;
- Ask the student how he/she would like to be assisted;
- Use the buddy system;
- Inform emergency personnel of intended destination and type of assistance needed. If unable to contact emergency personnel, ask others to make the notification for assistance;
- Move to designated evacuation area. The path should be unobstructed.
- Be careful of falling debris as you leave the building.
- Provide priority assistance to wheelchair users with electrical respirators. Evacuate mobility devices with the person if possible (i.e. crutches, wheel chairs, etc).

To Evacuate Persons Using Wheelchairs:

If the person wants to be moved in his/her chair, keep the following considerations in mind:

- Turn off the wheelchair's power before lifting.
 - Turn the wheelchair so it is lowered down the stairs backwards (person facing up the stairs), so the occupant cannot slip forward out of the chair and down the stairs.
-
- Powered wheelchairs have very heavy batteries; an evacuation chair for stairs may be needed with the powered chair to be retrieved later.
 - If a seatbelt is available, use it. If the person needs to be removed from his/her wheelchair for an evacuation, ask the following:
 - how he/she prefers to be moved from the chair;
 - whether pain or harm will result from moving extremities;
 - if any equipment is needed for immediate safety of life-support, e.g. backup generator for respirator.

F. Transport Students

Transportation is a well-established component of emergency response plans, and requires planning and detailed focus for children with access and functional needs. Special transport is not provided for students with Section 504 eligibility.

- **Maintain a transportation resources** list by type and availability, including vehicle accessibility and capacity information.
- **Develop procedures for the acquisition of additional accessible transportation equipment**, securement devices, supplies, and resources before a disaster.
- **Provide staff training**, including a review of procedures for transporting persons with a variety of assistance needs, as well as the transport of service animals.
- **Identify strategies for tracking individuals** who are evacuated. Information should include the passenger's name, point of origin, departure time, final destination, and arrival time.
- **Maintain a master list of drivers** by status and availability.
- **Provide drivers with an operational roster** to complete and maintain, at minimum, with the following information:
 - Name of driver
 - Driver's telephone number
 - Time departed staging area
 - Time arrived at sheltering location
 - Vehicle number Sheltering location
 - Trip mileage

- **Determine the appropriate transportation response** for persons unable to reach a pick up/drop off location or staging area on their own.
What entity will handle such needs, and what types of vehicles/equipment will be required? Check with the school district regarding the transportation contracts and agreements.
- **Account for all students** before transportation occurs and after arrival at the destination.
- **Transport all passengers** to the pre-designated evacuation destination by the safest route. Use alternative routes only as necessary.
- **Use buses.** Consider other modes of transportation only if buses are unable to get to the school quickly or are not available. Refer to the list of school-owned vehicles, staff vehicles and parent vehicles that are available.

G. Reassess Needs

Request additional support, if needed.

H. Other Considerations for Students with Disabilities Populations

- **Store** extra batteries for electric wheelchairs and hearing aids.
- **Lead** evacuees to a safe place with other teachers and staff.
- **Remain** with the student with disabilities after the evacuation.
- **Recognize** that the fine details are unique to each student;

IV. RECOVERY

The recovery phase is designed to assist students, teachers, staff and visitors to restore educational operations in school. Recovery is an ongoing process that includes not only the mental, emotional and physical healing process of students, teachers and staff, but also restoration of the physical assets of the school (buildings and grounds) to a safe and habitable environment.

A. Restoration

- **Account** for all the students, teachers, and staff.
- **Meet the medical needs.**
- **Conduct daily debriefing** for staff, responders, and others assisting in recovery.
- **Provide stress management support** during class time.
- **Discuss recovery**, what to do with students if they must remain on site for 2-3 days.
- **Communicate with parents**, guardians and the local community.
- **Conduct after-action briefing** to capture key lessons learned and recommendations for improvements to the school plan.

B. Supportive Services

- **Needs Assessment** – quickly identify needs and the support necessary to meet them.
- **Information** – provide important information on community resources that connect school families who need help with available services and assistance.
- **Language** – ensure that critical information is conveyed in a language appropriate for non-English speaking families that the standard media may not reach.
- **Transportation** – support the mobility needs with accessible transportation resources to disaster service areas.
- **Replacement Equipment** – support students with disabilities with the guidance to acquire replacement of vital personal equipment (e.g., crutches, hearing aids, wheelchairs,
- **Reassurance**

Experiencing a disaster can be overwhelming. Stress often exacerbates existing medical conditions and may alter thought and behavior. Reassurance is the key to helping children through a traumatic time. Support individuals with access and functional needs by providing verbal reassurance and information to help orient

them to new surroundings and new routines.

- **Make sure physical needs are addressed** and medical assistance is provided, as needed.
- **Reconnect students** with family and other support systems as early as possible.
- **Address concerns** about safety. Talk to each child at his or her developmental age, not chronological age. Use language the child understands.
- **Provide information through pictures** and allow children time to see, hear, talk and draw.
- **Expect some regression** (increase in problem behaviors).
- **Deal with inappropriate behaviors** calmly and consistently—Keep emotional equilibrium.
- **Minimize the disruption.** If the normal routine is unavoidably altered, create a new one.
- **Offer concrete/immediate solutions** to abstract problems. Use clear examples. Repeat responses patiently.

After the danger has passed, the school will be anxious to return to normal. Both people and resources are needed to speed recovery. The talents of individual with disabilities should not be underestimated. Every member of a community can provide some support.

APPENDIX A

School Emergency Evacuation Planning Checklist		
	YES	NO
Do you have a roster of your students with disabilities?		
Have you identified students with disabilities on site from other school districts?		
Have you identified the medical needs of your students with disabilities and their medication schedule?		
Have you walked the evacuation paths and exits looking for potential obstacles?		
Has an evacuation site been identified that is accessible to students and staff with disabilities?		
Is the primary evacuation path marked to clearly show the route?		
Is there sufficient oxygen for 72 hours?		
Have transportation needs been identified for the students with disabilities, such as special vans and buses for students?		
Do you have contract(s) in place with your transportation service provider(s) in case of an emergency?		
Is there a master list of bus drivers?		
Have you identified any necessary tools such as personal response plans, evacuation equipment or visual aids for students with disabilities?		
Have you identified communication needs with students who have limited English proficiency?		
Have you considered emergency accommodations for those with temporary disabilities?		
Have you encouraged a relationship with students and the local responders?		
Have you reviewed your plan with emergency responders?		
Have you identified an evacuation site that is accessible to students and staff with disabilities?		
Have you identified a secondary evacuation site?		
Has a "buddy system" been developed for each student?		
Have you identified all of your communication needs for your students with disabilities?		
Have you trained the staff on proper lifting techniques?		
Have staff, students and families been encouraged to provide 72 hour medications?		
Has evacuation route information been compiled and distributed to staff?

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Alameda Unified School District	Sara Stone Chief Academic Officer	sstone@alamedaunified.org (510) 337-7092

General Information

[A description of the impact the COVID-19 pandemic has had on the LEA and its community.]

Alameda Unified School District (AUSD) serves the needs of some 9600 students from pre-school through high school. Those students reflect the diversity of our community and the San Francisco Bay Area region. In 2019-2020, the demographic breakdown was: 26% Asian, 29% white, 18% Hispanic, 7% Black/African American, and 12% of two or more races. About 30% of our students are low income and 13% are English Learners, and Approximately .5% are Foster Youth.

To serve this diverse community of learners, AUSD’s nine elementary schools, four middle schools, and four high schools offer a wide range of educational opportunities, including neighborhood schools, STEAM programs, intervention services, arts integration, and newcomer classes for students who have recently arrived in this country. Our high schools have strong Career Technical Education programs, including Broadcast Journalism, Sports Medicine, Childcare, and Genomics, as well as a full array of Honors, AP, and Visual and Performing Arts classes. Our continuation program at Island High School supports students needing support to graduate; our magnet high school – the Alameda Science and Technology Institute – offers an Early College Program that provides students opportunities to earn college credits and/or an Associate of Arts degree while still enrolled in high school.

Some specific highlights from the 2019-20 Local Control Accountability Plan (LCAP):

- Continued expansion of the existing Multi-Tiered System of Supports (MTSS) program to provide more mental health and behavioral intervention support to sites and implement an academic universal screener/progress monitoring/intervention system.
- Increased capacity and systems for data-driven improvement. Implementation of an academic diagnostic/screening tool has increased the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports.
- Strategic Planning within the Special Education Department: Continue to define a services delivery model for students with special needs that is facilitated by high quality teaching, supported through active engagement in the least restrictive learning environment, and monitored by multiple measures of student achievement.
- Ongoing implementation of the English Language Development program to support improved outcomes for English Learners in both fluency acquisition and mastery of core content. This remains a highlighted area within AUSD’s LCAP. Language and Literacy staff

continue to work across departments to build capacity for a broader group of staff to support EL needs following significant staffing reductions in the spring of 2018.

- Expansion of Career Technical Education (CTE) pathways. 2019-20 edmark the opening of a new Biotechnology pathway, expansion/redesign of the Sports Medicine pathway, and deepening of the work within the Broadcast Journalism, Digital Filmmaking, and Marketing pathways. The work within CTE is a collaboration of AUSD staff, community members, industry, and city partners.
- Maintain forward progress in many areas parallel to the ongoing process of reprioritizing the budget to increase employee compensation.

In order to make progress towards our LCAP goals, we must:

- Eliminate barriers to student success and maximize learning time,
- Support all students in becoming college and work ready
- Support all English Learners in becoming college and work ready
- Support parent/guardian development as knowledgeable partners and effective advocates for student success.
- Ensure that all students have access to basic services

While Senate Bill 98, which was passed on June 29, 2020, removed the requirement for a 2020-21 Local Control Accountability Plan (LCAP) and instead has asked for this Learning Continuity and Attendance Plan (LCP), we continue to strive towards our LCAP goals, knowing that some shifts might be necessary due to the constraints of operating during a pandemic. In order to do this, we have some specific goals that we continue to work towards, even during COVID-19. Of course, COVID-19 has created some safety and logistical challenges that required us to make some shifts to how we implement our plans in service of these goals. We continue to plan for the following goals, making adjustments based on our current needs and state and county required pandemic responses:

- Improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism
- Decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates
- Improve completion rate including reduction of middle and high school drop-out rates and increase of high school graduation rate
- Improve student achievement on both statewide and local assessments
- Increase College and Career Readiness
- Improve English Learner Achievement
- Implement State Standards for English Learners
- Improve efforts to seek input from parents/guardians to support informed district/school targeted supports
- Improve parent/guardian participation in school, especially in the area of increasing access to college and career readiness resources
- Improve early educational opportunities for parents/guardians in which they develop strategies/skills for supporting their student(s) and serving as leaders in the school/district community.
- Maintenance of a highly qualified teaching staff
- Provision of adequate instructional materials
- Maintenance of a safe learning environment

The COVID-19 pandemic has had a profound impact across all levels of Alameda Unified School District. In March 2020, when a Shelter In Place was ordered, we rapidly transitioned to Distance Learning. This rapid shift brought an onslaught of challenges to students, families, educators and administrators. We recognize the profound impact that the closing of school buildings and moving into distance learning has had on our students, families, and staff, especially those who live in poverty, are second language learners, are in foster care, or have disabilities. While we maintain our work connected to our 2019-20 LCAP during the 2020-21 School year, we also have had to make some necessary adjustments and implement some new work in response to the COVID-19 pandemic. We have paid special attention to ensuring that our planning is trauma informed, understanding the deep social, emotional, and mental health challenges that have come with this pandemic. Achieving equity for our students has been, and remains, at the forefront of the district's work, and the pandemic has exacerbated existing injustices for students. Addressing these issues of access guided initial crisis response in the Spring, and as seen in this plan, continues to guide how students and families are supported. While the Spring focused on basic needs such as technology, nutrition, and supplies, the Fall will continue to build on this through a focus on priority standards, targeted instructional support, mental health support, and increased and intentional family and student outreach.

AUSD is starting the year in a distance learning model. We have two distinct programs that will be able to support the needs of students, families, and staff. We have a fully remote program that we opened to support any students, staff, and families who might be immunocompromised and who might need to remain in Distance Learning for the entire year. This is a program that will continue all year long, even if the County deems it safe for in person instruction. The other program is a Flexible program that will be able to flex between Distance and In-person learning. We are actively working towards getting students back into our school buildings as soon as it is safe to do so. We understand the immense burden that families are facing, juggling their own workloads and responsibilities along with managing student schedules and engagement. AUSD is committed to reopening school campuses when it is safe to do so, and continues to use local and state guidance, as well as stakeholder feedback to inform the reopening plan.

Stakeholder Engagement

[A description of the efforts made to solicit stakeholder feedback.]

AUSD engaged in a cycle of stakeholder feedback and decision making connected to continued instruction during the COVID-19 pandemic. This cycle included a Strategic planning team made up of the Superintendent, Chief Academic Officer, Chief Student Support Officer, and Data and Assessment Coordinator to work closely with a Task Force made up of representatives of staff and community to plan for and facilitate the surveys, Town Hall engagements, and Staff working groups to receive feedback and make recommendations to the School Board. Meetings were held weekly between March 13, the date of the close of campuses thru August 27th, the first day of school through this cycle of stakeholder engagement.

Strategic Planning Group:

- Superintendent
- Chief Academic Officer (CAO)
- Chief Student Services Officer (CSSO)

- Data and Assessment Coordinator

AUSD 2020-21 Redesign Task Force and Working Groups:

- Teachers
- Principals/Asst. Principals
- District Office staff
- Community partners
- Working Groups:
 - District operations- facilities/cleaning
 - Site operations
 - Curriculum/Assessments
 - Special Education
 - ELD
 - Technology
 - Mental Health/SEL
 - Remote Design
 - Food Services
 - Afterschool/Parent support
 - Grading
 - Attendance
 - Enrollment
 - Secondary Math/World Language
 - Student/Staff Safety
 - Student/Staff assignment/Negotiations

Stakeholder Engagement/Consultation:

- Alameda Education Association (AEA) and California School Employees Association (CSEA), (Union partners)
- Student Advisory
- Student Survey
- Parent Survey
- Academic Committee
- Community Advisory Committee (CAC)
- Parent Teacher Advisory Committee (PTAC)
- ASped
- District English Learner Advisory Committee (DELAC)
- After school and enrichment partners
- Town Halls

Board of Education:

- June: 9, 23
- July: 16, 17*, 22*
- August: 10*, 21*, 25
- September: 8, 22

* Special Meetings

Town Halls:

- 5/7/20 - Encinal Jr. & Sr. High School Parent/Guardian Town Hall
- 5/13, 5/14, 5/15 and 5/18 - Student Advisory for Graduating Seniors
- 5/14/20 - Lincoln Middle School Town Hall
- 5/21/20 - Wood Middle School Town Hall
- 5/28/20 - Alameda High School Town Hall
- 6/4/20 - Mental Health Town Hall
- 6/16/20 and 7/9/20 - Elementary Student Town Hall
- 6/17 and 7/23 - SpEd M/S Town Hall
- 6/18 and 7/30 - SpEd M/M Town Hall
- 6/22 and 8/13 - PTAC Town Hall
- 6/30/20 - WCDC Family Town Hall
- 8/4/20 - Athletics Town Hall
- 8/12/20 - Student Advisory
- 9/23/20 - PTAC Meeting
- 9/29/20 - CAC Meeting

We received feedback from our Parent Teacher Association Council (PTAC) on September 28, 2020 and have incorporated elements into this plan. The complete document is included as an attachment at the end of this LCP.

The District's response dated September 30, 2020 is also included as an attachment.

[A description of the options provided for remote participation in public meetings and public hearings.]

It has been extremely important to AUSD to be able to convene as many engagements as possible and to make them accessible to our community. We found that using Zoom and Facebook streaming (when possible) allowed for maximum engagement. All public meetings have been recorded and made public on our district website after the meetings.

Surveys (April and June) to elicit community input also preceded and proceeded these meetings. These surveys were delivered via the Student Information System when it was important to hear from all of our stakeholders so that we could account for participation. If we did not get complete participation staff called families to either share information or ask questions to elicit feedback.

[A summary of the feedback provided by specific stakeholder groups.]

We learned a great deal from our stakeholder engagement cycles. Mainly, we heard that for the 2020-21 School Year we need to:

1. Determine the priority grade level standards and skills that each grade level/content area need to focus on next year;
2. Deepen our vision and practice for Asynchronous and Synchronous Distance Learning including professional development, curriculum, assessment, differentiation based on student needs, and standards based grading; and
3. Communicate academic expectations with families and providing examples of the work to students so that they know what is expected of them

In addition to the above implications, we are also continuing to hold the Graduate Profile, our district community's vision for students, at the center of our thinking and planning. That coupled with some clear Core Values and Guiding principles (developed from what we heard from our staff, students, and families as well as our data), we know we must prioritize the work to deepen and clarify it. Our goals and focus practices for the 2020-21 school year are that:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity;
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction;
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards; and
- We integrate social emotional and trauma-informed approach as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning.

[A description of the aspects of the Learning Continuity and Attendance Plan that were influenced by specific stakeholder input.]

In addition to County guidance, all of the Learning Continuity and Attendance plan was influenced by stakeholder input (as described above). We also used research and ideas from other districts on best practices for blended learning, engagement, culturally responsive and trauma informed practices to inform our plans. Every plan was also put through the lens of the following core values and priorities:

Core Value:

"We meet the needs of each learner."

Guiding Principles:

Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.

Core Value:

"We develop the whole child."

Guiding Principles:

Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).

Core Value:

"Mastery of Essential Standards through flexibility of structures"

Guiding Principles:

Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.

Core Value:

"We will support all students to embody the AUSD Graduate Profile"

Guiding Principles:

Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.

Core Value:

"Learning to read is key to students' academic success"

Guiding Principles:

Our plan will prioritize students who are learning to read

Core Value:

"Coherent Systems to Ensure Students are College & Career Ready"

Guiding Principles:

Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready

Core Value:

“We will invest in our staff in order to realize our vision for students”

Guiding Principles:

Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.

Continuity of Learning

In-Person Instructional Offerings

[A description of the actions the LEA will take to offer classroom-based instruction whenever possible, particularly for students who have experienced significant learning loss due to school closures in the 2019–2020 school year or are at a greater risk of experiencing learning loss due to future school closures.]

We are prepared to provide both In-person and Distance Learning during the 2020-21 School Year. In order to prepare for this Flexible model, we have developed a Flexible instruction model which blends both in-person and virtual learning. The purpose of this program is to allow students to return to school as soon as it is safe. Content is delivered by the teacher synchronously, students practice skills and/or complete projects asynchronously using core district curriculum, zoom, and google classroom. In addition, we are working to determine how to support smaller groups of students who need more support and would benefit from in-person learning to come to sites in a “learning hub” model when safe. This must be in accordance with county and state mandates.

For those students, staff, and families who will not be able to return to on-campus instruction due to underlying health or other issues, we have also developed a fully Remote Program. This program will be primarily “asynchronous” (or independent) and done at the student’s own pace using an online curriculum. Teachers will work as “case managers” of students’ instruction and will work with students one to one or in small groups, and parents/guardians will work collaboratively with the teachers to support and coach their students.

Cleaning and safety: Note: We have based this on the most current County guidance as of the writing of this plan. All is subject to Labor Partner Negotiations.

Face shields/cloth coverings:

Cloth masks:

- Required for TK and up
- Required for all school staff
- Exceptions: unable to wear them due to special circumstances, such as a particular developmental or health diagnosis that would limit their ability to wear a face covering.

Face Shields:

- Permissible as a substitute for teachers and students unable to wear a face covering for reasons of age and special need
- Should be worn with cloth drape across the bottom tucked into shirt
- Can be worn to compliment a cloth face covering
- Will be available for staff

Temperature Screening:

- Students and families are required to self-screen at home or before entering the building.
- If self-screening is not completed at home, school staff may conduct on-site visual screenings (coughing and runny nose) and temperature screenings.
- No-contact thermometers have been purchased for all health clerks and all administrators in AUSD.
- Asymptomatic individuals or individuals with mild non-specific symptoms may not realize they are infected and may pass through screening.
- Self-screening is a must and may consider using a lower threshold temperature

Distancing:

- Where practical, desks will be placed six feet apart and arranged to minimize face-to-face contact
- Permissible to relax 6-foot recommendation if it ensures all/more students receive in-class instruction
- Face coverings and cohort stability are higher priorities if they allow for more practical utilization of physical spaces to provide in-person instruction.

Cohort Size:

- As practicable, students should remain in the same space and in groups as small and as consistent as possible.
- When it is not possible to remain in stable cohorts within the same space (e.g. secondary school), face coverings and limiting group gatherings are a higher priority.

How will we properly clean and disinfect our schools?

- Follow CDC & EPA Guidance for Cleaning & Disinfecting Facilities.
- Disinfect with EPA-registered List N solutions for use against Covid-19.
- Apply disinfectants with electrostatic sprayers as the new standard of infection control.
- Sufficient and capable staffing.
- Develop policies, educate, train staff on worker protection; cleaning and disinfection protocols, proper use of materials and equipment while complying with OSHA's standards.

Academic Goals and Priorities:

Paying attention to our 2019-20 LCAP Goals, and planning for ensuring that teaching and learning continues during this challenging time, we have developed the following set of goals and priorities for both our Flexible and Remote Learning options in order to mitigate learning loss for all students:

Student level goals (across content, aligned to Graduate Profile):

Students dialogue about equity issues and take action to interrupt inequity

- Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action
- Read, think, talk, and write about complex texts every day
- Establish and maintain healthy and rewarding relationships with diverse individuals and groups

Teacher priority practices (across content)

Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity

- Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- Teachers build positive relationships with and among our students to create the conditions for learning

Leadership Practices

School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity

- School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision
- School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning

District Goals

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students
- We maximize interaction and independence in students' blended learning experience We integrate social emotional and trauma-informed approaches as the foundation for learning experiences

Conditions for Adult Learning

- We learn by collaborating, planning, doing, and reflecting
- We have space to be vulnerable, self-reflective, and create meaning

- Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Actions Related to In-Person Instructional Offerings [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing
<p>Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction:</p> <ul style="list-style-type: none"> • Professional Development - 4 days of Learning Conference - \$1,131,335 • Other professional development \$50,188.12 • In-person materials \$379,564.58 • Online materials \$358,913.73 • Curriculum: • Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction: • Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards • Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards • Teachers build positive relationships with and among our students to create the conditions for learning 	\$1,920,001	Yes

Distance Learning Program

Continuity of Instruction

[A description of how the LEA will provide continuity of instruction during the school year to ensure pupils have access to a full curriculum of substantially similar quality regardless of the method of delivery, including the LEA's plan for curriculum and instructional resources that will ensure instructional continuity for pupils if a transition between in-person instruction and distance learning is necessary.]

Our district's goal is to balance the complex variety of needs that students, families, and staff are currently confronting, including reducing the risk of COVID-19, reducing student learning loss and isolation, and supporting families to return to work. Our district's top priority for learning is to return to a standard school model, with all students in class five days per week. When the standard school model is not permissible by Departments of Public Health, the Flexible Model and the Remote Model described below will be in place. We will continue to work with our labor partners to develop a plan that is in accordance with County Departments of Public Health guidelines at the time of opening, and is built in collaboration with our union partners.

The health and safety of our students, staff, and families is of the utmost importance. When permitted to return in-person learning, on-campus school will look much different than previous years due to new health and safety measures. Our plan to reopen schools is based on current guidance from public health officials and state agencies and will be continually updated as the situation evolves. It is important to note that our District plans will focus sharply on academic instruction to enhance student performance and address learning loss.

Flexible model: Combination of teacher directed instruction and online learning; Teacher is planning and delivering content and instruction, Class time used for discussion and projects that synthesize information, Lessons/lectures through online videos students can access at their own time and pace, Choice in ways to practice and demonstrate understanding of skill/standard, Students pacing depends on mastery of skills/standards, Can be moved to a Full distance model if needed due to SIP.

Remote model: Online curriculum program is used to provide instruction to the student; Working closely with the teacher, the parent (or other responsible adult) serves as a "Learning Coach" to the child, helping to facilitate his or her progress and working to modify the pace and schedule as needed, Students work in a self-paced, asynchronous environment for most of the day, Teachers work as "case managers" who meet with students as needed to support learning, Synchronous time with teacher is used to answer questions, interact with other students, check in, do SEL activities.

Access to Devices and Connectivity

[A description of how the LEA will ensure access to devices and connectivity for all pupils to support distance learning.]

When schools suddenly closed mid March last school year, our technology department and site staff quickly developed a plan to hand out chromebooks to all students who needed a device at home. We determined need through surveys, teacher input, and family outreach. In addition to providing chromebooks, we gathered information about who had a lack of internet and connectivity and began to hand out hot spots.

During the 2020-21 School Year, AUSD will continue to ensure access to devices and connectivity for all pupils to support distance learning whenever it occurs, including:

- Provide Chromebooks to all students. 1:1 for all grade levels (K-12).
- Provide remote access to labs or provide laptops for CTE/digital course students (Adobe).
- Explore internet access for students lacking fast internet. Coordinating with the Alameda Education Foundation and internet providers.
- Design technical support model for staff, students, and parents. Web site (self help and guidance) and access to tech requests.
- Purchase Zoom or Google Meet licenses.
- Provide alternative technology available if needed.

Pupil Participation and Progress

[A description of how the LEA will assess pupil progress through live contacts and synchronous instructional minutes, and a description of how the LEA will measure participation and time value of pupil work.]

Our 2019-20 LCAP names our goal of eliminating barriers to student success and maximize learning time. In order to do this we have been working to improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism and decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates. The challenges that we now face, due to COVID-19 and the need to have flexibility between Distance and In-person learning have made us create some new systems to track attendance and participation. Compulsory attendance means that all students are expected to participate in school, including the teacher's live daily online instruction and the completion of assignments given by the teacher. Both of these elements are expected parts of attending school and, to comply with state law, AUSD will implement a new attendance taking system that tracks both daily attendance in live instruction and each student's ongoing completion of school work. We also know that we must continue to work towards creating engaging, culturally responsive, and rigorous learning through both synchronous and asynchronous lessons so that our students are excited to participate.

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

Weekly engagement

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)

Synchronous = 25

Asynchronous = 155

Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)

(M/T/TH/F)

Synchronous = 120

Asynchronous = 125

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 200

Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 150

Asynchronous = 95

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 165

Asynchronous = 150

Total = 315

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

How is weekly engagement data documented?

On Wednesday, the teacher will input data on the extent to which the student was engaged based on a scale of "0", "1", "2", "3", "4", or "5" for the week:

Weekly Engagement Score (Asynchronous & Synchronous student learning minutes for the week)

Grade K

0-179 mins = "0"

180-359 mins = "1"

360-539 mins = "2"

540-719 mins = "3"

720-899 mins = "4"

900+ mins = "5"

Grade 1-3

0-229 mins = "0"

230-459 mins = "1"

460-689 mins = "2"

690-919 mins = "3"

920-1149 mins = "4"

1,150+ mins = "5"

Grade 4-12

0-239 mins = "0"

240-479 mins = "1"

480-719 mins = "2"

720-959 mins = "3"

960-1199 mins = "4"

1,200+ mins = "5"

Daily Attendance

Each day (TK-5) and each class (6-12) teachers must record students present or absent in Aeries. There are various ways that students can demonstrate attendance:

- Live via web conferencing platform (i.e. Zoom, Google Meet)
- Online response form (i.e. Google Doc, Google Form)

- Blended learning platform login record
- Engagement (Participation) in an asynchronous assignment
- Email record of describing participation
- Phone/Voicemail record describing participation
- Attendance for asynchronous work is based on the student completing the assignment, not the grade value or how much time they spent on it.
- Students shall be marked absent if they do not engage in any synchronous or asynchronous class activity
- If a student submits assignments at any time during the day they are not absent

Daily Attendance Procedures Overview 2020-2021

- Daily attendance is required
- California Education Code section 4504 requires documentation of daily participation for each student, each school day, during distance learning.
- If a student is present during synchronous time, there is no need to confirm their asynchronous participation.

Introduction to the Procedures

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

When students are in Distance Learning, there are two ways that a student can be considered present for the day or the period:

Step 1:

Synchronous Distance Learning

- The student attends the mandatory live session (i.e. zoom, etc.) that has been scheduled for the day or period. Students are expected to participate with a visual attendance check in. If there is a barrier to a visual check-in, participation with auditory or chat features can suffice for documenting synchronous attendance. For the purposes of taking attendance, any participation in the scheduled session counts as attending synchronously.
- If teachers notice that students are habitually late or leaving the live sessions early, the teacher should follow up with the student or parent, or inform attendance staff to assist with follow up.

Synchronous attendance is recorded by the teacher of record (classroom teacher) each school day in Aeries during their live meeting with students or directly after. Each period for secondary students.

An attendance code must be entered for each student:

A – Absent, missed Synchronous Distance Learning live session

P – Present, attended Synchronous Distance Learning live session

Step 2:

Asynchronous Distance Learning

- Students who are marked absent (A - missed Synchronous Distance Learning live session) for the day or period, an alternative attendance code may be used to mark the student present if the student attempts or completes independent activities on that attendance day.
- The student must complete an assignment or assessment that has the equivalent time value of the day or the period. Assigned activities should be chunked into daily work for this purpose.
- The teacher must verify that the student has completed the work during that attendance day by reviewing the work submitted by the student, or by engaging with the student or their parent/guardian to verify completion of the activity.
- If a student is unable to complete an activity, but the teacher is able to engage the student or their parent/guardian on that day to discuss and try to resolve the student's challenges, then the Asynchronous Distance Learning Present code may be used.

Teachers have one school week to go back and make an adjustment to document asynchronous attendance in lieu of an absence.

NOTE: Only a student marked 'A' absent should be updated.

L – Asynchronous Learning Present

When using the Asynchronous Present attendance code, the teacher of record must add a note when recording the student's attendance that specifies what type of engagement occurred:

- Time Value of Assignment (TVA)
- specify the online system where work was submitted or the type of assignment completed
- Student or Parent/Guardian Engagement (SPE)
- specify the nature of the communication - email, individual zoom, call, etc. with an explanation of how the teacher engaged the student in order to complete the assignment.

Weekly Attendance

Teachers must attest that attendance has been accurately captured in Aeries each week by reviewing their electronic attendance record each Wednesday for the prior week's activities.

At this time, all students who are still marked with a 'A' and have not met the Asynchronous Distance Learning requirement will have their record updated to:

K – Missed Synchronous and Asynchronous Distance Learning requirements.

RECORDING ATTENDANCE - EACH DAY/PERIOD

1. Synchronous Distance Learning Daily mandatory meeting.

Login to Aeries. In the left navigation tree choose ? Attendance

2. Check the appropriate attendance code next to the student's name to record Synchronous DL:

Synchronous Attendance codes:

P - Synchronous DL Present

A - Absent

Z - Tardy

Students who miss 30 minutes or more of the day's scheduled live meeting should be marked with a "Z".. Please discuss expectations around the importance of attendance with your students. If necessary, arrange a separate meeting with the student and/or parent/guardian if the student makes this a habit.

3. Asynchronous Distance Learning Daily Follow up:

For any student who was absent from Synchronous Learning, check to see if they met the Asynchronous work requirements and update attendance accordingly:

Asynchronous Attendance codes:

L – Asynchronous DL work completed

K – Asynchronous DL work attempted but not completed

4. Teachers must enter notes / remarks / comments for students who are being marked present with an asynchronous code. The note should be entered in the field next to the attendance code, and can be brief.

Samples:

TVA: 75 Minute Edgenuity assignment “Working with Molecules”

Student Contact: Met with student to review the “Working with Molecules” assignment

Parent Contact: Met with p/g to review the “Working with Molecules” assignment

For students who are absent from Synchronous meetings, are not attempting Asynchronous work and who you are not able to contact. Please leave the A – absence code and add a note in attendance. Sample:

UNC – unable to make contact. ParentSquare message, no response. No work completed.

VERIFYING ATTENDANCE AND ENGAGEMENT - EACH WEEK

1. Teachers will run the Weekly Attendance Report by Class each week to verify student attendance and engagement.

Teachers may see attendance codes the attendance staff have entered. Check the attendance notes or attendance log to see if there are questions about what is entered. Contact school sites attendance staff if there are any questions.

Attendance procedures for when there is a substitute teacher:

Substitute teachers should be provided with the teacher’s class roster and a copy of our attendance procedures. They should note attendance on the roster and submit it via email to the school site attendance personnel.

Grading

On June 8th 2020, the California Department of Education (CDE) issued general guidelines regarding reopening school’s during COVID19 and for the 2020-2021 school year. The considerations below are primarily adapted from this document’s guidance on grading. The CDE may further delineate grading requirements in the near future. The district will be moving to standards-based grading, which is in large part due to the urgency, especially in these times, for students to accelerate their learning towards the priority standards for each course.

During the 2020-2021 school year, our school and students will still be heavily impacted by the effects of the global pandemic. While accountability measures such as grading will return this school year, we still have students caring for siblings, parents who have lost jobs and are worried about meeting their family's basic needs, and worst case scenario, people getting sick. Even when families have their basic needs met, many are reporting increased anxiety and stress which will affect learning. While we are committed to ensuring one-to-one internet and devices for all families, we know that many people will still have slow internet or do not have a private quiet place to work in their homes. The world has shifted. We must be flexible and caring for all involved as we consider how to assess and provide fair feedback for students.

As we enter into this new reality, blended learning with a focus on standards must be at the heart of all we do, including assessment. This is a time to be creative with students, learn what interests them, and find new ways to make education relevant, engaging, fun, and meaningful. In addition, we need to communicate clearly and effectively with families and students about what students have completed as well as mastered. We must also ensure that we are clear and transparent on the priority standards for our course and how students will demonstrate mastery.

Standards-Based Grading helps reflect back to students (and their families) the degree to which they are mastering the Standards via assignments. In Elementary (TK-5) this was already in practice prior to COVID. In Secondary, we will use the following during COVID.

Grading Guidance

- Grading should be based on a student's progress toward mastery of standards. When letter grades are given they should correlate to the following:
- A Mastery - The student demonstrates an in-depth understanding of the priority grade level standard(s) by consistently completing advanced applications of the material
- B Proficiency - The student has mastered the complex, targeted knowledge for most/all priority grade level standards for the class
- C Meets Standard - The student understands the foundational material that supports the targeted learning, but is still working to master the complex material for priority grade level standards for the class
- D/Not Yet - Even with assistance from the teacher, the student does not yet understand the priority standards. A "NM" will be given for missing work until the end of the semester if mastery is not achieved.

School sites may need to discuss percentage breakdowns as they correlate to grades.

- Grading for English Learners should also take into account their progress towards the ELD standards. If a student is not yet meeting a content standard but making progress to the next level of ELD proficiency they may still receive a passing grade.
- Assessment for students with IEPs must be appropriately modified and accommodated.
- Grades should be recorded and communicated through Aeries. Narrative grading should be used when possible.
- All grades must have standards-aligned evidence as the basis of the grade in order to ensure clear communication with students and families who have questions or need additional support in understanding their progress towards mastery and grades.
- The lowest cumulative grade a student can receive for each term will be a C for Middle School and a D for High School (all students not meeting the requirements for these grades will receive a "No Pass" if no work was turned in or "Not Yet" mark if they have shown no evidence of mastery in the work turned in).

- All students will have the opportunity to revise and resubmit work to show mastery towards literacy standards by the end of the course.

AUSD is in a rapidly changing educational environment and the administration will hone and refine the district's response to the pandemic as circumstances change and new information becomes available. Key variables that will influence decisions about grading practices include, but are not limited to, length of school closure; new guidelines from the CDE; new policy from the Governing Board; decisions made by colleges and universities; and changing health and safety conditions in the community.

Distance Learning Professional Development

[A description of the professional development and resources that will be provided to staff to support the distance learning program, including technological support.]

Our 2019-20 LCAP names that we must eliminate barriers to student success and maximize learning time, support all students in becoming college and work ready, and support all English Learners in becoming college and work ready. We knew that in order to continue growth in these areas, we would have to support our teachers and staff to learn new skills to use during Distance Learning.

Teachers, Paraprofessionals, and other staff began the year receiving professional learning through a 4 day August Learning Conference. It was structured to model best practices in Blended Learning. Teachers and other staff participated in new learning connected to using online platforms and learning management systems, focusing on priority standards, and strong trauma informed engagement practices so that they build skill and understanding of Blended Learning and Distance Learning practices. The conference learning took place through direct synchronous instruction, cross-site collaboration, grade level/content level collaboration, site level discussions, individual preparation time, and self-paced asynchronous learning.

Teachers will have collaboration/professional development time every Wednesday. This time will be utilized for completing their educational activities and trainings within the categories of student instruction (in-person or virtual), district organized professional development, teacher prep time, and common planning time to meet student outcomes as determined by district priority standards, LCAP, SPSA, and WASC goals.

Monthly collaboration/professional development schedule

Week 1: Site Level Collaboration

Week 2: Home (Cross-Site) Collaboration

Week 3: Site Level Professional Development

Week 4: Community of Practice- Anti-racist educators

Week 5 (if necessary): Unit Member directed Collaboration

Paraprofessional Training: A Learning Conference was also held for Paraprofessionals before school began to assist with their support of students in distance learning. Training curricula called Master Teacher and Behavior University have also been purchased to assist with professional growth throughout the school year. Education Specialists will guide paraprofessionals in the supports that they provide. For Moderate Severe (M/S), students, paraprofessionals will participate in classroom meetings with the teacher and related services staff to plan

supports for students based on student progress data. Finally, training will continue to be provided for M/S paraprofessionals in Applied Behavioral Analysis practices.

Staff Roles and Responsibilities

[A description of the new roles and responsibilities of affected staff as a result of COVID-19.]

With the Covid-19 pandemic and school closures, all site staff, as well as district staff, have had to change the way they do their job in order to respond to the uniqueness of needs during this unprecedented time. In March 2020, all schools and district offices in Alameda Unified School District, as well as many districts in the state, were abruptly closed. Teachers and other school staff had to respond instantly because every passing school day students were at risk for learning loss. Teachers and staff did respond and adapt to this uncharted territory with new roles and responsibilities in nearly all aspects of their job. Specifically, with the creation of two distinct programs, the Remote Program and the Flexible program, staff have had to adapt to changes in how we support our students, staff, and families. We continue to adapt, and roles and responsibilities continue to evolve as we proceed through this school year. Some of the new staff roles and responsibilities during the time of COVID-19 are reflected below.

Remote Program:

Remote Principal:

- Ensure all staff have the ability to provide remote learning access
- Ensure all families have access to remote learning opportunities
- Facilitate coordination between Remote School staff and Home School staff

Remote teachers:

- Act as teachers who case manage students' courses and also provide academic support providers to assist them in achieving success with the online curriculum.
- Meet with students individually or in small groups to provide tutorials necessary for students to successfully complete the online curriculum.
- Communicate regularly with both the Learning Coach (family member) and students to support students' success.
- Communicate regularly with "home school" point of contact to inform them of student progress.
- Build relationships with families to support all students in their academic successes.
- Students will have interaction with teachers on a daily basis along with progress meetings, parent/teacher workshops, emails and other contact with the teachers.
- Review student data and coordinate small group instruction based on need.

Specialists:

- Elementary Media/Library, PE, and Music who had provided enrichment during teacher preparation time to students pre-COVID were moved into classroom teaching positions to accommodate our Remote program.

Staff new to AUSD during COVID-19:

- All onboarding and professional learning was done virtually and focused on the use of our systems and technology.

Flexible Program:

Teachers and Classroom Instruction: In the Flexible model, learning, engagement is much more difficult. Teachers will need to develop new strategies to capture students' attention and keep it. The lessons will need to be short but more focused. Teachers will be required to contact students and/or parents/guardians as a part of their duty day to re-engage and/or offer clarity. Teachers will be required to provide extra support for students who have experienced or are at risk for learning loss. Teachers now have blocks of time to arrange strategy groups of students who need this additional support. Rather than posting the daily schedule on the white board, teachers will post on the learning management system, and track the value of time for their assignments. Teachers will need to navigate situations with parents in the room either asking them to get more involved or to give their child more independence. Teachers will need to modify events such as back to school night, moving to an online method. All materials and assignments will need to be modified for access in these new models.

CTE pathway teachers have received materials and technical support to help them to adapt their courses to be able to provide high-quality instruction for students enrolled in the Flexible program.

Special Education Teachers: SpEd Teachers will need to work with their students in a new way. When students can not connect in person with their teachers, it is harder for teachers to build relationships and trust. This will be even harder for some of our students with special needs. Online conferencing platforms can be off putting for many students, and some will refuse. Special Education teachers will have to be masterful communicators and strengthen their skills to increase student participation and engagement.

Principals: Communication and outreach will become a major part of the principal's job. In distance learning principals will need to monitor attendance in a school wide system differently. The principal will need to set up a system for tracking participation school wide, and school specific strategies for re-engaging students. Principals will now be required to communicate weekly with the parent community and differentiate messaging across multiple platforms. They need to ensure that all students have access to the technology needed for DL/hybrid learning. They will need to supervise teachers by attending online conferencing sessions and offer feedback. They will monitor learning management systems, and assessments. They will change staff meetings to an online platform and provide opportunities for teachers to maintain positive relationships with each other.

Site Office Staff: School Administrative Assistants or attendance staff will continue to monitor attendance and respond, but this will also change to adapt for distance/hybrid learning. Reminders to teachers to document, new coding procedures, and outreach will change. Attendance is now multi-faceted, joining a Zoom session alone will not suffice. When a student is ill, staff will have to proceed according to the Alameda County guidance. Parents will have limited access to the school, so all registration procedures have been changed to online.

Custodial: During distance learning the custodial staff roles and responsibilities will be more focused on disinfecting staff used areas, keeping an inventory of masks, gloves, and disinfectants for use by staff who are on site. Staff will work on preparations for opening in a hybrid model

including relocating desks and chairs. They will be responsible for modeling the social distancing, mask wearing, and representing the current health safety requirements.

School Psychologists: School Psychologists will gather and analyze available assessment data in order to provide guidance on determination of special education eligibility if possible taking into consideration shelter in place and social distancing. They will complete assessments to the extent possible within the mandated IDEA timelines. In addition, they are supporting case managers and students with socio-emotional support.

Nutrition Services Staff: Some staff worked over the summer at central locations providing meals for our students. This school year, while in distance learning, instead of working out of their usual sites preparing breakfast and lunch for students, they are stationed at centralized locations distributing grab and go meals to all AUSD students.

District Nurse: Responsible for collaborating with state and local health departments to update emergency operations plans for all sites.

District Administrators: Many District administrators including and staff worked beyond their work calendar in order to create plans for distance learning including professional development plans, technology plans, and plans for assessment. Their jobs continue to focus on providing support for teachers instructing in a distance learning environment.

District Office Staff: Staff are able to continue supporting the schools by working from home with some opportunities to work from the District Office as permitted.

Both Flexible and Remote:

Attendance and Participation Tracking: Teachers will be responsible for monitoring attendance in a whole new way. Attendance is no longer a simple operation as it was in the past with “present,” “absent,” or “tardy.” Attendance now is defined by student participation by logging onto online sessions, completion of assignments, completion of assessments, and parent/guardian and/or student contact. Teachers will be required to keep systems for tracking daily participation and will be required to input this data into Illuminate weekly.

Teaching and Learning Department:

The Teaching and Learning department made some position shifts that were not specifically related to COVID-19 but in order to align better with the needs of our sites. While the changes were not based in a response to COVID-19, these positions, as with all in our district, had to adapt to the shifts and needs of our schools sites during COVID-19.

The TK-12 Language and Literacy Coordinator specifically focused on English Language Development and organizing our programming for our English Language Learners, this position supports academic language development across content TK-12. This position is paying special attention to supporting school sites with the needs of our English Language Learners during Distance Learning and working with the Instructional Coaches to develop plans to support individual students needs.

The TK-12 STEAM Coordinator focuses on Science, Technology, Engineering, Arts, and Mathematics instruction across the district.

Language and Literacy Coaches work closely with school sites to analyze curricular resources connected to our AUSD priority standards, and plan for how to teach these units and lessons in the context of blended and flipped learning, backwards plan Structured Discourse from Language Objectives, develop a capacity for self-study and continuous improvement through reflection on instruction and student data, with a focus on ELLs, students w/ disabilities, and black students.

Supports for Pupils with Unique Needs

[A description of the additional supports the LEA will provide during distance learning to assist pupils with unique needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness.]

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In order to address this disproportionate impact, we have worked to support our students in the following ways:

Foster Youth:

Improve our communication connected to the needs of our students in Foster care. This includes: Immediate enrollment; district/school connection and communication with County case manager; high school guidance and communication around AB 167/216 grad requirements.

AUSD's Foster Youth Liaison collaborates with Alameda County child welfare social workers, Alameda County Probation officers, Alameda County courts, and East Bay Children Law Office in order to minimize school placement changes, provide needed supports, and improve educational outcomes for Foster Youth. All Foster Youth are ensured immediate enrollment, regardless of the availability of required documents (ex. Immunization records, birth certificates, transcripts, etc.). AUSD's Foster Youth Liaison also provides training to district enrollment staff, site office staff, Intervention Leads and school counselors. Training topics include information on specific education laws that are specific to foster youth, when and how to notify the Foster Youth Liaison when there are concerns, and policies around graduation requirements outlined in AB 167 / AB 216.

McKinney Vento Homeless Youth:

Continue to provide differentiated support for our students experiencing homelessness: AUSD's McKinney Vento Liaison works closely with and provides training to enrollment staff, office staff, intervention leads, and school counselors to identify students who are experiencing homelessness and provide them extra support. If the youth is enrolling in the district, they are enrolled immediately regardless of being able to provide required documentation (ex. immunization records, birth certificates, transcripts, etc.). When a youth is identified as qualifying for McKinney Vento services, the liaison conducts an intake with the family. Needs are identified and resources are provided. All McKinney Vento youth are provided with AC Transit bus passes for transportation when the district is able to provide in-person instruction and backpacks filled with school supplies. Additionally, all McKinney Vento youth are enrolled in the Free and Reduced Lunch program.

McKinney Vento families are given referrals to: Alameda Food Bank for food access; Alameda Family Services Family Support Center for case management and assistance in enrolling in CalFresh, MediCal, and other assistance programs; Homeless Action Center for legal assistance; All Good Living Foundation for shoes, clothing, toiletries, and hot food delivery from local restaurants; Dine and Connect information about the faith based organization that host dinner and information for homeless; Safe Parking and Day Center information where homeless families can do laundry, charge their phones, watch TV, and have a safe place to park at night and be supported by Village of Love social services; and City of Alameda Homeless Hotline for additional resources that are provided by the City of Alameda. Intervention Leads at each school site do a weekly data review on their McKinney Vento youth to ensure attendance, engagement, and school success. High school counselors meet with their McKinney Vento families to discuss and review eligibility for reduced credit requirement graduation per AB 1806.

Immediate enrollment; transportation (via bus passes); enrollment into Free-Reduced Lunch program; Backpack and School supplies at the beginning of the school year and at the midpoint of school year (after winter break); referrals to social service and health agencies that address specific needs; Holiday toy drive recipients; secondary school counseling regarding AB 1806.

Pupils with Exceptional Needs:

Create an Individualized Education Aligned Plan to be followed during Distance Learning for students with IEPs. The District has planned to provide Student's operative IEP to the greatest extent practicable, through a combination of in-person and distance learning in the "Flexible Model" or distance only learning in the "Remote Model". As indicated in the contingency "IEP Aligned Plan" with components required by Senate Bill 98, the following information regarding services are delineated: access to the general curriculum, specialized academic instruction ("SAI") based on areas of need, related services, accommodations and modifications, supplementary aids and services, transition services (e.g., in effect when Student is 16 years of age or older or younger if deemed appropriate by the IEP team), and extended school year services where appropriate, to be implemented during an emergency. Please be aware that the educational placement and services made available during the time frame of "emergency conditions" are not stay-put, and upon termination of the emergency Student's stay-put IEP is the most recent IEP with parental consent. Please note that some distance learning or related services will involve small and large group learning, meaning other students might be involved in the same instructional or related services activities. Educators and service providers will communicate schedules with individual parents based upon the students' IEP.

Additional Summer Instruction: In the summer, any student with an IEP in AUSD can access additional instruction to address learning loss and assist with recovery. Small group sessions for academics as well as social emotional learning and mental health were provided 4 afternoons per week by District Education Specialists and a Board Certified Behavior Analyst, following Extended School Year in the morning. The Adaptive Physical Education teacher enhanced wellness sessions with online movement games that students and families participated in. Over 40 students requested the program. In the summer, research-based curriculum for online Lexia reading intervention was piloted and received well by staff and parents. The Lexia program was purchased and will be extended to all Mild/Moderate Education Specialists during the 2020-2021 school year. Teachers were trained in a session held during the August Learning Summit held for staff for 4 days before students returned to distance learning.

Additional Fall Instruction: Similar plans are being made to provide students with IEPs across the district additional instruction to support learning loss. This opportunity will be announced soon after the school year begins.

Research-based Curriculum: The special education team reviewed various online instructional curricula to determine programs that would best support learning loss during COVID, including those programs previously used augmented with new programs.

New and continuing curricula include:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

Assessment and Evaluation: Assessment is critical to determine students' learning needs following a period of Shelter-in-Place last Spring. Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans. Assessment efforts include: (1) Training of teachers in STAR benchmark assessment system; (2) development of a plan for addressing assessments due last Spring and coming due in order to inform instruction and annual or triennial IEPs. Temporary NPA Psychologists were hired to complete assessments in the interim until assessments can be completed.

IEP Aligned Plans (IAP): Contingency plans as defined by SB 98 to address student needs for instruction and related services that align with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

Individual Education Plan (IEP): Initial, annual and triennial IEP meetings will continue as prescribed by the Individuals with Disabilities Education Act (IDEA), to provide students an offer of FAPE when schools return to typical times, while also providing an opportunity to discuss emergency plans per Senate Bill 98.

English Language Learners

Our LCAP names that we will support all English Learners in becoming college and work ready. Our vision for English Language Learner (ELL) success certainly includes mastery of Academic Language skills. But the ultimate goal for ELLs is

joyful and fulfilling participation in the community and the world. It is precisely by working towards this goal in our schools and communities that ELLs will have the most powerful opportunities to use, develop and master rich and complex language.

English language learners have been disproportionately impacted during distance learning by losing English language exposure at school and interactive experiences with peers that assist with English language development. We will be intentional in giving English learners opportunities for additional support.

Teachers will continue to deliver Designated English Language Development, except that what they do will now need to be done in a virtual classroom. Time blocks are embedded in our Distance Learning plan so that elementary teachers will be able to pull students into small groups for Designated ELD instruction, and our secondary ELD teachers will continue to have class periods for Designated ELD instruction. The times for instruction do not interfere with ELL students’ access to Tier 1 instruction. We will continue to use our adopted ELD instructional curriculum and materials as well as supplemental resources provided to all students, such as Raz, with access to leveled texts and reading records, and myON (similar), as well as Imagine Language & Literacy, a tech-enabled, adaptive program for all our ELL students in the Remote Program and our Newcomer students in the Flexible Program. This additional purchase was prioritized for our Remote Program students because the Remote Program is more self-paced and independent, and want to make sure students have additional opportunities to practice and demonstrate their Speaking and Listening skills. Newcomer students were also prioritized given their need for additional supports.

Teaching & Learning coaches will support general education teachers with integrating EL strategies into their instruction and providing added supports and scaffolds for English learners in order to support the development of Academic Language skills. This year, we’ve narrowed our EL strategies to our district-wide “Daily High-Impact Language Practices,” for which we will provide initial training and ongoing support. Middle and high school teachers will also continue to use Constructing Meaning strategies modified for online learning.

Pupil Learning Loss

[A description of how the LEA will address pupil learning loss that results from COVID-19 during the 2019–2020 and 2020–21 school years, including how the LEA will assess pupils to measure learning status, particularly in the areas of English language arts, English language development, and mathematics.]

During the 2019-20 school year, students participated in Distance Learning for the last three months of school. During that time, we observed variance in participation rates. As we begin the 2020-21 school year, it is important to determine how COVID-19, distance learning, and participation rates affected the academic mastery of our students. AUSD intends to administer the Star Reading K-12 and STAR Mathematics Assessments K-5, and the Mathematics Diagnostics Testing Project (MDTP) 6-12. Currently, three administrations are

scheduled: Fall, Winter, Spring. The Fall administration will function as the baseline to both observe growth during the 2020-21 distance learning program and ascertain potential opportunity gaps created by the pandemic. Data from Fall will be disaggregated into student groups, grade levels, and school sites. Site leaders and teachers will have access to individual student scores to plan interventions. Scores will be compared to previous average scores for the Fall administration of the Star assessment and MDTP for students who took them at that time. For students who have Individual Education Plans (IEPs), individual learning loss will be assessed based upon assessments, accommodations, and/or modifications articulated in the Individual Education Plans (IEPs).

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In addition, our LCAP names that we will increase capacity and systems for data-driven improvement. In order to continue to do this we must implement an academic diagnostic/screening tool so that we can increase the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports. With this data available, learning loss will be addressed in both our remote learning program and our flexible learning program models with built in time for teachers to hold equity based small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. In the next session our systems and strategies are described in more detail.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: MDTP - The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

In TK-5, we developed the Equitable Start schedule to allow teachers to get to know their students, families, and assess students' specific needs in order to inform their instructional planning. Teachers will use information from these meetings to create specific Tier 2 and 3 small group learning experiences.

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning

- Weekly engagement review

- Connections with parents and families to learn of student needs
- Teacher created assessments

English Language Learners will receive Designated ELD for 30 minutes a day and Integrated ELD through daily content

Based on the needs of students, teachers will work with students in small groups or one to one to provide Tier 2 and Tier 3 supports based on skills or standards mastery needs.

Pupil Learning Loss Strategies

[A description of the actions and strategies the LEA will use to address learning loss and accelerate learning progress for pupils, as needed, including how these strategies differ for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils experiencing homelessness.]

Learning loss will be addressed in both our Remote and Flexible learning models For both our remote learning program and flexible learning program models grades TK-12, time will be embedded in the schedule forwith built in time for teachers to hold equity based Tier 2 and Tier 3 small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. This time is for the purpose of providing additional support to students who most need it. Teachers will track student progress and review during Wednesday professional learning time. Staff will have structured collaboration time to engage in improvement cycles including reviewing student assessments, planning instructional shifts and strategies based on data, establishing clear outcome goals, debriefing lessons as a team, and reflecting on their practice. All of this will be done electronically, using a video conferencing platform if in the distance learning model.

In addition, sites will track achievement data and meet in Coordination of Services Teams (COST) to coordinate potential services for students performing below grade level standards. COST can consist-- Academic services include small group targeted instruction consisting of strategically placed students. These small groups of students will be assessed to determine growth in six week cycles. If a student is not making progress, COST will collaborate to regroup students and try different researched based interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students performing below grade level, but also our most vulnerable students including low socio-economic students, English learners, foster youth and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well.

We know that the burden of school changes has fallen disproportionately on students with greater needs and they will undoubtedly need more focus and attention. Based on Distance Learning in the spring, families reported experiencing anxiety about learning loss in their students with disabilities, difficulty keeping their students engaged in the virtual environment, worry about their students' social-emotional state, and frustration with not being able to receive some in-person services detailed in their IEPs. In addition school closures upended many students' Individualized Education Plans (IEP). In AUSD, our Special Education Department is working proactively to respond to the Covid-19 pandemic and what it means to provide continuity of learning during this time of distance learning. For special education students in AUSD, the IEP team will use the Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans for each student with an IEP. The IAP does not change the district's offer of a Free and Appropriate Public Education (FAPE) to students. These "Contingency" plans as defined by SB 98 to address student needs for instruction and related services that align

with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: Math Diagnostic Testing Project-MDTP- The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning:

- Weekly engagement review
- Connections with parents and families to learn of student needs
- Teacher created assessments

Assessments will be administered on an ongoing basis, The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

Kingmakers program:

Kingmakers of Oakland (KOO) provides Khepera Curriculum consulting to Chief Academic Officer. Khepera Curriculum consulting will support the implementation of the "Mastering Our Cultural Identity: African American Male Image" course at four AUSD school sites. Chief Academic Officer will participate in the KOO Learning Collaborative - Strategic Planning and implementation with Cross Functional, Intergenerational Team to address the systems, structures, conditions and culture that leads to improved educational outcomes for African American Male (AAM) students from Pre-K to 12th grade.

Summer programming

High School Credit Recovery:

Credit Recovery is an independent study course that gives students the time and support to complete course work required to receive a passing grade in a course needed for graduation or college eligibility. Credit Recovery can be accomplished through an accredited online learning platform. Select courses also meet the University of California's "a-g" requirements. High School students can take self-paced courses through the online platform that make up credit deficiencies for high school graduation. Students may work online at their own pace throughout the semester and must check in frequently with their summer program instructor (a credentialed AUSD teacher) in order to take exams and receive credits for each course. Credits earned will be posted on the student's AUSD transcript.

Elementary Summer School (TK-5):

Our Title 1/ELD summer program serves 200 students and is geared towards supporting English Language Learners and students who receive Free or Reduced lunch. Traditionally 4 weeks long, students receive reading instruction using Leveled Literacy Intervention, Math support through small group instruction, and ST Math and English Language development through integrated content.

Special Education Recovery:

1. We must address recovery per SB 98. The STAR assessment is being utilized to measure student regression areas and/or progress areas.
2. Additional Instruction was piloted in the summer months and went well per staff and parent interviews. Research-based online curriculum was applied (e.g. Multi-Sensory Reading through Lexia). Students were instructed in small groups (up to 4 students) in the areas of English Language Arts, Mathematics, and Social Skills. Any parent could sign up their student.
3. Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.
4. Additionally, we are now researching if we can offer "Learning Hubs" or in-person instruction with precautions to Moderate/Severe students. This is being explored at this time with Cabinet and the SELPA.

These opportunities are important to provide in order to respond to demands for compensatory time that have come or may come from the Spring Shelter-in-Place period. If a demand is made, parents could then be invited to join Additional Instruction Sessions and/or "Learning Hubs" if learning hubs are deemed safe.

Effectiveness of Implemented Pupil Learning Loss Strategies

[A description of how the effectiveness of the services or supports provided to address learning loss will be measured.]

As discussed in the previous sections, the Star Reading and Math as well as MDTP assessments will be administered three times throughout the year. The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

In addition, Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and Attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

The COST coordinates academic services for students performing below grade level standards in literacy and/or math. Academic services include small group targeted instruction by the classroom teacher or a specialist teacher. These small groups of students will have ongoing assessment to determine growth in six week cycles. If a student is not making progress, the COST will collaborate to regroup students and try different interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students' academic achievement level, but also on their social-emotional wellbeing. The Team also focuses on our most vulnerable students including immigrant students, low socio-economic students, foster youth, and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well through counseling services, social groups, and focused behavioral and social-emotional interventions.

District Leadership and School Site Leadership teams engage in Cycles of Inquiry throughout the year, using multiple forms of data from the above assessments and observations to determine which strategies and systems are working well and which need to be augmented to better support our students, plan for the use of these strategies, implement the strategies, review through progress monitoring, and adjust as needed.

Actions to Address Pupil Learning Loss [additional rows and actions may be added as necessary]

Mental Health and Social and Emotional Well-Being

[A description of how the LEA will monitor and support mental health and social and emotional well-being of pupils and staff during the school year, including the professional development and resources that will be provided to pupils and staff to address trauma and other impacts of COVID-19 on the school community.]

School closures and social isolation have affected all students, but particularly those living in poverty. Adding to the damage to their learning, a mental health crisis may be emerging as students have lost access to services that were offered by schools. In this new school year, teachers will face a pressing issue of how to help students recover and stay on track throughout the year even as their lives are likely to continue to be disrupted by Covid-19. To assess and strategize with students and family, the following structures are set up in our distance learning program.

Social and Emotional Learning:

School site's Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

Teachers follow the predetermined protocol for referring students to COST, including logging all pre-referral interventions into AERIES. Intervention Leads will utilize the COST Data Tracker to monitor student referrals and progress through the COST process.

Attendance Monitoring (per SB 98):

- AUSD Tiered Attendance and Re-Engagement

Tools for Assessing Student Basic Needs:

- Monthly needs survey for students (two surveys developed - one for elementary and one for secondary)
- Monthly needs survey for families assessing food, housing, internet, mental health
- Monthly Family Survey: <https://docs.google.com/forms/d/1nbnDRN-nb4fOXVF26krQBps5kp4c84C3C92W43hwLuQ/edit>

If a student or family indicates via the monthly survey that they are lacking food, housing, internet or indicate a need for mental health services, they are referred to COST for coordination of services with outside agencies and case management.

Indicators That Mandate an Immediate COST Referral:

- Suspected abuse, neglect or domestic violence (This also necessitates a call to CPS)
- Self harm behavior
- Suicidal ideation (follow AUSD suicide prevention policy)
- Academic Need (Below 10th percentile in STAR)

During Wednesday Site level professional learning, in addition to a focus on using priority standards, professional development will focus on Restorative Practices, Trauma informed instruction, building relationships, and Social and Emotional Learning.

Pupil and Family Engagement and Outreach

[A description of pupil engagement and outreach, including the procedures for tiered reengagement strategies for pupils who are absent from distance learning and how the LEA will provide outreach to pupils and their parents or guardians, including in languages other than English, when pupils are not meeting compulsory education requirements, or if the LEA determines the pupil is not engaging in instruction and is at risk of learning loss.]

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)
Synchronous = 25
Asynchronous = 155
Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)
(M/T/TH/F)
Synchronous = 120
Asynchronous = 125
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 200
Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 150
Asynchronous = 95
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 165
Asynchronous = 150
Total = 315

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

After teachers have made the primary calls and attempts to reach students who students are identified who are not meeting the compulsory education requirements and are unable to reach them, students will be referred to the site Intervention Leader and/or Family Liaison so that they are able to follow-up, attempt contact via phone or home visit, and then refer to COST.

Family Engagement and Training:

In order to have quality and high impact Family Engagement we must ensure the following:

- Multiple channels for accessible communication and feedback
- Staff are trained on Family Engagement
- Common priorities are developed to support students needs (prioritizing in-person and asynchronous learning for students with highest needs)

August Family Learning Conference (via Zoom, Facebook Streaming, and videos) to help parents/guardians support their children academically, socially, and emotionally during the coming school year. Our goals:

- Overview of the Flexible and Remote Learning Programs
- Help parents/guardians learn how best to support their children during distance and remote learning
- Teach parents/guardians to use various educational technology programs
- Show parents/guardians how best to stay connected with AUSD and their school sites

Continued family learning opportunities for supporting student engagement:

- Education Services: Primary and Secondary Parent Presentations on Grade Level Standards
- Collaboration with PTAs, ELACs, Equity and Inclusion Committees to pivot into inclusive and equitable practices; including sharing of islandwide asynchronous learning opportunities
- Family and Community Liaisons supporting Title 1 and multilingual communities to navigate Flexible/Remote learning times. Including School Smarts in English, Spanish, Chinese, Arabic, Vietnamese). New Mongolian language affinity group starting!
- Capacity Development for site level School Site Council (SSC) Leadership and DELAC
- CAC (LCAP) leveraging community leaders to support our journey through this pandemic.

School Nutrition

[A description of how the LEA will provide nutritionally adequate meals for all pupils, including those students who are eligible for free or reduced-price meals, when pupils are participating in both in-person instruction and distance learning, as applicable.]

When the school year starts in distance learning, breakfast and lunch meals will continue to be available for purchase at full price, reduced price, or free, depending on eligibility. (We are still waiting to hear from USDA if they will extend its current waiver to allow free meals during the regular school year to all regardless of eligibility).

Meals will be available for curbside Grab-N-Go pick-up Tuesdays and Fridays 11am-12pm at the following locations beginning Friday, August 28:

- Academy of Alameda, 401 Pacific Ave
- Earhart Elementary, 400 Packet Landing Road
- Encinal High, 210 Central Ave
- Lincoln Middle, 1250 Fernside Blvd
- Love Elementary, 2025 Santa Clara Ave
- Paden Elementary, 444 Central Ave
- Ruby Elementary, 351 Jack London Ave
- Wood Middle, 420 Grand Street

Families will be provided multiple days' worth of meals at a time. Parents or guardians may pick up meals for their children and can pick up from any of the following sites listed above regardless of which school your child attends.

Alameda Unified School District understands that the COVID-19 pandemic has brought hardship for many families in Alameda schools. Your child(ren) may qualify for free meals or for reduced price meals for the 2020-21 school year. Applications are now open, and you can access them online at [MySchoolApps.com](https://myschoolapps.com) or on Alameda Unified School Districts website's Meal Applications page. For support, please contact our Food and Nutrition Services Office at 510-337-7079 or email us at nutrition@alamedaunified.org.

Additional Actions to Implement the Learning Continuity Plan [additional rows and actions may be added as necessary]

 Teen Parenting Program @ Island: \$141,490

 Grand Total \$4,928,360

[A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.]

The three-year Local Control and Accountability Plan describes the goals, actions, services, and expenditures to support positive student outcomes that address state and local priorities. The LCAP provides an opportunity for local educational agencies (LEAs) to share their stories of how, what, and why programs and services are selected to meet their local needs. Enacted along with California's Local Control Funding Formula (LCFF) regulations, the LCAP includes the requirement that districts outline their use of LCFF Supplemental and Concentration grant funding. These funds must be used primarily to serve unduplicated students. Unduplicated students are those students that are Socioeconomically Disadvantaged or English Learners. As a district with less than 55% unduplicated students, AUSD does not receive Concentration grant funding. AUSD does receive supplemental grant funding. This funding is used for centralized actions/services as well as distributed to sites for site-based unduplicated student supports.

AUSD allocates a significant portion of its LCFF Supplemental funding to school sites on a per-unduplicated pupil basis. The remaining LCFF Supplemental funds are retained at the central office level and used to enact broader actions/services such as supplemental resources for English Learners and provide specific services to school sites via targeted funding. This targeted funding includes actions/services such as the restoration of afterschool programming at selected sites with high unduplicated populations.

Regardless of the program (Flexible or Remote), we know resources including time are scarce. Focusing our district will allow us to deepen our support and practices to ensure we make the most of our time with students.

During the 2020-21 School Year, our Academic Guidance has a specific focus on the following:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards
- We integrate social emotional and trauma-informed approaches as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning

We have an intentional focus on creating access for our students, specifically our foster youth, English learners, and low-income students. We know that if we are focused on student talk, equity and rigor, we will be able to create successful outcomes for our students.

STAR Renaissance Assessment System: - Star Early Literacy, Star Math and Star Reading were purchased for all elementary and middle schools and MyOn access to online reading materials from Renaissance Learning - assessments to be given on multiple occasions throughout the school year. Prior to the 2020-2021 school year our district had purchased Renaissance Star Reading and Math for middle school, Star reading for 4th and 5th grade, and some star early literacy, reading and math licenses for a couple of schools that "opted in" for giving it to 1st-3rd graders. Due to school closures in March and moving into distance learning without a clear learning plan for students, we know that there will be learning loss for many students, and most pronounced for our unduplicated students. Racial and socio-economic achievement gaps will most likely widen because of disparities in access to computers, home internet connections and direct instruction from

teachers. In order to measure this learning loss, our district will need a reliable assessment tool and plan for consistent assessment. This school year we have increased licenses to include the capacity to assess all students, K-8, in early literacy and/or reading, and math. This will increase services for elementary students.

Fountas and Pinnell leveled books: Online materials and resources were purchased to support students who need extra support in reading. Our literacy coaches and RTI teachers pull small groups to provide reading intervention. This support staff use data to inform which students need the extra support and isolate the focus of the intervention based on need. Interventions are provided in six week cycles with a pre and post assessment. Grouping and exit decisions are determined using data. A majority of the students in our intervention groups are students who are included in our district sub groups of Black/African American students, low socio-economic students, English learners, foster youth and homeless students, though all students in need of this targeted academic support benefit from this system.

Curriculum and Supports for students with IEPs are meant to support students at their individual learning level and are adaptive to their needs. For instance, both ISME Orton Gillingham and Lexia use a multi-sensory approach to support struggling readers. Among these curricula are:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

BrainPop EL (Flexible) and Imagine Learning (Remote): Our designated ELD curriculum allows students to explore language in playful ways so they gain lots of ways to express themselves in speaking and writing. When delivering ELD in distance learning it will be more difficult for students to show their understanding because of the less personal platform of video conferencing. In addition students will have significantly less opportunities to experience the realia and visuals used to teach ELD in this model. In response to the need for supplemental ELD support due to this changed method of teaching, our district purchased BrainPop EL and Imagine Learning as an extra support. These programs are comprehensive English language learning programs for students of all ages. The programs feature short, animated movies as well as games, quizzes, and interactive features. It encompasses the four main language skills: listening, speaking, reading, and writing. This extra support will give EL students extra time for engaging in English learning activities.

Alameda Island Kids (AIK) Program for Title 1 Elementary Students:

We have been able to partner with the AIK childcare program to provide 8-4 child care support to 28 of our most in need students from our three Elementary sites that receive Title 1 funding. During this childcare program students are given support with their synchronous and asynchronous learning, provided with enrichment, and provided with meals.

RE: AUSD Learning Continuity and Attendance Plan

Dear Superintendent Scuderi, President Bonta and Members of the AUSD Board of Education:

Thank you for providing ASPED Families with the opportunity to provide written feedback for the district's Learning Continuity and Attendance Plan (LCP) on how Covid-19 and school site closure has impacted over 1,000 students with disabilities currently enrolled in Alameda Unified public schools. We have included many direct quotes from families to help humanize the loss and frustration experienced by many of our students with disabilities. It is our deepest and most profound wish that our education leaders and community recognize the sacrifice families have made during these emergency conditions and respectfully ask for solutions to the problems identified in this letter.

This letter is broken into five parts. The parts included are:

1. Covid-19 impact for academic year 2019-2020
2. Covid-19 impact for academic year 2020-2021
3. Comments related to assessments for learning loss
4. Comments related to interventions for learning loss
5. General comments related to the Learning Continuity and Attendance Plan

COVID-19 impact for academic year 2019-2020 The LCP as currently drafted does not adequately describe the full impact on students with disabilities during the 2019-20 school year. During school site closure and spring distance learning, Alameda Unified suspended all special education IEP services, postponed IEP meetings that were previously scheduled, suspended progress monitoring of all IEP goals and suspended assessments used to requalify/qualify students for special education. In addition to postponing already scheduled IEP meetings, AUSD failed to follow 30-day timelines when parents requested IEP meetings to discuss the suspension of special education services and their concerns about the obstacles related to accessing the

District's new distance learning program. Once IEP meetings resumed, the District would not honor requests by parents to discuss their concerns about accessing distance learning in IEP meetings during the 2019-2020 academic year. This decision by the district, denied communication and collaboration afforded by the IDEA to parents/caregivers and students with disabilities.

The impact of these unilateral decisions made by the District vary from student to student and family to family. However, there are several consistent themes conveyed by families during this time period. There are as follows:

1. Failure to provide services as specified in IEPs (even virtually), led to regression in behavior, social and emotional and academic skills while attempting to access distance learning as observed by parents and caregivers. 2. Frustration, fear and sadness for parents who found themselves having to fill school-based staff responsibilities (ex. speech and language pathologist, physical therapist, special education teacher, occupational therapist and paraprofessional) while simultaneously working full-time. 3. Worry and anxiety for the future academic, social and emotional, and behavior trajectory of their student including transitions from prek to elementary, elementary to middle school, middle school to high school, and high school to transition services. 4. Feelings of hopelessness when the District suspended primary communication and collaboration avenues (scheduling IEP meetings) to have parents' concerns heard and addressed. 5. Feelings of frustration from parents of students with disabilities grades Prek - 2nd grade and the expectation to access distance learning through chromebooks when keyboards and the delivery of learning through zoom and other websites aren't developmentally appropriate. 6. Students with classic autism, high anxiety and related attention and behavior needs were unable to maintain attention during Zoom meetings, follow teacher directed whole class instruction independently or with virtual support from a paraprofessional, and complete the assigned activities even with modifications by the special education teacher in the home environment.

The District supplanted services with "tailored supports" but these "tailored supports" were not IEP services delivered virtually. Instead, these "tailored supports" included:

- Office hours by service providers and case managers where no instruction or interventions were provided.
- Unspecified accommodations for students that were designed without discussion or consent from parents and outside the purview of IEP teams and IEP meetings.
- Supplanted evidenced-based and district approved curriculum (such as Transmath and Language Live) for students placed in Intensive Academic classrooms with non-evidenced-based and inappropriate online curriculum such as Moby Max.

"I felt pretty much abandoned last spring. My 2nd grader got zero speech and OT time once distance learning went into effect. Our speech therapist uploaded a bunch of stuff to google classroom basically shifting the responsibility of implementing the "therapy" to parents.

While special education services resumed this fall, all of it is in virtual small groups and not all that helpful. The time spent with a special education teacher has been significantly reduced compared to the SDC class had my student been able to remain with his classmates. Based on our own family circumstances we applied and accepted the remote program in order to reduce the risk to Covid-19. Unfortunately there isn't an equivalent virtual SDC classroom for my student to get the level of individualized support he needs.

I sometimes feel overwhelmed."

Parent of a SpEd 3rd grader in Remote Program

COVID-19 impact for academic year 2020-2021 The LCP as currently drafted also does not adequately describe the impact or potential impact of COVID-19 for the 2020-21 school year. The District has resumed IEP meetings and some related services and is monitoring progress towards IEP goals however, assessments related to requalifying and qualifying for special education have not fully resumed. In addition, the District's two models for distance learning (flexible and remote) have not virtually replicated mild/moderate or moderate/severe SDC classes that existed during on-site instruction. Based on these decisions made by the District, students with disabilities and their families have expressed the following concerns and observations:

1. There is a growing backlog of evaluations for special education. Families and students caught in this backlog have concerns about appropriate placement, services, goals, accommodations and supports their student needs in order to receive a free and appropriate public education (FAPE) with meaningful benefit. Without reliable special education evaluations, IEP teams cannot create meaningful IEPs for students who qualify. The longer this problem persists, the more students with disabilities risk being denied a FAPE.
2. Students with disabilities once placed in mild to moderate classes like Academic Strategies classes for math and ELA in HS and MS prior to Covid-19, have been placed in general education classes without the necessary support to complete assignments.
3. Elementary aged students with disabilities that were once placed in mild to moderate SDC classes during on-site instruction are placed in general education virtual classrooms in the remote program led by general education teachers.
4. Many students with disabilities continue to be unable to access all aspects of distance learning and virtual special education services including those with classic autism, physical impairments that require hands-on support provided by physical therapists and paraprofessionals, high anxiety, and attention related disabilities.
5. Parents and caregivers are observing that as part of the District's new

"IEP-aligned plans" their students with disabilities are receiving fewer services and in larger groups than during on-site instruction (i.e. 20 minutes of speech with 5 other students in a small group during distance learning vs. 30 minutes of speech with 2 to 3 other students during on-site instruction; or 40 minutes once per week, vs. 20 minutes twice per week).

"After 6 months of loss of meaningful speech, occupational therapy, and educational services, our family is looking to move out of state. The expectations of remote learning are unreasonable for mature elementary students, much less preschool 3 and 4 yr olds with special needs. The effects are devastating on behavior, with regressions commonplace. There is no way to work AND effectively assist a preschooler in virtual special education preschool. I don't even have childcare to be able to access the office hours for the therapists."

Parent of PreK

Student

3. Comments related to learning loss and STAR assessments The Learning Continuity and Attendance Plan (LCP) relies heavily on STAR data to quantify learning loss. This is not sufficient for a variety of reasons but the most important reason is that STAR data collected and going forward is typically compared to other STAR data from across the country. If every student is being impacted by COVID, then the entire data set is "lowered" for lack of better language. Because of this phenomenon, learning loss will likely be harder to quantify and identify with this type of assessment. We don't want to compare our current levels of student achievement to what's happening in other districts and communities across the country, especially for our students with disabilities. If the District collects STAR data and compares it to past data collected on the same

student, this might be useful in determining learning loss for our general education students, but not necessarily for our students with disabilities. STAR testing was not specifically designed with students with disabilities in mind but it is marketed and applied to students with disabilities regardless. Measuring learning loss for students with disabilities requires additional data, including:

1. Attendance, including time spent learning independently. This presents a challenge since many parents and caregivers are reporting that neither synchronous remote learning via “zoom” nor asynchronous independent learning time are accessible to their students. 2. Data from student IEPs, including comparing original baselines or last recorded progress information for IEP academic goals from the 2019-20 school year with baselines/progress data collected fall

2020-2021. If there is a regression in this data, then there should be intervention programs/practices put in place to help these students. 3. The intensive academic intervention curriculum (Transmath and Language Live), provides placement and progress monitoring assessments. This data should be collected and analyzed when determining learning loss. 4. The district has used the San Diego Quick and CORE reading assessments to determine baselines for students in reading. These should be named and considered as part of identifying learning loss. 5. There may be other assessments used district wide specifically for special education and if so, they should be named in the LCP.

On page 28 of the LCP under section “Special Education Recovery” it states that “Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.”

- Will instruction be offered for all academic classes or just math and reading?
- What staff will deliver the instruction?
- “Soon” is not specific enough. Please include a date when students will be identified and when instruction will start.
- What time of day will this instruction be delivered? How often will this instruction be delivered during the week?
- What is the duration for each session?
- Will this instruction be delivered 1 to 1 or in small group or both?
- How will parents know if this instruction is helping the student? What data will be collected and shared with IEP teams and how often will this data be collected?

“As a parent with 4 children we had no issues with school until our youngest with special needs started attending school. She is only 6 years old. We find the school team unsupportive. Our 6 year old has regressed due to SIP. AUSD only provides minimal support. The whole distance learning experience has been damaging. Our child cries and is so frustrated. We asked for a paraprofessional and were denied. We had to hire a tutor privately and other therapy in addition to an advocate. We receive less than 1 day notice of special education sessions. Our child needs advanced notice. This happens repeatedly.”

Parent of 4 children, 1st grader receiving special education services

4. Comments related to interventions for learning loss and increasing engagement during distance learning

We support Learning Hubs that provide in-person on-campus supports for students with disabilities unable to access distance learning in the home environment. Many of our most impacted students with disabilities are unable to access distance learning in its current format. 2. We support after class one-to-one tutoring especially in math for students currently not meeting pre-Algebra and Algebra requirements.

3. We support one-to-one tutoring for students with dyslexia to supplement the explicit, systematic, multi-sensory instruction (Structured Literacy) they receive during specialized academic interventions. 4. We support partnering with Non Public Agencies (NPAs) to provide in-home services when virtual services have been attempted and failure to engage the student has been observed repeatedly and persistently. 5. We notice that the LCP describes current practices and policies in place to support struggling students through MTSS. However, we anticipate an increase in the number of struggling students and an increase in the severity of the academic achievement gaps. It's unclear in the LCP if the District intends to use the funds to increase the scale of this program or the interventions available. If so, please provide the details that recognize the projected increase in the number of struggling students in tiers 2 and tiers 3.

“My son is a Sophomore at AHS and has auditory/slow processing disability. When the SIP happened his case manager/academic strategies teacher took a leave of absence and he didn't receive any support. This fall they forgot to put him in Academic Strategies and there hasn't been any support for him either. We are basically on our own. He is struggling with accessing and completing assignments. There is no support whatsoever.”

Parent of High School

Student

5. General comments related to the Learning Continuity and Attendance Plan

1. We are very concerned about the lack of specific details related to homeless and foster youth and the support they will be given to reduce chronic absenteeism and suspension rates. This specific population was underserved prior to Covid-19 as determined by the 2018 and 2019 CDE student group reports. In addition, homeless and foster youth need increased interventions for English Language Arts and Mathematics as determined by the same CDE reports. The District needs to name roles, funding, practices and programs that will address these long standing issues.

2. We are concerned about the increase in absences and the number of students dropping out of school during school closures. The LCP provides a detailed explanation of how the District intends to track and document absences however, it does not provide sufficient details on the policies, practices and programs designed to engage students with chronic absences and students who are dropping out. Students with disabilities fail to graduate at much higher rates than the general population. 3. Some families have reported that their case managers have not provided them with “IEP-aligned contingency plans” as specified in the District's communications. Sadly, some students have been attending distance learning for five weeks without a clear understanding of how their IEPs are being implemented. A few families in the remote learning program have reported not knowing who their student's case manager is. The reality shared by some families is

inconsistent with what's being described in the LCP. 4. On page 36, there are no specific details about how staff roles funded through

the LCP are defined and allocated based on ELL, foster youth, and low-income students. This includes the \$732,953 allocated for Instructional Coaches, \$158,283 for the Student Services coordinator and the Teaching and Learning coordinator for \$312,082. Did these roles exist prior to Covid-19? If so, how have these roles changed in order to meet the needs of our ELL, foster youth, low-income students with disabilities in this moment? 5. On page 36, there are site discretionary funds equal to \$324,114 without

explanation of how these funds will be spent in such a way that will effectively meet the needs of ELL, foster youth and low-income students with disabilities. 6. We request that a link to this letter be included in the final LCP.

We welcome communication and collaboration with the district and the board in order to meet the urgent and long-term needs of our students. We want to recognize and elevate the voices in our special education community as they advocate for dignity and respect during this time of distance learning. We stand as allies with English Language Learners with and without disability and refer to their letter for specific feedback.

Thank you for your consideration,
Heather Clapp Padgett and Christine Strena, Co-Chairs ASPED Families

September 30, 2020

Dear Members of PTAC,

Thank you for sharing your feedback on the 2020-21 Learning Continuity and Attendance Plan (LCP). We appreciate the time you took to provide such a detailed analysis.

The Learning Continuity Plan is not meant to be a substitute for the Local Control Accountability Plan (LCAP), which explicitly describes our program and budget for unduplicated students. Rather, the LCP is a snapshot of how our district responded - and continues to respond - to the pandemic. This does include how we plan to mitigate the impact of the pandemic on our students who meet the unduplicated criteria (Foster Youth, English Language Learners, and students who qualify for free or reduced lunch) as well as our students who have Individualized Education plans. While we plan to continue to focus on and respond to the needs of our most vulnerable students, full explication of those efforts is best saved for the next iteration of our LCAP.

Since March, we have worked hard to hold multiple types of engagements with our stakeholders to receive feedback on the best way to respond to the pandemic and support students learning during the 2020-21 School Year. We took this feedback and used it in all of our planning, including in crafting the Learning Continuity and Attendance Plan. While we believe that we engaged multiple stakeholders in this process, we do know that there are important ideas and feedback that must be incorporated into the final LCP.

Upon reviewing the PTAC sponsored feedback, we found there were some elements that absolutely can be incorporated into this year's LCP, other elements that should be addressed in our next full Local Control and Accountability Plan (LCAP), and some that will be better addressed specifically by AUSD's Special Education Department, as detailed below.

We have heard your concerns about ensuring that we are painting an accurate portrait of the impact of the pandemic on our students, specifically our students with special needs. We understand the specific and intense burden born by our students with disabilities under distance learning. We have listened carefully to the feedback provided by our families of students with special needs and done our best to respond to that feedback and alter our instructional programs as best we can under current health orders. We do not believe the LCP is the place to detail all of the dissatisfactions stated by these families, but we have added language that we hope captures the difficulties those families have experienced.

As detailed in the Prior Written Notice on [September 2, 2020](#), the District plans to provide students' operative IEP to the greatest extent practicable, whether the student is in the flexible or remote learning program, through students' emergency plans, called "IEP Aligned Plans". The IEP Aligned Plans delineate student needs and services during emergency times as required by Senate Bill 98. Parent input into the IEP Aligned Plan is welcomed through contact with their student's case manager. For concerns regarding access to any aspect of distance learning and virtual services and supports, parents should contact their child's case manager as soon as possible. Assessments for each student with a disability will be determined by their IEP. Both assessments and IEPs are currently underway. Additionally, instructional programming has been based on individual students' IEPs as written in the IEP Aligned Plans. We are pleased to hear that you support the idea of learning hubs. We believe that these

hubs will be able to address many of the concerns parents of students with special needs who are served in our Mod/Severe program have expressed.

In addition to addressing the above, we have added more detail to the LCP based on community feedback. We have added more to the section on mitigating pupil learning loss for our homeless and Foster youth. We have added more detailed descriptions of how we are supporting our English Language Learners and which online programs we are using to support their learning of Academic Language. In addition, we added details on how the Teaching & Learning program was re-structured last spring. Granted, that re-structuring was planned before the pandemic began, but we are including information on how the roles and responsibilities changed due to the impact of COVID-19.

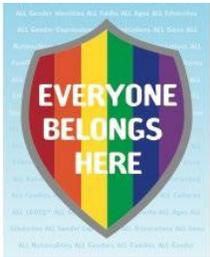

We plan to attach your feedback as well as our response to the LCP. We also plan to continue to hold engagements with our stakeholders this year to progress monitor our Learning Continuity Attendance Plan as well as re-start our Strategic Planning process. While we do not yet have clarity on next steps with the Local Control Accountability Plan, we know that our strategic planning must be directly connected to our overall plan for using our LCFF funds.

- Community Advisory Committee (CAC) meetings to review, monitor, and advise on Learning Continuity and Attendance Plan (9/29/20, 12/1/20, 2/2/21, 4/6/21, 6/1/21)
- District English Learner Advisory Committee (DELAC) meetings to review, monitor, and advise on the Learning Continuity and Attendance Plan (10/29/20, 1/7/21, 3/4/21, 5/6/21)

Specific engagement dates connected to our Strategic Planning will be announced soon.

Thank you for your continued engagement, partnership and feedback.

Pasquale Scuderi

Daily Attendance and Engagement

TIER ONE

Daily attendance is collected and monitored regularly for all students

Attendance Need

Intervention

Student is absent two days with no contact from guardian clearing the absence

- Attendance clerk calls home and documents the call in the attendance monitoring log. Daily absence call automatically generated (robo-call).

Student has unexcused absences three days, with no contact from guardian clearing the absence

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian.

Student is absent for four days, with no contact from guardian

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian again.
- Wednesday teacher (advisory teacher/home group teacher) calls other contacts on the student's record (including emergency contacts) and documents these attempts

TIER TWO

Student is absent for five days with no contact from guardian

- Teacher submits COST referral through AERIES and continues daily outreach to guardian through Parent Square
- Teacher will present all documented outreach to the COST team for review

- [Sample Script for Teachers Calling Parents/Guardians and Emergency Contacts](#)

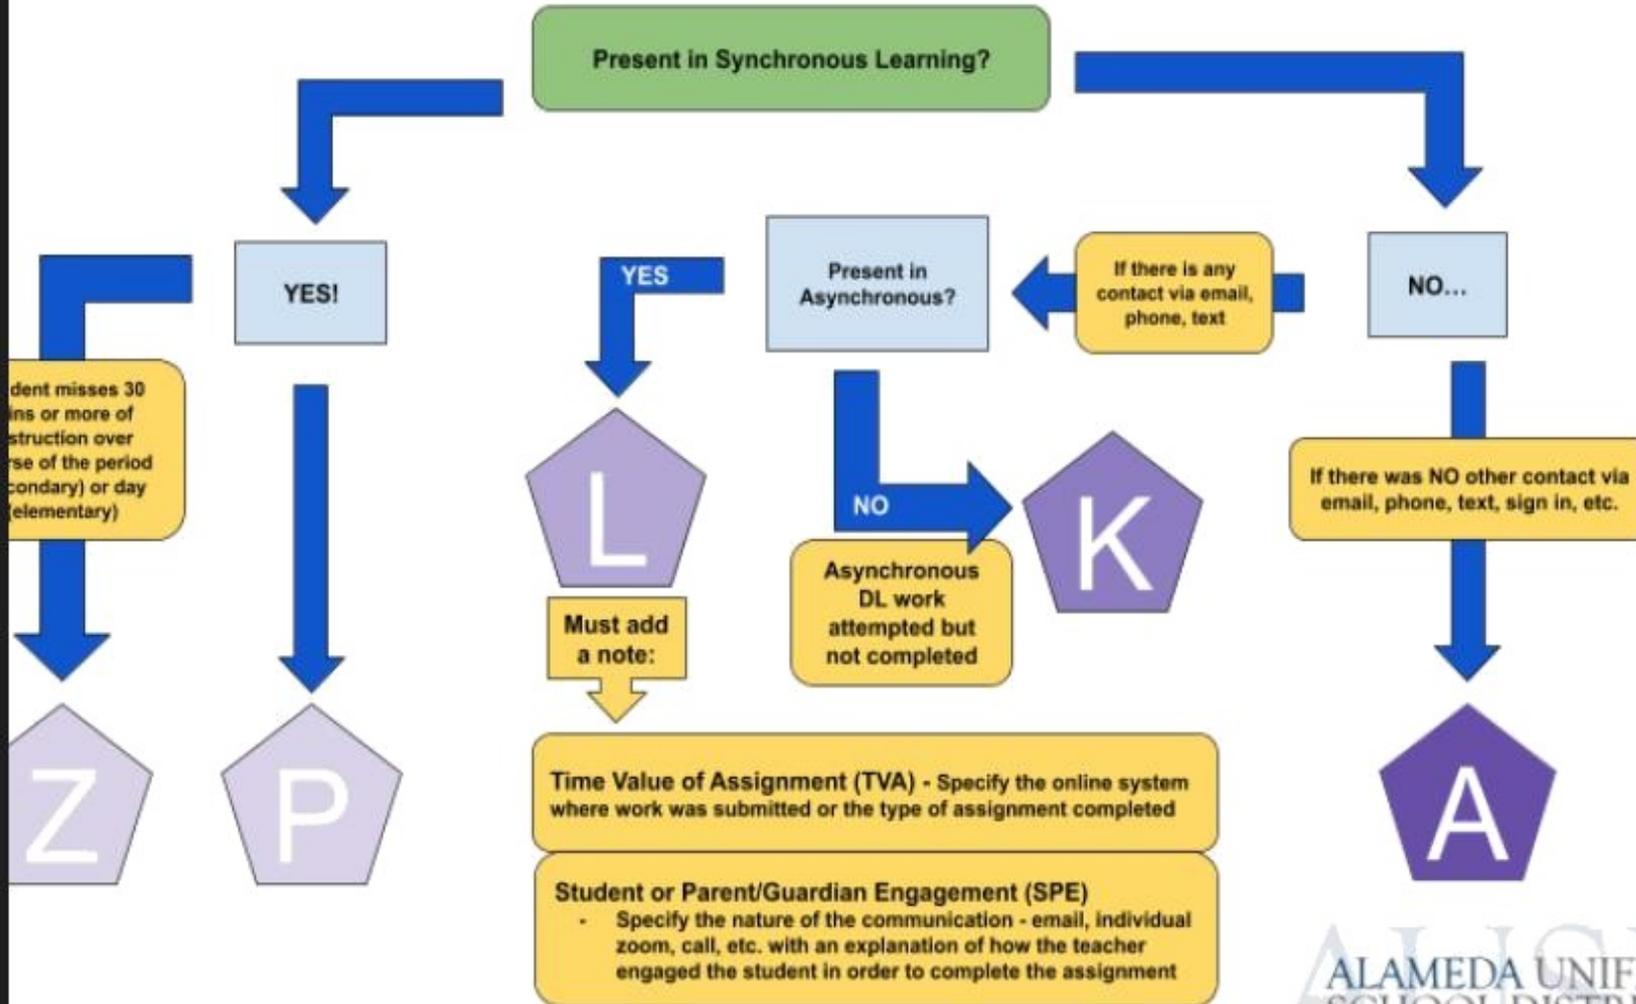

Attendance Need	Intervention
Student is absent for six days with no contact from guardian (this marks the second week of absence)	<ul style="list-style-type: none"> • COST Team will assign the student a case manager who will take over daily student/guardian outreach and documentation • A “Knock and Talk” will be initiated by school site Knock and Talk protocols
TIER THREE	
Student is absent for eight days with no contact from guardian (via phone, email, Knock and Talk, etc)	<ul style="list-style-type: none"> • COST team will request Child Welfare and Attendance Specialist to conduct a Wellness Check (20-21 Tiered Re-Engagement Wellness Check)

District Office	Intervention
Chronic Absence letters	(attach letter schedule here)
CWA Home Visits	CWA responds to COST team with results of Home Visit

Student level goals (across content, aligned to Graduate Profile)	Students dialogue about equity issues and take action to interrupt inequity		
	Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action	Read, think, talk, and write about complex texts every day	Establish and maintain healthy and rewarding relationships with diverse individuals and groups
Teacher priority practices (across content)	Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity		
	Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction	Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	Teachers build positive relationships with and among our students to create the conditions for learning
Leadership Practices	School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity		
	School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision	School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning
District Goals	We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID		
	We keep equity and rigorous content at the forefront of all decisions on what and how to teach students	We maximize interaction and independence in students' blended learning experience	We integrate social emotional and trauma-informed approaches as the foundation for learning experiences
Conditions for Adult Learning	We learn by collaborating, planning, doing, and reflecting	We have space to be vulnerable, self-reflective, and create meaning	Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Attendance Flow Chart

Mark the letter in the pentagon based on the flow chart.

Core Value	Guiding Principles
<i>"We meet the needs of each learner."</i>	<i>Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.</i>
<i>"We develop the whole child."</i>	<i>Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).</i>
<i>"Mastery of Essential Standards through flexibility of structures"</i>	<i>Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.</i>
<i>"We will support all students to embody the AUSD Graduate Profile"</i>	<i>Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.</i>
<i>"Learning to read is key to students' academic success"</i>	<i>Our plan will prioritize students who are learning to read</i>
<i>"Coherent Systems to Ensure Students are College & Career Ready"</i>	<i>Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready</i>
<i>"We will invest in our staff in order to realize our vision for students"</i>	<i>Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.</i>

Alameda Unified School District	Sara Stone Chief Academic Officer	sstone@alamedaunified.org (510) 337-7092

General Information

[A description of the impact the COVID-19 pandemic has had on the LEA and its community.]

Alameda Unified School District (AUSD) serves the needs of some 9600 students from pre-school through high school. Those students reflect the diversity of our community and the San Francisco Bay Area region. In 2019-2020, the demographic breakdown was: 26% Asian, 29% white, 18% Hispanic, 7% Black/African American, and 12% of two or more races. About 30% of our students are low income and 13% are English Learners, and Approximately .5% are Foster Youth.

To serve this diverse community of learners, AUSD’s nine elementary schools, four middle schools, and four high schools offer a wide range of educational opportunities, including neighborhood schools, STEAM programs, intervention services, arts integration, and newcomer classes for students who have recently arrived in this country. Our high schools have strong Career Technical Education programs, including Broadcast Journalism, Sports Medicine, Childcare, and Genomics, as well as a full array of Honors, AP, and Visual and Performing Arts classes. Our continuation program at Island High School supports students needing support to graduate; our magnet high school – the Alameda Science and Technology Institute – offers an Early College Program that provides students opportunities to earn college credits and/or an Associate of Arts degree while still enrolled in high school.

Some specific highlights from the 2019-20 Local Control Accountability Plan (LCAP):

- Continued expansion of the existing Multi-Tiered System of Supports (MTSS) program to provide more mental health and behavioral intervention support to sites and implement an academic universal screener/progress monitoring/intervention system.
- Increased capacity and systems for data-driven improvement. Implementation of an academic diagnostic/screening tool has increased the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports.
- Strategic Planning within the Special Education Department: Continue to define a services delivery model for students with special needs that is facilitated by high quality teaching, supported through active engagement in the least restrictive learning environment, and monitored by multiple measures of student achievement.
- Ongoing implementation of the English Language Development program to support improved outcomes for English Learners in both fluency acquisition and mastery of core content. This remains a highlighted area within AUSD’s LCAP. Language and Literacy staff

continue to work across departments to build capacity for a broader group of staff to support EL needs following significant staffing reductions in the spring of 2018.

- Expansion of Career Technical Education (CTE) pathways. 2019-20 edmark the opening of a new Biotechnology pathway, expansion/redesign of the Sports Medicine pathway, and deepening of the work within the Broadcast Journalism, Digital Filmmaking, and Marketing pathways. The work within CTE is a collaboration of AUSD staff, community members, industry, and city partners.
- Maintain forward progress in many areas parallel to the ongoing process of reprioritizing the budget to increase employee compensation.

In order to make progress towards our LCAP goals, we must:

- Eliminate barriers to student success and maximize learning time,
- Support all students in becoming college and work ready
- Support all English Learners in becoming college and work ready
- Support parent/guardian development as knowledgeable partners and effective advocates for student success.
- Ensure that all students have access to basic services

While Senate Bill 98, which was passed on June 29, 2020, removed the requirement for a 2020-21 Local Control Accountability Plan (LCAP) and instead has asked for this Learning Continuity and Attendance Plan (LCP), we continue to strive towards our LCAP goals, knowing that some shifts might be necessary due to the constraints of operating during a pandemic. In order to do this, we have some specific goals that we continue to work towards, even during COVID-19. Of course, COVID-19 has created some safety and logistical challenges that required us to make some shifts to how we implement our plans in service of these goals. We continue to plan for the following goals, making adjustments based on our current needs and state and county required pandemic responses:

- Improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism
- Decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates
- Improve completion rate including reduction of middle and high school drop-out rates and increase of high school graduation rate
- Improve student achievement on both statewide and local assessments
- Increase College and Career Readiness
- Improve English Learner Achievement
- Implement State Standards for English Learners
- Improve efforts to seek input from parents/guardians to support informed district/school targeted supports
- Improve parent/guardian participation in school, especially in the area of increasing access to college and career readiness resources
- Improve early educational opportunities for parents/guardians in which they develop strategies/skills for supporting their student(s) and serving as leaders in the school/district community.
- Maintenance of a highly qualified teaching staff
- Provision of adequate instructional materials
- Maintenance of a safe learning environment

The COVID-19 pandemic has had a profound impact across all levels of Alameda Unified School District. In March 2020, when a Shelter In Place was ordered, we rapidly transitioned to Distance Learning. This rapid shift brought an onslaught of challenges to students, families, educators and administrators. We recognize the profound impact that the closing of school buildings and moving into distance learning has had on our students, families, and staff, especially those who live in poverty, are second language learners, are in foster care, or have disabilities. While we maintain our work connected to our 2019-20 LCAP during the 2020-21 School year, we also have had to make some necessary adjustments and implement some new work in response to the COVID-19 pandemic. We have paid special attention to ensuring that our planning is trauma informed, understanding the deep social, emotional, and mental health challenges that have come with this pandemic. Achieving equity for our students has been, and remains, at the forefront of the district's work, and the pandemic has exacerbated existing injustices for students. Addressing these issues of access guided initial crisis response in the Spring, and as seen in this plan, continues to guide how students and families are supported. While the Spring focused on basic needs such as technology, nutrition, and supplies, the Fall will continue to build on this through a focus on priority standards, targeted instructional support, mental health support, and increased and intentional family and student outreach.

AUSD is starting the year in a distance learning model. We have two distinct programs that will be able to support the needs of students, families, and staff. We have a fully remote program that we opened to support any students, staff, and families who might be immunocompromised and who might need to remain in Distance Learning for the entire year. This is a program that will continue all year long, even if the County deems it safe for in person instruction. The other program is a Flexible program that will be able to flex between Distance and In-person learning. We are actively working towards getting students back into our school buildings as soon as it is safe to do so. We understand the immense burden that families are facing, juggling their own workloads and responsibilities along with managing student schedules and engagement. AUSD is committed to reopening school campuses when it is safe to do so, and continues to use local and state guidance, as well as stakeholder feedback to inform the reopening plan.

Stakeholder Engagement

[A description of the efforts made to solicit stakeholder feedback.]

AUSD engaged in a cycle of stakeholder feedback and decision making connected to continued instruction during the COVID-19 pandemic. This cycle included a Strategic planning team made up of the Superintendent, Chief Academic Officer, Chief Student Support Officer, and Data and Assessment Coordinator to work closely with a Task Force made up of representatives of staff and community to plan for and facilitate the surveys, Town Hall engagements, and Staff working groups to receive feedback and make recommendations to the School Board. Meetings were held weekly between March 13, the date of the close of campuses thru August 27th, the first day of school through this cycle of stakeholder engagement.

Strategic Planning Group:

- Superintendent
- Chief Academic Officer (CAO)
- Chief Student Services Officer (CSSO)

- Data and Assessment Coordinator

AUSD 2020-21 Redesign Task Force and Working Groups:

- Teachers
- Principals/Asst. Principals
- District Office staff
- Community partners
- Working Groups:
 - District operations- facilities/cleaning
 - Site operations
 - Curriculum/Assessments
 - Special Education

 - Grading
 - Attendance
 - Enrollment
 - Secondary Math/World Language
 - Student/Staff Safety
 - Student/Staff assignment/Negotiations

Stakeholder Engagement/Consultation:

- Alameda Education Association (AEA) and California School Employees Association (CSEA), (Union partners)
- Student Advisory
- Student Survey
- Parent Survey
- Academic Committee
- Community Advisory Committee (CAC)
- Parent Teacher Advisory Committee (PTAC)
- ASped
- District English Learner Advisory Committee (DELAC)
- After school and enrichment partners
- Town Halls

Board of Education:

- June: 9, 23
- July: 16, 17*, 22*
- August: 10*, 21*, 25
- September: 8, 22

* Special Meetings

Town Halls:

- 5/7/20 - Encinal Jr. & Sr. High School Parent/Guardian Town Hall
- 5/13, 5/14, 5/15 and 5/18 - Student Advisory for Graduating Seniors
- 5/14/20 - Lincoln Middle School Town Hall
- 5/21/20 - Wood Middle School Town Hall
- 5/28/20 - Alameda High School Town Hall
- 6/4/20 - Mental Health Town Hall
- 6/16/20 and 7/9/20 - Elementary Student Town Hall
- 6/17 and 7/23 - SpEd M/S Town Hall
- 6/18 and 7/30 - SpEd M/M Town Hall
- 6/22 and 8/13 - PTAC Town Hall
- 6/30/20 - WCDC Family Town Hall
- 8/4/20 - Athletics Town Hall
- 8/12/20 - Student Advisory
- 9/23/20 - PTAC Meeting
- 9/29/20 - CAC Meeting

We received feedback from our Parent Teacher Association Council (PTAC) on September 28, 2020 and have incorporated elements into this plan. The complete document is included as an attachment at the end of this LCP.

The District's response dated September 30, 2020 is also included as an attachment.

[A description of the options provided for remote participation in public meetings and public hearings.]

It has been extremely important to AUSD to be able to convene as many engagements as possible and to make them accessible to our community. We found that using Zoom and Facebook streaming (when possible) allowed for maximum engagement. All public meetings have been recorded and made public on our district website after the meetings.

Surveys (April and June) to elicit community input also preceded and proceeded these meetings. These surveys were delivered via the Student Information System when it was important to hear from all of our stakeholders so that we could account for participation. If we did not get complete participation staff called families to either share information or ask questions to elicit feedback.

[A summary of the feedback provided by specific stakeholder groups.]

We learned a great deal from our stakeholder engagement cycles. Mainly, we heard that for the 2020-21 School Year we need to:

1. Determine the priority grade level standards and skills that each grade level/content area need to focus on next year;
2. Deepen our vision and practice for Asynchronous and Synchronous Distance Learning including professional development, curriculum, assessment, differentiation based on student needs, and standards based grading; and
3. Communicate academic expectations with families and providing examples of the work to students so that they know what is expected of them

In addition to the above implications, we are also continuing to hold the Graduate Profile, our district community's vision for students, at the center of our thinking and planning. That coupled with some clear Core Values and Guiding principles (developed from what we heard from our staff, students, and families as well as our data), we know we must prioritize the work to deepen and clarify it. Our goals and focus practices for the 2020-21 school year are that:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity;
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction;
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards; and
- We integrate social emotional and trauma-informed approach as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning.

[A description of the aspects of the Learning Continuity and Attendance Plan that were influenced by specific stakeholder input.]

In addition to County guidance, all of the Learning Continuity and Attendance plan was influenced by stakeholder input (as described above). We also used research and ideas from other districts on best practices for blended learning, engagement, culturally responsive and trauma informed practices to inform our plans. Every plan was also put through the lens of the following core values and priorities:

Core Value:

"We meet the needs of each learner."

Guiding Principles:

Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.

Core Value:

"We develop the whole child."

Guiding Principles:

Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).

Core Value:

"Mastery of Essential Standards through flexibility of structures"

Guiding Principles:

Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.

Core Value:

"We will support all students to embody the AUSD Graduate Profile"

Guiding Principles:

Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.

Core Value:

"Learning to read is key to students' academic success"

Guiding Principles:

Our plan will prioritize students who are learning to read

Core Value:

"Coherent Systems to Ensure Students are College & Career Ready"

Guiding Principles:

Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready

Core Value:

“We will invest in our staff in order to realize our vision for students”

Guiding Principles:

Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.

Continuity of Learning

In-Person Instructional Offerings

[A description of the actions the LEA will take to offer classroom-based instruction whenever possible, particularly for students who have experienced significant learning loss due to school closures in the 2019–2020 school year or are at a greater risk of experiencing learning loss due to future school closures.]

We are prepared to provide both In-person and Distance Learning during the 2020-21 School Year. In order to prepare for this Flexible model, we have developed a Flexible instruction model which blends both in-person and virtual learning. The purpose of this program is to allow students to return to school as soon as it is safe. Content is delivered by the teacher synchronously, students practice skills and/or complete projects asynchronously using core district curriculum, zoom, and google classroom. In addition, we are working to determine how to support smaller groups of students who need more support and would benefit from in-person learning to come to sites in a “learning hub” model when safe. This must be in accordance with county and state mandates.

For those students, staff, and families who will not be able to return to on-campus instruction due to underlying health or other issues, we have also developed a fully Remote Program. This program will be primarily “asynchronous” (or independent) and done at the student’s own pace using an online curriculum. Teachers will work as “case managers” of students’ instruction and will work with students one to one or in small groups, and parents/guardians will work collaboratively with the teachers to support and coach their students.

Cleaning and safety: Note: We have based this on the most current County guidance as of the writing of this plan. All is subject to Labor Partner Negotiations.

Face shields/cloth coverings:

Cloth masks:

- Required for TK and up
- Required for all school staff
- Exceptions: unable to wear them due to special circumstances, such as a particular developmental or health diagnosis that would limit their ability to wear a face covering.

Face Shields:

- Permissible as a substitute for teachers and students unable to wear a face covering for reasons of age and special need
- Should be worn with cloth drape across the bottom tucked into shirt
- Can be worn to compliment a cloth face covering
- Will be available for staff

Temperature Screening:

- Students and families are required to self-screen at home or before entering the building.
- If self-screening is not completed at home, school staff may conduct on-site visual screenings (coughing and runny nose) and temperature screenings.
- No-contact thermometers have been purchased for all health clerks and all administrators in AUSD.
- Asymptomatic individuals or individuals with mild non-specific symptoms may not realize they are infected and may pass through screening.
- Self-screening is a must and may consider using a lower threshold temperature

Distancing:

- Where practical, desks will be placed six feet apart and arranged to minimize face-to-face contact
- Permissible to relax 6-foot recommendation if it ensures all/more students receive in-class instruction
- Face coverings and cohort stability are higher priorities if they allow for more practical utilization of physical spaces to provide in-person instruction.

Cohort Size:

- As practicable, students should remain in the same space and in groups as small and as consistent as possible.
- When it is not possible to remain in stable cohorts within the same space (e.g. secondary school), face coverings and limiting group gatherings are a higher priority.

How will we properly clean and disinfect our schools?

- Follow CDC & EPA Guidance for Cleaning & Disinfecting Facilities.
- Disinfect with EPA-registered List N solutions for use against Covid-19.
- Apply disinfectants with electrostatic sprayers as the new standard of infection control.
- Sufficient and capable staffing.
- Develop policies, educate, train staff on worker protection; cleaning and disinfection protocols, proper use of materials and equipment while complying with OSHA's standards.

Academic Goals and Priorities:

Paying attention to our 2019-20 LCAP Goals, and planning for ensuring that teaching and learning continues during this challenging time, we have developed the following set of goals and priorities for both our Flexible and Remote Learning options in order to mitigate learning loss for all students:

Student level goals (across content, aligned to Graduate Profile):

Students dialogue about equity issues and take action to interrupt inequity

- Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action
- Read, think, talk, and write about complex texts every day
- Establish and maintain healthy and rewarding relationships with diverse individuals and groups

Teacher priority practices (across content)

Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity

- Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- Teachers build positive relationships with and among our students to create the conditions for learning

Leadership Practices

School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity

- School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision
- School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning

District Goals

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students
- We maximize interaction and independence in students' blended learning experience We integrate social emotional and trauma-informed approaches as the foundation for learning experiences

Conditions for Adult Learning

- We learn by collaborating, planning, doing, and reflecting
- We have space to be vulnerable, self-reflective, and create meaning

- Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Actions Related to In-Person Instructional Offerings [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing
<p>Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction:</p> <ul style="list-style-type: none"> • Professional Development - 4 days of Learning Conference - \$1,131,335 • Other professional development \$50,188.12 • In-person materials \$379,564.58 • Online materials \$358,913.73 • Curriculum: • Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction: • Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards • Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards • Teachers build positive relationships with and among our students to create the conditions for learning 	\$1,920,001	Yes

<p>Cleaning and disinfecting supplies, personal protective equipment, and informational signage for schools over the summer in preparation for the possible opening in a hybrid school plan</p>	750,000	Yes

Distance Learning Program

Continuity of Instruction

[A description of how the LEA will provide continuity of instruction during the school year to ensure pupils have access to a full curriculum of substantially similar quality regardless of the method of delivery, including the LEA's plan for curriculum and instructional resources that will ensure instructional continuity for pupils if a transition between in-person instruction and distance learning is necessary.]

Our district's goal is to balance the complex variety of needs that students, families, and staff are currently confronting, including reducing the risk of COVID-19, reducing student learning loss and isolation, and supporting families to return to work. Our district's top priority for learning is to return to a standard school model, with all students in class five days per week. When the standard school model is not permissible by Departments of Public Health, the Flexible Model and the Remote Model described below will be in place. We will continue to work with our labor partners to develop a plan that is in accordance with County Departments of Public Health guidelines at the time of opening, and is built in collaboration with our union partners.

The health and safety of our students, staff, and families is of the utmost importance. When permitted to return in-person learning, on-campus school will look much different than previous years due to new health and safety measures. Our plan to reopen schools is based on current guidance from public health officials and state agencies and will be continually updated as the situation evolves. It is important to note that our District plans will focus sharply on academic instruction to enhance student performance and address learning loss.

Flexible model: Combination of teacher directed instruction and online learning; Teacher is planning and delivering content and instruction, Class time used for discussion and projects that synthesize information, Lessons/lectures through online videos students can access at their own time and pace, Choice in ways to practice and demonstrate understanding of skill/standard, Students pacing depends on mastery of skills/standards, Can be moved to a Full distance model if needed due to SIP.

Remote model: Online curriculum program is used to provide instruction to the student; Working closely with the teacher, the parent (or other responsible adult) serves as a "Learning Coach" to the child, helping to facilitate his or her progress and working to modify the pace and schedule as needed, Students work in a self-paced, asynchronous environment for most of the day, Teachers work as "case managers" who meet with students as needed to support learning, Synchronous time with teacher is used to answer questions, interact with other students, check in, do SEL activities.

Access to Devices and Connectivity

[A description of how the LEA will ensure access to devices and connectivity for all pupils to support distance learning.]

When schools suddenly closed mid March last school year, our technology department and site staff quickly developed a plan to hand out chromebooks to all students who needed a device at home. We determined need through surveys, teacher input, and family outreach. In addition to providing chromebooks, we gathered information about who had a lack of internet and connectivity and began to hand out hot spots.

During the 2020-21 School Year, AUSD will continue to ensure access to devices and connectivity for all pupils to support distance learning whenever it occurs, including:

- Provide Chromebooks to all students. 1:1 for all grade levels (K-12).
- Provide remote access to labs or provide laptops for CTE/digital course students (Adobe).
- Explore internet access for students lacking fast internet. Coordinating with the Alameda Education Foundation and internet providers.
- Design technical support model for staff, students, and parents. Web site (self help and guidance) and access to tech requests.
- Purchase Zoom or Google Meet licenses.
- Provide alternative technology available if needed.

Pupil Participation and Progress

[A description of how the LEA will assess pupil progress through live contacts and synchronous instructional minutes, and a description of how the LEA will measure participation and time value of pupil work.]

Our 2019-20 LCAP names our goal of eliminating barriers to student success and maximize learning time. In order to do this we have been working to improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism and decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates. The challenges that we now face, due to COVID-19 and the need to have flexibility between Distance and In-person learning have made us create some new systems to track attendance and participation. Compulsory attendance means that all students are expected to participate in school, including the teacher's live daily online instruction and the completion of assignments given by the teacher. Both of these elements are expected parts of attending school and, to comply with state law, AUSD will implement a new attendance taking system that tracks both daily attendance in live instruction and each student's ongoing completion of school work. We also know that we must continue to work towards creating engaging, culturally responsive, and rigorous learning through both synchronous and asynchronous lessons so that our students are excited to participate.

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

Weekly engagement

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)

Synchronous = 25

Asynchronous = 155

Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)

(M/T/TH/F)

Synchronous = 120

Asynchronous = 125

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 200

Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 150

Asynchronous = 95

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 165

Asynchronous = 150

Total = 315

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

How is weekly engagement data documented?

On Wednesday, the teacher will input data on the extent to which the student was engaged based on a scale of "0", "1", "2", "3", "4", or "5" for the week:

Weekly Engagement Score (Asynchronous & Synchronous student learning minutes for the week)

Grade K

0-179 mins = "0"

180-359 mins = "1"

360-539 mins = "2"

540-719 mins = "3"

720-899 mins = "4"

900+ mins = "5"

Grade 1-3

0-229 mins = "0"

230-459 mins = "1"

460-689 mins = "2"

690-919 mins = "3"

920-1149 mins = "4"

1,150+ mins = "5"

Grade 4-12

0-239 mins = "0"

240-479 mins = "1"

480-719 mins = "2"

720-959 mins = "3"

960-1199 mins = "4"

1,200+ mins = "5"

Daily Attendance

Each day (TK-5) and each class (6-12) teachers must record students present or absent in Aeries. There are various ways that students can demonstrate attendance:

- Live via web conferencing platform (i.e. Zoom, Google Meet)
- Online response form (i.e. Google Doc, Google Form)

- Blended learning platform login record
- Engagement (Participation) in an asynchronous assignment
- Email record of describing participation
- Phone/Voicemail record describing participation
- Attendance for asynchronous work is based on the student completing the assignment, not the grade value or how much time they spent on it.
- Students shall be marked absent if they do not engage in any synchronous or asynchronous class activity
- If a student submits assignments at any time during the day they are not absent

Daily Attendance Procedures Overview 2020-2021

- Daily attendance is required
- California Education Code section 4504 requires documentation of daily participation for each student, each school day, during distance learning.
- If a student is present during synchronous time, there is no need to confirm their asynchronous participation.

Introduction to the Procedures

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

When students are in Distance Learning, there are two ways that a student can be considered present for the day or the period:

Step 1:

Synchronous Distance Learning

- The student attends the mandatory live session (i.e. zoom, etc.) that has been scheduled for the day or period. Students are expected to participate with a visual attendance check in. If there is a barrier to a visual check-in, participation with auditory or chat features can suffice for documenting synchronous attendance. For the purposes of taking attendance, any participation in the scheduled session counts as attending synchronously.
- If teachers notice that students are habitually late or leaving the live sessions early, the teacher should follow up with the student or parent, or inform attendance staff to assist with follow up.

Synchronous attendance is recorded by the teacher of record (classroom teacher) each school day in Aeries during their live meeting with students or directly after. Each period for secondary students.

An attendance code must be entered for each student:

A – Absent, missed Synchronous Distance Learning live session

P – Present, attended Synchronous Distance Learning live session

Step 2:

Asynchronous Distance Learning

- Students who are marked absent (A - missed Synchronous Distance Learning live session) for the day or period, an alternative attendance code may be used to mark the student present if the student attempts or completes independent activities on that attendance day.
- The student must complete an assignment or assessment that has the equivalent time value of the day or the period. Assigned activities should be chunked into daily work for this purpose.
- The teacher must verify that the student has completed the work during that attendance day by reviewing the work submitted by the student, or by engaging with the student or their parent/guardian to verify completion of the activity.
- If a student is unable to complete an activity, but the teacher is able to engage the student or their parent/guardian on that day to discuss and try to resolve the student's challenges, then the Asynchronous Distance Learning Present code may be used.

Teachers have one school week to go back and make an adjustment to document asynchronous attendance in lieu of an absence.

NOTE: Only a student marked 'A' absent should be updated.

L – Asynchronous Learning Present

When using the Asynchronous Present attendance code, the teacher of record must add a note when recording the student's attendance that specifies what type of engagement occurred:

- Time Value of Assignment (TVA)
- specify the online system where work was submitted or the type of assignment completed
- Student or Parent/Guardian Engagement (SPE)
- specify the nature of the communication - email, individual zoom, call, etc. with an explanation of how the teacher engaged the student in order to complete the assignment.

Weekly Attendance

Teachers must attest that attendance has been accurately captured in Aeries each week by reviewing their electronic attendance record each Wednesday for the prior week's activities.

At this time, all students who are still marked with a 'A' and have not met the Asynchronous Distance Learning requirement will have their record updated to:

K – Missed Synchronous and Asynchronous Distance Learning requirements.

RECORDING ATTENDANCE - EACH DAY/PERIOD

1. Synchronous Distance Learning Daily mandatory meeting.

Login to Aeries. In the left navigation tree choose ? Attendance

2. Check the appropriate attendance code next to the student's name to record Synchronous DL:

Synchronous Attendance codes:

P - Synchronous DL Present

A - Absent

Z - Tardy

Students who miss 30 minutes or more of the day's scheduled live meeting should be marked with a "Z".. Please discuss expectations around the importance of attendance with your students. If necessary, arrange a separate meeting with the student and/or parent/guardian if the student makes this a habit.

3. Asynchronous Distance Learning Daily Follow up:

For any student who was absent from Synchronous Learning, check to see if they met the Asynchronous work requirements and update attendance accordingly:

Asynchronous Attendance codes:

L – Asynchronous DL work completed

K – Asynchronous DL work attempted but not completed

4. Teachers must enter notes / remarks / comments for students who are being marked present with an asynchronous code. The note should be entered in the field next to the attendance code, and can be brief.

Samples:

TVA: 75 Minute Edgenuity assignment “Working with Molecules”

Student Contact: Met with student to review the “Working with Molecules” assignment

Parent Contact: Met with p/g to review the “Working with Molecules” assignment

For students who are absent from Synchronous meetings, are not attempting Asynchronous work and who you are not able to contact. Please leave the A – absence code and add a note in attendance. Sample:

UNC – unable to make contact. ParentSquare message, no response. No work completed.

VERIFYING ATTENDANCE AND ENGAGEMENT - EACH WEEK

1. Teachers will run the Weekly Attendance Report by Class each week to verify student attendance and engagement.

Teachers may see attendance codes the attendance staff have entered. Check the attendance notes or attendance log to see if there are questions about what is entered. Contact school sites attendance staff if there are any questions.

Attendance procedures for when there is a substitute teacher:

Substitute teachers should be provided with the teacher’s class roster and a copy of our attendance procedures. They should note attendance on the roster and submit it via email to the school site attendance personnel.

Grading

On June 8th 2020, the California Department of Education (CDE) issued general guidelines regarding reopening school’s during COVID19 and for the 2020-2021 school year. The considerations below are primarily adapted from this document’s guidance on grading. The CDE may further delineate grading requirements in the near future. The district will be moving to standards-based grading, which is in large part due to the urgency, especially in these times, for students to accelerate their learning towards the priority standards for each course.

During the 2020-2021 school year, our school and students will still be heavily impacted by the effects of the global pandemic. While accountability measures such as grading will return this school year, we still have students caring for siblings, parents who have lost jobs and are worried about meeting their family's basic needs, and worst case scenario, people getting sick. Even when families have their basic needs met, many are reporting increased anxiety and stress which will affect learning. While we are committed to ensuring one-to-one internet and devices for all families, we know that many people will still have slow internet or do not have a private quiet place to work in their homes. The world has shifted. We must be flexible and caring for all involved as we consider how to assess and provide fair feedback for students.

As we enter into this new reality, blended learning with a focus on standards must be at the heart of all we do, including assessment. This is a time to be creative with students, learn what interests them, and find new ways to make education relevant, engaging, fun, and meaningful. In addition, we need to communicate clearly and effectively with families and students about what students have completed as well as mastered. We must also ensure that we are clear and transparent on the priority standards for our course and how students will demonstrate mastery.

Standards-Based Grading helps reflect back to students (and their families) the degree to which they are mastering the Standards via assignments. In Elementary (TK-5) this was already in practice prior to COVID. In Secondary, we will use the following during COVID.

Grading Guidance

- Grading should be based on a student's progress toward mastery of standards. When letter grades are given they should correlate to the following:
- A Mastery - The student demonstrates an in-depth understanding of the priority grade level standard(s) by consistently completing advanced applications of the material
- B Proficiency - The student has mastered the complex, targeted knowledge for most/all priority grade level standards for the class
- C Meets Standard - The student understands the foundational material that supports the targeted learning, but is still working to master the complex material for priority grade level standards for the class
- D/Not Yet - Even with assistance from the teacher, the student does not yet understand the priority standards. A "NM" will be given for missing work until the end of the semester if mastery is not achieved.

School sites may need to discuss percentage breakdowns as they correlate to grades.

- Grading for English Learners should also take into account their progress towards the ELD standards. If a student is not yet meeting a content standard but making progress to the next level of ELD proficiency they may still receive a passing grade.
- Assessment for students with IEPs must be appropriately modified and accommodated.
- Grades should be recorded and communicated through Aeries. Narrative grading should be used when possible.
- All grades must have standards-aligned evidence as the basis of the grade in order to ensure clear communication with students and families who have questions or need additional support in understanding their progress towards mastery and grades.
- The lowest cumulative grade a student can receive for each term will be a C for Middle School and a D for High School (all students not meeting the requirements for these grades will receive a "No Pass" if no work was turned in or "Not Yet" mark if they have shown no evidence of mastery in the work turned in).

- All students will have the opportunity to revise and resubmit work to show mastery towards literacy standards by the end of the course.

AUSD is in a rapidly changing educational environment and the administration will hone and refine the district's response to the pandemic as circumstances change and new information becomes available. Key variables that will influence decisions about grading practices include, but are not limited to, length of school closure; new guidelines from the CDE; new policy from the Governing Board; decisions made by colleges and universities; and changing health and safety conditions in the community.

Distance Learning Professional Development

[A description of the professional development and resources that will be provided to staff to support the distance learning program, including technological support.]

Our 2019-20 LCAP names that we must eliminate barriers to student success and maximize learning time, support all students in becoming college and work ready, and support all English Learners in becoming college and work ready. We knew that in order to continue growth in these areas, we would have to support our teachers and staff to learn new skills to use during Distance Learning.

Teachers, Paraprofessionals, and other staff began the year receiving professional learning through a 4 day August Learning Conference. It was structured to model best practices in Blended Learning. Teachers and other staff participated in new learning connected to using online platforms and learning management systems, focusing on priority standards, and strong trauma informed engagement practices so that they build skill and understanding of Blended Learning and Distance Learning practices. The conference learning took place through direct synchronous instruction, cross-site collaboration, grade level/content level collaboration, site level discussions, individual preparation time, and self-paced asynchronous learning.

Teachers will have collaboration/professional development time every Wednesday. This time will be utilized for completing their educational activities and trainings within the categories of student instruction (in-person or virtual), district organized professional development, teacher prep time, and common planning time to meet student outcomes as determined by district priority standards, LCAP, SPSA, and WASC goals.

Monthly collaboration/professional development schedule

Week 1: Site Level Collaboration

Week 2: Home (Cross-Site) Collaboration

Week 3: Site Level Professional Development

Week 4: Community of Practice- Anti-racist educators

Week 5 (if necessary): Unit Member directed Collaboration

Paraprofessional Training: A Learning Conference was also held for Paraprofessionals before school began to assist with their support of students in distance learning. Training curricula called Master Teacher and Behavior University have also been purchased to assist with professional growth throughout the school year. Education Specialists will guide paraprofessionals in the supports that they provide. For Moderate Severe (M/S), students, paraprofessionals will participate in classroom meetings with the teacher and related services staff to plan

supports for students based on student progress data. Finally, training will continue to be provided for M/S paraprofessionals in Applied Behavioral Analysis practices.

Staff Roles and Responsibilities

[A description of the new roles and responsibilities of affected staff as a result of COVID-19.]

With the Covid-19 pandemic and school closures, all site staff, as well as district staff, have had to change the way they do their job in order to respond to the uniqueness of needs during this unprecedented time. In March 2020, all schools and district offices in Alameda Unified School District, as well as many districts in the state, were abruptly closed. Teachers and other school staff had to respond instantly because every passing school day students were at risk for learning loss. Teachers and staff did respond and adapt to this uncharted territory with new roles and responsibilities in nearly all aspects of their job. Specifically, with the creation of two distinct programs, the Remote Program and the Flexible program, staff have had to adapt to changes in how we support our students, staff, and families. We continue to adapt, and roles and responsibilities continue to evolve as we proceed through this school year. Some of the new staff roles and responsibilities during the time of COVID-19 are reflected below.

Remote Program:

Remote Principal:

- Ensure all staff have the ability to provide remote learning access
- Ensure all families have access to remote learning opportunities
- Facilitate coordination between Remote School staff and Home School staff

Remote teachers:

- Act as teachers who case manage students' courses and also provide academic support providers to assist them in achieving success with the online curriculum.
- Meet with students individually or in small groups to provide tutorials necessary for students to successfully complete the online curriculum.
- Communicate regularly with both the Learning Coach (family member) and students to support students' success.
- Communicate regularly with "home school" point of contact to inform them of student progress.
- Build relationships with families to support all students in their academic successes.
- Students will have interaction with teachers on a daily basis along with progress meetings, parent/teacher workshops, emails and other contact with the teachers.
- Review student data and coordinate small group instruction based on need.

Specialists:

- Elementary Media/Library, PE, and Music who had provided enrichment during teacher preparation time to students pre-COVID were moved into classroom teaching positions to accommodate our Remote program.

Staff new to AUSD during COVID-19:

- All onboarding and professional learning was done virtually and focused on the use of our systems and technology.

Flexible Program:

Teachers and Classroom Instruction: In the Flexible model, learning, engagement is much more difficult. Teachers will need to develop new strategies to capture students' attention and keep it. The lessons will need to be short but more focused. Teachers will be required to contact students and/or parents/guardians as a part of their duty day to re-engage and/or offer clarity. Teachers will be required to provide extra support for students who have experienced or are at risk for learning loss. Teachers now have blocks of time to arrange strategy groups of students who need this additional support. Rather than posting the daily schedule on the white board, teachers will post on the learning management system, and track the value of time for their assignments. Teachers will need to navigate situations with parents in the room either asking them to get more involved or to give their child more independence. Teachers will need to modify events such as back to school night, moving to an online method. All materials and assignments will need to be modified for access in these new models.

CTE pathway teachers have received materials and technical support to help them to adapt their courses to be able to provide high-quality instruction for students enrolled in the Flexible program.

Special Education Teachers: SpEd Teachers will need to work with their students in a new way. When students can not connect in person with their teachers, it is harder for teachers to build relationships and trust. This will be even harder for some of our students with special needs. Online conferencing platforms can be off putting for many students, and some will refuse. Special Education teachers will have to be masterful communicators and strengthen their skills to increase student participation and engagement.

Principals: Communication and outreach will become a major part of the principal's job. In distance learning principals will need to monitor attendance in a school wide system differently. The principal will need to set up a system for tracking participation school wide, and school specific strategies for re-engaging students. Principals will now be required to communicate weekly with the parent community and differentiate messaging across multiple platforms. They need to ensure that all students have access to the technology needed for DL/hybrid learning. They will need to supervise teachers by attending online conferencing sessions and offer feedback. They will monitor learning management systems, and assessments. They will change staff meetings to an online platform and provide opportunities for teachers to maintain positive relationships with each other.

Site Office Staff: School Administrative Assistants or attendance staff will continue to monitor attendance and respond, but this will also change to adapt for distance/hybrid learning. Reminders to teachers to document, new coding procedures, and outreach will change. Attendance is now multi-faceted, joining a Zoom session alone will not suffice. When a student is ill, staff will have to proceed according to the Alameda County guidance. Parents will have limited access to the school, so all registration procedures have been changed to online.

Custodial: During distance learning the custodial staff roles and responsibilities will be more focused on disinfecting staff used areas, keeping an inventory of masks, gloves, and disinfectants for use by staff who are on site. Staff will work on preparations for opening in a hybrid model

including relocating desks and chairs. They will be responsible for modeling the social distancing, mask wearing, and representing the current health safety requirements.

School Psychologists: School Psychologists will gather and analyze available assessment data in order to provide guidance on determination of special education eligibility if possible taking into consideration shelter in place and social distancing. They will complete assessments to the extent possible within the mandated IDEA timelines. In addition, they are supporting case managers and students with socio-emotional support.

Nutrition Services Staff: Some staff worked over the summer at central locations providing meals for our students. This school year, while in distance learning, instead of working out of their usual sites preparing breakfast and lunch for students, they are stationed at centralized locations distributing grab and go meals to all AUSD students.

District Nurse: Responsible for collaborating with state and local health departments to update emergency operations plans for all sites.

District Administrators: Many District administrators including and staff worked beyond their work calendar in order to create plans for distance learning including professional development plans, technology plans, and plans for assessment. Their jobs continue to focus on providing support for teachers instructing in a distance learning environment.

District Office Staff: Staff are able to continue supporting the schools by working from home with some opportunities to work from the District Office as permitted.

Both Flexible and Remote:

Attendance and Participation Tracking: Teachers will be responsible for monitoring attendance in a whole new way. Attendance is no longer a simple operation as it was in the past with “present,” “absent,” or “tardy.” Attendance now is defined by student participation by logging onto online sessions, completion of assignments, completion of assessments, and parent/guardian and/or student contact. Teachers will be required to keep systems for tracking daily participation and will be required to input this data into Illuminate weekly.

Teaching and Learning Department:

The Teaching and Learning department made some position shifts that were not specifically related to COVID-19 but in order to align better with the needs of our sites. While the changes were not based in a response to COVID-19, these positions, as with all in our district, had to adapt to the shifts and needs of our schools sites during COVID-19.

The TK-12 Language and Literacy Coordinator specifically focused on English Language Development and organizing our programming for our English Language Learners, this position supports academic language development across content TK-12. This position is paying special attention to supporting school sites with the needs of our English Language Learners during Distance Learning and working with the Instructional Coaches to develop plans to support individual students needs.

The TK-12 STEAM Coordinator focuses on Science, Technology, Engineering, Arts, and Mathematics instruction across the district.

Language and Literacy Coaches work closely with school sites to analyze curricular resources connected to our AUSD priority standards, and plan for how to teach these units and lessons in the context of blended and flipped learning, backwards plan Structured Discourse from Language Objectives, develop a capacity for self-study and continuous improvement through reflection on instruction and student data, with a focus on ELLs, students w/ disabilities, and black students.

Supports for Pupils with Unique Needs

[A description of the additional supports the LEA will provide during distance learning to assist pupils with unique needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness.]

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In order to address this disproportionate impact, we have worked to support our students in the following ways:

Foster Youth:

Improve our communication connected to the needs of our students in Foster care. This includes: Immediate enrollment; district/school connection and communication with County case manager; high school guidance and communication around AB 167/216 grad requirements.

AUSD's Foster Youth Liaison collaborates with Alameda County child welfare social workers, Alameda County Probation officers, Alameda County courts, and East Bay Children Law Office in order to minimize school placement changes, provide needed supports, and improve educational outcomes for Foster Youth. All Foster Youth are ensured immediate enrollment, regardless of the availability of required documents (ex. Immunization records, birth certificates, transcripts, etc.). AUSD's Foster Youth Liaison also provides training to district enrollment staff, site office staff, Intervention Leads and school counselors. Training topics include information on specific education laws that are specific to foster youth, when and how to notify the Foster Youth Liaison when there are concerns, and policies around graduation requirements outlined in AB 167 / AB 216.

McKinney Vento Homeless Youth:

Continue to provide differentiated support for our students experiencing homelessness: AUSD's McKinney Vento Liaison works closely with and provides training to enrollment staff, office staff, intervention leads, and school counselors to identify students who are experiencing homelessness and provide them extra support. If the youth is enrolling in the district, they are enrolled immediately regardless of being able to provide required documentation (ex. immunization records, birth certificates, transcripts, etc.). When a youth is identified as qualifying for McKinney Vento services, the liaison conducts an intake with the family. Needs are identified and resources are provided. All McKinney Vento youth are provided with AC Transit bus passes for transportation when the district is able to provide in-person instruction and backpacks filled with school supplies. Additionally, all McKinney Vento youth are enrolled in the Free and Reduced Lunch program.

McKinney Vento families are given referrals to: Alameda Food Bank for food access; Alameda Family Services Family Support Center for case management and assistance in enrolling in CalFresh, MediCal, and other assistance programs; Homeless Action Center for legal assistance; All Good Living Foundation for shoes, clothing, toiletries, and hot food delivery from local restaurants; Dine and Connect information about the faith based organization that host dinner and information for homeless; Safe Parking and Day Center information where homeless families can do laundry, charge their phones, watch TV, and have a safe place to park at night and be supported by Village of Love social services; and City of Alameda Homeless Hotline for additional resources that are provided by the City of Alameda. Intervention Leads at each school site do a weekly data review on their McKinney Vento youth to ensure attendance, engagement, and school success. High school counselors meet with their McKinney Vento families to discuss and review eligibility for reduced credit requirement graduation per AB 1806.

Immediate enrollment; transportation (via bus passes); enrollment into Free-Reduced Lunch program; Backpack and School supplies at the beginning of the school year and at the midpoint of school year (after winter break); referrals to social service and health agencies that address specific needs; Holiday toy drive recipients; secondary school counseling regarding AB 1806.

Pupils with Exceptional Needs:

Create an Individualized Education Aligned Plan to be followed during Distance Learning for students with IEPs. The District has planned to provide Student's operative IEP to the greatest extent practicable, through a combination of in-person and distance learning in the "Flexible Model" or distance only learning in the "Remote Model". As indicated in the contingency "IEP Aligned Plan" with components required by Senate Bill 98, the following information regarding services are delineated: access to the general curriculum, specialized academic instruction ("SAI") based on areas of need, related services, accommodations and modifications, supplementary aids and services, transition services (e.g., in effect when Student is 16 years of age or older or younger if deemed appropriate by the IEP team), and extended school year services where appropriate, to be implemented during an emergency. Please be aware that the educational placement and services made available during the time frame of "emergency conditions" are not stay-put, and upon termination of the emergency Student's stay-put IEP is the most recent IEP with parental consent. Please note that some distance learning or related services will involve small and large group learning, meaning other students might be involved in the same instructional or related services activities. Educators and service providers will communicate schedules with individual parents based upon the students' IEP.

Additional Summer Instruction: In the summer, any student with an IEP in AUSD can access additional instruction to address learning loss and assist with recovery. Small group sessions for academics as well as social emotional learning and mental health were provided 4 afternoons per week by District Education Specialists and a Board Certified Behavior Analyst, following Extended School Year in the morning. The Adaptive Physical Education teacher enhanced wellness sessions with online movement games that students and families participated in. Over 40 students requested the program. In the summer, research-based curriculum for online Lexia reading intervention was piloted and received well by staff and parents. The Lexia program was purchased and will be extended to all Mild/Moderate Education Specialists during the 2020-2021 school year. Teachers were trained in a session held during the August Learning Summit held for staff for 4 days before students returned to distance learning.

Additional Fall Instruction: Similar plans are being made to provide students with IEPs across the district additional instruction to support learning loss. This opportunity will be announced soon after the school year begins.

Research-based Curriculum: The special education team reviewed various online instructional curricula to determine programs that would best support learning loss during COVID, including those programs previously used augmented with new programs.

New and continuing curricula include:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

Assessment and Evaluation: Assessment is critical to determine students' learning needs following a period of Shelter-in-Place last Spring. Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans. Assessment efforts include: (1) Training of teachers in STAR benchmark assessment system; (2) development of a plan for addressing assessments due last Spring and coming due in order to inform instruction and annual or triennial IEPs. Temporary NPA Psychologists were hired to complete assessments in the interim until assessments can be completed.

IEP Aligned Plans (IAP): Contingency plans as defined by SB 98 to address student needs for instruction and related services that align with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

Individual Education Plan (IEP): Initial, annual and triennial IEP meetings will continue as prescribed by the Individuals with Disabilities Education Act (IDEA), to provide students an offer of FAPE when schools return to typical times, while also providing an opportunity to discuss emergency plans per Senate Bill 98.

English Language Learners

Our LCAP names that we will support all English Learners in becoming college and work ready. Our vision for English Language Learner (ELL) success certainly includes mastery of Academic Language skills. But the ultimate goal for ELLs is

joyful and fulfilling participation in the community and the world. It is precisely by working towards this goal in our schools and communities that ELLs will have the most powerful opportunities to use, develop and master rich and complex language.

English language learners have been disproportionately impacted during distance learning by losing English language exposure at school and interactive experiences with peers that assist with English language development. We will be intentional in giving English learners opportunities for additional support.

Teachers will continue to deliver Designated English Language Development, except that what they do will now need to be done in a virtual classroom. Time blocks are embedded in our Distance Learning plan so that elementary teachers will be able to pull students into small groups for Designated ELD instruction, and our secondary ELD teachers will continue to have class periods for Designated ELD instruction. The times for instruction do not interfere with ELL students’ access to Tier 1 instruction. We will continue to use our adopted ELD instructional curriculum and materials as well as supplemental resources provided to all students, such as Raz, with access to leveled texts and reading records, and myON (similar), as well as Imagine Language & Literacy, a tech-enabled, adaptive program for all our ELL students in the Remote Program and our Newcomer students in the Flexible Program. This additional purchase was prioritized for our Remote Program students because the Remote Program is more self-paced and independent, and want to make sure students have additional opportunities to practice and demonstrate their Speaking and Listening skills. Newcomer students were also prioritized given their need for additional supports.

Teaching & Learning coaches will support general education teachers with integrating EL strategies into their instruction and providing added supports and scaffolds for English learners in order to support the development of Academic Language skills. This year, we’ve narrowed our EL strategies to our district-wide “Daily High-Impact Language Practices,” for which we will provide initial training and ongoing support. Middle and high school teachers will also continue to use Constructing Meaning strategies modified for online learning.

Actions related to the Distance Learning Program [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing
In-person materials \$379,564.58 Online materials \$358,913.73 Curriculum: Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction: Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards Teachers build positive relationships with and among our students to create the conditions for learning	\$738,478	Yes

Pupil Learning Loss

[A description of how the LEA will address pupil learning loss that results from COVID-19 during the 2019–2020 and 2020–21 school years, including how the LEA will assess pupils to measure learning status, particularly in the areas of English language arts, English language development, and mathematics.]

During the 2019-20 school year, students participated in Distance Learning for the last three months of school. During that time, we observed variance in participation rates. As we begin the 2020-21 school year, it is important to determine how COVID-19, distance learning, and participation rates affected the academic mastery of our students. AUSD intends to administer the Star Reading K-12 and STAR Mathematics Assessments K-5, and the Mathematics Diagnostics Testing Project (MDTP) 6-12. Currently, three administrations are

scheduled: Fall, Winter, Spring. The Fall administration will function as the baseline to both observe growth during the 2020-21 distance learning program and ascertain potential opportunity gaps created by the pandemic. Data from Fall will be disaggregated into student groups, grade levels, and school sites. Site leaders and teachers will have access to individual student scores to plan interventions. Scores will be compared to previous average scores for the Fall administration of the Star assessment and MDTP for students who took them at that time. For students who have Individual Education Plans (IEPs), individual learning loss will be assessed based upon assessments, accommodations, and/or modifications articulated in the Individual Education Plans (IEPs).

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In addition, our LCAP names that we will increase capacity and systems for data-driven improvement. In order to continue to do this we must implement an academic diagnostic/screening tool so that we can increase the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports. With this data available, learning loss will be addressed in both our remote learning program and our flexible learning program models with built in time for teachers to hold equity based small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. In the next session our systems and strategies are described in more detail.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: MDTP - The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

In TK-5, we developed the Equitable Start schedule to allow teachers to get to know their students, families, and assess students' specific needs in order to inform their instructional planning. Teachers will use information from these meetings to create specific Tier 2 and 3 small group learning experiences.

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning

- Weekly engagement review

- Connections with parents and families to learn of student needs
- Teacher created assessments

English Language Learners will receive Designated ELD for 30 minutes a day and Integrated ELD through daily content

Based on the needs of students, teachers will work with students in small groups or one to one to provide Tier 2 and Tier 3 supports based on skills or standards mastery needs.

Pupil Learning Loss Strategies

[A description of the actions and strategies the LEA will use to address learning loss and accelerate learning progress for pupils, as needed, including how these strategies differ for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils experiencing homelessness.]

Learning loss will be addressed in both our Remote and Flexible learning models For both our remote learning program and flexible learning program models grades TK-12, time will be embedded in the schedule forwith built in time for teachers to hold equity based Tier 2 and Tier 3 small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. This time is for the purpose of providing additional support to students who most need it. Teachers will track student progress and review during Wednesday professional learning time. Staff will have structured collaboration time to engage in improvement cycles including reviewing student assessments, planning instructional shifts and strategies based on data, establishing clear outcome goals, debriefing lessons as a team, and reflecting on their practice. All of this will be done electronically, using a video conferencing platform if in the distance learning model.

In addition, sites will track achievement data and meet in Coordination of Services Teams (COST) to coordinate potential services for students performing below grade level standards. COST can consist-- Academic services include small group targeted instruction consisting of strategically placed students. These small groups of students will be assessed to determine growth in six week cycles. If a student is not making progress, COST will collaborate to regroup students and try different researched based interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students performing below grade level, but also our most vulnerable students including low socio-economic students, English learners, foster youth and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well.

We know that the burden of school changes has fallen disproportionately on students with greater needs and they will undoubtedly need more focus and attention. Based on Distance Learning in the spring, families reported experiencing anxiety about learning loss in their students with disabilities, difficulty keeping their students engaged in the virtual environment, worry about their students' social-emotional state, and frustration with not being able to receive some in-person services detailed in their IEPs. In addition school closures upended many students' Individualized Education Plans (IEP). In AUSD, our Special Education Department is working proactively to respond to the Covid-19 pandemic and what it means to provide continuity of learning during this time of distance learning. For special education students in AUSD, the IEP team will use the Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans for each student with an IEP. The IAP does not change the district's offer of a Free and Appropriate Public Education (FAPE) to students. These "Contingency" plans as defined by SB 98 to address student needs for instruction and related services that align

with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: Math Diagnostic Testing Project-MDTP- The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning:

- Weekly engagement review
- Connections with parents and families to learn of student needs
- Teacher created assessments

Assessments will be administered on an ongoing basis, The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

Kingmakers program:

Kingmakers of Oakland (KOO) provides Khepera Curriculum consulting to Chief Academic Officer. Khepera Curriculum consulting will support the implementation of the "Mastering Our Cultural Identity: African American Male Image" course at four AUSD school sites. Chief Academic Officer will participate in the KOO Learning Collaborative - Strategic Planning and implementation with Cross Functional, Intergenerational Team to address the systems, structures, conditions and culture that leads to improved educational outcomes for African American Male (AAM) students from Pre-K to 12th grade.

Summer programming

High School Credit Recovery:

Credit Recovery is an independent study course that gives students the time and support to complete course work required to receive a passing grade in a course needed for graduation or college eligibility. Credit Recovery can be accomplished through an accredited online learning platform. Select courses also meet the University of California's "a-g" requirements. High School students can take self-paced courses through the online platform that make up credit deficiencies for high school graduation. Students may work online at their own pace throughout the semester and must check in frequently with their summer program instructor (a credentialed AUSD teacher) in order to take exams and receive credits for each course. Credits earned will be posted on the student's AUSD transcript.

Elementary Summer School (TK-5):

Our Title 1/ELD summer program serves 200 students and is geared towards supporting English Language Learners and students who receive Free or Reduced lunch. Traditionally 4 weeks long, students receive reading instruction using Leveled Literacy Intervention, Math support through small group instruction, and ST Math and English Language development through integrated content.

Special Education Recovery:

1. We must address recovery per SB 98. The STAR assessment is being utilized to measure student regression areas and/or progress areas.
2. Additional Instruction was piloted in the summer months and went well per staff and parent interviews. Research-based online curriculum was applied (e.g. Multi-Sensory Reading through Lexia). Students were instructed in small groups (up to 4 students) in the areas of English Language Arts, Mathematics, and Social Skills. Any parent could sign up their student.
3. Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.
4. Additionally, we are now researching if we can offer "Learning Hubs" or in-person instruction with precautions to Moderate/Severe students. This is being explored at this time with Cabinet and the SELPA.

These opportunities are important to provide in order to respond to demands for compensatory time that have come or may come from the Spring Shelter-in-Place period. If a demand is made, parents could then be invited to join Additional Instruction Sessions and/or "Learning Hubs" if learning hubs are deemed safe.

Effectiveness of Implemented Pupil Learning Loss Strategies

[A description of how the effectiveness of the services or supports provided to address learning loss will be measured.]

As discussed in the previous sections, the Star Reading and Math as well as MDTP assessments will be administered three times throughout the year. The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

In addition, Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and Attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

The COST coordinates academic services for students performing below grade level standards in literacy and/or math. Academic services include small group targeted instruction by the classroom teacher or a specialist teacher. These small groups of students will have ongoing assessment to determine growth in six week cycles. If a student is not making progress, the COST will collaborate to regroup students and try different interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students' academic achievement level, but also on their social-emotional wellbeing. The Team also focuses on our most vulnerable students including immigrant students, low socio-economic students, foster youth, and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well through counseling services, social groups, and focused behavioral and social-emotional interventions.

District Leadership and School Site Leadership teams engage in Cycles of Inquiry throughout the year, using multiple forms of data from the above assessments and observations to determine which strategies and systems are working well and which need to be augmented to better support our students, plan for the use of these strategies, implement the strategies, review through progress monitoring, and adjust as needed.

Actions to Address Pupil Learning Loss [additional rows and actions may be added as necessary]

Mental Health and Social and Emotional Well-Being

[A description of how the LEA will monitor and support mental health and social and emotional well-being of pupils and staff during the school year, including the professional development and resources that will be provided to pupils and staff to address trauma and other impacts of COVID-19 on the school community.]

School closures and social isolation have affected all students, but particularly those living in poverty. Adding to the damage to their learning, a mental health crisis may be emerging as students have lost access to services that were offered by schools. In this new school year, teachers will face a pressing issue of how to help students recover and stay on track throughout the year even as their lives are likely to continue to be disrupted by Covid-19. To assess and strategize with students and family, the following structures are set up in our distance learning program.

Social and Emotional Learning:

School site's Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

Teachers follow the predetermined protocol for referring students to COST, including logging all pre-referral interventions into AERIES. Intervention Leads will utilize the COST Data Tracker to monitor student referrals and progress through the COST process.

Attendance Monitoring (per SB 98):

- AUSD Tiered Attendance and Re-Engagement

Tools for Assessing Student Basic Needs:

- Monthly needs survey for students (two surveys developed - one for elementary and one for secondary)
- Monthly needs survey for families assessing food, housing, internet, mental health
- Monthly Family Survey: <https://docs.google.com/forms/d/1nbnDRN-nb4fOXVF26krQBps5kp4c84C3C92W43hwLuQ/edit>

If a student or family indicates via the monthly survey that they are lacking food, housing, internet or indicate a need for mental health services, they are referred to COST for coordination of services with outside agencies and case management.

Indicators That Mandate an Immediate COST Referral:

- Suspected abuse, neglect or domestic violence (This also necessitates a call to CPS)
- Self harm behavior
- Suicidal ideation (follow AUSD suicide prevention policy)
- Academic Need (Below 10th percentile in STAR)

During Wednesday Site level professional learning, in addition to a focus on using priority standards, professional development will focus on Restorative Practices, Trauma informed instruction, building relationships, and Social and Emotional Learning.

Pupil and Family Engagement and Outreach

[A description of pupil engagement and outreach, including the procedures for tiered reengagement strategies for pupils who are absent from distance learning and how the LEA will provide outreach to pupils and their parents or guardians, including in languages other than English, when pupils are not meeting compulsory education requirements, or if the LEA determines the pupil is not engaging in instruction and is at risk of learning loss.]

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)
Synchronous = 25
Asynchronous = 155
Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)
(M/T/TH/F)
Synchronous = 120
Asynchronous = 125
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 200
Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 150
Asynchronous = 95
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 165
Asynchronous = 150
Total = 315

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

After teachers have made the primary calls and attempts to reach students who students are identified who are not meeting the compulsory education requirements and are unable to reach them, students will be referred to the site Intervention Leader and/or Family Liaison so that they are able to follow-up, attempt contact via phone or home visit, and then refer to COST.

Family Engagement and Training:

In order to have quality and high impact Family Engagement we must ensure the following:

- Multiple channels for accessible communication and feedback
- Staff are trained on Family Engagement
- Common priorities are developed to support students needs (prioritizing in-person and asynchronous learning for students with highest needs)

August Family Learning Conference (via Zoom, Facebook Streaming, and videos) to help parents/guardians support their children academically, socially, and emotionally during the coming school year. Our goals:

- Overview of the Flexible and Remote Learning Programs
- Help parents/guardians learn how best to support their children during distance and remote learning
- Teach parents/guardians to use various educational technology programs
- Show parents/guardians how best to stay connected with AUSD and their school sites

Continued family learning opportunities for supporting student engagement:

- Education Services: Primary and Secondary Parent Presentations on Grade Level Standards
- Collaboration with PTAs, ELACs, Equity and Inclusion Committees to pivot into inclusive and equitable practices; including sharing of islandwide asynchronous learning opportunities
- Family and Community Liaisons supporting Title 1 and multilingual communities to navigate Flexible/Remote learning times. Including School Smarts in English, Spanish, Chinese, Arabic, Vietnamese). New Mongolian language affinity group starting!
- Capacity Development for site level School Site Council (SSC) Leadership and DELAC
- CAC (LCAP) leveraging community leaders to support our journey through this pandemic.

School Nutrition

[A description of how the LEA will provide nutritionally adequate meals for all pupils, including those students who are eligible for free or reduced-price meals, when pupils are participating in both in-person instruction and distance learning, as applicable.]

When the school year starts in distance learning, breakfast and lunch meals will continue to be available for purchase at full price, reduced price, or free, depending on eligibility. (We are still waiting to hear from USDA if they will extend its current waiver to allow free meals during the regular school year to all regardless of eligibility).

Meals will be available for curbside Grab-N-Go pick-up Tuesdays and Fridays 11am-12pm at the following locations beginning Friday, August 28:

- Academy of Alameda, 401 Pacific Ave
- Earhart Elementary, 400 Packet Landing Road
- Encinal High, 210 Central Ave
- Lincoln Middle, 1250 Fernside Blvd
- Love Elementary, 2025 Santa Clara Ave
- Paden Elementary, 444 Central Ave
- Ruby Elementary, 351 Jack London Ave
- Wood Middle, 420 Grand Street

Families will be provided multiple days' worth of meals at a time. Parents or guardians may pick up meals for their children and can pick up from any of the following sites listed above regardless of which school your child attends.

Alameda Unified School District understands that the COVID-19 pandemic has brought hardship for many families in Alameda schools. Your child(ren) may qualify for free meals or for reduced price meals for the 2020-21 school year. Applications are now open, and you can access them online at MySchoolApps.com or on Alameda Unified School Districts website's Meal Applications page. For support, please contact our Food and Nutrition Services Office at 510-337-7079 or email us at nutrition@alamedaunified.org.

Additional Actions to Implement the Learning Continuity Plan [additional rows and actions may be added as necessary]

 T&L - Coordinator (Steam/Lang/Comp/Data): \$312,082
 Teen Parenting Program @ Island: \$141,490

 Grand Total \$4,928,360

[A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.]

The three-year Local Control and Accountability Plan describes the goals, actions, services, and expenditures to support positive student outcomes that address state and local priorities. The LCAP provides an opportunity for local educational agencies (LEAs) to share their stories of how, what, and why programs and services are selected to meet their local needs. Enacted along with California's Local Control Funding Formula (LCFF) regulations, the LCAP includes the requirement that districts outline their use of LCFF Supplemental and Concentration grant funding. These funds must be used primarily to serve unduplicated students. Unduplicated students are those students that are Socioeconomically Disadvantaged or English Learners. As a district with less than 55% unduplicated students, AUSD does not receive Concentration grant funding. AUSD does receive supplemental grant funding. This funding is used for centralized actions/services as well as distributed to sites for site-based unduplicated student supports.

AUSD allocates a significant portion of its LCFF Supplemental funding to school sites on a per-unduplicated pupil basis. The remaining LCFF Supplemental funds are retained at the central office level and used to enact broader actions/services such as supplemental resources for English Learners and provide specific services to school sites via targeted funding. This targeted funding includes actions/services such as the restoration of afterschool programming at selected sites with high unduplicated populations.

Regardless of the program (Flexible or Remote), we know resources including time are scarce. Focusing our district will allow us to deepen our support and practices to ensure we make the most of our time with students.

During the 2020-21 School Year, our Academic Guidance has a specific focus on the following:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards
- We integrate social emotional and trauma-informed approaches as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning

We have an intentional focus on creating access for our students, specifically our foster youth, English learners, and low-income students. We know that if we are focused on student talk, equity and rigor, we will be able to create successful outcomes for our students.

STAR Renaissance Assessment System: - Star Early Literacy, Star Math and Star Reading were purchased for all elementary and middle schools and MyOn access to online reading materials from Renaissance Learning - assessments to be given on multiple occasions throughout the school year. Prior to the 2020-2021 school year our district had purchased Renaissance Star Reading and Math for middle school, Star reading for 4th and 5th grade, and some star early literacy, reading and math licenses for a couple of schools that "opted in" for giving it to 1st-3rd graders. Due to school closures in March and moving into distance learning without a clear learning plan for students, we know that there will be learning loss for many students, and most pronounced for our unduplicated students. Racial and socio-economic achievement gaps will most likely widen because of disparities in access to computers, home internet connections and direct instruction from

teachers. In order to measure this learning loss, our district will need a reliable assessment tool and plan for consistent assessment. This school year we have increased licenses to include the capacity to assess all students, K-8, in early literacy and/or reading, and math. This will increase services for elementary students.

Fountas and Pinnell leveled books: Online materials and resources were purchased to support students who need extra support in reading. Our literacy coaches and RTI teachers pull small groups to provide reading intervention. This support staff use data to inform which students need the extra support and isolate the focus of the intervention based on need. Interventions are provided in six week cycles with a pre and post assessment. Grouping and exit decisions are determined using data. A majority of the students in our intervention groups are students who are included in our district sub groups of Black/African American students, low socio-economic students, English learners, foster youth and homeless students, though all students in need of this targeted academic support benefit from this system.

Curriculum and Supports for students with IEPs are meant to support students at their individual learning level and are adaptive to their needs. For instance, both ISME Orton Gillingham and Lexia use a multi-sensory approach to support struggling readers. Among these curricula are:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

BrainPop EL (Flexible) and Imagine Learning (Remote): Our designated ELD curriculum allows students to explore language in playful ways so they gain lots of ways to express themselves in speaking and writing. When delivering ELD in distance learning it will be more difficult for students to show their understanding because of the less personal platform of video conferencing. In addition students will have significantly less opportunities to experience the realia and visuals used to teach ELD in this model. In response to the need for supplemental ELD support due to this changed method of teaching, our district purchased BrainPop EL and Imagine Learning as an extra support. These programs are comprehensive English language learning programs for students of all ages. The programs feature short, animated movies as well as games, quizzes, and interactive features. It encompasses the four main language skills: listening, speaking, reading, and writing. This extra support will give EL students extra time for engaging in English learning activities.

Alameda Island Kids (AIK) Program for Title 1 Elementary Students:

We have been able to partner with the AIK childcare program to provide 8-4 child care support to 28 of our most in need students from our three Elementary sites that receive Title 1 funding. During this childcare program students are given support with their synchronous and asynchronous learning, provided with enrichment, and provided with meals.

RE: AUSD Learning Continuity and Attendance Plan

Dear Superintendent Scuderi, President Bonta and Members of the AUSD Board of Education:

Thank you for providing ASPED Families with the opportunity to provide written feedback for the district's Learning Continuity and Attendance Plan (LCP) on how Covid-19 and school site closure has impacted over 1,000 students with disabilities currently enrolled in Alameda Unified public schools. We have included many direct quotes from families to help humanize the loss and frustration experienced by many of our students with disabilities. It is our deepest and most profound wish that our education leaders and community recognize the sacrifice families have made during these emergency conditions and respectfully ask for solutions to the problems identified in this letter.

This letter is broken into five parts. The parts included are:

1. Covid-19 impact for academic year 2019-2020
2. Covid-19 impact for academic year 2020-2021
3. Comments related to assessments for learning loss
4. Comments related to interventions for learning loss
5. General comments related to the Learning Continuity and Attendance Plan

COVID-19 impact for academic year 2019-2020 The LCP as currently drafted does not adequately describe the full impact on students with disabilities during the 2019-20 school year. During school site closure and spring distance learning, Alameda Unified suspended all special education IEP services, postponed IEP meetings that were previously scheduled, suspended progress monitoring of all IEP goals and suspended assessments used to requalify/qualify students for special education. In addition to postponing already scheduled IEP meetings, AUSD failed to follow 30-day timelines when parents requested IEP meetings to discuss the suspension of special education services and their concerns about the obstacles related to accessing the

District's new distance learning program. Once IEP meetings resumed, the District would not honor requests by parents to discuss their concerns about accessing distance learning in IEP meetings during the 2019-2020 academic year. This decision by the district, denied communication and collaboration afforded by the IDEA to parents/caregivers and students with disabilities.

The impact of these unilateral decisions made by the District vary from student to student and family to family. However, there are several consistent themes conveyed by families during this time period. There are as follows:

1. Failure to provide services as specified in IEPs (even virtually), led to regression in behavior, social and emotional and academic skills while attempting to access distance learning as observed by parents and caregivers. 2. Frustration, fear and sadness for parents who found themselves having to fill school-based staff responsibilities (ex. speech and language pathologist, physical therapist, special education teacher, occupational therapist and paraprofessional) while simultaneously working full-time. 3. Worry and anxiety for the future academic, social and emotional, and behavior trajectory of their student including transitions from prek to elementary, elementary to middle school, middle school to high school, and high school to transition services. 4. Feelings of hopelessness when the District suspended primary communication and collaboration avenues (scheduling IEP meetings) to have parents' concerns heard and addressed. 5. Feelings of frustration from parents of students with disabilities grades Prek - 2nd grade and the expectation to access distance learning through chromebooks when keyboards and the delivery of learning through zoom and other websites aren't developmentally appropriate. 6. Students with classic autism, high anxiety and related attention and behavior needs were unable to maintain attention during Zoom meetings, follow teacher directed whole class instruction independently or with virtual support from a paraprofessional, and complete the assigned activities even with modifications by the special education teacher in the home environment.

The District supplanted services with "tailored supports" but these "tailored supports" were not IEP services delivered virtually. Instead, these "tailored supports" included:

- Office hours by service providers and case managers where no instruction or interventions were provided.
- Unspecified accommodations for students that were designed without discussion or consent from parents and outside the purview of IEP teams and IEP meetings.
- Supplanted evidenced-based and district approved curriculum (such as Transmath and Language Live) for students placed in Intensive Academic classrooms with non-evidenced-based and inappropriate online curriculum such as Moby Max.

"I felt pretty much abandoned last spring. My 2nd grader got zero speech and OT time once distance learning went into effect. Our speech therapist uploaded a bunch of stuff to google classroom basically shifting the responsibility of implementing the "therapy" to parents.

While special education services resumed this fall, all of it is in virtual small groups and not all that helpful. The time spent with a special education teacher has been significantly reduced compared to the SDC class had my student been able to remain with his classmates. Based on our own family circumstances we applied and accepted the remote program in order to reduce the risk to Covid-19. Unfortunately there isn't an equivalent virtual SDC classroom for my student to get the level of individualized support he needs.

I sometimes feel overwhelmed."

Parent of a SpEd 3rd grader in Remote Program

COVID-19 impact for academic year 2020-2021 The LCP as currently drafted also does not adequately describe the impact or potential impact of COVID-19 for the 2020-21 school year. The District has resumed IEP meetings and some related services and is monitoring progress towards IEP goals however, assessments related to requalifying and qualifying for special education have not fully resumed. In addition, the District's two models for distance learning (flexible and remote) have not virtually replicated mild/moderate or moderate/severe SDC classes that existed during on-site instruction. Based on these decisions made by the District, students with disabilities and their families have expressed the following concerns and observations:

1. There is a growing backlog of evaluations for special education. Families and students caught in this backlog have concerns about appropriate placement, services, goals, accommodations and supports their student needs in order to receive a free and appropriate public education (FAPE) with meaningful benefit. Without reliable special education evaluations, IEP teams cannot create meaningful IEPs for students who qualify. The longer this problem persists, the more students with disabilities risk being denied a FAPE.
2. Students with disabilities once placed in mild to moderate classes like Academic Strategies classes for math and ELA in HS and MS prior to Covid-19, have been placed in general education classes without the necessary support to complete assignments.
3. Elementary aged students with disabilities that were once placed in mild to moderate SDC classes during on-site instruction are placed in general education virtual classrooms in the remote program led by general education teachers.
4. Many students with disabilities continue to be unable to access all aspects of distance learning and virtual special education services including those with classic autism, physical impairments that require hands-on support provided by physical therapists and paraprofessionals, high anxiety, and attention related disabilities.
5. Parents and caregivers are observing that as part of the District's new

"IEP-aligned plans" their students with disabilities are receiving fewer services and in larger groups than during on-site instruction (i.e. 20 minutes of speech with 5 other students in a small group during distance learning vs. 30 minutes of speech with 2 to 3 other students during on-site instruction; or 40 minutes once per week, vs. 20 minutes twice per week).

"After 6 months of loss of meaningful speech, occupational therapy, and educational services, our family is looking to move out of state. The expectations of remote learning are unreasonable for mature elementary students, much less preschool 3 and 4 yr olds with special needs. The effects are devastating on behavior, with regressions commonplace. There is no way to work AND effectively assist a preschooler in virtual special education preschool. I don't even have childcare to be able to access the office hours for the therapists."

Parent of PreK

Student

3. Comments related to learning loss and STAR assessments The Learning Continuity and Attendance Plan (LCP) relies heavily on STAR data to quantify learning loss. This is not sufficient for a variety of reasons but the most important reason is that STAR data collected and going forward is typically compared to other STAR data from across the country. If every student is being impacted by COVID, then the entire data set is "lowered" for lack of better language. Because of this phenomenon, learning loss will likely be harder to quantify and identify with this type of assessment. We don't want to compare our current levels of student achievement to what's happening in other districts and communities across the country, especially for our students with disabilities. If the District collects STAR data and compares it to past data collected on the same

student, this might be useful in determining learning loss for our general education students, but not necessarily for our students with disabilities. STAR testing was not specifically designed with students with disabilities in mind but it is marketed and applied to students with disabilities regardless. Measuring learning loss for students with disabilities requires additional data, including:

1. Attendance, including time spent learning independently. This presents a challenge since many parents and caregivers are reporting that neither synchronous remote learning via “zoom” nor asynchronous independent learning time are accessible to their students. 2. Data from student IEPs, including comparing original baselines or last recorded progress information for IEP academic goals from the 2019-20 school year with baselines/progress data collected fall

2020-2021. If there is a regression in this data, then there should be intervention programs/practices put in place to help these students. 3. The intensive academic intervention curriculum (Transmath and Language Live), provides placement and progress monitoring assessments. This data should be collected and analyzed when determining learning loss. 4. The district has used the San Diego Quick and CORE reading assessments to determine baselines for students in reading. These should be named and considered as part of identifying learning loss. 5. There may be other assessments used district wide specifically for special education and if so, they should be named in the LCP.

On page 28 of the LCP under section “Special Education Recovery” it states that “Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.”

- Will instruction be offered for all academic classes or just math and reading?
- What staff will deliver the instruction?
- “Soon” is not specific enough. Please include a date when students will be identified and when instruction will start.
- What time of day will this instruction be delivered? How often will this instruction be delivered during the week?
- What is the duration for each session?
- Will this instruction be delivered 1 to 1 or in small group or both?
- How will parents know if this instruction is helping the student? What data will be collected and shared with IEP teams and how often will this data be collected?

“As a parent with 4 children we had no issues with school until our youngest with special needs started attending school. She is only 6 years old. We find the school team unsupportive. Our 6 year old has regressed due to SIP. AUSD only provides minimal support. The whole distance learning experience has been damaging. Our child cries and is so frustrated. We asked for a paraprofessional and were denied. We had to hire a tutor privately and other therapy in addition to an advocate. We receive less than 1 day notice of special education sessions. Our child needs advanced notice. This happens repeatedly.”

Parent of 4 children, 1st grader receiving special education services

4. Comments related to interventions for learning loss and increasing engagement during distance learning

We support Learning Hubs that provide in-person on-campus supports for students with disabilities unable to access distance learning in the home environment. Many of our most impacted students with disabilities are unable to access distance learning in its current format. 2. We support after class one-to-one tutoring especially in math for students currently not meeting pre-Algebra and Algebra requirements.

3. We support one-to-one tutoring for students with dyslexia to supplement the explicit, systematic, multi-sensory instruction (Structured Literacy) they receive during specialized academic interventions. 4. We support partnering with Non Public Agencies (NPAs) to provide in-home services when virtual services have been attempted and failure to engage the student has been observed repeatedly and persistently. 5. We notice that the LCP describes current practices and policies in place to support struggling students through MTSS. However, we anticipate an increase in the number of struggling students and an increase in the severity of the academic achievement gaps. It's unclear in the LCP if the District intends to use the funds to increase the scale of this program or the interventions available. If so, please provide the details that recognize the projected increase in the number of struggling students in tiers 2 and tiers 3.

“My son is a Sophomore at AHS and has auditory/slow processing disability. When the SIP happened his case manager/academic strategies teacher took a leave of absence and he didn't receive any support. This fall they forgot to put him in Academic Strategies and there hasn't been any support for him either. We are basically on our own. He is struggling with accessing and completing assignments. There is no support whatsoever.”

Parent of High School

Student

5. General comments related to the Learning Continuity and Attendance Plan

1. We are very concerned about the lack of specific details related to homeless and foster youth and the support they will be given to reduce chronic absenteeism and suspension rates. This specific population was underserved prior to Covid-19 as determined by the 2018 and 2019 CDE student group reports. In addition, homeless and foster youth need increased interventions for English Language Arts and Mathematics as determined by the same CDE reports. The District needs to name roles, funding, practices and programs that will address these long standing issues.

2. We are concerned about the increase in absences and the number of students dropping out of school during school closures. The LCP provides a detailed explanation of how the District intends to track and document absences however, it does not provide sufficient details on the policies, practices and programs designed to engage students with chronic absences and students who are dropping out. Students with disabilities fail to graduate at much higher rates than the general population. 3. Some families have reported that their case managers have not provided them with “IEP-aligned contingency plans” as specified in the District's communications. Sadly, some students have been attending distance learning for five weeks without a clear understanding of how their IEPs are being implemented. A few families in the remote learning program have reported not knowing who their student's case manager is. The reality shared by some families is

inconsistent with what's being described in the LCP. 4. On page 36, there are no specific details about how staff roles funded through

the LCP are defined and allocated based on ELL, foster youth, and low-income students. This includes the \$732,953 allocated for Instructional Coaches, \$158,283 for the Student Services coordinator and the Teaching and Learning coordinator for \$312,082. Did these roles exist prior to Covid-19? If so, how have these roles changed in order to meet the needs of our ELL, foster youth, low-income students with disabilities in this moment? 5. On page 36, there are site discretionary funds equal to \$324,114 without

explanation of how these funds will be spent in such a way that will effectively meet the needs of ELL, foster youth and low-income students with disabilities. 6. We request that a link to this letter be included in the final LCP.

We welcome communication and collaboration with the district and the board in order to meet the urgent and long-term needs of our students. We want to recognize and elevate the voices in our special education community as they advocate for dignity and respect during this time of distance learning. We stand as allies with English Language Learners with and without disability and refer to their letter for specific feedback.

Thank you for your consideration,
Heather Clapp Padgett and Christine Strena, Co-Chairs ASPED Families

September 30, 2020

Dear Members of PTAC,

Thank you for sharing your feedback on the 2020-21 Learning Continuity and Attendance Plan (LCP). We appreciate the time you took to provide such a detailed analysis.

The Learning Continuity Plan is not meant to be a substitute for the Local Control Accountability Plan (LCAP), which explicitly describes our program and budget for unduplicated students. Rather, the LCP is a snapshot of how our district responded - and continues to respond - to the pandemic. This does include how we plan to mitigate the impact of the pandemic on our students who meet the unduplicated criteria (Foster Youth, English Language Learners, and students who qualify for free or reduced lunch) as well as our students who have Individualized Education plans. While we plan to continue to focus on and respond to the needs of our most vulnerable students, full explication of those efforts is best saved for the next iteration of our LCAP.

Since March, we have worked hard to hold multiple types of engagements with our stakeholders to receive feedback on the best way to respond to the pandemic and support students learning during the 2020-21 School Year. We took this feedback and used it in all of our planning, including in crafting the Learning Continuity and Attendance Plan. While we believe that we engaged multiple stakeholders in this process, we do know that there are important ideas and feedback that must be incorporated into the final LCP.

Upon reviewing the PTAC sponsored feedback, we found there were some elements that absolutely can be incorporated into this year's LCP, other elements that should be addressed in our next full Local Control and Accountability Plan (LCAP), and some that will be better addressed specifically by AUSD's Special Education Department, as detailed below.

We have heard your concerns about ensuring that we are painting an accurate portrait of the impact of the pandemic on our students, specifically our students with special needs. We understand the specific and intense burden born by our students with disabilities under distance learning. We have listened carefully to the feedback provided by our families of students with special needs and done our best to respond to that feedback and alter our instructional programs as best we can under current health orders. We do not believe the LCP is the place to detail all of the dissatisfactions stated by these families, but we have added language that we hope captures the difficulties those families have experienced.

As detailed in the Prior Written Notice on [September 2, 2020](#), the District plans to provide students' operative IEP to the greatest extent practicable, whether the student is in the flexible or remote learning program, through students' emergency plans, called "IEP Aligned Plans". The IEP Aligned Plans delineate student needs and services during emergency times as required by Senate Bill 98. Parent input into the IEP Aligned Plan is welcomed through contact with their student's case manager. For concerns regarding access to any aspect of distance learning and virtual services and supports, parents should contact their child's case manager as soon as possible. Assessments for each student with a disability will be determined by their IEP. Both assessments and IEPs are currently underway. Additionally, instructional programming has been based on individual students' IEPs as written in the IEP Aligned Plans. We are pleased to hear that you support the idea of learning hubs. We believe that these

hubs will be able to address many of the concerns parents of students with special needs who are served in our Mod/Severe program have expressed.

In addition to addressing the above, we have added more detail to the LCP based on community feedback. We have added more to the section on mitigating pupil learning loss for our homeless and Foster youth. We have added more detailed descriptions of how we are supporting our English Language Leaders and which online programs we are using to support their learning of Academic Language. In addition, we added details on how the Teaching & Learning program was re-structured last spring. Granted, that re -structuring was planned before the pandemic began, but we are including information on how the roles and responsibilities changed due to the impact of COVID-19.

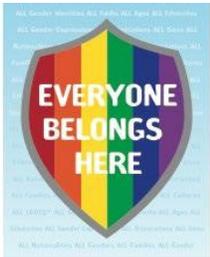

We plan to attach your feedback as well as our response to the LCP. We also plan to continue to hold engagements with our stakeholders this year to progress monitor our Learning Continuity Attendance Plan as well as re-start our Strategic Planning process. While we do not yet have clarity on next steps with the Local Control Accountability Plan, we know that our strategic planning must be directly connected to our overall plan for using our LCFF funds.

- Community Advisory Committee (CAC) meetings to review, monitor, and advise on Learning Continuity and Attendance Plan (9/29/20, 12/1/20, 2/2/21, 4/6/21, 6/1/21)
- District English Learner Advisory Committee (DELAC) meetings to review, monitor, and advise on the Learning Continuity and Attendance Plan (10/29/20, 1/7/21, 3/4/21, 5/6/21)

Specific engagement dates connected to our Strategic Planning will be announced soon.

Thank you for your continued engagement, partnership and feedback.

Pasquale Scuderi

Daily Attendance and Engagement

TIER ONE

Daily attendance is collected and monitored regularly for all students

Attendance Need

Intervention

Student is absent two days with no contact from guardian clearing the absence

- Attendance clerk calls home and documents the call in the attendance monitoring log. Daily absence call automatically generated (robo-call).

Student has unexcused absences three days, with no contact from guardian clearing the absence

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian.

Student is absent for four days, with no contact from guardian

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian again.
- Wednesday teacher (advisory teacher/home group teacher) calls other contacts on the student's record (including emergency contacts) and documents these attempts

TIER TWO

Student is absent for five days with no contact from guardian

- Teacher submits COST referral through AERIES and continues daily outreach to guardian through Parent Square
- Teacher will present all documented outreach to the COST team for review

- [Sample Script for Teachers Calling Parents/Guardians and Emergency Contacts](#)

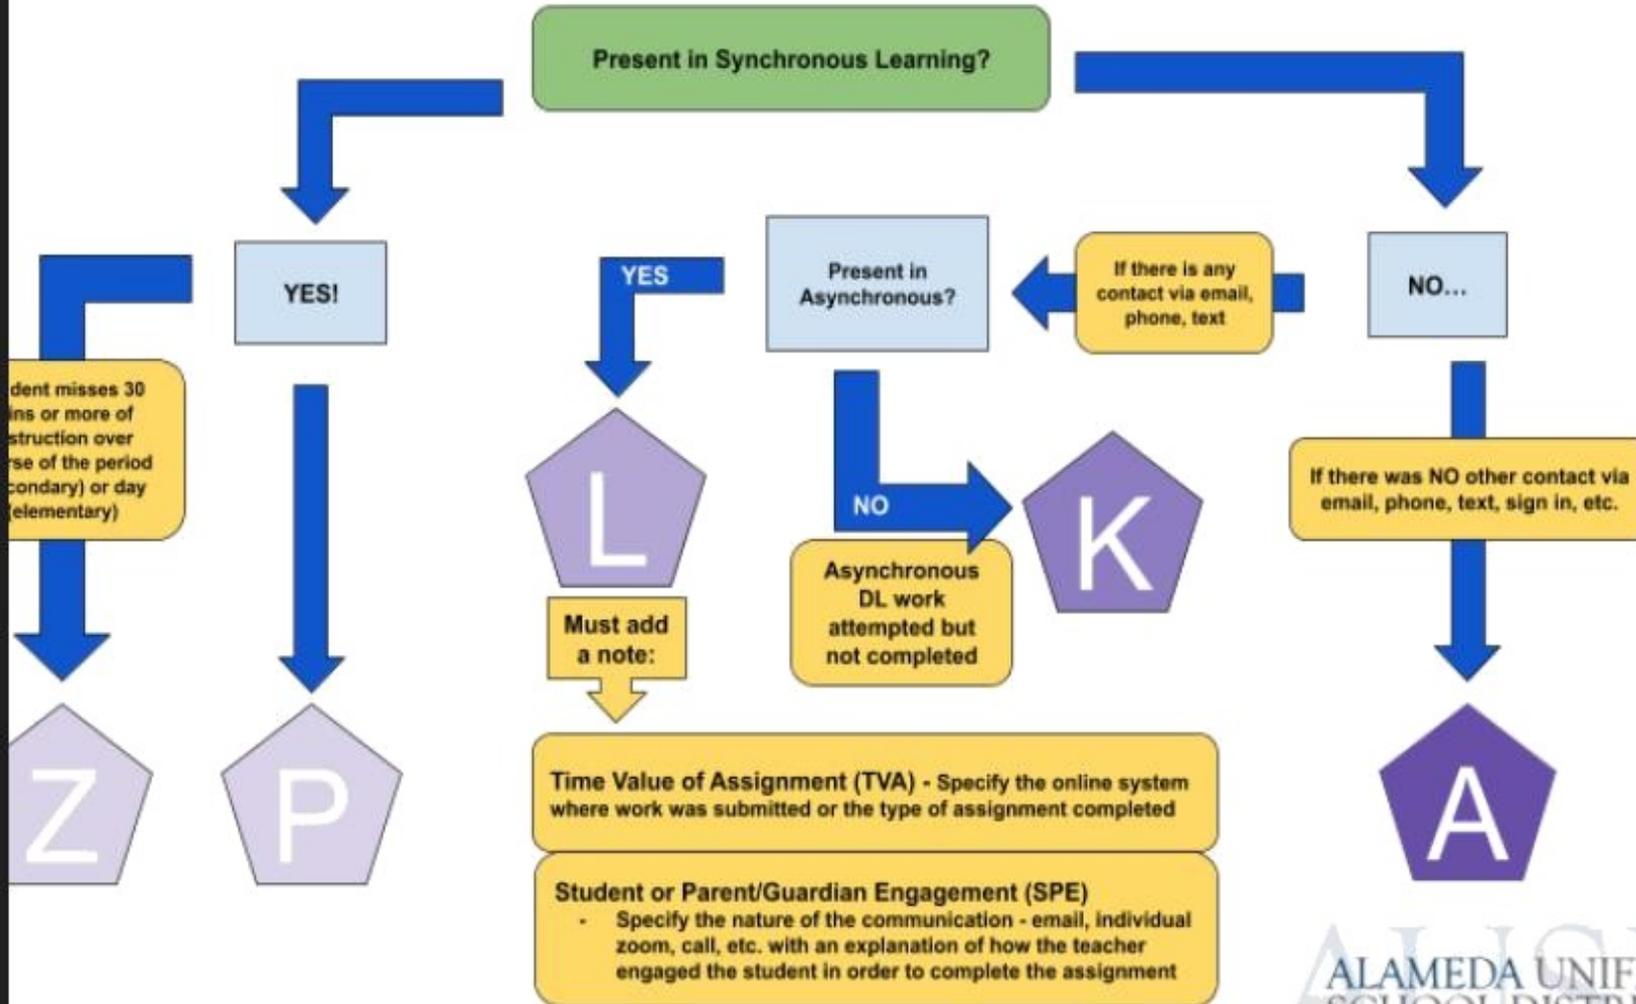

Attendance Need	Intervention
Student is absent for six days with no contact from guardian (this marks the second week of absence)	<ul style="list-style-type: none"> • COST Team will assign the student a case manager who will take over daily student/guardian outreach and documentation • A “Knock and Talk” will be initiated by school site Knock and Talk protocols
TIER THREE	
Student is absent for eight days with no contact from guardian (via phone, email, Knock and Talk, etc)	<ul style="list-style-type: none"> • COST team will request Child Welfare and Attendance Specialist to conduct a Wellness Check (20-21 Tiered Re-Engagement Wellness Check)

District Office	Intervention
Chronic Absence letters	(attach letter schedule here)
CWA Home Visits	CWA responds to COST team with results of Home Visit

Student level goals (across content, aligned to Graduate Profile)	Students dialogue about equity issues and take action to interrupt inequity		
	Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action	Read, think, talk, and write about complex texts every day	Establish and maintain healthy and rewarding relationships with diverse individuals and groups
Teacher priority practices (across content)	Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity		
	Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction	Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	Teachers build positive relationships with and among our students to create the conditions for learning
Leadership Practices	School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity		
	School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision	School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning
District Goals	We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID		
	We keep equity and rigorous content at the forefront of all decisions on what and how to teach students	We maximize interaction and independence in students' blended learning experience	We integrate social emotional and trauma-informed approaches as the foundation for learning experiences
Conditions for Adult Learning	We learn by collaborating, planning, doing, and reflecting	We have space to be vulnerable, self-reflective, and create meaning	Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Attendance Flow Chart

Mark the letter in the pentagon based on the flow chart.

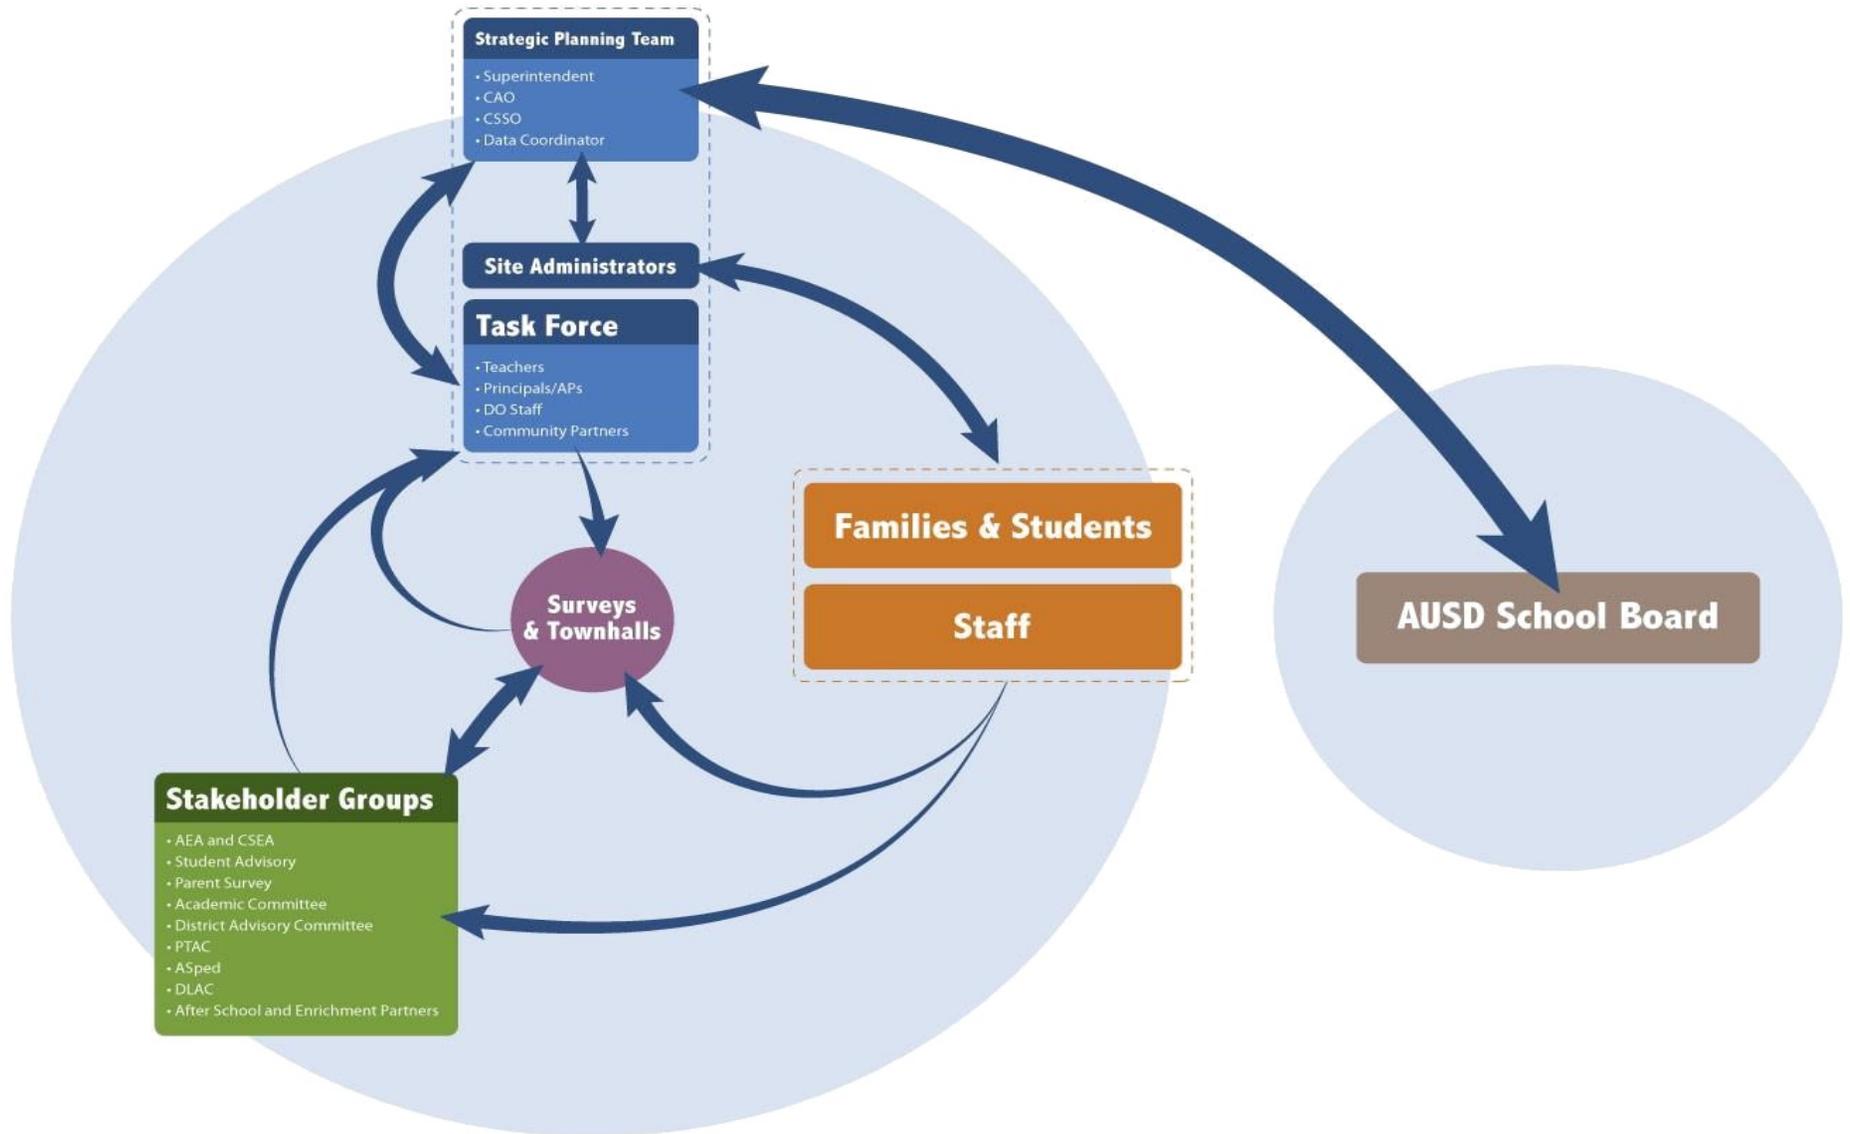

Core Value	Guiding Principles
<i>"We meet the needs of each learner."</i>	<i>Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.</i>
<i>"We develop the whole child."</i>	<i>Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).</i>
<i>"Mastery of Essential Standards through flexibility of structures"</i>	<i>Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.</i>
<i>"We will support all students to embody the AUSD Graduate Profile"</i>	<i>Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.</i>
<i>"Learning to read is key to students' academic success"</i>	<i>Our plan will prioritize students who are learning to read</i>
<i>"Coherent Systems to Ensure Students are College & Career Ready"</i>	<i>Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready</i>
<i>"We will invest in our staff in order to realize our vision for students"</i>	<i>Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.</i>

Alameda Unified School District Schools Emergency Plan for Students With Disabilities

Alameda Unified School District Schools Emergency Plan for Students with Disabilities

The Alameda Unified School District Schools Emergency Plans for Students with Disabilities consists of several components including the Model Plan, Appendices with Checklists, Forms, Sample Memos and Agreements, and Annexes. The Emergency Annex for Students with Disabilities is an incident management strategy that serves to augment the Alameda Unified School District Schools California Comprehensive Safety Plan. In order to ensure efficient and effective emergency management, the Model Plan should be implemented to the best of the site's ability and resources.

I. PURPOSE OF THE PLAN

The information contained in this document will assist school administrators, teachers, special education staff, parents, and students in planning for the support that may required for students with disabilities in the event of an emergency. For the purposes of this annex, students with Disabilities are those who cannot comfortably or safely access and use the standard resources offered in disaster preparedness, relief and recovery, whether their disability is chronic or temporary.

This plan includes procedures ensuring the full participation of students and staff with disabilities through the planning and implementation of mitigation, preparedness, response and recovery strategies as part of the overall management of school emergencies and disasters. Current thought identifies this population as those with access and functional needs (AFN).

A. Presidential Mandate

On July 22, 2004, President George W. Bush signed Executive Order 13347, Individuals with Disabilities in Emergency Preparedness, which adds to existing legislation policy to ensure that the safety and security of individuals with disabilities are appropriately supported and requires public entities to include the unique needs of individuals with disabilities in their emergency preparedness planning.

B. Planning Needs and Assumptions

For individuals with disabilities, physical environments become a great deal more hostile and difficult to deal with during and after an emergency. The ability to get to accessible exits and personal items may be reduced. Communication may be impeded at a time when clear and rapid communication is crucial to safety and survival.

To comply with statutes involving students with disabilities, individuals responsible for evacuation and emergency operation plans, notification protocols, shelter identification, emergency medical care and other emergency response and recovery programs must:

- **have sound working knowledge** of the accessibility and nondiscrimination requirements applicable under Federal disability rights laws;
- **know the students with disabilities demographics** of the students attending classes on site;
- **involve students** and with different types of disabilities and staff and teachers in identifying the communication and transportation needs, accommodations, support systems, equipment, services, and supplies that they will need during an emergency;
- **consider emergency accommodations** for those with temporary disabilities;
- **identify existing resources** within the school and local community that meet the needs of these students;
- **develop new community partners** and resources, as needed;
- **inform parents** about the efforts to keep their child safe at school;
- **identify medical needs** and make an appropriate plan;
- **determine transportation needs**, special vans and buses for students;
- **identify any necessary tools** such as personal response plans, evacuation equipment or visual aids;
- **include local responders** and establish a relationship with individual students with disabilities and their teachers.

II. STATUTES FOR SERVICES IN SCHOOL

Federal law mandates that every child will receive a free and appropriate public education (FAPE) in the least restrictive environment. Children who experience difficulties in school, due to physical or psychiatric disorders, emotional or behavioral problems and/or learning disorders or disabilities are entitled to receive special services or accommodations through the public schools. To support their ability to learn in school and participate in the benefits of any district program or activity, including emergency preparedness and school safety plans, three Federal laws apply to children with students with disabilities:

- Americans with Disabilities Act of 1990 (amended 2008)
- Individuals with Disabilities Education Act of 1975 (amended 1997)
- Section 504 of the Rehabilitation Act of 1973 (revised 1978)

A. Americans with Disabilities Act of 1990

The Americans with Disabilities Act (ADA) of 1990, including amendments which became effective in 2009, provides “a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities.” The ADA prohibits the exclusion of any qualified individual with a disability, by reason of such disability, from participation in or benefits of educational services, programs or activities.

B. Individuals with Disabilities Education Act (IDEA)

The Individuals with Disabilities Education Act (IDEA) is a 1975 federal law, amended by the Office of Special Education Programs in 1997, which ensures services to children with students with disabilities throughout the nation.

IDEA specifies 13 primary categories under the lead definition of a “child with a disability.” (See Table 1, Categories of Disability Under IDEA Law.) These federal definitions guide how states define who is eligible for a free, appropriate public education under special education law. The IDEA requires the school to provide an individualized educational program (IEP) that is designed to meet the child’s unique needs and provide the child with educational benefits.

Individual Education Program (IEP)

IDEA requires that planning for the educational success of these students is done on an individual, case-by-case basis through the development of an Individual Education Program (IEP). The IEP is a written statement developed for each child with a disability that outlines measurable annual goals for each child’s academic achievement and functional performance and specifies accommodations and modifications to be provided for the student.

Students with disabilities who are self-sufficient under normal circumstances may have to rely on others in an emergency. They may require additional assistance during and after an incident in functional areas, including, but not limited to: communication, transportation, supervision, medical care and reestablishing independence. While not explicitly stated, a component of the IEP for related services must consider the particular needs of the child to ensure his or her safety during an emergency that includes evacuation from a classroom and building.

C. Section 504 of the Rehabilitation Act of 1973

In 1978, the U.S. Department of Education (DOE) issued regulations to implement Section 504 of the Rehabilitation Act of 1973. These regulations applied to institutions receiving federal funds. Section 504, as revised, states in part: “No otherwise qualified individuals with disabilities in the United States . . . shall, solely by reason of the disability be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

Under Section 504, any student who has a physical or mental impairment that substantially limits one or more major life activities*, has a record of such an impairment and is regarded as having such an impairment is considered disabled. Typically, children covered under Section 504 either have impairments that do not fit within the eligibility categories of IDEA or that may not be as apparent as those covered under IDEA.

The Individualized School Healthcare Plan (ISHP) articulates the healthcare accommodations required for each student qualified for service under the Section 504 regulation. The ISHP assists in the safe and accurate delivery of healthcare services in school. It is specifically a nursing care plan, developed by the school nurse with parent input. A copy of this plan is included in the school disaster plan and attached to the IEP.

* Major life activities are those basic activities that the average person in the general population can perform with little or no difficulty, such as caring for one’s self, performing manual tasks, walking seeing, hearing, speaking, breathing, learning, working, sitting, standing, lifting, reaching, thinking, concentrating ,interacting with others and reading.

Table 1. Categories of Disability under IDEA Law

Federal Disability Term	Alternative Term	Brief Description/ Factors that Elevate Risk in Emergencies	Factors that Reduce Risk in Emergencies
Autism	Autism spectrum disorder	Characterized by extraordinary difficulty in social responsiveness; often resistant to environmental change or change in daily routine and experience anxiety over interruption. May be non-verbal or use argumentative communication.	Structure, routine, normalcy and familiarity with activity
Deaf-blindness		A simultaneous significant hearing and vision loss; limits the speed of movements.	Guidance from a sighted person
Developmental delay		A delay in one of the following areas: physical development; cognitive development; communication; social or emotional development; or adaptive (behavioral) development.	Minimized disruption of routine patterns of activity, modulate sensory input
Emotional disability	Behavior disorder, emotional disability	Has limited ability to understand environmental events, situations, or procedures. Needs are categorized as mild, moderate or severe. May disobey or resist direction, may panic.	Regulated sensory input
Hearing impairment	Deaf, hard of hearing	A complete or partial loss of hearing that adversely affects a child's educational performance. May not respond to auditory cues.	Written instructions, sign language, specialized communication for direction in an emergency
Intellectual Disability	Intellectual disability, cognitive impairment	Significant limitations in intellectual ability and adaptive behavior. This disability occurs in a range of severity.	Regulated sensory input
Multiple disabilities		The simultaneous presence of two or more impairments, the combination of which causes such severe educational needs that they cannot be accommodated in a special education program solely for one of the impairments. Does not include deaf-blindness	
Orthopedic impairment	Physical disability	A significant physical limitation that impairs complete motor activities, strength, vitality or an alertness to environmental stimuli	Adaptive physical equipment: cane, walker, wheelchair. May require alternative, accessible evacuation route
Other health impairment		A disease or disorder so significant that it negatively affects learning; examples include cancer, sickle-cell anemia, and diabetes	Continuity of medication management regime
Specific learning disability	Learning disability	A disorder related to processing information that leads to difficulties in reading, writing and computing.	
Speech or language	Communication disorder, stuttering	A disorder related to accurately producing or articulating the	Sign language, hand signals, specialized

impairment		sounds of language to communicate	communication for response in an emergency
Traumatic brain injury	TBI	An acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both that may affect cognition, behavior, social skills and speech.	
Visual impairment	Low vision, blindness	A partial or complete loss of vision	Guidance from a sighted person

In addition to students with disabilities specified under IDEA law, the school site administrator or designee must identify individuals with a temporary impediment such as a broken leg or hidden impairments such as asthma, panic attacks, significant allergies or heart conditions. Students with such documented medical conditions may not have an IEP in place that would highlight the need for continuing a special medical regime, particularly during a crisis or disaster.

III. MITIGATION AND PREVENTION

Mitigation is the action districts and schools take to identify barriers students with disabilities may face during an emergency and eliminate or reduce their adverse effects. A hazards and vulnerability assessment of the site will help in preparing the emergency plan and identifying improvements for safety.

A. Teacher Survey - Students Needing Special Assistance

At the beginning of each year, Special Education Staff should provide to the main office and the students' respective teacher(s) the name(s) of students that will require special assistance in the event of an emergency. The type of assistance needed as a result of an injury is also required when applicable (i.e. broken leg during the year).

- **Review** how an emergency may impact the daily routine of students with disabilities.
- **Know who is on your school site:** Identify students and staff on the site with disabilities. The school principal must be aware of all students and/or staff with disabilities using school facilities and services.
- **Identify the students** with extensive support needs and who might need extra support in emergency crises.
- **Make a list** of the students on the school site who are on medication and their medication schedule.
- **Maintain a list of all resources** regularly relied upon and determine how a disaster might affect the use of them. Examples include (use of mobility aids, communication devices and electrically-dependent equipment).
- **Identify all the stakeholders** who should be considered in the plan (family, friends, service providers, personal attendants, physicians and others).
- **Determine what short term accommodations** to provide for students with temporary disabilities (e.g., injured limb)
- **Assess** potential hazards. Review evacuation equipment.

B. Mitigation Strategies

- **Learn about the types of hazards** that may impact the school (e.g., earthquakes, floods, wildfires) and assure that emergency response procedures address each one.
- **Identify a pre-evacuation site** that is accessible to students with disabilities

- **Plan a primary and secondary evacuation route** from each location the student is in during the course of the day.
- **Arrange sufficient transportation** ahead of time to accommodate the entire students with disabilities/staff population.
- **Develop a schedule** with daily activities and classes that identifies where a student with disabilities may be located each period of the day.
- **Consider classroom location** in placement of students with disabilities. Evaluate the accessibility of nearby exits and proximity to the school nurse.
- **Conduct a test of the family notification system** to assure that contact information is up-to-date to help decrease parent anxiety during a disaster.

IV. PREPAREDNESS

Preparedness focuses on what steps need to be taken to facilitate a rapid, coordinated, effective response when an emergency occurs to keep the students safe. Collaboration with first responders in preparedness strategies and ongoing communications is essential and facilitates the safe integration of students with disabilities into emergency procedures.

A. General Strategies

Use the forms in APPENDIX A to collect information about individuals with disabilities on site, e.g., who has a disability, nature of disability, implications for the student concerning full participation in school emergency planning. Include teachers, schedules, classrooms, potential needs during an emergency, relevant strategies enabling student(s) to participate successfully with peers in general school activities.

- **Build on current accommodations**, modifications and services.
- **Develop a policy** and consent form with legal counsel for medical information. The Americans with Disabilities Act (ADA) allows medical information to be given to people responsible for assisting in evacuating disabled individuals.
- **Consult parents or guardians** concerning care considerations if the student with disabilities is isolated at school for a short term or long-term basis. Inform parents about efforts to keep their child safe at school.
- **Incorporate pre-negotiated contracts** for services that may be needed in case of an emergency (e.g., transportation, food etc.).
- **Obtain necessary equipment and supplies**, create evacuation maps and facilities information.
- **Inform and train staff** about emergency response protocols. Encourage teachers to discuss emergency procedures with parents as part of IEP meeting or other review.

B. Buddy System

Pairing students up with students with disabilities for emergency response, e.g., the “buddy system”, can help with critical backup when a skilled assistant is unavailable or separated from the class. Buddies need to be willing and capable of assisting students in an evacuation to accompany the individual to a safer enclosure or wait for emergency responders. The buddy must be acceptable to the student with a disability. Also, teachers in adjacent classrooms can be pre-assigned joint responsibility for both classes if one of the teachers is busy with an injured student.

To have an effective buddy system:

- Give the student the opportunity to select his or her own buddy.
- Identify a buddy who is appropriate (e.g. strong enough).
- Designate a backup buddy.
- Train for the specific need of the student with disabilities.
- Hold practice sessions to assure that buddies can handle their tasks.
- Train the buddies on how to communicate with the students and how to safely evacuate.

Buddies must be able to make contact quickly with the student with disabilities when the need arises. The following situations may interfere with this critical communication. Use the suggested strategy as an alternative.

- The buddy is in the building, but away from the customary work area.
Have a trained backup buddy in place.
- The buddy cannot locate the person with a disability because the person is absent.
Keep an updated roster of who is at school each day. Assign a temporary buddy when the primary buddy is absent.
- The buddy has left the class/program, and a new one has yet to be identified. *Make an effort to find a replacement as soon as possible. Assign a temporary buddy until there is a permanent buddy.*
- The buddy forgets or is frightened and abandons the student with disabilities. *Check on each student with disabilities to assure he/she is accounted for during an evacuation. Practice drills will help diffuse real-time fright.*

C. Medication Management

with disabilities may have very individualized medication schedules that cannot be interrupted without serious consequences. Medicines or medical devices may not be available in emergency shelters. Make alternative arrangements to meet these needs. Consider how medicines can be stored in an emergency. Heat waves and power outages can affect the potency and integrity of some medications. Include an ice chest and cold packs among the school emergency supplies. If there is a power outage, the ice packs can extend the safe temperature range of medications requiring cold storage until the power is restored.

Some best practices to consider are:

- If the student is on medication, ask caregivers to supply a 72-hour supply in a Ziploc bag with instructions; a refrigerated kit is also advised for medication if needed with instructions.
- Gather all medications before evacuation.
- Transport special medications, supplies and equipment with the student with disabilities.
- Carry contact and medical information for all students and provide individual medical information on a laminated card with a lanyard to be worn around the neck. See Appendix C for an example of the Emergency Medical Card.

D. Access to Communication

Communication access enables effective interaction with people who are deaf or blind or who have speech, vision or hearing limitations. Make written materials available in alternative formats (e.g., Braille, large print, disks, and audio cassettes) and provide hearing- assistive technologies such as amplified phones. Include auxiliary aids and services such as sign language interpreters. Alarm systems for fire, etc. will benefit most people if they incorporate both audible and visual elements. The hearing impaired students may be best alerted by flashing light alarms. **An emergency is not the time to learn how to work a rarely-used assistive device. The most effective communication systems are those used daily.**

- Give clear, succinct verbal instructions.
- Communicate important information through gestures.
- Pictorial representations, where appropriate, can provide quick and easily understood instruction to many individuals with limited English proficiency, and some individuals with cognitive disabilities.
- Guide students with low vision or blindness.
- Utilize electronic variable messaging boards, short message systems (SMS), teletypewriters (TTY) or telecommunications display devices (TDD), if you have them.
- Identify staff with foreign language skills, if needed.
- Have aides, buddies, volunteers and evacuation assistants practice basic American Sign Language for emergency words and instructions such as:
 - *important,*
 - *must leave now*
 - *elevator closed*
 - *emergency*
 - *fire*
 - *stairs there*
 - *keep calm*
 - *fire exit*
 - *okay*

E. Time Management

Children with disabilities are likely to respond to any form of stress following a crisis with more extreme reactions. Allow extra time for them than others to make necessary preparations in an emergency.

Some students with disabilities will need more time to comprehend the emergency. The earlier the notification, the better the chances are for a successful evacuation. Consider what are the triggers and cues for these students and anticipate rather than react. Prepare students for changes in routine. Some students may need to be more protected or isolated to minimize distractions and sources of agitation during the height of a crisis. Adult supervision may need to be more intense for a while.

Allow time for discussion of the traumatic events in a safe and familiar setting; provide choices in activities to the extent feasible to give these students some sense of control over even a small part of their lives.

F. Preparedness Supplies

Classroom Supplies. A classroom that is used for teaching students with disabilities should store disability-related supplies, assistive equipment and tools that may be required in an emergency. Parents should provide for students with dietary restrictions. Among the basic supplies to have in the classroom are:

- Batteries in different sizes, for adaptive equipment
- Lockdown kit, including portable toilet, privacy screen, toilet paper, toilet bowl liners disinfectant, and plastic bag for disposal
- Water pouches for drinking
- Water for hygiene purposes
- Copies of all students' Emergency Information Forms (secured)
- Backup copies of medical prescriptions (secured)
- Hand tools (e.g., screwdriver, wrench, pliers)
- Heavy work gloves
- Whisk broom
- Tarp
- Solar/crank/battery radio
- Cell phone and phone charger
- Flashlight and extra batteries or crank flashlight
- First aid kit

- Small ice chest for refrigerated medications
- Evacuation assistive equipment
- Protein bars (without nuts or nut oil)
- Canned fruit
- Carbohydrate-free foods for meals (e.g. canned meat, nuts, jerky)*
- Feminine hygiene supplies
- Household chlorine bleach to kill bacteria or antibacterial soap
- Facial tissues
- Whistle/noisemaker

* for diabetic students

Go Kits. Portable preparedness supplies individualized for each student's needs, called "Go Kits", are an integral part of preparedness planning. Ask parents and caretakers to provide Go Kits at the beginning of the school year. Plan for a child with special dietary needs. Designate which staff members are responsible for reminding parents to replenish their child's kit and notify the school of changes. Each Go Kit should include, as a minimum:

- Lightweight uncomplicated backpack
- Emergency Information Form – see Appendix B for example
- Medication for up to 36 hours
- Emergency Medical Card, laminated and attached to a lanyard to be worn during an emergency. See Appendix C for example. Card should include:
 - contact information
 - medical requirements
 - allergies and sensitivities
 - adaptive equipment used
 - assistance needs and limitations

G. Drills

Drill practice is very important; it increases skills and instills confidence in each individual's ability to cope during an emergency. Innovative educational techniques such as role-playing or the use of audio visual aids can also be helpful.

- Hold regular drills so that students become familiar with the procedures.
- Know how to get to all the exits.
- Practice using evacuation and assistive devices.
- Give clear, concise instructions
- Practice dealing with different circumstances and unforeseen situations, such as blocked paths or exits or buddies that cannot be located.

H. Key Practices for Certain Impairments

Emergency planning for students with disabilities should be as individual as the students. Some students may be at increased risk during an emergency and will need extra assistance or special attention. If possible confer with students and parents regarding their preference for emergency situations. Assess capabilities, limitations and needs and to determine what type of evacuation assistance will be required in an emergency for each student.

Children with disabilities generally have specific "triggers"—words, images, sounds, etc.-- that signal danger or disruption to their feelings of safety and security. If adults miss these cues, children may escalate their behavior to a point

where they completely lose control. *It is essential that parents/caregivers and teachers work together to share information about triggers and cues.* This is best done on a regular basis, such as during the IEP meeting or a periodic review meeting, rather than in response to a crisis.

There is no one-size-fits-all approach. However, there are key practices that should be considered for certain impairments.

- 1. Cognitive/Developmental:** Some students may not comprehend the nature of the emergency and could become disoriented or confused about the proper way to react. Students with hypertension, dyslexia or learning disabilities may have difficulty reading complicated directions for evacuation or response plans. Simple diagrams or pictures will give non-reading or overstressed students sufficient information to get to safety. Train your staff how to assist those who become upset. Check that evacuation routes have directional signs that are easy to follow. Practice evacuation route(s) with students regularly. Use simple diagrams or pictures to give non-reading or overstressed students sufficient information to get to safety. **Preparedness kits should include:**
 - comfort items
 - pen and paper
 - visual communication instructions

- 2. Hearing:** Provide sign language training to some staff for students who may not be able to hear emergency warnings. Have teachers practice basic hand signals for students with hearing impairments for emergency communications. Alerting devices, such as strobe lights and vibrating pagers can be used to supplement audible alarms and are useful for students with hearing impairments. Install both audible and visual smoke alarms in the classroom and building. **Preparedness kits should include:**
 - pen and paper
 - flashlight to communicate in the dark
 - extra hearing aid batteries
 - batteries for TTY and light phone signaler

- 3. Mobility:** Limited mobility may impair egress and access to locations. Arrange and secure furniture and other items to provide barrier-free paths of travel. Disaster debris may obstruct evacuation. Store a lightweight manual wheelchair, if available. Train the staff the proper way to move an individual in a wheelchair. Mobility impaired students should practice moving their wheelchairs or having them moved into doorways, locking their wheels and covering their heads with a book or with their arms or hands. **Preparedness kits for those who use wheelchairs should include:**
 - heavy gloves for making way over glass or debris
 - extra battery for electric wheelchairs recommended but may not be practical
 - patch kit for punctured wheels
 - flashlight and whistle

- 4. Respiratory:** Students with respiratory impairments may have difficulty breathing when walking distances or descending stairs. Smoke, dust, fumes, chemicals, and other odors often exacerbate such limitations. For these students, include emergency evacuation masks and respirators in

classrooms. Have oxygen and respiratory equipment readily available. Students and staff should practice putting on and removing this equipment as part of an emergency drill. **Preparedness kits should include:**

- medical schedule and dosages
- medical mask, if student can wear one
- any medical equipment needed for 72 hours
- note paper and pen

- 5. Medically Fragile:** Many illnesses can be aggravated by stress. In the event of a disaster that requires students to be at school for an extended period of time, medication may need to be administered to students with a healthcare plan. Schools should consider who will administer these medications in the event a nurse is not available during a disaster. Keep medications, authority to administer the medication forms, and healthcare plans in the vicinity of the medically fragile student.

It is the parent's responsibility to maintain medical supplies, notify the school of changes and provide new doctor's orders. It is the nurse's responsibility to remind the parent to provide medications and update orders when notified.

- 6. Speech/Auditory:** Determine in advance the best way for the student to communicate with others during an emergency. Provide written emergency and evacuation instructions on a card, carried at all times and placed in an easy to see location. **Preparedness kits should include:**

- extra batteries and chargers for communication equipment
- note paper and pen
- comfort items

- 7. Visual:** Those with visual impairments may have to depend on others to lead them to safety during a disaster and may be reluctant to leave familiar surroundings. Employ Braille signage or audible directions for students who are blind or have low vision. Emergency back-up lighting systems, especially in stairwells and other dark areas, will benefit those students with limited visual acuity. Mark emergency supplies with large print or Braille. Students should know where the nearest telephones and alarm boxes are located and how to describe their location. **Preparedness kits should include:**

- extra folding white cane
- heavy gloves for feeling the way over glass or debris
- colored poncho worn for visibility
- comfort items

I. Developing a Student with Disabilities Evacuation Plan

Creation of an Evacuation Plan should cover the evacuation, transportation and medical needs of students who will require extreme special handling in an emergency. In most cases, additional safeguards must be established regarding roles, responsibilities and procedures for students with physical, sensory, emotional and health disabilities. Review all paths of travel and potential obstacles.

- Know your school grounds, paths, exits and potential obstacles.

- Determine the primary and secondary paths of exit to be used during emergencies. Individuals with mobility impairments will need a smooth, solid, level walking surface, an exit that avoids barriers such as stairs, narrow doors and elevators and guardrails that protect open sides of the path.
- Compile and distribute evacuation route information to be used during emergency operations
- Include alternative evacuation route information, should the primary route be inaccessible due to damage or danger.

2. Install appropriate signage and visual alarms.

- Place evacuation information indicating primary and secondary exits in all offices, classrooms, multipurpose rooms, lunchrooms, hallways/corridors, lobbies, bathrooms and cafeterias. For passages and doorways that might be mistaken for an exit, place visible signs that proclaim, “NOT AN EXIT”.
- Place emergency notification devices appropriate for each student.
- Post signage with the name and location of each area so that the students will know exactly where they are. In order to comply with ADA Accessibility Guidelines for Buildings and Facilities requirements, the signage should be:
 - approximately 60 inches above the floor;
 - in a location that is not obscured in normal operation such as a swinging door;
 - in all primary function areas

3. Identify the students and staff with disabilities and the type of assistance they will require in an emergency.

- Allow visitors to self-identify on a sign-in log if they have special evacuation needs.
- Discuss evacuation issues with the staff members and caretakers of students with disabilities. Include individuals, who may be temporarily disabled (i.e. a student with a broken leg).

4. Train staff in general evacuation procedures.

- Review the areas of rescue, primary exits, evacuation techniques, and the locations and operation of emergency equipment.
- Provide in-depth training to those designated to evacuate students with disabilities. Train the staff for proper lifting techniques when lifting a person for evacuation. Anyone can assist a student with a visual impairment.
- Check on each student with disabilities to assure he/she is accounted for during an evacuation.

5. Review the plan with emergency response personnel, including local police, fire and emergency medical technicians.

- Identify “areas of rescue” in your school for students to wait for evacuation assistance from emergency personnel.
- Before school begins in the fall, walk around the site with first responders so that they are familiar with the primary exits and all areas of rescue. These areas must meet specifications for fire resistance and ventilation.
- Ask the responders to conduct a special drill explaining how they will support the students and staff with disabilities during an emergency.

6. Complete all contracts and Statements of Understanding with key emergency support providers

- Ensure that sufficient transportation capacity exists with transportation providers, partner agencies, and suppliers to effectively meet the demand in an emergency.
- Identify transportation contracts through the district in case of an emergency. Emergency response for students with disabilities requires special vans and special equipment. Specify who will do what to address these transportation needs.
- Develop a list of school-owned vehicles, staff vehicles and parent vehicles that are available and make prior arrangements for their use in the event of an emergency.

7. Review the evacuation plan with students and staff to be familiar with the process and identify any problems.

- Practice implementation of special duck and cover actions by students with able-bodied partners.
- Students should be aware that evacuation by themselves may be difficult or impossible because of obstacles in their path or because electric-dependant machines may not function (i.e. elevator).
- Special pre-planned assistance must be provided and reviewed regularly. Classrooms should have emergency activity kits with items familiar to the students. Include students with disabilities in the selection of emergency evacuation devices.
- Mobility-impaired students should know how (through practice) to get in doorways, lock wheelchair wheels and cover head with book, arms or hands.
- Train all aides who are assigned to students with disabilities in evacuation procedures.

- Provide procedures for receiving students with disabilities at the pre-designated evacuation site.
- Remind parents and caregivers that they are responsible for updating emergency information with the schools.

IV. RESPONSE

Response is the immediate reaction to an emergency to save lives and protect property. Pro-active efforts in the Mitigation-Prevention and Preparedness phases will impact the quality of response. Responses will vary depending upon the severity and intensity of the event.

A. Leadership by District of Service

In an emergency, the site administrator has responsibility for the safety of all children on the site. The District of Service, rather than the District of Residence, assumes the leadership role for all students in an emergency.

B. Assess the Situation

- Determine the immediacy of the emergency.
- Remove anyone with respiratory complications from smoke and vapors immediately.
- If not in immediate danger, stay in place until staff personnel determine the nature of the situation.
- If trapped, get the attention of others by calling out or striking object together to make noise.

C. Announce the Emergency

- 1. To Alert Deaf and Hearing Impaired** – The primary goal is to effectively communicate the nature of the situation and direct them to the appropriate route of evacuation. Students with hearing impairments will most likely be able to follow the same exit route as those who can hear. Communicate with a notepad and pen, with simple, concise speech or with sign language. Regardless of the method of communication used, convey two key messages:
 - there is an emergency
 - how to exit
- 2. To Alert Blind or Visually Impaired** – Someone who is blind or visually impaired will generally be able to evacuate the same route as sighted students, but may need some assistance. Describe the nature the emergency and offer to guide him/her to the nearest emergency exit and evacuation assembly area.

- Touch the person on the elbow gently. Identify yourself and quickly explain the situation.
- Ask if the individual has any preferences regarding how to be guided.
- Clearly describe where you are going and any approaching obstacles or protruding objects which will require a change in your walking path or pattern.
- Be protective of your space as there may be many people using the same route to evacuate.

3. To Alert Cognitively or Emotionally Impaired – It is likely that students with cognitive or emotional impairments will be able to use the same evacuation routes as the other students. The challenge is to keep them calm as you exit. If there is a buddy or companion assistant, quickly describe the situation and how to involve him or her in the evacuation. Let the student know what is happening. Keep him/her reassured

D. Lockdown/Shelter-in-Place Strategies

- Set up screens/curtains for those needing privacy for emotional issues and personal hygiene.
- Use Go Kits for immediate necessities.
- Keep students away from windows and doors.
- Use the buddy system to provide comfort and reassurance.

E. Implement Evacuation

- Carry all medication, supplies, equipment and dietary needs with student, including the 72-hour disaster kit that has been prepared ahead of time for individual student needs;
- Ask the student how he/she would like to be assisted;
- Use the buddy system;
- Inform emergency personnel of intended destination and type of assistance needed. If unable to contact emergency personnel, ask others to make the notification for assistance;
- Move to designated evacuation area. The path should be unobstructed.
- Be careful of falling debris as you leave the building.
- Provide priority assistance to wheelchair users with electrical respirators. Evacuate mobility devices with the person if possible (i.e. crutches, wheel chairs, etc).

To Evacuate Persons Using Wheelchairs:

If the person wants to be moved in his/her chair, keep the following considerations in mind:

- Turn off the wheelchair's power before lifting.
 - Turn the wheelchair so it is lowered down the stairs backwards (person facing up the stairs), so the occupant cannot slip forward out of the chair and down the stairs.
-
- Powered wheelchairs have very heavy batteries; an evacuation chair for stairs may be needed with the powered chair to be retrieved later.
 - If a seatbelt is available, use it. If the person needs to be removed from his/her wheelchair for an evacuation, ask the following:
 - how he/she prefers to be moved from the chair;
 - whether pain or harm will result from moving extremities;
 - if any equipment is needed for immediate safety of life-support, e.g. backup generator for respirator.

F. Transport Students

Transportation is a well-established component of emergency response plans, and requires planning and detailed focus for children with access and functional needs. Special transport is not provided for students with Section 504 eligibility.

- **Maintain a transportation resources** list by type and availability, including vehicle accessibility and capacity information.
- **Develop procedures for the acquisition of additional accessible transportation equipment**, securement devices, supplies, and resources before a disaster.
- **Provide staff training**, including a review of procedures for transporting persons with a variety of assistance needs, as well as the transport of service animals.
- **Identify strategies for tracking individuals** who are evacuated. Information should include the passenger's name, point of origin, departure time, final destination, and arrival time.
- **Maintain a master list of drivers** by status and availability.
- **Provide drivers with an operational roster** to complete and maintain, at minimum, with the following information:
 - Name of driver
 - Driver's telephone number
 - Time departed staging area
 - Time arrived at sheltering location
 - Vehicle number Sheltering location
 - Trip mileage

- **Determine the appropriate transportation response** for persons unable to reach a pick up/drop off location or staging area on their own.
What entity will handle such needs, and what types of vehicles/equipment will be required? Check with the school district regarding the transportation contracts and agreements.
- **Account for all students** before transportation occurs and after arrival at the destination.
- **Transport all passengers** to the pre-designated evacuation destination by the safest route. Use alternative routes only as necessary.
- **Use buses.** Consider other modes of transportation only if buses are unable to get to the school quickly or are not available. Refer to the list of school-owned vehicles, staff vehicles and parent vehicles that are available.

G. Reassess Needs

Request additional support, if needed.

H. Other Considerations for Students with Disabilities Populations

- **Store** extra batteries for electric wheelchairs and hearing aids.
- **Lead** evacuees to a safe place with other teachers and staff.
- **Remain** with the student with disabilities after the evacuation.
- **Recognize** that the fine details are unique to each student;

IV. RECOVERY

The recovery phase is designed to assist students, teachers, staff and visitors to restore educational operations in school. Recovery is an ongoing process that includes not only the mental, emotional and physical healing process of students, teachers and staff, but also restoration of the physical assets of the school (buildings and grounds) to a safe and habitable environment.

A. Restoration

- **Account** for all the students, teachers, and staff.
- **Meet the medical needs.**
- **Conduct daily debriefing** for staff, responders, and others assisting in recovery.
- **Provide stress management support** during class time.
- **Discuss recovery**, what to do with students if they must remain on site for 2-3 days.
- **Communicate with parents**, guardians and the local community.
- **Conduct after-action briefing** to capture key lessons learned and recommendations for improvements to the school plan.

B. Supportive Services

- **Needs Assessment** – quickly identify needs and the support necessary to meet them.
- **Information** – provide important information on community resources that connect school families who need help with available services and assistance.
- **Language** – ensure that critical information is conveyed in a language appropriate for non-English speaking families that the standard media may not reach.
- **Transportation** – support the mobility needs with accessible transportation resources to disaster service areas.
- **Replacement Equipment** – support students with disabilities with the guidance to acquire replacement of vital personal equipment (e.g., crutches, hearing aids, wheelchairs,
- **Reassurance**

Experiencing a disaster can be overwhelming. Stress often exacerbates existing medical conditions and may alter thought and behavior. Reassurance is the key to helping children through a traumatic time. Support individuals with access and functional needs by providing verbal reassurance and information to help orient

them to new surroundings and new routines.

- **Make sure physical needs are addressed** and medical assistance is provided, as needed.
- **Reconnect students** with family and other support systems as early as possible.
- **Address concerns** about safety. Talk to each child at his or her developmental age, not chronological age. Use language the child understands.
- **Provide information through pictures** and allow children time to see, hear, talk and draw.
- **Expect some regression** (increase in problem behaviors).
- **Deal with inappropriate behaviors** calmly and consistently—Keep emotional equilibrium.
- **Minimize the disruption.** If the normal routine is unavoidably altered, create a new one.
- **Offer concrete/immediate solutions** to abstract problems. Use clear examples. Repeat responses patiently.

After the danger has passed, the school will be anxious to return to normal. Both people and resources are needed to speed recovery. The talents of individual with disabilities should not be underestimated. Every member of a community can provide some support.

APPENDIX A

School Emergency Evacuation Planning Checklist		
	YES	NO
Do you have a roster of your students with disabilities?		
Have you identified students with disabilities on site from other school districts?		
Have you identified the medical needs of your students with disabilities and their medication schedule?		
Have you walked the evacuation paths and exits looking for potential obstacles?		
Has an evacuation site been identified that is accessible to students and staff with disabilities?		
Is the primary evacuation path marked to clearly show the route?		
Is there sufficient oxygen for 72 hours?		
Have transportation needs been identified for the students with disabilities, such as special vans and buses for students?		
Do you have contract(s) in place with your transportation service provider(s) in case of an emergency?		
Is there a master list of bus drivers?		
Have you identified any necessary tools such as personal response plans, evacuation equipment or visual aids for students with disabilities?		
Have you identified communication needs with students who have limited English proficiency?		
Have you considered emergency accommodations for those with temporary disabilities?		
Have you encouraged a relationship with students and the local responders?		
Have you reviewed your plan with emergency responders?		
Have you identified an evacuation site that is accessible to students and staff with disabilities?		
Have you identified a secondary evacuation site?		
Has a "buddy system" been developed for each student?		
Have you identified all of your communication needs for your students with disabilities?		
Have you trained the staff on proper lifting techniques?		
Have staff, students and families been encouraged to provide 72 hour medications?		
Has evacuation route information been compiled and distributed to staff?

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at .

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Assessment of School Safety

Current Status of School Crime. Each school is required to assess the current status of school crime committed on the school campus and at schoolrelated functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment. Insert Aeries data here.

Student wellness and connectedness to school

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.
4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
- Routinely check that battery-operated equipment is in working condition. Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication is must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Adaptations for Students with Disabilities

Please attached Appendix - Emergency Plan For Students With Disabilities

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.

3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.

4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.
- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the

restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))
- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a "burn page" or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.
- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel ("disruption and willful defiance") and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense

- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5)

Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).
- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)

- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems
- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion
- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.
- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
 2060 Challenger Drive
 Alameda, CA 94501
 (510) 337-7095
 kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability
- Strategies to prevent harassment in the workplace

- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)

- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.
- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.

- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students Cannot Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Identify proposed changes to or the addition of curriculum, strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: School wide of implementation and reteach of 4Bs

Objectives	Action Steps	Resources	Lead Person	Evaluation
Reinforce School Rules	PBIS Rotations and School Assemblies	Student Led - Student Council	PBIS team/Culture team and Admin	District Wellness Survey Results/TFI
	Weekly Messaging around 4B's	Morning Assembly	Juan Flores /Brian Cooper	District Wellness Survey Results/TFI

Component:

Component II: Physical Environment

Element:

Identify proposed changes to or the addition of strategies and programs that ensure a safe and orderly environment.

Opportunity for Improvement:

Goal: Reduce the size of play area to increase supervision

Objectives	Action Steps	Resources	Lead Person	Evaluation
Maximize available supervision	Supervision Stations	Assigned areas of supervision	Admin	Reduction of major yard discipline
	Minimize play area by sections of play ground	Physical Barriers	Admin	Reduction of major yard discipline
	Ongoing training of supervision techniques	Weekly bulletins	Admin	Reduction of major yard discipline
		Periodic meeting with noon duty staff	Admin	Staff knowledge of roles and areas

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Ruby Bridges Elementary School Student Conduct Code

ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix: <https://docs.google.com/document/d/1YyzYC48Eq5WsTycFdS35jhrGP4G3nAlHyghgdznwzuQ/edit#>

Conduct Code Procedures

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases
4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate-motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, "LOCKDOWN, There is an active shooter in the Computer Lab," or "LOCKDOWN, an armed gunman is walking through the first floor long hallway."

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter's whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity.

If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously
- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias

- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed
- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Opioid Prevention and Life-Saving Response Procedures

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Ruby Bridges Elementary School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 1. Is campus secure?
 3. Are utilities off or secure?
 4. Are signs directing adults to release area up?
 5. Are traffic controllers needed?
 6. Is First Aid Center functioning?
 7. Have buildings been searched for victims?
 8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

- A. Report immediately to the Command Post with:

1. Master keys
 2. Current roster of students and staff
 3. Emergency forms and documents
 4. Office supplies to assist unit leads
- B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

- A. Team up with other personnel as a member of a Site Emergency Team, otherwise:
- B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

- A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

- A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.
- B. Check the site completely for:
 1. Fire and electrical hazards
 2. Chemical hazards (Chlorine storage)
 3. Other hazards
- C. Notify Site Manager of hazards and services needed
- D. Barricade hazardous areas using whatever materials handy
- E. When site is secure, report to the Command Post for direction
- F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

- A. Respond immediately to emergency signals requiring specific actions and check in on Share911
- B. If signal is one to Leave Building, know if signal is for:
 1. Fire evacuation

2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander: Juan Flores 510-259-8427 Jessica Siebert 415-948-9635

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief: Glenda Machrus 510-846-1029 Deveny Dawson 805-338-8044

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader: Glenda Machrus

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader: Angela Tyler

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor: Anthony Jackson

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor: Jessica Siebert

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor: Loni Carrasco

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor: Brian Cooper / Mia Callahan / Mateo Mayorga

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer: Sam Ayala

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary
- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader: Juan Flores / Jessica Siebert

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by Jessica Siebert

Marie Ratto - PE

Julie Kwan teacher

Anthony Manalisay - teacher

Douglas Heim - teacher

Kelly Robertson -teacher

Mark Grody-teacher

LIST FIRST AID FUNCTION

Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).

Organize supplies and treatment area.

Help with wounded.

Keep Check Out Station informed.

Request additional help (ambulances, etc.) through Check Out Station.

Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT

Loni Carrasco - Health Clerk

Susan Maiden - teacher

Jana Harvey - teacher

rest of team below

TRIAGE

Deveny Dawson - teacher

Kelly Robertson - teacher

RECORDER

Lani Phan - teacher

Sally Billheimer -teacher

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign "Incident Command Center"

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the bike cage (if inaccessible at the end of the parking lot behind the second gate).

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff
3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: “I’m sorry, I did not understand you. What did you say?”
- b) Use Bomb Threat Checklist (see form at the end of this “Bomb Threat” section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, **DO NOT TOUCH OR MOVE IT!!**

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal’s Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal’s office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

- Sound the school alarm.
- Notify the Superintendent or Assistant Superintendent.
- Notify utility companies of a break or suspected break.
- Notify fire and police departments and direct further action as required.
- Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- Move to an area of safety and maintain control of students.
- Notify principal of students needing first aid as necessary.
- Fight incipient fires without endangering life.
- Take roll. Report absent students to principal.
- Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

- Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
- Follow procedures for principal -- 'c' and 'd' above.

Teacher

- Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.

- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 - 1. Disturbing the Peace
 - 2. Trespassing
 - 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
 "I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.
- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- a) Sound the school alarm and report on Share911.
- b) Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- a) Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- b) If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- c) Move to an area of safety, and maintain control of students.
- d) Use Share911 to report students absent, found or needing first aid as necessary.
- e) Fight incipient fires without endangering life.
- g) Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.

Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.

2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.

3. Work with the Superintendent's office to formulate a public statement.

4. Discuss the crisis in a factual manner in follow up meetings and/or communications.

5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Alameda Unified School District Schools Emergency Plan for Students With Disabilities

Alameda Unified School District Schools Emergency Plan for Students with Disabilities

The Alameda Unified School District Schools Emergency Plans for Students with Disabilities consists of several components including the Model Plan, Appendices with Checklists, Forms, Sample Memos and Agreements, and Annexes. The Emergency Annex for Students with Disabilities is an incident management strategy that serves to augment the Alameda Unified School District Schools California Comprehensive Safety Plan. In order to ensure efficient and effective emergency management, the Model Plan should be implemented to the best of the site's ability and resources.

I. PURPOSE OF THE PLAN

The information contained in this document will assist school administrators, teachers, special education staff, parents, and students in planning for the support that may required for students with disabilities in the event of an emergency. For the purposes of this annex, students with Disabilities are those who cannot comfortably or safely access and use the standard resources offered in disaster preparedness, relief and recovery, whether their disability is chronic or temporary.

This plan includes procedures ensuring the full participation of students and staff with disabilities through the planning and implementation of mitigation, preparedness, response and recovery strategies as part of the overall management of school emergencies and disasters. Current thought identifies this population as those with access and functional needs (AFN).

A. Presidential Mandate

On July 22, 2004, President George W. Bush signed Executive Order 13347, Individuals with Disabilities in Emergency Preparedness, which adds to existing legislation policy to ensure that the safety and security of individuals with disabilities are appropriately supported and requires public entities to include the unique needs of individuals with disabilities in their emergency preparedness planning.

B. Planning Needs and Assumptions

For individuals with disabilities, physical environments become a great deal more hostile and difficult to deal with during and after an emergency. The ability to get to accessible exits and personal items may be reduced. Communication may be impeded at a time when clear and rapid communication is crucial to safety and survival.

To comply with statutes involving students with disabilities, individuals responsible for evacuation and emergency operation plans, notification protocols, shelter identification, emergency medical care and other emergency response and recovery programs must:

- **have sound working knowledge** of the accessibility and nondiscrimination requirements applicable under Federal disability rights laws;
- **know the students with disabilities demographics** of the students attending classes on site;
- **involve students** and with different types of disabilities and staff and teachers in identifying the communication and transportation needs, accommodations, support systems, equipment, services, and supplies that they will need during an emergency;
- **consider emergency accommodations** for those with temporary disabilities;
- **identify existing resources** within the school and local community that meet the needs of these students;
- **develop new community partners** and resources, as needed;
- **inform parents** about the efforts to keep their child safe at school;
- **identify medical needs** and make an appropriate plan;
- **determine transportation needs**, special vans and buses for students;
- **identify any necessary tools** such as personal response plans, evacuation equipment or visual aids;
- **include local responders** and establish a relationship with individual students with disabilities and their teachers.

II. STATUTES FOR SERVICES IN SCHOOL

Federal law mandates that every child will receive a free and appropriate public education (FAPE) in the least restrictive environment. Children who experience difficulties in school, due to physical or psychiatric disorders, emotional or behavioral problems and/or learning disorders or disabilities are entitled to receive special services or accommodations through the public schools. To support their ability to learn in school and participate in the benefits of any district program or activity, including emergency preparedness and school safety plans, three Federal laws apply to children with students with disabilities:

- Americans with Disabilities Act of 1990 (amended 2008)
- Individuals with Disabilities Education Act of 1975 (amended 1997)
- Section 504 of the Rehabilitation Act of 1973 (revised 1978)

A. Americans with Disabilities Act of 1990

The Americans with Disabilities Act (ADA) of 1990, including amendments which became effective in 2009, provides “a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities.” The ADA prohibits the exclusion of any qualified individual with a disability, by reason of such disability, from participation in or benefits of educational services, programs or activities.

B. Individuals with Disabilities Education Act (IDEA)

The Individuals with Disabilities Education Act (IDEA) is a 1975 federal law, amended by the Office of Special Education Programs in 1997, which ensures services to children with students with disabilities throughout the nation.

IDEA specifies 13 primary categories under the lead definition of a “child with a disability.” (See Table 1, Categories of Disability Under IDEA Law.) These federal definitions guide how states define who is eligible for a free, appropriate public education under special education law. The IDEA requires the school to provide an individualized educational program (IEP) that is designed to meet the child’s unique needs and provide the child with educational benefits.

Individual Education Program (IEP)

IDEA requires that planning for the educational success of these students is done on an individual, case-by-case basis through the development of an Individual Education Program (IEP). The IEP is a written statement developed for each child with a disability that outlines measurable annual goals for each child’s academic achievement and functional performance and specifies accommodations and modifications to be provided for the student.

Students with disabilities who are self-sufficient under normal circumstances may have to rely on others in an emergency. They may require additional assistance during and after an incident in functional areas, including, but not limited to: communication, transportation, supervision, medical care and reestablishing independence. While not explicitly stated, a component of the IEP for related services must consider the particular needs of the child to ensure his or her safety during an emergency that includes evacuation from a classroom and building.

C. Section 504 of the Rehabilitation Act of 1973

In 1978, the U.S. Department of Education (DOE) issued regulations to implement Section 504 of the Rehabilitation Act of 1973. These regulations applied to institutions receiving federal funds. Section 504, as revised, states in part: “No otherwise qualified individuals with disabilities in the United States . . . shall, solely by reason of the disability be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

Under Section 504, any student who has a physical or mental impairment that substantially limits one or more major life activities*, has a record of such an impairment and is regarded as having such an impairment is considered disabled. Typically, children covered under Section 504 either have impairments that do not fit within the eligibility categories of IDEA or that may not be as apparent as those covered under IDEA.

The Individualized School Healthcare Plan (ISHP) articulates the healthcare accommodations required for each student qualified for service under the Section 504 regulation. The ISHP assists in the safe and accurate delivery of healthcare services in school. It is specifically a nursing care plan, developed by the school nurse with parent input. A copy of this plan is included in the school disaster plan and attached to the IEP.

* Major life activities are those basic activities that the average person in the general population can perform with little or no difficulty, such as caring for one’s self, performing manual tasks, walking seeing, hearing, speaking, breathing, learning, working, sitting, standing, lifting, reaching, thinking, concentrating ,interacting with others and reading.

Table 1. Categories of Disability under IDEA Law

Federal Disability Term	Alternative Term	Brief Description/ Factors that Elevate Risk in Emergencies	Factors that Reduce Risk in Emergencies
Autism	Autism spectrum disorder	Characterized by extraordinary difficulty in social responsiveness; often resistant to environmental change or change in daily routine and experience anxiety over interruption. May be non-verbal or use argumentative communication.	Structure, routine, normalcy and familiarity with activity
Deaf-blindness		A simultaneous significant hearing and vision loss; limits the speed of movements.	Guidance from a sighted person
Developmental delay		A delay in one of the following areas: physical development; cognitive development; communication; social or emotional development; or adaptive (behavioral) development.	Minimized disruption of routine patterns of activity, modulate sensory input
Emotional disability	Behavior disorder, emotional disability	Has limited ability to understand environmental events, situations, or procedures. Needs are categorized as mild, moderate or severe. May disobey or resist direction, may panic.	Regulated sensory input
Hearing impairment	Deaf, hard of hearing	A complete or partial loss of hearing that adversely affects a child's educational performance. May not respond to auditory cues.	Written instructions, sign language, specialized communication for direction in an emergency
Intellectual Disability	Intellectual disability, cognitive impairment	Significant limitations in intellectual ability and adaptive behavior. This disability occurs in a range of severity.	Regulated sensory input
Multiple disabilities		The simultaneous presence of two or more impairments, the combination of which causes such severe educational needs that they cannot be accommodated in a special education program solely for one of the impairments. Does not include deaf-blindness	
Orthopedic impairment	Physical disability	A significant physical limitation that impairs complete motor activities, strength, vitality or an alertness to environmental stimuli	Adaptive physical equipment: cane, walker, wheelchair. May require alternative, accessible evacuation route
Other health impairment		A disease or disorder so significant that it negatively affects learning; examples include cancer, sickle-cell anemia, and diabetes	Continuity of medication management regime
Specific learning disability	Learning disability	A disorder related to processing information that leads to difficulties in reading, writing and computing.	
Speech or language	Communication disorder, stuttering	A disorder related to accurately producing or articulating the	Sign language, hand signals, specialized

impairment		sounds of language to communicate	communication for response in an emergency
Traumatic brain injury	TBI	An acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both that may affect cognition, behavior, social skills and speech.	
Visual impairment	Low vision, blindness	A partial or complete loss of vision	Guidance from a sighted person

Source: National Dissemination Center for Children with Disabilities at <http://www.nichcy.org/Disabilities/Categories/Pages/Default.aspx>

In addition to students with disabilities specified under IDEA law, the school site administrator or designee must identify individuals with a temporary impediment such as a broken leg or hidden impairments such as asthma, panic attacks, significant allergies or heart conditions. Students with such documented medical conditions may not have an IEP in place that would highlight the need for continuing a special medical regime, particularly during a crisis or disaster.

III. MITIGATION AND PREVENTION

Mitigation is the action districts and schools take to identify barriers students with disabilities may face during an emergency and eliminate or reduce their adverse effects. A hazards and vulnerability assessment of the site will help in preparing the emergency plan and identifying improvements for safety.

A. Teacher Survey - Students Needing Special Assistance

At the beginning of each year, Special Education Staff should provide to the main office and the students' respective teacher(s) the name(s) of students that will require special assistance in the event of an emergency. The type of assistance needed as a result of an injury is also required when applicable (i.e. broken leg during the year).

- **Review** how an emergency may impact the daily routine of students with disabilities.
- **Know who is on your school site:** Identify students and staff on the site with disabilities. The school principal must be aware of all students and/or staff with disabilities using school facilities and services.
- **Identify the students** with extensive support needs and who might need extra support in emergency crises.
- **Make a list** of the students on the school site who are on medication and their medication schedule.
- **Maintain a list of all resources** regularly relied upon and determine how a disaster might affect the use of them. Examples include (use of mobility aids, communication devices and electrically-dependent equipment).
- **Identify all the stakeholders** who should be considered in the plan (family, friends, service providers, personal attendants, physicians and others).
- **Determine what short term accommodations** to provide for students with temporary disabilities (e.g., injured limb)
- **Assess** potential hazards. Review evacuation equipment.

B. Mitigation Strategies

- **Learn about the types of hazards** that may impact the school (e.g., earthquakes, floods, wildfires) and assure that emergency response procedures address each one.
- **Identify a pre-evacuation site** that is accessible to students with disabilities

- **Plan a primary and secondary evacuation route** from each location the student is in during the course of the day.
- **Arrange sufficient transportation** ahead of time to accommodate the entire students with disabilities/staff population.
- **Develop a schedule** with daily activities and classes that identifies where a student with disabilities may be located each period of the day.
- **Consider classroom location** in placement of students with disabilities. Evaluate the accessibility of nearby exits and proximity to the school nurse.
- **Conduct a test of the family notification system** to assure that contact information is up-to-date to help decrease parent anxiety during a disaster.

IV. PREPAREDNESS

Preparedness focuses on what steps need to be taken to facilitate a rapid, coordinated, effective response when an emergency occurs to keep the students safe. Collaboration with first responders in preparedness strategies and ongoing communications is essential and facilitates the safe integration of students with disabilities into emergency procedures.

A. General Strategies

Use the forms in APPENDIX A to collect information about individuals with disabilities on site, e.g., who has a disability, nature of disability, implications for the student concerning full participation in school emergency planning. Include teachers, schedules, classrooms, potential needs during an emergency, relevant strategies enabling student(s) to participate successfully with peers in general school activities.

- **Build on current accommodations**, modifications and services.
- **Develop a policy** and consent form with legal counsel for medical information. The Americans with Disabilities Act (ADA) allows medical information to be given to people responsible for assisting in evacuating disabled individuals.
- **Consult parents or guardians** concerning care considerations if the student with disabilities is isolated at school for a short term or long-term basis. Inform parents about efforts to keep their child safe at school.
- **Incorporate pre-negotiated contracts** for services that may be needed in case of an emergency (e.g., transportation, food etc.).
- **Obtain necessary equipment and supplies**, create evacuation maps and facilities information.
- **Inform and train staff** about emergency response protocols. Encourage teachers to discuss emergency procedures with parents as part of IEP meeting or other review.

B. Buddy System

Pairing students up with students with disabilities for emergency response, e.g., the “buddy system”, can help with critical backup when a skilled assistant is unavailable or separated from the class. Buddies need to be willing and capable of assisting students in an evacuation to accompany the individual to a safer enclosure or wait for emergency responders. The buddy must be acceptable to the student with a disability. Also, teachers in adjacent classrooms can be pre-assigned joint responsibility for both classes if one of the teachers is busy with an injured student.

To have an effective buddy system:

- Give the student the opportunity to select his or her own buddy.
- Identify a buddy who is appropriate (e.g. strong enough).
- Designate a backup buddy.
- Train for the specific need of the student with disabilities.
- Hold practice sessions to assure that buddies can handle their tasks.
- Train the buddies on how to communicate with the students and how to safely evacuate.

Buddies must be able to make contact quickly with the student with disabilities when the need arises. The following situations may interfere with this critical communication. Use the suggested strategy as an alternative.

- The buddy is in the building, but away from the customary work area.
Have a trained backup buddy in place.
- The buddy cannot locate the person with a disability because the person is absent.
Keep an updated roster of who is at school each day. Assign a temporary buddy when the primary buddy is absent.
- The buddy has left the class/program, and a new one has yet to be identified. *Make an effort to find a replacement as soon as possible. Assign a temporary buddy until there is a permanent buddy.*
- The buddy forgets or is frightened and abandons the student with disabilities. *Check on each student with disabilities to assure he/she is accounted for during an evacuation. Practice drills will help diffuse real-time fright.*

C. Medication Management

with disabilities may have very individualized medication schedules that cannot be interrupted without serious consequences. Medicines or medical devices may not be available in emergency shelters. Make alternative arrangements to meet these needs. Consider how medicines can be stored in an emergency. Heat waves and power outages can affect the potency and integrity of some medications. Include an ice chest and cold packs among the school emergency supplies. If there is a power outage, the ice packs can extend the safe temperature range of medications requiring cold storage until the power is restored.

Some best practices to consider are:

- If the student is on medication, ask caregivers to supply a 72-hour supply in a Ziploc bag with instructions; a refrigerated kit is also advised for medication if needed with instructions.
- Gather all medications before evacuation.
- Transport special medications, supplies and equipment with the student with disabilities.
- Carry contact and medical information for all students and provide individual medical information on a laminated card with a lanyard to be worn around the neck. See Appendix C for an example of the Emergency Medical Card.

D. Access to Communication

Communication access enables effective interaction with people who are deaf or blind or who have speech, vision or hearing limitations. Make written materials available in alternative formats (e.g., Braille, large print, disks, and audio cassettes) and provide hearing- assistive technologies such as amplified phones. Include auxiliary aids and services such as sign language interpreters. Alarm systems for fire, etc. will benefit most people if they incorporate both audible and visual elements. The hearing impaired students may be best alerted by flashing light alarms. **An emergency is not the time to learn how to work a rarely-used assistive device. The most effective communication systems are those used daily.**

- Give clear, succinct verbal instructions.
- Communicate important information through gestures.
- Pictorial representations, where appropriate, can provide quick and easily understood instruction to many individuals with limited English proficiency, and some individuals with cognitive disabilities.
- Guide students with low vision or blindness.
- Utilize electronic variable messaging boards, short message systems (SMS), teletypewriters (TTY) or telecommunications display devices (TDD), if you have them.
- Identify staff with foreign language skills, if needed.
- Have aides, buddies, volunteers and evacuation assistants practice basic American Sign Language for emergency words and instructions such as:

• <i>important,</i>	• <i>emergency</i>	• <i>keep calm</i>
• <i>must leave now</i>	• <i>fire</i>	• <i>fire exit</i>
• <i>elevator closed</i>	• <i>stairs there</i>	• <i>okay</i>

E. Time Management

Children with disabilities are likely to respond to any form of stress following a crisis with more extreme reactions. Allow extra time for them than others to make necessary preparations in an emergency.

Some students with disabilities will need more time to comprehend the emergency. The earlier the notification, the better the chances are for a successful evacuation. Consider what are the triggers and cues for these students and anticipate rather than react. Prepare students for changes in routine. Some students may need to be more protected or isolated to minimize distractions and sources of agitation during the height of a crisis. Adult supervision may need to be more intense for a while.

Allow time for discussion of the traumatic events in a safe and familiar setting; provide choices in activities to the extent feasible to give these students some sense of control over even a small part of their lives.

F. Preparedness Supplies

Classroom Supplies. A classroom that is used for teaching students with disabilities should store disability-related supplies, assistive equipment and tools that may be required in an emergency. Parents should provide for students with dietary restrictions. Among the basic supplies to have in the classroom are:

- Batteries in different sizes, for adaptive equipment
- Lockdown kit, including portable toilet, privacy screen, toilet paper, toilet bowl liners disinfectant, and plastic bag for disposal
- Water pouches for drinking
- Water for hygiene purposes
- Copies of all students' Emergency Information Forms (secured)
- Backup copies of medical prescriptions (secured)
- Hand tools (e.g., screwdriver, wrench, pliers)
- Heavy work gloves
- Whisk broom
- Tarp
- Solar/crank/battery radio
- Cell phone and phone charger
- Flashlight and extra batteries or crank flashlight
- First aid kit

- Small ice chest for refrigerated medications
- Evacuation assistive equipment
- Protein bars (without nuts or nut oil)
- Canned fruit
- Carbohydrate-free foods for meals (e.g. canned meat, nuts, jerky)*
- Feminine hygiene supplies
- Household chlorine bleach to kill bacteria or antibacterial soap
- Facial tissues
- Whistle/noisemaker

* for diabetic students

Go Kits. Portable preparedness supplies individualized for each student's needs, called "Go Kits", are an integral part of preparedness planning. Ask parents and caretakers to provide Go Kits at the beginning of the school year. Plan for a child with special dietary needs. Designate which staff members are responsible for reminding parents to replenish their child's kit and notify the school of changes. Each Go Kit should include, as a minimum:

- Lightweight uncomplicated backpack
- Emergency Information Form – see Appendix B for example
- Medication for up to 36 hours
- Emergency Medical Card, laminated and attached to a lanyard to be worn during an emergency. See Appendix C for example. Card should include:
 - contact information
 - medical requirements
 - allergies and sensitivities
 - adaptive equipment used
 - assistance needs and limitations

G. Drills

Drill practice is very important; it increases skills and instills confidence in each individual's ability to cope during an emergency. Innovative educational techniques such as role-playing or the use of audio visual aids can also be helpful.

- Hold regular drills so that students become familiar with the procedures.
- Know how to get to all the exits.
- Practice using evacuation and assistive devices.
- Give clear, concise instructions
- Practice dealing with different circumstances and unforeseen situations, such as blocked paths or exits or buddies that cannot be located.

H. Key Practices for Certain Impairments

Emergency planning for students with disabilities should be as individual as the students. Some students may be at increased risk during an emergency and will need extra assistance or special attention. If possible confer with students and parents regarding their preference for emergency situations. Assess capabilities, limitations and needs and to determine what type of evacuation assistance will be required in an emergency for each student.

Children with disabilities generally have specific "triggers"—words, images, sounds, etc.-- that signal danger or disruption to their feelings of safety and security. If adults miss these cues, children may escalate their behavior to a point

where they completely lose control. *It is essential that parents/caregivers and teachers work together to share information about triggers and cues.* This is best done on a regular basis, such as during the IEP meeting or a periodic review meeting, rather than in response to a crisis.

There is no one-size-fits-all approach. However, there are key practices that should be considered for certain impairments.

- 1. Cognitive/Developmental:** Some students may not comprehend the nature of the emergency and could become disoriented or confused about the proper way to react. Students with hypertension, dyslexia or learning disabilities may have difficulty reading complicated directions for evacuation or response plans. Simple diagrams or pictures will give non-reading or overstressed students sufficient information to get to safety. Train your staff how to assist those who become upset. Check that evacuation routes have directional signs that are easy to follow. Practice evacuation route(s) with students regularly. Use simple diagrams or pictures to give non-reading or overstressed students sufficient information to get to safety. **Preparedness kits should include:**
 - comfort items
 - pen and paper
 - visual communication instructions
- 2. Hearing:** Provide sign language training to some staff for students who may not be able to hear emergency warnings. Have teachers practice basic hand signals for students with hearing impairments for emergency communications. Alerting devices, such as strobe lights and vibrating pagers can be used to supplement audible alarms and are useful for students with hearing impairments. Install both audible and visual smoke alarms in the classroom and building. **Preparedness kits should include:**
 - pen and paper
 - flashlight to communicate in the dark
 - extra hearing aid batteries
 - batteries for TTY and light phone signaler
- 3. Mobility:** Limited mobility may impair egress and access to locations. Arrange and secure furniture and other items to provide barrier-free paths of travel. Disaster debris may obstruct evacuation. Store a lightweight manual wheelchair, if available. Train the staff the proper way to move an individual in a wheelchair. Mobility impaired students should practice moving their wheelchairs or having them moved into doorways, locking their wheels and covering their heads with a book or with their arms or hands. **Preparedness kits for those who use wheelchairs should include:**
 - heavy gloves for making way over glass or debris
 - extra battery for electric wheelchairs recommended but may not be practical
 - patch kit for punctured wheels
 - flashlight and whistle
- 4. Respiratory:** Students with respiratory impairments may have difficulty breathing when walking distances or descending stairs. Smoke, dust, fumes, chemicals, and other odors often exacerbate such limitations. For these students, include emergency evacuation masks and respirators in

classrooms. Have oxygen and respiratory equipment readily available. Students and staff should practice putting on and removing this equipment as part of an emergency drill. **Preparedness kits should include:**

- medical schedule and dosages
- medical mask, if student can wear one
- any medical equipment needed for 72 hours
- note paper and pen

- 5. Medically Fragile:** Many illnesses can be aggravated by stress. In the event of a disaster that requires students to be at school for an extended period of time, medication may need to be administered to students with a healthcare plan. Schools should consider who will administer these medications in the event a nurse is not available during a disaster. Keep medications, authority to administer the medication forms, and healthcare plans in the vicinity of the medically fragile student.

It is the parent's responsibility to maintain medical supplies, notify the school of changes and provide new doctor's orders. It is the nurse's responsibility to remind the parent to provide medications and update orders when notified.

- 6. Speech/Auditory:** Determine in advance the best way for the student to communicate with others during an emergency. Provide written emergency and evacuation instructions on a card, carried at all times and placed in an easy to see location. **Preparedness kits should include:**

- extra batteries and chargers for communication equipment
- note paper and pen
- comfort items

- 7. Visual:** Those with visual impairments may have to depend on others to lead them to safety during a disaster and may be reluctant to leave familiar surroundings. Employ Braille signage or audible directions for students who are blind or have low vision. Emergency back-up lighting systems, especially in stairwells and other dark areas, will benefit those students with limited visual acuity. Mark emergency supplies with large print or Braille. Students should know where the nearest telephones and alarm boxes are located and how to describe their location. **Preparedness kits should include:**

- extra folding white cane
- heavy gloves for feeling the way over glass or debris
- colored poncho worn for visibility
- comfort items

I. Developing a Student with Disabilities Evacuation Plan

Creation of an Evacuation Plan should cover the evacuation, transportation and medical needs of students who will require extreme special handling in an emergency. In most cases, additional safeguards must be established regarding roles, responsibilities and procedures for students with physical, sensory, emotional and health disabilities. Review all paths of travel and potential obstacles.

- Know your school grounds, paths, exits and potential obstacles.

- Determine the primary and secondary paths of exit to be used during emergencies. Individuals with mobility impairments will need a smooth, solid, level walking surface, an exit that avoids barriers such as stairs, narrow doors and elevators and guardrails that protect open sides of the path.
- Compile and distribute evacuation route information to be used during emergency operations
- Include alternative evacuation route information, should the primary route be inaccessible due to damage or danger.

2. Install appropriate signage and visual alarms.

- Place evacuation information indicating primary and secondary exits in all offices, classrooms, multipurpose rooms, lunchrooms, hallways/corridors, lobbies, bathrooms and cafeterias. For passages and doorways that might be mistaken for an exit, place visible signs that proclaim, "NOT AN EXIT".
- Place emergency notification devices appropriate for each student.
- Post signage with the name and location of each area so that the students will know exactly where they are. In order to comply with ADA Accessibility Guidelines for Buildings and Facilities requirements, the signage should be:
 - approximately 60 inches above the floor;
 - in a location that is not obscured in normal operation such as a swinging door;
 - in all primary function areas

3. Identify the students and staff with disabilities and the type of assistance they will require in an emergency.

- Allow visitors to self-identify on a sign-in log if they have special evacuation needs.
- Discuss evacuation issues with the staff members and caretakers of students with disabilities. Include individuals, who may be temporarily disabled (i.e. a student with a broken leg).

4. Train staff in general evacuation procedures.

- Review the areas of rescue, primary exits, evacuation techniques, and the locations and operation of emergency equipment.
- Provide in-depth training to those designated to evacuate students with disabilities. Train the staff for proper lifting techniques when lifting a person for evacuation. Anyone can assist a student with a visual impairment.
- Check on each student with disabilities to assure he/she is accounted for during an evacuation.

5. Review the plan with emergency response personnel, including local police, fire and emergency medical technicians.

- Identify “areas of rescue” in your school for students to wait for evacuation assistance from emergency personnel.
- Before school begins in the fall, walk around the site with first responders so that they are familiar with the primary exits and all areas of rescue. These areas must meet specifications for fire resistance and ventilation.
- Ask the responders to conduct a special drill explaining how they will support the students and staff with disabilities during an emergency.

6. Complete all contracts and Statements of Understanding with key emergency support providers

- Ensure that sufficient transportation capacity exists with transportation providers, partner agencies, and suppliers to effectively meet the demand in an emergency.
- Identify transportation contracts through the district in case of an emergency. Emergency response for students with disabilities requires special vans and special equipment. Specify who will do what to address these transportation needs.
- Develop a list of school-owned vehicles, staff vehicles and parent vehicles that are available and make prior arrangements for their use in the event of an emergency.

7. Review the evacuation plan with students and staff to be familiar with the process and identify any problems.

- Practice implementation of special duck and cover actions by students with able-bodied partners.
- Students should be aware that evacuation by themselves may be difficult or impossible because of obstacles in their path or because electric-dependant machines may not function (i.e. elevator).
- Special pre-planned assistance must be provided and reviewed regularly. Classrooms should have emergency activity kits with items familiar to the students. Include students with disabilities in the selection of emergency evacuation devices.
- Mobility-impaired students should know how (through practice) to get in doorways, lock wheelchair wheels and cover head with book, arms or hands.
- Train all aides who are assigned to students with disabilities in evacuation procedures.

- Provide procedures for receiving students with disabilities at the pre-designated evacuation site.
- Remind parents and caregivers that they are responsible for updating emergency information with the schools.

IV. RESPONSE

Response is the immediate reaction to an emergency to save lives and protect property. Pro-active efforts in the Mitigation-Prevention and Preparedness phases will impact the quality of response. Responses will vary depending upon the severity and intensity of the event.

A. Leadership by District of Service

In an emergency, the site administrator has responsibility for the safety of all children on the site. The District of Service, rather than the District of Residence, assumes the leadership role for all students in an emergency.

B. Assess the Situation

- Determine the immediacy of the emergency.
- Remove anyone with respiratory complications from smoke and vapors immediately.
- If not in immediate danger, stay in place until staff personnel determine the nature of the situation.
- If trapped, get the attention of others by calling out or striking object together to make noise.

C. Announce the Emergency

- 1. To Alert Deaf and Hearing Impaired** – The primary goal is to effectively communicate the nature of the situation and direct them to the appropriate route of evacuation. Students with hearing impairments will most likely be able to follow the same exit route as those who can hear. Communicate with a notepad and pen, with simple, concise speech or with sign language. Regardless of the method of communication used, convey two key messages:
 - there is an emergency
 - how to exit
- 2. To Alert Blind or Visually Impaired** – Someone who is blind or visually impaired will generally be able to evacuate the same route as sighted students, but may need some assistance. Describe the nature the emergency and offer to guide him/her to the nearest emergency exit and evacuation assembly area.

- Touch the person on the elbow gently. Identify yourself and quickly explain the situation.
- Ask if the individual has any preferences regarding how to be guided.
- Clearly describe where you are going and any approaching obstacles or protruding objects which will require a change in your walking path or pattern.
- Be protective of your space as there may be many people using the same route to evacuate.

3. To Alert Cognitively or Emotionally Impaired – It is likely that students with cognitive or emotional impairments will be able to use the same evacuation routes as the other students. The challenge is to keep them calm as you exit. If there is a buddy or companion assistant, quickly describe the situation and how to involve him or her in the evacuation. Let the student know what is happening. Keep him/her reassured

D. Lockdown/Shelter-in-Place Strategies

- Set up screens/curtains for those needing privacy for emotional issues and personal hygiene.
- Use Go Kits for immediate necessities.
- Keep students away from windows and doors.
- Use the buddy system to provide comfort and reassurance.

E. Implement Evacuation

- Carry all medication, supplies, equipment and dietary needs with student, including the 72-hour disaster kit that has been prepared ahead of time for individual student needs;
- Ask the student how he/she would like to be assisted;
- Use the buddy system;
- Inform emergency personnel of intended destination and type of assistance needed. If unable to contact emergency personnel, ask others to make the notification for assistance;
- Move to designated evacuation area. The path should be unobstructed.
- Be careful of falling debris as you leave the building.
- Provide priority assistance to wheelchair users with electrical respirators. Evacuate mobility devices with the person if possible (i.e. crutches, wheel chairs, etc).

To Evacuate Persons Using Wheelchairs:

If the person wants to be moved in his/her chair, keep the following considerations in mind:

- Turn off the wheelchair's power before lifting.
 - Turn the wheelchair so it is lowered down the stairs backwards (person facing up the stairs), so the occupant cannot slip forward out of the chair and down the stairs.
-
- Powered wheelchairs have very heavy batteries; an evacuation chair for stairs may be needed with the powered chair to be retrieved later.
 - If a seatbelt is available, use it. If the person needs to be removed from his/her wheelchair for an evacuation, ask the following:
 - how he/she prefers to be moved from the chair;
 - whether pain or harm will result from moving extremities;
 - if any equipment is needed for immediate safety of life-support, e.g. backup generator for respirator.

F. Transport Students

Transportation is a well-established component of emergency response plans, and requires planning and detailed focus for children with access and functional needs. Special transport is not provided for students with Section 504 eligibility.

- **Maintain a transportation resources** list by type and availability, including vehicle accessibility and capacity information.
- **Develop procedures for the acquisition of additional accessible transportation equipment**, securement devices, supplies, and resources before a disaster.
- **Provide staff training**, including a review of procedures for transporting persons with a variety of assistance needs, as well as the transport of service animals.
- **Identify strategies for tracking individuals** who are evacuated. Information should include the passenger's name, point of origin, departure time, final destination, and arrival time.
- **Maintain a master list of drivers** by status and availability.
- **Provide drivers with an operational roster** to complete and maintain, at minimum, with the following information:
 - Name of driver
 - Driver's telephone number
 - Time departed staging area
 - Time arrived at sheltering location
 - Vehicle numberSheltering location
 - Trip mileage

- **Determine the appropriate transportation response** for persons unable to reach a pick up/drop off location or staging area on their own.
What entity will handle such needs, and what types of vehicles/equipment will be required? Check with the school district regarding the transportation contracts and agreements.
- **Account for all students** before transportation occurs and after arrival at the destination.
- **Transport all passengers** to the pre-designated evacuation destination by the safest route. Use alternative routes only as necessary.
- **Use buses.** Consider other modes of transportation only if buses are unable to get to the school quickly or are not available. Refer to the list of school-owned vehicles, staff vehicles and parent vehicles that are available.

G. Reassess Needs

Request additional support, if needed.

H. Other Considerations for Students with Disabilities Populations

- **Store** extra batteries for electric wheelchairs and hearing aids.
- **Lead** evacuees to a safe place with other teachers and staff.
- **Remain** with the student with disabilities after the evacuation.
- **Recognize** that the fine details are unique to each student;

IV. RECOVERY

The recovery phase is designed to assist students, teachers, staff and visitors to restore educational operations in school. Recovery is an ongoing process that includes not only the mental, emotional and physical healing process of students, teachers and staff, but also restoration of the physical assets of the school (buildings and grounds) to a safe and habitable environment.

A. Restoration

- **Account** for all the students, teachers, and staff.
- **Meet the medical needs.**
- **Conduct daily debriefing** for staff, responders, and others assisting in recovery.
- **Provide stress management support** during class time.
- **Discuss recovery**, what to do with students if they must remain on site for 2-3 days.
- **Communicate with parents**, guardians and the local community.
- **Conduct after-action briefing** to capture key lessons learned and recommendations for improvements to the school plan.

B. Supportive Services

- **Needs Assessment** – quickly identify needs and the support necessary to meet them.
- **Information** – provide important information on community resources that connect school families who need help with available services and assistance.
- **Language** – ensure that critical information is conveyed in a language appropriate for non-English speaking families that the standard media may not reach.
- **Transportation** – support the mobility needs with accessible transportation resources to disaster service areas.
- **Replacement Equipment** – support students with disabilities with the guidance to acquire replacement of vital personal equipment (e.g., crutches, hearing aids, wheelchairs,
- **Reassurance**

Experiencing a disaster can be overwhelming. Stress often exacerbates existing medical conditions and may alter thought and behavior. Reassurance is the key to helping children through a traumatic time. Support individuals with access and functional needs by providing verbal reassurance and information to help orient

them to new surroundings and new routines.

- **Make sure physical needs are addressed** and medical assistance is provided, as needed.
- **Reconnect students** with family and other support systems as early as possible.
- **Address concerns** about safety. Talk to each child at his or her developmental age, not chronological age. Use language the child understands.
- **Provide information through pictures** and allow children time to see, hear, talk and draw.
- **Expect some regression** (increase in problem behaviors).
- **Deal with inappropriate behaviors** calmly and consistently—Keep emotional equilibrium.
- **Minimize the disruption.** If the normal routine is unavoidably altered, create a new one.
- **Offer concrete/immediate solutions** to abstract problems. Use clear examples. Repeat responses patiently.

After the danger has passed, the school will be anxious to return to normal. Both people and resources are needed to speed recovery. The talents of individual with disabilities should not be underestimated. Every member of a community can provide some support.

APPENDIX A

School Emergency Evacuation Planning Checklist		
	YES	NO
Do you have a roster of your students with disabilities?		
Have you identified students with disabilities on site from other school districts?		
Have you identified the medical needs of your students with disabilities and their medication schedule?		
Have you walked the evacuation paths and exits looking for potential obstacles?		
Has an evacuation site been identified that is accessible to students and staff with disabilities?		
Is the primary evacuation path marked to clearly show the route?		
Is there sufficient oxygen for 72 hours?		
Have transportation needs been identified for the students with disabilities, such as special vans and buses for students?		
Do you have contract(s) in place with your transportation service provider(s) in case of an emergency?		
Is there a master list of bus drivers?		
Have you identified any necessary tools such as personal response plans, evacuation equipment or visual aids for students with disabilities?		
Have you identified communication needs with students who have limited English proficiency?		
Have you considered emergency accommodations for those with temporary disabilities?		
Have you encouraged a relationship with students and the local responders?		
Have you reviewed your plan with emergency responders?		
Have you identified an evacuation site that is accessible to students and staff with disabilities?		
Have you identified a secondary evacuation site?		
Has a "buddy system" been developed for each student?		
Have you identified all of your communication needs for your students with disabilities?		
Have you trained the staff on proper lifting techniques?		
Have staff, students and families been encouraged to provide 72 hour medications?		
Has evacuation route information been compiled and distributed to staff?

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Alameda Unified School District	Sara Stone Chief Academic Officer	sstone@alamedaunified.org (510) 337-7092

General Information

[A description of the impact the COVID-19 pandemic has had on the LEA and its community.]

Alameda Unified School District (AUSD) serves the needs of some 9600 students from pre-school through high school. Those students reflect the diversity of our community and the San Francisco Bay Area region. In 2019-2020, the demographic breakdown was: 26% Asian, 29% white, 18% Hispanic, 7% Black/African American, and 12% of two or more races. About 30% of our students are low income and 13% are English Learners, and Approximately .5% are Foster Youth.

To serve this diverse community of learners, AUSD’s nine elementary schools, four middle schools, and four high schools offer a wide range of educational opportunities, including neighborhood schools, STEAM programs, intervention services, arts integration, and newcomer classes for students who have recently arrived in this country. Our high schools have strong Career Technical Education programs, including Broadcast Journalism, Sports Medicine, Childcare, and Genomics, as well as a full array of Honors, AP, and Visual and Performing Arts classes. Our continuation program at Island High School supports students needing support to graduate; our magnet high school – the Alameda Science and Technology Institute – offers an Early College Program that provides students opportunities to earn college credits and/or an Associate of Arts degree while still enrolled in high school.

Some specific highlights from the 2019-20 Local Control Accountability Plan (LCAP):

- Continued expansion of the existing Multi-Tiered System of Supports (MTSS) program to provide more mental health and behavioral intervention support to sites and implement an academic universal screener/progress monitoring/intervention system.
- Increased capacity and systems for data-driven improvement. Implementation of an academic diagnostic/screening tool has increased the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports.
- Strategic Planning within the Special Education Department: Continue to define a services delivery model for students with special needs that is facilitated by high quality teaching, supported through active engagement in the least restrictive learning environment, and monitored by multiple measures of student achievement.
- Ongoing implementation of the English Language Development program to support improved outcomes for English Learners in both fluency acquisition and mastery of core content. This remains a highlighted area within AUSD’s LCAP. Language and Literacy staff

continue to work across departments to build capacity for a broader group of staff to support EL needs following significant staffing reductions in the spring of 2018.

- Expansion of Career Technical Education (CTE) pathways. 2019-20 edmark the opening of a new Biotechnology pathway, expansion/redesign of the Sports Medicine pathway, and deepening of the work within the Broadcast Journalism, Digital Filmmaking, and Marketing pathways. The work within CTE is a collaboration of AUSD staff, community members, industry, and city partners.
- Maintain forward progress in many areas parallel to the ongoing process of reprioritizing the budget to increase employee compensation.

In order to make progress towards our LCAP goals, we must:

- Eliminate barriers to student success and maximize learning time,
- Support all students in becoming college and work ready
- Support all English Learners in becoming college and work ready
- Support parent/guardian development as knowledgeable partners and effective advocates for student success.
- Ensure that all students have access to basic services

While Senate Bill 98, which was passed on June 29, 2020, removed the requirement for a 2020-21 Local Control Accountability Plan (LCAP) and instead has asked for this Learning Continuity and Attendance Plan (LCP), we continue to strive towards our LCAP goals, knowing that some shifts might be necessary due to the constraints of operating during a pandemic. In order to do this, we have some specific goals that we continue to work towards, even during COVID-19. Of course, COVID-19 has created some safety and logistical challenges that required us to make some shifts to how we implement our plans in service of these goals. We continue to plan for the following goals, making adjustments based on our current needs and state and county required pandemic responses:

- Improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism
- Decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates
- Improve completion rate including reduction of middle and high school drop-out rates and increase of high school graduation rate
- Improve student achievement on both statewide and local assessments
- Increase College and Career Readiness
- Improve English Learner Achievement
- Implement State Standards for English Learners
- Improve efforts to seek input from parents/guardians to support informed district/school targeted supports
- Improve parent/guardian participation in school, especially in the area of increasing access to college and career readiness resources
- Improve early educational opportunities for parents/guardians in which they develop strategies/skills for supporting their student(s) and serving as leaders in the school/district community.
- Maintenance of a highly qualified teaching staff
- Provision of adequate instructional materials
- Maintenance of a safe learning environment

The COVID-19 pandemic has had a profound impact across all levels of Alameda Unified School District. In March 2020, when a Shelter In Place was ordered, we rapidly transitioned to Distance Learning. This rapid shift brought an onslaught of challenges to students, families, educators and administrators. We recognize the profound impact that the closing of school buildings and moving into distance learning has had on our students, families, and staff, especially those who live in poverty, are second language learners, are in foster care, or have disabilities. While we maintain our work connected to our 2019-20 LCAP during the 2020-21 School year, we also have had to make some necessary adjustments and implement some new work in response to the COVID-19 pandemic. We have paid special attention to ensuring that our planning is trauma informed, understanding the deep social, emotional, and mental health challenges that have come with this pandemic. Achieving equity for our students has been, and remains, at the forefront of the district's work, and the pandemic has exacerbated existing injustices for students. Addressing these issues of access guided initial crisis response in the Spring, and as seen in this plan, continues to guide how students and families are supported. While the Spring focused on basic needs such as technology, nutrition, and supplies, the Fall will continue to build on this through a focus on priority standards, targeted instructional support, mental health support, and increased and intentional family and student outreach.

AUSD is starting the year in a distance learning model. We have two distinct programs that will be able to support the needs of students, families, and staff. We have a fully remote program that we opened to support any students, staff, and families who might be immunocompromised and who might need to remain in Distance Learning for the entire year. This is a program that will continue all year long, even if the County deems it safe for in person instruction. The other program is a Flexible program that will be able to flex between Distance and In-person learning. We are actively working towards getting students back into our school buildings as soon as it is safe to do so. We understand the immense burden that families are facing, juggling their own workloads and responsibilities along with managing student schedules and engagement. AUSD is committed to reopening school campuses when it is safe to do so, and continues to use local and state guidance, as well as stakeholder feedback to inform the reopening plan.

Stakeholder Engagement

[A description of the efforts made to solicit stakeholder feedback.]

AUSD engaged in a cycle of stakeholder feedback and decision making connected to continued instruction during the COVID-19 pandemic. This cycle included a Strategic planning team made up of the Superintendent, Chief Academic Officer, Chief Student Support Officer, and Data and Assessment Coordinator to work closely with a Task Force made up of representatives of staff and community to plan for and facilitate the surveys, Town Hall engagements, and Staff working groups to receive feedback and make recommendations to the School Board. Meetings were held weekly between March 13, the date of the close of campuses thru August 27th, the first day of school through this cycle of stakeholder engagement.

Strategic Planning Group:

- Superintendent
- Chief Academic Officer (CAO)
- Chief Student Services Officer (CSSO)

- Data and Assessment Coordinator

AUSD 2020-21 Redesign Task Force and Working Groups:

- Teachers
- Principals/Asst. Principals
- District Office staff
- Community partners
- Working Groups:
 - District operations- facilities/cleaning
 - Site operations
 - Curriculum/Assessments
 - Special Education
 - ELD
 - Technology
 - Mental Health/SEL
 - Remote Design
 - Food Services
 - Afterschool/Parent support
 - Grading
 - Attendance
 - Enrollment
 - Secondary Math/World Language
 - Student/Staff Safety
 - Student/Staff assignment/Negotiations

Stakeholder Engagement/Consultation:

- Alameda Education Association (AEA) and California School Employees Association (CSEA), (Union partners)
- Student Advisory
- Student Survey
- Parent Survey
- Academic Committee
- Community Advisory Committee (CAC)
- Parent Teacher Advisory Committee (PTAC)
- ASped
- District English Learner Advisory Committee (DELAC)
- After school and enrichment partners
- Town Halls

Board of Education:

- June: 9, 23
- July: 16, 17*, 22*
- August: 10*, 21*, 25
- September: 8, 22

* Special Meetings

Town Halls:

- 5/7/20 - Encinal Jr. & Sr. High School Parent/Guardian Town Hall
- 5/13, 5/14, 5/15 and 5/18 - Student Advisory for Graduating Seniors
- 5/14/20 - Lincoln Middle School Town Hall
- 5/21/20 - Wood Middle School Town Hall
- 5/28/20 - Alameda High School Town Hall
- 6/4/20 - Mental Health Town Hall
- 6/16/20 and 7/9/20 - Elementary Student Town Hall
- 6/17 and 7/23 - SpEd M/S Town Hall
- 6/18 and 7/30 - SpEd M/M Town Hall
- 6/22 and 8/13 - PTAC Town Hall
- 6/30/20 - WCDC Family Town Hall
- 8/4/20 - Athletics Town Hall
- 8/12/20 - Student Advisory
- 9/23/20 - PTAC Meeting
- 9/29/20 - CAC Meeting

We received feedback from our Parent Teacher Association Council (PTAC) on September 28, 2020 and have incorporated elements into this plan. The complete document is included as an attachment at the end of this LCP.

The District's response dated September 30, 2020 is also included as an attachment.

[A description of the options provided for remote participation in public meetings and public hearings.]

It has been extremely important to AUSD to be able to convene as many engagements as possible and to make them accessible to our community. We found that using Zoom and Facebook streaming (when possible) allowed for maximum engagement. All public meetings have been recorded and made public on our district website after the meetings.

Surveys (April and June) to elicit community input also preceded and proceeded these meetings. These surveys were delivered via the Student Information System when it was important to hear from all of our stakeholders so that we could account for participation. If we did not get complete participation staff called families to either share information or ask questions to elicit feedback.

[A summary of the feedback provided by specific stakeholder groups.]

We learned a great deal from our stakeholder engagement cycles. Mainly, we heard that for the 2020-21 School Year we need to:

1. Determine the priority grade level standards and skills that each grade level/content area need to focus on next year;
2. Deepen our vision and practice for Asynchronous and Synchronous Distance Learning including professional development, curriculum, assessment, differentiation based on student needs, and standards based grading; and
3. Communicate academic expectations with families and providing examples of the work to students so that they know what is expected of them

In addition to the above implications, we are also continuing to hold the Graduate Profile, our district community's vision for students, at the center of our thinking and planning. That coupled with some clear Core Values and Guiding principles (developed from what we heard from our staff, students, and families as well as our data), we know we must prioritize the work to deepen and clarify it. Our goals and focus practices for the 2020-21 school year are that:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity;
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction;
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards; and
- We integrate social emotional and trauma-informed approach as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning.

[A description of the aspects of the Learning Continuity and Attendance Plan that were influenced by specific stakeholder input.]

In addition to County guidance, all of the Learning Continuity and Attendance plan was influenced by stakeholder input (as described above). We also used research and ideas from other districts on best practices for blended learning, engagement, culturally responsive and trauma informed practices to inform our plans. Every plan was also put through the lens of the following core values and priorities:

Core Value:

"We meet the needs of each learner."

Guiding Principles:

Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.

Core Value:

"We develop the whole child."

Guiding Principles:

Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).

Core Value:

"Mastery of Essential Standards through flexibility of structures"

Guiding Principles:

Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.

Core Value:

"We will support all students to embody the AUSD Graduate Profile"

Guiding Principles:

Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.

Core Value:

"Learning to read is key to students' academic success"

Guiding Principles:

Our plan will prioritize students who are learning to read

Core Value:

"Coherent Systems to Ensure Students are College & Career Ready"

Guiding Principles:

Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready

Core Value:

“We will invest in our staff in order to realize our vision for students”

Guiding Principles:

Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.

Continuity of Learning

In-Person Instructional Offerings

[A description of the actions the LEA will take to offer classroom-based instruction whenever possible, particularly for students who have experienced significant learning loss due to school closures in the 2019–2020 school year or are at a greater risk of experiencing learning loss due to future school closures.]

We are prepared to provide both In-person and Distance Learning during the 2020-21 School Year. In order to prepare for this Flexible model, we have developed a Flexible instruction model which blends both in-person and virtual learning. The purpose of this program is to allow students to return to school as soon as it is safe. Content is delivered by the teacher synchronously, students practice skills and/or complete projects asynchronously using core district curriculum, zoom, and google classroom. In addition, we are working to determine how to support smaller groups of students who need more support and would benefit from in-person learning to come to sites in a “learning hub” model when safe. This must be in accordance with county and state mandates.

For those students, staff, and families who will not be able to return to on-campus instruction due to underlying health or other issues, we have also developed a fully Remote Program. This program will be primarily “asynchronous” (or independent) and done at the student’s own pace using an online curriculum. Teachers will work as “case managers” of students’ instruction and will work with students one to one or in small groups, and parents/guardians will work collaboratively with the teachers to support and coach their students.

Cleaning and safety: Note: We have based this on the most current County guidance as of the writing of this plan. All is subject to Labor Partner Negotiations.

Face shields/cloth coverings:

Cloth masks:

- Required for TK and up
- Required for all school staff
- Exceptions: unable to wear them due to special circumstances, such as a particular developmental or health diagnosis that would limit their ability to wear a face covering.

Face Shields:

- Permissible as a substitute for teachers and students unable to wear a face covering for reasons of age and special need
- Should be worn with cloth drape across the bottom tucked into shirt
- Can be worn to compliment a cloth face covering
- Will be available for staff

Temperature Screening:

- Students and families are required to self-screen at home or before entering the building.
- If self-screening is not completed at home, school staff may conduct on-site visual screenings (coughing and runny nose) and temperature screenings.
- No-contact thermometers have been purchased for all health clerks and all administrators in AUSD.
- Asymptomatic individuals or individuals with mild non-specific symptoms may not realize they are infected and may pass through screening.
- Self-screening is a must and may consider using a lower threshold temperature

Distancing:

- Where practical, desks will be placed six feet apart and arranged to minimize face-to-face contact
- Permissible to relax 6-foot recommendation if it ensures all/more students receive in-class instruction
- Face coverings and cohort stability are higher priorities if they allow for more practical utilization of physical spaces to provide in-person instruction.

Cohort Size:

- As practicable, students should remain in the same space and in groups as small and as consistent as possible.
- When it is not possible to remain in stable cohorts within the same space (e.g. secondary school), face coverings and limiting group gatherings are a higher priority.

How will we properly clean and disinfect our schools?

- Follow CDC & EPA Guidance for Cleaning & Disinfecting Facilities.
- Disinfect with EPA-registered List N solutions for use against Covid-19.
- Apply disinfectants with electrostatic sprayers as the new standard of infection control.
- Sufficient and capable staffing.
- Develop policies, educate, train staff on worker protection; cleaning and disinfection protocols, proper use of materials and equipment while complying with OSHA's standards.

Academic Goals and Priorities:

Paying attention to our 2019-20 LCAP Goals, and planning for ensuring that teaching and learning continues during this challenging time, we have developed the following set of goals and priorities for both our Flexible and Remote Learning options in order to mitigate learning loss for all students:

Student level goals (across content, aligned to Graduate Profile):

Students dialogue about equity issues and take action to interrupt inequity

- Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action
- Read, think, talk, and write about complex texts every day
- Establish and maintain healthy and rewarding relationships with diverse individuals and groups

Teacher priority practices (across content)

Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity

- Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- Teachers build positive relationships with and among our students to create the conditions for learning

Leadership Practices

School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity

- School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision
- School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning

District Goals

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students
- We maximize interaction and independence in students' blended learning experience We integrate social emotional and trauma-informed approaches as the foundation for learning experiences

Conditions for Adult Learning

- We learn by collaborating, planning, doing, and reflecting
- We have space to be vulnerable, self-reflective, and create meaning

- Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Actions Related to In-Person Instructional Offerings [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing
<p>Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction:</p> <ul style="list-style-type: none"> • Professional Development - 4 days of Learning Conference - \$1,131,335 • Other professional development \$50,188.12 • In-person materials \$379,564.58 • Online materials \$358,913.73 • Curriculum: • Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction: • Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards • Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards • Teachers build positive relationships with and among our students to create the conditions for learning 	<p>\$1,920,001</p>	<p>Yes</p>

Distance Learning Program

Continuity of Instruction

[A description of how the LEA will provide continuity of instruction during the school year to ensure pupils have access to a full curriculum of substantially similar quality regardless of the method of delivery, including the LEA's plan for curriculum and instructional resources that will ensure instructional continuity for pupils if a transition between in-person instruction and distance learning is necessary.]

Our district's goal is to balance the complex variety of needs that students, families, and staff are currently confronting, including reducing the risk of COVID-19, reducing student learning loss and isolation, and supporting families to return to work. Our district's top priority for learning is to return to a standard school model, with all students in class five days per week. When the standard school model is not permissible by Departments of Public Health, the Flexible Model and the Remote Model described below will be in place. We will continue to work with our labor partners to develop a plan that is in accordance with County Departments of Public Health guidelines at the time of opening, and is built in collaboration with our union partners.

The health and safety of our students, staff, and families is of the utmost importance. When permitted to return in-person learning, on-campus school will look much different than previous years due to new health and safety measures. Our plan to reopen schools is based on current guidance from public health officials and state agencies and will be continually updated as the situation evolves. It is important to note that our District plans will focus sharply on academic instruction to enhance student performance and address learning loss.

Flexible model: Combination of teacher directed instruction and online learning; Teacher is planning and delivering content and instruction, Class time used for discussion and projects that synthesize information, Lessons/lectures through online videos students can access at their own time and pace, Choice in ways to practice and demonstrate understanding of skill/standard, Students pacing depends on mastery of skills/standards, Can be moved to a Full distance model if needed due to SIP.

Remote model: Online curriculum program is used to provide instruction to the student; Working closely with the teacher, the parent (or other responsible adult) serves as a "Learning Coach" to the child, helping to facilitate his or her progress and working to modify the pace and schedule as needed, Students work in a self-paced, asynchronous environment for most of the day, Teachers work as "case managers" who meet with students as needed to support learning, Synchronous time with teacher is used to answer questions, interact with other students, check in, do SEL activities.

Access to Devices and Connectivity

[A description of how the LEA will ensure access to devices and connectivity for all pupils to support distance learning.]

When schools suddenly closed mid March last school year, our technology department and site staff quickly developed a plan to hand out chromebooks to all students who needed a device at home. We determined need through surveys, teacher input, and family outreach. In addition to providing chromebooks, we gathered information about who had a lack of internet and connectivity and began to hand out hot spots.

During the 2020-21 School Year, AUSD will continue to ensure access to devices and connectivity for all pupils to support distance learning whenever it occurs, including:

- Provide Chromebooks to all students. 1:1 for all grade levels (K-12).
- Provide remote access to labs or provide laptops for CTE/digital course students (Adobe).
- Explore internet access for students lacking fast internet. Coordinating with the Alameda Education Foundation and internet providers.
- Design technical support model for staff, students, and parents. Web site (self help and guidance) and access to tech requests.
- Purchase Zoom or Google Meet licenses.
- Provide alternative technology available if needed.

Pupil Participation and Progress

[A description of how the LEA will assess pupil progress through live contacts and synchronous instructional minutes, and a description of how the LEA will measure participation and time value of pupil work.]

Our 2019-20 LCAP names our goal of eliminating barriers to student success and maximize learning time. In order to do this we have been working to improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism and decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates. The challenges that we now face, due to COVID-19 and the need to have flexibility between Distance and In-person learning have made us create some new systems to track attendance and participation. Compulsory attendance means that all students are expected to participate in school, including the teacher's live daily online instruction and the completion of assignments given by the teacher. Both of these elements are expected parts of attending school and, to comply with state law, AUSD will implement a new attendance taking system that tracks both daily attendance in live instruction and each student's ongoing completion of school work. We also know that we must continue to work towards creating engaging, culturally responsive, and rigorous learning through both synchronous and asynchronous lessons so that our students are excited to participate.

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

Weekly engagement

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)

Synchronous = 25

Asynchronous = 155

Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)

(M/T/TH/F)

Synchronous = 120

Asynchronous = 125

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 200

Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 150

Asynchronous = 95

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 165

Asynchronous = 150

Total = 315

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

How is weekly engagement data documented?

On Wednesday, the teacher will input data on the extent to which the student was engaged based on a scale of "0", "1", "2", "3", "4", or "5" for the week:

Weekly Engagement Score (Asynchronous & Synchronous student learning minutes for the week)

Grade K

0-179 mins = "0"

180-359 mins = "1"

360-539 mins = "2"

540-719 mins = "3"

720-899 mins = "4"

900+ mins = "5"

Grade 1-3

0-229 mins = "0"

230-459 mins = "1"

460-689 mins = "2"

690-919 mins = "3"

920-1149 mins = "4"

1,150+ mins = "5"

Grade 4-12

0-239 mins = "0"

240-479 mins = "1"

480-719 mins = "2"

720-959 mins = "3"

960-1199 mins = "4"

1,200+ mins = "5"

Daily Attendance

Each day (TK-5) and each class (6-12) teachers must record students present or absent in Aeries. There are various ways that students can demonstrate attendance:

- Live via web conferencing platform (i.e. Zoom, Google Meet)
- Online response form (i.e. Google Doc, Google Form)

- Blended learning platform login record
- Engagement (Participation) in an asynchronous assignment
- Email record of describing participation
- Phone/Voicemail record describing participation
- Attendance for asynchronous work is based on the student completing the assignment, not the grade value or how much time they spent on it.
- Students shall be marked absent if they do not engage in any synchronous or asynchronous class activity
- If a student submits assignments at any time during the day they are not absent

Daily Attendance Procedures Overview 2020-2021

- Daily attendance is required
- California Education Code section 4504 requires documentation of daily participation for each student, each school day, during distance learning.
- If a student is present during synchronous time, there is no need to confirm their asynchronous participation.

Introduction to the Procedures

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

When students are in Distance Learning, there are two ways that a student can be considered present for the day or the period:

Step 1:

Synchronous Distance Learning

- The student attends the mandatory live session (i.e. zoom, etc.) that has been scheduled for the day or period. Students are expected to participate with a visual attendance check in. If there is a barrier to a visual check-in, participation with auditory or chat features can suffice for documenting synchronous attendance. For the purposes of taking attendance, any participation in the scheduled session counts as attending synchronously.
- If teachers notice that students are habitually late or leaving the live sessions early, the teacher should follow up with the student or parent, or inform attendance staff to assist with follow up.

Synchronous attendance is recorded by the teacher of record (classroom teacher) each school day in Aeries during their live meeting with students or directly after. Each period for secondary students.

An attendance code must be entered for each student:

A – Absent, missed Synchronous Distance Learning live session

P – Present, attended Synchronous Distance Learning live session

Step 2:

Asynchronous Distance Learning

- Students who are marked absent (A - missed Synchronous Distance Learning live session) for the day or period, an alternative attendance code may be used to mark the student present if the student attempts or completes independent activities on that attendance day.
- The student must complete an assignment or assessment that has the equivalent time value of the day or the period. Assigned activities should be chunked into daily work for this purpose.
- The teacher must verify that the student has completed the work during that attendance day by reviewing the work submitted by the student, or by engaging with the student or their parent/guardian to verify completion of the activity.
- If a student is unable to complete an activity, but the teacher is able to engage the student or their parent/guardian on that day to discuss and try to resolve the student's challenges, then the Asynchronous Distance Learning Present code may be used.

Teachers have one school week to go back and make an adjustment to document asynchronous attendance in lieu of an absence.

NOTE: Only a student marked 'A' absent should be updated.

L – Asynchronous Learning Present

When using the Asynchronous Present attendance code, the teacher of record must add a note when recording the student's attendance that specifies what type of engagement occurred:

- Time Value of Assignment (TVA)
- specify the online system where work was submitted or the type of assignment completed
- Student or Parent/Guardian Engagement (SPE)
- specify the nature of the communication - email, individual zoom, call, etc. with an explanation of how the teacher engaged the student in order to complete the assignment.

Weekly Attendance

Teachers must attest that attendance has been accurately captured in Aeries each week by reviewing their electronic attendance record each Wednesday for the prior week's activities.

At this time, all students who are still marked with a 'A' and have not met the Asynchronous Distance Learning requirement will have their record updated to:

K – Missed Synchronous and Asynchronous Distance Learning requirements.

RECORDING ATTENDANCE - EACH DAY/PERIOD

1. Synchronous Distance Learning Daily mandatory meeting.

Login to Aeries. In the left navigation tree choose ? Attendance

2. Check the appropriate attendance code next to the student's name to record Synchronous DL:

Synchronous Attendance codes:

P - Synchronous DL Present

A - Absent

Z - Tardy

Students who miss 30 minutes or more of the day's scheduled live meeting should be marked with a "Z".. Please discuss expectations around the importance of attendance with your students. If necessary, arrange a separate meeting with the student and/or parent/guardian if the student makes this a habit.

3. Asynchronous Distance Learning Daily Follow up:

For any student who was absent from Synchronous Learning, check to see if they met the Asynchronous work requirements and update attendance accordingly:

Asynchronous Attendance codes:

L – Asynchronous DL work completed

K – Asynchronous DL work attempted but not completed

4. Teachers must enter notes / remarks / comments for students who are being marked present with an asynchronous code. The note should be entered in the field next to the attendance code, and can be brief.

Samples:

TVA: 75 Minute Edgenuity assignment “Working with Molecules”

Student Contact: Met with student to review the “Working with Molecules” assignment

Parent Contact: Met with p/g to review the “Working with Molecules” assignment

For students who are absent from Synchronous meetings, are not attempting Asynchronous work and who you are not able to contact. Please leave the A – absence code and add a note in attendance. Sample:

UNC – unable to make contact. ParentSquare message, no response. No work completed.

VERIFYING ATTENDANCE AND ENGAGEMENT - EACH WEEK

1. Teachers will run the Weekly Attendance Report by Class each week to verify student attendance and engagement.

Teachers may see attendance codes the attendance staff have entered. Check the attendance notes or attendance log to see if there are questions about what is entered. Contact school sites attendance staff if there are any questions.

Attendance procedures for when there is a substitute teacher:

Substitute teachers should be provided with the teacher’s class roster and a copy of our attendance procedures. They should note attendance on the roster and submit it via email to the school site attendance personnel.

Grading

On June 8th 2020, the California Department of Education (CDE) issued general guidelines regarding reopening school’s during COVID19 and for the 2020-2021 school year. The considerations below are primarily adapted from this document’s guidance on grading. The CDE may further delineate grading requirements in the near future. The district will be moving to standards-based grading, which is in large part due to the urgency, especially in these times, for students to accelerate their learning towards the priority standards for each course.

During the 2020-2021 school year, our school and students will still be heavily impacted by the effects of the global pandemic. While accountability measures such as grading will return this school year, we still have students caring for siblings, parents who have lost jobs and are worried about meeting their family's basic needs, and worst case scenario, people getting sick. Even when families have their basic needs met, many are reporting increased anxiety and stress which will affect learning. While we are committed to ensuring one-to-one internet and devices for all families, we know that many people will still have slow internet or do not have a private quiet place to work in their homes. The world has shifted. We must be flexible and caring for all involved as we consider how to assess and provide fair feedback for students.

As we enter into this new reality, blended learning with a focus on standards must be at the heart of all we do, including assessment. This is a time to be creative with students, learn what interests them, and find new ways to make education relevant, engaging, fun, and meaningful. In addition, we need to communicate clearly and effectively with families and students about what students have completed as well as mastered. We must also ensure that we are clear and transparent on the priority standards for our course and how students will demonstrate mastery.

Standards-Based Grading helps reflect back to students (and their families) the degree to which they are mastering the Standards via assignments. In Elementary (TK-5) this was already in practice prior to COVID. In Secondary, we will use the following during COVID.

Grading Guidance

- Grading should be based on a student's progress toward mastery of standards. When letter grades are given they should correlate to the following:
- A Mastery - The student demonstrates an in-depth understanding of the priority grade level standard(s) by consistently completing advanced applications of the material
- B Proficiency - The student has mastered the complex, targeted knowledge for most/all priority grade level standards for the class
- C Meets Standard - The student understands the foundational material that supports the targeted learning, but is still working to master the complex material for priority grade level standards for the class
- D/Not Yet - Even with assistance from the teacher, the student does not yet understand the priority standards. A "NM" will be given for missing work until the end of the semester if mastery is not achieved.

School sites may need to discuss percentage breakdowns as they correlate to grades.

- Grading for English Learners should also take into account their progress towards the ELD standards. If a student is not yet meeting a content standard but making progress to the next level of ELD proficiency they may still receive a passing grade.
- Assessment for students with IEPs must be appropriately modified and accommodated.
- Grades should be recorded and communicated through Aeries. Narrative grading should be used when possible.
- All grades must have standards-aligned evidence as the basis of the grade in order to ensure clear communication with students and families who have questions or need additional support in understanding their progress towards mastery and grades.
- The lowest cumulative grade a student can receive for each term will be a C for Middle School and a D for High School (all students not meeting the requirements for these grades will receive a "No Pass" if no work was turned in or "Not Yet" mark if they have shown no evidence of mastery in the work turned in).

- All students will have the opportunity to revise and resubmit work to show mastery towards literacy standards by the end of the course.

AUSD is in a rapidly changing educational environment and the administration will hone and refine the district's response to the pandemic as circumstances change and new information becomes available. Key variables that will influence decisions about grading practices include, but are not limited to, length of school closure; new guidelines from the CDE; new policy from the Governing Board; decisions made by colleges and universities; and changing health and safety conditions in the community.

Distance Learning Professional Development

[A description of the professional development and resources that will be provided to staff to support the distance learning program, including technological support.]

Our 2019-20 LCAP names that we must eliminate barriers to student success and maximize learning time, support all students in becoming college and work ready, and support all English Learners in becoming college and work ready. We knew that in order to continue growth in these areas, we would have to support our teachers and staff to learn new skills to use during Distance Learning.

Teachers, Paraprofessionals, and other staff began the year receiving professional learning through a 4 day August Learning Conference. It was structured to model best practices in Blended Learning. Teachers and other staff participated in new learning connected to using online platforms and learning management systems, focusing on priority standards, and strong trauma informed engagement practices so that they build skill and understanding of Blended Learning and Distance Learning practices. The conference learning took place through direct synchronous instruction, cross-site collaboration, grade level/content level collaboration, site level discussions, individual preparation time, and self-paced asynchronous learning.

Teachers will have collaboration/professional development time every Wednesday. This time will be utilized for completing their educational activities and trainings within the categories of student instruction (in-person or virtual), district organized professional development, teacher prep time, and common planning time to meet student outcomes as determined by district priority standards, LCAP, SPSA, and WASC goals.

Monthly collaboration/professional development schedule

Week 1: Site Level Collaboration

Week 2: Home (Cross-Site) Collaboration

Week 3: Site Level Professional Development

Week 4: Community of Practice- Anti-racist educators

Week 5 (if necessary): Unit Member directed Collaboration

Paraprofessional Training: A Learning Conference was also held for Paraprofessionals before school began to assist with their support of students in distance learning. Training curricula called Master Teacher and Behavior University have also been purchased to assist with professional growth throughout the school year. Education Specialists will guide paraprofessionals in the supports that they provide. For Moderate Severe (M/S), students, paraprofessionals will participate in classroom meetings with the teacher and related services staff to plan

supports for students based on student progress data. Finally, training will continue to be provided for M/S paraprofessionals in Applied Behavioral Analysis practices.

Staff Roles and Responsibilities

[A description of the new roles and responsibilities of affected staff as a result of COVID-19.]

With the Covid-19 pandemic and school closures, all site staff, as well as district staff, have had to change the way they do their job in order to respond to the uniqueness of needs during this unprecedented time. In March 2020, all schools and district offices in Alameda Unified School District, as well as many districts in the state, were abruptly closed. Teachers and other school staff had to respond instantly because every passing school day students were at risk for learning loss. Teachers and staff did respond and adapt to this uncharted territory with new roles and responsibilities in nearly all aspects of their job. Specifically, with the creation of two distinct programs, the Remote Program and the Flexible program, staff have had to adapt to changes in how we support our students, staff, and families. We continue to adapt, and roles and responsibilities continue to evolve as we proceed through this school year. Some of the new staff roles and responsibilities during the time of COVID-19 are reflected below.

Remote Program:

Remote Principal:

- Ensure all staff have the ability to provide remote learning access
- Ensure all families have access to remote learning opportunities
- Facilitate coordination between Remote School staff and Home School staff

Remote teachers:

- Act as teachers who case manage students' courses and also provide academic support providers to assist them in achieving success with the online curriculum.
- Meet with students individually or in small groups to provide tutorials necessary for students to successfully complete the online curriculum.
- Communicate regularly with both the Learning Coach (family member) and students to support students' success.
- Communicate regularly with "home school" point of contact to inform them of student progress.
- Build relationships with families to support all students in their academic successes.
- Students will have interaction with teachers on a daily basis along with progress meetings, parent/teacher workshops, emails and other contact with the teachers.
- Review student data and coordinate small group instruction based on need.

Specialists:

- Elementary Media/Library, PE, and Music who had provided enrichment during teacher preparation time to students pre-COVID were moved into classroom teaching positions to accommodate our Remote program.

Staff new to AUSD during COVID-19:

- All onboarding and professional learning was done virtually and focused on the use of our systems and technology.

Flexible Program:

Teachers and Classroom Instruction: In the Flexible model, learning, engagement is much more difficult. Teachers will need to develop new strategies to capture students' attention and keep it. The lessons will need to be short but more focused. Teachers will be required to contact students and/or parents/guardians as a part of their duty day to re-engage and/or offer clarity. Teachers will be required to provide extra support for students who have experienced or are at risk for learning loss. Teachers now have blocks of time to arrange strategy groups of students who need this additional support. Rather than posting the daily schedule on the white board, teachers will post on the learning management system, and track the value of time for their assignments. Teachers will need to navigate situations with parents in the room either asking them to get more involved or to give their child more independence. Teachers will need to modify events such as back to school night, moving to an online method. All materials and assignments will need to be modified for access in these new models.

CTE pathway teachers have received materials and technical support to help them to adapt their courses to be able to provide high-quality instruction for students enrolled in the Flexible program.

Special Education Teachers: SpEd Teachers will need to work with their students in a new way. When students can not connect in person with their teachers, it is harder for teachers to build relationships and trust. This will be even harder for some of our students with special needs. Online conferencing platforms can be off putting for many students, and some will refuse. Special Education teachers will have to be masterful communicators and strengthen their skills to increase student participation and engagement.

Principals: Communication and outreach will become a major part of the principal's job. In distance learning principals will need to monitor attendance in a school wide system differently. The principal will need to set up a system for tracking participation school wide, and school specific strategies for re-engaging students. Principals will now be required to communicate weekly with the parent community and differentiate messaging across multiple platforms. They need to ensure that all students have access to the technology needed for DL/hybrid learning. They will need to supervise teachers by attending online conferencing sessions and offer feedback. They will monitor learning management systems, and assessments. They will change staff meetings to an online platform and provide opportunities for teachers to maintain positive relationships with each other.

Site Office Staff: School Administrative Assistants or attendance staff will continue to monitor attendance and respond, but this will also change to adapt for distance/hybrid learning. Reminders to teachers to document, new coding procedures, and outreach will change. Attendance is now multi-faceted, joining a Zoom session alone will not suffice. When a student is ill, staff will have to proceed according to the Alameda County guidance. Parents will have limited access to the school, so all registration procedures have been changed to online.

Custodial: During distance learning the custodial staff roles and responsibilities will be more focused on disinfecting staff used areas, keeping an inventory of masks, gloves, and disinfectants for use by staff who are on site. Staff will work on preparations for opening in a hybrid model

including relocating desks and chairs. They will be responsible for modeling the social distancing, mask wearing, and representing the current health safety requirements.

School Psychologists: School Psychologists will gather and analyze available assessment data in order to provide guidance on determination of special education eligibility if possible taking into consideration shelter in place and social distancing. They will complete assessments to the extent possible within the mandated IDEA timelines. In addition, they are supporting case managers and students with socio-emotional support.

Nutrition Services Staff: Some staff worked over the summer at central locations providing meals for our students. This school year, while in distance learning, instead of working out of their usual sites preparing breakfast and lunch for students, they are stationed at centralized locations distributing grab and go meals to all AUSD students.

District Nurse: Responsible for collaborating with state and local health departments to update emergency operations plans for all sites.

District Administrators: Many District administrators including and staff worked beyond their work calendar in order to create plans for distance learning including professional development plans, technology plans, and plans for assessment. Their jobs continue to focus on providing support for teachers instructing in a distance learning environment.

District Office Staff: Staff are able to continue supporting the schools by working from home with some opportunities to work from the District Office as permitted.

Both Flexible and Remote:

Attendance and Participation Tracking: Teachers will be responsible for monitoring attendance in a whole new way. Attendance is no longer a simple operation as it was in the past with “present,” “absent,” or “tardy.” Attendance now is defined by student participation by logging onto online sessions, completion of assignments, completion of assessments, and parent/guardian and/or student contact. Teachers will be required to keep systems for tracking daily participation and will be required to input this data into Illuminate weekly.

Teaching and Learning Department:

The Teaching and Learning department made some position shifts that were not specifically related to COVID-19 but in order to align better with the needs of our sites. While the changes were not based in a response to COVID-19, these positions, as with all in our district, had to adapt to the shifts and needs of our schools sites during COVID-19.

The TK-12 Language and Literacy Coordinator specifically focused on English Language Development and organizing our programming for our English Language Learners, this position supports academic language development across content TK-12. This position is paying special attention to supporting school sites with the needs of our English Language Learners during Distance Learning and working with the Instructional Coaches to develop plans to support individual students needs.

The TK-12 STEAM Coordinator focuses on Science, Technology, Engineering, Arts, and Mathematics instruction across the district.

Language and Literacy Coaches work closely with school sites to analyze curricular resources connected to our AUSD priority standards, and plan for how to teach these units and lessons in the context of blended and flipped learning, backwards plan Structured Discourse from Language Objectives, develop a capacity for self-study and continuous improvement through reflection on instruction and student data, with a focus on ELLs, students w/ disabilities, and black students.

Supports for Pupils with Unique Needs

[A description of the additional supports the LEA will provide during distance learning to assist pupils with unique needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness.]

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In order to address this disproportionate impact, we have worked to support our students in the following ways:

Foster Youth:

Improve our communication connected to the needs of our students in Foster care. This includes: Immediate enrollment; district/school connection and communication with County case manager; high school guidance and communication around AB 167/216 grad requirements.

AUSD's Foster Youth Liaison collaborates with Alameda County child welfare social workers, Alameda County Probation officers, Alameda County courts, and East Bay Children Law Office in order to minimize school placement changes, provide needed supports, and improve educational outcomes for Foster Youth. All Foster Youth are ensured immediate enrollment, regardless of the availability of required documents (ex. Immunization records, birth certificates, transcripts, etc.). AUSD's Foster Youth Liaison also provides training to district enrollment staff, site office staff, Intervention Leads and school counselors. Training topics include information on specific education laws that are specific to foster youth, when and how to notify the Foster Youth Liaison when there are concerns, and policies around graduation requirements outlined in AB 167 / AB 216.

McKinney Vento Homeless Youth:

Continue to provide differentiated support for our students experiencing homelessness: AUSD's McKinney Vento Liaison works closely with and provides training to enrollment staff, office staff, intervention leads, and school counselors to identify students who are experiencing homelessness and provide them extra support. If the youth is enrolling in the district, they are enrolled immediately regardless of being able to provide required documentation (ex. immunization records, birth certificates, transcripts, etc.). When a youth is identified as qualifying for McKinney Vento services, the liaison conducts an intake with the family. Needs are identified and resources are provided. All McKinney Vento youth are provided with AC Transit bus passes for transportation when the district is able to provide in-person instruction and backpacks filled with school supplies. Additionally, all McKinney Vento youth are enrolled in the Free and Reduced Lunch program.

McKinney Vento families are given referrals to: Alameda Food Bank for food access; Alameda Family Services Family Support Center for case management and assistance in enrolling in CalFresh, MediCal, and other assistance programs; Homeless Action Center for legal assistance; All Good Living Foundation for shoes, clothing, toiletries, and hot food delivery from local restaurants; Dine and Connect information about the faith based organization that host dinner and information for homeless; Safe Parking and Day Center information where homeless families can do laundry, charge their phones, watch TV, and have a safe place to park at night and be supported by Village of Love social services; and City of Alameda Homeless Hotline for additional resources that are provided by the City of Alameda. Intervention Leads at each school site do a weekly data review on their McKinney Vento youth to ensure attendance, engagement, and school success. High school counselors meet with their McKinney Vento families to discuss and review eligibility for reduced credit requirement graduation per AB 1806.

Immediate enrollment; transportation (via bus passes); enrollment into Free-Reduced Lunch program; Backpack and School supplies at the beginning of the school year and at the midpoint of school year (after winter break); referrals to social service and health agencies that address specific needs; Holiday toy drive recipients; secondary school counseling regarding AB 1806.

Pupils with Exceptional Needs:

Create an Individualized Education Aligned Plan to be followed during Distance Learning for students with IEPs. The District has planned to provide Student's operative IEP to the greatest extent practicable, through a combination of in-person and distance learning in the "Flexible Model" or distance only learning in the "Remote Model". As indicated in the contingency "IEP Aligned Plan" with components required by Senate Bill 98, the following information regarding services are delineated: access to the general curriculum, specialized academic instruction ("SAI") based on areas of need, related services, accommodations and modifications, supplementary aids and services, transition services (e.g., in effect when Student is 16 years of age or older or younger if deemed appropriate by the IEP team), and extended school year services where appropriate, to be implemented during an emergency. Please be aware that the educational placement and services made available during the time frame of "emergency conditions" are not stay-put, and upon termination of the emergency Student's stay-put IEP is the most recent IEP with parental consent. Please note that some distance learning or related services will involve small and large group learning, meaning other students might be involved in the same instructional or related services activities. Educators and service providers will communicate schedules with individual parents based upon the students' IEP.

Additional Summer Instruction: In the summer, any student with an IEP in AUSD can access additional instruction to address learning loss and assist with recovery. Small group sessions for academics as well as social emotional learning and mental health were provided 4 afternoons per week by District Education Specialists and a Board Certified Behavior Analyst, following Extended School Year in the morning. The Adaptive Physical Education teacher enhanced wellness sessions with online movement games that students and families participated in. Over 40 students requested the program. In the summer, research-based curriculum for online Lexia reading intervention was piloted and received well by staff and parents. The Lexia program was purchased and will be extended to all Mild/Moderate Education Specialists during the 2020-2021 school year. Teachers were trained in a session held during the August Learning Summit held for staff for 4 days before students returned to distance learning.

Additional Fall Instruction: Similar plans are being made to provide students with IEPs across the district additional instruction to support learning loss. This opportunity will be announced soon after the school year begins.

Research-based Curriculum: The special education team reviewed various online instructional curricula to determine programs that would best support learning loss during COVID, including those programs previously used augmented with new programs.

New and continuing curricula include:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

Assessment and Evaluation: Assessment is critical to determine students' learning needs following a period of Shelter-in-Place last Spring. Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans. Assessment efforts include: (1) Training of teachers in STAR benchmark assessment system; (2) development of a plan for addressing assessments due last Spring and coming due in order to inform instruction and annual or triennial IEPs. Temporary NPA Psychologists were hired to complete assessments in the interim until assessments can be completed.

IEP Aligned Plans (IAP): Contingency plans as defined by SB 98 to address student needs for instruction and related services that align with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

Individual Education Plan (IEP): Initial, annual and triennial IEP meetings will continue as prescribed by the Individuals with Disabilities Education Act (IDEA), to provide students an offer of FAPE when schools return to typical times, while also providing an opportunity to discuss emergency plans per Senate Bill 98.

English Language Learners

Our LCAP names that we will support all English Learners in becoming college and work ready. Our vision for English Language Learner (ELL) success certainly includes mastery of Academic Language skills. But the ultimate goal for ELLs is

joyful and fulfilling participation in the community and the world. It is precisely by working towards this goal in our schools and communities that ELLs will have the most powerful opportunities to use, develop and master rich and complex language.

English language learners have been disproportionately impacted during distance learning by losing English language exposure at school and interactive experiences with peers that assist with English language development. We will be intentional in giving English learners opportunities for additional support.

Teachers will continue to deliver Designated English Language Development, except that what they do will now need to be done in a virtual classroom. Time blocks are embedded in our Distance Learning plan so that elementary teachers will be able to pull students into small groups for Designated ELD instruction, and our secondary ELD teachers will continue to have class periods for Designated ELD instruction. The times for instruction do not interfere with ELL students’ access to Tier 1 instruction. We will continue to use our adopted ELD instructional curriculum and materials as well as supplemental resources provided to all students, such as Raz, with access to leveled texts and reading records, and myON (similar), as well as Imagine Language & Literacy, a tech-enabled, adaptive program for all our ELL students in the Remote Program and our Newcomer students in the Flexible Program. This additional purchase was prioritized for our Remote Program students because the Remote Program is more self-paced and independent, and want to make sure students have additional opportunities to practice and demonstrate their Speaking and Listening skills. Newcomer students were also prioritized given their need for additional supports.

Teaching & Learning coaches will support general education teachers with integrating EL strategies into their instruction and providing added supports and scaffolds for English learners in order to support the development of Academic Language skills. This year, we’ve narrowed our EL strategies to our district-wide “Daily High-Impact Language Practices,” for which we will provide initial training and ongoing support. Middle and high school teachers will also continue to use Constructing Meaning strategies modified for online learning.

Actions related to the Distance Learning Program [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing
In-person materials \$379,564.58 Online materials \$358,913.73 Curriculum: Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction: Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards Teachers build positive relationships with and among our students to create the conditions for learning	\$738,478	Yes

Pupil Learning Loss

[A description of how the LEA will address pupil learning loss that results from COVID-19 during the 2019–2020 and 2020–21 school years, including how the LEA will assess pupils to measure learning status, particularly in the areas of English language arts, English language development, and mathematics.]

During the 2019-20 school year, students participated in Distance Learning for the last three months of school. During that time, we observed variance in participation rates. As we begin the 2020-21 school year, it is important to determine how COVID-19, distance learning, and participation rates affected the academic mastery of our students. AUSD intends to administer the Star Reading K-12 and STAR Mathematics Assessments K-5, and the Mathematics Diagnostics Testing Project (MDTP) 6-12. Currently, three administrations are

scheduled: Fall, Winter, Spring. The Fall administration will function as the baseline to both observe growth during the 2020-21 distance learning program and ascertain potential opportunity gaps created by the pandemic. Data from Fall will be disaggregated into student groups, grade levels, and school sites. Site leaders and teachers will have access to individual student scores to plan interventions. Scores will be compared to previous average scores for the Fall administration of the Star assessment and MDTP for students who took them at that time. For students who have Individual Education Plans (IEPs), individual learning loss will be assessed based upon assessments, accommodations, and/or modifications articulated in the Individual Education Plans (IEPs).

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In addition, our LCAP names that we will increase capacity and systems for data-driven improvement. In order to continue to do this we must implement an academic diagnostic/screening tool so that we can increase the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports. With this data available, learning loss will be addressed in both our remote learning program and our flexible learning program models with built in time for teachers to hold equity based small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. In the next session our systems and strategies are described in more detail.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: MDTP - The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

In TK-5, we developed the Equitable Start schedule to allow teachers to get to know their students, families, and assess students' specific needs in order to inform their instructional planning. Teachers will use information from these meetings to create specific Tier 2 and 3 small group learning experiences.

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning

- Weekly engagement review

- Connections with parents and families to learn of student needs
- Teacher created assessments

English Language Learners will receive Designated ELD for 30 minutes a day and Integrated ELD through daily content

Based on the needs of students, teachers will work with students in small groups or one to one to provide Tier 2 and Tier 3 supports based on skills or standards mastery needs.

Pupil Learning Loss Strategies

[A description of the actions and strategies the LEA will use to address learning loss and accelerate learning progress for pupils, as needed, including how these strategies differ for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils experiencing homelessness.]

Learning loss will be addressed in both our Remote and Flexible learning models For both our remote learning program and flexible learning program models grades TK-12, time will be embedded in the schedule forwith built in time for teachers to hold equity based Tier 2 and Tier 3 small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. This time is for the purpose of providing additional support to students who most need it. Teachers will track student progress and review during Wednesday professional learning time. Staff will have structured collaboration time to engage in improvement cycles including reviewing student assessments, planning instructional shifts and strategies based on data, establishing clear outcome goals, debriefing lessons as a team, and reflecting on their practice. All of this will be done electronically, using a video conferencing platform if in the distance learning model.

In addition, sites will track achievement data and meet in Coordination of Services Teams (COST) to coordinate potential services for students performing below grade level standards. COST can consist-- Academic services include small group targeted instruction consisting of strategically placed students. These small groups of students will be assessed to determine growth in six week cycles. If a student is not making progress, COST will collaborate to regroup students and try different researched based interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students performing below grade level, but also our most vulnerable students including low socio-economic students, English learners, foster youth and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well.

We know that the burden of school changes has fallen disproportionately on students with greater needs and they will undoubtedly need more focus and attention. Based on Distance Learning in the spring, families reported experiencing anxiety about learning loss in their students with disabilities, difficulty keeping their students engaged in the virtual environment, worry about their students' social-emotional state, and frustration with not being able to receive some in-person services detailed in their IEPs. In addition school closures upended many students' Individualized Education Plans (IEP). In AUSD, our Special Education Department is working proactively to respond to the Covid-19 pandemic and what it means to provide continuity of learning during this time of distance learning. For special education students in AUSD, the IEP team will use the Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans for each student with an IEP. The IAP does not change the district's offer of a Free and Appropriate Public Education (FAPE) to students. These "Contingency" plans as defined by SB 98 to address student needs for instruction and related services that align

with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: Math Diagnostic Testing Project-MDTP- The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning:

- Weekly engagement review
- Connections with parents and families to learn of student needs
- Teacher created assessments

Assessments will be administered on an ongoing basis, The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

Kingmakers program:

Kingmakers of Oakland (KOO) provides Khepera Curriculum consulting to Chief Academic Officer. Khepera Curriculum consulting will support the implementation of the "Mastering Our Cultural Identity: African American Male Image" course at four AUSD school sites. Chief Academic Officer will participate in the KOO Learning Collaborative - Strategic Planning and implementation with Cross Functional, Intergenerational Team to address the systems, structures, conditions and culture that leads to improved educational outcomes for African American Male (AAM) students from Pre-K to 12th grade.

Summer programming

High School Credit Recovery:

Credit Recovery is an independent study course that gives students the time and support to complete course work required to receive a passing grade in a course needed for graduation or college eligibility. Credit Recovery can be accomplished through an accredited online learning platform. Select courses also meet the University of California's "a-g" requirements. High School students can take self-paced courses through the online platform that make up credit deficiencies for high school graduation. Students may work online at their own pace throughout the semester and must check in frequently with their summer program instructor (a credentialed AUSD teacher) in order to take exams and receive credits for each course. Credits earned will be posted on the student's AUSD transcript.

Elementary Summer School (TK-5):

Our Title 1/ELD summer program serves 200 students and is geared towards supporting English Language Learners and students who receive Free or Reduced lunch. Traditionally 4 weeks long, students receive reading instruction using Leveled Literacy Intervention, Math support through small group instruction, and ST Math and English Language development through integrated content.

Special Education Recovery:

1. We must address recovery per SB 98. The STAR assessment is being utilized to measure student regression areas and/or progress areas.
2. Additional Instruction was piloted in the summer months and went well per staff and parent interviews. Research-based online curriculum was applied (e.g. Multi-Sensory Reading through Lexia). Students were instructed in small groups (up to 4 students) in the areas of English Language Arts, Mathematics, and Social Skills. Any parent could sign up their student.
3. Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.
4. Additionally, we are now researching if we can offer "Learning Hubs" or in-person instruction with precautions to Moderate/Severe students. This is being explored at this time with Cabinet and the SELPA.

These opportunities are important to provide in order to respond to demands for compensatory time that have come or may come from the Spring Shelter-in-Place period. If a demand is made, parents could then be invited to join Additional Instruction Sessions and/or "Learning Hubs" if learning hubs are deemed safe.

Effectiveness of Implemented Pupil Learning Loss Strategies

[A description of how the effectiveness of the services or supports provided to address learning loss will be measured.]

As discussed in the previous sections, the Star Reading and Math as well as MDTP assessments will be administered three times throughout the year. The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

In addition, Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and Attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

The COST coordinates academic services for students performing below grade level standards in literacy and/or math. Academic services include small group targeted instruction by the classroom teacher or a specialist teacher. These small groups of students will have ongoing assessment to determine growth in six week cycles. If a student is not making progress, the COST will collaborate to regroup students and try different interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students' academic achievement level, but also on their social-emotional wellbeing. The Team also focuses on our most vulnerable students including immigrant students, low socio-economic students, foster youth, and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well through counseling services, social groups, and focused behavioral and social-emotional interventions.

District Leadership and School Site Leadership teams engage in Cycles of Inquiry throughout the year, using multiple forms of data from the above assessments and observations to determine which strategies and systems are working well and which need to be augmented to better support our students, plan for the use of these strategies, implement the strategies, review through progress monitoring, and adjust as needed.

Actions to Address Pupil Learning Loss [additional rows and actions may be added as necessary]

Mental Health and Social and Emotional Well-Being

[A description of how the LEA will monitor and support mental health and social and emotional well-being of pupils and staff during the school year, including the professional development and resources that will be provided to pupils and staff to address trauma and other impacts of COVID-19 on the school community.]

School closures and social isolation have affected all students, but particularly those living in poverty. Adding to the damage to their learning, a mental health crisis may be emerging as students have lost access to services that were offered by schools. In this new school year, teachers will face a pressing issue of how to help students recover and stay on track throughout the year even as their lives are likely to continue to be disrupted by Covid-19. To assess and strategize with students and family, the following structures are set up in our distance learning program.

Social and Emotional Learning:

School site's Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

Teachers follow the predetermined protocol for referring students to COST, including logging all pre-referral interventions into AERIES. Intervention Leads will utilize the COST Data Tracker to monitor student referrals and progress through the COST process.

Attendance Monitoring (per SB 98):

- AUSD Tiered Attendance and Re-Engagement

Tools for Assessing Student Basic Needs:

- Monthly needs survey for students (two surveys developed - one for elementary and one for secondary)
- Monthly needs survey for families assessing food, housing, internet, mental health
- Monthly Family Survey: <https://docs.google.com/forms/d/1nbnDRN-nb4fOXVF26krQBps5kp4c84C3C92W43hwLuQ/edit>

If a student or family indicates via the monthly survey that they are lacking food, housing, internet or indicate a need for mental health services, they are referred to COST for coordination of services with outside agencies and case management.

Indicators That Mandate an Immediate COST Referral:

- Suspected abuse, neglect or domestic violence (This also necessitates a call to CPS)
- Self harm behavior
- Suicidal ideation (follow AUSD suicide prevention policy)
- Academic Need (Below 10th percentile in STAR)

During Wednesday Site level professional learning, in addition to a focus on using priority standards, professional development will focus on Restorative Practices, Trauma informed instruction, building relationships, and Social and Emotional Learning.

Pupil and Family Engagement and Outreach

[A description of pupil engagement and outreach, including the procedures for tiered reengagement strategies for pupils who are absent from distance learning and how the LEA will provide outreach to pupils and their parents or guardians, including in languages other than English, when pupils are not meeting compulsory education requirements, or if the LEA determines the pupil is not engaging in instruction and is at risk of learning loss.]

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)
Synchronous = 25
Asynchronous = 155
Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)
(M/T/TH/F)
Synchronous = 120
Asynchronous = 125
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 200
Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 150
Asynchronous = 95
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 165
Asynchronous = 150
Total = 315

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

After teachers have made the primary calls and attempts to reach students who students are identified who are not meeting the compulsory education requirements and are unable to reach them, students will be referred to the site Intervention Leader and/or Family Liaison so that they are able to follow-up, attempt contact via phone or home visit, and then refer to COST.

Family Engagement and Training:

In order to have quality and high impact Family Engagement we must ensure the following:

- Multiple channels for accessible communication and feedback
- Staff are trained on Family Engagement
- Common priorities are developed to support students needs (prioritizing in-person and asynchronous learning for students with highest needs)

August Family Learning Conference (via Zoom, Facebook Streaming, and videos) to help parents/guardians support their children academically, socially, and emotionally during the coming school year. Our goals:

- Overview of the Flexible and Remote Learning Programs
- Help parents/guardians learn how best to support their children during distance and remote learning
- Teach parents/guardians to use various educational technology programs
- Show parents/guardians how best to stay connected with AUSD and their school sites

Continued family learning opportunities for supporting student engagement:

- Education Services: Primary and Secondary Parent Presentations on Grade Level Standards
- Collaboration with PTAs, ELACs, Equity and Inclusion Committees to pivot into inclusive and equitable practices; including sharing of islandwide asynchronous learning opportunities
- Family and Community Liaisons supporting Title 1 and multilingual communities to navigate Flexible/Remote learning times. Including School Smarts in English, Spanish, Chinese, Arabic, Vietnamese). New Mongolian language affinity group starting!
- Capacity Development for site level School Site Council (SSC) Leadership and DELAC
- CAC (LCAP) leveraging community leaders to support our journey through this pandemic.

School Nutrition

[A description of how the LEA will provide nutritionally adequate meals for all pupils, including those students who are eligible for free or reduced-price meals, when pupils are participating in both in-person instruction and distance learning, as applicable.]

When the school year starts in distance learning, breakfast and lunch meals will continue to be available for purchase at full price, reduced price, or free, depending on eligibility. (We are still waiting to hear from USDA if they will extend its current waiver to allow free meals during the regular school year to all regardless of eligibility).

Meals will be available for curbside Grab-N-Go pick-up Tuesdays and Fridays 11am-12pm at the following locations beginning Friday, August 28:

- Academy of Alameda, 401 Pacific Ave
- Earhart Elementary, 400 Packet Landing Road
- Encinal High, 210 Central Ave
- Lincoln Middle, 1250 Fernside Blvd
- Love Elementary, 2025 Santa Clara Ave
- Paden Elementary, 444 Central Ave
- Ruby Elementary, 351 Jack London Ave
- Wood Middle, 420 Grand Street

Families will be provided multiple days' worth of meals at a time. Parents or guardians may pick up meals for their children and can pick up from any of the following sites listed above regardless of which school your child attends.

Alameda Unified School District understands that the COVID-19 pandemic has brought hardship for many families in Alameda schools. Your child(ren) may qualify for free meals or for reduced price meals for the 2020-21 school year. Applications are now open, and you can access them online at MySchoolApps.com or on Alameda Unified School Districts website's Meal Applications page. For support, please contact our Food and Nutrition Services Office at 510-337-7079 or email us at nutrition@alamedaunified.org.

 Grand Total \$4,928,360

[A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.]

The three-year Local Control and Accountability Plan describes the goals, actions, services, and expenditures to support positive student outcomes that address state and local priorities. The LCAP provides an opportunity for local educational agencies (LEAs) to share their stories of how, what, and why programs and services are selected to meet their local needs. Enacted along with California's Local Control Funding Formula (LCFF) regulations, the LCAP includes the requirement that districts outline their use of LCFF Supplemental and Concentration grant funding. These funds must be used primarily to serve unduplicated students. Unduplicated students are those students that are Socioeconomically Disadvantaged or English Learners. As a district with less than 55% unduplicated students, AUSD does not receive Concentration grant funding. AUSD does receive supplemental grant funding. This funding is used for centralized actions/services as well as distributed to sites for site-based unduplicated student supports.

AUSD allocates a significant portion of its LCFF Supplemental funding to school sites on a per-unduplicated pupil basis. The remaining LCFF Supplemental funds are retained at the central office level and used to enact broader actions/services such as supplemental resources for English Learners and provide specific services to school sites via targeted funding. This targeted funding includes actions/services such as the restoration of afterschool programming at selected sites with high unduplicated populations.

Regardless of the program (Flexible or Remote), we know resources including time are scarce. Focusing our district will allow us to deepen our support and practices to ensure we make the most of our time with students.

During the 2020-21 School Year, our Academic Guidance has a specific focus on the following:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards
- We integrate social emotional and trauma-informed approaches as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning

We have an intentional focus on creating access for our students, specifically our foster youth, English learners, and low-income students. We know that if we are focused on student talk, equity and rigor, we will be able to create successful outcomes for our students.

STAR Renaissance Assessment System: - Star Early Literacy, Star Math and Star Reading were purchased for all elementary and middle schools and MyOn access to online reading materials from Renaissance Learning - assessments to be given on multiple occasions throughout the school year. Prior to the 2020-2021 school year our district had purchased Renaissance Star Reading and Math for middle school, Star reading for 4th and 5th grade, and some star early literacy, reading and math licenses for a couple of schools that "opted in" for giving it to 1st-3rd graders. Due to school closures in March and moving into distance learning without a clear learning plan for students, we know that there will be learning loss for many students, and most pronounced for our unduplicated students. Racial and socio-economic achievement gaps will most likely widen because of disparities in access to computers, home internet connections and direct instruction from

teachers. In order to measure this learning loss, our district will need a reliable assessment tool and plan for consistent assessment. This school year we have increased licenses to include the capacity to assess all students, K-8, in early literacy and/or reading, and math. This will increase services for elementary students.

Fountas and Pinnell leveled books: Online materials and resources were purchased to support students who need extra support in reading. Our literacy coaches and RTI teachers pull small groups to provide reading intervention. This support staff use data to inform which students need the extra support and isolate the focus of the intervention based on need. Interventions are provided in six week cycles with a pre and post assessment. Grouping and exit decisions are determined using data. A majority of the students in our intervention groups are students who are included in our district sub groups of Black/African American students, low socio-economic students, English learners, foster youth and homeless students, though all students in need of this targeted academic support benefit from this system.

Curriculum and Supports for students with IEPs are meant to support students at their individual learning level and are adaptive to their needs. For instance, both ISME Orton Gillingham and Lexia use a multi-sensory approach to support struggling readers. Among these curricula are:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

BrainPop EL (Flexible) and Imagine Learning (Remote): Our designated ELD curriculum allows students to explore language in playful ways so they gain lots of ways to express themselves in speaking and writing. When delivering ELD in distance learning it will be more difficult for students to show their understanding because of the less personal platform of video conferencing. In addition students will have significantly less opportunities to experience the realia and visuals used to teach ELD in this model. In response to the need for supplemental ELD support due to this changed method of teaching, our district purchased BrainPop EL and Imagine Learning as an extra support. These programs are comprehensive English language learning programs for students of all ages. The programs feature short, animated movies as well as games, quizzes, and interactive features. It encompasses the four main language skills: listening, speaking, reading, and writing. This extra support will give EL students extra time for engaging in English learning activities.

Alameda Island Kids (AIK) Program for Title 1 Elementary Students:

We have been able to partner with the AIK childcare program to provide 8-4 child care support to 28 of our most in need students from our three Elementary sites that receive Title 1 funding. During this childcare program students are given support with their synchronous and asynchronous learning, provided with enrichment, and provided with meals.

RE: AUSD Learning Continuity and Attendance Plan

Dear Superintendent Scuderi, President Bonta and Members of the AUSD Board of Education:

Thank you for providing ASPED Families with the opportunity to provide written feedback for the district's Learning Continuity and Attendance Plan (LCP) on how Covid-19 and school site closure has impacted over 1,000 students with disabilities currently enrolled in Alameda Unified public schools. We have included many direct quotes from families to help humanize the loss and frustration experienced by many of our students with disabilities. It is our deepest and most profound wish that our education leaders and community recognize the sacrifice families have made during these emergency conditions and respectfully ask for solutions to the problems identified in this letter.

This letter is broken into five parts. The parts included are:

1. Covid-19 impact for academic year 2019-2020
2. Covid-19 impact for academic year 2020-2021
3. Comments related to assessments for learning loss
4. Comments related to interventions for learning loss
5. General comments related to the Learning Continuity and Attendance Plan

COVID-19 impact for academic year 2019-2020 The LCP as currently drafted does not adequately describe the full impact on students with disabilities during the 2019-20 school year. During school site closure and spring distance learning, Alameda Unified suspended all special education IEP services, postponed IEP meetings that were previously scheduled, suspended progress monitoring of all IEP goals and suspended assessments used to requalify/qualify students for special education. In addition to postponing already scheduled IEP meetings, AUSD failed to follow 30-day timelines when parents requested IEP meetings to discuss the suspension of special education services and their concerns about the obstacles related to accessing the

District's new distance learning program. Once IEP meetings resumed, the District would not honor requests by parents to discuss their concerns about accessing distance learning in IEP meetings during the 2019-2020 academic year. This decision by the district, denied communication and collaboration afforded by the IDEA to parents/caregivers and students with disabilities.

The impact of these unilateral decisions made by the District vary from student to student and family to family. However, there are several consistent themes conveyed by families during this time period. There are as follows:

1. Failure to provide services as specified in IEPs (even virtually), led to regression in behavior, social and emotional and academic skills while attempting to access distance learning as observed by parents and caregivers. 2. Frustration, fear and sadness for parents who found themselves having to fill school-based staff responsibilities (ex. speech and language pathologist, physical therapist, special education teacher, occupational therapist and paraprofessional) while simultaneously working full-time. 3. Worry and anxiety for the future academic, social and emotional, and behavior trajectory of their student including transitions from prek to elementary, elementary to middle school, middle school to high school, and high school to transition services. 4. Feelings of hopelessness when the District suspended primary communication and collaboration avenues (scheduling IEP meetings) to have parents' concerns heard and addressed. 5. Feelings of frustration from parents of students with disabilities grades Prek - 2nd grade and the expectation to access distance learning through chromebooks when keyboards and the delivery of learning through zoom and other websites aren't developmentally appropriate. 6. Students with classic autism, high anxiety and related attention and behavior needs were unable to maintain attention during Zoom meetings, follow teacher directed whole class instruction independently or with virtual support from a paraprofessional, and complete the assigned activities even with modifications by the special education teacher in the home environment.

The District supplanted services with "tailored supports" but these "tailored supports" were not IEP services delivered virtually. Instead, these "tailored supports" included:

- Office hours by service providers and case managers where no instruction or interventions were provided.
- Unspecified accommodations for students that were designed without discussion or consent from parents and outside the purview of IEP teams and IEP meetings.
- Supplanted evidenced-based and district approved curriculum (such as Transmath and Language Live) for students placed in Intensive Academic classrooms with non-evidenced-based and inappropriate online curriculum such as Moby Max.

"I felt pretty much abandoned last spring. My 2nd grader got zero speech and OT time once distance learning went into effect. Our speech therapist uploaded a bunch of stuff to google classroom basically shifting the responsibility of implementing the "therapy" to parents.

While special education services resumed this fall, all of it is in virtual small groups and not all that helpful. The time spent with a special education teacher has been significantly reduced compared to the SDC class had my student been able to remain with his classmates. Based on our own family circumstances we applied and accepted the remote program in order to reduce the risk to Covid-19. Unfortunately there isn't an equivalent virtual SDC classroom for my student to get the level of individualized support he needs.

I sometimes feel overwhelmed."

Parent of a SpEd 3rd grader in Remote Program

COVID-19 impact for academic year 2020-2021 The LCP as currently drafted also does not adequately describe the impact or potential impact of COVID-19 for the 2020-21 school year. The District has resumed IEP meetings and some related services and is monitoring progress towards IEP goals however, assessments related to requalifying and qualifying for special education have not fully resumed. In addition, the District's two models for distance learning (flexible and remote) have not virtually replicated mild/moderate or moderate/severe SDC classes that existed during on-site instruction. Based on these decisions made by the District, students with disabilities and their families have expressed the following concerns and observations:

1. There is a growing backlog of evaluations for special education. Families and students caught in this backlog have concerns about appropriate placement, services, goals, accommodations and supports their student needs in order to receive a free and appropriate public education (FAPE) with meaningful benefit. Without reliable special education evaluations, IEP teams cannot create meaningful IEPs for students who qualify. The longer this problem persists, the more students with disabilities risk being denied a FAPE.
2. Students with disabilities once placed in mild to moderate classes like Academic Strategies classes for math and ELA in HS and MS prior to Covid-19, have been placed in general education classes without the necessary support to complete assignments.
3. Elementary aged students with disabilities that were once placed in mild to moderate SDC classes during on-site instruction are placed in general education virtual classrooms in the remote program led by general education teachers.
4. Many students with disabilities continue to be unable to access all aspects of distance learning and virtual special education services including those with classic autism, physical impairments that require hands-on support provided by physical therapists and paraprofessionals, high anxiety, and attention related disabilities.
5. Parents and caregivers are observing that as part of the District's new

"IEP-aligned plans" their students with disabilities are receiving fewer services and in larger groups than during on-site instruction (i.e. 20 minutes of speech with 5 other students in a small group during distance learning vs. 30 minutes of speech with 2 to 3 other students during on-site instruction; or 40 minutes once per week, vs. 20 minutes twice per week).

"After 6 months of loss of meaningful speech, occupational therapy, and educational services, our family is looking to move out of state. The expectations of remote learning are unreasonable for mature elementary students, much less preschool 3 and 4 yr olds with special needs. The effects are devastating on behavior, with regressions commonplace. There is no way to work AND effectively assist a preschooler in virtual special education preschool. I don't even have childcare to be able to access the office hours for the therapists."

Parent of PreK

Student

3. Comments related to learning loss and STAR assessments The Learning Continuity and Attendance Plan (LCP) relies heavily on STAR data to quantify learning loss. This is not sufficient for a variety of reasons but the most important reason is that STAR data collected and going forward is typically compared to other STAR data from across the country. If every student is being impacted by COVID, then the entire data set is "lowered" for lack of better language. Because of this phenomenon, learning loss will likely be harder to quantify and identify with this type of assessment. We don't want to compare our current levels of student achievement to what's happening in other districts and communities across the country, especially for our students with disabilities. If the District collects STAR data and compares it to past data collected on the same

student, this might be useful in determining learning loss for our general education students, but not necessarily for our students with disabilities. STAR testing was not specifically designed with students with disabilities in mind but it is marketed and applied to students with disabilities regardless. Measuring learning loss for students with disabilities requires additional data, including:

1. Attendance, including time spent learning independently. This presents a challenge since many parents and caregivers are reporting that neither synchronous remote learning via “zoom” nor asynchronous independent learning time are accessible to their students. 2. Data from student IEPs, including comparing original baselines or last recorded progress information for IEP academic goals from the 2019-20 school year with baselines/progress data collected fall

2020-2021. If there is a regression in this data, then there should be intervention programs/practices put in place to help these students. 3. The intensive academic intervention curriculum (Transmath and Language Live), provides placement and progress monitoring assessments. This data should be collected and analyzed when determining learning loss. 4. The district has used the San Diego Quick and CORE reading assessments to determine baselines for students in reading. These should be named and considered as part of identifying learning loss. 5. There may be other assessments used district wide specifically for special education and if so, they should be named in the LCP.

On page 28 of the LCP under section “Special Education Recovery” it states that “Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.”

- Will instruction be offered for all academic classes or just math and reading?
- What staff will deliver the instruction?
- “Soon” is not specific enough. Please include a date when students will be identified and when instruction will start.
- What time of day will this instruction be delivered? How often will this instruction be delivered during the week?
- What is the duration for each session?
- Will this instruction be delivered 1 to 1 or in small group or both?
- How will parents know if this instruction is helping the student? What data will be collected and shared with IEP teams and how often will this data be collected?

“As a parent with 4 children we had no issues with school until our youngest with special needs started attending school. She is only 6 years old. We find the school team unsupportive. Our 6 year old has regressed due to SIP. AUSD only provides minimal support. The whole distance learning experience has been damaging. Our child cries and is so frustrated. We asked for a paraprofessional and were denied. We had to hire a tutor privately and other therapy in addition to an advocate. We receive less than 1 day notice of special education sessions. Our child needs advanced notice. This happens repeatedly.”

Parent of 4 children, 1st grader receiving special education services

4. Comments related to interventions for learning loss and increasing engagement during distance learning

We support Learning Hubs that provide in-person on-campus supports for students with disabilities unable to access distance learning in the home environment. Many of our most impacted students with disabilities are unable to access distance learning in its current format. 2. We support after class one-to-one tutoring especially in math for students currently not meeting pre-Algebra and Algebra requirements.

3. We support one-to-one tutoring for students with dyslexia to supplement the explicit, systematic, multi-sensory instruction (Structured Literacy) they receive during specialized academic interventions. 4. We support partnering with Non Public Agencies (NPAs) to provide in-home services when virtual services have been attempted and failure to engage the student has been observed repeatedly and persistently. 5. We notice that the LCP describes current practices and policies in place to support struggling students through MTSS. However, we anticipate an increase in the number of struggling students and an increase in the severity of the academic achievement gaps. It's unclear in the LCP if the District intends to use the funds to increase the scale of this program or the interventions available. If so, please provide the details that recognize the projected increase in the number of struggling students in tiers 2 and tiers 3.

“My son is a Sophomore at AHS and has auditory/slow processing disability. When the SIP happened his case manager/academic strategies teacher took a leave of absence and he didn't receive any support. This fall they forgot to put him in Academic Strategies and there hasn't been any support for him either. We are basically on our own. He is struggling with accessing and completing assignments. There is no support whatsoever.”

Parent of High School

Student

5. General comments related to the Learning Continuity and Attendance Plan

1. We are very concerned about the lack of specific details related to homeless and foster youth and the support they will be given to reduce chronic absenteeism and suspension rates. This specific population was underserved prior to Covid-19 as determined by the 2018 and 2019 CDE student group reports. In addition, homeless and foster youth need increased interventions for English Language Arts and Mathematics as determined by the same CDE reports. The District needs to name roles, funding, practices and programs that will address these long standing issues.

2. We are concerned about the increase in absences and the number of students dropping out of school during school closures. The LCP provides a detailed explanation of how the District intends to track and document absences however, it does not provide sufficient details on the policies, practices and programs designed to engage students with chronic absences and students who are dropping out. Students with disabilities fail to graduate at much higher rates than the general population. 3. Some families have reported that their case managers have not provided them with “IEP-aligned contingency plans” as specified in the District's communications. Sadly, some students have been attending distance learning for five weeks without a clear understanding of how their IEPs are being implemented. A few families in the remote learning program have reported not knowing who their student's case manager is. The reality shared by some families is

inconsistent with what's being described in the LCP. 4. On page 36, there are no specific details about how staff roles funded through

the LCP are defined and allocated based on ELL, foster youth, and low-income students. This includes the \$732,953 allocated for Instructional Coaches, \$158,283 for the Student Services coordinator and the Teaching and Learning coordinator for \$312,082. Did these roles exist prior to Covid-19? If so, how have these roles changed in order to meet the needs of our ELL, foster youth, low-income students with disabilities in this moment? 5. On page 36, there are site discretionary funds equal to \$324,114 without

explanation of how these funds will be spent in such a way that will effectively meet the needs of ELL, foster youth and low-income students with disabilities. 6. We request that a link to this letter be included in the final LCP.

We welcome communication and collaboration with the district and the board in order to meet the urgent and long-term needs of our students. We want to recognize and elevate the voices in our special education community as they advocate for dignity and respect during this time of distance learning. We stand as allies with English Language Learners with and without disability and refer to their letter for specific feedback.

Thank you for your consideration,
Heather Clapp Padgett and Christine Strena, Co-Chairs ASPED Families

September 30, 2020

Dear Members of PTAC,

Thank you for sharing your feedback on the 2020-21 Learning Continuity and Attendance Plan (LCP). We appreciate the time you took to provide such a detailed analysis.

The Learning Continuity Plan is not meant to be a substitute for the Local Control Accountability Plan (LCAP), which explicitly describes our program and budget for unduplicated students. Rather, the LCP is a snapshot of how our district responded - and continues to respond - to the pandemic. This does include how we plan to mitigate the impact of the pandemic on our students who meet the unduplicated criteria (Foster Youth, English Language Learners, and students who qualify for free or reduced lunch) as well as our students who have Individualized Education plans. While we plan to continue to focus on and respond to the needs of our most vulnerable students, full explication of those efforts is best saved for the next iteration of our LCAP.

Since March, we have worked hard to hold multiple types of engagements with our stakeholders to receive feedback on the best way to respond to the pandemic and support students learning during the 2020-21 School Year. We took this feedback and used it in all of our planning, including in crafting the Learning Continuity and Attendance Plan. While we believe that we engaged multiple stakeholders in this process, we do know that there are important ideas and feedback that must be incorporated into the final LCP.

Upon reviewing the PTAC sponsored feedback, we found there were some elements that absolutely can be incorporated into this year's LCP, other elements that should be addressed in our next full Local Control and Accountability Plan (LCAP), and some that will be better addressed specifically by AUSD's Special Education Department, as detailed below.

We have heard your concerns about ensuring that we are painting an accurate portrait of the impact of the pandemic on our students, specifically our students with special needs. We understand the specific and intense burden born by our students with disabilities under distance learning. We have listened carefully to the feedback provided by our families of students with special needs and done our best to respond to that feedback and alter our instructional programs as best we can under current health orders. We do not believe the LCP is the place to detail all of the dissatisfactions stated by these families, but we have added language that we hope captures the difficulties those families have experienced.

As detailed in the Prior Written Notice on [September 2, 2020](#), the District plans to provide students' operative IEP to the greatest extent practicable, whether the student is in the flexible or remote learning program, through students' emergency plans, called "IEP Aligned Plans". The IEP Aligned Plans delineate student needs and services during emergency times as required by Senate Bill 98. Parent input into the IEP Aligned Plan is welcomed through contact with their student's case manager. For concerns regarding access to any aspect of distance learning and virtual services and supports, parents should contact their child's case manager as soon as possible. Assessments for each student with a disability will be determined by their IEP. Both assessments and IEPs are currently underway. Additionally, instructional programming has been based on individual students' IEPs as written in the IEP Aligned Plans. We are pleased to hear that you support the idea of learning hubs. We believe that these

hubs will be able to address many of the concerns parents of students with special needs who are served in our Mod/Severe program have expressed.

In addition to addressing the above, we have added more detail to the LCP based on community feedback. We have added more to the section on mitigating pupil learning loss for our homeless and Foster youth. We have added more detailed descriptions of how we are supporting our English Language Leaders and which online programs we are using to support their learning of Academic Language. In addition, we added details on how the Teaching & Learning program was re-structured last spring. Granted, that re -structuring was planned before the pandemic began, but we are including information on how the roles and responsibilities changed due to the impact of COVID-19.

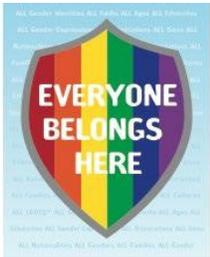

We plan to attach your feedback as well as our response to the LCP. We also plan to continue to hold engagements with our stakeholders this year to progress monitor our Learning Continuity Attendance Plan as well as re-start our Strategic Planning process. While we do not yet have clarity on next steps with the Local Control Accountability Plan, we know that our strategic planning must be directly connected to our overall plan for using our LCFF funds.

- Community Advisory Committee (CAC) meetings to review, monitor, and advise on Learning Continuity and Attendance Plan (9/29/20, 12/1/20, 2/2/21, 4/6/21, 6/1/21)
- District English Learner Advisory Committee (DELAC) meetings to review, monitor, and advise on the Learning Continuity and Attendance Plan (10/29/20, 1/7/21, 3/4/21, 5/6/21)

Specific engagement dates connected to our Strategic Planning will be announced soon.

Thank you for your continued engagement, partnership and feedback.

Pasquale Scuderi

Daily Attendance and Engagement

TIER ONE

Daily attendance is collected and monitored regularly for all students

Attendance Need

Intervention

Student is absent two days with no contact from guardian clearing the absence

- Attendance clerk calls home and documents the call in the attendance monitoring log. Daily absence call automatically generated (robo-call).

Student has unexcused absences three days, with no contact from guardian clearing the absence

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian.

Student is absent for four days, with no contact from guardian

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian again.
- Wednesday teacher (advisory teacher/home group teacher) calls other contacts on the student’s record (including emergency contacts) and documents these attempts

TIER TWO

Student is absent for five days with no contact from guardian

- Teacher submits COST referral through AERIES and continues daily outreach to guardian through Parent Square
- Teacher will present all documented outreach to the COST team for review

- [Sample Script for Teachers Calling Parents/Guardians and Emergency Contacts](#)

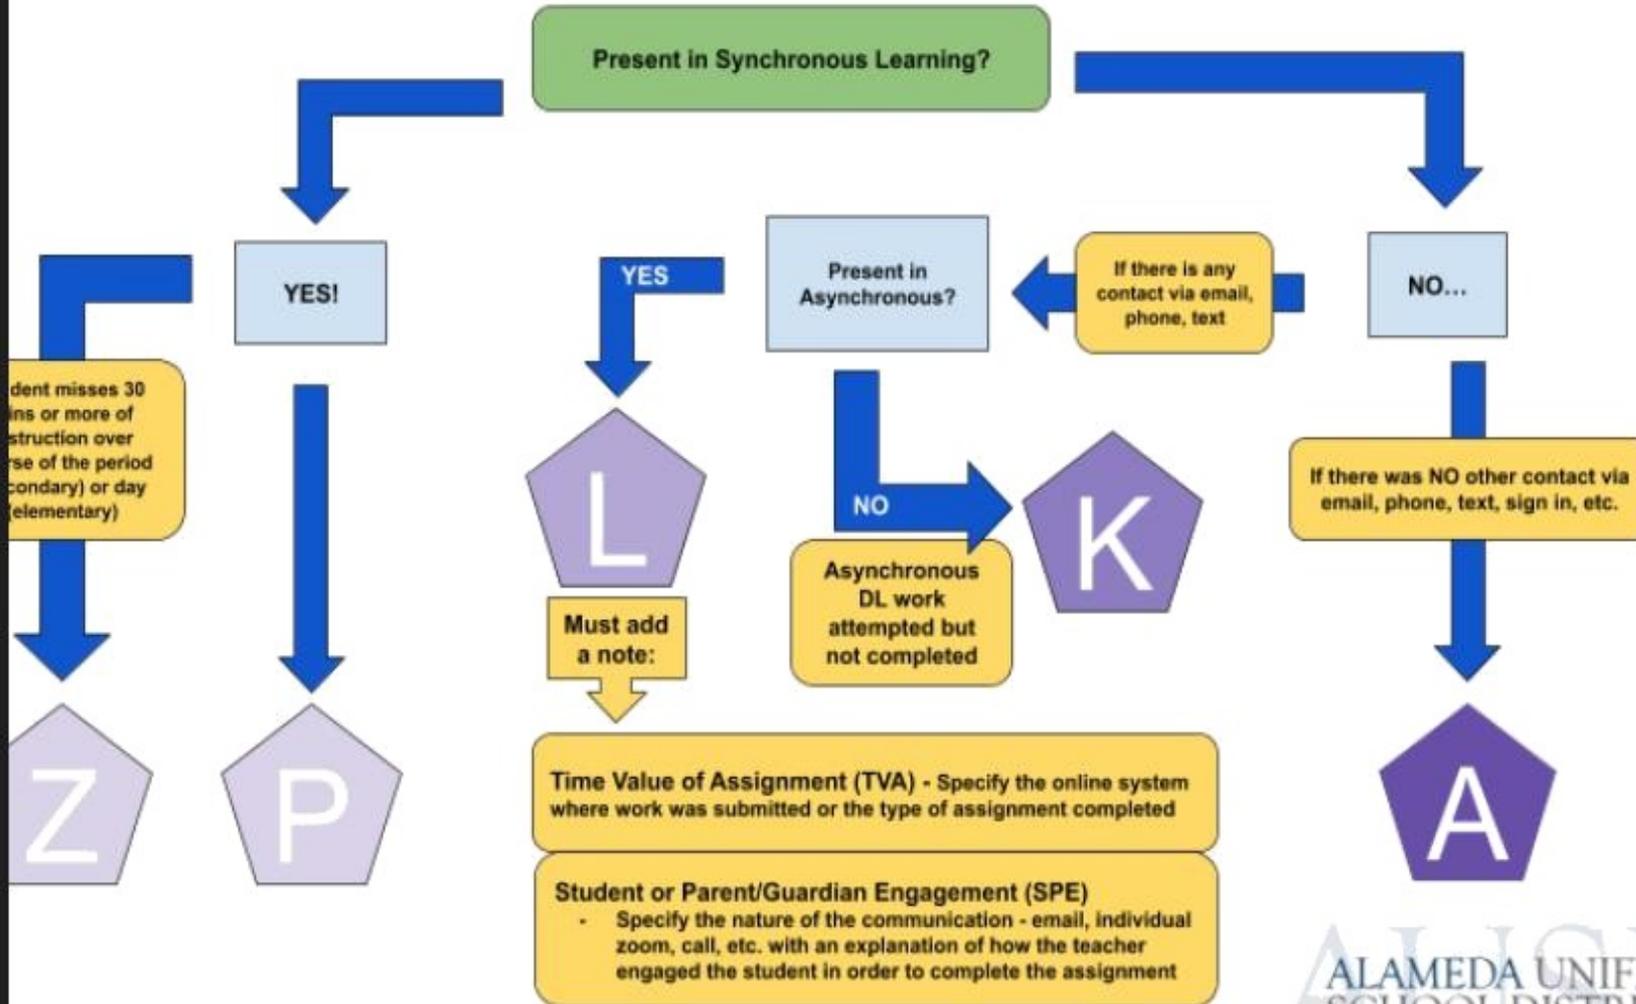

Attendance Need	Intervention
Student is absent for six days with no contact from guardian (this marks the second week of absence)	<ul style="list-style-type: none"> • COST Team will assign the student a case manager who will take over daily student/guardian outreach and documentation • A “Knock and Talk” will be initiated by school site Knock and Talk protocols
TIER THREE	
Student is absent for eight days with no contact from guardian (via phone, email, Knock and Talk, etc)	<ul style="list-style-type: none"> • COST team will request Child Welfare and Attendance Specialist to conduct a Wellness Check (20-21 Tiered Re-Engagement Wellness Check)

District Office	Intervention
Chronic Absence letters	(attach letter schedule here)
CWA Home Visits	CWA responds to COST team with results of Home Visit

Student level goals (across content, aligned to Graduate Profile)	Students dialogue about equity issues and take action to interrupt inequity		
	Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action	Read, think, talk, and write about complex texts every day	Establish and maintain healthy and rewarding relationships with diverse individuals and groups
Teacher priority practices (across content)	Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity		
	Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction	Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	Teachers build positive relationships with and among our students to create the conditions for learning
Leadership Practices	School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity		
	School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision	School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning
District Goals	We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID		
	We keep equity and rigorous content at the forefront of all decisions on what and how to teach students	We maximize interaction and independence in students' blended learning experience	We integrate social emotional and trauma-informed approaches as the foundation for learning experiences
Conditions for Adult Learning	We learn by collaborating, planning, doing, and reflecting	We have space to be vulnerable, self-reflective, and create meaning	Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Attendance Flow Chart

Mark the letter in the pentagon based on the flow chart.

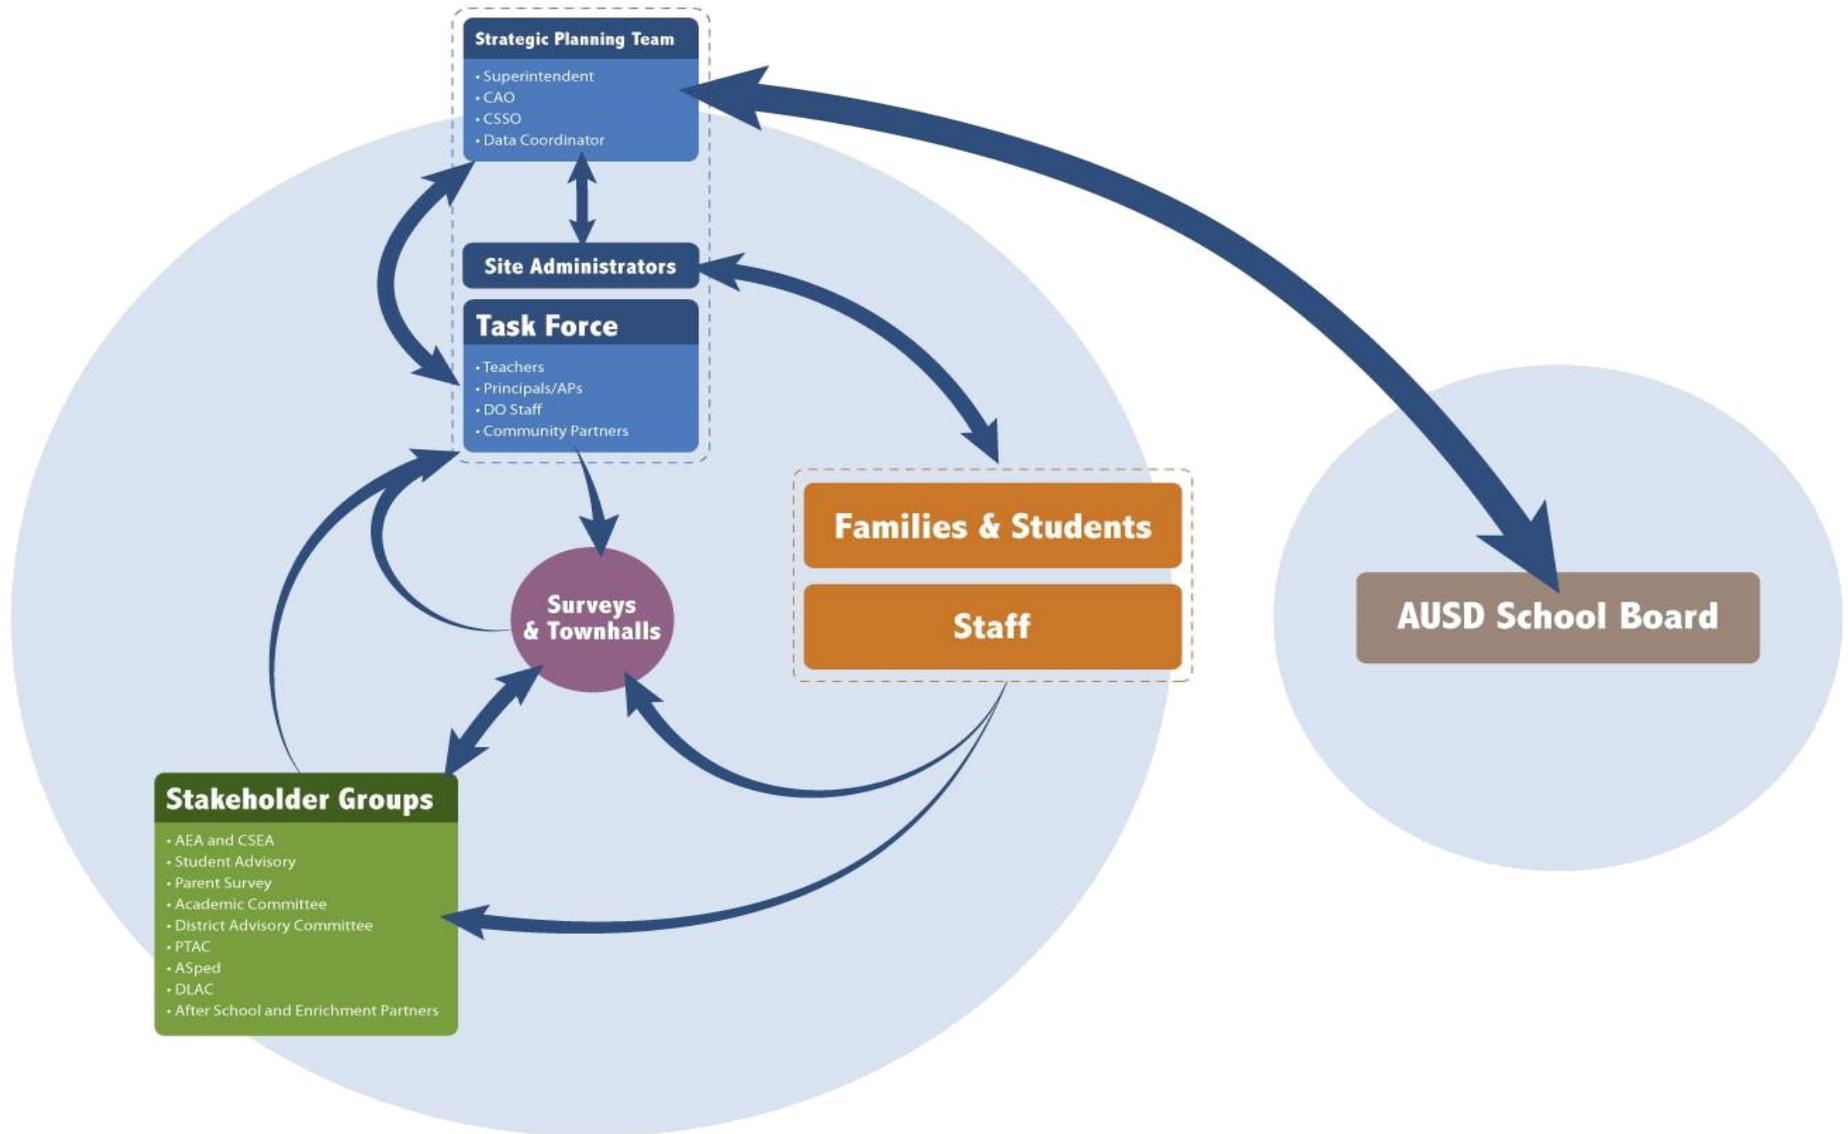

Core Value	Guiding Principles
<i>"We meet the needs of each learner."</i>	<i>Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.</i>
<i>"We develop the whole child."</i>	<i>Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).</i>
<i>"Mastery of Essential Standards through flexibility of structures"</i>	<i>Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.</i>
<i>"We will support all students to embody the AUSD Graduate Profile"</i>	<i>Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.</i>
<i>"Learning to read is key to students' academic success"</i>	<i>Our plan will prioritize students who are learning to read</i>
<i>"Coherent Systems to Ensure Students are College & Career Ready"</i>	<i>Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready</i>
<i>"We will invest in our staff in order to realize our vision for students"</i>	<i>Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.</i>

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Alameda Unified School District	Sara Stone Chief Academic Officer	sstone@alamedaunified.org (510) 337-7092

General Information

[A description of the impact the COVID-19 pandemic has had on the LEA and its community.]

Alameda Unified School District (AUSD) serves the needs of some 9600 students from pre-school through high school. Those students reflect the diversity of our community and the San Francisco Bay Area region. In 2019-2020, the demographic breakdown was: 26% Asian, 29% white, 18% Hispanic, 7% Black/African American, and 12% of two or more races. About 30% of our students are low income and 13% are English Learners, and Approximately .5% are Foster Youth.

To serve this diverse community of learners, AUSD’s nine elementary schools, four middle schools, and four high schools offer a wide range of educational opportunities, including neighborhood schools, STEAM programs, intervention services, arts integration, and newcomer classes for students who have recently arrived in this country. Our high schools have strong Career Technical Education programs, including Broadcast Journalism, Sports Medicine, Childcare, and Genomics, as well as a full array of Honors, AP, and Visual and Performing Arts classes. Our continuation program at Island High School supports students needing support to graduate; our magnet high school – the Alameda Science and Technology Institute – offers an Early College Program that provides students opportunities to earn college credits and/or an Associate of Arts degree while still enrolled in high school.

Some specific highlights from the 2019-20 Local Control Accountability Plan (LCAP):

- Continued expansion of the existing Multi-Tiered System of Supports (MTSS) program to provide more mental health and behavioral intervention support to sites and implement an academic universal screener/progress monitoring/intervention system.
- Increased capacity and systems for data-driven improvement. Implementation of an academic diagnostic/screening tool has increased the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports.
- Strategic Planning within the Special Education Department: Continue to define a services delivery model for students with special needs that is facilitated by high quality teaching, supported through active engagement in the least restrictive learning environment, and monitored by multiple measures of student achievement.
- Ongoing implementation of the English Language Development program to support improved outcomes for English Learners in both fluency acquisition and mastery of core content. This remains a highlighted area within AUSD’s LCAP. Language and Literacy staff

continue to work across departments to build capacity for a broader group of staff to support EL needs following significant staffing reductions in the spring of 2018.

- Expansion of Career Technical Education (CTE) pathways. 2019-20 edmark the opening of a new Biotechnology pathway, expansion/redesign of the Sports Medicine pathway, and deepening of the work within the Broadcast Journalism, Digital Filmmaking, and Marketing pathways. The work within CTE is a collaboration of AUSD staff, community members, industry, and city partners.
- Maintain forward progress in many areas parallel to the ongoing process of reprioritizing the budget to increase employee compensation.

In order to make progress towards our LCAP goals, we must:

- Eliminate barriers to student success and maximize learning time,
- Support all students in becoming college and work ready
- Support all English Learners in becoming college and work ready
- Support parent/guardian development as knowledgeable partners and effective advocates for student success.
- Ensure that all students have access to basic services

While Senate Bill 98, which was passed on June 29, 2020, removed the requirement for a 2020-21 Local Control Accountability Plan (LCAP) and instead has asked for this Learning Continuity and Attendance Plan (LCP), we continue to strive towards our LCAP goals, knowing that some shifts might be necessary due to the constraints of operating during a pandemic. In order to do this, we have some specific goals that we continue to work towards, even during COVID-19. Of course, COVID-19 has created some safety and logistical challenges that required us to make some shifts to how we implement our plans in service of these goals. We continue to plan for the following goals, making adjustments based on our current needs and state and county required pandemic responses:

- Improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism
- Decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates
- Improve completion rate including reduction of middle and high school drop-out rates and increase of high school graduation rate
- Improve student achievement on both statewide and local assessments
- Increase College and Career Readiness
- Improve English Learner Achievement
- Implement State Standards for English Learners
- Improve efforts to seek input from parents/guardians to support informed district/school targeted supports
- Improve parent/guardian participation in school, especially in the area of increasing access to college and career readiness resources
- Improve early educational opportunities for parents/guardians in which they develop strategies/skills for supporting their student(s) and serving as leaders in the school/district community.
- Maintenance of a highly qualified teaching staff
- Provision of adequate instructional materials
- Maintenance of a safe learning environment

The COVID-19 pandemic has had a profound impact across all levels of Alameda Unified School District. In March 2020, when a Shelter In Place was ordered, we rapidly transitioned to Distance Learning. This rapid shift brought an onslaught of challenges to students, families, educators and administrators. We recognize the profound impact that the closing of school buildings and moving into distance learning has had on our students, families, and staff, especially those who live in poverty, are second language learners, are in foster care, or have disabilities. While we maintain our work connected to our 2019-20 LCAP during the 2020-21 School year, we also have had to make some necessary adjustments and implement some new work in response to the COVID-19 pandemic. We have paid special attention to ensuring that our planning is trauma informed, understanding the deep social, emotional, and mental health challenges that have come with this pandemic. Achieving equity for our students has been, and remains, at the forefront of the district's work, and the pandemic has exacerbated existing injustices for students. Addressing these issues of access guided initial crisis response in the Spring, and as seen in this plan, continues to guide how students and families are supported. While the Spring focused on basic needs such as technology, nutrition, and supplies, the Fall will continue to build on this through a focus on priority standards, targeted instructional support, mental health support, and increased and intentional family and student outreach.

AUSD is starting the year in a distance learning model. We have two distinct programs that will be able to support the needs of students, families, and staff. We have a fully remote program that we opened to support any students, staff, and families who might be immunocompromised and who might need to remain in Distance Learning for the entire year. This is a program that will continue all year long, even if the County deems it safe for in person instruction. The other program is a Flexible program that will be able to flex between Distance and In-person learning. We are actively working towards getting students back into our school buildings as soon as it is safe to do so. We understand the immense burden that families are facing, juggling their own workloads and responsibilities along with managing student schedules and engagement. AUSD is committed to reopening school campuses when it is safe to do so, and continues to use local and state guidance, as well as stakeholder feedback to inform the reopening plan.

Stakeholder Engagement

[A description of the efforts made to solicit stakeholder feedback.]

AUSD engaged in a cycle of stakeholder feedback and decision making connected to continued instruction during the COVID-19 pandemic. This cycle included a Strategic planning team made up of the Superintendent, Chief Academic Officer, Chief Student Support Officer, and Data and Assessment Coordinator to work closely with a Task Force made up of representatives of staff and community to plan for and facilitate the surveys, Town Hall engagements, and Staff working groups to receive feedback and make recommendations to the School Board. Meetings were held weekly between March 13, the date of the close of campuses thru August 27th, the first day of school through this cycle of stakeholder engagement.

Strategic Planning Group:

- Superintendent
- Chief Academic Officer (CAO)
- Chief Student Services Officer (CSSO)

- Data and Assessment Coordinator

AUSD 2020-21 Redesign Task Force and Working Groups:

- 8/4/20 - Athletics Town Hall
- 8/12/20 - Student Advisory
- 9/23/20 - PTAC Meeting
- 9/29/20 - CAC Meeting

We received feedback from our Parent Teacher Association Council (PTAC) on September 28, 2020 and have incorporated elements into this plan. The complete document is included as an attachment at the end of this LCP.

The District's response dated September 30, 2020 is also included as an attachment.

[A description of the options provided for remote participation in public meetings and public hearings.]

It has been extremely important to AUSD to be able to convene as many engagements as possible and to make them accessible to our community. We found that using Zoom and Facebook streaming (when possible) allowed for maximum engagement. All public meetings have been recorded and made public on our district website after the meetings.

Surveys (April and June) to elicit community input also preceded and proceeded these meetings. These surveys were delivered via the Student Information System when it was important to hear from all of our stakeholders so that we could account for participation. If we did not get complete participation staff called families to either share information or ask questions to elicit feedback.

[A summary of the feedback provided by specific stakeholder groups.]

We learned a great deal from our stakeholder engagement cycles. Mainly, we heard that for the 2020-21 School Year we need to:

1. Determine the priority grade level standards and skills that each grade level/content area need to focus on next year;
2. Deepen our vision and practice for Asynchronous and Synchronous Distance Learning including professional development, curriculum, assessment, differentiation based on student needs, and standards based grading; and
3. Communicate academic expectations with families and providing examples of the work to students so that they know what is expected of them

In addition to the above implications, we are also continuing to hold the Graduate Profile, our district community's vision for students, at the center of our thinking and planning. That coupled with some clear Core Values and Guiding principles (developed from what we heard from our staff, students, and families as well as our data), we know we must prioritize the work to deepen and clarify it. Our goals and focus practices for the 2020-21 school year are that:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity;
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction;
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards; and
- We integrate social emotional and trauma-informed approach as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning.

[A description of the aspects of the Learning Continuity and Attendance Plan that were influenced by specific stakeholder input.]

In addition to County guidance, all of the Learning Continuity and Attendance plan was influenced by stakeholder input (as described above). We also used research and ideas from other districts on best practices for blended learning, engagement, culturally responsive and trauma informed practices to inform our plans. Every plan was also put through the lens of the following core values and priorities:

Core Value:

"We meet the needs of each learner."

Guiding Principles:

Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.

Core Value:

"We develop the whole child."

Guiding Principles:

Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).

Core Value:

"Mastery of Essential Standards through flexibility of structures"

Guiding Principles:

Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.

Core Value:

"We will support all students to embody the AUSD Graduate Profile"

Guiding Principles:

Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.

Core Value:

"Learning to read is key to students' academic success"

Guiding Principles:

Our plan will prioritize students who are learning to read

Core Value:

"Coherent Systems to Ensure Students are College & Career Ready"

Guiding Principles:

Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready

Core Value:

“We will invest in our staff in order to realize our vision for students”

Guiding Principles:

Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.

Continuity of Learning

In-Person Instructional Offerings

[A description of the actions the LEA will take to offer classroom-based instruction whenever possible, particularly for students who have experienced significant learning loss due to school closures in the 2019–2020 school year or are at a greater risk of experiencing learning loss due to future school closures.]

We are prepared to provide both In-person and Distance Learning during the 2020-21 School Year. In order to prepare for this Flexible model, we have developed a Flexible instruction model which blends both in-person and virtual learning. The purpose of this program is to allow students to return to school as soon as it is safe. Content is delivered by the teacher synchronously, students practice skills and/or complete projects asynchronously using core district curriculum, zoom, and google classroom. In addition, we are working to determine how to support smaller groups of students who need more support and would benefit from in-person learning to come to sites in a “learning hub” model when safe. This must be in accordance with county and state mandates.

For those students, staff, and families who will not be able to return to on-campus instruction due to underlying health or other issues, we have also developed a fully Remote Program. This program will be primarily “asynchronous” (or independent) and done at the student’s own pace using an online curriculum. Teachers will work as “case managers” of students’ instruction and will work with students one to one or in small groups, and parents/guardians will work collaboratively with the teachers to support and coach their students.

Cleaning and safety: Note: We have based this on the most current County guidance as of the writing of this plan. All is subject to Labor Partner Negotiations.

Face shields/cloth coverings:

Cloth masks:

- Required for TK and up
- Required for all school staff
- Exceptions: unable to wear them due to special circumstances, such as a particular developmental or health diagnosis that would limit their ability to wear a face covering.

Face Shields:

- Permissible as a substitute for teachers and students unable to wear a face covering for reasons of age and special need
- Should be worn with cloth drape across the bottom tucked into shirt
- Can be worn to compliment a cloth face covering
- Will be available for staff

Temperature Screening:

- Students and families are required to self-screen at home or before entering the building.
- If self-screening is not completed at home, school staff may conduct on-site visual screenings (coughing and runny nose) and temperature screenings.
- No-contact thermometers have been purchased for all health clerks and all administrators in AUSD.
- Asymptomatic individuals or individuals with mild non-specific symptoms may not realize they are infected and may pass through screening.
- Self-screening is a must and may consider using a lower threshold temperature

Distancing:

- Where practical, desks will be placed six feet apart and arranged to minimize face-to-face contact
- Permissible to relax 6-foot recommendation if it ensures all/more students receive in-class instruction
- Face coverings and cohort stability are higher priorities if they allow for more practical utilization of physical spaces to provide in-person instruction.

Cohort Size:

- As practicable, students should remain in the same space and in groups as small and as consistent as possible.
- When it is not possible to remain in stable cohorts within the same space (e.g. secondary school), face coverings and limiting group gatherings are a higher priority.

How will we properly clean and disinfect our schools?

- Follow CDC & EPA Guidance for Cleaning & Disinfecting Facilities.
- Disinfect with EPA-registered List N solutions for use against Covid-19.
- Apply disinfectants with electrostatic sprayers as the new standard of infection control.
- Sufficient and capable staffing.
- Develop policies, educate, train staff on worker protection; cleaning and disinfection protocols, proper use of materials and equipment while complying with OSHA's standards.

Academic Goals and Priorities:

Paying attention to our 2019-20 LCAP Goals, and planning for ensuring that teaching and learning continues during this challenging time, we have developed the following set of goals and priorities for both our Flexible and Remote Learning options in order to mitigate learning loss for all students:

Student level goals (across content, aligned to Graduate Profile):

Students dialogue about equity issues and take action to interrupt inequity

- Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action
- Read, think, talk, and write about complex texts every day
- Establish and maintain healthy and rewarding relationships with diverse individuals and groups

Teacher priority practices (across content)

Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity

- Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- Teachers build positive relationships with and among our students to create the conditions for learning

Leadership Practices

School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity

- School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision
- School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning

District Goals

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students
- We maximize interaction and independence in students' blended learning experience We integrate social emotional and trauma-informed approaches as the foundation for learning experiences

Conditions for Adult Learning

- We learn by collaborating, planning, doing, and reflecting
- We have space to be vulnerable, self-reflective, and create meaning

- Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Actions Related to In-Person Instructional Offerings [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing
<p>Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction:</p> <ul style="list-style-type: none"> • Professional Development - 4 days of Learning Conference - \$1,131,335 • Other professional development \$50,188.12 • In-person materials \$379,564.58 • Online materials \$358,913.73 • Curriculum: • Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction: • Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards • Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards • Teachers build positive relationships with and among our students to create the conditions for learning 	\$1,920,001	Yes
<p>Assessment</p> <ul style="list-style-type: none"> • Hourly Salaries & Contracts (Prgm 1081) \$79,035 • Coordinator of Data & Assessment \$174,168 • Testing Specialist \$69,867 • Database Specialist \$100,559 	423,629.00	No
<p>Cleaning and disinfecting supplies, personal protective equipment, and informational signage for schools over the summer in preparation for the possible opening in a hybrid school plan</p>	750,000	Yes

Distance Learning Program

Continuity of Instruction

[A description of how the LEA will provide continuity of instruction during the school year to ensure pupils have access to a full curriculum of substantially similar quality regardless of the method of delivery, including the LEA's plan for curriculum and instructional resources that will ensure instructional continuity for pupils if a transition between in-person instruction and distance learning is necessary.]

Our district's goal is to balance the complex variety of needs that students, families, and staff are currently confronting, including reducing the risk of COVID-19, reducing student learning loss and isolation, and supporting families to return to work. Our district's top priority for learning is to return to a standard school model, with all students in class five days per week. When the standard school model is not permissible by Departments of Public Health, the Flexible Model and the Remote Model described below will be in place. We will continue to work with our labor partners to develop a plan that is in accordance with County Departments of Public Health guidelines at the time of opening, and is built in collaboration with our union partners.

The health and safety of our students, staff, and families is of the utmost importance. When permitted to return in-person learning, on-campus school will look much different than previous years due to new health and safety measures. Our plan to reopen schools is based on current guidance from public health officials and state agencies and will be continually updated as the situation evolves. It is important to note that our District plans will focus sharply on academic instruction to enhance student performance and address learning loss.

Flexible model: Combination of teacher directed instruction and online learning; Teacher is planning and delivering content and instruction, Class time used for discussion and projects that synthesize information, Lessons/lectures through online videos students can access at their own time and pace, Choice in ways to practice and demonstrate understanding of skill/standard, Students pacing depends on mastery of skills/standards, Can be moved to a Full distance model if needed due to SIP.

Remote model: Online curriculum program is used to provide instruction to the student; Working closely with the teacher, the parent (or other responsible adult) serves as a "Learning Coach" to the child, helping to facilitate his or her progress and working to modify the pace and schedule as needed, Students work in a self-paced, asynchronous environment for most of the day, Teachers work as "case managers" who meet with students as needed to support learning, Synchronous time with teacher is used to answer questions, interact with other students, check in, do SEL activities.

Access to Devices and Connectivity

[A description of how the LEA will ensure access to devices and connectivity for all pupils to support distance learning.]

When schools suddenly closed mid March last school year, our technology department and site staff quickly developed a plan to hand out chromebooks to all students who needed a device at home. We determined need through surveys, teacher input, and family outreach. In addition to providing chromebooks, we gathered information about who had a lack of internet and connectivity and began to hand out hot spots.

During the 2020-21 School Year, AUSD will continue to ensure access to devices and connectivity for all pupils to support distance learning whenever it occurs, including:

- Provide Chromebooks to all students. 1:1 for all grade levels (K-12).
- Provide remote access to labs or provide laptops for CTE/digital course students (Adobe).
- Explore internet access for students lacking fast internet. Coordinating with the Alameda Education Foundation and internet providers.
- Design technical support model for staff, students, and parents. Web site (self help and guidance) and access to tech requests.
- Purchase Zoom or Google Meet licenses.
- Provide alternative technology available if needed.

Pupil Participation and Progress

[A description of how the LEA will assess pupil progress through live contacts and synchronous instructional minutes, and a description of how the LEA will measure participation and time value of pupil work.]

Our 2019-20 LCAP names our goal of eliminating barriers to student success and maximize learning time. In order to do this we have been working to improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism and decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates. The challenges that we now face, due to COVID-19 and the need to have flexibility between Distance and In-person learning have made us create some new systems to track attendance and participation. Compulsory attendance means that all students are expected to participate in school, including the teacher's live daily online instruction and the completion of assignments given by the teacher. Both of these elements are expected parts of attending school and, to comply with state law, AUSD will implement a new attendance taking system that tracks both daily attendance in live instruction and each student's ongoing completion of school work. We also know that we must continue to work towards creating engaging, culturally responsive, and rigorous learning through both synchronous and asynchronous lessons so that our students are excited to participate.

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

Weekly engagement

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)

Synchronous = 25

Asynchronous = 155

Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)

(M/T/TH/F)

Synchronous = 120

Asynchronous = 125

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 200

Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 150

Asynchronous = 95

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 165

Asynchronous = 150

Total = 315

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

How is weekly engagement data documented?

On Wednesday, the teacher will input data on the extent to which the student was engaged based on a scale of "0", "1", "2", "3", "4", or "5" for the week:

Weekly Engagement Score (Asynchronous & Synchronous student learning minutes for the week)

Grade K

0-179 mins = "0"

180-359 mins = "1"

360-539 mins = "2"

540-719 mins = "3"

720-899 mins = "4"

900+ mins = "5"

Grade 1-3

0-229 mins = "0"

230-459 mins = "1"

460-689 mins = "2"

690-919 mins = "3"

920-1149 mins = "4"

1,150+ mins = "5"

Grade 4-12

0-239 mins = "0"

240-479 mins = "1"

480-719 mins = "2"

720-959 mins = "3"

960-1199 mins = "4"

1,200+ mins = "5"

Daily Attendance

Each day (TK-5) and each class (6-12) teachers must record students present or absent in Aeries. There are various ways that students can demonstrate attendance:

- Live via web conferencing platform (i.e. Zoom, Google Meet)
- Online response form (i.e. Google Doc, Google Form)

- Blended learning platform login record
- Engagement (Participation) in an asynchronous assignment
- Email record of describing participation
- Phone/Voicemail record describing participation
- Attendance for asynchronous work is based on the student completing the assignment, not the grade value or how much time they spent on it.
- Students shall be marked absent if they do not engage in any synchronous or asynchronous class activity
- If a student submits assignments at any time during the day they are not absent

Daily Attendance Procedures Overview 2020-2021

- Daily attendance is required
- California Education Code section 4504 requires documentation of daily participation for each student, each school day, during distance learning.
- If a student is present during synchronous time, there is no need to confirm their asynchronous participation.

Introduction to the Procedures

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

When students are in Distance Learning, there are two ways that a student can be considered present for the day or the period:

Step 1:

Synchronous Distance Learning

- The student attends the mandatory live session (i.e. zoom, etc.) that has been scheduled for the day or period. Students are expected to participate with a visual attendance check in. If there is a barrier to a visual check-in, participation with auditory or chat features can suffice for documenting synchronous attendance. For the purposes of taking attendance, any participation in the scheduled session counts as attending synchronously.
- If teachers notice that students are habitually late or leaving the live sessions early, the teacher should follow up with the student or parent, or inform attendance staff to assist with follow up.

Synchronous attendance is recorded by the teacher of record (classroom teacher) each school day in Aeries during their live meeting with students or directly after. Each period for secondary students.

An attendance code must be entered for each student:

A – Absent, missed Synchronous Distance Learning live session

P – Present, attended Synchronous Distance Learning live session

Step 2:

Asynchronous Distance Learning

- Students who are marked absent (A - missed Synchronous Distance Learning live session) for the day or period, an alternative attendance code may be used to mark the student present if the student attempts or completes independent activities on that attendance day.
- The student must complete an assignment or assessment that has the equivalent time value of the day or the period. Assigned activities should be chunked into daily work for this purpose.
- The teacher must verify that the student has completed the work during that attendance day by reviewing the work submitted by the student, or by engaging with the student or their parent/guardian to verify completion of the activity.
- If a student is unable to complete an activity, but the teacher is able to engage the student or their parent/guardian on that day to discuss and try to resolve the student's challenges, then the Asynchronous Distance Learning Present code may be used.

Teachers have one school week to go back and make an adjustment to document asynchronous attendance in lieu of an absence.

NOTE: Only a student marked 'A' absent should be updated.

L – Asynchronous Learning Present

When using the Asynchronous Present attendance code, the teacher of record must add a note when recording the student's attendance that specifies what type of engagement occurred:

- Time Value of Assignment (TVA)
- specify the online system where work was submitted or the type of assignment completed
- Student or Parent/Guardian Engagement (SPE)
- specify the nature of the communication - email, individual zoom, call, etc. with an explanation of how the teacher engaged the student in order to complete the assignment.

Weekly Attendance

Teachers must attest that attendance has been accurately captured in Aeries each week by reviewing their electronic attendance record each Wednesday for the prior week's activities.

At this time, all students who are still marked with a 'A' and have not met the Asynchronous Distance Learning requirement will have their record updated to:

K – Missed Synchronous and Asynchronous Distance Learning requirements.

RECORDING ATTENDANCE - EACH DAY/PERIOD

1. Synchronous Distance Learning Daily mandatory meeting.

Login to Aeries. In the left navigation tree choose ? Attendance

2. Check the appropriate attendance code next to the student's name to record Synchronous DL:

Synchronous Attendance codes:

P - Synchronous DL Present

A - Absent

Z - Tardy

Students who miss 30 minutes or more of the day's scheduled live meeting should be marked with a "Z".. Please discuss expectations around the importance of attendance with your students. If necessary, arrange a separate meeting with the student and/or parent/guardian if the student makes this a habit.

3. Asynchronous Distance Learning Daily Follow up:

For any student who was absent from Synchronous Learning, check to see if they met the Asynchronous work requirements and update attendance accordingly:

Asynchronous Attendance codes:

L – Asynchronous DL work completed

K – Asynchronous DL work attempted but not completed

4. Teachers must enter notes / remarks / comments for students who are being marked present with an asynchronous code. The note should be entered in the field next to the attendance code, and can be brief.

Samples:

TVA: 75 Minute Edgenuity assignment “Working with Molecules”

Student Contact: Met with student to review the “Working with Molecules” assignment

Parent Contact: Met with p/g to review the “Working with Molecules” assignment

For students who are absent from Synchronous meetings, are not attempting Asynchronous work and who you are not able to contact. Please leave the A – absence code and add a note in attendance. Sample:

UNC – unable to make contact. ParentSquare message, no response. No work completed.

VERIFYING ATTENDANCE AND ENGAGEMENT - EACH WEEK

1. Teachers will run the Weekly Attendance Report by Class each week to verify student attendance and engagement.

Teachers may see attendance codes the attendance staff have entered. Check the attendance notes or attendance log to see if there are questions about what is entered. Contact school sites attendance staff if there are any questions.

Attendance procedures for when there is a substitute teacher:

Substitute teachers should be provided with the teacher’s class roster and a copy of our attendance procedures. They should note attendance on the roster and submit it via email to the school site attendance personnel.

Grading

On June 8th 2020, the California Department of Education (CDE) issued general guidelines regarding reopening school’s during COVID19 and for the 2020-2021 school year. The considerations below are primarily adapted from this document’s guidance on grading. The CDE may further delineate grading requirements in the near future. The district will be moving to standards-based grading, which is in large part due to the urgency, especially in these times, for students to accelerate their learning towards the priority standards for each course.

During the 2020-2021 school year, our school and students will still be heavily impacted by the effects of the global pandemic. While accountability measures such as grading will return this school year, we still have students caring for siblings, parents who have lost jobs and are worried about meeting their family's basic needs, and worst case scenario, people getting sick. Even when families have their basic needs met, many are reporting increased anxiety and stress which will affect learning. While we are committed to ensuring one-to-one internet and devices for all families, we know that many people will still have slow internet or do not have a private quiet place to work in their homes. The world has shifted. We must be flexible and caring for all involved as we consider how to assess and provide fair feedback for students.

As we enter into this new reality, blended learning with a focus on standards must be at the heart of all we do, including assessment. This is a time to be creative with students, learn what interests them, and find new ways to make education relevant, engaging, fun, and meaningful. In addition, we need to communicate clearly and effectively with families and students about what students have completed as well as mastered. We must also ensure that we are clear and transparent on the priority standards for our course and how students will demonstrate mastery.

Standards-Based Grading helps reflect back to students (and their families) the degree to which they are mastering the Standards via assignments. In Elementary (TK-5) this was already in practice prior to COVID. In Secondary, we will use the following during COVID.

Grading Guidance

- Grading should be based on a student's progress toward mastery of standards. When letter grades are given they should correlate to the following:
- A Mastery - The student demonstrates an in-depth understanding of the priority grade level standard(s) by consistently completing advanced applications of the material
- B Proficiency - The student has mastered the complex, targeted knowledge for most/all priority grade level standards for the class
- C Meets Standard - The student understands the foundational material that supports the targeted learning, but is still working to master the complex material for priority grade level standards for the class
- D/Not Yet - Even with assistance from the teacher, the student does not yet understand the priority standards. A "NM" will be given for missing work until the end of the semester if mastery is not achieved.

School sites may need to discuss percentage breakdowns as they correlate to grades.

- Grading for English Learners should also take into account their progress towards the ELD standards. If a student is not yet meeting a content standard but making progress to the next level of ELD proficiency they may still receive a passing grade.
- Assessment for students with IEPs must be appropriately modified and accommodated.
- Grades should be recorded and communicated through Aeries. Narrative grading should be used when possible.
- All grades must have standards-aligned evidence as the basis of the grade in order to ensure clear communication with students and families who have questions or need additional support in understanding their progress towards mastery and grades.
- The lowest cumulative grade a student can receive for each term will be a C for Middle School and a D for High School (all students not meeting the requirements for these grades will receive a "No Pass" if no work was turned in or "Not Yet" mark if they have shown no evidence of mastery in the work turned in).

- All students will have the opportunity to revise and resubmit work to show mastery towards literacy standards by the end of the course.

AUSD is in a rapidly changing educational environment and the administration will hone and refine the district's response to the pandemic as circumstances change and new information becomes available. Key variables that will influence decisions about grading practices include, but are not limited to, length of school closure; new guidelines from the CDE; new policy from the Governing Board; decisions made by colleges and universities; and changing health and safety conditions in the community.

Distance Learning Professional Development

[A description of the professional development and resources that will be provided to staff to support the distance learning program, including technological support.]

Our 2019-20 LCAP names that we must eliminate barriers to student success and maximize learning time, support all students in becoming college and work ready, and support all English Learners in becoming college and work ready. We knew that in order to continue growth in these areas, we would have to support our teachers and staff to learn new skills to use during Distance Learning.

Teachers, Paraprofessionals, and other staff began the year receiving professional learning through a 4 day August Learning Conference. It was structured to model best practices in Blended Learning. Teachers and other staff participated in new learning connected to using online platforms and learning management systems, focusing on priority standards, and strong trauma informed engagement practices so that they build skill and understanding of Blended Learning and Distance Learning practices. The conference learning took place through direct synchronous instruction, cross-site collaboration, grade level/content level collaboration, site level discussions, individual preparation time, and self-paced asynchronous learning.

Teachers will have collaboration/professional development time every Wednesday. This time will be utilized for completing their educational activities and trainings within the categories of student instruction (in-person or virtual), district organized professional development, teacher prep time, and common planning time to meet student outcomes as determined by district priority standards, LCAP, SPSA, and WASC goals.

Monthly collaboration/professional development schedule

Week 1: Site Level Collaboration

Week 2: Home (Cross-Site) Collaboration

Week 3: Site Level Professional Development

Week 4: Community of Practice- Anti-racist educators

Week 5 (if necessary): Unit Member directed Collaboration

Paraprofessional Training: A Learning Conference was also held for Paraprofessionals before school began to assist with their support of students in distance learning. Training curricula called Master Teacher and Behavior University have also been purchased to assist with professional growth throughout the school year. Education Specialists will guide paraprofessionals in the supports that they provide. For Moderate Severe (M/S), students, paraprofessionals will participate in classroom meetings with the teacher and related services staff to plan

supports for students based on student progress data. Finally, training will continue to be provided for M/S paraprofessionals in Applied Behavioral Analysis practices.

Staff Roles and Responsibilities

[A description of the new roles and responsibilities of affected staff as a result of COVID-19.]

With the Covid-19 pandemic and school closures, all site staff, as well as district staff, have had to change the way they do their job in order to respond to the uniqueness of needs during this unprecedented time. In March 2020, all schools and district offices in Alameda Unified School District, as well as many districts in the state, were abruptly closed. Teachers and other school staff had to respond instantly because every passing school day students were at risk for learning loss. Teachers and staff did respond and adapt to this uncharted territory with new roles and responsibilities in nearly all aspects of their job. Specifically, with the creation of two distinct programs, the Remote Program and the Flexible program, staff have had to adapt to changes in how we support our students, staff, and families. We continue to adapt, and roles and responsibilities continue to evolve as we proceed through this school year. Some of the new staff roles and responsibilities during the time of COVID-19 are reflected below.

Remote Program:

Remote Principal:

- Ensure all staff have the ability to provide remote learning access
- Ensure all families have access to remote learning opportunities
- Facilitate coordination between Remote School staff and Home School staff

Remote teachers:

- Act as teachers who case manage students' courses and also provide academic support providers to assist them in achieving success with the online curriculum.
- Meet with students individually or in small groups to provide tutorials necessary for students to successfully complete the online curriculum.
- Communicate regularly with both the Learning Coach (family member) and students to support students' success.
- Communicate regularly with "home school" point of contact to inform them of student progress.
- Build relationships with families to support all students in their academic successes.
- Students will have interaction with teachers on a daily basis along with progress meetings, parent/teacher workshops, emails and other contact with the teachers.
- Review student data and coordinate small group instruction based on need.

Specialists:

- Elementary Media/Library, PE, and Music who had provided enrichment during teacher preparation time to students pre-COVID were moved into classroom teaching positions to accommodate our Remote program.

Staff new to AUSD during COVID-19:

- All onboarding and professional learning was done virtually and focused on the use of our systems and technology.

Flexible Program:

Teachers and Classroom Instruction: In the Flexible model, learning, engagement is much more difficult. Teachers will need to develop new strategies to capture students' attention and keep it. The lessons will need to be short but more focused. Teachers will be required to contact students and/or parents/guardians as a part of their duty day to re-engage and/or offer clarity. Teachers will be required to provide extra support for students who have experienced or are at risk for learning loss. Teachers now have blocks of time to arrange strategy groups of students who need this additional support. Rather than posting the daily schedule on the white board, teachers will post on the learning management system, and track the value of time for their assignments. Teachers will need to navigate situations with parents in the room either asking them to get more involved or to give their child more independence. Teachers will need to modify events such as back to school night, moving to an online method. All materials and assignments will need to be modified for access in these new models.

CTE pathway teachers have received materials and technical support to help them to adapt their courses to be able to provide high-quality instruction for students enrolled in the Flexible program.

Special Education Teachers: SpEd Teachers will need to work with their students in a new way. When students can not connect in person with their teachers, it is harder for teachers to build relationships and trust. This will be even harder for some of our students with special needs. Online conferencing platforms can be off putting for many students, and some will refuse. Special Education teachers will have to be masterful communicators and strengthen their skills to increase student participation and engagement.

Principals: Communication and outreach will become a major part of the principal's job. In distance learning principals will need to monitor attendance in a school wide system differently. The principal will need to set up a system for tracking participation school wide, and school specific strategies for re-engaging students. Principals will now be required to communicate weekly with the parent community and differentiate messaging across multiple platforms. They need to ensure that all students have access to the technology needed for DL/hybrid learning. They will need to supervise teachers by attending online conferencing sessions and offer feedback. They will monitor learning management systems, and assessments. They will change staff meetings to an online platform and provide opportunities for teachers to maintain positive relationships with each other.

Site Office Staff: School Administrative Assistants or attendance staff will continue to monitor attendance and respond, but this will also change to adapt for distance/hybrid learning. Reminders to teachers to document, new coding procedures, and outreach will change. Attendance is now multi-faceted, joining a Zoom session alone will not suffice. When a student is ill, staff will have to proceed according to the Alameda County guidance. Parents will have limited access to the school, so all registration procedures have been changed to online.

Custodial: During distance learning the custodial staff roles and responsibilities will be more focused on disinfecting staff used areas, keeping an inventory of masks, gloves, and disinfectants for use by staff who are on site. Staff will work on preparations for opening in a hybrid model

including relocating desks and chairs. They will be responsible for modeling the social distancing, mask wearing, and representing the current health safety requirements.

School Psychologists: School Psychologists will gather and analyze available assessment data in order to provide guidance on determination of special education eligibility if possible taking into consideration shelter in place and social distancing. They will complete assessments to the extent possible within the mandated IDEA timelines. In addition, they are supporting case managers and students with socio-emotional support.

Nutrition Services Staff: Some staff worked over the summer at central locations providing meals for our students. This school year, while in distance learning, instead of working out of their usual sites preparing breakfast and lunch for students, they are stationed at centralized locations distributing grab and go meals to all AUSD students.

District Nurse: Responsible for collaborating with state and local health departments to update emergency operations plans for all sites.

District Administrators: Many District administrators including and staff worked beyond their work calendar in order to create plans for distance learning including professional development plans, technology plans, and plans for assessment. Their jobs continue to focus on providing support for teachers instructing in a distance learning environment.

District Office Staff: Staff are able to continue supporting the schools by working from home with some opportunities to work from the District Office as permitted.

Both Flexible and Remote:

Attendance and Participation Tracking: Teachers will be responsible for monitoring attendance in a whole new way. Attendance is no longer a simple operation as it was in the past with “present,” “absent,” or “tardy.” Attendance now is defined by student participation by logging onto online sessions, completion of assignments, completion of assessments, and parent/guardian and/or student contact. Teachers will be required to keep systems for tracking daily participation and will be required to input this data into Illuminate weekly.

Teaching and Learning Department:

The Teaching and Learning department made some position shifts that were not specifically related to COVID-19 but in order to align better with the needs of our sites. While the changes were not based in a response to COVID-19, these positions, as with all in our district, had to adapt to the shifts and needs of our schools sites during COVID-19.

The TK-12 Language and Literacy Coordinator specifically focused on English Language Development and organizing our programming for our English Language Learners, this position supports academic language development across content TK-12. This position is paying special attention to supporting school sites with the needs of our English Language Learners during Distance Learning and working with the Instructional Coaches to develop plans to support individual students needs.

The TK-12 STEAM Coordinator focuses on Science, Technology, Engineering, Arts, and Mathematics instruction across the district.

Language and Literacy Coaches work closely with school sites to analyze curricular resources connected to our AUSD priority standards, and plan for how to teach these units and lessons in the context of blended and flipped learning, backwards plan Structured Discourse from Language Objectives, develop a capacity for self-study and continuous improvement through reflection on instruction and student data, with a focus on ELLs, students w/ disabilities, and black students.

Supports for Pupils with Unique Needs

[A description of the additional supports the LEA will provide during distance learning to assist pupils with unique needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness.]

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In order to address this disproportionate impact, we have worked to support our students in the following ways:

Foster Youth:

Improve our communication connected to the needs of our students in Foster care. This includes: Immediate enrollment; district/school connection and communication with County case manager; high school guidance and communication around AB 167/216 grad requirements.

AUSD's Foster Youth Liaison collaborates with Alameda County child welfare social workers, Alameda County Probation officers, Alameda County courts, and East Bay Children Law Office in order to minimize school placement changes, provide needed supports, and improve educational outcomes for Foster Youth. All Foster Youth are ensured immediate enrollment, regardless of the availability of required documents (ex. Immunization records, birth certificates, transcripts, etc.). AUSD's Foster Youth Liaison also provides training to district enrollment staff, site office staff, Intervention Leads and school counselors. Training topics include information on specific education laws that are specific to foster youth, when and how to notify the Foster Youth Liaison when there are concerns, and policies around graduation requirements outlined in AB 167 / AB 216.

McKinney Vento Homeless Youth:

Continue to provide differentiated support for our students experiencing homelessness: AUSD's McKinney Vento Liaison works closely with and provides training to enrollment staff, office staff, intervention leads, and school counselors to identify students who are experiencing homelessness and provide them extra support. If the youth is enrolling in the district, they are enrolled immediately regardless of being able to provide required documentation (ex. immunization records, birth certificates, transcripts, etc.). When a youth is identified as qualifying for McKinney Vento services, the liaison conducts an intake with the family. Needs are identified and resources are provided. All McKinney Vento youth are provided with AC Transit bus passes for transportation when the district is able to provide in-person instruction and backpacks filled with school supplies. Additionally, all McKinney Vento youth are enrolled in the Free and Reduced Lunch program.

McKinney Vento families are given referrals to: Alameda Food Bank for food access; Alameda Family Services Family Support Center for case management and assistance in enrolling in CalFresh, MediCal, and other assistance programs; Homeless Action Center for legal assistance; All Good Living Foundation for shoes, clothing, toiletries, and hot food delivery from local restaurants; Dine and Connect information about the faith based organization that host dinner and information for homeless; Safe Parking and Day Center information where homeless families can do laundry, charge their phones, watch TV, and have a safe place to park at night and be supported by Village of Love social services; and City of Alameda Homeless Hotline for additional resources that are provided by the City of Alameda. Intervention Leads at each school site do a weekly data review on their McKinney Vento youth to ensure attendance, engagement, and school success. High school counselors meet with their McKinney Vento families to discuss and review eligibility for reduced credit requirement graduation per AB 1806.

Immediate enrollment; transportation (via bus passes); enrollment into Free-Reduced Lunch program; Backpack and School supplies at the beginning of the school year and at the midpoint of school year (after winter break); referrals to social service and health agencies that address specific needs; Holiday toy drive recipients; secondary school counseling regarding AB 1806.

Pupils with Exceptional Needs:

Create an Individualized Education Aligned Plan to be followed during Distance Learning for students with IEPs. The District has planned to provide Student's operative IEP to the greatest extent practicable, through a combination of in-person and distance learning in the "Flexible Model" or distance only learning in the "Remote Model". As indicated in the contingency "IEP Aligned Plan" with components required by Senate Bill 98, the following information regarding services are delineated: access to the general curriculum, specialized academic instruction ("SAI") based on areas of need, related services, accommodations and modifications, supplementary aids and services, transition services (e.g., in effect when Student is 16 years of age or older or younger if deemed appropriate by the IEP team), and extended school year services where appropriate, to be implemented during an emergency. Please be aware that the educational placement and services made available during the time frame of "emergency conditions" are not stay-put, and upon termination of the emergency Student's stay-put IEP is the most recent IEP with parental consent. Please note that some distance learning or related services will involve small and large group learning, meaning other students might be involved in the same instructional or related services activities. Educators and service providers will communicate schedules with individual parents based upon the students' IEP.

Additional Summer Instruction: In the summer, any student with an IEP in AUSD can access additional instruction to address learning loss and assist with recovery. Small group sessions for academics as well as social emotional learning and mental health were provided 4 afternoons per week by District Education Specialists and a Board Certified Behavior Analyst, following Extended School Year in the morning. The Adaptive Physical Education teacher enhanced wellness sessions with online movement games that students and families participated in. Over 40 students requested the program. In the summer, research-based curriculum for online Lexia reading intervention was piloted and received well by staff and parents. The Lexia program was purchased and will be extended to all Mild/Moderate Education Specialists during the 2020-2021 school year. Teachers were trained in a session held during the August Learning Summit held for staff for 4 days before students returned to distance learning.

Additional Fall Instruction: Similar plans are being made to provide students with IEPs across the district additional instruction to support learning loss. This opportunity will be announced soon after the school year begins.

Research-based Curriculum: The special education team reviewed various online instructional curricula to determine programs that would best support learning loss during COVID, including those programs previously used augmented with new programs.

New and continuing curricula include:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

Assessment and Evaluation: Assessment is critical to determine students' learning needs following a period of Shelter-in-Place last Spring. Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans. Assessment efforts include: (1) Training of teachers in STAR benchmark assessment system; (2) development of a plan for addressing assessments due last Spring and coming due in order to inform instruction and annual or triennial IEPs. Temporary NPA Psychologists were hired to complete assessments in the interim until assessments can be completed.

IEP Aligned Plans (IAP): Contingency plans as defined by SB 98 to address student needs for instruction and related services that align with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

Individual Education Plan (IEP): Initial, annual and triennial IEP meetings will continue as prescribed by the Individuals with Disabilities Education Act (IDEA), to provide students an offer of FAPE when schools return to typical times, while also providing an opportunity to discuss emergency plans per Senate Bill 98.

English Language Learners

Our LCAP names that we will support all English Learners in becoming college and work ready. Our vision for English Language Learner (ELL) success certainly includes mastery of Academic Language skills. But the ultimate goal for ELLs is

joyful and fulfilling participation in the community and the world. It is precisely by working towards this goal in our schools and communities that ELLs will have the most powerful opportunities to use, develop and master rich and complex language.

English language learners have been disproportionately impacted during distance learning by losing English language exposure at school and interactive experiences with peers that assist with English language development. We will be intentional in giving English learners opportunities for additional support.

Teachers will continue to deliver Designated English Language Development, except that what they do will now need to be done in a virtual classroom. Time blocks are embedded in our Distance Learning plan so that elementary teachers will be able to pull students into small groups for Designated ELD instruction, and our secondary ELD teachers will continue to have class periods for Designated ELD instruction. The times for instruction do not interfere with ELL students’ access to Tier 1 instruction. We will continue to use our adopted ELD instructional curriculum and materials as well as supplemental resources provided to all students, such as Raz, with access to leveled texts and reading records, and myON (similar), as well as Imagine Language & Literacy, a tech-enabled, adaptive program for all our ELL students in the Remote Program and our Newcomer students in the Flexible Program. This additional purchase was prioritized for our Remote Program students because the Remote Program is more self-paced and independent, and want to make sure students have additional opportunities to practice and demonstrate their Speaking and Listening skills. Newcomer students were also prioritized given their need for additional supports.

Teaching & Learning coaches will support general education teachers with integrating EL strategies into their instruction and providing added supports and scaffolds for English learners in order to support the development of Academic Language skills. This year, we’ve narrowed our EL strategies to our district-wide “Daily High-Impact Language Practices,” for which we will provide initial training and ongoing support. Middle and high school teachers will also continue to use Constructing Meaning strategies modified for online learning.

Pupil Learning Loss

[A description of how the LEA will address pupil learning loss that results from COVID-19 during the 2019–2020 and 2020–21 school years, including how the LEA will assess pupils to measure learning status, particularly in the areas of English language arts, English language development, and mathematics.]

During the 2019-20 school year, students participated in Distance Learning for the last three months of school. During that time, we observed variance in participation rates. As we begin the 2020-21 school year, it is important to determine how COVID-19, distance learning, and participation rates affected the academic mastery of our students. AUSD intends to administer the Star Reading K-12 and STAR Mathematics Assessments K-5, and the Mathematics Diagnostics Testing Project (MDTP) 6-12. Currently, three administrations are

scheduled: Fall, Winter, Spring. The Fall administration will function as the baseline to both observe growth during the 2020-21 distance learning program and ascertain potential opportunity gaps created by the pandemic. Data from Fall will be disaggregated into student groups, grade levels, and school sites. Site leaders and teachers will have access to individual student scores to plan interventions. Scores will be compared to previous average scores for the Fall administration of the Star assessment and MDTP for students who took them at that time. For students who have Individual Education Plans (IEPs), individual learning loss will be assessed based upon assessments, accommodations, and/or modifications articulated in the Individual Education Plans (IEPs).

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In addition, our LCAP names that we will increase capacity and systems for data-driven improvement. In order to continue to do this we must implement an academic diagnostic/screening tool so that we can increase the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports. With this data available, learning loss will be addressed in both our remote learning program and our flexible learning program models with built in time for teachers to hold equity based small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. In the next session our systems and strategies are described in more detail.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: MDTP - The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

In TK-5, we developed the Equitable Start schedule to allow teachers to get to know their students, families, and assess students' specific needs in order to inform their instructional planning. Teachers will use information from these meetings to create specific Tier 2 and 3 small group learning experiences.

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning

- Weekly engagement review

- Connections with parents and families to learn of student needs
- Teacher created assessments

English Language Learners will receive Designated ELD for 30 minutes a day and Integrated ELD through daily content

Based on the needs of students, teachers will work with students in small groups or one to one to provide Tier 2 and Tier 3 supports based on skills or standards mastery needs.

Pupil Learning Loss Strategies

[A description of the actions and strategies the LEA will use to address learning loss and accelerate learning progress for pupils, as needed, including how these strategies differ for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils experiencing homelessness.]

Learning loss will be addressed in both our Remote and Flexible learning models For both our remote learning program and flexible learning program models grades TK-12, time will be embedded in the schedule forwith built in time for teachers to hold equity based Tier 2 and Tier 3 small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. This time is for the purpose of providing additional support to students who most need it. Teachers will track student progress and review during Wednesday professional learning time. Staff will have structured collaboration time to engage in improvement cycles including reviewing student assessments, planning instructional shifts and strategies based on data, establishing clear outcome goals, debriefing lessons as a team, and reflecting on their practice. All of this will be done electronically, using a video conferencing platform if in the distance learning model.

In addition, sites will track achievement data and meet in Coordination of Services Teams (COST) to coordinate potential services for students performing below grade level standards. COST can consist-- Academic services include small group targeted instruction consisting of strategically placed students. These small groups of students will be assessed to determine growth in six week cycles. If a student is not making progress, COST will collaborate to regroup students and try different researched based interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students performing below grade level, but also our most vulnerable students including low socio-economic students, English learners, foster youth and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well.

We know that the burden of school changes has fallen disproportionately on students with greater needs and they will undoubtedly need more focus and attention. Based on Distance Learning in the spring, families reported experiencing anxiety about learning loss in their students with disabilities, difficulty keeping their students engaged in the virtual environment, worry about their students' social-emotional state, and frustration with not being able to receive some in-person services detailed in their IEPs. In addition school closures upended many students' Individualized Education Plans (IEP). In AUSD, our Special Education Department is working proactively to respond to the Covid-19 pandemic and what it means to provide continuity of learning during this time of distance learning. For special education students in AUSD, the IEP team will use the Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans for each student with an IEP. The IAP does not change the district's offer of a Free and Appropriate Public Education (FAPE) to students. These "Contingency" plans as defined by SB 98 to address student needs for instruction and related services that align

with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: Math Diagnostic Testing Project-MDTP- The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning:

- Weekly engagement review
- Connections with parents and families to learn of student needs
- Teacher created assessments

Assessments will be administered on an ongoing basis, The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

Kingmakers program:

Kingmakers of Oakland (KOO) provides Khepera Curriculum consulting to Chief Academic Officer. Khepera Curriculum consulting will support the implementation of the "Mastering Our Cultural Identity: African American Male Image" course at four AUSD school sites. Chief Academic Officer will participate in the KOO Learning Collaborative - Strategic Planning and implementation with Cross Functional, Intergenerational Team to address the systems, structures, conditions and culture that leads to improved educational outcomes for African American Male (AAM) students from Pre-K to 12th grade.

Summer programming

High School Credit Recovery:

Credit Recovery is an independent study course that gives students the time and support to complete course work required to receive a passing grade in a course needed for graduation or college eligibility. Credit Recovery can be accomplished through an accredited online learning platform. Select courses also meet the University of California's "a-g" requirements. High School students can take self-paced courses through the online platform that make up credit deficiencies for high school graduation. Students may work online at their own pace throughout the semester and must check in frequently with their summer program instructor (a credentialed AUSD teacher) in order to take exams and receive credits for each course. Credits earned will be posted on the student's AUSD transcript.

Elementary Summer School (TK-5):

Our Title 1/ELD summer program serves 200 students and is geared towards supporting English Language Learners and students who receive Free or Reduced lunch. Traditionally 4 weeks long, students receive reading instruction using Leveled Literacy Intervention, Math support through small group instruction, and ST Math and English Language development through integrated content.

Special Education Recovery:

1. We must address recovery per SB 98. The STAR assessment is being utilized to measure student regression areas and/or progress areas.
2. Additional Instruction was piloted in the summer months and went well per staff and parent interviews. Research-based online curriculum was applied (e.g. Multi-Sensory Reading through Lexia). Students were instructed in small groups (up to 4 students) in the areas of English Language Arts, Mathematics, and Social Skills. Any parent could sign up their student.
3. Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.
4. Additionally, we are now researching if we can offer "Learning Hubs" or in-person instruction with precautions to Moderate/Severe students. This is being explored at this time with Cabinet and the SELPA.

These opportunities are important to provide in order to respond to demands for compensatory time that have come or may come from the Spring Shelter-in-Place period. If a demand is made, parents could then be invited to join Additional Instruction Sessions and/or "Learning Hubs" if learning hubs are deemed safe.

Effectiveness of Implemented Pupil Learning Loss Strategies

[A description of how the effectiveness of the services or supports provided to address learning loss will be measured.]

As discussed in the previous sections, the Star Reading and Math as well as MDTP assessments will be administered three times throughout the year. The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

In addition, Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and Attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

The COST coordinates academic services for students performing below grade level standards in literacy and/or math. Academic services include small group targeted instruction by the classroom teacher or a specialist teacher. These small groups of students will have ongoing assessment to determine growth in six week cycles. If a student is not making progress, the COST will collaborate to regroup students and try different interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students' academic achievement level, but also on their social-emotional wellbeing. The Team also focuses on our most vulnerable students including immigrant students, low socio-economic students, foster youth, and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well through counseling services, social groups, and focused behavioral and social-emotional interventions.

District Leadership and School Site Leadership teams engage in Cycles of Inquiry throughout the year, using multiple forms of data from the above assessments and observations to determine which strategies and systems are working well and which need to be augmented to better support our students, plan for the use of these strategies, implement the strategies, review through progress monitoring, and adjust as needed.

Actions to Address Pupil Learning Loss [additional rows and actions may be added as necessary]

Mental Health and Social and Emotional Well-Being

[A description of how the LEA will monitor and support mental health and social and emotional well-being of pupils and staff during the school year, including the professional development and resources that will be provided to pupils and staff to address trauma and other impacts of COVID-19 on the school community.]

School closures and social isolation have affected all students, but particularly those living in poverty. Adding to the damage to their learning, a mental health crisis may be emerging as students have lost access to services that were offered by schools. In this new school year, teachers will face a pressing issue of how to help students recover and stay on track throughout the year even as their lives are likely to continue to be disrupted by Covid-19. To assess and strategize with students and family, the following structures are set up in our distance learning program.

Social and Emotional Learning:

School site's Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

Teachers follow the predetermined protocol for referring students to COST, including logging all pre-referral interventions into AERIES. Intervention Leads will utilize the COST Data Tracker to monitor student referrals and progress through the COST process.

Attendance Monitoring (per SB 98):

- AUSD Tiered Attendance and Re-Engagement

Tools for Assessing Student Basic Needs:

- Monthly needs survey for students (two surveys developed - one for elementary and one for secondary)
- Monthly needs survey for families assessing food, housing, internet, mental health
- Monthly Family Survey: <https://docs.google.com/forms/d/1nbnDRN-nb4fOXVF26krQBps5kp4c84C3C92W43hwLuQ/edit>

If a student or family indicates via the monthly survey that they are lacking food, housing, internet or indicate a need for mental health services, they are referred to COST for coordination of services with outside agencies and case management.

Indicators That Mandate an Immediate COST Referral:

- Suspected abuse, neglect or domestic violence (This also necessitates a call to CPS)
- Self harm behavior
- Suicidal ideation (follow AUSD suicide prevention policy)
- Academic Need (Below 10th percentile in STAR)

During Wednesday Site level professional learning, in addition to a focus on using priority standards, professional development will focus on Restorative Practices, Trauma informed instruction, building relationships, and Social and Emotional Learning.

Pupil and Family Engagement and Outreach

[A description of pupil engagement and outreach, including the procedures for tiered reengagement strategies for pupils who are absent from distance learning and how the LEA will provide outreach to pupils and their parents or guardians, including in languages other than English, when pupils are not meeting compulsory education requirements, or if the LEA determines the pupil is not engaging in instruction and is at risk of learning loss.]

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)
Synchronous = 25
Asynchronous = 155
Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)
(M/T/TH/F)
Synchronous = 120
Asynchronous = 125
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 200
Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 150
Asynchronous = 95
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 165
Asynchronous = 150
Total = 315

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

After teachers have made the primary calls and attempts to reach students who students are identified who are not meeting the compulsory education requirements and are unable to reach them, students will be referred to the site Intervention Leader and/or Family Liaison so that they are able to follow-up, attempt contact via phone or home visit, and then refer to COST.

Family Engagement and Training:

In order to have quality and high impact Family Engagement we must ensure the following:

- Multiple channels for accessible communication and feedback
- Staff are trained on Family Engagement
- Common priorities are developed to support students needs (prioritizing in-person and asynchronous learning for students with highest needs)

August Family Learning Conference (via Zoom, Facebook Streaming, and videos) to help parents/guardians support their children academically, socially, and emotionally during the coming school year. Our goals:

- Overview of the Flexible and Remote Learning Programs
- Help parents/guardians learn how best to support their children during distance and remote learning
- Teach parents/guardians to use various educational technology programs
- Show parents/guardians how best to stay connected with AUSD and their school sites

Continued family learning opportunities for supporting student engagement:

- Education Services: Primary and Secondary Parent Presentations on Grade Level Standards
- Collaboration with PTAs, ELACs, Equity and Inclusion Committees to pivot into inclusive and equitable practices; including sharing of islandwide asynchronous learning opportunities
- Family and Community Liaisons supporting Title 1 and multilingual communities to navigate Flexible/Remote learning times. Including School Smarts in English, Spanish, Chinese, Arabic, Vietnamese). New Mongolian language affinity group starting!
- Capacity Development for site level School Site Council (SSC) Leadership and DELAC
- CAC (LCAP) leveraging community leaders to support our journey through this pandemic.

School Nutrition

[A description of how the LEA will provide nutritionally adequate meals for all pupils, including those students who are eligible for free or reduced-price meals, when pupils are participating in both in-person instruction and distance learning, as applicable.]

When the school year starts in distance learning, breakfast and lunch meals will continue to be available for purchase at full price, reduced price, or free, depending on eligibility. (We are still waiting to hear from USDA if they will extend its current waiver to allow free meals during the regular school year to all regardless of eligibility).

Meals will be available for curbside Grab-N-Go pick-up Tuesdays and Fridays 11am-12pm at the following locations beginning Friday, August 28:

- Academy of Alameda, 401 Pacific Ave
- Earhart Elementary, 400 Packet Landing Road
- Encinal High, 210 Central Ave
- Lincoln Middle, 1250 Fernside Blvd
- Love Elementary, 2025 Santa Clara Ave
- Paden Elementary, 444 Central Ave
- Ruby Elementary, 351 Jack London Ave
- Wood Middle, 420 Grand Street

Families will be provided multiple days' worth of meals at a time. Parents or guardians may pick up meals for their children and can pick up from any of the following sites listed above regardless of which school your child attends.

Alameda Unified School District understands that the COVID-19 pandemic has brought hardship for many families in Alameda schools. Your child(ren) may qualify for free meals or for reduced price meals for the 2020-21 school year. Applications are now open, and you can access them online at MySchoolApps.com or on Alameda Unified School Districts website's Meal Applications page. For support, please contact our Food and Nutrition Services Office at 510-337-7079 or email us at nutrition@alamedaunified.org.

Additional Actions to Implement the Learning Continuity Plan [additional rows and actions may be added as necessary]

 Grand Total \$4,928,360

[A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.]

The three-year Local Control and Accountability Plan describes the goals, actions, services, and expenditures to support positive student outcomes that address state and local priorities. The LCAP provides an opportunity for local educational agencies (LEAs) to share their stories of how, what, and why programs and services are selected to meet their local needs. Enacted along with California's Local Control Funding Formula (LCFF) regulations, the LCAP includes the requirement that districts outline their use of LCFF Supplemental and Concentration grant funding. These funds must be used primarily to serve unduplicated students. Unduplicated students are those students that are Socioeconomically Disadvantaged or English Learners. As a district with less than 55% unduplicated students, AUSD does not receive Concentration grant funding. AUSD does receive supplemental grant funding. This funding is used for centralized actions/services as well as distributed to sites for site-based unduplicated student supports.

AUSD allocates a significant portion of its LCFF Supplemental funding to school sites on a per-unduplicated pupil basis. The remaining LCFF Supplemental funds are retained at the central office level and used to enact broader actions/services such as supplemental resources for English Learners and provide specific services to school sites via targeted funding. This targeted funding includes actions/services such as the restoration of afterschool programming at selected sites with high unduplicated populations.

Regardless of the program (Flexible or Remote), we know resources including time are scarce. Focusing our district will allow us to deepen our support and practices to ensure we make the most of our time with students.

During the 2020-21 School Year, our Academic Guidance has a specific focus on the following:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards
- We integrate social emotional and trauma-informed approaches as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning

We have an intentional focus on creating access for our students, specifically our foster youth, English learners, and low-income students. We know that if we are focused on student talk, equity and rigor, we will be able to create successful outcomes for our students.

STAR Renaissance Assessment System: - Star Early Literacy, Star Math and Star Reading were purchased for all elementary and middle schools and MyOn access to online reading materials from Renaissance Learning - assessments to be given on multiple occasions throughout the school year. Prior to the 2020-2021 school year our district had purchased Renaissance Star Reading and Math for middle school, Star reading for 4th and 5th grade, and some star early literacy, reading and math licenses for a couple of schools that "opted in" for giving it to 1st-3rd graders. Due to school closures in March and moving into distance learning without a clear learning plan for students, we know that there will be learning loss for many students, and most pronounced for our unduplicated students. Racial and socio-economic achievement gaps will most likely widen because of disparities in access to computers, home internet connections and direct instruction from

teachers. In order to measure this learning loss, our district will need a reliable assessment tool and plan for consistent assessment. This school year we have increased licenses to include the capacity to assess all students, K-8, in early literacy and/or reading, and math. This will increase services for elementary students.

Fountas and Pinnell leveled books: Online materials and resources were purchased to support students who need extra support in reading. Our literacy coaches and RTI teachers pull small groups to provide reading intervention. This support staff use data to inform which students need the extra support and isolate the focus of the intervention based on need. Interventions are provided in six week cycles with a pre and post assessment. Grouping and exit decisions are determined using data. A majority of the students in our intervention groups are students who are included in our district sub groups of Black/African American students, low socio-economic students, English learners, foster youth and homeless students, though all students in need of this targeted academic support benefit from this system.

Curriculum and Supports for students with IEPs are meant to support students at their individual learning level and are adaptive to their needs. For instance, both ISME Orton Gillingham and Lexia use a multi-sensory approach to support struggling readers. Among these curricula are:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

BrainPop EL (Flexible) and Imagine Learning (Remote): Our designated ELD curriculum allows students to explore language in playful ways so they gain lots of ways to express themselves in speaking and writing. When delivering ELD in distance learning it will be more difficult for students to show their understanding because of the less personal platform of video conferencing. In addition students will have significantly less opportunities to experience the realia and visuals used to teach ELD in this model. In response to the need for supplemental ELD support due to this changed method of teaching, our district purchased BrainPop EL and Imagine Learning as an extra support. These programs are comprehensive English language learning programs for students of all ages. The programs feature short, animated movies as well as games, quizzes, and interactive features. It encompasses the four main language skills: listening, speaking, reading, and writing. This extra support will give EL students extra time for engaging in English learning activities.

Alameda Island Kids (AIK) Program for Title 1 Elementary Students:

We have been able to partner with the AIK childcare program to provide 8-4 child care support to 28 of our most in need students from our three Elementary sites that receive Title 1 funding. During this childcare program students are given support with their synchronous and asynchronous learning, provided with enrichment, and provided with meals.

RE: AUSD Learning Continuity and Attendance Plan

Dear Superintendent Scuderi, President Bonta and Members of the AUSD Board of Education:

Thank you for providing ASPED Families with the opportunity to provide written feedback for the district's Learning Continuity and Attendance Plan (LCP) on how Covid-19 and school site closure has impacted over 1,000 students with disabilities currently enrolled in Alameda Unified public schools. We have included many direct quotes from families to help humanize the loss and frustration experienced by many of our students with disabilities. It is our deepest and most profound wish that our education leaders and community recognize the sacrifice families have made during these emergency conditions and respectfully ask for solutions to the problems identified in this letter.

This letter is broken into five parts. The parts included are:

1. Covid-19 impact for academic year 2019-2020
2. Covid-19 impact for academic year 2020-2021
3. Comments related to assessments for learning loss
4. Comments related to interventions for learning loss
5. General comments related to the Learning Continuity and Attendance Plan

COVID-19 impact for academic year 2019-2020 The LCP as currently drafted does not adequately describe the full impact on students with disabilities during the 2019-20 school year. During school site closure and spring distance learning, Alameda Unified suspended all special education IEP services, postponed IEP meetings that were previously scheduled, suspended progress monitoring of all IEP goals and suspended assessments used to requalify/qualify students for special education. In addition to postponing already scheduled IEP meetings, AUSD failed to follow 30-day timelines when parents requested IEP meetings to discuss the suspension of special education services and their concerns about the obstacles related to accessing the

District's new distance learning program. Once IEP meetings resumed, the District would not honor requests by parents to discuss their concerns about accessing distance learning in IEP meetings during the 2019-2020 academic year. This decision by the district, denied communication and collaboration afforded by the IDEA to parents/caregivers and students with disabilities.

The impact of these unilateral decisions made by the District vary from student to student and family to family. However, there are several consistent themes conveyed by families during this time period. There are as follows:

1. Failure to provide services as specified in IEPs (even virtually), led to regression in behavior, social and emotional and academic skills while attempting to access distance learning as observed by parents and caregivers. 2. Frustration, fear and sadness for parents who found themselves having to fill school-based staff responsibilities (ex. speech and language pathologist, physical therapist, special education teacher, occupational therapist and paraprofessional) while simultaneously working full-time. 3. Worry and anxiety for the future academic, social and emotional, and behavior trajectory of their student including transitions from prek to elementary, elementary to middle school, middle school to high school, and high school to transition services. 4. Feelings of hopelessness when the District suspended primary communication and collaboration avenues (scheduling IEP meetings) to have parents' concerns heard and addressed. 5. Feelings of frustration from parents of students with disabilities grades Prek - 2nd grade and the expectation to access distance learning through chromebooks when keyboards and the delivery of learning through zoom and other websites aren't developmentally appropriate. 6. Students with classic autism, high anxiety and related attention and behavior needs were unable to maintain attention during Zoom meetings, follow teacher directed whole class instruction independently or with virtual support from a paraprofessional, and complete the assigned activities even with modifications by the special education teacher in the home environment.

The District supplanted services with "tailored supports" but these "tailored supports" were not IEP services delivered virtually. Instead, these "tailored supports" included:

- Office hours by service providers and case managers where no instruction or interventions were provided.
- Unspecified accommodations for students that were designed without discussion or consent from parents and outside the purview of IEP teams and IEP meetings.
- Supplanted evidenced-based and district approved curriculum (such as Transmath and Language Live) for students placed in Intensive Academic classrooms with non-evidenced-based and inappropriate online curriculum such as Moby Max.

"I felt pretty much abandoned last spring. My 2nd grader got zero speech and OT time once distance learning went into effect. Our speech therapist uploaded a bunch of stuff to google classroom basically shifting the responsibility of implementing the "therapy" to parents.

While special education services resumed this fall, all of it is in virtual small groups and not all that helpful. The time spent with a special education teacher has been significantly reduced compared to the SDC class had my student been able to remain with his classmates. Based on our own family circumstances we applied and accepted the remote program in order to reduce the risk to Covid-19. Unfortunately there isn't an equivalent virtual SDC classroom for my student to get the level of individualized support he needs.

I sometimes feel overwhelmed."

Parent of a SpEd 3rd grader in Remote Program

COVID-19 impact for academic year 2020-2021 The LCP as currently drafted also does not adequately describe the impact or potential impact of COVID-19 for the 2020-21 school year. The District has resumed IEP meetings and some related services and is monitoring progress towards IEP goals however, assessments related to requalifying and qualifying for special education have not fully resumed. In addition, the District's two models for distance learning (flexible and remote) have not virtually replicated mild/moderate or moderate/severe SDC classes that existed during on-site instruction. Based on these decisions made by the District, students with disabilities and their families have expressed the following concerns and observations:

1. There is a growing backlog of evaluations for special education. Families and students caught in this backlog have concerns about appropriate placement, services, goals, accommodations and supports their student needs in order to receive a free and appropriate public education (FAPE) with meaningful benefit. Without reliable special education evaluations, IEP teams cannot create meaningful IEPs for students who qualify. The longer this problem persists, the more students with disabilities risk being denied a FAPE.
2. Students with disabilities once placed in mild to moderate classes like Academic Strategies classes for math and ELA in HS and MS prior to Covid-19, have been placed in general education classes without the necessary support to complete assignments.
3. Elementary aged students with disabilities that were once placed in mild to moderate SDC classes during on-site instruction are placed in general education virtual classrooms in the remote program led by general education teachers.
4. Many students with disabilities continue to be unable to access all aspects of distance learning and virtual special education services including those with classic autism, physical impairments that require hands-on support provided by physical therapists and paraprofessionals, high anxiety, and attention related disabilities.
5. Parents and caregivers are observing that as part of the District's new

"IEP-aligned plans" their students with disabilities are receiving fewer services and in larger groups than during on-site instruction (i.e. 20 minutes of speech with 5 other students in a small group during distance learning vs. 30 minutes of speech with 2 to 3 other students during on-site instruction; or 40 minutes once per week, vs. 20 minutes twice per week).

"After 6 months of loss of meaningful speech, occupational therapy, and educational services, our family is looking to move out of state. The expectations of remote learning are unreasonable for mature elementary students, much less preschool 3 and 4 yr olds with special needs. The effects are devastating on behavior, with regressions commonplace. There is no way to work AND effectively assist a preschooler in virtual special education preschool. I don't even have childcare to be able to access the office hours for the therapists."

Parent of PreK

Student

3. Comments related to learning loss and STAR assessments The Learning Continuity and Attendance Plan (LCP) relies heavily on STAR data to quantify learning loss. This is not sufficient for a variety of reasons but the most important reason is that STAR data collected and going forward is typically compared to other STAR data from across the country. If every student is being impacted by COVID, then the entire data set is "lowered" for lack of better language. Because of this phenomenon, learning loss will likely be harder to quantify and identify with this type of assessment. We don't want to compare our current levels of student achievement to what's happening in other districts and communities across the country, especially for our students with disabilities. If the District collects STAR data and compares it to past data collected on the same

student, this might be useful in determining learning loss for our general education students, but not necessarily for our students with disabilities. STAR testing was not specifically designed with students with disabilities in mind but it is marketed and applied to students with disabilities regardless. Measuring learning loss for students with disabilities requires additional data, including:

1. Attendance, including time spent learning independently. This presents a challenge since many parents and caregivers are reporting that neither synchronous remote learning via “zoom” nor asynchronous independent learning time are accessible to their students. 2. Data from student IEPs, including comparing original baselines or last recorded progress information for IEP academic goals from the 2019-20 school year with baselines/progress data collected fall

2020-2021. If there is a regression in this data, then there should be intervention programs/practices put in place to help these students. 3. The intensive academic intervention curriculum (Transmath and Language Live), provides placement and progress monitoring assessments. This data should be collected and analyzed when determining learning loss. 4. The district has used the San Diego Quick and CORE reading assessments to determine baselines for students in reading. These should be named and considered as part of identifying learning loss. 5. There may be other assessments used district wide specifically for special education and if so, they should be named in the LCP.

On page 28 of the LCP under section “Special Education Recovery” it states that “Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.”

- Will instruction be offered for all academic classes or just math and reading?
- What staff will deliver the instruction?
- “Soon” is not specific enough. Please include a date when students will be identified and when instruction will start.
- What time of day will this instruction be delivered? How often will this instruction be delivered during the week?
- What is the duration for each session?
- Will this instruction be delivered 1 to 1 or in small group or both?
- How will parents know if this instruction is helping the student? What data will be collected and shared with IEP teams and how often will this data be collected?

“As a parent with 4 children we had no issues with school until our youngest with special needs started attending school. She is only 6 years old. We find the school team unsupportive. Our 6 year old has regressed due to SIP. AUSD only provides minimal support. The whole distance learning experience has been damaging. Our child cries and is so frustrated. We asked for a paraprofessional and were denied. We had to hire a tutor privately and other therapy in addition to an advocate. We receive less than 1 day notice of special education sessions. Our child needs advanced notice. This happens repeatedly.”

Parent of 4 children, 1st grader receiving special education services

4. Comments related to interventions for learning loss and increasing engagement during distance learning

We support Learning Hubs that provide in-person on-campus supports for students with disabilities unable to access distance learning in the home environment. Many of our most impacted students with disabilities are unable to access distance learning in its current format. 2. We support after class one-to-one tutoring especially in math for students currently not meeting pre-Algebra and Algebra requirements.

3. We support one-to-one tutoring for students with dyslexia to supplement the explicit, systematic, multi-sensory instruction (Structured Literacy) they receive during specialized academic interventions. 4. We support partnering with Non Public Agencies (NPAs) to provide in-home services when virtual services have been attempted and failure to engage the student has been observed repeatedly and persistently. 5. We notice that the LCP describes current practices and policies in place to support struggling students through MTSS. However, we anticipate an increase in the number of struggling students and an increase in the severity of the academic achievement gaps. It's unclear in the LCP if the District intends to use the funds to increase the scale of this program or the interventions available. If so, please provide the details that recognize the projected increase in the number of struggling students in tiers 2 and tiers 3.

“My son is a Sophomore at AHS and has auditory/slow processing disability. When the SIP happened his case manager/academic strategies teacher took a leave of absence and he didn't receive any support. This fall they forgot to put him in Academic Strategies and there hasn't been any support for him either. We are basically on our own. He is struggling with accessing and completing assignments. There is no support whatsoever.”

Parent of High School

Student

5. General comments related to the Learning Continuity and Attendance Plan

1. We are very concerned about the lack of specific details related to homeless and foster youth and the support they will be given to reduce chronic absenteeism and suspension rates. This specific population was underserved prior to Covid-19 as determined by the 2018 and 2019 CDE student group reports. In addition, homeless and foster youth need increased interventions for English Language Arts and Mathematics as determined by the same CDE reports. The District needs to name roles, funding, practices and programs that will address these long standing issues.

2. We are concerned about the increase in absences and the number of students dropping out of school during school closures. The LCP provides a detailed explanation of how the District intends to track and document absences however, it does not provide sufficient details on the policies, practices and programs designed to engage students with chronic absences and students who are dropping out. Students with disabilities fail to graduate at much higher rates than the general population. 3. Some families have reported that their case managers have not provided them with “IEP-aligned contingency plans” as specified in the District's communications. Sadly, some students have been attending distance learning for five weeks without a clear understanding of how their IEPs are being implemented. A few families in the remote learning program have reported not knowing who their student's case manager is. The reality shared by some families is

inconsistent with what's being described in the LCP. 4. On page 36, there are no specific details about how staff roles funded through

the LCP are defined and allocated based on ELL, foster youth, and low-income students. This includes the \$732,953 allocated for Instructional Coaches, \$158,283 for the Student Services coordinator and the Teaching and Learning coordinator for \$312,082. Did these roles exist prior to Covid-19? If so, how have these roles changed in order to meet the needs of our ELL, foster youth, low-income students with disabilities in this moment? 5. On page 36, there are site discretionary funds equal to \$324,114 without

explanation of how these funds will be spent in such a way that will effectively meet the needs of ELL, foster youth and low-income students with disabilities. 6. We request that a link to this letter be included in the final LCP.

We welcome communication and collaboration with the district and the board in order to meet the urgent and long-term needs of our students. We want to recognize and elevate the voices in our special education community as they advocate for dignity and respect during this time of distance learning. We stand as allies with English Language Learners with and without disability and refer to their letter for specific feedback.

Thank you for your consideration,
Heather Clapp Padgett and Christine Strena, Co-Chairs ASPED Families

September 30, 2020

Dear Members of PTAC,

Thank you for sharing your feedback on the 2020-21 Learning Continuity and Attendance Plan (LCP). We appreciate the time you took to provide such a detailed analysis.

The Learning Continuity Plan is not meant to be a substitute for the Local Control Accountability Plan (LCAP), which explicitly describes our program and budget for unduplicated students. Rather, the LCP is a snapshot of how our district responded - and continues to respond - to the pandemic. This does include how we plan to mitigate the impact of the pandemic on our students who meet the unduplicated criteria (Foster Youth, English Language Learners, and students who qualify for free or reduced lunch) as well as our students who have Individualized Education plans. While we plan to continue to focus on and respond to the needs of our most vulnerable students, full explication of those efforts is best saved for the next iteration of our LCAP.

Since March, we have worked hard to hold multiple types of engagements with our stakeholders to receive feedback on the best way to respond to the pandemic and support students learning during the 2020-21 School Year. We took this feedback and used it in all of our planning, including in crafting the Learning Continuity and Attendance Plan. While we believe that we engaged multiple stakeholders in this process, we do know that there are important ideas and feedback that must be incorporated into the final LCP.

Upon reviewing the PTAC sponsored feedback, we found there were some elements that absolutely can be incorporated into this year's LCP, other elements that should be addressed in our next full Local Control and Accountability Plan (LCAP), and some that will be better addressed specifically by AUSD's Special Education Department, as detailed below.

We have heard your concerns about ensuring that we are painting an accurate portrait of the impact of the pandemic on our students, specifically our students with special needs. We understand the specific and intense burden born by our students with disabilities under distance learning. We have listened carefully to the feedback provided by our families of students with special needs and done our best to respond to that feedback and alter our instructional programs as best we can under current health orders. We do not believe the LCP is the place to detail all of the dissatisfactions stated by these families, but we have added language that we hope captures the difficulties those families have experienced.

As detailed in the Prior Written Notice on [September 2, 2020](#), the District plans to provide students' operative IEP to the greatest extent practicable, whether the student is in the flexible or remote learning program, through students' emergency plans, called "IEP Aligned Plans". The IEP Aligned Plans delineate student needs and services during emergency times as required by Senate Bill 98. Parent input into the IEP Aligned Plan is welcomed through contact with their student's case manager. For concerns regarding access to any aspect of distance learning and virtual services and supports, parents should contact their child's case manager as soon as possible. Assessments for each student with a disability will be determined by their IEP. Both assessments and IEPs are currently underway. Additionally, instructional programming has been based on individual students' IEPs as written in the IEP Aligned Plans. We are pleased to hear that you support the idea of learning hubs. We believe that these

hubs will be able to address many of the concerns parents of students with special needs who are served in our Mod/Severe program have expressed.

In addition to addressing the above, we have added more detail to the LCP based on community feedback. We have added more to the section on mitigating pupil learning loss for our homeless and Foster youth. We have added more detailed descriptions of how we are supporting our English Language Learners and which online programs we are using to support their learning of Academic Language. In addition, we added details on how the Teaching & Learning program was re-structured last spring. Granted, that re-structuring was planned before the pandemic began, but we are including information on how the roles and responsibilities changed due to the impact of COVID-19.

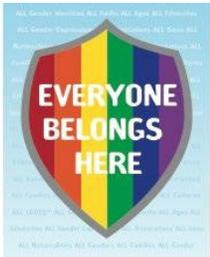

We plan to attach your feedback as well as our response to the LCP. We also plan to continue to hold engagements with our stakeholders this year to progress monitor our Learning Continuity Attendance Plan as well as re-start our Strategic Planning process. While we do not yet have clarity on next steps with the Local Control Accountability Plan, we know that our strategic planning must be directly connected to our overall plan for using our LCFF funds.

- Community Advisory Committee (CAC) meetings to review, monitor, and advise on Learning Continuity and Attendance Plan (9/29/20, 12/1/20, 2/2/21, 4/6/21, 6/1/21)
- District English Learner Advisory Committee (DELAC) meetings to review, monitor, and advise on the Learning Continuity and Attendance Plan (10/29/20, 1/7/21, 3/4/21, 5/6/21)

Specific engagement dates connected to our Strategic Planning will be announced soon.

Thank you for your continued engagement, partnership and feedback.

Pasquale Scuderi

Daily Attendance and Engagement

TIER ONE

Daily attendance is collected and monitored regularly for all students

Attendance Need

Intervention

Student is absent two days with no contact from guardian clearing the absence

- Attendance clerk calls home and documents the call in the attendance monitoring log. Daily absence call automatically generated (robo-call).

Student has unexcused absences three days, with no contact from guardian clearing the absence

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian.

Student is absent for four days, with no contact from guardian

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian again.
- Wednesday teacher (advisory teacher/home group teacher) calls other contacts on the student's record (including emergency contacts) and documents these attempts

TIER TWO

Student is absent for five days with no contact from guardian

- Teacher submits COST referral through AERIES and continues daily outreach to guardian through Parent Square
- Teacher will present all documented outreach to the COST team for review

- [Sample Script for Teachers Calling Parents/Guardians and Emergency Contacts](#)

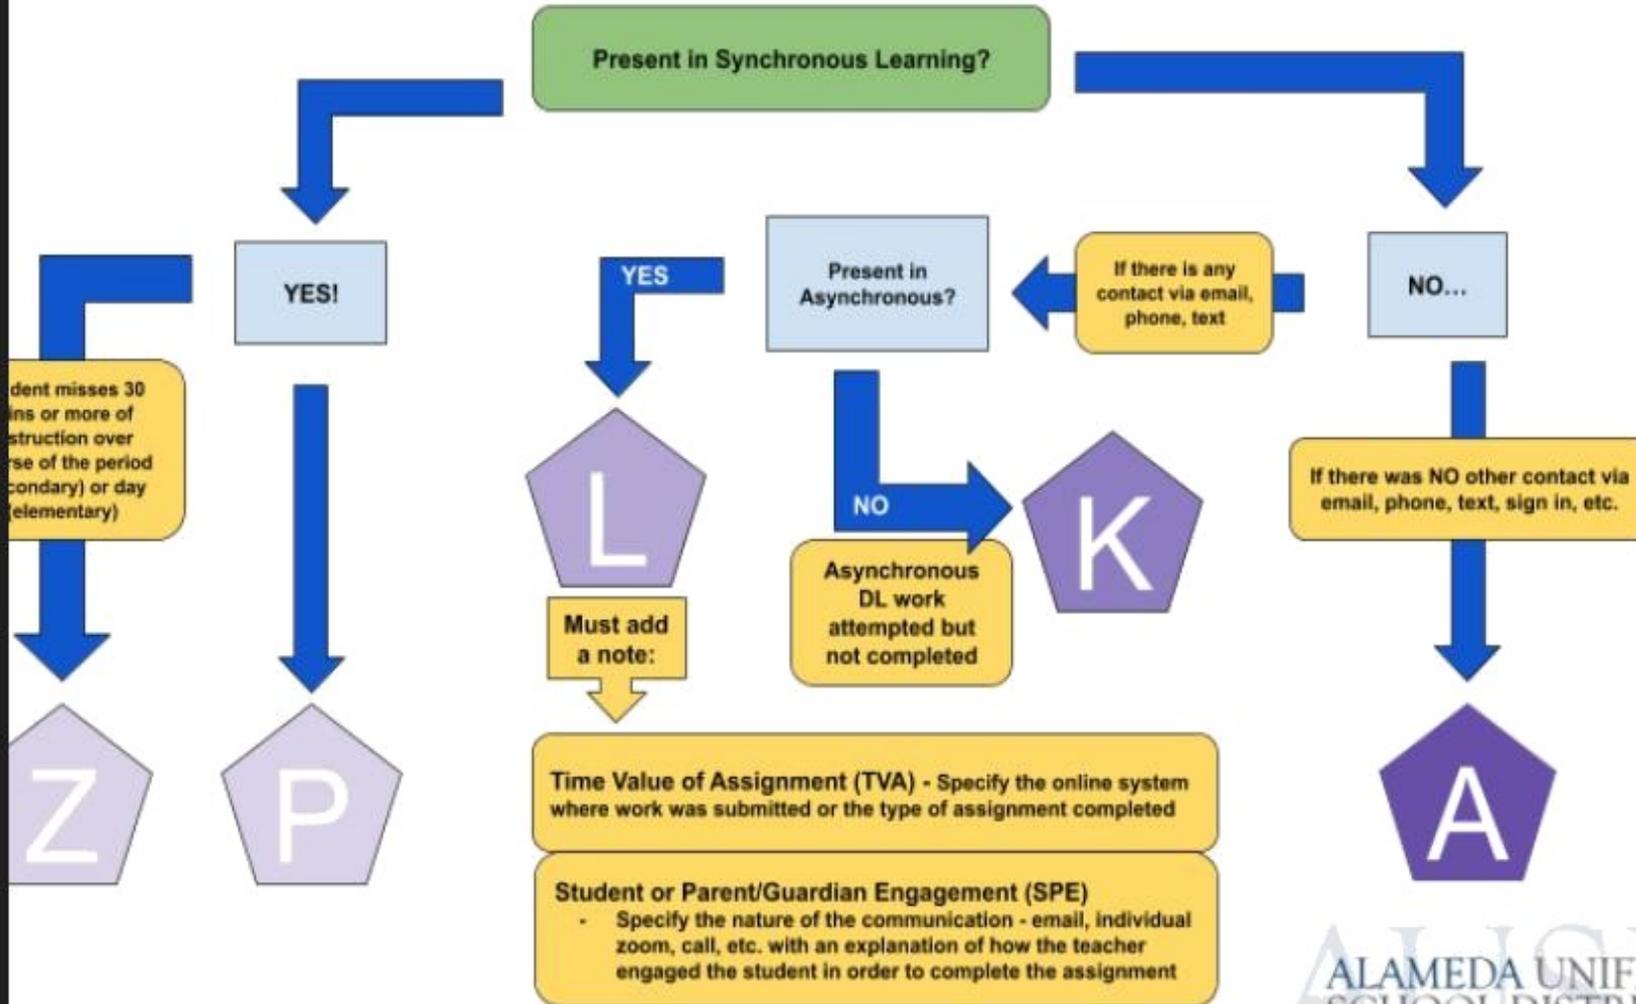

Attendance Need	Intervention
Student is absent for six days with no contact from guardian (this marks the second week of absence)	<ul style="list-style-type: none"> • COST Team will assign the student a case manager who will take over daily student/guardian outreach and documentation • A “Knock and Talk” will be initiated by school site Knock and Talk protocols
TIER THREE	
Student is absent for eight days with no contact from guardian (via phone, email, Knock and Talk, etc)	<ul style="list-style-type: none"> • COST team will request Child Welfare and Attendance Specialist to conduct a Wellness Check (20-21 Tiered Re-Engagement Wellness Check)

District Office	Intervention
Chronic Absence letters	(attach letter schedule here)
CWA Home Visits	CWA responds to COST team with results of Home Visit

Student level goals (across content, aligned to Graduate Profile)	Students dialogue about equity issues and take action to interrupt inequity		
	Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action	Read, think, talk, and write about complex texts every day	Establish and maintain healthy and rewarding relationships with diverse individuals and groups
Teacher priority practices (across content)	Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity		
	Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction	Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	Teachers build positive relationships with and among our students to create the conditions for learning
Leadership Practices	School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity		
	School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision	School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning
District Goals	We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID		
	We keep equity and rigorous content at the forefront of all decisions on what and how to teach students	We maximize interaction and independence in students' blended learning experience	We integrate social emotional and trauma-informed approaches as the foundation for learning experiences
Conditions for Adult Learning	We learn by collaborating, planning, doing, and reflecting	We have space to be vulnerable, self-reflective, and create meaning	Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Attendance Flow Chart

Mark the letter in the pentagon based on the flow chart.

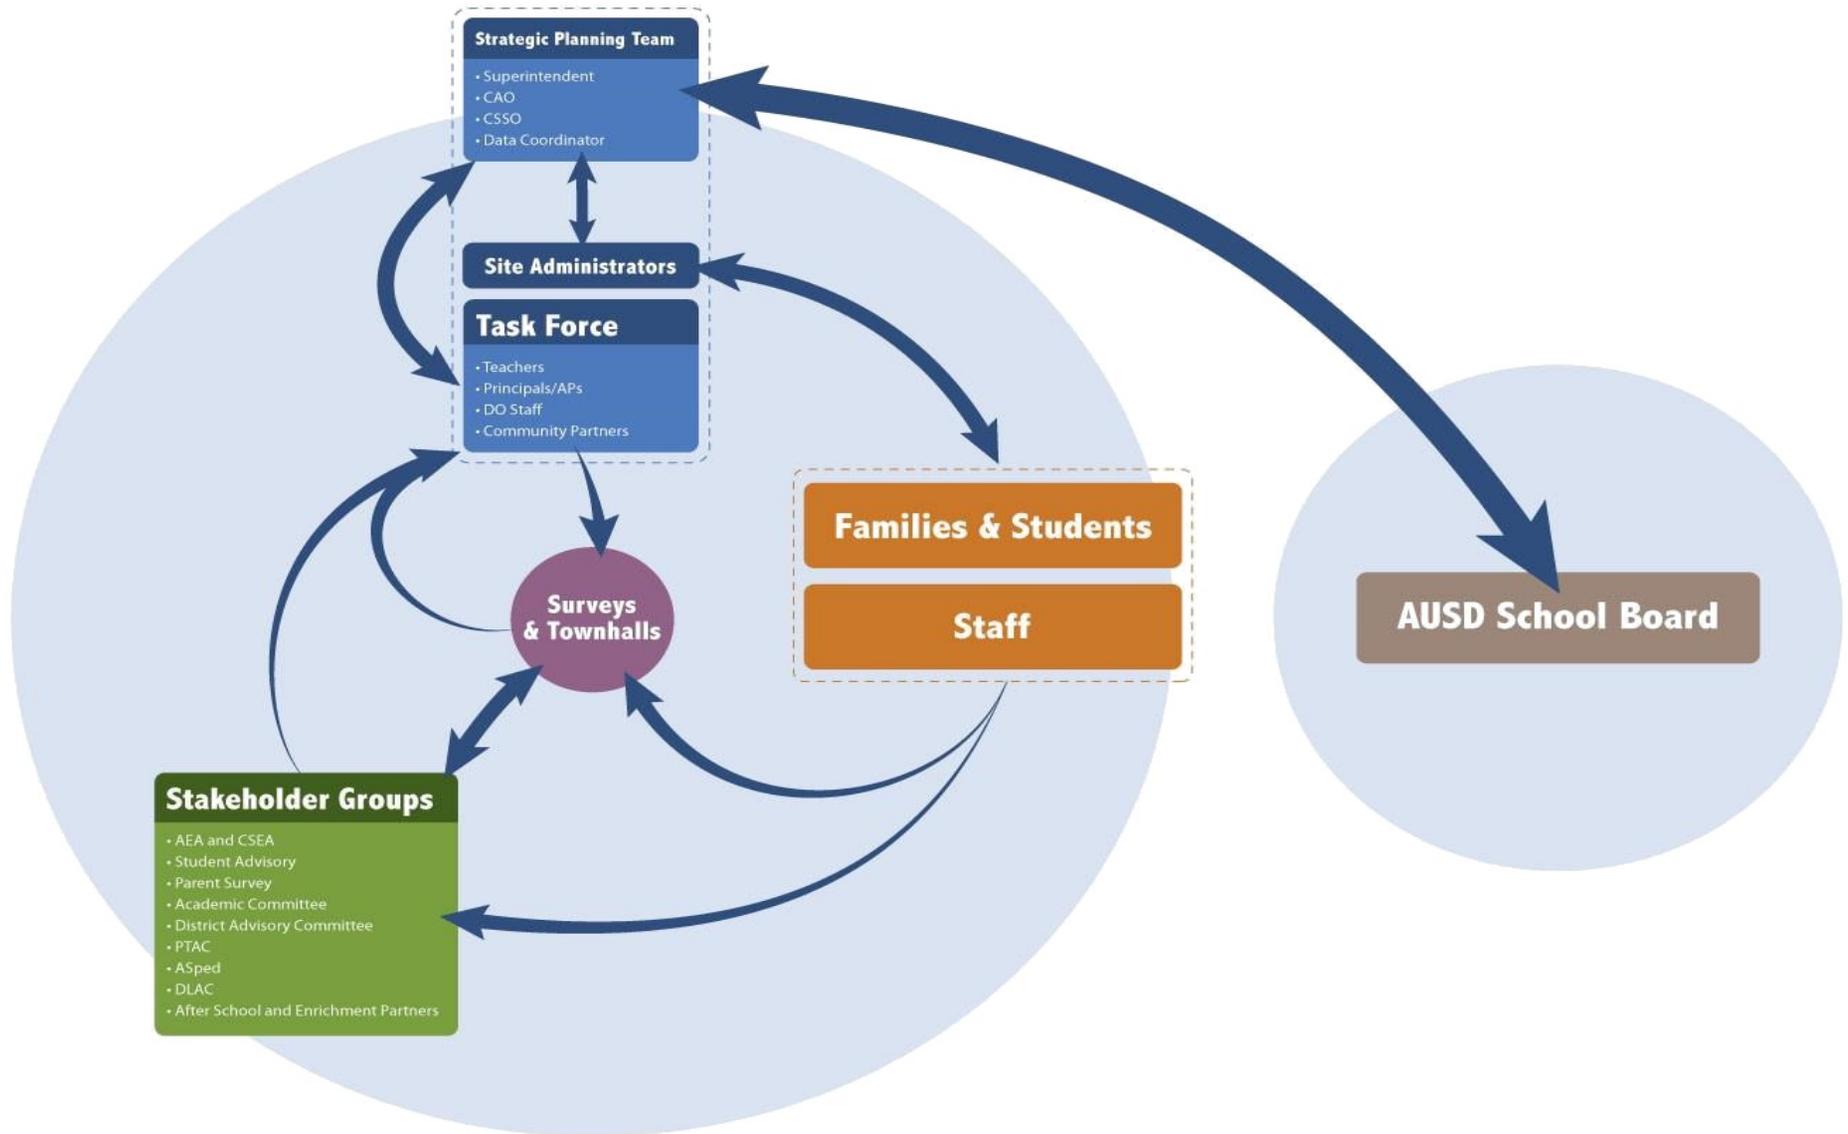

Core Value	Guiding Principles
<i>"We meet the needs of each learner."</i>	<i>Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.</i>
<i>"We develop the whole child."</i>	<i>Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).</i>
<i>"Mastery of Essential Standards through flexibility of structures"</i>	<i>Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.</i>
<i>"We will support all students to embody the AUSD Graduate Profile"</i>	<i>Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.</i>
<i>"Learning to read is key to students' academic success"</i>	<i>Our plan will prioritize students who are learning to read</i>
<i>"Coherent Systems to Ensure Students are College & Career Ready"</i>	<i>Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready</i>
<i>"We will invest in our staff in order to realize our vision for students"</i>	<i>Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.</i>

Alameda Unified School District Schools Emergency Plan for Students With Disabilities

Alameda Unified School District Schools Emergency Plan for Students with Disabilities

The Alameda Unified School District Schools Emergency Plans for Students with Disabilities consists of several components including the Model Plan, Appendices with Checklists, Forms, Sample Memos and Agreements, and Annexes. The Emergency Annex for Students with Disabilities is an incident management strategy that serves to augment the Alameda Unified School District Schools California Comprehensive Safety Plan. In order to ensure efficient and effective emergency management, the Model Plan should be implemented to the best of the site's ability and resources.

I. PURPOSE OF THE PLAN

The information contained in this document will assist school administrators, teachers, special education staff, parents, and students in planning for the support that may required for students with disabilities in the event of an emergency. For the purposes of this annex, students with Disabilities are those who cannot comfortably or safely access and use the standard resources offered in disaster preparedness, relief and recovery, whether their disability is chronic or temporary.

This plan includes procedures ensuring the full participation of students and staff with disabilities through the planning and implementation of mitigation, preparedness, response and recovery strategies as part of the overall management of school emergencies and disasters. Current thought identifies this population as those with access and functional needs (AFN).

A. Presidential Mandate

On July 22, 2004, President George W. Bush signed Executive Order 13347, Individuals with Disabilities in Emergency Preparedness, which adds to existing legislation policy to ensure that the safety and security of individuals with disabilities are appropriately supported and requires public entities to include the unique needs of individuals with disabilities in their emergency preparedness planning.

B. Planning Needs and Assumptions

For individuals with disabilities, physical environments become a great deal more hostile and difficult to deal with during and after an emergency. The ability to get to accessible exits and personal items may be reduced. Communication may be impeded at a time when clear and rapid communication is crucial to safety and survival.

To comply with statutes involving students with disabilities, individuals responsible for evacuation and emergency operation plans, notification protocols, shelter identification, emergency medical care and other emergency response and recovery programs must:

- **have sound working knowledge** of the accessibility and nondiscrimination requirements applicable under Federal disability rights laws;
- **know the students with disabilities demographics** of the students attending classes on site;
- **involve students** and with different types of disabilities and staff and teachers in identifying the communication and transportation needs, accommodations, support systems, equipment, services, and supplies that they will need during an emergency;
- **consider emergency accommodations** for those with temporary disabilities;
- **identify existing resources** within the school and local community that meet the needs of these students;
- **develop new community partners** and resources, as needed;
- **inform parents** about the efforts to keep their child safe at school;
- **identify medical needs** and make an appropriate plan;
- **determine transportation needs**, special vans and buses for students;
- **identify any necessary tools** such as personal response plans, evacuation equipment or visual aids;
- **include local responders** and establish a relationship with individual students with disabilities and their teachers.

II. STATUTES FOR SERVICES IN SCHOOL

Federal law mandates that every child will receive a free and appropriate public education (FAPE) in the least restrictive environment. Children who experience difficulties in school, due to physical or psychiatric disorders, emotional or behavioral problems and/or learning disorders or disabilities are entitled to receive special services or accommodations through the public schools. To support their ability to learn in school and participate in the benefits of any district program or activity, including emergency preparedness and school safety plans, three Federal laws apply to children with students with disabilities:

- Americans with Disabilities Act of 1990 (amended 2008)
- Individuals with Disabilities Education Act of 1975 (amended 1997)
- Section 504 of the Rehabilitation Act of 1973 (revised 1978)

A. Americans with Disabilities Act of 1990

The Americans with Disabilities Act (ADA) of 1990, including amendments which became effective in 2009, provides “a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities.” The ADA prohibits the exclusion of any qualified individual with a disability, by reason of such disability, from participation in or benefits of educational services, programs or activities.

B. Individuals with Disabilities Education Act (IDEA)

The Individuals with Disabilities Education Act (IDEA) is a 1975 federal law, amended by the Office of Special Education Programs in 1997, which ensures services to children with students with disabilities throughout the nation.

IDEA specifies 13 primary categories under the lead definition of a “child with a disability.” (See Table 1, Categories of Disability Under IDEA Law.) These federal definitions guide how states define who is eligible for a free, appropriate public education under special education law. The IDEA requires the school to provide an individualized educational program (IEP) that is designed to meet the child’s unique needs and provide the child with educational benefits.

Individual Education Program (IEP)

IDEA requires that planning for the educational success of these students is done on an individual, case-by-case basis through the development of an Individual Education Program (IEP). The IEP is a written statement developed for each child with a disability that outlines measurable annual goals for each child’s academic achievement and functional performance and specifies accommodations and modifications to be provided for the student.

Students with disabilities who are self-sufficient under normal circumstances may have to rely on others in an emergency. They may require additional assistance during and after an incident in functional areas, including, but not limited to: communication, transportation, supervision, medical care and reestablishing independence. While not explicitly stated, a component of the IEP for related services must consider the particular needs of the child to ensure his or her safety during an emergency that includes evacuation from a classroom and building.

C. Section 504 of the Rehabilitation Act of 1973

In 1978, the U.S. Department of Education (DOE) issued regulations to implement Section 504 of the Rehabilitation Act of 1973. These regulations applied to institutions receiving federal funds. Section 504, as revised, states in part: “No otherwise qualified individuals with disabilities in the United States . . . shall, solely by reason of the disability be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

Under Section 504, any student who has a physical or mental impairment that substantially limits one or more major life activities*, has a record of such an impairment and is regarded as having such an impairment is considered disabled. Typically, children covered under Section 504 either have impairments that do not fit within the eligibility categories of IDEA or that may not be as apparent as those covered under IDEA.

The Individualized School Healthcare Plan (ISHP) articulates the healthcare accommodations required for each student qualified for service under the Section 504 regulation. The ISHP assists in the safe and accurate delivery of healthcare services in school. It is specifically a nursing care plan, developed by the school nurse with parent input. A copy of this plan is included in the school disaster plan and attached to the IEP.

* Major life activities are those basic activities that the average person in the general population can perform with little or no difficulty, such as caring for one’s self, performing manual tasks, walking seeing, hearing, speaking, breathing, learning, working, sitting, standing, lifting, reaching, thinking, concentrating ,interacting with others and reading.

Table 1. Categories of Disability under IDEA Law

Federal Disability Term	Alternative Term	Brief Description/ Factors that Elevate Risk in Emergencies	Factors that Reduce Risk in Emergencies
Autism	Autism spectrum disorder	Characterized by extraordinary difficulty in social responsiveness; often resistant to environmental change or change in daily routine and experience anxiety over interruption. May be non-verbal or use argumentative communication.	Structure, routine, normalcy and familiarity with activity
Deaf-blindness		A simultaneous significant hearing and vision loss; limits the speed of movements.	Guidance from a sighted person
Developmental delay		A delay in one of the following areas: physical development; cognitive development; communication; social or emotional development; or adaptive (behavioral) development.	Minimized disruption of routine patterns of activity, modulate sensory input
Emotional disability	Behavior disorder, emotional disability	Has limited ability to understand environmental events, situations, or procedures. Needs are categorized as mild, moderate or severe. May disobey or resist direction, may panic.	Regulated sensory input
Hearing impairment	Deaf, hard of hearing	A complete or partial loss of hearing that adversely affects a child's educational performance. May not respond to auditory cues.	Written instructions, sign language, specialized communication for direction in an emergency
Intellectual Disability	Intellectual disability, cognitive impairment	Significant limitations in intellectual ability and adaptive behavior. This disability occurs in a range of severity.	Regulated sensory input
Multiple disabilities		The simultaneous presence of two or more impairments, the combination of which causes such severe educational needs that they cannot be accommodated in a special education program solely for one of the impairments. Does not include deaf-blindness	
Orthopedic impairment	Physical disability	A significant physical limitation that impairs complete motor activities, strength, vitality or an alertness to environmental stimuli	Adaptive physical equipment: cane, walker, wheelchair. May require alternative, accessible evacuation route
Other health impairment		A disease or disorder so significant that it negatively affects learning; examples include cancer, sickle-cell anemia, and diabetes	Continuity of medication management regime
Specific learning disability	Learning disability	A disorder related to processing information that leads to difficulties in reading, writing and computing.	
Speech or language	Communication disorder, stuttering	A disorder related to accurately producing or articulating the	Sign language, hand signals, specialized

impairment		sounds of language to communicate	communication for response in an emergency
Traumatic brain injury	TBI	An acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both that may affect cognition, behavior, social skills and speech.	
Visual impairment	Low vision, blindness	A partial or complete loss of vision	Guidance from a sighted person

Source: National Dissemination Center for Children with Disabilities at <http://www.nichcy.org/Disabilities/Categories/Pages/Default.aspx>

In addition to students with disabilities specified under IDEA law, the school site administrator or designee must identify individuals with a temporary impediment such as a broken leg or hidden impairments such as asthma, panic attacks, significant allergies or heart conditions. Students with such documented medical conditions may not have an IEP in place that would highlight the need for continuing a special medical regime, particularly during a crisis or disaster.

III. MITIGATION AND PREVENTION

Mitigation is the action districts and schools take to identify barriers students with disabilities may face during an emergency and eliminate or reduce their adverse effects. A hazards and vulnerability assessment of the site will help in preparing the emergency plan and identifying improvements for safety.

A. Teacher Survey - Students Needing Special Assistance

At the beginning of each year, Special Education Staff should provide to the main office and the students' respective teacher(s) the name(s) of students that will require special assistance in the event of an emergency. The type of assistance needed as a result of an injury is also required when applicable (i.e. broken leg during the year).

- **Review** how an emergency may impact the daily routine of students with disabilities.
- **Know who is on your school site:** Identify students and staff on the site with disabilities. The school principal must be aware of all students and/or staff with disabilities using school facilities and services.
- **Identify the students** with extensive support needs and who might need extra support in emergency crises.
- **Make a list** of the students on the school site who are on medication and their medication schedule.
- **Maintain a list of all resources** regularly relied upon and determine how a disaster might affect the use of them. Examples include (use of mobility aids, communication devices and electrically-dependent equipment).
- **Identify all the stakeholders** who should be considered in the plan (family, friends, service providers, personal attendants, physicians and others).
- **Determine what short term accommodations** to provide for students with temporary disabilities (e.g., injured limb)
- **Assess** potential hazards. Review evacuation equipment.

B. Mitigation Strategies

- **Learn about the types of hazards** that may impact the school (e.g., earthquakes, floods, wildfires) and assure that emergency response procedures address each one.
- **Identify a pre-evacuation site** that is accessible to students with disabilities

- **Plan a primary and secondary evacuation route** from each location the student is in during the course of the day.
- **Arrange sufficient transportation** ahead of time to accommodate the entire students with disabilities/staff population.
- **Develop a schedule** with daily activities and classes that identifies where a student with disabilities may be located each period of the day.
- **Consider classroom location** in placement of students with disabilities. Evaluate the accessibility of nearby exits and proximity to the school nurse.
- **Conduct a test of the family notification system** to assure that contact information is up-to-date to help decrease parent anxiety during a disaster.

IV. PREPAREDNESS

Preparedness focuses on what steps need to be taken to facilitate a rapid, coordinated, effective response when an emergency occurs to keep the students safe. Collaboration with first responders in preparedness strategies and ongoing communications is essential and facilitates the safe integration of students with disabilities into emergency procedures.

A. General Strategies

Use the forms in APPENDIX A to collect information about individuals with disabilities on site, e.g., who has a disability, nature of disability, implications for the student concerning full participation in school emergency planning. Include teachers, schedules, classrooms, potential needs during an emergency, relevant strategies enabling student(s) to participate successfully with peers in general school activities.

- **Build on current accommodations**, modifications and services.
- **Develop a policy** and consent form with legal counsel for medical information. The Americans with Disabilities Act (ADA) allows medical information to be given to people responsible for assisting in evacuating disabled individuals.
- **Consult parents or guardians** concerning care considerations if the student with disabilities is isolated at school for a short term or long-term basis. Inform parents about efforts to keep their child safe at school.
- **Incorporate pre-negotiated contracts** for services that may be needed in case of an emergency (e.g., transportation, food etc.).
- **Obtain necessary equipment and supplies**, create evacuation maps and facilities information.
- **Inform and train staff** about emergency response protocols. Encourage teachers to discuss emergency procedures with parents as part of IEP meeting or other review.

B. Buddy System

Pairing students up with students with disabilities for emergency response, e.g., the “buddy system”, can help with critical backup when a skilled assistant is unavailable or separated from the class. Buddies need to be willing and capable of assisting students in an evacuation to accompany the individual to a safer enclosure or wait for emergency responders. The buddy must be acceptable to the student with a disability. Also, teachers in adjacent classrooms can be pre-assigned joint responsibility for both classes if one of the teachers is busy with an injured student.

To have an effective buddy system:

- Give the student the opportunity to select his or her own buddy.
- Identify a buddy who is appropriate (e.g. strong enough).
- Designate a backup buddy.
- Train for the specific need of the student with disabilities.
- Hold practice sessions to assure that buddies can handle their tasks.
- Train the buddies on how to communicate with the students and how to safely evacuate.

Buddies must be able to make contact quickly with the student with disabilities when the need arises. The following situations may interfere with this critical communication. Use the suggested strategy as an alternative.

- The buddy is in the building, but away from the customary work area.
Have a trained backup buddy in place.
- The buddy cannot locate the person with a disability because the person is absent.
Keep an updated roster of who is at school each day. Assign a temporary buddy when the primary buddy is absent.
- The buddy has left the class/program, and a new one has yet to be identified. *Make an effort to find a replacement as soon as possible. Assign a temporary buddy until there is a permanent buddy.*
- The buddy forgets or is frightened and abandons the student with disabilities. *Check on each student with disabilities to assure he/she is accounted for during an evacuation. Practice drills will help diffuse real-time fright.*

C. Medication Management

with disabilities may have very individualized medication schedules that cannot be interrupted without serious consequences. Medicines or medical devices may not be available in emergency shelters. Make alternative arrangements to meet these needs. Consider how medicines can be stored in an emergency. Heat waves and power outages can affect the potency and integrity of some medications. Include an ice chest and cold packs among the school emergency supplies. If there is a power outage, the ice packs can extend the safe temperature range of medications requiring cold storage until the power is restored.

Some best practices to consider are:

- If the student is on medication, ask caregivers to supply a 72-hour supply in a Ziploc bag with instructions; a refrigerated kit is also advised for medication if needed with instructions.
- Gather all medications before evacuation.
- Transport special medications, supplies and equipment with the student with disabilities.
- Carry contact and medical information for all students and provide individual medical information on a laminated card with a lanyard to be worn around the neck. See Appendix C for an example of the Emergency Medical Card.

D. Access to Communication

Communication access enables effective interaction with people who are deaf or blind or who have speech, vision or hearing limitations. Make written materials available in alternative formats (e.g., Braille, large print, disks, and audio cassettes) and provide hearing- assistive technologies such as amplified phones. Include auxiliary aids and services such as sign language interpreters. Alarm systems for fire, etc. will benefit most people if they incorporate both audible and visual elements. The hearing impaired students may be best alerted by flashing light alarms. **An emergency is not the time to learn how to work a rarely-used assistive device. The most effective communication systems are those used daily.**

- Give clear, succinct verbal instructions.
- Communicate important information through gestures.
- Pictorial representations, where appropriate, can provide quick and easily understood instruction to many individuals with limited English proficiency, and some individuals with cognitive disabilities.
- Guide students with low vision or blindness.
- Utilize electronic variable messaging boards, short message systems (SMS), teletypewriters (TTY) or telecommunications display devices (TDD), if you have them.
- Identify staff with foreign language skills, if needed.
- Have aides, buddies, volunteers and evacuation assistants practice basic American Sign Language for emergency words and instructions such as:

• <i>important,</i>	• <i>emergency</i>	• <i>keep calm</i>
• <i>must leave now</i>	• <i>fire</i>	• <i>fire exit</i>
• <i>elevator closed</i>	• <i>stairs there</i>	• <i>okay</i>

E. Time Management

Children with disabilities are likely to respond to any form of stress following a crisis with more extreme reactions. Allow extra time for them than others to make necessary preparations in an emergency.

Some students with disabilities will need more time to comprehend the emergency. The earlier the notification, the better the chances are for a successful evacuation. Consider what are the triggers and cues for these students and anticipate rather than react. Prepare students for changes in routine. Some students may need to be more protected or isolated to minimize distractions and sources of agitation during the height of a crisis. Adult supervision may need to be more intense for a while.

Allow time for discussion of the traumatic events in a safe and familiar setting; provide choices in activities to the extent feasible to give these students some sense of control over even a small part of their lives.

F. Preparedness Supplies

Classroom Supplies. A classroom that is used for teaching students with disabilities should store disability-related supplies, assistive equipment and tools that may be required in an emergency. Parents should provide for students with dietary restrictions. Among the basic supplies to have in the classroom are:

- Batteries in different sizes, for adaptive equipment
- Lockdown kit, including portable toilet, privacy screen, toilet paper, toilet bowl liners disinfectant, and plastic bag for disposal
- Water pouches for drinking
- Water for hygiene purposes
- Copies of all students' Emergency Information Forms (secured)
- Backup copies of medical prescriptions (secured)
- Hand tools (e.g., screwdriver, wrench, pliers)
- Heavy work gloves
- Whisk broom
- Tarp
- Solar/crank/battery radio
- Cell phone and phone charger
- Flashlight and extra batteries or crank flashlight
- First aid kit

- Small ice chest for refrigerated medications
- Evacuation assistive equipment
- Protein bars (without nuts or nut oil)
- Canned fruit
- Carbohydrate-free foods for meals (e.g. canned meat, nuts, jerky)*
- Feminine hygiene supplies
- Household chlorine bleach to kill bacteria or antibacterial soap
- Facial tissues
- Whistle/noisemaker

* for diabetic students

Go Kits. Portable preparedness supplies individualized for each student's needs, called "Go Kits", are an integral part of preparedness planning. Ask parents and caretakers to provide Go Kits at the beginning of the school year. Plan for a child with special dietary needs. Designate which staff members are responsible for reminding parents to replenish their child's kit and notify the school of changes. Each Go Kit should include, as a minimum:

- Lightweight uncomplicated backpack
- Emergency Information Form – see Appendix B for example
- Medication for up to 36 hours
- Emergency Medical Card, laminated and attached to a lanyard to be worn during an emergency. See Appendix C for example. Card should include:
 - contact information
 - medical requirements
 - allergies and sensitivities
 - adaptive equipment used
 - assistance needs and limitations

G. Drills

Drill practice is very important; it increases skills and instills confidence in each individual's ability to cope during an emergency. Innovative educational techniques such as role-playing or the use of audio visual aids can also be helpful.

- Hold regular drills so that students become familiar with the procedures.
- Know how to get to all the exits.
- Practice using evacuation and assistive devices.
- Give clear, concise instructions
- Practice dealing with different circumstances and unforeseen situations, such as blocked paths or exits or buddies that cannot be located.

H. Key Practices for Certain Impairments

Emergency planning for students with disabilities should be as individual as the students. Some students may be at increased risk during an emergency and will need extra assistance or special attention. If possible confer with students and parents regarding their preference for emergency situations. Assess capabilities, limitations and needs and to determine what type of evacuation assistance will be required in an emergency for each student.

Children with disabilities generally have specific "triggers"—words, images, sounds, etc.-- that signal danger or disruption to their feelings of safety and security. If adults miss these cues, children may escalate their behavior to a point

where they completely lose control. *It is essential that parents/caregivers and teachers work together to share information about triggers and cues.* This is best done on a regular basis, such as during the IEP meeting or a periodic review meeting, rather than in response to a crisis.

There is no one-size-fits-all approach. However, there are key practices that should be considered for certain impairments.

- 1. Cognitive/Developmental:** Some students may not comprehend the nature of the emergency and could become disoriented or confused about the proper way to react. Students with hypertension, dyslexia or learning disabilities may have difficulty reading complicated directions for evacuation or response plans. Simple diagrams or pictures will give non-reading or overstressed students sufficient information to get to safety. Train your staff how to assist those who become upset. Check that evacuation routes have directional signs that are easy to follow. Practice evacuation route(s) with students regularly. Use simple diagrams or pictures to give non-reading or overstressed students sufficient information to get to safety. **Preparedness kits should include:**
 - comfort items
 - pen and paper
 - visual communication instructions

- 2. Hearing:** Provide sign language training to some staff for students who may not be able to hear emergency warnings. Have teachers practice basic hand signals for students with hearing impairments for emergency communications. Alerting devices, such as strobe lights and vibrating pagers can be used to supplement audible alarms and are useful for students with hearing impairments. Install both audible and visual smoke alarms in the classroom and building. **Preparedness kits should include:**
 - pen and paper
 - flashlight to communicate in the dark
 - extra hearing aid batteries
 - batteries for TTY and light phone signaler

- 3. Mobility:** Limited mobility may impair egress and access to locations. Arrange and secure furniture and other items to provide barrier-free paths of travel. Disaster debris may obstruct evacuation. Store a lightweight manual wheelchair, if available. Train the staff the proper way to move an individual in a wheelchair. Mobility impaired students should practice moving their wheelchairs or having them moved into doorways, locking their wheels and covering their heads with a book or with their arms or hands. **Preparedness kits for those who use wheelchairs should include:**
 - heavy gloves for making way over glass or debris
 - extra battery for electric wheelchairs recommended but may not be practical
 - patch kit for punctured wheels
 - flashlight and whistle

- 4. Respiratory:** Students with respiratory impairments may have difficulty breathing when walking distances or descending stairs. Smoke, dust, fumes, chemicals, and other odors often exacerbate such limitations. For these students, include emergency evacuation masks and respirators in

classrooms. Have oxygen and respiratory equipment readily available. Students and staff should practice putting on and removing this equipment as part of an emergency drill. **Preparedness kits should include:**

- medical schedule and dosages
- medical mask, if student can wear one
- any medical equipment needed for 72 hours
- note paper and pen

- 5. Medically Fragile:** Many illnesses can be aggravated by stress. In the event of a disaster that requires students to be at school for an extended period of time, medication may need to be administered to students with a healthcare plan. Schools should consider who will administer these medications in the event a nurse is not available during a disaster. Keep medications, authority to administer the medication forms, and healthcare plans in the vicinity of the medically fragile student.

It is the parent's responsibility to maintain medical supplies, notify the school of changes and provide new doctor's orders. It is the nurse's responsibility to remind the parent to provide medications and update orders when notified.

- 6. Speech/Auditory:** Determine in advance the best way for the student to communicate with others during an emergency. Provide written emergency and evacuation instructions on a card, carried at all times and placed in an easy to see location. **Preparedness kits should include:**

- extra batteries and chargers for communication equipment
- note paper and pen
- comfort items

- 7. Visual:** Those with visual impairments may have to depend on others to lead them to safety during a disaster and may be reluctant to leave familiar surroundings. Employ Braille signage or audible directions for students who are blind or have low vision. Emergency back-up lighting systems, especially in stairwells and other dark areas, will benefit those students with limited visual acuity. Mark emergency supplies with large print or Braille. Students should know where the nearest telephones and alarm boxes are located and how to describe their location. **Preparedness kits should include:**

- extra folding white cane
- heavy gloves for feeling the way over glass or debris
- colored poncho worn for visibility
- comfort items

I. Developing a Student with Disabilities Evacuation Plan

Creation of an Evacuation Plan should cover the evacuation, transportation and medical needs of students who will require extreme special handling in an emergency. In most cases, additional safeguards must be established regarding roles, responsibilities and procedures for students with physical, sensory, emotional and health disabilities. Review all paths of travel and potential obstacles.

- Know your school grounds, paths, exits and potential obstacles.

- Determine the primary and secondary paths of exit to be used during emergencies. Individuals with mobility impairments will need a smooth, solid, level walking surface, an exit that avoids barriers such as stairs, narrow doors and elevators and guardrails that protect open sides of the path.
- Compile and distribute evacuation route information to be used during emergency operations
- Include alternative evacuation route information, should the primary route be inaccessible due to damage or danger.

2. Install appropriate signage and visual alarms.

- Place evacuation information indicating primary and secondary exits in all offices, classrooms, multipurpose rooms, lunchrooms, hallways/corridors, lobbies, bathrooms and cafeterias. For passages and doorways that might be mistaken for an exit, place visible signs that proclaim, “NOT AN EXIT”.
- Place emergency notification devices appropriate for each student.
- Post signage with the name and location of each area so that the students will know exactly where they are. In order to comply with ADA Accessibility Guidelines for Buildings and Facilities requirements, the signage should be:
 - approximately 60 inches above the floor;
 - in a location that is not obscured in normal operation such as a swinging door;
 - in all primary function areas

3. Identify the students and staff with disabilities and the type of assistance they will require in an emergency.

- Allow visitors to self-identify on a sign-in log if they have special evacuation needs.
- Discuss evacuation issues with the staff members and caretakers of students with disabilities. Include individuals, who may be temporarily disabled (i.e. a student with a broken leg).

4. Train staff in general evacuation procedures.

- Review the areas of rescue, primary exits, evacuation techniques, and the locations and operation of emergency equipment.
- Provide in-depth training to those designated to evacuate students with disabilities. Train the staff for proper lifting techniques when lifting a person for evacuation. Anyone can assist a student with a visual impairment.
- Check on each student with disabilities to assure he/she is accounted for during an evacuation.

5. Review the plan with emergency response personnel, including local police, fire and emergency medical technicians.

- Identify “areas of rescue” in your school for students to wait for evacuation assistance from emergency personnel.
- Before school begins in the fall, walk around the site with first responders so that they are familiar with the primary exits and all areas of rescue. These areas must meet specifications for fire resistance and ventilation.
- Ask the responders to conduct a special drill explaining how they will support the students and staff with disabilities during an emergency.

6. Complete all contracts and Statements of Understanding with key emergency support providers

- Ensure that sufficient transportation capacity exists with transportation providers, partner agencies, and suppliers to effectively meet the demand in an emergency.
- Identify transportation contracts through the district in case of an emergency. Emergency response for students with disabilities requires special vans and special equipment. Specify who will do what to address these transportation needs.
- Develop a list of school-owned vehicles, staff vehicles and parent vehicles that are available and make prior arrangements for their use in the event of an emergency.

7. Review the evacuation plan with students and staff to be familiar with the process and identify any problems.

- Practice implementation of special duck and cover actions by students with able-bodied partners.
- Students should be aware that evacuation by themselves may be difficult or impossible because of obstacles in their path or because electric-dependant machines may not function (i.e. elevator).
- Special pre-planned assistance must be provided and reviewed regularly. Classrooms should have emergency activity kits with items familiar to the students. Include students with disabilities in the selection of emergency evacuation devices.
- Mobility-impaired students should know how (through practice) to get in doorways, lock wheelchair wheels and cover head with book, arms or hands.
- Train all aides who are assigned to students with disabilities in evacuation procedures.

- Provide procedures for receiving students with disabilities at the pre-designated evacuation site.
- Remind parents and caregivers that they are responsible for updating emergency information with the schools.

IV. RESPONSE

Response is the immediate reaction to an emergency to save lives and protect property. Pro-active efforts in the Mitigation-Prevention and Preparedness phases will impact the quality of response. Responses will vary depending upon the severity and intensity of the event.

A. Leadership by District of Service

In an emergency, the site administrator has responsibility for the safety of all children on the site. The District of Service, rather than the District of Residence, assumes the leadership role for all students in an emergency.

B. Assess the Situation

- Determine the immediacy of the emergency.
- Remove anyone with respiratory complications from smoke and vapors immediately.
- If not in immediate danger, stay in place until staff personnel determine the nature of the situation.
- If trapped, get the attention of others by calling out or striking object together to make noise.

C. Announce the Emergency

- 1. To Alert Deaf and Hearing Impaired** – The primary goal is to effectively communicate the nature of the situation and direct them to the appropriate route of evacuation. Students with hearing impairments will most likely be able to follow the same exit route as those who can hear. Communicate with a notepad and pen, with simple, concise speech or with sign language. Regardless of the method of communication used, convey two key messages:
 - there is an emergency
 - how to exit
- 2. To Alert Blind or Visually Impaired** – Someone who is blind or visually impaired will generally be able to evacuate the same route as sighted students, but may need some assistance. Describe the nature the emergency and offer to guide him/her to the nearest emergency exit and evacuation assembly area.

- Touch the person on the elbow gently. Identify yourself and quickly explain the situation.
- Ask if the individual has any preferences regarding how to be guided.
- Clearly describe where you are going and any approaching obstacles or protruding objects which will require a change in your walking path or pattern.
- Be protective of your space as there may be many people using the same route to evacuate.

3. To Alert Cognitively or Emotionally Impaired – It is likely that students with cognitive or emotional impairments will be able to use the same evacuation routes as the other students. The challenge is to keep them calm as you exit. If there is a buddy or companion assistant, quickly describe the situation and how to involve him or her in the evacuation. Let the student know what is happening. Keep him/her reassured

D. Lockdown/Shelter-in-Place Strategies

- Set up screens/curtains for those needing privacy for emotional issues and personal hygiene.
- Use Go Kits for immediate necessities.
- Keep students away from windows and doors.
- Use the buddy system to provide comfort and reassurance.

E. Implement Evacuation

- Carry all medication, supplies, equipment and dietary needs with student, including the 72-hour disaster kit that has been prepared ahead of time for individual student needs;
- Ask the student how he/she would like to be assisted;
- Use the buddy system;
- Inform emergency personnel of intended destination and type of assistance needed. If unable to contact emergency personnel, ask others to make the notification for assistance;
- Move to designated evacuation area. The path should be unobstructed.
- Be careful of falling debris as you leave the building.
- Provide priority assistance to wheelchair users with electrical respirators. Evacuate mobility devices with the person if possible (i.e. crutches, wheel chairs, etc).

To Evacuate Persons Using Wheelchairs:

If the person wants to be moved in his/her chair, keep the following considerations in mind:

- Turn off the wheelchair's power before lifting.
 - Turn the wheelchair so it is lowered down the stairs backwards (person facing up the stairs), so the occupant cannot slip forward out of the chair and down the stairs.
-
- Powered wheelchairs have very heavy batteries; an evacuation chair for stairs may be needed with the powered chair to be retrieved later.
 - If a seatbelt is available, use it. If the person needs to be removed from his/her wheelchair for an evacuation, ask the following:
 - how he/she prefers to be moved from the chair;
 - whether pain or harm will result from moving extremities;
 - if any equipment is needed for immediate safety of life-support, e.g. backup generator for respirator.

F. Transport Students

Transportation is a well-established component of emergency response plans, and requires planning and detailed focus for children with access and functional needs. Special transport is not provided for students with Section 504 eligibility.

- **Maintain a transportation resources** list by type and availability, including vehicle accessibility and capacity information.
- **Develop procedures for the acquisition of additional accessible transportation equipment**, securement devices, supplies, and resources before a disaster.
- **Provide staff training**, including a review of procedures for transporting persons with a variety of assistance needs, as well as the transport of service animals.
- **Identify strategies for tracking individuals** who are evacuated. Information should include the passenger's name, point of origin, departure time, final destination, and arrival time.
- **Maintain a master list of drivers** by status and availability.
- **Provide drivers with an operational roster** to complete and maintain, at minimum, with the following information:
 - Name of driver
 - Driver's telephone number
 - Time departed staging area
 - Time arrived at sheltering location
 - Vehicle number Sheltering location
 - Trip mileage

- **Determine the appropriate transportation response** for persons unable to reach a pick up/drop off location or staging area on their own.
What entity will handle such needs, and what types of vehicles/equipment will be required? Check with the school district regarding the transportation contracts and agreements.
- **Account for all students** before transportation occurs and after arrival at the destination.
- **Transport all passengers** to the pre-designated evacuation destination by the safest route. Use alternative routes only as necessary.
- **Use buses.** Consider other modes of transportation only if buses are unable to get to the school quickly or are not available. Refer to the list of school-owned vehicles, staff vehicles and parent vehicles that are available.

G. Reassess Needs

Request additional support, if needed.

H. Other Considerations for Students with Disabilities Populations

- **Store** extra batteries for electric wheelchairs and hearing aids.
- **Lead** evacuees to a safe place with other teachers and staff.
- **Remain** with the student with disabilities after the evacuation.
- **Recognize** that the fine details are unique to each student;

IV. RECOVERY

The recovery phase is designed to assist students, teachers, staff and visitors to restore educational operations in school. Recovery is an ongoing process that includes not only the mental, emotional and physical healing process of students, teachers and staff, but also restoration of the physical assets of the school (buildings and grounds) to a safe and habitable environment.

A. Restoration

- **Account** for all the students, teachers, and staff.
- **Meet the medical needs.**
- **Conduct daily debriefing** for staff, responders, and others assisting in recovery.
- **Provide stress management support** during class time.
- **Discuss recovery**, what to do with students if they must remain on site for 2-3 days.
- **Communicate with parents**, guardians and the local community.
- **Conduct after-action briefing** to capture key lessons learned and recommendations for improvements to the school plan.

B. Supportive Services

- **Needs Assessment** – quickly identify needs and the support necessary to meet them.
- **Information** – provide important information on community resources that connect school families who need help with available services and assistance.
- **Language** – ensure that critical information is conveyed in a language appropriate for non-English speaking families that the standard media may not reach.
- **Transportation** – support the mobility needs with accessible transportation resources to disaster service areas.
- **Replacement Equipment** – support students with disabilities with the guidance to acquire replacement of vital personal equipment (e.g., crutches, hearing aids, wheelchairs,
- **Reassurance**

Experiencing a disaster can be overwhelming. Stress often exacerbates existing medical conditions and may alter thought and behavior. Reassurance is the key to helping children through a traumatic time. Support individuals with access and functional needs by providing verbal reassurance and information to help orient

them to new surroundings and new routines.

- **Make sure physical needs are addressed** and medical assistance is provided, as needed.
- **Reconnect students** with family and other support systems as early as possible.
- **Address concerns** about safety. Talk to each child at his or her developmental age, not chronological age. Use language the child understands.
- **Provide information through pictures** and allow children time to see, hear, talk and draw.
- **Expect some regression** (increase in problem behaviors).
- **Deal with inappropriate behaviors** calmly and consistently—Keep emotional equilibrium.
- **Minimize the disruption.** If the normal routine is unavoidably altered, create a new one.
- **Offer concrete/immediate solutions** to abstract problems. Use clear examples. Repeat responses patiently.

After the danger has passed, the school will be anxious to return to normal. Both people and resources are needed to speed recovery. The talents of individual with disabilities should not be underestimated. Every member of a community can provide some support.

APPENDIX A

School Emergency Evacuation Planning Checklist		
	YES	NO
Do you have a roster of your students with disabilities?		
Have you identified students with disabilities on site from other school districts?		
Have you identified the medical needs of your students with disabilities and their medication schedule?		
Have you walked the evacuation paths and exits looking for potential obstacles?		
Has an evacuation site been identified that is accessible to students and staff with disabilities?		
Is the primary evacuation path marked to clearly show the route?		
Is there sufficient oxygen for 72 hours?		
Have transportation needs been identified for the students with disabilities, such as special vans and buses for students?		
Do you have contract(s) in place with your transportation service provider(s) in case of an emergency?		
Is there a master list of bus drivers?		
Have you identified any necessary tools such as personal response plans, evacuation equipment or visual aids for students with disabilities?		
Have you identified communication needs with students who have limited English proficiency?		
Have you considered emergency accommodations for those with temporary disabilities?		
Have you encouraged a relationship with students and the local responders?		
Have you reviewed your plan with emergency responders?		
Have you identified an evacuation site that is accessible to students and staff with disabilities?		
Have you identified a secondary evacuation site?		
Has a "buddy system" been developed for each student?		
Have you identified all of your communication needs for your students with disabilities?		
Have you trained the staff on proper lifting techniques?		
Have staff, students and families been encouraged to provide 72 hour medications?		
Has evacuation route information been compiled and distributed to staff?

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at .

Safety Plan Vision

The Alameda Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful. The primary goal of the District is to help each student develop to the maximum of his/her capacity and function as a responsible member of a democratic society. When parents, students and staff are aware of our mutual responsibilities to keep our community safe, we can effectively promote positive student participation in all of our schools.

The School Site Emergency Plan is designed for use as a school resource for prevention/mitigation, preparedness, response, and recovery planning and training as well as functioning as a template for meeting the requirements for the annual Safety Plan Process under Senate Bill 187, Education Code Section 35294, Statutes of 1998, and the National Incident Management System. It is designed to be a living document that is updated as necessary to meet site, District, and community needs, forms, and/or requirements—therefore, it should be maintained in hard copy and electronic form.

This document is NOT intended to be a “grab and go” guide in an actual emergency.

Components of the Comprehensive School Safety Plan (EC 32281)

Will C. Wood Middle School Safety Committee

Allan Aquino, Kevin Blagrave, Yheng Carlisle, Connie Luong, Rob Picciotto, Romeo Ponsaran

Assessment of School Safety

Based on the 2023-2024 TFI, there were a number of office referrals resulting from behavior in the classroom as well as outdoors, the latter occurring especially during the mid-morning break and lunch. The most common infractions were inappropriate physical contact, unsafe behavior, and inappropriate language. We have continued to incorporate reteaching the 4 B's—Be Safe, Be Responsible, Be Respectful, and Be an Ally—periodically every trimester and after every long school break. To address the additional physical challenges of our temporary campus, we added a full-time campus supervisor to our staff this year. He has quickly become a trusted adult for many students as well as a reliable additional pair of eyes to keep our campus community safer. We have included a student in each grade level to our Culture and Climate Committee, which meets monthly, to support our goal of increasing student voice and agency at Wood. In addition to two site administrators and two counselors, our full-time Intervention Lead supports mediations and conflict resolution opportunities for our students to take responsibility for their impact on and to repair harm within our community. There continue to be incidents of vandalism on campus such as graffiti on exterior walls and missing ceiling tiles in student restrooms. We have addressed these issues by having a staff member stand outside the portable which houses the main student restrooms to deter this behavior as well as to periodically check the bathrooms for damage. Cameras were installed on site just before Winter Break, so the admin team is able to effectively monitor key locations around campus while indoors or off-campus.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

- Campus supervision before, during, and after school
- Cameras installed in key locations around campus
- Student support provider hired for 2024-2025
- Campus culture assemblies
- Regular reteaching of the “4 B’s”
- Counselor and Intervention Lead-led SEL groups & classroom visits
- District Wellness Survey
- Student clubs
- Community feedback surveys
- Staff PD (Restorative Practices)

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting Procedures

With concern for the total well-being of each student, employees of the district shall report known or suspected incidences of child abuse in accordance with state law and district regulations. Our employees cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

A. Definition of Child Abuse

"Child Abuse," as defined by law, pursuant to Penal Code 273 and 11165, includes:

1. Physical abuse resulting in a non-accidental physical injury.
2. Physical neglect, including both severe and general neglect, resulting in negligent treatment or maltreatment of a child.
3. Sexual abuse including both sexual assault and sexual exploitation.

4. Emotional abuse and emotional deprivation including willful cruelty or unjustifiable punishment.
5. Severe corporal punishment.

B. Legal Duty to Report

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, P.C. 11164. The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

Within the scope of his or her employment, any childcare custodian who has knowledge of, observes, or reasonably suspects a child is a victim of child abuse, shall report the known or suspected abuse to a child protective agency by telephone and written report. Additionally, any suspicion of mental suffering inflicted on a child where his or her well-being is endangered in any way, will also be reported.

"Mandated Reporters" are those people defined by law as "childcare custodians," "medical practitioners" and "non-medical practitioners" and include virtually all school employees.

(Penal Code 11165.7 and 11165.8) The following school personnel are required to report: teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care programs, preschool teachers, school psychologists, licensed nurses, counselors, para-educators instructional aides or other classified employees trained in child abuse reporting. Employees do not need to have their employer's permission to make a child abuse report.

"Child Protective Agencies" are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff's department, county welfare or juvenile probation department and child protective services (CPS).

"Reasonable Suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

3. Employees will report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual.
4. When two or more persons who are required to report and both have knowledge of suspected child abuse, and when there is agreement among them, the telephone report may be made by any one of them who is selected by mutual agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
5. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction. Any supervisor or administrator in violation (Section 11166) is guilty of an infraction punishable by a fine not to exceed five thousand dollars (\$5000).

C. Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. Any mandated reporter who fails to report an incident of known reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by fine of one thousand dollars (\$1000) or by both that fine and punishment. The mandated reporter may also be held civilly liable for damages of any injury to the child after a failure to report.

D. Reporting Procedures

The person who first observes or learns about the abuse is to complete the "Suspected Child Abuse Report" form (BCIA 8572) and call the Child Abuse Reporting phone number Call our hotline now at 510-259-1800, available 24 hours a day, 7 days a week or if it is an emergency call:

OR Immediately telephone the appropriate law enforcement agency (based upon where the abuse is suspected to have occurred). Jurisdiction, as to whether the county or the city responds, is determined by where the abuse took place.

a. City: Call the Alameda Police Department (510) 337-8340

3. Employees are not required to identify themselves to their employer when they make a child abuse report. If an employee wishes to waive his/her confidentiality rights he/she may wish to make photocopies of the "Suspected Child Abuse Report" form (SS8572) and forward a copy to the principal and to the Executive Director of Student and Family Support Services.

E. Victim Interviews

Upon request, a child protective agency representative may interview a suspected victim of child abuse, during school hours and on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. A staff member or volunteer aide selected by a child may decline to present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of Article 2.5 (Penal Code 11165 et seq.), a violation of which is punishable as specified by Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

F. Release of Child to Peace Officer or to a Child Protective Services Worker

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the principal or other school staff shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer to notify the parent/guardian of the situation

G. Staff Training

The Principal or designee shall provide training in child abuse identification and reporting for all certificated personnel, instructional and teacher aides, teacher assistants, para-educators and other classified employees. (Penal Code 11165.7) All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7). The absence of training does not excuse a mandated reporter from the duties imposed by the penal code.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. Regulatory Authority State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees. The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff. The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems. This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate. School Site Emergency Preparedness and Response Coordination Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

All School Staff:

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

Annually each principal shall:

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.

- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

Teachers:

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

School Office Managers or Designee:

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
- Routinely check that battery-operated equipment is in working condition. Directions for the Instructional Staff During a Declared Emergency

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site.

The ICS, as designated by the AUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- Control – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- Communication - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication is must be maintained between response persons, school staff, and the command team.
- Coordination - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

Adaptations for Students with Disabilities

Please attached Appendix - Emergency Plan For Students With Disabilities

Public Agency Use of School Buildings for Emergency Shelters

If the Superintendent declares a District emergency during the school day, the District has a clear statement of policy governing its actions.

Alameda Unified School District Policy is as follows:

IN CASE OF A DECLARED EMERGENCY BY THE SUPERINTENDENT DURING SCHOOL HOURS, ALL STUDENTS WILL BE REQUIRED TO REMAIN AT SCHOOL OR AN ALTERNATE, SAFE SITE UNDER THE SUPERVISION OF DISTRICT PERSONNEL:

1. Until regular dismissal time and then released only if it is considered safe, OR
2. Until released to an adult authorized by the parent or legal guardian whose name appears on District records.
 - a) If students are on their way to school they should proceed to school.
 - b) If students are on their way home from school they are to continue home.
3. To provide this supervision and care, Alameda Unified School District personnel will be utilized under Title 1, Division 4, Chapter 8 Government Code and other legal statutes. The statute states that all public employees are designated disaster service workers when an emergency is declared. The District Superintendent, or designee, has the legal authority to declare an emergency in this District. The authority also extends to Alameda County to declare an emergency and impress public employees into service as disaster service workers.
4. Alameda Unified School District encourages the utilization of a buddy system at District sites wherein staff responsibilities for specific emergency functions are assigned to pairs of employees who could, with approval of the Site Manager, carry on legally required supervision and care requirements while allowing emergency home visits to assure welfare of their own families.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913). However, suspension does not mean any of the following: (Education Code 48925)

- Reassignment to another education program or class at the same school where the student will receive continuing instruction for the length of day prescribed by the Governing Board for students of the same grade level.
- Referral to a certificated employee designated by the principal to advise students.

- Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee as provided in Education Code 48910. Removal from a particular class shall not occur more than once every five school days.

Referral means removal from classroom instruction for discipline reasons.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education Code 48925)

Day means a calendar day unless otherwise specifically provided. (Education Code 48925)

School day means a day upon which the schools of the district are in session or weekdays during the summer recess. (Education Code 48925)

Student includes a student's parent/guardian or legal counsel. (Education Code 48925)

Principal's designee means one or more administrators or, if there is not a second administrator at one school site, a certificated person specifically designated by the principal, in writing, to assist with disciplinary procedures. Only one such person may be designated at any time as the principal's primary designee, and only one such person may be designated as secondary designee for the school year. The names of such persons shall be on file in the principal's office. (Education Code 48911)

School property, for the purposes described in Education Code 48900, includes, but is not limited to, electronic files and databases. (Education Code 48900(u))

The District database is the Aeries Student Information System.

Restorative Practices (RP) is a continuum of practices by which schools build community through circles and other activities, where students learn to use affective statements and the process where all stakeholders affected by an injustice have an opportunity to discuss how they have been affected by the injustice and to decide what should be done to repair the harm.

Positive Behavioral Interventions and Supports (PBIS) is a framework for providing a range of systemic and individualized strategies for achieving important academic and behavioral outcomes while preventing problem behaviors.

Social and Emotional Learning (SEL) is a process through which children and adults develop the fundamental skills for life effectiveness. The five SEL competencies are: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

Multi Tiered System of Support (MTSS) is a way of organizing instruction and intervention to help all students. The goal of the multi-tiered framework is to provide high-quality instruction and supports based on student need. This framework helps educators by providing information (data) to identify students needing additional support (academic and behavioral) and also identify students who may need special education services. MTSS includes three levels (or tiers) of instruction. Each tier has a set of evidence-based practices to meet the instructional goals.

Tier 1

For MTSS, a school must first establish its Tier 1 or universal supports. Universal supports are the instructional practices that help all students in a school. Once the universal supports are in place, staff can use assessment data to determine which students need additional supports.

Tiers 2 and 3

The intensity and duration of supports increase for Tiers 2 and 3. The appropriate level of support for each student is determined by assessment data.

Grounds for Suspension and Expulsion

The following is a list of grounds for which suspension and expulsion may be permitted or shall be imposed subject to the restrictions and requirements herein:

- Caused, attempted to cause, or threatened to cause physical injury to another person or willfully used force or violence upon another person, except in self-defense (Education Code 48900(a))
- A student who aids or abets the infliction or attempted infliction of physical injury on another person, as defined in Penal Code 31, may be suspended, but not expelled. However, such a student may be suspended or expelled pursuant to Education Code 48900(a) when he/she has been adjudged by a juvenile court to have committed, as an aider or abettor, a crime of physical violence in which the victim suffered great or serious bodily injury. (Education Code 48900(t))
- Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object, unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the principal or designee's concurrence (Education Code 48900(b))
- Unlawfully possessed, used, sold, otherwise furnished, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind (Education Code 48900(c))
- Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented same as such controlled substance, alcoholic beverage, or intoxicant (Education Code 48900(d))
- Committed or attempted to commit robbery or extortion (Education Code 48900(e))
- Caused or attempted to cause damage to school property or private property (Education Code 48900(f))
- Stole or attempted to steal school property or private property (Education Code 48900(g))
- Possessed or used tobacco or products containing tobacco or nicotine products, including, but not limited to, cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel, except that this restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))

- Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))
- Unlawfully possessed, offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5 (Education Code 48900(j))

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel (“disruption and willful defiance”) and no student in TK-12 may be expelled for willful disruption or defiance.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August 2019 and January 2020. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance by July 1, 2019, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

- Knowingly received stolen school property or private property (Education Code 48900(l))
- Possessed an imitation firearm (Education Code 48900(m))
- Imitation firearm means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))
- Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committed a sexual battery as defined in Penal Code 243.4 (Education Code 48900(n))
- Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness (Education Code 48900(o))
- Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma (Education Code 48900(p))
- Engaged in, or attempted to engage in, hazing (Education Code 48900(q))

Hazing means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. Hazing does not include athletic events or school-sanctioned events.

- Engaged in an act of bullying (Education Code 48900(r))

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to himself/herself or his/her property; cause the student to experience a substantially detrimental effect on his/her physical or mental health; or cause the student to experience substantial interferences with his/her academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying shall include any act of sexual harassment, hate violence, or harassment, threat, or intimidation, as defined in Education Code 48900.2, 48900.3, or 48900.4 (items #20-22 below), that has any of the effects described above on a reasonable student.

Electronic act means the transmission of a communication, including, but not limited to, a message, text, sound, image, or post on a social network Internet web site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. A post on a social network Internet web site shall include, but is not limited to, the posting or creation of a “burn page” or the creation of a credible impersonation or false profile for the purpose of causing a reasonable student any of the effects of bullying described above.

Reasonable student means a student, including, but not limited to, a student who has been identified as a student with a disability, who exercises average care, skill, and judgment in conduct for a person of his/her age, or for a person of his/her age with his/her disability. (Education Code 48900(r))

- Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

A terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death or great bodily injury to another person or property damage in excess of \$1,000, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out. (Education Code 48900.7)

A student in grades 4-12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

- Committed sexual harassment as defined in Education Code 212.5 (Education Code 48900.2)

Sexual harassment means conduct which, when considered from the perspective of a reasonable person of the same gender as the victim, is sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile, or offensive educational environment. (Education Code 212.5, 48900.2)

- Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233 (Education Code 48900.3)

Hate violence means any act punishable under Penal Code 422.6, 422.7, or 422.75. Such acts include injuring or intimidating a victim, interfering with the exercise of a victim's civil rights, or damaging a victim's property because of the victim's race, ethnicity, religion, nationality, disability, gender, gender identity, gender expression, or sexual orientation; a perception of the presence of any of those characteristics in the victim; or the victim's association with a person or group with one or more of those actual or perceived characteristics. (Education Code 233; Penal Code 422.55)

- Intentionally engaged in harassment, threats, or intimidation against district personnel or students that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of school personnel or students by creating an intimidating or hostile educational environment (Education Code 48900.4)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school or within any other school district, at any time, including, but not limited to, the following: (Education Code 48900(s))

- While on school grounds
- While going to or coming from school
- During the lunch period, whether on or off the school campus
- During, going to, or coming from a school-sponsored activity

Teacher-Initiated Suspensions Pursuant to Section 48910

The Board desires the adoption of a Multi-Tiered System of Support which includes Positive Behavior Intervention Supports to facilitate a consistent approach for positive, pro-social behavior management (BP 5144). The District expects teachers to attempt interventions prior to initiating a suspension pursuant to Section 48910 except where suspension for a first offense is permitted or mandated by law, as described on pp. 8-9 below.

When removing a student from his/her class pursuant to Section 48910, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, he/she shall be appropriately supervised during the class periods from which he/she has been removed. (Education Code 48910)

The site administrator or designee shall ensure that site staff completed the following:

- The teacher completed the Teacher-Initiated Pupil Suspension Report and, starting in the 2019-20 school year, the office referral form.

- The teacher contacted the parent/guardian to request their participation in a parent-teacher conference regarding the suspension within 24 hours. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)
- The site administrator or designee reviewed the office referral form and completed the in-school suspension form if warranted.
- The site administrator or designee contacted parent/guardian regarding the suspension.
- The site administrator or designee recorded the classroom interventions and referral in the District database.

A student suspended from class pursuant to Section 48910 shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class pursuant to Section 48910 shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is suspended pursuant to Section 48910 shall require the student to complete any assignments and tests missed during the suspension. The school will monitor and address the educational needs of the student that arise due to the loss of instructional time. (Education Code 48913)

When suspending a student in Grades TK-3 from class for committing an obscene act or engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

When suspending a student in Grades 4-12 from class for committing an obscene act or engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

When suspending a student in any grade from class for committing an obscene act, engaging in habitual profanity or vulgarity, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1) The teacher of the class may also require any parent/guardian who lives with the student to attend a portion of the school day in the class to assist in resolving classroom behavior problems.

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

The notice shall specify that the attendance may be on either the date the student is scheduled to return to class or within one week thereafter.

This notice shall also:

- Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date
- Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

Suspensions by Superintendent, Principal, or Designee

The Board does not support a zero tolerance approach to discipline except where mandated by law. Schools may not adopt zero tolerance policies that conflict with District discipline policies. The Board desires that schools will adopt, engage, and implement positive approaches to addressing problem behavior prior to initiating the suspension of a student.

Suspension for a first time offense is limited to certain serious offenses (listed below in permissible and mandatory categories) or where it can be documented that the presence of a student causes a danger to persons.

Defiance

As provided in California Education Code section 48900(k), no student enrolled in grades T-Kindergarten through third grade may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel (“disruption and willful defiance”) and no student regardless of grade may be expelled for willful defiance or disruption.

Effective July 1, 2019, no student enrolled in grades T-Kindergarten through twelve (TK-12) grades may be suspended or expelled for disrupting school activities or willfully defying the authority of school personnel. Suspension and expulsion shall not be imposed for a violation of Education Code section 48900(k), including disruption of school activities or willful defiance. The District expects schools to develop appropriate interventions, for example, behavioral plans, restorative circles, or SEL groups for students who engage in a pattern of defiant behavior.

Defiance is when a student continues to disobey a school official, teacher, or administrator after having been taught the rules and expectations of the school and the student displays behavior that directly interferes with the rights of others to learn.

The Board will review data regarding suspensions for defiance in Grades 4 through 12 in August and January. If, based on review of the data, it appears further steps should be undertaken to meet the goal of eliminating suspensions for defiance, the Board will direct the Superintendent to implement such additional measures to achieve the goal of no suspensions for defiance by July 1, 2020.

Discipline and Intervention Matrix for Administrators

Attached to this Administrative Regulation is the discipline and intervention matrix aligned to the District's Multi-Tiered System of Support framework that models a progressive and holistic approach to discipline. As provided in the Board Policy, each school is responsible for adopting strategies, programs, and interventions within this framework to facilitate a positive approach to behavior management. Even if suspension is appropriate, administrators must first consider whether other interventions should be used.

Except where suspension for a first offense is permitted or mandatory (as described above), in-school and out-of-school suspension and other sanctions that result in a student's loss of instruction shall only be imposed when the principal or designee has determined that other means of correction that are consistent with District policies and procedures have failed to bring about proper conduct. (Education Code 48900.5)

As described in AR 5144, interventions and other alternatives to suspension should be attempted and evaluated prior to referral from the classroom. In addition, the principal or designee shall document the other means of correction used and retain them in the student's record. (Education Code 48900.5)

The Principal or designee shall complete the suspension form and record the suspension in the District's database.

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year unless, for purposes of adjustment, the student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48911, 48912)

The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

Informal Conference: Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, presented with the evidence against him/her, and given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

Administrative Actions: All requests for student suspension are to be processed by the principal or designee. All suspensions shall be recorded in the District database. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

Although the parent/guardian is required to respond without delay to a request for a conference about his/her child's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied readmission solely because the parent/guardian failed to attend the conference. (Education Code 48911)

Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or Principal may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911)

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or Principal determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

In addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct his/her behavior and keep him/her in school.

The student shall be responsible for contacting the school to receive assignments to be completed during the period of the suspension. The school shall make available all assignments and tests that the student will miss while suspended.

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspensions by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and his/her parent/guardian with written notice. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

Supervised Suspension Classroom

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to a supervised suspension classroom in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

The supervised suspension classroom shall be staffed in accordance with law and by certificated employees.

The student shall have access to appropriate counseling services.

The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.

The student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom except where otherwise set out in the student's Individualized Education Program (IEP) or Section 504 plan. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

The Principal or designee shall complete the in-school suspension form and record the suspension in the District's database.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Involuntary Transfer

The District may not involuntarily transfer a student in Grades TK- 3rd grade to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Effective July 1, 2019, the District may not involuntarily transfer a student to another school based on a finding of disruption of school activities or willful defiance of the authority of school personnel (California Education Code section 48900(k)).

Involuntary transfers may only occur following a recommendation for expulsion and after a hearing before the District's Disciplinary Hearing Panel (DHP) consistent with the requirements in Education Code section 48918 and the notice and hearing procedures set forth below for expulsions. In addition, an involuntary transfer to a continuation school must be made pursuant to Education Code section 48432.5.

Expulsions

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion" (see page 13). (Education Code 48915)

For all other grounds listed under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

The Board shall expel, as required by law, any student found to have committed any offense listed below under "Mandatory Recommendation and Mandatory Expulsion." (Education Code 48915)

For all other grounds listed above under "Grounds for Suspension and Expulsion," the Board shall order a student expelled upon the recommendation of the Superintendent, principal, or designee, only if the Board makes a finding of either or both of the following: (Education Code 48915(b) and (e))

- That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
- That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Recommendation for Expulsion Expected Unless It Is Not Appropriate or Alternative Means of Correction Would Address the Conduct

Unless the Superintendent, principal, or designee determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, he/she shall recommend a student's expulsion for any of the following acts: (Education Code 48915(a))

- Causing serious physical injury to another person, except in self-defense
- Possession of any knife as defined in Education Code 48915(g), explosive, or other dangerous object of no reasonable use to the student
- Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis or (b) the student's possession of over-the-counter medication for his/her use or other medication prescribed for him/her by a physician
- Robbery or extortion
- Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Mandatory Recommendation and Mandatory Expulsion

The Superintendent, principal, or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

Possessing, as verified by a district employee, selling, or otherwise furnishing a firearm.

Possession of an imitation firearm, as defined in Education Code 48900(m), shall not be regarded as an offense requiring a mandatory recommendation for expulsion and mandatory expulsion. However, an administrator shall have discretion on a case-by-case basis to recommend expulsion for the possession of an imitation firearm.

Brandishing a knife as defined in Education Code 48915(g) at another person

Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058

Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4

Possessing an explosive as defined in 18 USC 921

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether he/she should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed one of the acts listed above under "Grounds for Suspension and Expulsion." (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education

Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48918.5) Receive five days' notice of his/her scheduled testimony at the hearing

Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies

Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

The rights of a complaining witness are further outlined in Administrative Regulation 5145.7 (Sexual Harassment).

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

- The date and place of the hearing.
- A statement of the specific facts, charges, and offense upon which the proposed expulsion is based.
- A copy of district disciplinary rules which relate to the alleged violation.
- Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).

- The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Nonattorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

- The right to inspect and obtain copies of all documents to be used at the hearing.
- The opportunity to confront and question all witnesses who testify at the hearing.
- The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth

At least 10 days prior to a hearing to determine if a student who is a foster youth as defined under Education Code 48853.5 should be expelled for an offense not requiring a mandatory recommendation for expulsion, the Superintendent or designee shall notify the student's attorney and a representative of an appropriate county child welfare agency. If the hearing is pursuant to an offense requiring a mandatory expulsion recommendation, the Superintendent or designee may provide the same notification. The notice shall be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public unless another student's privacy rights would be violated. (Education Code 48918(c))

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether or not the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))

Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- Any complaining witness shall be given five days' notice before being called to testify.
- Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during his/her testimony.
- Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.

Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

The person conducting the hearing may:

- Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
- Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours
- Permit one of the support persons to accompany the complaining witness to the witness stand

Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue its decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

- Periodic review, as well as assessment at the time of review, for readmission
- Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

- The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion" (Education Code 48900.8)
- The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian (Education Code 48916)
- Notice of the right to appeal the expulsion to the County Board of Education (Education Code 48918)
- Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
- Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

- The student's pattern of behavior
- The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

- The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
- During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
- The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
- When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)
- Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)

The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of his/her status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))

Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

The student shall submit a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board. The district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance. In addition, law enforcement authorities shall be notified regarding any acts by students regarding the possession, sale, or furnishment of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

- Appropriately prepared to accommodate students who exhibit discipline problems

- Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site
- Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for acts described in items #6-13 and #20-22 under "Grounds for Suspension and Expulsion" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

- On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
- The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
- The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
- If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.

The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

- The number of students recommended for expulsion
- The specific grounds for each recommended expulsion
- Whether the student was subsequently expelled
- Whether the expulsion order was suspended
- The type of referral made after the expulsion

- The disposition of the student after the end of the expulsion period

Public Reporting of Discipline Data

The Superintendent or designee shall ensure that the following data is publicly available on the District's public website twice annually, within 60 days after the completion of each semester:

- The aggregate number and rates of office referrals, teacher suspensions, supervised in-school and out-of-school suspensions, involuntary transfers, expulsion referrals, expulsions, on-campus citations, school-based arrests, and four-year graduation and drop-out rates, disaggregated by all subgroups, including race, gender, ethnicity, English Language Learner status, socio-economic status, foster youth, homeless youth, and disability and by offense for the district and by school-site.
- The number of instructional days and ADA funding lost to suspensions, transfers, and expulsions.
- The school sites to which students were transferred after the Disciplinary Review Hearing procedure or through any involuntary transfer process, whether they enrolled subsequently, and the outcomes for such students, including, but not limited to, graduation and drop-out rates.

In reporting such data, the privacy of individual students and teachers shall be protected. Data will not be disaggregated in any manner that could reveal student identity to the public or to knowledgeable members of the school community. The data shall be reported for the district as a whole and for each school-site.

The procedures shall also include requirements that appropriate district and school officials regularly review this data and take action to address disparities or disproportionate use of punitive discipline measures for particular subgroups.

Expungement of Student Disciplinary Records

As provided in Board Policy 5144.3, a student, parent, guardian, appointed advocate on behalf of the student, or Superintendent on behalf of a student may apply for expungement of student disciplines record which meet the criteria set forth in BP 5144.3.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Notice Regarding Student Offenses

When a student commits certain offenses that may endanger staff or others, the following procedures shall be implemented to notify staff members as appropriate:

Acts That Are Grounds for Suspension or Expulsion

The Superintendent or designee shall inform the teacher(s) of each student who, during the previous three school years, has engaged in or is reasonably suspected to have engaged in any act, except the possession or use of tobacco products, that would constitute a ground for suspension or expulsion as specified in AR 5144.1 - Suspension and Expulsion/Due Process. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Upon receiving a transfer student's record regarding acts committed by the student that resulted in suspension or expulsion, the Superintendent or designee shall inform the student's teacher(s) that the student was suspended from school or expelled from the former district and of the act that resulted in the suspension or expulsion. (Education Code 48201)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 48201, 49079)

Offenses Reported to the District by a Court

When informed by a court that a minor student has been found by the court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall expeditiously notify the school principal. (Welfare and Institutions Code 827)

The principal shall expeditiously disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress and to any teacher or administrator directly supervising or reporting on the student's behavior or progress whom the principal thinks may need the information in order to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor, or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

When a student is removed from school as a result of an offense, the Superintendent shall hold the court's information in a separate confidential file until the student is returned to the district. If the student is returned to a different district, the Superintendent shall transmit the information provided by the student's parole or probation officer to the superintendent of the new district of attendance. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

In order to maintain confidentiality when providing information about student offenses to a counselor or teacher, the principal or designee shall send the staff member a written notification that a student has committed an offense that requires review of a student's file in the school office. This notice shall not name or otherwise identify the student. The staff member shall initial the notification and shall also initial the student's file when reviewing it in the school office.

(E) Sexual Harassment Policies (EC 212.6 [b])

Definitions

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

- Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
- Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.
- The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment.

- Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district. For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)
- A district employee conditioning the provision of a district aid, benefit, or service on the student's participation in unwelcome sexual conduct
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity

Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment

Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

- Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
- Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
- Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Title IX Coordinator/Compliance Officer

The district designates the following individual(s) as the responsible employee(s) to coordinate its efforts to comply with Title IX of the Education Amendments of 1972 in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures, as well as to oversee, investigate, and resolve sexual harassment complaints processed under AR 4030 - Nondiscrimination in Employment.

The Title IX Coordinator(s) may be contacted at:

Asst. Superintendent of Educational Services
2060 Challenger Drive
Alameda, CA 94501
(510) 337-7095
kzazo@alamedaunified.org

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (Government Code 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

- Information and practical guidance regarding federal and state laws concerning the prohibition, prevention, and correction of sexual harassment
- The types of conduct that constitute sexual harassment
- Remedies available for victims in civil actions, and potential employer/individual exposure/liability

- Strategies to prevent harassment in the workplace
- Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
- Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
- The limited confidentiality of the complaint process
- Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
- Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
- What to do if the supervisor is personally accused of harassment
- The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed

Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to Government Code 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious.

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications

The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

- Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)
- Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (Education Code 231.5)
- Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
- Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)
- Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (Government Code 12950)

- The illegality of sexual harassment
- The definition of sexual harassment under applicable state and federal law
- A description of sexual harassment, with examples
- The district's complaint process available to the employee
- The legal remedies and complaint process available through DFEH and the Equal Employment Opportunity Commission (EEOC)
- Directions on how to contact DFEH and the EEOC

The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC. In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (Government Code 12950)

Complaint Procedures

All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Basic Principles:

All students are encouraged to dress in a manner that is comfortable and conducive to an active school day.

Students should be able to wear clothing without fear of or actual unnecessary discipline or body shaming.

The student dress code should serve to support all students to develop a body-positive self-image.

All items listed in the "must wear" and "may wear" categories below must meet these basic principles.

Students MUST Wear:

- Top
- Bottom
- Shoes

Clothing that covers specific body parts (genitals, buttocks, and areolae/nipples) with opaque material. Courses or specific class activities that include attire as part of the curriculum may include assignment-specific dress, but should not focus on covering students' bodies or promoting culturally-specific attire. Activity specific shoe requirements are permitted (Examples include but are not limited to physical education and shop class).

Students MAY Choose to Wear:

- Sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)
- Hats, including religious headwear
- Hooded shirts/jackets (over head is allowed)*

Teachers may direct students to remove/adjust the position of hats/hoods over the head in class during the administration of a test/exam, to address headphone/earbud use issues, or to enable visual identification of a student's face. This does NOT apply to any headwear worn for religious reasons.

Students CANNOT Wear:

- Clothing that includes violent language or images
- Clothing that includes images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same
- Clothing that includes hate speech, profanity, pornography
- Clothing that includes images or language that create a hostile or intimidating environment based on any protected class
- Visible underwear or bathing suits of similar design - Visible waistbands or straps on undergarments worn under other clothing are not a violation
- Helmets, hoods, or other headgear that obscures a student's identity (except as a religious observance).

A student's face must be clearly visible when taking their school photo for identification purposes. This may require the removal of a hood and/or hat. No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Training and Enforcement:

- All staff should be trained to understand the purpose/spirit of the code, the actual code, and how to enforce with the least impact on student learning and self-confidence.
- All staff must enforce the district dress code consistently, once it is adopted. All staff should not have discretion to vary the requirements in ways that lead to discriminatory enforcement.
- All staff should be trained and able to use student/body-positive language to explain the code and to address code violations.

- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.
- Enforcement for students should be limited to safety and non-violence/non-discrimination and will not include messages based on body maturity.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should never be removed from a classroom for a dress code violation unless they are violating the 'Students CANNOT Wear' and 'Students MUST Wear' sections of the dress code. Loss of class time should be avoided or kept to a minimum.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. Students should be presented with a variety of options to rectify the situation. This could include but is not limited to: personal on-site clothing, school-offered clothing, and delivery of alternate clothing.
- Parents/guardians should never be called during the school day to bring alternative clothing for the student to wear for the remainder of the day unless by student request.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring/commenting on straps, skirt length, or cleavage, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Evaluation:

The Superintendent or designee shall annually review the effectiveness of this policy and determine, as appropriate, if any further review or revision is required.

Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the Incident Commander, will carry out the initial response actions delineated in the Emergency Preparedness and Crisis Response Plan. In consultation with members of the Incident Command Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency. Incident Command Team members will immediately assume their designated response duties as activated by the Incident Commander. The Disaster Response Officer will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. When a decision is made to evacuate, the Assembly /Shelter and Care Team leader will immediately report to the assembly area and inspect the area for hazards. The Assembly /Shelter and Care Team leader will notify the Disaster Response Officer

immediately if the area is safe. If not, the Assembly /Shelter and Care Team will advise that the evacuation be done to the alternate assembly location. This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's Preparedness and Crisis Response REMS packet. If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: Return to previous class
3. Upon exit lock door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: move to nearest evacuation area and assist
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. List missing students on Share 911
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be PA announcement/bell
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area. ALL students and staff must report to the assembly area and remain there until the Incident Command Team, via the Assembly/Shelter and Care Team, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures as outlined in the site's Preparedness and Crisis Response Cliff Notes. This will not be done unless it is authorized by the Incident Command Team. Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis Response Cliff Notes.. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly /Shelter and Care Team as outlined in the site's Preparedness and Crisis REMS packet.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated Security/Traffic response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the Emergency Preparedness and Crisis Response Plan.

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees. Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

AUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete data confirmation each year and update their emergency contacts. In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, Emergency Cards shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the Emergency Student List or Emergency Cards and Parents or others must check with this school's Student Release team at the emergency Student Release Location prior to pick up of their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from Incident Commander via Student Release team.
2. Incident Command will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon Student Release team directive.
3. Students will be released only to authorized adults listed on the Emergency Card or Emergency Student List. Adults picking up students must sign Student Release Log and indicate destination. Unless otherwise directed by Incident Commander via Student Release officer, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
4. Students may go home with people listed on Emergency Card or Emergency Student List if parent can't be reached.
5. Periodically, as students are released, remaining students will be consolidated.
7. Teacher takes attendance after each consolidation, informs Assembly/Shelter and Care team as well as the Student Release team, and keeps all documentation.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Component I: The Social Climate, People, and Programs

Element:

Reinforcing campus behavior norms to align with the 4 B's: Be Safe, Be Responsible, Be Respectful, and Be an Ally

Opportunity for Improvement:

Goal: Improve campus climate and culture

Objectives	Action Steps	Resources	Lead Person	Evaluation
Decreasing inappropriate student behavior	Regularly reteach the 4 Bs	Culture & Climate Committee, Teachers	Counselors (Culture & Climate Committee Co-Leads)	Number of office referrals
Build Beaver Bucks as an incentive	Develop rewards for earning Beaver Bucks (front of the lunch line, dance tickets, items at Student Store)	Leadership Teacher, Dollar Store, Amazon.com	LeadershipTeacher	Regular tallies of Beaver Bucks distributed
Grade-level assemblies	Schedule assemblies after each trimester; run student grade and citizenship reports; elicit nominations from teachers of students who demonstrate the 4 B's	Aeries, certificates, small prizes	Counselors	Student grade and attendance data; feedback from student members of Culture & Climate Committee

Component:

Component II: Physical Environment

Element:

Increase overall campus safety

Opportunity for Improvement:

Goal: Decrease number of physical altercations and incidents of bullying

Objectives	Action Steps	Resources	Lead Person	Evaluation
Ensure consistent and thorough supervision of the campus	Create a rotating staff supervision schedule (before, during, and after school)	Teachers, Student Support Provider/Campus Supervisor, Assistant Principal	Assistant Principal	Staff attendance during supervision
Provide additional outdoor supervision during class time, break, and lunch	Hire additional campus supervisor	AUSD Human Resources Department	Principal	Number of serious incidents on campus; admin observational data
Eliminate negative influence of cell phones on students behavior	Communicate new no-cell phone policy ahead of time to students, family, and staff; regulate policy with fidelity	Admin team, teachers, office staff	Admin team	Number of cellphones confiscated each trimester; student, family, and staff input

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Will C. Wood Middle School Student Conduct Code

ALAMEDA UNIFIED SCHOOL DISTRICT DISCIPLINE AND INTERVENTION PROTOCOL

Alameda Unified School District is committed to creating a safe and positive school culture in which all students feel included, supported, and respected. We want to help eliminate inequality in the use of punitive consequences and provide each child with excellent teachers who are equipped to promote academic and social emotional growth in all students. AUSD takes a positive approach to student behavior and the use of restorative practices to minimize the need for punitive consequences and maximize instructional time for every student. We recognize the importance of developing the social and emotional health of all youth and adults in our organization.

The following chart indicates the types of disciplinary action that may apply to each type of infraction. In each instance, an opportunity to teach appropriate behavior through the use of intervention, restorative practices and a corrective action is stated. Each situation or violation involving student conduct should be individualized and the least punitive action based on the violation should be taken. The administrator shall, however, determine whether a specific infraction warrants the corrective action described on the chart. Corrective action taken by the administrator shall take place after progressive discipline interventions by the school fail to bring about proper conduct. These corrective measures are intended to assist in teaching appropriateness and responsibility, while maintaining consistent student discipline on campus.

See Link to discipline matrix:

Conduct Code Procedures

(K) Hate Crime Reporting Procedures and Policies

Hate-motivated behavior is any behavior intended to cause emotional suffering, physical injury, or property damage through intimidation, harassment, bigoted slurs or epithets, force or threat of force, or vandalism motivated in part or in whole by bias or hostility toward the victim's real or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55.

The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents in a timely manner when they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote an environment where diversity is celebrated and hate-motivated behavior is not tolerated. Such collaborative efforts shall focus on the development of effective prevention strategies and response plans, provision of assistance to students affected by hate-motivated behavior, and/or education of students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that:

1. Includes the development of social-emotional learning
2. Promotes an understanding, awareness, appreciation, and respect for human rights, human relations, diversity, and acceptance in a multicultural society
3. Explains the harm and dangers of explicit and implicit biases

4. Discourages discriminatory attitudes and practices
5. Provides strategies to manage conflicts constructively

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate motivated behavior and to students who exhibit such behavior.

When appropriate, students who engage in hate-motivated behavior shall be disciplined.

The Superintendent or designee shall provide staff with training that:

1. Promotes an understanding of diversity, equity, and inclusion
2. Discourages the development of discriminatory attitudes and practices
3. Includes social-emotional learning and nondiscriminatory instructional and counseling methods
4. Supports the prevention, recognition, and response to hate-motivated behavior
5. Raises the awareness and sensitivity of staff to potentially prejudicial and discriminatory behavior
6. Includes effective enforcement of rules for appropriate student conduct

Employees who engage in hate-motivated behavior shall be subject to disciplinary action, up to and including dismissal.

Rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident shall be provided to students, staff, and parents/guardians.

This policy shall be posted in a prominent location on the district's website in a manner that is readily and easily accessible to parents/guardians and students. (Education Code 234.6)

Complaints

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, the staff member shall also contact law enforcement.

A student or parent/guardian who believes the student is a victim of hate-motivated behavior is encouraged to report the incident to a teacher, the principal, the district's compliance officer, or other staff member.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures or other applicable procedure. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

(J) Procedures to Prepare for Active Shooters

When responding to a situation that requires our school to go into lockdown (this may include, but is not limited to, an active shooter in the building), the ALICE (Alert, Lockdown, Inform, Counter, Evacuate) protocol will be followed.

ALERT

Purpose: To use clear, concise language to indicate presence and location of active shooter or other harmful individual.

Indicate lockdown and the harmful presence and/or location of threat. For example, “LOCKDOWN, There is an active shooter in the Computer Lab,” or “LOCKDOWN, an armed gunman is walking through the first floor long hallway.”

Anyone can alert the school community to such a situation. Do not wait for or rely on Administration or the front office staff to make the announcement. If a staff or faculty member undoubtedly sees or is notified of a harmful individual inside the school building, he or she has the authority to alert the rest of the school community of a lockdown. Some ways to alert include: the PA system, Using the classroom phone to activate LOCKDOWN, yelling, using share 911. Faculty and staff must use any means available to them to alert the school community and to spread the word. This may be a team effort where a group of individuals work together to inform everyone. If the opportunity to escape presents itself, you should do so and report to the predetermined Rally Point.

LOCKDOWN

Purpose: To allow for an aggressive use of current technology and procedures.

A traditional lockdown procedure is the first best option when in a high-risk area (or near the harmful individual). If you do not know if you are in a high-risk area, assume you are high risk and proceed to lockdown. If remaining in lockdown remains the best option, all members of the school community should work together to protect themselves.

First, close and lock classroom doors. Use belt or backpack strap to secure door handle if possible.

Create a barricade between you and students in the classroom and the intruder on the outside; use desks, chairs, shelves, cabinets and other pieces of furniture to block entry and to provide more time for survival (have smaller items near at hand in event intruder enters the room)

Gather in the area furthest from the entry point to the room; greater distance means greater safety.

Taking attendance and maintaining order are not the priority.

INFORM

Purpose: To continually communicate the shooter’s whereabouts using direct and clear language. (Use Share 911 and the PA system)

By communicating with the school community, all members can make well-informed judgment calls and can be aggressive in protecting themselves. Students, faculty and staff should use every opportunity to alert others and to communicate the whereabouts of the harmful individual.

The use of share 911, phones (school or cell), yelling, and PA system are encouraged to communicate the whereabouts and will keep the intruder off balance. Working together to make informed decisions will put the intruder at a disadvantage.

COUNTER

Purpose: To apply skills to distract, confuse and gain control.

Counter is an absolute last resort. If one finds himself in close proximity to the intruder (no chance to flee or safely get away), he should apply the following counter movements to increase chances of survival:

- Throw objects at the intruder
- Distract the intruder by noise and/or movement
- Run away in a zig zag pattern
- Swarm the intruder
- Flight or fight but do not freeze
- Turn chaos into an advantage
- Use body weight and gravity to gain control

EVACUATE

Purpose: To remove as many people as possible from the danger zone to minimize targets of opportunity. If you know the intruder's whereabouts and you are not in a high-risk area, you should Evacuate to the school's Rally Point. Only people on the first floor should exit through the windows if necessary. People on the 2nd and 3rd floors should not evacuate through windows as this may cause harm and use the safest stairwell then exit the school to the Rally Point.

REUNIFICATION

Purpose: To reunify students with their parent/guardians in a safe location

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions:

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

- Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
- Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
- Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public

- Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying:

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

- Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate
- Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
- Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously
- Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias
- Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development:

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

- Discuss the diversity of the student body and school community, including their varying immigration experiences
- Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
- Identify the signs of bullying or harassing behavior
- Take immediate corrective action when bullying is observed

- Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction:

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints:

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions:

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate. (Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Opioid Prevention and Life-Saving Response Procedures

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Will C. Wood Middle School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

SITE ORGANIZATION DURING A DECLARED EMERGENCY COMMAND POST PERSONNEL AND DUTIES

If notified of a Declared Emergency from the Superintendent's Office, OR if the site suffers a severe disaster, the Site Manager shall immediately implement the plans and procedures in the Site Emergency Plan.

The Site Manager or Incident Commander shall:

- A. Activate alarm/Broadcast Alert on Share911 and PA to notify staff
- B. Activate Command Post and 2-way radio
- C. Activate Emergency Teams
- D. Assess total school situation
- E. Make initial site assessment report on Share911 to District Emergency Operations Center.
- F. Check to see that Site Emergency Teams are operating
- G. Assign messengers to needed areas
- H. Request help from 911 or Emergency Operations Center as required
- I. Secure information from Emergency Teams Update Site Status Reports - Report to the Emergency Operations Center
- J. Reassign team members to other duties as required when they finish initial assignment duties
- K. Personally address these items:
 - 1. Is campus secure?
 - 3. Are utilities off or secure?
 - 4. Are signs directing adults to release area up?
 - 5. Are traffic controllers needed?
 - 6. Is First Aid Center functioning?
 - 7. Have buildings been searched for victims?

8. Is the student release program set up and operational?

Logistics Chief: The Site Office Manager shall:

A. Report immediately to the Command Post with:

1. Master keys
2. Current roster of students and staff
3. Emergency forms and documents
4. Office supplies to assist unit leads

B. Assume responsibilities as directed by Site Manager

The Site Clerical Staff shall:

A. Team up with other personnel as a member of a Site Emergency Team, otherwise:

B. Report to the Site Command Post and assume responsibilities as directed by the Site Manager

The Attendance Clerk shall:

A. Keep a current file of all students release information from forms parents are required to fill out authorizing listed persons to pick up their children in case of a severe emergency. The Attendance Clerk will take these records to the Student Release Area in the Cafeteria and give them to the Student Release Team to use.

The Site Custodians shall:

A. Check the condition of the utilities and connecting pipes and lines and if necessary, turn them off.

B. Check the site completely for:

1. Fire and electrical hazards
2. Chemical hazards (Chlorine storage)
3. Other hazards

C. Notify Site Manager of hazards and services needed

D. Barricade hazardous areas using whatever materials handy

E. When site is secure, report to the Command Post for direction

F. Open emergency container and provide emergency sanitation areas if toilets are unavailable

Directions for the Instructional Staff During a Declared Emergency

Teachers and Para Professionals shall:

A. Respond immediately to emergency signals requiring specific actions and check in on Share911

B. If signal is one to Leave Building, know if signal is for:

1. Fire evacuation
2. Earthquake evacuation
3. Chemical spill evacuation

Evacuate Accordingly!

A. When leaving building:

1. Take emergency backpack
2. Require students to be silent in order to hear instructions
3. Close doors to classroom
4. Go directly to pre-assigned location

B. Check with nearby classrooms when evacuating. If there are seriously injured persons who cannot be moved, assign one teacher to remain and the other to evacuate the rest of the students. Report on Share911

C. Teachers shall provide First Aid to the best of their ability to students under their supervision until the emergency First Aid station is activated. Students with major injuries are to remain in the classroom supervised by a teacher or aide. Students with minor injuries are to be cared for after evacuation.

D. Upon reaching evacuation destination, teachers shall:

1. Take roll
2. List missing students on Share 911 and on paper
3. Give list to Assembly Area Team members
4. Calm students. Remind them of District policies about remaining at school
5. Monitor warmth and protection of students. Move if necessary

E. If assigned to a Site Emergency Team, transfer your students to paired teacher to supervise, report immediately to the Command Post for supplies and begin implementation of Team responsibilities.

USE REMS TO ESTABLISH YOUR EMERGENCY SITE TEAM

Note: Contact listing is intended to be shared with team members to enhance communication in the event of a critical incident. It is recommended that the Principal and Designee establish an intranet list server to further enhance communications. The personal information listed is intended for team members. Please type name and number under each assignment.

REMS Team Members Primary Contact/Cell number Secondary Contact/Cell number

Incident Commander: Jessica Lucio - (510) 207-1717

Establishes an Incident Command Center, lists incident objectives and designates the following positions to perform the following duties.

Logistics Chief: Rob Picciotto - (415) 860-7484

Supports each unit leader with where to find the necessary tools to support the team fulfilling their duties.

Report immediately to the Command Post with:

- Master keys
- Current roster of students and staff
- Emergency forms and documents
- Office supplies to assist unit leads
- Computers and walkie talkies
- Assume responsibilities as directed by Site Manager

Communication Unit Leader: Jessica Lucio - (510) 207-1717

Works with the incident commander to communicate out important information to all supervisors and the public.

Report immediately to the Command Post with:

- Computer
- Office supplies

Parent Reunification Unit Leader: Connie Luong - (510) 282-2709

Reunification refers to getting students reunited with their parents or guardians in an efficient and orderly manner. Reunification can be an enormous challenge and takes a lot of planning.

The Student Release Team is responsible for:

- Setting up secure reunion area
- Checking student emergency cards for authorized releases
- Completing release logs
- Coordinating with the Public Information Office on external messages

Student Accounting/Group Supervisor: Nick Wilson - (443) 992-3688

Evacuation, shelter, and student care in an emergency is one of the most important tasks faced by schools. It includes student accounting, protection from weather, providing for sanitation needs, and providing for food and water and releasing of students to their guardians.

The Evacuation/Shelter/Care Team is responsible for:

- Accounting for the whereabouts of all students, staff, and volunteers
- Setting up secure assembly area
- Managing sheltering and sanitation operations
- Managing student feeding and hydration
- Coordinating with the Student Release Team
- Coordinating with the Logistics Section to secure the needed space and supplies

Search & Rescue Group Supervisor: Romeo Ponsaran - (510) 207-2267

Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them).

Search & Rescue Teams are also responsible for:

- Using Share 911 to identify where injuries may exist
- Obtaining injury and missing student reports from teachers
- Moving injured members from building if emergency responders are unable to do so
- Identifying and marking unsafe areas
- Conducting initial damage assessment

First Aid/Triage Group Supervisor: Yheng Carlisle - (510) 285-7881

First Aid Teams provide triage and treatment for students and other disaster victims. First Aid Teams are responsible for setting up first aid area for students, assessing and treating injuries, and completing master injury report.

First Aid Teams are responsible for:

- Setting up a first aid area for students
- Assessing and treating injuries
- Completing master injury report

Note: The Logistics Section Medical Unit provides care to responders. The Operations Section First Aid Team is dedicated to students or other disaster victims.

Crisis Intervention/ Counseling Group Supervisor: Winston Wong - (415) 997-9781

The Crisis Intervention Team is responsible for assisting students and school personnel who are unable to cope with the fears and psychological trauma associated with emergencies and disasters.

This includes:

- Assessing need for onsite mental health support
- Determining need for outside agency assistance
- Providing onsite intervention/counseling
- Monitoring well-being of school emergency team, staff, and students, and reporting all findings to the Operations Section Chief

Facilities and Safety Officer: Allan Aquino - (510) 333-3196

The Facilities & Security Response Team is responsible for:

- Locating all utilities and turning them off, if necessary

- Securing and isolating fire/HazMat
- Opening Emergency Trailer
- Assessing and notifying officials of fire/HazMat
- Conducting perimeter control

Emergency Drill Leader: Rob Picciotto - (415) 860-7484

The Emergency Drill Leader is responsible for:

- Training staff
- Coordinating and running all required drills
- Monitoring participations
- Reviewing after action reports
- Reporting to the incident commander

LIST SEARCH TEAM DUTY DESCRIPTIONS

EXAMPLE: If assignment is SEARCH TEAM:

Take heavy gloves, flashlight, hard hat and masking tape (no entry) from Emergency Backpack.

Leave Emergency Backpack and students with designated teacher (see previous page).

Report to INCIDENT COMMAND CENTER near gate in lower yard meet with search team partner(s).

Receive directions for search instructions from Search team supervisor.

LIST WHO WILL BE:

SEARCH TEAM #1 Search team will be delegated by

Rodney Pierre-Antoine, Kevin Blagrave

Travis Fields, Mike Meyers

Eric Robbins, Romeo Ponsaran

LIST FIRST AID FUNCTION

EXAMPLE: Minimize injuries and loss of life: provide temporary care of injured students.

Set up desk at picnic tables behind multipurpose room (or if unsafe here, on blacktop near multipurpose room).

Organize supplies and treatment area.

Help with wounded.

Keep Check Out Station informed.

Request additional help (ambulances, etc.) through Check Out Station.

Look up emergency information if necessary.

LIST WHO WILL BE:

TREATMENT Yheng Carlisle

TRIAGE Tom Lama

RECORDER Christina Quezon

List the things you will have to accomplish and assign to operations section or logistics section.

Examples:

Set up table, chairs and sign “Incident Command Center”

Set up operations table, logistics table.

Set up a first aid station

Put traffic cones in the street, blocking off access to the parking lot entry drive

Set up people to handle the check out of students. Display signs A-L, M-Z. Have emergency card information forms out.

Record finding of search teams

List any unaccounted for students and those in First Aid or in need of first aid.

Keep track of the walkie-talkies

Listen to radio

Use runners as necessary to retrieve information and students

Organize parent line-up and announce using bullhorn to parents that students have been evacuated

Assist in calming and organizing parents

Provide pen and paper for non-English speaking students to write their name

Communicate to District Personnel

INCIDENT COMMAND POST – Located: Media Center

The Site Manager or designee is the final authority at each school. He/she must be available for all decisions, information and authority during the time the schools are isolated.

Therefore, the Site Manager and the Command Post should be housed in a central area, i.e., the front of the school, where the manager is available to radio, telephone, emergency equipment or personnel and parents.

The Command Post will begin to operate immediately after a disaster.

This is where the record keeping, communication, and major decision making will take place. The Site Manager or Incident commander will be here.

In addition, a separate Student Release Area will be established to coordinate the release of students to authorized adults. Student release area will be in the edge of the blacktop near soccer field/track

Emergency Release Information Forms are needed at the Release Area to document the release of all students.

While the Command Post is functioning, The First Aid and Search/Assessment Teams will carry out their functions and provide information to the Incident commander about the:

1. Condition of students
2. Condition of staff

3. Condition of facilities

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

FALLEN AIRCRAFT

DEFINITION/DESCRIPTION

If an aircraft falls near the school, the principal will determine which emergency action, if any, will be taken. Local fire and police departments will be responding also. All students and staff should be kept at a safe distance to protect them from possible explosions and/or fire.

IMMEDIATE ACTION

Principal

- Determine which Action, if any, should be implemented.
- Where necessary, tell teachers they may need to take immediate action for the safety of students without waiting for directions from the principal.
- Determine, if possible, whether the aircraft is military, commercial or private. Contact the local police to determine appropriate action and refer all members of the press to the Emergency Operations Center.

Principal's Secretary

- Respond to calls.
- Assist principal as needed.
- Refer all members of the press to the Emergency Operations Center.

Teachers

- Follow principal's direction as to appropriate Action.
- Depending on the nature of the accident you may need to take Action DROP or Action TAKE COVER to protect students from a possible explosion and/or fire.

FOLLOW UP ACTION

Principal

- Provide up-to-date information to staff and students as it becomes available and arrange school site meetings to make assignments and determine plans.
- Coordinate activities of the school site team.
- Maintain contact with Emergency Operations Center and Superintendent's office.
- Arrange after-school staff meetings to debrief and clarify events.

Teachers

- Read bulletins/announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Animal Disturbance

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors. Notify the Superintendent's Office.

Armed Assault on Campus

Follow A.L.I.C.E Procedures

Biological or Chemical Release

CHEMICAL SPILL

1. An announcement will be made to either Shelter in Place or evacuate the building and gather in the Assembly Area, depending on the situation.
2. The announcement will be made by the P.A. system, or if this fails to operate, messenger will alert classes.
3. If the Assembly Area is not safe, students will be evacuated to Lincoln Park, depending on the area of the spill and direction of the wind.

CHEMICAL ACCIDENT

1. DEFINITION/DESCRIPTION

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases or toxic liquids. This type of accident will likely be reported by an outside source unless the accident has occurred immediately adjacent to the school site.

2. IMMEDIATE ACTION

Principal

- a) Receive information about/review situation to determine if evacuation routes are safe (move crosswind to avoid fumes).
- b) Determine which action should be implemented.
- c) Sound alarm for appropriate action.
- d) Notify/maintain contact with Superintendent/Emergency Operations Center.
- e) Determine what further action to take.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in/around area
- e) Notify principal of need for first aid, as appropriate.

Custodian

- a) Review situation to assess extent of spill, wind direction and proximity to building.
- b) Report findings to principal.
- c) Be prepared to direct fire/police department to spill site.
- d) Assist in spill clean-up or containment, as appropriate.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F./Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule.
- c) Work with Emergency Operations Center to publicize information regarding accident.
- d) Arrange school site meeting to provide information to staff.

Principal's Secretary

- a) Screen all calls. Refer public to Emergency Operations Center.
- b) Refer media to Emergency Operations Center.
- c) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Bomb Threat/ Threat Of violence

1. DEFINITION/DESCRIPTION

A bomb threat will typically be received in writing or by telephone call. Responses will generally be the same with the initial exception of a person receiving a telephone threat. A copy of the Bomb Threat Checklist should be readily available for every administrative phone responder.

2. IMMEDIATE ACTION – Telephone Threat

Person Receiving Call

- a) Keep the caller on the line. Delay the caller with such statements as: "I'm sorry, I did not understand you. What did you say?"
- b) Use Bomb Threat Checklist (see form at the end of this "Bomb Threat" section). Get as much information as possible from the caller.
- c) Immediately after caller hangs up, report all information to principal.

All Office Personnel

Immediately search your work area for foreign or suspicious objects or packages. If one is found, **DO NOT TOUCH OR MOVE IT!!**

IMMEDIATE ACTION – Written Threat

Person Receiving Written Message

Give the message to the principal immediately upon identification.

Principal

- a) Receive/review all information about bomb threat.
- b) Determine which action should be taken.
- c) Initiate non-electronic evacuation procedure; i.e. runner or bullhorn, since electronic warnings could activate any device, being sure all evacuation routes are clear.
- d) Notify Superintendent/Police/Fire Department.
- e) Direct search of office complex, evacuation site and classrooms.
- f) Determine what further action should be taken.

Teachers

- a) Implement appropriate action, using alternate evacuation route if required.
- b) Maintain control of students.
- c) Take roll. Report students who are absent.
- d) Notify principal of any problems in or around area.
- e) Hold students until designated evacuation area has been searched and declared safe, and then conduct students to the cleared area.

Teachers assigned to the designated evacuation area will remain with the pupils; personnel who are assigned to search teams will report to the principal for briefing.

If notification of a threat is received and immediate evacuation is not ordered, teachers will search their classrooms for any unidentifiable objects. If nothing is found, resume instruction until the evacuation order is received.

Custodians

- a) Under the direction of the principal, immediately proceed with a thorough search of designated evacuation area (or other area large enough to contain the students) to provide a safe place for students evacuated from the buildings.
- b) Search, as required, to determine that no explosive is hidden in a book, clothes locker or restroom.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F. and Fire Department, whether buildings are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Emergency Operations Center to put messages on TV, radio and telephone system regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer calls to Emergency Operations Center.
- b) Prepare necessary bulletins.

Teachers

- a) Read bulletins/announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

EXPLOSION OR THREAT OF EXPLOSION

1. DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

2. IMMEDIATE ACTION – EXPLOSION

Principal

- Sound the school alarm.
- Notify the Superintendent or Assistant Superintendent.
- Notify utility companies of a break or suspected break.
- Notify fire and police departments and direct further action as required.
- Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- Move to an area of safety and maintain control of students.
- Notify principal of students needing first aid as necessary.
- Fight incipient fires without endangering life.
- Take roll. Report absent students to principal.
- Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

- Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
- Follow procedures for principal -- 'c' and 'd' above.

Teacher

- Follow procedures for teachers -- 'c' through 'g' above.

Disorderly Conduct

CIVIL DISOBEDIENCE/MENACING INDIVIDUALS

1. DEFINITION/DESCRIPTION

Civil disobedience is defined as any assemblage on the school premises by unauthorized persons whose purpose and conduct is inimical to the orderly conduct of the school and the laws relating to the conduct of schools and the welfare of students.

WARNING: The presence of unauthorized individuals or an alert of an impending visitation. When this condition has been reported to the principal or authority in charge, he shall transmit the warning to all classes by the public address system. If the PA system is inoperable, a messenger will be sent to each classroom.

2. IMMEDIATE ACTION

The major plan of action will be to protect all personnel from undue exposure to danger. Every effort must be made to keep classes within their rooms. The following specific steps will be taken to implement the plan of action:

Principal or Designee

- a) Transmit a Shelter in Place alert to all staff members.
- b) Call the local law enforcement agencies to provide protection and to handle arrests.
- c) Make certain that a specific crime is committed before requesting arrests.
- d) School civil disobedience crimes involving arrest are listed in the Criminal Code Procedure and include the following:
 1. Disturbing the Peace
 2. Trespassing
 3. Loitering Around the School Grounds
- e) The principal should make an announcement to the demonstrators similar to the following:
"I am the principal of this school. You are interfering with the orderly process of education in this school. I request that you leave. If you do not leave, I shall ask for your arrest. You are causing a disturbance."

Teachers

- a) Keep students within their locked classrooms until further notice, regardless of the bells and schedules.
- b) Lock classroom doors.
- c) Remain in charge of your class, utilizing the best judgment in occupying the students within the classroom.
- d) Precaution should be taken to protect personnel from flying glass in case of broken windows. Drapes, venetian blinds, or jalousies should be closed.
- e) Where there is evidence of a potential problem, all P.E. classes will immediately return to the locker rooms.

Custodians

Lock and secure all exterior doors.

3. FOLLOW UP ACTION

Principal

- a) Determine, in coordination with M.O.F., whether building(s) is/are habitable.
- b) Notify staff/students of any modification in schedule, via special bulletin or telephone tree.
- c) Work with Communications director to put messages regarding any modifications in schedule.
- d) Arrange school site meeting to discuss plan.

Principal's Secretary

- a) Screen all calls. Refer public to Director of Communications
- b) Refer media to Director of Communications
- c) Prepare necessary communication to community.

Teachers

- a) Read announcements as provided by principal.
- b) Refer all media to principal's office.
- c) Cooperate with school site team to provide follow-up, as appropriate.
- d) Refer for counseling students who may be at risk.
- e) Return to normal instructional activities as soon as possible.

Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

This section removed from posted plan for security purposes. If you wish to see the full plan, contact the school principal for an appointment.

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action. If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required. If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face. If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult. If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill. The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

- After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.
- When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.
- Announce that no student is to return to the room unless directed to do so.
- Teachers will take classes to pre-arranged places on the campus.

- Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.
- School will remain open indefinitely until every student has been released to parents or to an authorized person.
- Do not light any fires after the earthquake because of possible gas leaks.
- If possible, notify utility companies of any break or suspected breaks in service.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All AUSD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

Explosion or Risk Of Explosion

EXPLOSION OR THREAT OF EXPLOSION

DEFINITION/DESCRIPTION

An explosion at the school, or the threat of an explosion, may be caused by leaking gas or a faulty boiler within a school building.

IMMEDIATE ACTION – EXPLOSION

Principal

- Sound the school alarm and report on Share911.
- Notify teachers of proper action (DROP or LEAVE BUILDING).

Teachers

- Command DROP is given. Instruct students to react in the same manner on their own to this type of catastrophe in case it occurs when the teacher is temporarily not present.
- If the explosion occurred within the building, or threatened the building, immediately implement Action LEAVE BUILDING.
- Move to an area of safety, and maintain control of students.
- Use Share911 to report students absent, found or needing first aid as necessary.
- Fight incipient fires without endangering life.
- Students and staff should not return to the school until Fire Department officials declare the area safe.

IMMEDIATE ACTION - THREAT OF EXPLOSION:

Principal

Sound the school fire alarm, or silent evacuation if electronic means could set off explosion. This will automatically implement Action LEAVE BUILDING.
Follow procedures for principal -- 'c' and 'd' above.

Teacher

Follow procedures for teachers -- 'c' through 'g' above.

Fire in Surrounding Area

Follow shelter in place procedures

Fire on School Grounds

DEFINITION/DESCRIPTION: A fire detected in or adjacent to any building at the school site.

IMMEDIATE ACTION

Principal or Site Safety Coordinator

- View fire or take report to determine that evacuation routes are safe.
- Notify teachers of alternate route if necessary.
- Sound school fire alarm and report on Share911.
- Determine what further action to take (i.e. send students/staff home).

Teachers

- Implement Action LEAVE BUILDING, using alternate route in necessary.
- Maintain control of students at a safe distance from the fire and fire fighting equipment.
- Take roll upon arrival at designated area. students.
- Remain with students in designated area until notified of next action.
- Notify principal of any hazards observed in/around area through Share911.
- Notify principal of need for first aid as appropriate through Share911.

Custodians

- View fire to identify location and extent.
- Report findings to principal.
- Fight incipient fire without endangering life.
- Be prepared to direct fire department to fire site.
- Shut off gas/water as appropriate.
- Shut off electricity after all necessary use of P.A. system is complete.

FOLLOW-UP ACTION

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.
- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.

- Refer media to Director of Communication.
- Prepare necessary communications to community.

Teachers

- Read announcements as provided by principal.
- Refer all media to principal's office.
- Cooperate with school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Flooding

DESCRIPTION/DEFINITION

There should be some thought and preparation for this eventuality should any sources around the school create flooding. Flooding may be the secondary effect of another disaster, such as an earthquake.

IMMEDIATE ACTION

Principal

- View flood or take report to determine that evacuation routes are safe.
- Broadcast Alert on Share911 and PA as appropriate.
- Determine what further action to take.

Teachers

- Implement appropriate Action in response to principal direction.
- Take roll upon arrival at evacuation area. Report absent students, needs for first aid and any hazards observed in/around area to principal through Share911.
- Maintain control of students at evacuation area.

Custodians

- View flood to identify location and extent.
- Report findings to principal.
- Be prepared to direct M.O.F./City to flood site/source.
- If flooding is result of school site damage, turn off water.

Follow up Plan

Principal

- Determine, in coordination with M.O.F. and Fire Department whether buildings) is/are habitable.

- Notify staff/students of any modification in schedule, via Share911 and special bulletin or telephone tree.
- Work with Director of Communications to put messages on TV, radio and communication system regarding any modifications in schedule
- Arrange school site meeting to discuss plan.

Principal's Secretary

- Screen all calls.
- Refer media to the Director of Communication.
- Prepare necessary communications to the community.

Teachers

- Read announcements as provided by the principal.
- Refer all media to the principal's office.
- Cooperate with the school site team to provide follow-up as appropriate.
- Refer for counseling students who may be at risk.
- Return to normal instructional activities as soon as possible.

Loss or Failure Of Utilities

UTILITIES LOSS OR FAILURE

CALL MOF - They will call the appropriate public works system based on the loss or failure.

LOSS OF ELECTRICAL POWER:

Consult Alameda Power

LOSS of GAS

PG&E

WATER EMERGENCY:

East Bay Municipal Utility District, colloquially referred to as "East Bay Mud

PHONE ISSUES:

Contact Technology Information Services to report phone issues.

ADDITIONAL INFORMATION:

Contact Maintenance, Operations & Facilities at extension if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services.

If an extended outage is likely, provide an update to keep parents/guardians informed.

Motor Vehicle Crash

Step1: Respond to the injured party and determine if first aid or CPR should be provided

Step 2: If 911 needs to be called have another person call while you deliver first aid or CPR

Step 3: Send another person to notify others and get any emergency equipment or information that would be helpful to the emergency

Step 4: When safe to do so, activate share 911 to communicate to staff if an ambulance is on its way

Step 5: Designate staff to the appropriate gate/entrance to help emergency services get in close proximity to injured party

Step 6: Staff are required to complete and turn in an Accident Report to administration for any injuries to any one on campus

Step 7: Accident forms need to be sent to the business office

Psychological Trauma

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.
2. Work with your school psychologist and or counselors to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

Opioid Overdose

Step (1) Call 911 An overdose is a medical emergency. It is important to have trained medical professionals assess the condition of the overdose victim. Even though Naloxone can reverse the overdose, there may be other health problems of which the responder may not be aware. In addition, people who survive any type of overdose are at risk of experiencing other health complications because of the overdose. Getting someone examined by a medical professional is an important part of reducing the harms associated with overdosing.

It is important for trained staff to remember that Naloxone only works if there are opioids involved with the overdose. It cannot reverse an overdose from benzodiazepines, meth, cocaine, or alcohol.

Step (2) Administer Naloxone (Narcan)

Open the Naloxone blister pack; do not push the plunger.

With the victim's head tilted slightly back, place two (2) fingers over the top of the medication with your thumb securing it from the bottom.

Insert the atomizer fully and gently into their nostril

Push the plunger forward with the thumb and deliver spray of medication. (There is no need to plug the opposing nostril).

Place the person to their side (recovery position).

If the individual is still not responding within two (2) minutes, give a second dose in the opposite nostril.

Follow Up

If the victim is a student, contact parent/guardian per school policy.

Complete an Accident/Injury Report

Facilitate a debriefing with responding staff

Consider a plan of care for the students' safe return to school

Alameda Unified School District Schools Emergency Plan for Students With Disabilities

Alameda Unified School District Schools Emergency Plan for Students with Disabilities

The Alameda Unified School District Schools Emergency Plans for Students with Disabilities consists of several components including the Model Plan, Appendices with Checklists, Forms, Sample Memos and Agreements, and Annexes. The Emergency Annex for Students with Disabilities is an incident management strategy that serves to augment the Alameda Unified School District Schools California Comprehensive Safety Plan. In order to ensure efficient and effective emergency management, the Model Plan should be implemented to the best of the site's ability and resources.

I. PURPOSE OF THE PLAN

The information contained in this document will assist school administrators, teachers, special education staff, parents, and students in planning for the support that may required for students with disabilities in the event of an emergency. For the purposes of this annex, students with Disabilities are those who cannot comfortably or safely access and use the standard resources offered in disaster preparedness, relief and recovery, whether their disability is chronic or temporary.

This plan includes procedures ensuring the full participation of students and staff with disabilities through the planning and implementation of mitigation, preparedness, response and recovery strategies as part of the overall management of school emergencies and disasters. Current thought identifies this population as those with access and functional needs (AFN).

A. Presidential Mandate

On July 22, 2004, President George W. Bush signed Executive Order 13347, Individuals with Disabilities in Emergency Preparedness, which adds to existing legislation policy to ensure that the safety and security of individuals with disabilities are appropriately supported and requires public entities to include the unique needs of individuals with disabilities in their emergency preparedness planning.

B. Planning Needs and Assumptions

For individuals with disabilities, physical environments become a great deal more hostile and difficult to deal with during and after an emergency. The ability to get to accessible exits and personal items may be reduced. Communication may be impeded at a time when clear and rapid communication is crucial to safety and survival.

To comply with statutes involving students with disabilities, individuals responsible for evacuation and emergency operation plans, notification protocols, shelter identification, emergency medical care and other emergency response and recovery programs must:

- **have sound working knowledge** of the accessibility and nondiscrimination requirements applicable under Federal disability rights laws;
- **know the students with disabilities demographics** of the students attending classes on site;
- **involve students** and with different types of disabilities and staff and teachers in identifying the communication and transportation needs, accommodations, support systems, equipment, services, and supplies that they will need during an emergency;
- **consider emergency accommodations** for those with temporary disabilities;
- **identify existing resources** within the school and local community that meet the needs of these students;
- **develop new community partners** and resources, as needed;
- **inform parents** about the efforts to keep their child safe at school;
- **identify medical needs** and make an appropriate plan;
- **determine transportation needs**, special vans and buses for students;
- **identify any necessary tools** such as personal response plans, evacuation equipment or visual aids;
- **include local responders** and establish a relationship with individual students with disabilities and their teachers.

II. STATUTES FOR SERVICES IN SCHOOL

Federal law mandates that every child will receive a free and appropriate public education (FAPE) in the least restrictive environment. Children who experience difficulties in school, due to physical or psychiatric disorders, emotional or behavioral problems and/or learning disorders or disabilities are entitled to receive special services or accommodations through the public schools. To support their ability to learn in school and participate in the benefits of any district program or activity, including emergency preparedness and school safety plans, three Federal laws apply to children with students with disabilities:

- Americans with Disabilities Act of 1990 (amended 2008)
- Individuals with Disabilities Education Act of 1975 (amended 1997)
- Section 504 of the Rehabilitation Act of 1973 (revised 1978)

A. Americans with Disabilities Act of 1990

The Americans with Disabilities Act (ADA) of 1990, including amendments which became effective in 2009, provides “a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities.” The ADA prohibits the exclusion of any qualified individual with a disability, by reason of such disability, from participation in or benefits of educational services, programs or activities.

B. Individuals with Disabilities Education Act (IDEA)

The Individuals with Disabilities Education Act (IDEA) is a 1975 federal law, amended by the Office of Special Education Programs in 1997, which ensures services to children with students with disabilities throughout the nation.

IDEA specifies 13 primary categories under the lead definition of a “child with a disability.” (See Table 1, Categories of Disability Under IDEA Law.) These federal definitions guide how states define who is eligible for a free, appropriate public education under special education law. The IDEA requires the school to provide an individualized educational program (IEP) that is designed to meet the child’s unique needs and provide the child with educational benefits.

Individual Education Program (IEP)

IDEA requires that planning for the educational success of these students is done on an individual, case-by-case basis through the development of an Individual Education Program (IEP). The IEP is a written statement developed for each child with a disability that outlines measurable annual goals for each child’s academic achievement and functional performance and specifies accommodations and modifications to be provided for the student.

Students with disabilities who are self-sufficient under normal circumstances may have to rely on others in an emergency. They may require additional assistance during and after an incident in functional areas, including, but not limited to: communication, transportation, supervision, medical care and reestablishing independence. While not explicitly stated, a component of the IEP for related services must consider the particular needs of the child to ensure his or her safety during an emergency that includes evacuation from a classroom and building.

C. Section 504 of the Rehabilitation Act of 1973

In 1978, the U.S. Department of Education (DOE) issued regulations to implement Section 504 of the Rehabilitation Act of 1973. These regulations applied to institutions receiving federal funds. Section 504, as revised, states in part: “No otherwise qualified individuals with disabilities in the United States . . . shall, solely by reason of the disability be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

Under Section 504, any student who has a physical or mental impairment that substantially limits one or more major life activities*, has a record of such an impairment and is regarded as having such an impairment is considered disabled. Typically, children covered under Section 504 either have impairments that do not fit within the eligibility categories of IDEA or that may not be as apparent as those covered under IDEA.

The Individualized School Healthcare Plan (ISHP) articulates the healthcare accommodations required for each student qualified for service under the Section 504 regulation. The ISHP assists in the safe and accurate delivery of healthcare services in school. It is specifically a nursing care plan, developed by the school nurse with parent input. A copy of this plan is included in the school disaster plan and attached to the IEP.

* Major life activities are those basic activities that the average person in the general population can perform with little or no difficulty, such as caring for one’s self, performing manual tasks, walking seeing, hearing, speaking, breathing, learning, working, sitting, standing, lifting, reaching, thinking, concentrating ,interacting with others and reading.

Table 1. Categories of Disability under IDEA Law

Federal Disability Term	Alternative Term	Brief Description/ Factors that Elevate Risk in Emergencies	Factors that Reduce Risk in Emergencies
Autism	Autism spectrum disorder	Characterized by extraordinary difficulty in social responsiveness; often resistant to environmental change or change in daily routine and experience anxiety over interruption. May be non-verbal or use argumentative communication.	Structure, routine, normalcy and familiarity with activity
Deaf-blindness		A simultaneous significant hearing and vision loss; limits the speed of movements.	Guidance from a sighted person
Developmental delay		A delay in one of the following areas: physical development; cognitive development; communication; social or emotional development; or adaptive (behavioral) development.	Minimized disruption of routine patterns of activity, modulate sensory input
Emotional disability	Behavior disorder, emotional disability	Has limited ability to understand environmental events, situations, or procedures. Needs are categorized as mild, moderate or severe. May disobey or resist direction, may panic.	Regulated sensory input
Hearing impairment	Deaf, hard of hearing	A complete or partial loss of hearing that adversely affects a child's educational performance. May not respond to auditory cues.	Written instructions, sign language, specialized communication for direction in an emergency
Intellectual Disability	Intellectual disability, cognitive impairment	Significant limitations in intellectual ability and adaptive behavior. This disability occurs in a range of severity.	Regulated sensory input
Multiple disabilities		The simultaneous presence of two or more impairments, the combination of which causes such severe educational needs that they cannot be accommodated in a special education program solely for one of the impairments. Does not include deaf-blindness	
Orthopedic impairment	Physical disability	A significant physical limitation that impairs complete motor activities, strength, vitality or an alertness to environmental stimuli	Adaptive physical equipment: cane, walker, wheelchair. May require alternative, accessible evacuation route
Other health impairment		A disease or disorder so significant that it negatively affects learning; examples include cancer, sickle-cell anemia, and diabetes	Continuity of medication management regime
Specific learning disability	Learning disability	A disorder related to processing information that leads to difficulties in reading, writing and computing.	
Speech or language	Communication disorder, stuttering	A disorder related to accurately producing or articulating the	Sign language, hand signals, specialized

impairment		sounds of language to communicate	communication for response in an emergency
Traumatic brain injury	TBI	An acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both that may affect cognition, behavior, social skills and speech.	
Visual impairment	Low vision, blindness	A partial or complete loss of vision	Guidance from a sighted person

Source: National Dissemination Center for Children with Disabilities at <http://www.nichcy.org/Disabilities/Categories/Pages/Default.aspx>

In addition to students with disabilities specified under IDEA law, the school site administrator or designee must identify individuals with a temporary impediment such as a broken leg or hidden impairments such as asthma, panic attacks, significant allergies or heart conditions. Students with such documented medical conditions may not have an IEP in place that would highlight the need for continuing a special medical regime, particularly during a crisis or disaster.

III. MITIGATION AND PREVENTION

Mitigation is the action districts and schools take to identify barriers students with disabilities may face during an emergency and eliminate or reduce their adverse effects. A hazards and vulnerability assessment of the site will help in preparing the emergency plan and identifying improvements for safety.

A. Teacher Survey - Students Needing Special Assistance

At the beginning of each year, Special Education Staff should provide to the main office and the students' respective teacher(s) the name(s) of students that will require special assistance in the event of an emergency. The type of assistance needed as a result of an injury is also required when applicable (i.e. broken leg during the year).

- **Review** how an emergency may impact the daily routine of students with disabilities.
- **Know who is on your school site:** Identify students and staff on the site with disabilities. The school principal must be aware of all students and/or staff with disabilities using school facilities and services.
- **Identify the students** with extensive support needs and who might need extra support in emergency crises.
- **Make a list** of the students on the school site who are on medication and their medication schedule.
- **Maintain a list of all resources** regularly relied upon and determine how a disaster might affect the use of them. Examples include (use of mobility aids, communication devices and electrically-dependent equipment).
- **Identify all the stakeholders** who should be considered in the plan (family, friends, service providers, personal attendants, physicians and others).
- **Determine what short term accommodations** to provide for students with temporary disabilities (e.g., injured limb)
- **Assess** potential hazards. Review evacuation equipment.

B. Mitigation Strategies

- **Learn about the types of hazards** that may impact the school (e.g., earthquakes, floods, wildfires) and assure that emergency response procedures address each one.
- **Identify a pre-evacuation site** that is accessible to students with disabilities

- **Plan a primary and secondary evacuation route** from each location the student is in during the course of the day.
- **Arrange sufficient transportation** ahead of time to accommodate the entire students with disabilities/staff population.
- **Develop a schedule** with daily activities and classes that identifies where a student with disabilities may be located each period of the day.
- **Consider classroom location** in placement of students with disabilities. Evaluate the accessibility of nearby exits and proximity to the school nurse.
- **Conduct a test of the family notification system** to assure that contact information is up-to-date to help decrease parent anxiety during a disaster.

IV. PREPAREDNESS

Preparedness focuses on what steps need to be taken to facilitate a rapid, coordinated, effective response when an emergency occurs to keep the students safe. Collaboration with first responders in preparedness strategies and ongoing communications is essential and facilitates the safe integration of students with disabilities into emergency procedures.

A. General Strategies

Use the forms in APPENDIX A to collect information about individuals with disabilities on site, e.g., who has a disability, nature of disability, implications for the student concerning full participation in school emergency planning. Include teachers, schedules, classrooms, potential needs during an emergency, relevant strategies enabling student(s) to participate successfully with peers in general school activities.

- **Build on current accommodations**, modifications and services.
- **Develop a policy** and consent form with legal counsel for medical information. The Americans with Disabilities Act (ADA) allows medical information to be given to people responsible for assisting in evacuating disabled individuals.
- **Consult parents or guardians** concerning care considerations if the student with disabilities is isolated at school for a short term or long-term basis. Inform parents about efforts to keep their child safe at school.
- **Incorporate pre-negotiated contracts** for services that may be needed in case of an emergency (e.g., transportation, food etc.).
- **Obtain necessary equipment and supplies**, create evacuation maps and facilities information.
- **Inform and train staff** about emergency response protocols. Encourage teachers to discuss emergency procedures with parents as part of IEP meeting or other review.

B. Buddy System

Pairing students up with students with disabilities for emergency response, e.g., the “buddy system”, can help with critical backup when a skilled assistant is unavailable or separated from the class. Buddies need to be willing and capable of assisting students in an evacuation to accompany the individual to a safer enclosure or wait for emergency responders. The buddy must be acceptable to the student with a disability. Also, teachers in adjacent classrooms can be pre-assigned joint responsibility for both classes if one of the teachers is busy with an injured student.

To have an effective buddy system:

- Give the student the opportunity to select his or her own buddy.
- Identify a buddy who is appropriate (e.g. strong enough).
- Designate a backup buddy.
- Train for the specific need of the student with disabilities.
- Hold practice sessions to assure that buddies can handle their tasks.
- Train the buddies on how to communicate with the students and how to safely evacuate.

Buddies must be able to make contact quickly with the student with disabilities when the need arises. The following situations may interfere with this critical communication. Use the suggested strategy as an alternative.

- The buddy is in the building, but away from the customary work area.
Have a trained backup buddy in place.
- The buddy cannot locate the person with a disability because the person is absent.
Keep an updated roster of who is at school each day. Assign a temporary buddy when the primary buddy is absent.
- The buddy has left the class/program, and a new one has yet to be identified. *Make an effort to find a replacement as soon as possible. Assign a temporary buddy until there is a permanent buddy.*
- The buddy forgets or is frightened and abandons the student with disabilities. *Check on each student with disabilities to assure he/she is accounted for during an evacuation. Practice drills will help diffuse real-time fright.*

C. Medication Management

with disabilities may have very individualized medication schedules that cannot be interrupted without serious consequences. Medicines or medical devices may not be available in emergency shelters. Make alternative arrangements to meet these needs. Consider how medicines can be stored in an emergency. Heat waves and power outages can affect the potency and integrity of some medications. Include an ice chest and cold packs among the school emergency supplies. If there is a power outage, the ice packs can extend the safe temperature range of medications requiring cold storage until the power is restored.

Some best practices to consider are:

- If the student is on medication, ask caregivers to supply a 72-hour supply in a Ziploc bag with instructions; a refrigerated kit is also advised for medication if needed with instructions.
- Gather all medications before evacuation.
- Transport special medications, supplies and equipment with the student with disabilities.
- Carry contact and medical information for all students and provide individual medical information on a laminated card with a lanyard to be worn around the neck. See Appendix C for an example of the Emergency Medical Card.

D. Access to Communication

Communication access enables effective interaction with people who are deaf or blind or who have speech, vision or hearing limitations. Make written materials available in alternative formats (e.g., Braille, large print, disks, and audio cassettes) and provide hearing- assistive technologies such as amplified phones. Include auxiliary aids and services such as sign language interpreters. Alarm systems for fire, etc. will benefit most people if they incorporate both audible and visual elements. The hearing impaired students may be best alerted by flashing light alarms. **An emergency is not the time to learn how to work a rarely-used assistive device. The most effective communication systems are those used daily.**

- Give clear, succinct verbal instructions.
- Communicate important information through gestures.
- Pictorial representations, where appropriate, can provide quick and easily understood instruction to many individuals with limited English proficiency, and some individuals with cognitive disabilities.
- Guide students with low vision or blindness.
- Utilize electronic variable messaging boards, short message systems (SMS), teletypewriters (TTY) or telecommunications display devices (TDD), if you have them.
- Identify staff with foreign language skills, if needed.
- Have aides, buddies, volunteers and evacuation assistants practice basic American Sign Language for emergency words and instructions such as:

• <i>important,</i>	• <i>emergency</i>	• <i>keep calm</i>
• <i>must leave now</i>	• <i>fire</i>	• <i>fire exit</i>
• <i>elevator closed</i>	• <i>stairs there</i>	• <i>okay</i>

E. Time Management

Children with disabilities are likely to respond to any form of stress following a crisis with more extreme reactions. Allow extra time for them than others to make necessary preparations in an emergency.

Some students with disabilities will need more time to comprehend the emergency. The earlier the notification, the better the chances are for a successful evacuation. Consider what are the triggers and cues for these students and anticipate rather than react. Prepare students for changes in routine. Some students may need to be more protected or isolated to minimize distractions and sources of agitation during the height of a crisis. Adult supervision may need to be more intense for a while.

Allow time for discussion of the traumatic events in a safe and familiar setting; provide choices in activities to the extent feasible to give these students some sense of control over even a small part of their lives.

F. Preparedness Supplies

Classroom Supplies. A classroom that is used for teaching students with disabilities should store disability-related supplies, assistive equipment and tools that may be required in an emergency. Parents should provide for students with dietary restrictions. Among the basic supplies to have in the classroom are:

- Batteries in different sizes, for adaptive equipment
- Lockdown kit, including portable toilet, privacy screen, toilet paper, toilet bowl liners disinfectant, and plastic bag for disposal
- Water pouches for drinking
- Water for hygiene purposes
- Copies of all students' Emergency Information Forms (secured)
- Backup copies of medical prescriptions (secured)
- Hand tools (e.g., screwdriver, wrench, pliers)
- Heavy work gloves
- Whisk broom
- Tarp
- Solar/crank/battery radio
- Cell phone and phone charger
- Flashlight and extra batteries or crank flashlight
- First aid kit

- Small ice chest for refrigerated medications
- Evacuation assistive equipment
- Protein bars (without nuts or nut oil)
- Canned fruit
- Carbohydrate-free foods for meals (e.g. canned meat, nuts, jerky)*
- Feminine hygiene supplies
- Household chlorine bleach to kill bacteria or antibacterial soap
- Facial tissues
- Whistle/noisemaker

* for diabetic students

Go Kits. Portable preparedness supplies individualized for each student's needs, called "Go Kits", are an integral part of preparedness planning. Ask parents and caretakers to provide Go Kits at the beginning of the school year. Plan for a child with special dietary needs. Designate which staff members are responsible for reminding parents to replenish their child's kit and notify the school of changes. Each Go Kit should include, as a minimum:

- Lightweight uncomplicated backpack
- Emergency Information Form – see Appendix B for example
- Medication for up to 36 hours
- Emergency Medical Card, laminated and attached to a lanyard to be worn during an emergency. See Appendix C for example. Card should include:
 - contact information
 - medical requirements
 - allergies and sensitivities
 - adaptive equipment used
 - assistance needs and limitations

G. Drills

Drill practice is very important; it increases skills and instills confidence in each individual's ability to cope during an emergency. Innovative educational techniques such as role-playing or the use of audio visual aids can also be helpful.

- Hold regular drills so that students become familiar with the procedures.
- Know how to get to all the exits.
- Practice using evacuation and assistive devices.
- Give clear, concise instructions
- Practice dealing with different circumstances and unforeseen situations, such as blocked paths or exits or buddies that cannot be located.

H. Key Practices for Certain Impairments

Emergency planning for students with disabilities should be as individual as the students. Some students may be at increased risk during an emergency and will need extra assistance or special attention. If possible confer with students and parents regarding their preference for emergency situations. Assess capabilities, limitations and needs and to determine what type of evacuation assistance will be required in an emergency for each student.

Children with disabilities generally have specific "triggers"—words, images, sounds, etc.-- that signal danger or disruption to their feelings of safety and security. If adults miss these cues, children may escalate their behavior to a point

where they completely lose control. *It is essential that parents/caregivers and teachers work together to share information about triggers and cues.* This is best done on a regular basis, such as during the IEP meeting or a periodic review meeting, rather than in response to a crisis.

There is no one-size-fits-all approach. However, there are key practices that should be considered for certain impairments.

- 1. Cognitive/Developmental:** Some students may not comprehend the nature of the emergency and could become disoriented or confused about the proper way to react. Students with hypertension, dyslexia or learning disabilities may have difficulty reading complicated directions for evacuation or response plans. Simple diagrams or pictures will give non-reading or overstressed students sufficient information to get to safety. Train your staff how to assist those who become upset. Check that evacuation routes have directional signs that are easy to follow. Practice evacuation route(s) with students regularly. Use simple diagrams or pictures to give non-reading or overstressed students sufficient information to get to safety. **Preparedness kits should include:**
 - comfort items
 - pen and paper
 - visual communication instructions

- 2. Hearing:** Provide sign language training to some staff for students who may not be able to hear emergency warnings. Have teachers practice basic hand signals for students with hearing impairments for emergency communications. Alerting devices, such as strobe lights and vibrating pagers can be used to supplement audible alarms and are useful for students with hearing impairments. Install both audible and visual smoke alarms in the classroom and building. **Preparedness kits should include:**
 - pen and paper
 - flashlight to communicate in the dark
 - extra hearing aid batteries
 - batteries for TTY and light phone signaler

- 3. Mobility:** Limited mobility may impair egress and access to locations. Arrange and secure furniture and other items to provide barrier-free paths of travel. Disaster debris may obstruct evacuation. Store a lightweight manual wheelchair, if available. Train the staff the proper way to move an individual in a wheelchair. Mobility impaired students should practice moving their wheelchairs or having them moved into doorways, locking their wheels and covering their heads with a book or with their arms or hands. **Preparedness kits for those who use wheelchairs should include:**
 - heavy gloves for making way over glass or debris
 - extra battery for electric wheelchairs recommended but may not be practical
 - patch kit for punctured wheels
 - flashlight and whistle

- 4. Respiratory:** Students with respiratory impairments may have difficulty breathing when walking distances or descending stairs. Smoke, dust, fumes, chemicals, and other odors often exacerbate such limitations. For these students, include emergency evacuation masks and respirators in

classrooms. Have oxygen and respiratory equipment readily available. Students and staff should practice putting on and removing this equipment as part of an emergency drill. **Preparedness kits should include:**

- medical schedule and dosages
- medical mask, if student can wear one
- any medical equipment needed for 72 hours
- note paper and pen

- 5. Medically Fragile:** Many illnesses can be aggravated by stress. In the event of a disaster that requires students to be at school for an extended period of time, medication may need to be administered to students with a healthcare plan. Schools should consider who will administer these medications in the event a nurse is not available during a disaster. Keep medications, authority to administer the medication forms, and healthcare plans in the vicinity of the medically fragile student.

It is the parent's responsibility to maintain medical supplies, notify the school of changes and provide new doctor's orders. It is the nurse's responsibility to remind the parent to provide medications and update orders when notified.

- 6. Speech/Auditory:** Determine in advance the best way for the student to communicate with others during an emergency. Provide written emergency and evacuation instructions on a card, carried at all times and placed in an easy to see location. **Preparedness kits should include:**

- extra batteries and chargers for communication equipment
- note paper and pen
- comfort items

- 7. Visual:** Those with visual impairments may have to depend on others to lead them to safety during a disaster and may be reluctant to leave familiar surroundings. Employ Braille signage or audible directions for students who are blind or have low vision. Emergency back-up lighting systems, especially in stairwells and other dark areas, will benefit those students with limited visual acuity. Mark emergency supplies with large print or Braille. Students should know where the nearest telephones and alarm boxes are located and how to describe their location. **Preparedness kits should include:**

- extra folding white cane
- heavy gloves for feeling the way over glass or debris
- colored poncho worn for visibility
- comfort items

I. Developing a Student with Disabilities Evacuation Plan

Creation of an Evacuation Plan should cover the evacuation, transportation and medical needs of students who will require extreme special handling in an emergency. In most cases, additional safeguards must be established regarding roles, responsibilities and procedures for students with physical, sensory, emotional and health disabilities. Review all paths of travel and potential obstacles.

- Know your school grounds, paths, exits and potential obstacles.

- Determine the primary and secondary paths of exit to be used during emergencies. Individuals with mobility impairments will need a smooth, solid, level walking surface, an exit that avoids barriers such as stairs, narrow doors and elevators and guardrails that protect open sides of the path.
- Compile and distribute evacuation route information to be used during emergency operations
- Include alternative evacuation route information, should the primary route be inaccessible due to damage or danger.

2. Install appropriate signage and visual alarms.

- Place evacuation information indicating primary and secondary exits in all offices, classrooms, multipurpose rooms, lunchrooms, hallways/corridors, lobbies, bathrooms and cafeterias. For passages and doorways that might be mistaken for an exit, place visible signs that proclaim, “NOT AN EXIT”.
- Place emergency notification devices appropriate for each student.
- Post signage with the name and location of each area so that the students will know exactly where they are. In order to comply with ADA Accessibility Guidelines for Buildings and Facilities requirements, the signage should be:
 - approximately 60 inches above the floor;
 - in a location that is not obscured in normal operation such as a swinging door;
 - in all primary function areas

3. Identify the students and staff with disabilities and the type of assistance they will require in an emergency.

- Allow visitors to self-identify on a sign-in log if they have special evacuation needs.
- Discuss evacuation issues with the staff members and caretakers of students with disabilities. Include individuals, who may be temporarily disabled (i.e. a student with a broken leg).

4. Train staff in general evacuation procedures.

- Review the areas of rescue, primary exits, evacuation techniques, and the locations and operation of emergency equipment.
- Provide in-depth training to those designated to evacuate students with disabilities. Train the staff for proper lifting techniques when lifting a person for evacuation. Anyone can assist a student with a visual impairment.
- Check on each student with disabilities to assure he/she is accounted for during an evacuation.

5. Review the plan with emergency response personnel, including local police, fire and emergency medical technicians.

- Identify “areas of rescue” in your school for students to wait for evacuation assistance from emergency personnel.
- Before school begins in the fall, walk around the site with first responders so that they are familiar with the primary exits and all areas of rescue. These areas must meet specifications for fire resistance and ventilation.
- Ask the responders to conduct a special drill explaining how they will support the students and staff with disabilities during an emergency.

6. Complete all contracts and Statements of Understanding with key emergency support providers

- Ensure that sufficient transportation capacity exists with transportation providers, partner agencies, and suppliers to effectively meet the demand in an emergency.
- Identify transportation contracts through the district in case of an emergency. Emergency response for students with disabilities requires special vans and special equipment. Specify who will do what to address these transportation needs.
- Develop a list of school-owned vehicles, staff vehicles and parent vehicles that are available and make prior arrangements for their use in the event of an emergency.

7. Review the evacuation plan with students and staff to be familiar with the process and identify any problems.

- Practice implementation of special duck and cover actions by students with able-bodied partners.
- Students should be aware that evacuation by themselves may be difficult or impossible because of obstacles in their path or because electric-dependant machines may not function (i.e. elevator).
- Special pre-planned assistance must be provided and reviewed regularly. Classrooms should have emergency activity kits with items familiar to the students. Include students with disabilities in the selection of emergency evacuation devices.
- Mobility-impaired students should know how (through practice) to get in doorways, lock wheelchair wheels and cover head with book, arms or hands.
- Train all aides who are assigned to students with disabilities in evacuation procedures.

- Provide procedures for receiving students with disabilities at the pre-designated evacuation site.
- Remind parents and caregivers that they are responsible for updating emergency information with the schools.

IV. RESPONSE

Response is the immediate reaction to an emergency to save lives and protect property. Pro-active efforts in the Mitigation-Prevention and Preparedness phases will impact the quality of response. Responses will vary depending upon the severity and intensity of the event.

A. Leadership by District of Service

In an emergency, the site administrator has responsibility for the safety of all children on the site. The District of Service, rather than the District of Residence, assumes the leadership role for all students in an emergency.

B. Assess the Situation

- Determine the immediacy of the emergency.
- Remove anyone with respiratory complications from smoke and vapors immediately.
- If not in immediate danger, stay in place until staff personnel determine the nature of the situation.
- If trapped, get the attention of others by calling out or striking object together to make noise.

C. Announce the Emergency

- 1. To Alert Deaf and Hearing Impaired** – The primary goal is to effectively communicate the nature of the situation and direct them to the appropriate route of evacuation. Students with hearing impairments will most likely be able to follow the same exit route as those who can hear. Communicate with a notepad and pen, with simple, concise speech or with sign language. Regardless of the method of communication used, convey two key messages:
 - there is an emergency
 - how to exit
- 2. To Alert Blind or Visually Impaired** – Someone who is blind or visually impaired will generally be able to evacuate the same route as sighted students, but may need some assistance. Describe the nature the emergency and offer to guide him/her to the nearest emergency exit and evacuation assembly area.

- Touch the person on the elbow gently. Identify yourself and quickly explain the situation.
- Ask if the individual has any preferences regarding how to be guided.
- Clearly describe where you are going and any approaching obstacles or protruding objects which will require a change in your walking path or pattern.
- Be protective of your space as there may be many people using the same route to evacuate.

3. To Alert Cognitively or Emotionally Impaired – It is likely that students with cognitive or emotional impairments will be able to use the same evacuation routes as the other students. The challenge is to keep them calm as you exit. If there is a buddy or companion assistant, quickly describe the situation and how to involve him or her in the evacuation. Let the student know what is happening. Keep him/her reassured

D. Lockdown/Shelter-in-Place Strategies

- Set up screens/curtains for those needing privacy for emotional issues and personal hygiene.
- Use Go Kits for immediate necessities.
- Keep students away from windows and doors.
- Use the buddy system to provide comfort and reassurance.

E. Implement Evacuation

- Carry all medication, supplies, equipment and dietary needs with student, including the 72-hour disaster kit that has been prepared ahead of time for individual student needs;
- Ask the student how he/she would like to be assisted;
- Use the buddy system;
- Inform emergency personnel of intended destination and type of assistance needed. If unable to contact emergency personnel, ask others to make the notification for assistance;
- Move to designated evacuation area. The path should be unobstructed.
- Be careful of falling debris as you leave the building.
- Provide priority assistance to wheelchair users with electrical respirators. Evacuate mobility devices with the person if possible (i.e. crutches, wheel chairs, etc).

To Evacuate Persons Using Wheelchairs:

If the person wants to be moved in his/her chair, keep the following considerations in mind:

- Turn off the wheelchair's power before lifting.
 - Turn the wheelchair so it is lowered down the stairs backwards (person facing up the stairs), so the occupant cannot slip forward out of the chair and down the stairs.
-
- Powered wheelchairs have very heavy batteries; an evacuation chair for stairs may be needed with the powered chair to be retrieved later.
 - If a seatbelt is available, use it. If the person needs to be removed from his/her wheelchair for an evacuation, ask the following:
 - how he/she prefers to be moved from the chair;
 - whether pain or harm will result from moving extremities;
 - if any equipment is needed for immediate safety of life-support, e.g. backup generator for respirator.

F. Transport Students

Transportation is a well-established component of emergency response plans, and requires planning and detailed focus for children with access and functional needs. Special transport is not provided for students with Section 504 eligibility.

- **Maintain a transportation resources** list by type and availability, including vehicle accessibility and capacity information.
- **Develop procedures for the acquisition of additional accessible transportation equipment**, securement devices, supplies, and resources before a disaster.
- **Provide staff training**, including a review of procedures for transporting persons with a variety of assistance needs, as well as the transport of service animals.
- **Identify strategies for tracking individuals** who are evacuated. Information should include the passenger's name, point of origin, departure time, final destination, and arrival time.
- **Maintain a master list of drivers** by status and availability.
- **Provide drivers with an operational roster** to complete and maintain, at minimum, with the following information:
 - Name of driver
 - Driver's telephone number
 - Time departed staging area
 - Time arrived at sheltering location
 - Vehicle number Sheltering location
 - Trip mileage

- **Determine the appropriate transportation response** for persons unable to reach a pick up/drop off location or staging area on their own.
What entity will handle such needs, and what types of vehicles/equipment will be required? Check with the school district regarding the transportation contracts and agreements.
- **Account for all students** before transportation occurs and after arrival at the destination.
- **Transport all passengers** to the pre-designated evacuation destination by the safest route. Use alternative routes only as necessary.
- **Use buses.** Consider other modes of transportation only if buses are unable to get to the school quickly or are not available. Refer to the list of school-owned vehicles, staff vehicles and parent vehicles that are available.

G. Reassess Needs

Request additional support, if needed.

H. Other Considerations for Students with Disabilities Populations

- **Store** extra batteries for electric wheelchairs and hearing aids.
- **Lead** evacuees to a safe place with other teachers and staff.
- **Remain** with the student with disabilities after the evacuation.
- **Recognize** that the fine details are unique to each student;

IV. RECOVERY

The recovery phase is designed to assist students, teachers, staff and visitors to restore educational operations in school. Recovery is an ongoing process that includes not only the mental, emotional and physical healing process of students, teachers and staff, but also restoration of the physical assets of the school (buildings and grounds) to a safe and habitable environment.

A. Restoration

- **Account** for all the students, teachers, and staff.
- **Meet the medical needs.**
- **Conduct daily debriefing** for staff, responders, and others assisting in recovery.
- **Provide stress management support** during class time.
- **Discuss recovery**, what to do with students if they must remain on site for 2-3 days.
- **Communicate with parents**, guardians and the local community.
- **Conduct after-action briefing** to capture key lessons learned and recommendations for improvements to the school plan.

B. Supportive Services

- **Needs Assessment** – quickly identify needs and the support necessary to meet them.
- **Information** – provide important information on community resources that connect school families who need help with available services and assistance.
- **Language** – ensure that critical information is conveyed in a language appropriate for non-English speaking families that the standard media may not reach.
- **Transportation** – support the mobility needs with accessible transportation resources to disaster service areas.
- **Replacement Equipment** – support students with disabilities with the guidance to acquire replacement of vital personal equipment (e.g., crutches, hearing aids, wheelchairs,
- **Reassurance**

Experiencing a disaster can be overwhelming. Stress often exacerbates existing medical conditions and may alter thought and behavior. Reassurance is the key to helping children through a traumatic time. Support individuals with access and functional needs by providing verbal reassurance and information to help orient

them to new surroundings and new routines.

- **Make sure physical needs are addressed** and medical assistance is provided, as needed.
- **Reconnect students** with family and other support systems as early as possible.
- **Address concerns** about safety. Talk to each child at his or her developmental age, not chronological age. Use language the child understands.
- **Provide information through pictures** and allow children time to see, hear, talk and draw.
- **Expect some regression** (increase in problem behaviors).
- **Deal with inappropriate behaviors** calmly and consistently—Keep emotional equilibrium.
- **Minimize the disruption.** If the normal routine is unavoidably altered, create a new one.
- **Offer concrete/immediate solutions** to abstract problems. Use clear examples. Repeat responses patiently.

After the danger has passed, the school will be anxious to return to normal. Both people and resources are needed to speed recovery. The talents of individual with disabilities should not be underestimated. Every member of a community can provide some support.

APPENDIX A

School Emergency Evacuation Planning Checklist		
	YES	NO
Do you have a roster of your students with disabilities?		
Have you identified students with disabilities on site from other school districts?		
Have you identified the medical needs of your students with disabilities and their medication schedule?		
Have you walked the evacuation paths and exits looking for potential obstacles?		
Has an evacuation site been identified that is accessible to students and staff with disabilities?		
Is the primary evacuation path marked to clearly show the route?		
Is there sufficient oxygen for 72 hours?		
Have transportation needs been identified for the students with disabilities, such as special vans and buses for students?		
Do you have contract(s) in place with your transportation service provider(s) in case of an emergency?		
Is there a master list of bus drivers?		
Have you identified any necessary tools such as personal response plans, evacuation equipment or visual aids for students with disabilities?		
Have you identified communication needs with students who have limited English proficiency?		
Have you considered emergency accommodations for those with temporary disabilities?		
Have you encouraged a relationship with students and the local responders?		
Have you reviewed your plan with emergency responders?		
Have you identified an evacuation site that is accessible to students and staff with disabilities?		
Have you identified a secondary evacuation site?		
Has a "buddy system" been developed for each student?		
Have you identified all of your communication needs for your students with disabilities?		
Have you trained the staff on proper lifting techniques?		
Have staff, students and families been encouraged to provide 72 hour medications?		
Has evacuation route information been compiled and distributed to staff?		

APPENDIX B

Alameda Unified School District	Sara Stone Chief Academic Officer	sstone@alamedaunified.org (510) 337-7092

General Information

[A description of the impact the COVID-19 pandemic has had on the LEA and its community.]

Alameda Unified School District (AUSD) serves the needs of some 9600 students from pre-school through high school. Those students reflect the diversity of our community and the San Francisco Bay Area region. In 2019-2020, the demographic breakdown was: 26% Asian, 29% white, 18% Hispanic, 7% Black/African American, and 12% of two or more races. About 30% of our students are low income and 13% are English Learners, and Approximately .5% are Foster Youth.

To serve this diverse community of learners, AUSD’s nine elementary schools, four middle schools, and four high schools offer a wide range of educational opportunities, including neighborhood schools, STEAM programs, intervention services, arts integration, and newcomer classes for students who have recently arrived in this country. Our high schools have strong Career Technical Education programs, including Broadcast Journalism, Sports Medicine, Childcare, and Genomics, as well as a full array of Honors, AP, and Visual and Performing Arts classes. Our continuation program at Island High School supports students needing support to graduate; our magnet high school – the Alameda Science and Technology Institute – offers an Early College Program that provides students opportunities to earn college credits and/or an Associate of Arts degree while still enrolled in high school.

Some specific highlights from the 2019-20 Local Control Accountability Plan (LCAP):

- Continued expansion of the existing Multi-Tiered System of Supports (MTSS) program to provide more mental health and behavioral intervention support to sites and implement an academic universal screener/progress monitoring/intervention system.
- Increased capacity and systems for data-driven improvement. Implementation of an academic diagnostic/screening tool has increased the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports.
- Strategic Planning within the Special Education Department: Continue to define a services delivery model for students with special needs that is facilitated by high quality teaching, supported through active engagement in the least restrictive learning environment, and monitored by multiple measures of student achievement.
- Ongoing implementation of the English Language Development program to support improved outcomes for English Learners in both fluency acquisition and mastery of core content. This remains a highlighted area within AUSD’s LCAP. Language and Literacy staff

continue to work across departments to build capacity for a broader group of staff to support EL needs following significant staffing reductions in the spring of 2018.

- Expansion of Career Technical Education (CTE) pathways. 2019-20 edmark the opening of a new Biotechnology pathway, expansion/redesign of the Sports Medicine pathway, and deepening of the work within the Broadcast Journalism, Digital Filmmaking, and Marketing pathways. The work within CTE is a collaboration of AUSD staff, community members, industry, and city partners.
- Maintain forward progress in many areas parallel to the ongoing process of reprioritizing the budget to increase employee compensation.

In order to make progress towards our LCAP goals, we must:

- Eliminate barriers to student success and maximize learning time,
- Support all students in becoming college and work ready
- Support all English Learners in becoming college and work ready
- Support parent/guardian development as knowledgeable partners and effective advocates for student success.
- Ensure that all students have access to basic services

While Senate Bill 98, which was passed on June 29, 2020, removed the requirement for a 2020-21 Local Control Accountability Plan (LCAP) and instead has asked for this Learning Continuity and Attendance Plan (LCP), we continue to strive towards our LCAP goals, knowing that some shifts might be necessary due to the constraints of operating during a pandemic. In order to do this, we have some specific goals that we continue to work towards, even during COVID-19. Of course, COVID-19 has created some safety and logistical challenges that required us to make some shifts to how we implement our plans in service of these goals. We continue to plan for the following goals, making adjustments based on our current needs and state and county required pandemic responses:

- Improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism
- Decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates
- Improve completion rate including reduction of middle and high school drop-out rates and increase of high school graduation rate
- Improve student achievement on both statewide and local assessments
- Increase College and Career Readiness
- Improve English Learner Achievement
- Implement State Standards for English Learners
- Improve efforts to seek input from parents/guardians to support informed district/school targeted supports
- Improve parent/guardian participation in school, especially in the area of increasing access to college and career readiness resources
- Improve early educational opportunities for parents/guardians in which they develop strategies/skills for supporting their student(s) and serving as leaders in the school/district community.
- Maintenance of a highly qualified teaching staff
- Provision of adequate instructional materials
- Maintenance of a safe learning environment

The COVID-19 pandemic has had a profound impact across all levels of Alameda Unified School District. In March 2020, when a Shelter In Place was ordered, we rapidly transitioned to Distance Learning. This rapid shift brought an onslaught of challenges to students, families, educators and administrators. We recognize the profound impact that the closing of school buildings and moving into distance learning has had on our students, families, and staff, especially those who live in poverty, are second language learners, are in foster care, or have disabilities. While we maintain our work connected to our 2019-20 LCAP during the 2020-21 School year, we also have had to make some necessary adjustments and implement some new work in response to the COVID-19 pandemic. We have paid special attention to ensuring that our planning is trauma informed, understanding the deep social, emotional, and mental health challenges that have come with this pandemic. Achieving equity for our students has been, and remains, at the forefront of the district's work, and the pandemic has exacerbated existing injustices for students. Addressing these issues of access guided initial crisis response in the Spring, and as seen in this plan, continues to guide how students and families are supported. While the Spring focused on basic needs such as technology, nutrition, and supplies, the Fall will continue to build on this through a focus on priority standards, targeted instructional support, mental health support, and increased and intentional family and student outreach.

AUSD is starting the year in a distance learning model. We have two distinct programs that will be able to support the needs of students, families, and staff. We have a fully remote program that we opened to support any students, staff, and families who might be immunocompromised and who might need to remain in Distance Learning for the entire year. This is a program that will continue all year long, even if the County deems it safe for in person instruction. The other program is a Flexible program that will be able to flex between Distance and In-person learning. We are actively working towards getting students back into our school buildings as soon as it is safe to do so. We understand the immense burden that families are facing, juggling their own workloads and responsibilities along with managing student schedules and engagement. AUSD is committed to reopening school campuses when it is safe to do so, and continues to use local and state guidance, as well as stakeholder feedback to inform the reopening plan.

Stakeholder Engagement

[A description of the efforts made to solicit stakeholder feedback.]

AUSD engaged in a cycle of stakeholder feedback and decision making connected to continued instruction during the COVID-19 pandemic. This cycle included a Strategic planning team made up of the Superintendent, Chief Academic Officer, Chief Student Support Officer, and Data and Assessment Coordinator to work closely with a Task Force made up of representatives of staff and community to plan for and facilitate the surveys, Town Hall engagements, and Staff working groups to receive feedback and make recommendations to the School Board. Meetings were held weekly between March 13, the date of the close of campuses thru August 27th, the first day of school through this cycle of stakeholder engagement.

Strategic Planning Group:

- Superintendent
- Chief Academic Officer (CAO)
- Chief Student Services Officer (CSSO)

- Data and Assessment Coordinator

AUSD 2020-21 Redesign Task Force and Working Groups:

- Teachers
- Principals/Asst. Principals
- District Office staff
- Community partners
- Working Groups:
 - District operations- facilities/cleaning
 - Site operations
 - Curriculum/Assessments
 - Special Education
 - ELD
 - Technology
 - Mental Health/SEL
 - Remote Design
 - Food Services
 - Afterschool/Parent support
 - Grading
 - Attendance
 - Enrollment
 - Secondary Math/World Language
 - Student/Staff Safety
 - Student/Staff assignment/Negotiations

Stakeholder Engagement/Consultation:

- Alameda Education Association (AEA) and California School Employees Association (CSEA), (Union partners)
- Student Advisory
- Student Survey
- Parent Survey
- Academic Committee
- Community Advisory Committee (CAC)
- Parent Teacher Advisory Committee (PTAC)
- ASped
- District English Learner Advisory Committee (DELAC)
- After school and enrichment partners
- Town Halls

Board of Education:

- June: 9, 23
- July: 16, 17*, 22*
- August: 10*, 21*, 25
- September: 8, 22

* Special Meetings

Town Halls:

- 5/7/20 - Encinal Jr. & Sr. High School Parent/Guardian Town Hall
- 5/13, 5/14, 5/15 and 5/18 - Student Advisory for Graduating Seniors
- 5/14/20 - Lincoln Middle School Town Hall
- 5/21/20 - Wood Middle School Town Hall
- 5/28/20 - Alameda High School Town Hall
- 6/4/20 - Mental Health Town Hall
- 6/16/20 and 7/9/20 - Elementary Student Town Hall
- 6/17 and 7/23 - SpEd M/S Town Hall
- 6/18 and 7/30 - SpEd M/M Town Hall
- 6/22 and 8/13 - PTAC Town Hall
- 6/30/20 - WCDC Family Town Hall
- 8/4/20 - Athletics Town Hall
- 8/12/20 - Student Advisory
- 9/23/20 - PTAC Meeting
- 9/29/20 - CAC Meeting

We received feedback from our Parent Teacher Association Council (PTAC) on September 28, 2020 and have incorporated elements into this plan. The complete document is included as an attachment at the end of this LCP.

The District's response dated September 30, 2020 is also included as an attachment.

[A description of the options provided for remote participation in public meetings and public hearings.]

It has been extremely important to AUSD to be able to convene as many engagements as possible and to make them accessible to our community. We found that using Zoom and Facebook streaming (when possible) allowed for maximum engagement. All public meetings have been recorded and made public on our district website after the meetings.

Surveys (April and June) to elicit community input also preceded and proceeded these meetings. These surveys were delivered via the Student Information System when it was important to hear from all of our stakeholders so that we could account for participation. If we did not get complete participation staff called families to either share information or ask questions to elicit feedback.

[A summary of the feedback provided by specific stakeholder groups.]

We learned a great deal from our stakeholder engagement cycles. Mainly, we heard that for the 2020-21 School Year we need to:

1. Determine the priority grade level standards and skills that each grade level/content area need to focus on next year;
2. Deepen our vision and practice for Asynchronous and Synchronous Distance Learning including professional development, curriculum, assessment, differentiation based on student needs, and standards based grading; and
3. Communicate academic expectations with families and providing examples of the work to students so that they know what is expected of them

In addition to the above implications, we are also continuing to hold the Graduate Profile, our district community's vision for students, at the center of our thinking and planning. That coupled with some clear Core Values and Guiding principles (developed from what we heard from our staff, students, and families as well as our data), we know we must prioritize the work to deepen and clarify it. Our goals and focus practices for the 2020-21 school year are that:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity;
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction;
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards; and
- We integrate social emotional and trauma-informed approach as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning.

[A description of the aspects of the Learning Continuity and Attendance Plan that were influenced by specific stakeholder input.]

In addition to County guidance, all of the Learning Continuity and Attendance plan was influenced by stakeholder input (as described above). We also used research and ideas from other districts on best practices for blended learning, engagement, culturally responsive and trauma informed practices to inform our plans. Every plan was also put through the lens of the following core values and priorities:

Core Value:

"We meet the needs of each learner."

Guiding Principles:

Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.

Core Value:
"We develop the whole child."

Guiding Principles:
Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).

Core Value:
"Mastery of Essential Standards through flexibility of structures"

Guiding Principles:
Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.

Core Value:
"We will support all students to embody the AUSD Graduate Profile"

Guiding Principles:
Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.

Core Value:
"Learning to read is key to students' academic success"

Guiding Principles:
Our plan will prioritize students who are learning to read

Core Value:
"Coherent Systems to Ensure Students are College & Career Ready"

Guiding Principles:
Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready

Core Value:

“We will invest in our staff in order to realize our vision for students”

Guiding Principles:

Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.

Continuity of Learning

In-Person Instructional Offerings

[A description of the actions the LEA will take to offer classroom-based instruction whenever possible, particularly for students who have experienced significant learning loss due to school closures in the 2019–2020 school year or are at a greater risk of experiencing learning loss due to future school closures.]

We are prepared to provide both In-person and Distance Learning during the 2020-21 School Year. In order to prepare for this Flexible model, we have developed a Flexible instruction model which blends both in-person and virtual learning. The purpose of this program is to allow students to return to school as soon as it is safe. Content is delivered by the teacher synchronously, students practice skills and/or complete projects asynchronously using core district curriculum, zoom, and google classroom. In addition, we are working to determine how to support smaller groups of students who need more support and would benefit from in-person learning to come to sites in a “learning hub” model when safe. This must be in accordance with county and state mandates.

For those students, staff, and families who will not be able to return to on-campus instruction due to underlying health or other issues, we have also developed a fully Remote Program. This program will be primarily “asynchronous” (or independent) and done at the student’s own pace using an online curriculum. Teachers will work as “case managers” of students’ instruction and will work with students one to one or in small groups, and parents/guardians will work collaboratively with the teachers to support and coach their students.

Cleaning and safety: Note: We have based this on the most current County guidance as of the writing of this plan. All is subject to Labor Partner Negotiations.

Face shields/cloth coverings:

Cloth masks:

- Required for TK and up
- Required for all school staff
- Exceptions: unable to wear them due to special circumstances, such as a particular developmental or health diagnosis that would limit their ability to wear a face covering.

Face Shields:

- Permissible as a substitute for teachers and students unable to wear a face covering for reasons of age and special need
- Should be worn with cloth drape across the bottom tucked into shirt
- Can be worn to compliment a cloth face covering
- Will be available for staff

Temperature Screening:

- Students and families are required to self-screen at home or before entering the building.
- If self-screening is not completed at home, school staff may conduct on-site visual screenings (coughing and runny nose) and temperature screenings.
- No-contact thermometers have been purchased for all health clerks and all administrators in AUSD.
- Asymptomatic individuals or individuals with mild non-specific symptoms may not realize they are infected and may pass through screening.
- Self-screening is a must and may consider using a lower threshold temperature

Distancing:

- Where practical, desks will be placed six feet apart and arranged to minimize face-to-face contact
- Permissible to relax 6-feet recommendation if it ensures all/more students receive in-class instruction
- Face coverings and cohort stability are higher priorities if they allow for more practical utilization of physical spaces to provide in-person instruction.

Cohort Size:

- As practicable, students should remain in the same space and in groups as small and as consistent as possible.
- When it is not possible to remain in stable cohorts within the same space (e.g. secondary school), face coverings and limiting group gatherings are a higher priority.

How will we properly clean and disinfect our schools?

- Follow CDC & EPA Guidance for Cleaning & Disinfecting Facilities.
- Disinfect with EPA-registered List N solutions for use against Covid-19.
- Apply disinfectants with electrostatic sprayers as the new standard of infection control.
- Sufficient and capable staffing.
- Develop policies, educate, train staff on worker protection; cleaning and disinfection protocols, proper use of materials and equipment while complying with OSHA's standards.

Academic Goals and Priorities:

Paying attention to our 2019-20 LCAP Goals, and planning for ensuring that teaching and learning continues during this challenging time, we have developed the following set of goals and priorities for both our Flexible and Remote Learning options in order to mitigate learning loss for all students:

Student level goals (across content, aligned to Graduate Profile):

Students dialogue about equity issues and take action to interrupt inequity

- Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action
- Read, think, talk, and write about complex texts every day
- Establish and maintain healthy and rewarding relationships with diverse individuals and groups

Teacher priority practices (across content)

Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity

- Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- Teachers build positive relationships with and among our students to create the conditions for learning

Leadership Practices

School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity

- School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision
- School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards
- School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning

District Goals

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students
- We maximize interaction and independence in students' blended learning experience We integrate social emotional and trauma-informed approaches as the foundation for learning experiences

Conditions for Adult Learning

- We learn by collaborating, planning, doing, and reflecting
- We have space to be vulnerable, self-reflective, and create meaning

- Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Actions Related to In-Person Instructional Offerings [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing

<p>Cleaning and disinfecting supplies, personal protective equipment, and informational signage for schools over the summer in preparation for the possible opening in a hybrid school plan</p>	750,000	Yes

Distance Learning Program

Continuity of Instruction

[A description of how the LEA will provide continuity of instruction during the school year to ensure pupils have access to a full curriculum of substantially similar quality regardless of the method of delivery, including the LEA's plan for curriculum and instructional resources that will ensure instructional continuity for pupils if a transition between in-person instruction and distance learning is necessary.]

Our district's goal is to balance the complex variety of needs that students, families, and staff are currently confronting, including reducing the risk of COVID-19, reducing student learning loss and isolation, and supporting families to return to work. Our district's top priority for learning is to return to a standard school model, with all students in class five days per week. When the standard school model is not permissible by Departments of Public Health, the Flexible Model and the Remote Model described below will be in place. We will continue to work with our labor partners to develop a plan that is in accordance with County Departments of Public Health guidelines at the time of opening, and is built in collaboration with our union partners.

The health and safety of our students, staff, and families is of the utmost importance. When permitted to return in-person learning, on-campus school will look much different than previous years due to new health and safety measures. Our plan to reopen schools is based on current guidance from public health officials and state agencies and will be continually updated as the situation evolves. It is important to note that our District plans will focus sharply on academic instruction to enhance student performance and address learning loss.

Flexible model: Combination of teacher directed instruction and online learning; Teacher is planning and delivering content and instruction, Class time used for discussion and projects that synthesize information, Lessons/lectures through online videos students can access at their own time and pace, Choice in ways to practice and demonstrate understanding of skill/standard, Students pacing depends on mastery of skills/standards, Can be moved to a Full distance model if needed due to SIP.

Remote model: Online curriculum program is used to provide instruction to the student; Working closely with the teacher, the parent (or other responsible adult) serves as a "Learning Coach" to the child, helping to facilitate his or her progress and working to modify the pace and schedule as needed, Students work in a self-paced, asynchronous environment for most of the day, Teachers work as "case managers" who meet with students as needed to support learning, Synchronous time with teacher is used to answer questions, interact with other students, check in, do SEL activities.

Access to Devices and Connectivity

[A description of how the LEA will ensure access to devices and connectivity for all pupils to support distance learning.]

When schools suddenly closed mid March last school year, our technology department and site staff quickly developed a plan to hand out chromebooks to all students who needed a device at home. We determined need through surveys, teacher input, and family outreach. In addition to providing chromebooks, we gathered information about who had a lack of internet and connectivity and began to hand out hot spots.

During the 2020-21 School Year, AUSD will continue to ensure access to devices and connectivity for all pupils to support distance learning whenever it occurs, including:

- Provide Chromebooks to all students. 1:1 for all grade levels (K-12).
- Provide remote access to labs or provide laptops for CTE/digital course students (Adobe).
- Explore internet access for students lacking fast internet. Coordinating with the Alameda Education Foundation and internet providers.
- Design technical support model for staff, students, and parents. Web site (self help and guidance) and access to tech requests.
- Purchase Zoom or Google Meet licenses.
- Provide alternative technology available if needed.

Pupil Participation and Progress

[A description of how the LEA will assess pupil progress through live contacts and synchronous instructional minutes, and a description of how the LEA will measure participation and time value of pupil work.]

Our 2019-20 LCAP names our goal of eliminating barriers to student success and maximize learning time. In order to do this we have been working to improve student attendance including increase of basic attendance rate and decrease of chronic absenteeism and decrease class time missed as a result of discipline including reduction of both suspension and expulsion rates. The challenges that we now face, due to COVID-19 and the need to have flexibility between Distance and In-person learning have made us create some new systems to track attendance and participation. Compulsory attendance means that all students are expected to participate in school, including the teacher's live daily online instruction and the completion of assignments given by the teacher. Both of these elements are expected parts of attending school and, to comply with state law, AUSD will implement a new attendance taking system that tracks both daily attendance in live instruction and each student's ongoing completion of school work. We also know that we must continue to work towards creating engaging, culturally responsive, and rigorous learning through both synchronous and asynchronous lessons so that our students are excited to participate.

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

Weekly engagement

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)

Synchronous = 25

Asynchronous = 155

Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)

(M/T/TH/F)

Synchronous = 120

Asynchronous = 125

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 200

Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 150

Asynchronous = 95

Total = 245

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)

(M/T/TH/F)

Synchronous = 165

Asynchronous = 150

Total = 315

(Wed)

Synchronous = 30

Asynchronous = 210

Total = 240

How is weekly engagement data documented?

On Wednesday, the teacher will input data on the extent to which the student was engaged based on a scale of "0", "1", "2", "3", "4", or "5" for the week:

Weekly Engagement Score (Asynchronous & Synchronous student learning minutes for the week)

Grade K

0-179 mins = "0"

180-359 mins = "1"

360-539 mins = "2"

540-719 mins = "3"

720-899 mins = "4"

900+ mins = "5"

Grade 1-3

0-229 mins = "0"

230-459 mins = "1"

460-689 mins = "2"

690-919 mins = "3"

920-1149 mins = "4"

1,150+ mins = "5"

Grade 4-12

0-239 mins = "0"

240-479 mins = "1"

480-719 mins = "2"

720-959 mins = "3"

960-1199 mins = "4"

1,200+ mins = "5"

Daily Attendance

Each day (TK-5) and each class (6-12) teachers must record students present or absent in Aeries. There are various ways that students can demonstrate attendance:

- Live via web conferencing platform (i.e. Zoom, Google Meet)
- Online response form (i.e. Google Doc, Google Form)

- Blended learning platform login record
- Engagement (Participation) in an asynchronous assignment
- Email record of describing participation
- Phone/Voicemail record describing participation
- Attendance for asynchronous work is based on the student completing the assignment, not the grade value or how much time they spent on it.
- Students shall be marked absent if they do not engage in any synchronous or asynchronous class activity
- If a student submits assignments at any time during the day they are not absent

Daily Attendance Procedures Overview 2020-2021

- Daily attendance is required
- California Education Code section 4504 requires documentation of daily participation for each student, each school day, during distance learning.
- If a student is present during synchronous time, there is no need to confirm their asynchronous participation.

Introduction to the Procedures

Reporting Absences During Distance Learning

Daily participation and engagement in school is expected of all students. Students should follow their distance learning schedule. If a student will not be engaged in their daily scheduled learning, due to illness or otherwise, the district expects parents to call their school site attendance line, to report the absence. AUSD's communications system will still be used to contact parents for any student that is marked absent. Attendance staff will also continue to follow up with parents and guardians regarding any absences.

When students are in Distance Learning, there are two ways that a student can be considered present for the day or the period:

Step 1:

Synchronous Distance Learning

- The student attends the mandatory live session (i.e. zoom, etc.) that has been scheduled for the day or period. Students are expected to participate with a visual attendance check in. If there is a barrier to a visual check-in, participation with auditory or chat features can suffice for documenting synchronous attendance. For the purposes of taking attendance, any participation in the scheduled session counts as attending synchronously.
- If teachers notice that students are habitually late or leaving the live sessions early, the teacher should follow up with the student or parent, or inform attendance staff to assist with follow up.

Synchronous attendance is recorded by the teacher of record (classroom teacher) each school day in Aeries during their live meeting with students or directly after. Each period for secondary students.

An attendance code must be entered for each student:

A – Absent, missed Synchronous Distance Learning live session

P – Present, attended Synchronous Distance Learning live session

Step 2:

Asynchronous Distance Learning

- Students who are marked absent (A - missed Synchronous Distance Learning live session) for the day or period, an alternative attendance code may be used to mark the student present if the student attempts or completes independent activities on that attendance day.
- The student must complete an assignment or assessment that has the equivalent time value of the day or the period. Assigned activities should be chunked into daily work for this purpose.
- The teacher must verify that the student has completed the work during that attendance day by reviewing the work submitted by the student, or by engaging with the student or their parent/guardian to verify completion of the activity.
- If a student is unable to complete an activity, but the teacher is able to engage the student or their parent/guardian on that day to discuss and try to resolve the student's challenges, then the Asynchronous Distance Learning Present code may be used.

Teachers have one school week to go back and make an adjustment to document asynchronous attendance in lieu of an absence.

NOTE: Only a student marked 'A' absent should be updated.

L – Asynchronous Learning Present

When using the Asynchronous Present attendance code, the teacher of record must add a note when recording the student's attendance that specifies what type of engagement occurred:

- Time Value of Assignment (TVA)
- specify the online system where work was submitted or the type of assignment completed
- Student or Parent/Guardian Engagement (SPE)
- specify the nature of the communication - email, individual zoom, call, etc. with an explanation of how the teacher engaged the student in order to complete the assignment.

Weekly Attendance

Teachers must attest that attendance has been accurately captured in Aeries each week by reviewing their electronic attendance record each Wednesday for the prior week's activities.

At this time, all students who are still marked with a 'A' and have not met the Asynchronous Distance Learning requirement will have their record updated to:

K – Missed Synchronous and Asynchronous Distance Learning requirements.

RECORDING ATTENDANCE - EACH DAY/PERIOD

1. Synchronous Distance Learning Daily mandatory meeting.

Login to Aeries. In the left navigation tree choose ? Attendance

2. Check the appropriate attendance code next to the student's name to record Synchronous DL:

Synchronous Attendance codes:

P - Synchronous DL Present

A - Absent

Z - Tardy

Students who miss 30 minutes or more of the day's scheduled live meeting should be marked with a "Z".. Please discuss expectations around the importance of attendance with your students. If necessary, arrange a separate meeting with the student and/or parent/guardian if the student makes this a habit.

3. Asynchronous Distance Learning Daily Follow up:

For any student who was absent from Synchronous Learning, check to see if they met the Asynchronous work requirements and update attendance accordingly:

Asynchronous Attendance codes:

L – Asynchronous DL work completed

K – Asynchronous DL work attempted but not completed

4. Teachers must enter notes / remarks / comments for students who are being marked present with an asynchronous code. The note should be entered in the field next to the attendance code, and can be brief.

Samples:

TVA: 75 Minute Edgenuity assignment “Working with Molecules”

Student Contact: Met with student to review the “Working with Molecules” assignment

Parent Contact: Met with p/g to review the “Working with Molecules” assignment

For students who are absent from Synchronous meetings, are not attempting Asynchronous work and who you are not able to contact. Please leave the A – absence code and add a note in attendance. Sample:

UNC – unable to make contact. ParentSquare message, no response. No work completed.

VERIFYING ATTENDANCE AND ENGAGEMENT - EACH WEEK

1. Teachers will run the Weekly Attendance Report by Class each week to verify student attendance and engagement.

Teachers may see attendance codes the attendance staff have entered. Check the attendance notes or attendance log to see if there are questions about what is entered. Contact school sites attendance staff if there are any questions.

Attendance procedures for when there is a substitute teacher:

Substitute teachers should be provided with the teacher’s class roster and a copy of our attendance procedures. They should note attendance on the roster and submit it via email to the school site attendance personnel.

Grading

On June 8th 2020, the California Department of Education (CDE) issued general guidelines regarding reopening school’s during COVID19 and for the 2020-2021 school year. The considerations below are primarily adapted from this document’s guidance on grading. The CDE may further delineate grading requirements in the near future. The district will be moving to standards-based grading, which is in large part due to the urgency, especially in these times, for students to accelerate their learning towards the priority standards for each course.

During the 2020-2021 school year, our school and students will still be heavily impacted by the effects of the global pandemic. While accountability measures such as grading will return this school year, we still have students caring for siblings, parents who have lost jobs and are worried about meeting their family's basic needs, and worst case scenario, people getting sick. Even when families have their basic needs met, many are reporting increased anxiety and stress which will affect learning. While we are committed to ensuring one-to-one internet and devices for all families, we know that many people will still have slow internet or do not have a private quiet place to work in their homes. The world has shifted. We must be flexible and caring for all involved as we consider how to assess and provide fair feedback for students.

As we enter into this new reality, blended learning with a focus on standards must be at the heart of all we do, including assessment. This is a time to be creative with students, learn what interests them, and find new ways to make education relevant, engaging, fun, and meaningful. In addition, we need to communicate clearly and effectively with families and students about what students have completed as well as mastered. We must also ensure that we are clear and transparent on the priority standards for our course and how students will demonstrate mastery.

Standards-Based Grading helps reflect back to students (and their families) the degree to which they are mastering the Standards via assignments. In Elementary (TK-5) this was already in practice prior to COVID. In Secondary, we will use the following during COVID.

Grading Guidance

- Grading should be based on a student's progress toward mastery of standards. When letter grades are given they should correlate to the following:
- A Mastery - The student demonstrates an in-depth understanding of the priority grade level standard(s) by consistently completing advanced applications of the material
- B Proficiency - The student has mastered the complex, targeted knowledge for most/all priority grade level standards for the class
- C Meets Standard - The student understands the foundational material that supports the targeted learning, but is still working to master the complex material for priority grade level standards for the class
- D/Not Yet - Even with assistance from the teacher, the student does not yet understand the priority standards. A "NM" will be given for missing work until the end of the semester if mastery is not achieved.

School sites may need to discuss percentage breakdowns as they correlate to grades.

- Grading for English Learners should also take into account their progress towards the ELD standards. If a student is not yet meeting a content standard but making progress to the next level of ELD proficiency they may still receive a passing grade.
- Assessment for students with IEPs must be appropriately modified and accommodated.
- Grades should be recorded and communicated through Aeries. Narrative grading should be used when possible.
- All grades must have standards-aligned evidence as the basis of the grade in order to ensure clear communication with students and families who have questions or need additional support in understanding their progress towards mastery and grades.
- The lowest cumulative grade a student can receive for each term will be a C for Middle School and a D for High School (all students not meeting the requirements for these grades will receive a "No Pass" if no work was turned in or "Not Yet" mark if they have shown no evidence of mastery in the work turned in).

- All students will have the opportunity to revise and resubmit work to show mastery towards literacy standards by the end of the course.

AUSD is in a rapidly changing educational environment and the administration will hone and refine the district's response to the pandemic as circumstances change and new information becomes available. Key variables that will influence decisions about grading practices include, but are not limited to, length of school closure; new guidelines from the CDE; new policy from the Governing Board; decisions made by colleges and universities; and changing health and safety conditions in the community.

Distance Learning Professional Development

[A description of the professional development and resources that will be provided to staff to support the distance learning program, including technological support.]

Our 2019-20 LCAP names that we must eliminate barriers to student success and maximize learning time, support all students in becoming college and work ready, and support all English Learners in becoming college and work ready. We knew that in order to continue growth in these areas, we would have to support our teachers and staff to learn new skills to use during Distance Learning.

Teachers, Paraprofessionals, and other staff began the year receiving professional learning through a 4 day August Learning Conference. It was structured to model best practices in Blended Learning. Teachers and other staff participated in new learning connected to using online platforms and learning management systems, focusing on priority standards, and strong trauma informed engagement practices so that they build skill and understanding of Blended Learning and Distance Learning practices. The conference learning took place through direct synchronous instruction, cross-site collaboration, grade level/content level collaboration, site level discussions, individual preparation time, and self-paced asynchronous learning.

Teachers will have collaboration/professional development time every Wednesday. This time will be utilized for completing their educational activities and trainings within the categories of student instruction (in-person or virtual), district organized professional development, teacher prep time, and common planning time to meet student outcomes as determined by district priority standards, LCAP, SPSA, and WASC goals.

Monthly collaboration/professional development schedule

Week 1: Site Level Collaboration

Week 2: Home (Cross-Site) Collaboration

Week 3: Site Level Professional Development

Week 4: Community of Practice- Anti-racist educators

Week 5 (if necessary): Unit Member directed Collaboration

Paraprofessional Training: A Learning Conference was also held for Paraprofessionals before school began to assist with their support of students in distance learning. Training curricula called Master Teacher and Behavior University have also been purchased to assist with professional growth throughout the school year. Education Specialists will guide paraprofessionals in the supports that they provide. For Moderate Severe (M/S), students, paraprofessionals will participate in classroom meetings with the teacher and related services staff to plan

supports for students based on student progress data. Finally, training will continue to be provided for M/S paraprofessionals in Applied Behavioral Analysis practices.

Staff Roles and Responsibilities

[A description of the new roles and responsibilities of affected staff as a result of COVID-19.]

With the Covid-19 pandemic and school closures, all site staff, as well as district staff, have had to change the way they do their job in order to respond to the uniqueness of needs during this unprecedented time. In March 2020, all schools and district offices in Alameda Unified School District, as well as many districts in the state, were abruptly closed. Teachers and other school staff had to respond instantly because every passing school day students were at risk for learning loss. Teachers and staff did respond and adapt to this uncharted territory with new roles and responsibilities in nearly all aspects of their job. Specifically, with the creation of two distinct programs, the Remote Program and the Flexible program, staff have had to adapt to changes in how we support our students, staff, and families. We continue to adapt, and roles and responsibilities continue to evolve as we proceed through this school year. Some of the new staff roles and responsibilities during the time of COVID-19 are reflected below.

Remote Program:

Remote Principal:

- Ensure all staff have the ability to provide remote learning access
- Ensure all families have access to remote learning opportunities
- Facilitate coordination between Remote School staff and Home School staff

Remote teachers:

- Act as teachers who case manage students' courses and also provide academic support providers to assist them in achieving success with the online curriculum.
- Meet with students individually or in small groups to provide tutorials necessary for students to successfully complete the online curriculum.
- Communicate regularly with both the Learning Coach (family member) and students to support students' success.
- Communicate regularly with "home school" point of contact to inform them of student progress.
- Build relationships with families to support all students in their academic successes.
- Students will have interaction with teachers on a daily basis along with progress meetings, parent/teacher workshops, emails and other contact with the teachers.
- Review student data and coordinate small group instruction based on need.

Specialists:

- Elementary Media/Library, PE, and Music who had provided enrichment during teacher preparation time to students pre-COVID were moved into classroom teaching positions to accommodate our Remote program.

Staff new to AUSD during COVID-19:

- All onboarding and professional learning was done virtually and focused on the use of our systems and technology.

Flexible Program:

Teachers and Classroom Instruction: In the Flexible model, learning, engagement is much more difficult. Teachers will need to develop new strategies to capture students' attention and keep it. The lessons will need to be short but more focused. Teachers will be required to contact students and/or parents/guardians as a part of their duty day to re-engage and/or offer clarity. Teachers will be required to provide extra support for students who have experienced or are at risk for learning loss. Teachers now have blocks of time to arrange strategy groups of students who need this additional support. Rather than posting the daily schedule on the white board, teachers will post on the learning management system, and track the value of time for their assignments. Teachers will need to navigate situations with parents in the room either asking them to get more involved or to give their child more independence. Teachers will need to modify events such as back to school night, moving to an online method. All materials and assignments will need to be modified for access in these new models.

CTE pathway teachers have received materials and technical support to help them to adapt their courses to be able to provide high-quality instruction for students enrolled in the Flexible program.

Special Education Teachers: SpEd Teachers will need to work with their students in a new way. When students can not connect in person with their teachers, it is harder for teachers to build relationships and trust. This will be even harder for some of our students with special needs. Online conferencing platforms can be off putting for many students, and some will refuse. Special Education teachers will have to be masterful communicators and strengthen their skills to increase student participation and engagement.

Principals: Communication and outreach will become a major part of the principal's job. In distance learning principals will need to monitor attendance in a school wide system differently. The principal will need to set up a system for tracking participation school wide, and school specific strategies for re-engaging students. Principals will now be required to communicate weekly with the parent community and differentiate messaging across multiple platforms. They need to ensure that all students have access to the technology needed for DL/hybrid learning. They will need to supervise teachers by attending online conferencing sessions and offer feedback. They will monitor learning management systems, and assessments. They will change staff meetings to an online platform and provide opportunities for teachers to maintain positive relationships with each other.

Site Office Staff: School Administrative Assistants or attendance staff will continue to monitor attendance and respond, but this will also change to adapt for distance/hybrid learning. Reminders to teachers to document, new coding procedures, and outreach will change. Attendance is now multi-faceted, joining a Zoom session alone will not suffice. When a student is ill, staff will have to proceed according to the Alameda County guidance. Parents will have limited access to the school, so all registration procedures have been changed to online.

Custodial: During distance learning the custodial staff roles and responsibilities will be more focused on disinfecting staff used areas, keeping an inventory of masks, gloves, and disinfectants for use by staff who are on site. Staff will work on preparations for opening in a hybrid model

including relocating desks and chairs. They will be responsible for modeling the social distancing, mask wearing, and representing the current health safety requirements.

School Psychologists: School Psychologists will gather and analyze available assessment data in order to provide guidance on determination of special education eligibility if possible taking into consideration shelter in place and social distancing. They will complete assessments to the extent possible within the mandated IDEA timelines. In addition, they are supporting case managers and students with socio-emotional support.

Nutrition Services Staff: Some staff worked over the summer at central locations providing meals for our students. This school year, while in distance learning, instead of working out of their usual sites preparing breakfast and lunch for students, they are stationed at centralized locations distributing grab and go meals to all AUSD students.

District Nurse: Responsible for collaborating with state and local health departments to update emergency operations plans for all sites.

District Administrators: Many District administrators including and staff worked beyond their work calendar in order to create plans for distance learning including professional development plans, technology plans, and plans for assessment. Their jobs continue to focus on providing support for teachers instructing in a distance learning environment.

District Office Staff: Staff are able to continue supporting the schools by working from home with some opportunities to work from the District Office as permitted.

Both Flexible and Remote:

Attendance and Participation Tracking: Teachers will be responsible for monitoring attendance in a whole new way. Attendance is no longer a simple operation as it was in the past with “present,” “absent,” or “tardy.” Attendance now is defined by student participation by logging onto online sessions, completion of assignments, completion of assessments, and parent/guardian and/or student contact. Teachers will be required to keep systems for tracking daily participation and will be required to input this data into Illuminate weekly.

Teaching and Learning Department:

The Teaching and Learning department made some position shifts that were not specifically related to COVID-19 but in order to align better with the needs of our sites. While the changes were not based in a response to COVID-19, these positions, as with all in our district, had to adapt to the shifts and needs of our schools sites during COVID-19.

The TK-12 Language and Literacy Coordinator specifically focused on English Language Development and organizing our programming for our English Language Learners, this position supports academic language development across content TK-12. This position is paying special attention to supporting school sites with the needs of our English Language Learners during Distance Learning and working with the Instructional Coaches to develop plans to support individual students needs.

The TK-12 STEAM Coordinator focuses on Science, Technology, Engineering, Arts, and Mathematics instruction across the district.

Language and Literacy Coaches work closely with school sites to analyze curricular resources connected to our AUSD priority standards, and plan for how to teach these units and lessons in the context of blended and flipped learning, backwards plan Structured Discourse from Language Objectives, develop a capacity for self-study and continuous improvement through reflection on instruction and student data, with a focus on ELLs, students w/ disabilities, and black students.

Supports for Pupils with Unique Needs

[A description of the additional supports the LEA will provide during distance learning to assist pupils with unique needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness.]

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In order to address this disproportionate impact, we have worked to support our students in the following ways:

Foster Youth:

Improve our communication connected to the needs of our students in Foster care. This includes: Immediate enrollment; district/school connection and communication with County case manager; high school guidance and communication around AB 167/216 grad requirements.

AUSD's Foster Youth Liaison collaborates with Alameda County child welfare social workers, Alameda County Probation officers, Alameda County courts, and East Bay Children Law Office in order to minimize school placement changes, provide needed supports, and improve educational outcomes for Foster Youth. All Foster Youth are ensured immediate enrollment, regardless of the availability of required documents (ex. Immunization records, birth certificates, transcripts, etc.). AUSD's Foster Youth Liaison also provides training to district enrollment staff, site office staff, Intervention Leads and school counselors. Training topics include information on specific education laws that are specific to foster youth, when and how to notify the Foster Youth Liaison when there are concerns, and policies around graduation requirements outlined in AB 167 / AB 216.

McKinney Vento Homeless Youth:

Continue to provide differentiated support for our students experiencing homelessness: AUSD's McKinney Vento Liaison works closely with and provides training to enrollment staff, office staff, intervention leads, and school counselors to identify students who are experiencing homelessness and provide them extra support. If the youth is enrolling in the district, they are enrolled immediately regardless of being able to provide required documentation (ex. immunization records, birth certificates, transcripts, etc.). When a youth is identified as qualifying for McKinney Vento services, the liaison conducts an intake with the family. Needs are identified and resources are provided. All McKinney Vento youth are provided with AC Transit bus passes for transportation when the district is able to provide in-person instruction and backpacks filled with school supplies. Additionally, all McKinney Vento youth are enrolled in the Free and Reduced Lunch program.

McKinney Vento families are given referrals to: Alameda Food Bank for food access; Alameda Family Services Family Support Center for case management and assistance in enrolling in CalFresh, MediCal, and other assistance programs; Homeless Action Center for legal assistance; All Good Living Foundation for shoes, clothing, toiletries, and hot food delivery from local restaurants; Dine and Connect information about the faith based organization that host dinner and information for homeless; Safe Parking and Day Center information where homeless families can do laundry, charge their phones, watch TV, and have a safe place to park at night and be supported by Village of Love social services; and City of Alameda Homeless Hotline for additional resources that are provided by the City of Alameda. Intervention Leads at each school site do a weekly data review on their McKinney Vento youth to ensure attendance, engagement, and school success. High school counselors meet with their McKinney Vento families to discuss and review eligibility for reduced credit requirement graduation per AB 1806.

Immediate enrollment; transportation (via bus passes); enrollment into Free-Reduced Lunch program; Backpack and School supplies at the beginning of the school year and at the midpoint of school year (after winter break); referrals to social service and health agencies that address specific needs; Holiday toy drive recipients; secondary school counseling regarding AB 1806.

Pupils with Exceptional Needs:

Create an Individualized Education Aligned Plan to be followed during Distance Learning for students with IEPs. The District has planned to provide Student's operative IEP to the greatest extent practicable, through a combination of in-person and distance learning in the "Flexible Model" or distance only learning in the "Remote Model". As indicated in the contingency "IEP Aligned Plan" with components required by Senate Bill 98, the following information regarding services are delineated: access to the general curriculum, specialized academic instruction ("SAI") based on areas of need, related services, accommodations and modifications, supplementary aids and services, transition services (e.g., in effect when Student is 16 years of age or older or younger if deemed appropriate by the IEP team), and extended school year services where appropriate, to be implemented during an emergency. Please be aware that the educational placement and services made available during the time frame of "emergency conditions" are not stay-put, and upon termination of the emergency Student's stay-put IEP is the most recent IEP with parental consent. Please note that some distance learning or related services will involve small and large group learning, meaning other students might be involved in the same instructional or related services activities. Educators and service providers will communicate schedules with individual parents based upon the students' IEP.

Additional Summer Instruction: In the summer, any student with an IEP in AUSD can access additional instruction to address learning loss and assist with recovery. Small group sessions for academics as well as social emotional learning and mental health were provided 4 afternoons per week by District Education Specialists and a Board Certified Behavior Analyst, following Extended School Year in the morning. The Adaptive Physical Education teacher enhanced wellness sessions with online movement games that students and families participated in. Over 40 students requested the program. In the summer, research-based curriculum for online Lexia reading intervention was piloted and received well by staff and parents. The Lexia program was purchased and will be extended to all Mild/Moderate Education Specialists during the 2020-2021 school year. Teachers were trained in a session held during the August Learning Summit held for staff for 4 days before students returned to distance learning.

Additional Fall Instruction: Similar plans are being made to provide students with IEPs across the district additional instruction to support learning loss. This opportunity will be announced soon after the school year begins.

Research-based Curriculum: The special education team reviewed various online instructional curricula to determine programs that would best support learning loss during COVID, including those programs previously used augmented with new programs.

New and continuing curricula include:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

Assessment and Evaluation: Assessment is critical to determine students' learning needs following a period of Shelter-in-Place last Spring. Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans. Assessment efforts include: (1) Training of teachers in STAR benchmark assessment system; (2) development of a plan for addressing assessments due last Spring and coming due in order to inform instruction and annual or triennial IEPs. Temporary NPA Psychologists were hired to complete assessments in the interim until assessments can be completed.

IEP Aligned Plans (IAP): Contingency plans as defined by SB 98 to address student needs for instruction and related services that align with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

Individual Education Plan (IEP): Initial, annual and triennial IEP meetings will continue as prescribed by the Individuals with Disabilities Education Act (IDEA), to provide students an offer of FAPE when schools return to typical times, while also providing an opportunity to discuss emergency plans per Senate Bill 98.

English Language Learners

Our LCAP names that we will support all English Learners in becoming college and work ready. Our vision for English Language Learner (ELL) success certainly includes mastery of Academic Language skills. But the ultimate goal for ELLs is

joyful and fulfilling participation in the community and the world. It is precisely by working towards this goal in our schools and communities that ELLs will have the most powerful opportunities to use, develop and master rich and complex language.

English language learners have been disproportionately impacted during distance learning by losing English language exposure at school and interactive experiences with peers that assist with English language development. We will be intentional in giving English learners opportunities for additional support.

Teachers will continue to deliver Designated English Language Development, except that what they do will now need to be done in a virtual classroom. Time blocks are embedded in our Distance Learning plan so that elementary teachers will be able to pull students into small groups for Designated ELD instruction, and our secondary ELD teachers will continue to have class periods for Designated ELD instruction. The times for instruction do not interfere with ELL students’ access to Tier 1 instruction. We will continue to use our adopted ELD instructional curriculum and materials as well as supplemental resources provided to all students, such as Raz, with access to leveled texts and reading records, and myON (similar), as well as Imagine Language & Literacy, a tech-enabled, adaptive program for all our ELL students in the Remote Program and our Newcomer students in the Flexible Program. This additional purchase was prioritized for our Remote Program students because the Remote Program is more self-paced and independent, and want to make sure students have additional opportunities to practice and demonstrate their Speaking and Listening skills. Newcomer students were also prioritized given their need for additional supports.

Teaching & Learning coaches will support general education teachers with integrating EL strategies into their instruction and providing added supports and scaffolds for English learners in order to support the development of Academic Language skills. This year, we’ve narrowed our EL strategies to our district-wide “Daily High-Impact Language Practices,” for which we will provide initial training and ongoing support. Middle and high school teachers will also continue to use Constructing Meaning strategies modified for online learning.

Pupil Learning Loss

[A description of how the LEA will address pupil learning loss that results from COVID-19 during the 2019–2020 and 2020–21 school years, including how the LEA will assess pupils to measure learning status, particularly in the areas of English language arts, English language development, and mathematics.]

During the 2019-20 school year, students participated in Distance Learning for the last three months of school. During that time, we observed variance in participation rates. As we begin the 2020-21 school year, it is important to determine how COVID-19, distance learning, and participation rates affected the academic mastery of our students. AUSD intends to administer the Star Reading K-12 and STAR Mathematics Assessments K-5, and the Mathematics Diagnostics Testing Project (MDTP) 6-12. Currently, three administrations are

scheduled: Fall, Winter, Spring. The Fall administration will function as the baseline to both observe growth during the 2020-21 distance learning program and ascertain potential opportunity gaps created by the pandemic. Data from Fall will be disaggregated into student groups, grade levels, and school sites. Site leaders and teachers will have access to individual student scores to plan interventions. Scores will be compared to previous average scores for the Fall administration of the Star assessment and MDTP for students who took them at that time. For students who have Individual Education Plans (IEPs), individual learning loss will be assessed based upon assessments, accommodations, and/or modifications articulated in the Individual Education Plans (IEPs).

Eliminating barriers to student success and maximize learning time and ensuring that all students have access to basic services continue to be our goals. School closures and social isolation have affected all students, but particularly those who are experiencing homelessness, living in foster care, have Individualized Education plans, or are English Language Learners. In addition, our LCAP names that we will increase capacity and systems for data-driven improvement. In order to continue to do this we must implement an academic diagnostic/screening tool so that we can increase the relevant data available to teachers for identifying student needs and providing them the appropriate interventions and supports. With this data available, learning loss will be addressed in both our remote learning program and our flexible learning program models with built in time for teachers to hold equity based small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. In the next session our systems and strategies are described in more detail.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: MDTP - The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

In TK-5, we developed the Equitable Start schedule to allow teachers to get to know their students, families, and assess students' specific needs in order to inform their instructional planning. Teachers will use information from these meetings to create specific Tier 2 and 3 small group learning experiences.

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning

- Weekly engagement review

- Connections with parents and families to learn of student needs
- Teacher created assessments

English Language Learners will receive Designated ELD for 30 minutes a day and Integrated ELD through daily content

Based on the needs of students, teachers will work with students in small groups or one to one to provide Tier 2 and Tier 3 supports based on skills or standards mastery needs.

Pupil Learning Loss Strategies

[A description of the actions and strategies the LEA will use to address learning loss and accelerate learning progress for pupils, as needed, including how these strategies differ for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils experiencing homelessness.]

Learning loss will be addressed in both our Remote and Flexible learning models For both our remote learning program and flexible learning program models grades TK-12, time will be embedded in the schedule forwith built in time for teachers to hold equity based Tier 2 and Tier 3 small group sessions to focus on accelerated learning, targeting populations of students who are experiencing learning loss, and are not performing up to standards. These small group times are specifically targeted for students with unique needs. This time is for the purpose of providing additional support to students who most need it. Teachers will track student progress and review during Wednesday professional learning time. Staff will have structured collaboration time to engage in improvement cycles including reviewing student assessments, planning instructional shifts and strategies based on data, establishing clear outcome goals, debriefing lessons as a team, and reflecting on their practice. All of this will be done electronically, using a video conferencing platform if in the distance learning model.

In addition, sites will track achievement data and meet in Coordination of Services Teams (COST) to coordinate potential services for students performing below grade level standards. COST can consist-- Academic services include small group targeted instruction consisting of strategically placed students. These small groups of students will be assessed to determine growth in six week cycles. If a student is not making progress, COST will collaborate to regroup students and try different researched based interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students performing below grade level, but also our most vulnerable students including low socio-economic students, English learners, foster youth and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well.

We know that the burden of school changes has fallen disproportionately on students with greater needs and they will undoubtedly need more focus and attention. Based on Distance Learning in the spring, families reported experiencing anxiety about learning loss in their students with disabilities, difficulty keeping their students engaged in the virtual environment, worry about their students' social-emotional state, and frustration with not being able to receive some in-person services detailed in their IEPs. In addition school closures upended many students' Individualized Education Plans (IEP). In AUSD, our Special Education Department is working proactively to respond to the Covid-19 pandemic and what it means to provide continuity of learning during this time of distance learning. For special education students in AUSD, the IEP team will use the Individual students' current levels of performance for instructional planning will inform IAP Aligned "Contingency" plans for each student with an IEP. The IAP does not change the district's offer of a Free and Appropriate Public Education (FAPE) to students. These "Contingency" plans as defined by SB 98 to address student needs for instruction and related services that align

with the IEP are being completed by Education Specialists to define services during the time of the pandemic emergency. The plans also establish a means for monitoring student progress during distance education.

In order to support addressing learning loss, we have identified the following priorities and goals for our teachers:

- Deepen our understanding and familiarity with the standards for our grade level and/or content area and their relationship to students' previous and future learning. What do we want all students to be able to do?
- Assess students to determine where they are in relationship to meeting the grade-level priority standards and regularly check on student progress. How will we know if they have learned it?
- Proactively plan scaffolding in each unit/lesson according to the learning objective, target standards, and your students' needs. How will we respond when some students haven't learned it?

We are assessing learning loss through:

- Diagnostic, Formative and Summative assessments
- Math: Math Diagnostic Testing Project-MDTP- The Critical Level for each topic is what MDTP considers to be the minimum number of correct responses for a student to show adequate preparation in that topic, and STAR Renaissance Math in 1-5
- English Language Arts: Writing samples, STAR Renaissance, Fountas and Pinnell (TK-2)
- English Language Development: Recent ELPAC Scores, Writing samples, SOLOM, and STAR Renaissance

We will also be using the following to ensure that we are remaining up to date on which students are not able to access learning during Distance Learning:

- Weekly engagement review
- Connections with parents and families to learn of student needs
- Teacher created assessments

Assessments will be administered on an ongoing basis, The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

Kingmakers program:

Kingmakers of Oakland (KOO) provides Khepera Curriculum consulting to Chief Academic Officer. Khepera Curriculum consulting will support the implementation of the "Mastering Our Cultural Identity: African American Male Image" course at four AUSD school sites. Chief Academic Officer will participate in the KOO Learning Collaborative - Strategic Planning and implementation with Cross Functional, Intergenerational Team to address the systems, structures, conditions and culture that leads to improved educational outcomes for African American Male (AAM) students from Pre-K to 12th grade.

Summer programming

High School Credit Recovery:

Credit Recovery is an independent study course that gives students the time and support to complete course work required to receive a passing grade in a course needed for graduation or college eligibility. Credit Recovery can be accomplished through an accredited online learning platform. Select courses also meet the University of California’s “a-g” requirements. High School students can take self-paced courses through the online platform that make up credit deficiencies for high school graduation. Students may work online at their own pace throughout the semester and must check in frequently with their summer program instructor (a credentialed AUSD teacher) in order to take exams and receive credits for each course. Credits earned will be posted on the student’s AUSD transcript.

Elementary Summer School (TK-5):

Our Title 1/ELD summer program serves 200 students and is geared towards supporting English Language Learners and students who receive Free or Reduced lunch. Traditionally 4 weeks long, students receive reading instruction using Leveled Literacy Intervention, Math support through small group instruction, and ST Math and English Language development through integrated content.

Special Education Recovery:

1. We must address recovery per SB 98. The STAR assessment is being utilized to measure student regression areas and/or progress areas.
2. Additional Instruction was piloted in the summer months and went well per staff and parent interviews. Research-based online curriculum was applied (e.g. Multi-Sensory Reading through Lexia). Students were instructed in small groups (up to 4 students) in the areas of English Language Arts, Mathematics, and Social Skills. Any parent could sign up their student.
3. Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.
4. Additionally, we are now researching if we can offer “Learning Hubs” or in-person instruction with precautions to Moderate/Severe students. This is being explored at this time with Cabinet and the SELPA.

These opportunities are important to provide in order to respond to demands for compensatory time that have come or may come from the Spring Shelter-in-Place period. If a demand is made, parents could then be invited to join Additional Instruction Sessions and/or “Learning Hubs” if learning hubs are deemed safe.

Effectiveness of Implemented Pupil Learning Loss Strategies

[A description of how the effectiveness of the services or supports provided to address learning loss will be measured.]

As discussed in the previous sections, the Star Reading and Math as well as MDTP assessments will be administered three times throughout the year. The scores will be compared to projected growth rates to determine learning growth. Additionally, report card grades and district benchmark tests will be analyzed to determine student mastery of grade level standards.

In addition, Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and Attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

The COST coordinates academic services for students performing below grade level standards in literacy and/or math. Academic services include small group targeted instruction by the classroom teacher or a specialist teacher. These small groups of students will have ongoing assessment to determine growth in six week cycles. If a student is not making progress, the COST will collaborate to regroup students and try different interventions and strategies. The COST collaborates and coordinates with a focused eye on not only students' academic achievement level, but also on their social-emotional wellbeing. The Team also focuses on our most vulnerable students including immigrant students, low socio-economic students, foster youth, and homeless students. The team looks at the whole child and works to offer interventions that are focused not only on academic growth, but on emotional well being as well through counseling services, social groups, and focused behavioral and social-emotional interventions.

District Leadership and School Site Leadership teams engage in Cycles of Inquiry throughout the year, using multiple forms of data from the above assessments and observations to determine which strategies and systems are working well and which need to be augmented to better support our students, plan for the use of these strategies, implement the strategies, review through progress monitoring, and adjust as needed.

Actions to Address Pupil Learning Loss [additional rows and actions may be added as necessary]

Mental Health and Social and Emotional Well-Being

[A description of how the LEA will monitor and support mental health and social and emotional well-being of pupils and staff during the school year, including the professional development and resources that will be provided to pupils and staff to address trauma and other impacts of COVID-19 on the school community.]

School closures and social isolation have affected all students, but particularly those living in poverty. Adding to the damage to their learning, a mental health crisis may be emerging as students have lost access to services that were offered by schools. In this new school year, teachers will face a pressing issue of how to help students recover and stay on track throughout the year even as their lives are likely to continue to be disrupted by Covid-19. To assess and strategize with students and family, the following structures are set up in our distance learning program.

Social and Emotional Learning:

School site's Coordination of Services Team (COST) consisting of site specialists which may include the Intervention Lead, Instructional Coach, the Principal, Counselor, ELD Teacher, Special Education Teacher(s), School Psychologist, and attendance Specialist, and Alameda Family Services Clinician, will track achievement data based on STAR Reading and Math, other formative and benchmark assessments, and social-emotional and behavioral data as reported by the team.

Teachers follow the predetermined protocol for referring students to COST, including logging all pre-referral interventions into AERIES. Intervention Leads will utilize the COST Data Tracker to monitor student referrals and progress through the COST process.

Attendance Monitoring (per SB 98):

- AUSD Tiered Attendance and Re-Engagement

Tools for Assessing Student Basic Needs:

- Monthly needs survey for students (two surveys developed - one for elementary and one for secondary)
- Monthly needs survey for families assessing food, housing, internet, mental health
- Monthly Family Survey: <https://docs.google.com/forms/d/1nbnDRN-nb4fOXVF26krQBps5kp4c84C3C92W43hwLuQ/edit>

If a student or family indicates via the monthly survey that they are lacking food, housing, internet or indicate a need for mental health services, they are referred to COST for coordination of services with outside agencies and case management.

Indicators That Mandate an Immediate COST Referral:

- Suspected abuse, neglect or domestic violence (This also necessitates a call to CPS)
- Self harm behavior
- Suicidal ideation (follow AUSD suicide prevention policy)
- Academic Need (Below 10th percentile in STAR)

During Wednesday Site level professional learning, in addition to a focus on using priority standards, professional development will focus on Restorative Practices, Trauma informed instruction, building relationships, and Social and Emotional Learning.

Pupil and Family Engagement and Outreach

[A description of pupil engagement and outreach, including the procedures for tiered reengagement strategies for pupils who are absent from distance learning and how the LEA will provide outreach to pupils and their parents or guardians, including in languages other than English, when pupils are not meeting compulsory education requirements, or if the LEA determines the pupil is not engaging in instruction and is at risk of learning loss.]

Weekly engagement is the extent to which a student is engaged in synchronous and asynchronous learning for the week. Within the schedule agreed upon between AUSD and AEA, teachers have flexibility around how to engage students in asynchronous and synchronous time. Per the state, teachers must ensure each student is engaged in at least the below total number of minutes (asynchronous AND synchronous):

TK/K (State Mandated Daily Minutes = 180)

(M/T/TH/F)

Synchronous = 90

Asynchronous = 150

Total = 240

(Wed)
Synchronous = 25
Asynchronous = 155
Total = 180

Grades 1-3 (State Mandated Daily Minutes = 230)
(M/T/TH/F)
Synchronous = 120
Asynchronous = 125
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 200
Total = 230

Grades 4-5 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 150
Asynchronous = 95
Total = 245

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

Grades 6-12 (State Mandated Daily Minutes = 240)
(M/T/TH/F)
Synchronous = 165
Asynchronous = 150
Total = 315

(Wed)
Synchronous = 30
Asynchronous = 210
Total = 240

After teachers have made the primary calls and attempts to reach students who students are identified who are not meeting the compulsory education requirements and are unable to reach them, students will be referred to the site Intervention Leader and/or Family Liaison so that they are able to follow-up, attempt contact via phone or home visit, and then refer to COST.

Family Engagement and Training:

In order to have quality and high impact Family Engagement we must ensure the following:

- Multiple channels for accessible communication and feedback
- Staff are trained on Family Engagement
- Common priorities are developed to support students needs (prioritizing in-person and asynchronous learning for students with highest needs)

August Family Learning Conference (via Zoom, Facebook Streaming, and videos) to help parents/guardians support their children academically, socially, and emotionally during the coming school year. Our goals:

- Overview of the Flexible and Remote Learning Programs
- Help parents/guardians learn how best to support their children during distance and remote learning
- Teach parents/guardians to use various educational technology programs
- Show parents/guardians how best to stay connected with AUSD and their school sites

Continued family learning opportunities for supporting student engagement:

- Education Services: Primary and Secondary Parent Presentations on Grade Level Standards
- Collaboration with PTAs, ELACs, Equity and Inclusion Committees to pivot into inclusive and equitable practices; including sharing of islandwide asynchronous learning opportunities
- Family and Community Liaisons supporting Title 1 and multilingual communities to navigate Flexible/Remote learning times. Including School Smarts in English, Spanish, Chinese, Arabic, Vietnamese). New Mongolian language affinity group starting!
- Capacity Development for site level School Site Council (SSC) Leadership and DELAC
- CAC (LCAP) leveraging community leaders to support our journey through this pandemic.

School Nutrition

[A description of how the LEA will provide nutritionally adequate meals for all pupils, including those students who are eligible for free or reduced-price meals, when pupils are participating in both in-person instruction and distance learning, as applicable.]

When the school year starts in distance learning, breakfast and lunch meals will continue to be available for purchase at full price, reduced price, or free, depending on eligibility. (We are still waiting to hear from USDA if they will extend its current waiver to allow free meals during the regular school year to all regardless of eligibility).

Meals will be available for curbside Grab-N-Go pick-up Tuesdays and Fridays 11am-12pm at the following locations beginning Friday, August 28:

- Academy of Alameda, 401 Pacific Ave
- Earhart Elementary, 400 Packet Landing Road
- Encinal High, 210 Central Ave
- Lincoln Middle, 1250 Fernside Blvd
- Love Elementary, 2025 Santa Clara Ave
- Paden Elementary, 444 Central Ave
- Ruby Elementary, 351 Jack London Ave
- Wood Middle, 420 Grand Street

Families will be provided multiple days' worth of meals at a time. Parents or guardians may pick up meals for their children and can pick up from any of the following sites listed above regardless of which school your child attends.

Alameda Unified School District understands that the COVID-19 pandemic has brought hardship for many families in Alameda schools. Your child(ren) may qualify for free meals or for reduced price meals for the 2020-21 school year. Applications are now open, and you can access them online at [MySchoolApps.com](https://myschoolapps.com) or on Alameda Unified School Districts website's Meal Applications page. For support, please contact our Food and Nutrition Services Office at 510-337-7079 or email us at nutrition@alamedaunified.org.

[A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.]

The three-year Local Control and Accountability Plan describes the goals, actions, services, and expenditures to support positive student outcomes that address state and local priorities. The LCAP provides an opportunity for local educational agencies (LEAs) to share their stories of how, what, and why programs and services are selected to meet their local needs. Enacted along with California's Local Control Funding Formula (LCFF) regulations, the LCAP includes the requirement that districts outline their use of LCFF Supplemental and Concentration grant funding. These funds must be used primarily to serve unduplicated students. Unduplicated students are those students that are Socioeconomically Disadvantaged or English Learners. As a district with less than 55% unduplicated students, AUSD does not receive Concentration grant funding. AUSD does receive supplemental grant funding. This funding is used for centralized actions/services as well as distributed to sites for site-based unduplicated student supports.

AUSD allocates a significant portion of its LCFF Supplemental funding to school sites on a per-unduplicated pupil basis. The remaining LCFF Supplemental funds are retained at the central office level and used to enact broader actions/services such as supplemental resources for English Learners and provide specific services to school sites via targeted funding. This targeted funding includes actions/services such as the restoration of afterschool programming at selected sites with high unduplicated populations.

Regardless of the program (Flexible or Remote), we know resources including time are scarce. Focusing our district will allow us to deepen our support and practices to ensure we make the most of our time with students.

During the 2020-21 School Year, our Academic Guidance has a specific focus on the following:

- We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID: We use protocols and phrases to interrupt conversations and actions that perpetuate inequity
- We keep equity and rigorous content at the forefront of all decisions on what and how to teach students: We use grade-level priority standards, texts, and tasks for all Tier 1 instruction
- We maximize interaction and independence in students' blended learning experience: We design frequent student talk opportunities that support meaning-making, critical thinking, and academic language practice in service of grade-level standards
- We integrate social emotional and trauma-informed approaches as the foundation for learning experiences: We build positive relationships with and among our students to create the conditions for learning

We have an intentional focus on creating access for our students, specifically our foster youth, English learners, and low-income students. We know that if we are focused on student talk, equity and rigor, we will be able to create successful outcomes for our students.

STAR Renaissance Assessment System: - Star Early Literacy, Star Math and Star Reading were purchased for all elementary and middle schools and MyOn access to online reading materials from Renaissance Learning - assessments to be given on multiple occasions throughout the school year. Prior to the 2020-2021 school year our district had purchased Renaissance Star Reading and Math for middle school, Star reading for 4th and 5th grade, and some star early literacy, reading and math licenses for a couple of schools that "opted in" for giving it to 1st-3rd graders. Due to school closures in March and moving into distance learning without a clear learning plan for students, we know that there will be learning loss for many students, and most pronounced for our unduplicated students. Racial and socio-economic achievement gaps will most likely widen because of disparities in access to computers, home internet connections and direct instruction from

teachers. In order to measure this learning loss, our district will need a reliable assessment tool and plan for consistent assessment. This school year we have increased licenses to include the capacity to assess all students, K-8, in early literacy and/or reading, and math. This will increase services for elementary students.

Fountas and Pinnell leveled books: Online materials and resources were purchased to support students who need extra support in reading. Our literacy coaches and RTI teachers pull small groups to provide reading intervention. This support staff use data to inform which students need the extra support and isolate the focus of the intervention based on need. Interventions are provided in six week cycles with a pre and post assessment. Grouping and exit decisions are determined using data. A majority of the students in our intervention groups are students who are included in our district sub groups of Black/African American students, low socio-economic students, English learners, foster youth and homeless students, though all students in need of this targeted academic support benefit from this system.

Curriculum and Supports for students with IEPs are meant to support students at their individual learning level and are adaptive to their needs. For instance, both ISME Orton Gillingham and Lexia use a multi-sensory approach to support struggling readers. Among these curricula are:

- Fountas and Pinnell leveled literacy for Mild Moderate K-5 level
- Language Live! Literacy intervention for Mild Moderate grades 5 -12
- Lexia Core 5 for Mild Moderate K-5
- Lexia Power Up Literacy for Mild Moderate 6-12
- Moby Max for ELA and Math for grades 6-12 for CEC, Practical and Functional classes
- Number Worlds for Mild Moderate K-5
- IMSE Orton Gillingham Structured Literacy for K-12
- ST Supplemental Math support for grades K-8
- Trans Math Intervention for for 6-12
- Touch Math for Moderate/ Severe programs
- Unique Learning System for Moderate/Severe programs

BrainPop EL (Flexible) and Imagine Learning (Remote): Our designated ELD curriculum allows students to explore language in playful ways so they gain lots of ways to express themselves in speaking and writing. When delivering ELD in distance learning it will be more difficult for students to show their understanding because of the less personal platform of video conferencing. In addition students will have significantly less opportunities to experience the realia and visuals used to teach ELD in this model. In response to the need for supplemental ELD support due to this changed method of teaching, our district purchased BrainPop EL and Imagine Learning as an extra support. These programs are comprehensive English language learning programs for students of all ages. The programs feature short, animated movies as well as games, quizzes, and interactive features. It encompasses the four main language skills: listening, speaking, reading, and writing. This extra support will give EL students extra time for engaging in English learning activities.

Alameda Island Kids (AIK) Program for Title 1 Elementary Students:

We have been able to partner with the AIK childcare program to provide 8-4 child care support to 28 of our most in need students from our three Elementary sites that receive Title 1 funding. During this childcare program students are given support with their synchronous and asynchronous learning, provided with enrichment, and provided with meals.

RE: AUSD Learning Continuity and Attendance Plan

Dear Superintendent Scuderi, President Bonta and Members of the AUSD Board of Education:

Thank you for providing ASPED Families with the opportunity to provide written feedback for the district's Learning Continuity and Attendance Plan (LCP) on how Covid-19 and school site closure has impacted over 1,000 students with disabilities currently enrolled in Alameda Unified public schools. We have included many direct quotes from families to help humanize the loss and frustration experienced by many of our students with disabilities. It is our deepest and most profound wish that our education leaders and community recognize the sacrifice families have made during these emergency conditions and respectfully ask for solutions to the problems identified in this letter.

This letter is broken into five parts. The parts included are:

1. Covid-19 impact for academic year 2019-2020
2. Covid-19 impact for academic year 2020-2021
3. Comments related to assessments for learning loss
4. Comments related to interventions for learning loss
5. General comments related to the Learning Continuity and Attendance Plan

COVID-19 impact for academic year 2019-2020 The LCP as currently drafted does not adequately describe the full impact on students with disabilities during the 2019-20 school year. During school site closure and spring distance learning, Alameda Unified suspended all special education IEP services, postponed IEP meetings that were previously scheduled, suspended progress monitoring of all IEP goals and suspended assessments used to requalify/qualify students for special education. In addition to postponing already scheduled IEP meetings, AUSD failed to follow 30-day timelines when parents requested IEP meetings to discuss the suspension of special education services and their concerns about the obstacles related to accessing the

District's new distance learning program. Once IEP meetings resumed, the District would not honor requests by parents to discuss their concerns about accessing distance learning in IEP meetings during the 2019-2020 academic year. This decision by the district, denied communication and collaboration afforded by the IDEA to parents/caregivers and students with disabilities.

The impact of these unilateral decisions made by the District vary from student to student and family to family. However, there are several consistent themes conveyed by families during this time period. There are as follows:

1. Failure to provide services as specified in IEPs (even virtually), led to regression in behavior, social and emotional and academic skills while attempting to access distance learning as observed by parents and caregivers. 2. Frustration, fear and sadness for parents who found themselves having to fill school-based staff responsibilities (ex. speech and language pathologist, physical therapist, special education teacher, occupational therapist and paraprofessional) while simultaneously working full-time. 3. Worry and anxiety for the future academic, social and emotional, and behavior trajectory of their student including transitions from prek to elementary, elementary to middle school, middle school to high school, and high school to transition services. 4. Feelings of hopelessness when the District suspended primary communication and collaboration avenues (scheduling IEP meetings) to have parents' concerns heard and addressed. 5. Feelings of frustration from parents of students with disabilities grades Prek - 2nd grade and the expectation to access distance learning through chromebooks when keyboards and the delivery of learning through zoom and other websites aren't developmentally appropriate. 6. Students with classic autism, high anxiety and related attention and behavior needs were unable to maintain attention during Zoom meetings, follow teacher directed whole class instruction independently or with virtual support from a paraprofessional, and complete the assigned activities even with modifications by the special education teacher in the home environment.

The District supplanted services with "tailored supports" but these "tailored supports" were not IEP services delivered virtually. Instead, these "tailored supports" included:

- Office hours by service providers and case managers where no instruction or interventions were provided.
- Unspecified accommodations for students that were designed without discussion or consent from parents and outside the purview of IEP teams and IEP meetings.
- Supplanted evidenced-based and district approved curriculum (such as Transmath and Language Live) for students placed in Intensive Academic classrooms with non-evidenced-based and inappropriate online curriculum such as Moby Max.

"I felt pretty much abandoned last spring. My 2nd grader got zero speech and OT time once distance learning went into effect. Our speech therapist uploaded a bunch of stuff to google classroom basically shifting the responsibility of implementing the "therapy" to parents.

While special education services resumed this fall, all of it is in virtual small groups and not all that helpful. The time spent with a special education teacher has been significantly reduced compared to the SDC class had my student been able to remain with his classmates. Based on our own family circumstances we applied and accepted the remote program in order to reduce the risk to Covid-19. Unfortunately there isn't an equivalent virtual SDC classroom for my student to get the level of individualized support he needs.

I sometimes feel overwhelmed."

Parent of a SpEd 3rd grader in Remote Program

COVID-19 impact for academic year 2020-2021 The LCP as currently drafted also does not adequately describe the impact or potential impact of COVID-19 for the 2020-21 school year. The District has resumed IEP meetings and some related services and is monitoring progress towards IEP goals however, assessments related to requalifying and qualifying for special education have not fully resumed. In addition, the District's two models for distance learning (flexible and remote) have not virtually replicated mild/moderate or moderate/severe SDC classes that existed during on-site instruction. Based on these decisions made by the District, students with disabilities and their families have expressed the following concerns and observations:

1. There is a growing backlog of evaluations for special education. Families and students caught in this backlog have concerns about appropriate placement, services, goals, accommodations and supports their student needs in order to receive a free and appropriate public education (FAPE) with meaningful benefit. Without reliable special education evaluations, IEP teams cannot create meaningful IEPs for students who qualify. The longer this problem persists, the more students with disabilities risk being denied a FAPE.
2. Students with disabilities once placed in mild to moderate classes like Academic Strategies classes for math and ELA in HS and MS prior to Covid-19, have been placed in general education classes without the necessary support to complete assignments.
3. Elementary aged students with disabilities that were once placed in mild to moderate SDC classes during on-site instruction are placed in general education virtual classrooms in the remote program led by general education teachers.
4. Many students with disabilities continue to be unable to access all aspects of distance learning and virtual special education services including those with classic autism, physical impairments that require hands-on support provided by physical therapists and paraprofessionals, high anxiety, and attention related disabilities.
5. Parents and caregivers are observing that as part of the District's new

"IEP-aligned plans" their students with disabilities are receiving fewer services and in larger groups than during on-site instruction (i.e. 20 minutes of speech with 5 other students in a small group during distance learning vs. 30 minutes of speech with 2 to 3 other students during on-site instruction; or 40 minutes once per week, vs. 20 minutes twice per week).

"After 6 months of loss of meaningful speech, occupational therapy, and educational services, our family is looking to move out of state. The expectations of remote learning are unreasonable for mature elementary students, much less preschool 3 and 4 yr olds with special needs. The effects are devastating on behavior, with regressions commonplace. There is no way to work AND effectively assist a preschooler in virtual special education preschool. I don't even have childcare to be able to access the office hours for the therapists."

Parent of PreK

Student

3. Comments related to learning loss and STAR assessments The Learning Continuity and Attendance Plan (LCP) relies heavily on STAR data to quantify learning loss. This is not sufficient for a variety of reasons but the most important reason is that STAR data collected and going forward is typically compared to other STAR data from across the country. If every student is being impacted by COVID, then the entire data set is "lowered" for lack of better language. Because of this phenomenon, learning loss will likely be harder to quantify and identify with this type of assessment. We don't want to compare our current levels of student achievement to what's happening in other districts and communities across the country, especially for our students with disabilities. If the District collects STAR data and compares it to past data collected on the same

student, this might be useful in determining learning loss for our general education students, but not necessarily for our students with disabilities. STAR testing was not specifically designed with students with disabilities in mind but it is marketed and applied to students with disabilities regardless. Measuring learning loss for students with disabilities requires additional data, including:

1. Attendance, including time spent learning independently. This presents a challenge since many parents and caregivers are reporting that neither synchronous remote learning via “zoom” nor asynchronous independent learning time are accessible to their students. 2. Data from student IEPs, including comparing original baselines or last recorded progress information for IEP academic goals from the 2019-20 school year with baselines/progress data collected fall

2020-2021. If there is a regression in this data, then there should be intervention programs/practices put in place to help these students. 3. The intensive academic intervention curriculum (Transmath and Language Live), provides placement and progress monitoring assessments. This data should be collected and analyzed when determining learning loss. 4. The district has used the San Diego Quick and CORE reading assessments to determine baselines for students in reading. These should be named and considered as part of identifying learning loss. 5. There may be other assessments used district wide specifically for special education and if so, they should be named in the LCP.

On page 28 of the LCP under section “Special Education Recovery” it states that “Fall Additional Instruction will be offered soon to any student with an IEP. Once STAR benchmark results are in, we will also reach out to any student for which regression is evident or suspected and not yet participating in the Fall Additional Instruction.”

- Will instruction be offered for all academic classes or just math and reading?
- What staff will deliver the instruction?
- “Soon” is not specific enough. Please include a date when students will be identified and when instruction will start.
- What time of day will this instruction be delivered? How often will this instruction be delivered during the week?
- What is the duration for each session?
- Will this instruction be delivered 1 to 1 or in small group or both?
- How will parents know if this instruction is helping the student? What data will be collected and shared with IEP teams and how often will this data be collected?

“As a parent with 4 children we had no issues with school until our youngest with special needs started attending school. She is only 6 years old. We find the school team unsupportive. Our 6 year old has regressed due to SIP. AUSD only provides minimal support. The whole distance learning experience has been damaging. Our child cries and is so frustrated. We asked for a paraprofessional and were denied. We had to hire a tutor privately and other therapy in addition to an advocate. We receive less than 1 day notice of special education sessions. Our child needs advanced notice. This happens repeatedly.”

Parent of 4 children, 1st grader receiving special education services

4. Comments related to interventions for learning loss and increasing engagement during distance learning

We support Learning Hubs that provide in-person on-campus supports for students with disabilities unable to access distance learning in the home environment. Many of our most impacted students with disabilities are unable to access distance learning in its current format. 2. We support after class one-to-one tutoring especially in math for students currently not meeting pre-Algebra and Algebra requirements.

3. We support one-to-one tutoring for students with dyslexia to supplement the explicit, systematic, multi-sensory instruction (Structured Literacy) they receive during specialized academic interventions. 4. We support partnering with Non Public Agencies (NPAs) to provide in-home services when virtual services have been attempted and failure to engage the student has been observed repeatedly and persistently. 5. We notice that the LCP describes current practices and policies in place to support struggling students through MTSS. However, we anticipate an increase in the number of struggling students and an increase in the severity of the academic achievement gaps. It's unclear in the LCP if the District intends to use the funds to increase the scale of this program or the interventions available. If so, please provide the details that recognize the projected increase in the number of struggling students in tiers 2 and tiers 3.

“My son is a Sophomore at AHS and has auditory/slow processing disability. When the SIP happened his case manager/academic strategies teacher took a leave of absence and he didn't receive any support. This fall they forgot to put him in Academic Strategies and there hasn't been any support for him either. We are basically on our own. He is struggling with accessing and completing assignments. There is no support whatsoever.”

Parent of High School

Student

5. General comments related to the Learning Continuity and Attendance Plan

1. We are very concerned about the lack of specific details related to homeless and foster youth and the support they will be given to reduce chronic absenteeism and suspension rates. This specific population was underserved prior to Covid-19 as determined by the 2018 and 2019 CDE student group reports. In addition, homeless and foster youth need increased interventions for English Language Arts and Mathematics as determined by the same CDE reports. The District needs to name roles, funding, practices and programs that will address these long standing issues.

2. We are concerned about the increase in absences and the number of students dropping out of school during school closures. The LCP provides a detailed explanation of how the District intends to track and document absences however, it does not provide sufficient details on the policies, practices and programs designed to engage students with chronic absences and students who are dropping out. Students with disabilities fail to graduate at much higher rates than the general population. 3. Some families have reported that their case managers have not provided them with “IEP-aligned contingency plans” as specified in the District's communications. Sadly, some students have been attending distance learning for five weeks without a clear understanding of how their IEPs are being implemented. A few families in the remote learning program have reported not knowing who their student's case manager is. The reality shared by some families is

inconsistent with what's being described in the LCP. 4. On page 36, there are no specific details about how staff roles funded through

the LCP are defined and allocated based on ELL, foster youth, and low-income students. This includes the \$732,953 allocated for Instructional Coaches, \$158,283 for the Student Services coordinator and the Teaching and Learning coordinator for \$312,082. Did these roles exist prior to Covid-19? If so, how have these roles changed in order to meet the needs of our ELL, foster youth, low-income students with disabilities in this moment? 5. On page 36, there are site discretionary funds equal to \$324,114 without

explanation of how these funds will be spent in such a way that will effectively meet the needs of ELL, foster youth and low-income students with disabilities. 6. We request that a link to this letter be included in the final LCP.

We welcome communication and collaboration with the district and the board in order to meet the urgent and long-term needs of our students. We want to recognize and elevate the voices in our special education community as they advocate for dignity and respect during this time of distance learning. We stand as allies with English Language Learners with and without disability and refer to their letter for specific feedback.

Thank you for your consideration,
Heather Clapp Padgett and Christine Strena, Co-Chairs ASPED Families

September 30, 2020

Dear Members of PTAC,

Thank you for sharing your feedback on the 2020-21 Learning Continuity and Attendance Plan (LCP). We appreciate the time you took to provide such a detailed analysis.

The Learning Continuity Plan is not meant to be a substitute for the Local Control Accountability Plan (LCAP), which explicitly describes our program and budget for unduplicated students. Rather, the LCP is a snapshot of how our district responded - and continues to respond - to the pandemic. This does include how we plan to mitigate the impact of the pandemic on our students who meet the unduplicated criteria (Foster Youth, English Language Learners, and students who qualify for free or reduced lunch) as well as our students who have Individualized Education plans. While we plan to continue to focus on and respond to the needs of our most vulnerable students, full explication of those efforts is best saved for the next iteration of our LCAP.

Since March, we have worked hard to hold multiple types of engagements with our stakeholders to receive feedback on the best way to respond to the pandemic and support students learning during the 2020-21 School Year. We took this feedback and used it in all of our planning, including in crafting the Learning Continuity and Attendance Plan. While we believe that we engaged multiple stakeholders in this process, we do know that there are important ideas and feedback that must be incorporated into the final LCP.

Upon reviewing the PTAC sponsored feedback, we found there were some elements that absolutely can be incorporated into this year's LCP, other elements that should be addressed in our next full Local Control and Accountability Plan (LCAP), and some that will be better addressed specifically by AUSD's Special Education Department, as detailed below.

We have heard your concerns about ensuring that we are painting an accurate portrait of the impact of the pandemic on our students, specifically our students with special needs. We understand the specific and intense burden born by our students with disabilities under distance learning. We have listened carefully to the feedback provided by our families of students with special needs and done our best to respond to that feedback and alter our instructional programs as best we can under current health orders. We do not believe the LCP is the place to detail all of the dissatisfactions stated by these families, but we have added language that we hope captures the difficulties those families have experienced.

As detailed in the Prior Written Notice on [September 2, 2020](#), the District plans to provide students' operative IEP to the greatest extent practicable, whether the student is in the flexible or remote learning program, through students' emergency plans, called "IEP Aligned Plans". The IEP Aligned Plans delineate student needs and services during emergency times as required by Senate Bill 98. Parent input into the IEP Aligned Plan is welcomed through contact with their student's case manager. For concerns regarding access to any aspect of distance learning and virtual services and supports, parents should contact their child's case manager as soon as possible. Assessments for each student with a disability will be determined by their IEP. Both assessments and IEPs are currently underway. Additionally, instructional programming has been based on individual students' IEPs as written in the IEP Aligned Plans. We are pleased to hear that you support the idea of learning hubs. We believe that these

hubs will be able to address many of the concerns parents of students with special needs who are served in our Mod/Severe program have expressed.

In addition to addressing the above, we have added more detail to the LCP based on community feedback. We have added more to the section on mitigating pupil learning loss for our homeless and Foster youth. We have added more detailed descriptions of how we are supporting our English Language Leaders and which online programs we are using to support their learning of Academic Language. In addition, we added details on how the Teaching & Learning program was re-structured last spring. Granted, that re-structuring was planned before the pandemic began, but we are including information on how the roles and responsibilities changed due to the impact of COVID-19.

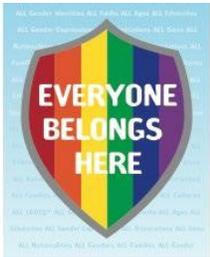

We plan to attach your feedback as well as our response to the LCP. We also plan to continue to hold engagements with our stakeholders this year to progress monitor our Learning Continuity Attendance Plan as well as re-start our Strategic Planning process. While we do not yet have clarity on next steps with the Local Control Accountability Plan, we know that our strategic planning must be directly connected to our overall plan for using our LCFF funds.

- Community Advisory Committee (CAC) meetings to review, monitor, and advise on Learning Continuity and Attendance Plan (9/29/20, 12/1/20, 2/2/21, 4/6/21, 6/1/21)
- District English Learner Advisory Committee (DELAC) meetings to review, monitor, and advise on the Learning Continuity and Attendance Plan (10/29/20, 1/7/21, 3/4/21, 5/6/21)

Specific engagement dates connected to our Strategic Planning will be announced soon.

Thank you for your continued engagement, partnership and feedback.

Pasquale Scuderi

Daily Attendance and Engagement

TIER ONE

Daily attendance is collected and monitored regularly for all students

Attendance Need

Intervention

Student is absent two days with no contact from guardian clearing the absence

- Attendance clerk calls home and documents the call in the attendance monitoring log. Daily absence call automatically generated (robo-call).

Student has unexcused absences three days, with no contact from guardian clearing the absence

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian.

Student is absent for four days, with no contact from guardian

- Attendance clerk calls home, documents call in attendance monitoring log;
- Teacher uses Parent Square to contact guardian again.
- Wednesday teacher (advisory teacher/home group teacher) calls other contacts on the student's record (including emergency contacts) and documents these attempts

TIER TWO

Student is absent for five days with no contact from guardian

- Teacher submits COST referral through AERIES and continues daily outreach to guardian through Parent Square
- Teacher will present all documented outreach to the COST team for review

- [Sample Script for Teachers Calling Parents/Guardians and Emergency Contacts](#)

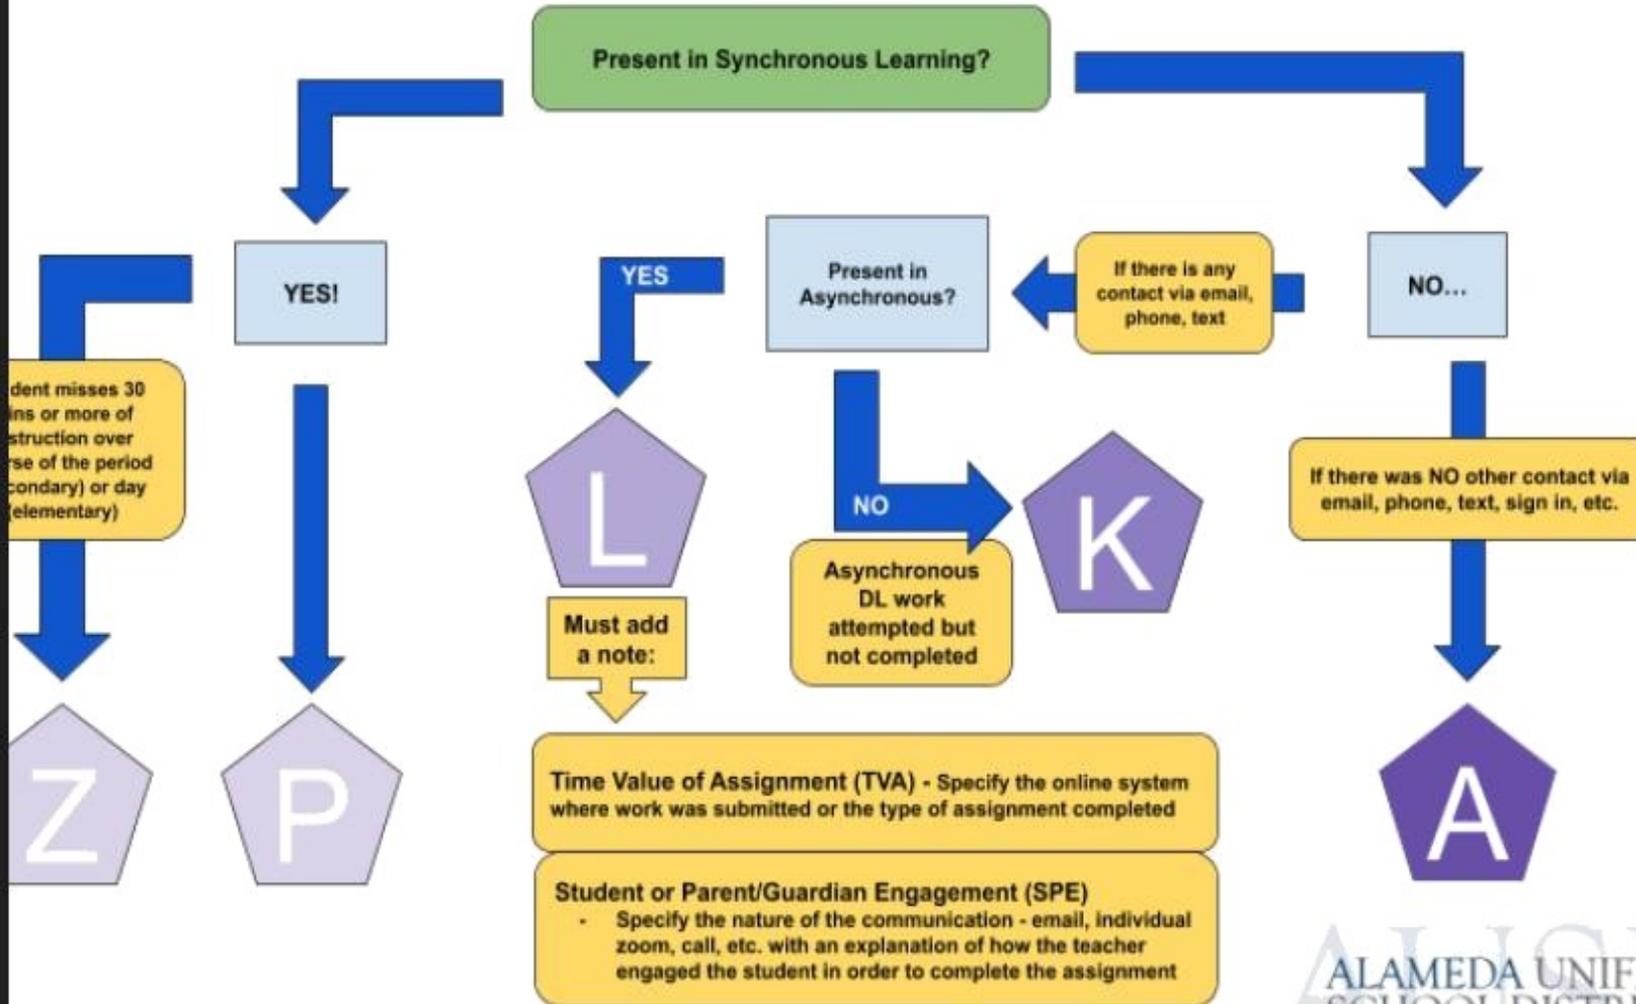

Attendance Need	Intervention
Student is absent for six days with no contact from guardian (this marks the second week of absence)	<ul style="list-style-type: none"> • COST Team will assign the student a case manager who will take over daily student/guardian outreach and documentation • A “Knock and Talk” will be initiated by school site Knock and Talk protocols
TIER THREE	
Student is absent for eight days with no contact from guardian (via phone, email, Knock and Talk, etc)	<ul style="list-style-type: none"> • COST team will request Child Welfare and Attendance Specialist to conduct a Wellness Check (20-21 Tiered Re-Engagement Wellness Check)

District Office	Intervention
Chronic Absence letters	(attach letter schedule here)
CWA Home Visits	CWA responds to COST team with results of Home Visit

Student level goals (across content, aligned to Graduate Profile)	Students dialogue about equity issues and take action to interrupt inequity		
	Participate in experiential learning such as investigations, inquiry, modeling thinking, and taking local action	Read, think, talk, and write about complex texts every day	Establish and maintain healthy and rewarding relationships with diverse individuals and groups
Teacher priority practices (across content)	Teachers use protocols and phrases to interrupt conversations and actions that perpetuate inequity		
	Teachers use grade-level priority standards, texts, and tasks for all Tier 1 instruction	Teachers design frequent student talk opportunities that support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	Teachers build positive relationships with and among our students to create the conditions for learning
Leadership Practices	School Leadership engages with and builds the capacity of staff and students to dialogue about equity issues and take action to interrupt inequity		
	School Leadership collaboratively monitors curricular implementation to ensure balance, rigor, and school-wide coherence aligned to state and district standards and school vision	School Leadership collaboratively creates systems that support teachers to design student talk opportunities to support meaning-making, critical thinking, writing, and academic language practice in service of grade-level standards	School Leadership collaborates with and builds capacity of individuals and teams to implement school systems that ensure strong relationships among students and between adults and students, and a sense of belonging for all students in service of the school's vision for learning
District Goals	We are an actively anti-racist teaching and learning organization that empowers each and every student to make progress towards college and career during and post-COVID		
	We keep equity and rigorous content at the forefront of all decisions on what and how to teach students	We maximize interaction and independence in students' blended learning experience	We integrate social emotional and trauma-informed approaches as the foundation for learning experiences
Conditions for Adult Learning	We learn by collaborating, planning, doing, and reflecting	We have space to be vulnerable, self-reflective, and create meaning	Collect and participate in the collection of data and feedback to receive and provide timely information and make informed decisions.

Attendance Flow Chart

Mark the letter in the pentagon based on the flow chart.

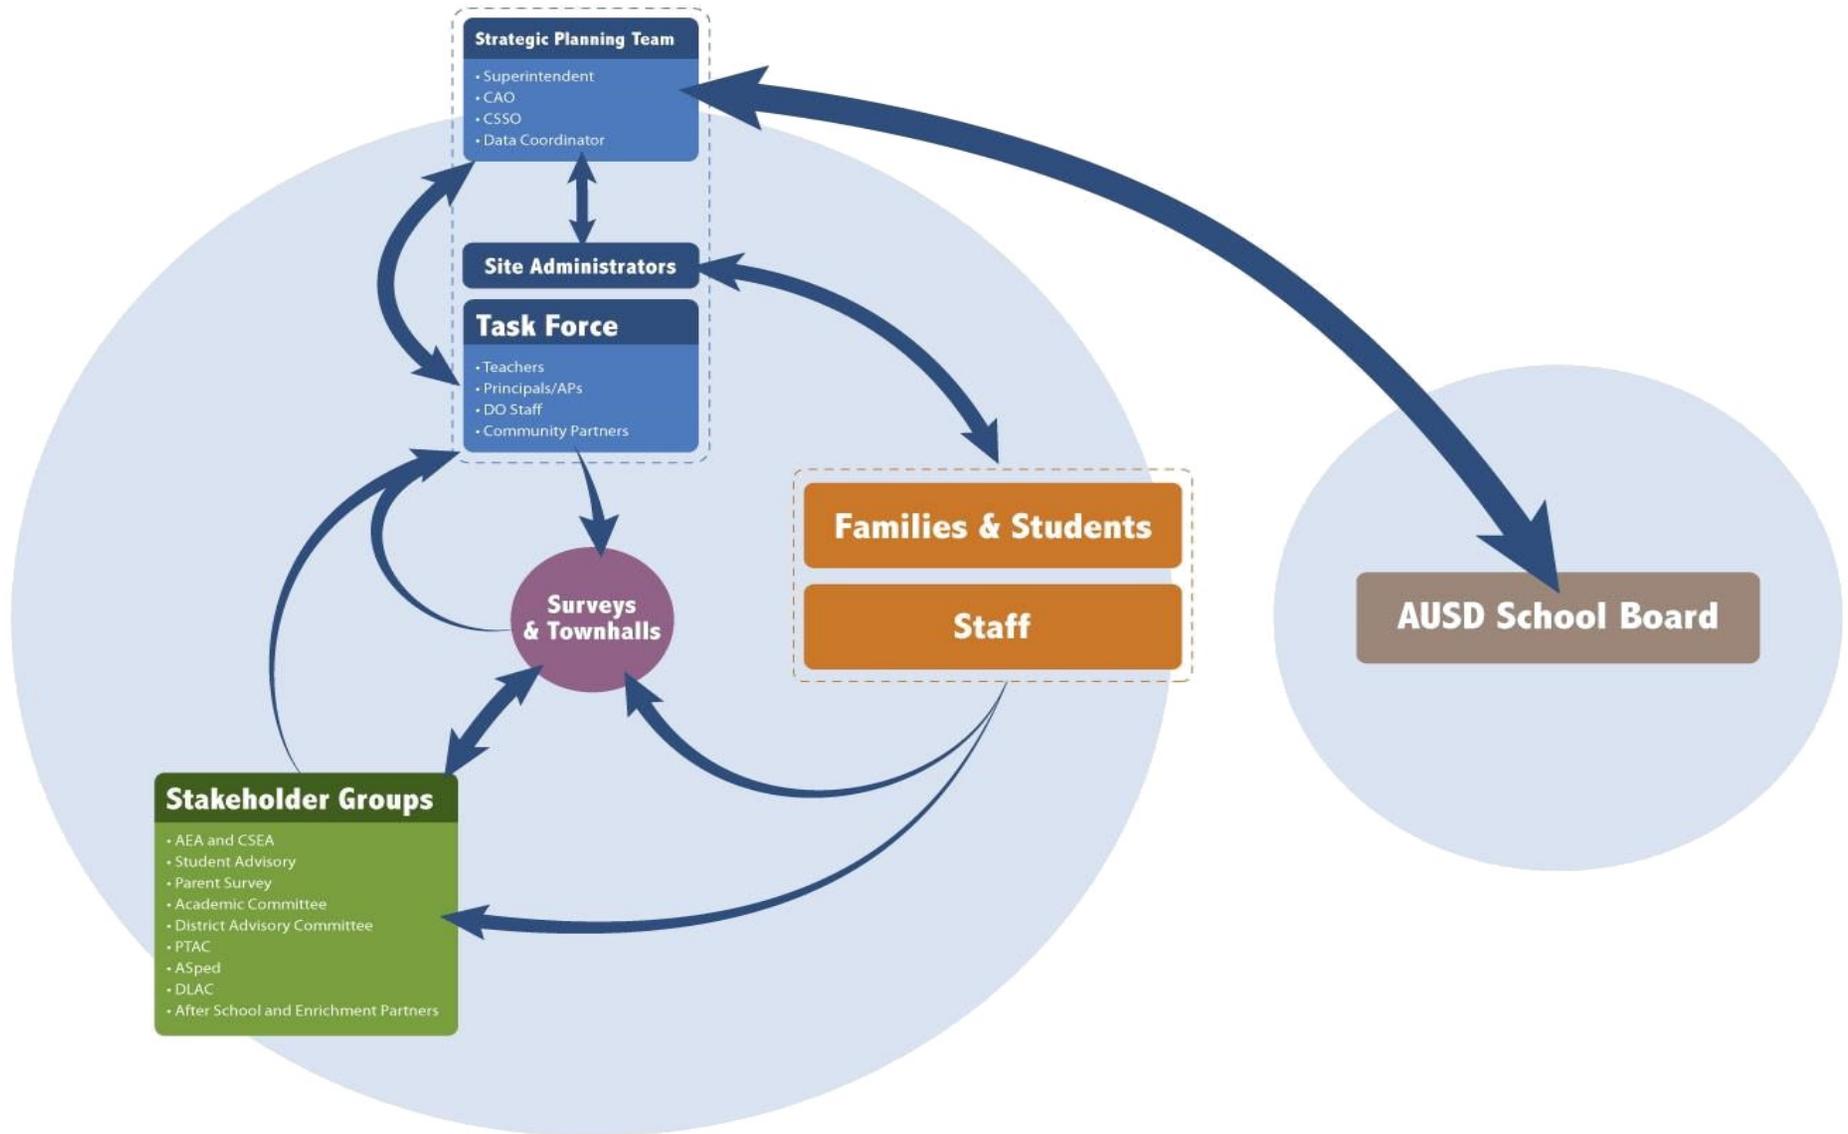

Core Value	Guiding Principles
<i>"We meet the needs of each learner."</i>	<i>Our English Language Learner, Special Education, and Black students were disproportionately being under-served by our system before COVID19, and these gaps have widened since. Therefore, our plan must ensure we are targeting our strategies and resources towards these students.</i>
<i>"We develop the whole child."</i>	<i>Our plan needs to include supports for trauma: SEL/trauma informed practices (including social skills) into teaching and counseling services. We will provide a safe and balanced environment (physically and mentally).</i>
<i>"Mastery of Essential Standards through flexibility of structures"</i>	<i>Our plan will ensure students receive high quality experiences that focus on mastery of essential grade-level standards and skills. Flexible schedules will allow focus and more time on students who have not yet mastered the standards, blended learning is a tool that supports standards-based flexible structures. A Distance Learning base curriculum will support high quality, consistent grade-level experiences for students.</i>
<i>"We will support all students to embody the AUSD Graduate Profile"</i>	<i>Our plan should include opportunities to develop students' ability to Seek Opportunities and Challenges of Learning and Working Effectively with Others. Therefore, in-person and synchronous distance learning time should maximize interactions. Asynchronous and non-in-person time should maximize student independence, motivation, and agency by designing experiences so they feel ownership of their learning that is not possible in classroom settings.</i>
<i>"Learning to read is key to students' academic success"</i>	<i>Our plan will prioritize students who are learning to read</i>
<i>"Coherent Systems to Ensure Students are College & Career Ready"</i>	<i>Our plan will prioritize ensuring rising Juniors and Seniors are college and career ready</i>
<i>"We will invest in our staff in order to realize our vision for students"</i>	<i>Our plan will prioritize staff, student, and family physical and emotional safety and will include time for teachers to continuously improve their practice through collaboration, planning, and professional learning time.</i>

ALAMEDA UNIFIED SCHOOL DISTRICT
BOARD AGENDA ITEM

Item Title: Approval of Bid Award for Invitation to Bid (ITB) #025-077-01 Industrial Arts Building Roof Repairs at Alameda High School

Item Type: Action

Background: In alignment with Board Policy and Administrative Regulation 3311 for compliance with Public Contract Code 20111, AUSD published an Invitation To Bid (ITB) #025-077-01 for the Industrial Arts Building Roof Repairs at Alameda High School on February 3, 2025.

A mandatory bid conference and job-walk was conducted on February 19, 2025. Seven (7) organizations submitted their bids by the deadline of 3:00 p.m. on March 7, 2025. The public opening of sealed bids occurred at the District Office on March 10, 2025 at 8:30 a.m., and the apparent low bidder was Roofing Constructors, Inc. dba Western Roofing Service.

Staff recommends that the Board award the bid to Roofing Constructors, Inc. dba Western Roofing Service tonight. The contract for services will be presented to the Board for approval at a future meeting.

AUSD LCAP Goals: 4. Ensure that all students have access to basic services.

Fund Codes:

Fiscal Analysis

Amount (Savings) (Cost): Various Funding Sources: Low Bid \$718,980.00.

Recommendation: Approve as submitted.

AUSD Guiding Principle: #5 - Accountability, transparency, and trust are necessary at all levels of the organization. | #6 - Allocation of funds must support our vision, mission, and guiding principles.

Submitted By: Shariq Khan, Assistant Superintendent of Business Services

NOTICE TO BIDDERS / INVITATION TO BID

1. Notice is hereby given that the governing board ("Board") of the **Alameda Unified School District** ("District") will receive sealed bids for the following project:

Industrial Arts Building Roof Repairs

2. Sealed Bid will be received until **3:00pm, Friday, March 7, 2025**, at the District Office, located at

2060 Challenger Drive, Alameda, California 94501

at or after which time the bids will be opened and publicly read aloud. Any claim by a bidder of error in its bid must be made in compliance with section 5100 et seq. of the Public Contract Code. Any bid that is submitted after this time shall be non-responsive and returned to the bidder.

3. The Project consists of:

Project consists of all labor, equipment, materials, and supervision for major roof repairs at the Alameda High School Site, as indicated in contract documents, located in Alameda, CA.

4. All bids shall be on the form provided by the district. Each bid must conform and be responsive to all pertinent Contract Documents, including, but not limited to, the Instructions to Bidders.
5. To bid on this Project, the Bidder is required to possess one or more of the following State of California Contractor Licenses:

B – General Building
C39 – Roofing

The Bidder's license(s) must be active and in good standing at the time of the bid opening and must remain so throughout the term of the Contract.

6. As security for its Bid, each bidder shall provide with its Bid form.
 - a bid bond issued by an admitted surety insurer on the form provided by the District,
 - cash, or
 - a cashier's check or a certified check, drawn to the order of the **Alameda Unified School District**, in the amount of ten percent (10%) of the total bid price. This bid security shall be a guarantee that the Bidder shall, within seven (7) calendar days after the date of the Notice of Award, enter a contract with the District for the performance of the services as stipulated in the bid.
7. The successful Bidder shall be required to furnish a 100% Performance Bond and a 100% Payment Bond if it is awarded the contract for the Project.
8. The successful Bidder may substitute securities for any monies withheld by the District to ensure performance under the Contract, in accordance with the provisions of section 22300 of the Public Contract Code.
9. The successful Bidder and its subcontractors shall pay all workers on the Project not less than the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work as determined by the Director of the Department of Industrial Relations, State of California, for the type of work performed and the locality in which the work is to be performed within the boundaries of the District, pursuant to sections 1770 et seq. of the California Labor Code. Prevailing wage rates are on file with the District and are available to any interested party on request or at www.dir.ca.gov/oprl/statistics_and_databases.html.

Bidders and Bidders' subcontractors shall comply with the registration and qualification requirements pursuant to sections 1725.5 and 1771.1 of the California Labor Code.

10. A mandatory pre-bid conference and site visit will be held **on February 19, 2025 at 10:15 AM** at Alameda High School, 2200 Central Ave, Alameda, CA 94501. All participants are required to sign-in at the Administration Office. The Site Visit is expected to take approximately 1 hour. Failure to attend or tardiness will render bid ineligible.
11. Documents are available on February 3, 2025, for review at the District Office and electronically on the Alameda USD Website at the location below:

<https://www.alamedaunified.org/departments/fiscal-services>

12. The District's Board reserves the right to reject any and all bids and/or waive any irregularity in any bid received. If the District awards the Contract, the security of unsuccessful bidder(s) shall be returned within sixty (60) days from the time the award is made. Unless otherwise required by law, no bidder may withdraw its bid for ninety (90) days after the date of the bid opening.
13. Proposed timeline:

The following is the anticipated Proposal and engagement schedule. Alameda USD may change the estimated dates and process as deemed necessary.

First Notice to Bidders Publishing	Monday, February 3, 2025
Second Notice to Bidders Publishing	Monday, February 10, 2025
Mandatory Pre-bid Job-walk	Wednesday, February 19, 2025 @ 10:15AM

DOCUMENT 00 21 13

INSTRUCTIONS TO BIDDERS

Bidders shall follow the instructions in this document, and shall submit all documents, forms, and information required for consideration of a Bid.

Alameda Unified School District ("District") will evaluate information submitted by the apparent low Bidder and, if incomplete or unsatisfactory to District, Bidder's bid may be rejected at the sole discretion of District.

1. **Project.** Bids are requested for a general construction contract, or work described in general, for the following project:

Industrial Arts Building Roof Repairs

Site	Address
Alameda High School	2200 Central Ave, Alameda, CA 94501

2. **Sealed Bids.** The district will receive sealed Bids from Bidders as indicated in the Invitation to Bid and each Bidder shall ensure that its Bid:
 - a. Is sealed and marked with the name and address of the Bidder, the Project name and number, the bid number and bid package (if applicable), and the date for opening bids.
 - b. Contains all documents as required herein; and
 - c. Is submitted by date and time shown in the Invitation to Bid.
3. **Bid Opening.** Bids will be opened at or after the time indicated for receipt of bids.
4. **Complete Bids.** Bidders must supply all information required by each Bid Document. Bids must be full and complete. District reserves the right in its sole discretion to reject any Bid as non-responsive as a result of any error or omission in the Bid. Each Bidder must complete and submit all of the following documents as its Bid:
 - Bid Form
 - Bid Bond or other security
 - Designated Subcontractors List
 - Non collusion Declaration
 - Iran Contracting Act Certification
 - a. **Bid Form.** Bidders must submit Bids on the Bid Form and all other required District forms. Bids not submitted on the District's required forms shall be deemed non-responsive and shall not be considered. Additional sheets required to fully respond to requested information are permissible. Bidders shall not modify the Bid Form or qualify their Bids. Bidders shall not submit scanned, re-typed, word-processed, or otherwise recreated versions of the Bid Form or other District-provided documents.
 - b. **Bid Bond or Other Security.** Bidders must submit their Bid Form with cash, a cashier's check or a certified check payable to District, or a bid bond by an admitted surety insurer of not less than ten percent (10%) of their base Bid amount, including all additive alternates. Required form of corporate surety, Bid Bond, is provided by District and must be used and fully completed by Bidders choosing to provide a Bid Bond as security. The Surety on Bidders' Bid Bond must be an insurer admitted in the State of California and authorized to issue surety bonds in the State of California. Bids submitted without necessary bid security will be deemed non-responsive and will not be considered.
 - c. **Designated Subcontractors List.** Bidders must submit with the Bid the Designated Subcontractors List for

those subcontractors who will perform any portion of Work, including labor, rendering of service, or specially fabricating and installing a portion of the Work or improvement according to detailed drawings contained in the plans and specifications, in excess of one half of one percent (0.5%) of total Bid. Failure to fully complete and submit this list when required by law shall result in Bid being deemed non-responsive and the Bid will not be considered.

- d. **Non-Collusion Declaration.** Bidders shall submit the Non-Collusion Declaration with their Bids. Bids submitted without the Non-Collusion Declaration shall be deemed non-responsive and will not be considered.
 - e. **Iran Contracting Act Certification.** Bidders shall submit the Iran Contracting Act Certification with their Bids. Bids submitted without the Iran Contracting Act Certification shall be deemed non-responsive and will not be considered.
5. **Erasures.** Bids shall be clearly written without erasure or deletions. District reserves the right to reject any Bid containing erasures or deletions.
 6. **Words / Numerals.** Discrepancies between written words and figures, or words and numerals, will be resolved in favor of written words.
 7. **Prevailing Wages.** Pursuant to sections 1770 et seq. of the California Labor Code, Bidder and all Subcontractors under the Bidder shall pay all workers on all work performed pursuant to the Contract not less than the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work as determined by the Director of the State of California Department of Industrial Relations (DIR) for the type of work performed and the locality in which the work is to be performed within the boundaries of the District. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Contract, as determined by the DIR are on file with the District and are available to any interested party on request or at www.dir.ca.gov/oprl/statistics_and_databases.html.
 8. **Contractor Registration.** Bidder shall ensure that it and its Subcontractors comply with the registration and compliance monitoring provisions of Labor Code section 1771.4, including furnishing its CPRs to the Labor Commissioner, and are registered pursuant to Labor Code section 1725.5. Bidder and its subcontractors shall comply with Labor Code section 1725.5 to be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of the Contract.
 9. **DVBE.** Section 17076.11 of the Education Code requires school districts using funds allocated pursuant to the State of California School Facility Program for the construction and/or modernization of school building(s) to have a participation goal for disabled veteran business enterprises (“DVBE”) of at least three percent (3%) per year of the overall dollar amount expended on projects that receive state funding. For any project that is at least partially state-funded, the low Bidder must submit certification of compliance with the procedures for implementation of DVBE contracting goals with its signed Agreement. DVBE Certification Participation Forms are attached. Bidders should not submit these forms with their Bids.
 10. **Bidder Diligence.** Submission of Bid signifies careful examination of the Contract Documents and a complete understanding of the nature, extent, and location of Work to be performed. Bidders must complete the tasks listed below as a condition to bidding, and submission of Bid shall constitute the Bidder's express representation to District that Bidder has fully completed the following:
 - a. Bidder has visited the Project Site, if required, and has examined thoroughly and understood the nature and extent of the Contract Documents, Work, Site, locality, actual conditions, as-built conditions, and all local conditions and federal, state and local laws, and regulations that in any manner may affect cost, progress, performance, or furnishing of Work or that relate to any aspect of the means, methods, techniques, sequences, or procedures of construction to be employed by Bidder and safety precautions and programs incident thereto;

- b. Bidder has conducted or obtained and has understood all examinations, investigations, explorations, tests, reports, and studies that pertain to the subsurface conditions, as-built conditions, underground facilities, and all other physical conditions at or contiguous to the Site or otherwise that may affect the cost, progress, performance, or furnishing of Work, as Bidder considers necessary for the performance or furnishing of Work at the Contract Price, within the Contract Time, and in accordance with the other terms and conditions of Contract Documents, including specifically the provisions of the General Conditions; and no additional examinations, investigations, explorations, tests, reports, studies, or similar information or data are or will be required by Bidder for such purposes;
- c. Bidder has correlated its knowledge and the results of all such observations, examinations, investigations, explorations, tests, reports, and studies with the terms and conditions of the Contract Documents;
- d. Bidder has given the District prompt written notice of all conflicts, errors, ambiguities, or discrepancies that it has discovered in or among the Contract Documents and the actual conditions, and the written resolution thereof by the District is acceptable to Bidder;
- e. Bidder has made a complete disclosure in writing to the District of all facts bearing upon any possible interest, direct or indirect, that Bidder believes any representative of the District or other officer or employee of the District presently has or will have in this Contract or in the performance thereof or in any portion of the profits thereof;
- f. Bidder must, prior to bidding, perform the work, investigations, research, and analysis required by the Instructions to Bidders and that Bidder represented in its Bid Form and the Agreement that it performed prior to bidding. Bidder is charged with all information and knowledge that a reasonable bidder would ascertain from having performed this required work, investigation, research, and analysis. Bid prices must include entire cost of all work "incidental" to completion of the Work.
- g. **Conditions Shown on the Contract Documents:** Information as to underground conditions, as-built conditions, or other conditions or obstructions, indicated in the Contract Documents, e.g., on Drawings or in Specifications, has been obtained with reasonable care, and has been recorded in good faith. However, District only warrants, and Bidder may only rely, on the accuracy of limited types of information.
 - (1) As to above-ground conditions or as-built conditions shown or indicated in the Contract Documents, there is no warranty, express or implied, or any representation express or implied, that such information is correctly shown or indicated. This information is verifiable by independent investigation and Bidder is required to make such verification as a condition to bidding. In submitting its Bid, Bidder shall rely on the results of its own independent investigation. In submitting its Bid, Bidder shall not rely on District-supplied information regarding above-ground conditions or as-built conditions.
 - (2) As to any subsurface condition shown or indicated in the Contract Documents, Bidder may rely only upon the general accuracy of actual reported depths, actual reported character of materials, actual reported soil types, actual reported water conditions, or actual obstructions shown or indicated. District is not responsible for the completeness of such information for bidding or construction; nor is District responsible in any way for any conclusions or opinions of Bidder drawn from such information; nor is District responsible for subsurface conditions that are not specifically shown (for example, District is not responsible for soil conditions in areas contiguous to areas where a subsurface condition is shown).
- h. **Conditions Shown in Reports and Drawings Supplied for Informational Purposes:** Reference is made to the document entitled Existing Information and Documentation Regarding Project Site, for identification of:

- (1) Subsurface Conditions: Those reports of explorations and tests of subsurface conditions at or contiguous to the Project Site that have been utilized by Architect in preparing the Contract Documents; and
 - (2) Physical Conditions: Those drawings of physical conditions in or relating to existing surface or subsurface structures at or contiguous to the Project Site that has been utilized by Architect in preparing the Contract Documents.
 - (3) These reports and drawings are **not** Contract Documents and, except for any “technical” data regarding subsurface conditions specifically identified in Existing Information and Documentation Regarding Project Site, and underground facilities data, Bidder may not in any manner rely on the information in these reports and drawings. Subject to the foregoing, Bidder must make its own independent investigation of all conditions affecting the Work and must not rely on information provided by District.
11. **As-Builts.** Bidders may examine any available “as-built” drawings of previous work by giving District reasonable advance notice. District will not be responsible for accuracy of “as-built” drawings. The document entitled Existing Information and Documentation Regarding Project Site applies to all supplied “as-built” drawings.
12. **Questions.** All questions about the meaning or intent of the Contract Documents are to be directed in writing to the District. Interpretations or clarifications considered necessary by the District in response to such questions will be issued in writing by Addenda faxed, mailed, or delivered to all parties recorded by the District as having received the Contract Documents. Questions received less than **SEVEN (7)** calendar days prior to the date for opening Bids may not be answered. Only questions answered by formal written Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.
13. **Addenda.** Addenda may also be issued to modify parts of the Contract Documents as deemed advisable by the District. Bidder must acknowledge each Addendum in its Bid Form by number or its Bid may be considered non-responsive. Each Addenda shall be part of the Contract Documents. A complete listing of Addenda may be obtained from the District.
14. **Substitution for Specified Items.** Bids shall be based on products and systems specified in Contract Documents or listed by name in Addenda. All requests must comply with the requirements specified in the Special Conditions, the Specifications and the following:
- a. **Request for Substitution Prior to Bid.**
 - (1) District must receive any request for substitution a minimum of **FOURTEEN (14)** calendar days prior to the date of bid opening.
 - (2) The District’s denial of a substitution request prior to the date of bid opening shall be conclusive, requiring Bidders to list only approved items. The District is not responsible and/or liable in any way for a Bidder’s damages and/or claims related, in any way, to that Bidder’s basing its bid on any requested substitution that the District has not approved. Bidder’s Bid shall be deemed non-responsive if it identifies a product or manufacturer of a non-approved substitution.
 - (3) Approved substitutions shall be listed in Addenda.
 - (4) District reserves the right not to act upon submittals of substitutions until after the date of bid opening.
 - b. **Request for Substitution after Bid Award.** Substitutions may be requested after Contract has been awarded only if indicated in and in accordance with requirements specified in the Special Conditions.

- c. **Information with Request.** Requests for substitutions shall contain sufficient information to assess acceptability of the product or system and impact to Project, including, without limitation, the requirements specified in the Special Conditions and the Specifications. Insufficient information shall be grounds for rejection of substitution.
15. **Alternates.** The Contract may include alternates. Alternates are defined as alternate products, materials, equipment, systems, methods, or major elements of the construction, that may, at the District's option and under terms established in the Contract and pursuant to section 20103.8 of the Public Contract Code, be selected for the Work. The District shall award the Contract, if it awards it at all, to the lowest responsive responsible bidder based on the criteria as indicated in the Invitation to Bid.
16. **Notice of Award.** The Bidder awarded the Contract shall execute and submit the following documents by 5:00 p.m. of the **SEVENTH (7TH)** calendar day following the date of the Notice of Award. Failure to properly and timely submit these documents entitles District to, among other remedies, make a claim against Bidder's Bid Bond or deposit Bidder's cash, cashier's check, or certified check. The proceeds thereof may be retained by District as liquidated damages, in District's sole discretion.
- a. Agreement: To be executed by successful Bidder. Submit four (4) copies, each bearing an original signature.
 - b. Performance Bond (100%): On the form provided in the Contract Documents and fully executed as indicated on the form.
 - c. Payment Bond (100%) (Contractor's Labor and Material Bond): On the form provided in the Contract Documents and fully executed as indicated on the form.
 - d. Insurance Certificates and Endorsements as required.
 - e. Certifications to be Completed by Contractor
17. **Notice to Proceed.** District may issue a Notice to Proceed within **THREE (3)** months from the date of the Notice of Award. Upon receipt of the Notice to Proceed, Contractor shall complete the Work within the period of time indicated in the Contract Documents. It is further expressly understood by Contractor that Contractor shall not be entitled to any claim of additional compensation or additional time when the Notice to Proceed is issued within the 3-month period.
- a. The District may postpone issuing the Notice to Proceed beyond the 3-month period, upon reasonable notice to Contractor.
 - b. It is further expressly understood by Contractor that Contractor shall not be entitled to any claim of additional compensation as a result of the postponement of the issuance of the Notice to Proceed beyond the 3-month period. If the Contractor believes that a postponement of issuance of the Notice to Proceed will cause a hardship to Contractor, the Contractor may terminate the Contract. Contractor's termination due to a postponement beyond the 3-month period shall be by written notice to District within **SEVEN (7)** calendar days after receipt by Contractor of District's notice of postponement.
 - c. It is further understood by Contractor that in the event Contractor terminates the Contract as a result of postponement by the District, District shall only be obligated to pay Contractor for the Work that Contractor had performed at the time of notification of postponement and which the District had in writing authorized Contractor to perform prior to issuing a Notice to Proceed.
 - d. Should Contractor terminate the Contract as a result of a notice of postponement, District shall have the authority to award the Contract to the next lowest responsive responsible bidder.

18. **Bid Protests.** Any bid protest by any Bidder regarding any other bid on this Project must be submitted in writing to the **Purchasing Department** at the District, before 5:00PM, March 17, 2025. The Purchasing Department will take steps to resolve the bid protest and, if that is not successful, the Business Services /Purchasing Department will refer the bid protest to the Superintendent or his/her designee that is a deputy superintendent and/or a chief officer. These steps are mandatory prior to any bid protest or award of a contract without a resolved bid protest being brought to the District's governing board for consideration.
- a. The protest must contain a complete statement of any and all bases for the protest.
 - b. The protest must refer to the specific portions of all documents that form the bases for the protest, including the specific portion(s) of the bid(s) that the Bidder is protesting.
 - c. The protest must include the name, address and telephone number of the person representing the protesting party.
 - d. The party filing the protest must concurrently transmit a copy of the protest and any attached documentation to all other parties with a direct financial interest that may be adversely affected by the outcome of the protest. Such parties shall include all other bidders or proposers who appear to have a reasonable prospect of receiving an award depending upon the outcome of the protest.
 - e. The procedure and time limits set forth in this paragraph are mandatory and are each bidder's sole and exclusive remedy in the event of bid protest. Failure to comply with these procedures shall constitute a waiver of any right to further pursue the bid protest, including filing a Government Code Claim or legal proceedings.
19. **Rejection of Bids.** District reserves the right to reject any or all bids, including without limitation the right to reject any or all nonconforming, non-responsive, unbalanced, or conditional bids, to re-bid, and to reject the bid of any bidder if District believes that it would not be in the best interest of the District to make an award to that bidder, whether because the bid is not responsive or the bidder is unqualified or of doubtful financial ability or fails to meet any other pertinent standard or criteria established by District. District also reserves the right to waive inconsequential deviations not involving price, time, or changes in the Work. For purposes of this paragraph, an "unbalanced bid" is one having nominal prices for work item(s) that represent substantive work and/or overly enhanced prices for nominal work item(s).
20. **Bidder Responsibility.** Prior to the award of Contract, District reserves the right to consider the responsibility of the Bidder. District may conduct investigations as District deems necessary to assist in the evaluation of any bid and to establish the responsibility, including, without limitation, qualifications and financial ability of Bidders, proposed subcontractors, suppliers, and other persons and organizations to perform and furnish the Work in accordance with the Contract Documents to District's satisfaction within the prescribed time.

DOCUMENT 00 31 19

EXISTING INFORMATION AND DOCUMENTATION REGARDING PROJECT SITE

1. Summary

This document describes existing conditions at or near the Project and use of information available regarding existing conditions. This document is **not** part of the Contract Documents. See General Conditions for definition(s) of terms used herein. Contractor is required to request from the District a copy of any reports that it believes are necessary to perform Contractor's Work in a safe, efficient, and workman-like manner.

2. Reports and Information on Existing Conditions

- a. Documents providing a general description of the Site and conditions of the Work may have been collected by District, its consultants, contractors, and tenants. These documents may include previous contracts, contract specifications, tenant improvement contracts, as-built drawings, utility drawings, and information regarding underground facilities.
- b. Information regarding existing conditions may be inspected at the District offices or the Construction Manager's offices, if any, and copies may be obtained at cost of reproduction and handling upon Bidder's agreement to pay for such copies. These reports, documents, and other information are **not** part of the Contract Documents.
- c. Information regarding existing conditions may also be included in the Project Manual but shall **not** be considered part of the Contract Documents.

3. Use of Information

- a. Information regarding existing conditions was obtained only for use of District and its consultants, contractors, and tenants for planning and design and is **not** part of the Contract Documents.
- b. District does not warrant, and makes no representation regarding, the accuracy or thoroughness of any information regarding existing conditions. Bidder represents and agrees that in submitting a bid it is not relying on any information regarding existing conditions supplied by District.
- c. Under no circumstances shall District be deemed to warrant or represent existing above-ground conditions, as-built conditions, or other actual conditions, verifiable by independent investigation. These conditions are verifiable by Contractor by the performance of its own independent investigation that Contractor must perform as a condition to bidding, and Contractor should not and shall not rely on this information or any other information supplied by District regarding existing conditions.
- d. Any information shown or indicated in the reports and other data supplied herein with respect to existing underground facilities at or contiguous to the Project may be based upon information and data furnished to District by the District's employees and/or consultants or builders of such underground facilities or others. District does not assume responsibility for the completeness of this information, and Bidder is solely responsible for any interpretation or conclusion drawn from this information.
- e. District shall be responsible only for the general accuracy of information regarding underground facilities, and only for those underground facilities that are owned by District, and only where Bidder has conducted the independent investigation required of it pursuant to the Instructions to Bidders, and discrepancies are not apparent.

4. Limited Reliance on Certain Information

- a. Reference is made herein for identification of:
 - (1) Reports of explorations and tests of subsurface conditions at or contiguous to the Site that have been utilized by District in preparation of the Contract Documents.
 - (2) Drawings of physical conditions in or relating to existing subsurface structures (except underground facilities) that are at or contiguous to the Site and have been utilized by District in preparation of the Contract Documents.
- b. Bidder may rely upon the general accuracy of the “technical data” contained in the reports and drawings identified above, but only insofar as it relates to subsurface conditions, provided Bidder has conducted the independent investigation required pursuant to Instructions to Bidders, and discrepancies are not apparent. The term “technical data” in the referenced reports and drawings shall be limited as follows:
 - (1) The term “technical data” shall include actual reported depths, reported quantities, reported soil types, reported soil conditions, and reported material, equipment or structures that were encountered during subsurface exploration. The term “technical data” does not include, and Bidder may not rely upon, any other data, interpretations, opinions or information shown or indicated in such drawings or reports that otherwise relate to subsurface conditions or described structures.
 - (2) The term “technical data” shall not include the location of underground facilities.
 - (3) Bidder may not rely on the completeness of reports and drawings for the purposes of bidding or construction. Bidder may rely upon the general accuracy of the “technical data” contained in such reports or drawings.
 - (4) Bidder is solely responsible for any interpretation or conclusion drawn from any “technical data” or any other data, interpretations, opinions, or information provided in the identified reports and drawings.

5. Investigations/Site Examinations

- a. Before submitting a Bid, each Bidder is responsible for conducting or obtaining any additional or supplementary examinations, investigations, explorations, tests, studies, and data concerning conditions (surface, subsurface, and underground facilities) at or contiguous to the Site or otherwise, that may affect cost, progress, performance, or furnishing of Work or that relate to any aspect of the means, methods, techniques, sequences, or procedures of construction to be employed by Bidder and safety precautions and programs incident thereto or that Bidder deems necessary to determine its Bid for performing and furnishing the Work in accordance with the time, price, and other terms and conditions of Contract Documents.
- b. On request, District will provide each Bidder access to the Site to conduct such examinations, investigations, explorations, tests, and studies, as each Bidder deems necessary for submission of a Bid. Bidders must fill all holes and clean up and restore the Site to its former condition upon completion of its explorations, investigations, tests, and studies. Such investigations and Site examinations may be performed during any and all Site visits indicated in the Invitation to Bid and only under the provisions of the Contract Documents, including, but not limited to, proof of insurance and obligation to indemnify against claims arising from such work, and District’s prior approval.

DOCUMENT 00 32 00

PREQUALIFICATION QUESTIONNAIRE FOR PROSPECTIVE BIDDERS

The **Alameda Unified School District** (“District”) has determined that contractors on future projects (“Contractor(s)” or “Firm(s)”) must be prequalified prior to submitting a bid or proposal on a project. This form must be completed by:

- A Contractor with a, General B or C-39 license(s) that intends to bid as a **General Contractor** (prime contractor) directly to the district.
- A Contractor with a C-39 license(s) that intends to bid as a **First-Tier subcontractor** to a general contractor (prime contractor) that is bidding directly to the district.

Form Submission. Contractors must complete this District form and **submit electronically** as indicated below; no other prequalification documents submitted by a Contractor will meet the District’s requirements. All Contractors shall submit completed questionnaires and financial statements as follows:

Location	Date
Email: mtirona@alamedaunified.org Alameda Unified School District 2060 Challenger Drive Alameda CA 94501 Attn: Marilou Tirona	Friday, February 28, 2025, by 2:00pm General (prime) Contractors & First-tier subcontractors

Contractor List. The District will make available a list of prequalified general contractors and electrical, mechanical, and plumbing subcontractors to all prequalified Contractors at least five (5) Business Days prior to the date for submission of any response to a District bid or other solicitation covered by this prequalification.

References. The District reserves the right to contact any representative at Contractor’s previous projects to gather information about the Contractor and/or to base the District’s prequalification determination on a scoring of Contractor’s references’ responses to questions.

Updates. Contractors who are prequalified must update their prequalification questionnaire if or when Contractor’s status or information changes. The District reserves the right to adjust, suspend, or rescind the prequalification rating of any Contractor based on subsequently learned information.

Non-responsiveness. A Contractor’s prequalification questionnaire shall be deemed nonresponsive if, without limitation, the Contractor’s prequalification questionnaire is not returned on time, does not provide all requested information, is not signed under penalty of perjury by an individual who has the authority to bind the Contractor, is not updated as required or is misleading or inaccurate in any material manner (e.g., financial resources are overstated; previous violations of law are not accurately reported).

Rejection/Waiver/Request. The District reserves the right, in its sole discretion, to reject any or all prequalification questionnaires, to waive irregularities in any prequalification questionnaire or to request further information or documentation from any Contractor.

Public Records. Although the names of Contractors seeking prequalification may be public information, pursuant to, without limitation, Public Contract Code sections 20111.5(a) and 20111.6 (b), each Contractor’s questionnaire and financial statements “shall not be public records and shall not be open to public inspection.” However, the contents of Contractor’s prequalification questionnaires and financial statements may be disclosed to third parties for purposes of clarification or investigation of material allegations or in any appeal process.

Appeal. A Contractor may appeal the District's decision. If a Contractor decides to appeal the District's prequalification decision, it must follow the following procedure:

1. Contractor shall submit, in writing, within **FIVE (5)** Business Days from District's determination, a request for a written response from the District to explain the District's determination.
2. Within five (5) Business Days from receipt of the District's written response to the Contractor's request, Contractor may submit, in writing, a request for a meeting with the District's staff. Contractor may submit with the request any and all information that it believes supports a finding that District's determination should be changed.
3. District staff shall hold a meeting with the Contractor. If the Contractor continues to contest the District's determination after that meeting with District staff, then the Contractor may address the Board at the next public noticed meeting of the District's governing board, pursuant to the governing board's procedures for public comment. **TO PRESERVE THE CONTRACTOR'S RIGHT TO CHALLENGE THE DISTRICT'S DETERMINATION, THE CONTRACTOR SHALL ADDRESS THE BOARD AT THE NEXT PUBLIC NOTICED MEETING OF THE BOARD AFTER CONTRACTOR'S MEETING WITH DISTRICT STAFF.**
4. **FAILURE OF A CONTRACTOR TO TIMELY FOLLOW ALL APPEAL STEPS SHALL BE A WAIVER OF THE CONTRACTOR'S RIGHT TO APPEAL THE DISTRICT'S DECISION.**

CONTRACTOR (OR "FIRM") INFORMATION

Contractor's company name:		
Address:		
Telephone:		
Mobile telephone:

BID FORM

To: Governing Board of **Alameda Unified School District** ("District")

From: _____
(Proper Name of Bidder)

1. **Total Bid.** The undersigned declares that the Contract Documents including, without limitation, the Invitation to Bid, the Instructions to Bidders, and the Special Conditions have been read, and agrees and proposes to furnish all necessary labor, materials, and equipment to perform and furnish all work in accordance with the terms and conditions of the Contract Documents, including, without limitation, the Drawings and Specifications for the following project:

Industrial Arts Building Roof Repairs

and will accept in full payment for that Work the following total lump sum amount, all taxes included:

Dollars	\$	
Bid Item No. 1 for <u>All scope items per specifications and drawings.</u>		
Twenty Thousand	Dollars	\$ 20,000.00
Allowance for <u>unforeseen damaged roof deck, flashings, or other roof accessories not captured in the specifications and drawings as approved by AUSD.</u>		
	Dollars	\$
TOTAL BASE BID		
NOTE: IF THERE ARE ALLOWANCES IDENTIFIED IN THIS BID FORM, DO NOT INCLUDE ANY ALLOWANCE(S) AMOUNTS IN THESE BID AMOUNTS.		

2. **Contract Review.** The undersigned has reviewed the Work outlined in the Contract Documents and fully understands the scope of Work required in this bid, understands the construction and project management function(s) is described in the Contract Documents, and that each Bidder who is awarded a contract shall be in fact a prime contractor, not a subcontractor, to the District, and agrees that its bid, if accepted by the District, will be the basis for the Bidder to enter into a contract with the District in accordance with the intent of the Contract Documents.
3. **Requests for Clarification.** The undersigned has notified the District in writing of any discrepancies or omissions or of any doubt, questions, or ambiguities about the meaning of any of the Contract Documents, and has contacted the Construction Manager before bid date to verify the issuance of any clarifying Addenda.
4. **Contract Time.** The undersigned agrees to commence work under this Contract on the date established in the Contract Documents and to complete all work within the time specified in the Contract Documents.

5. **Contractual Provisions.** The undersigned hereby acknowledges and agrees to be bound by following provisions and all provisions in the Contract Documents:

- The liquidated damages clause of the General Conditions and Agreement.
- The "Changes in the Work" provisions in the General Conditions that limit the permitted charges and mark-ups on change orders and on the amount of home office overhead that the successful bidder can receive from the District.
- The "Claims" provisions in the General Conditions that delineate the required process to submit and process disputes and claims.

6. **Bid Open for 90 Days.** It is understood that the District reserves the right to reject this bid and that the bid shall remain open to acceptance and is irrevocable for a period of ninety (90) days.

7. **Attachments.** The following documents are attached hereto:

- The Bid Bond on the District's form or other security
- The Designated Subcontractors List
- The Non Collusion Declaration
- Iran Contracting Act Certification

8. **Addenda Acknowledgement.** Receipt and acceptance of the following addenda is hereby acknowledged:

No.____, Dated _____	No.____, Dated _____
No.____, Dated _____	No.____, Dated _____
No.____, Dated _____	No.____, Dated _____
<input type="checkbox"/> Or check here if no addenda were issued.	

9. **Bidder's License.**

- Bidder acknowledges that the license required for performance of the Work is as stated in the Invitation to Bid.
- Bidder certifies that it is, at the time of bidding, and shall be throughout the period of the contract, licensed by the State of California to do the type of work required under the terms of the Contract

Documents. Bidder further certifies that it is regularly engaged in the general class and type of work called for in the Contract Documents.

10. **Labor Harmony.** The undersigned hereby certifies that Bidder is able to furnish labor that can work in harmony with all other elements of labor employed or to be employed on the Work.
11. **DIR Registration.** Bidder shall ensure that it and its Subcontractors comply with the registration and compliance monitoring provisions of Labor Code section 1771.4, including furnishing its CPRs to the Labor Commissioner, and are registered pursuant to Labor Code section 1725.5.
12. **General Acknowledgement.** The Bidder represents that it is competent, knowledgeable, and has special skills with respect to the nature, extent, and inherent conditions of the Work to be performed. Bidder further acknowledges that there are certain peculiar and inherent conditions existent in the construction of the Work that may create, during the Work, unusual or peculiar, unsafe conditions hazardous to persons and property. Bidder expressly acknowledges that it is aware of such peculiar risks and that it has the skill and experience to foresee and to adopt protective measures to adequately and safely perform the Work with respect to such hazards.
13. **False Claims Act.** Bidder expressly acknowledges that it is aware that if a false claim is knowingly submitted (as the terms "claim" and "knowingly" are defined in the California False Claims Act, Cal. Gov. Code, §12650 et seq.), the District will be entitled to civil remedies set forth in the California False Claim Act. It may also be considered fraud and the Contractor may be subject to criminal prosecution.

Furthermore, Bidder hereby certifies to the District that all representations, certifications, and statements made by Bidder, as set forth in this bid form, are true and correct and are made under penalty of perjury.

BID BOND (SECURITY)

**(Note: If Bidder is providing a bid bond as its bid security,
Bidder must use this form, NOT a surety company form.)**

KNOW ALL PERSONS BY THESE PRESENTS:

That the undersigned, _____ as Principal ("Principal"),

and _____ as Surety ("Surety"),

a corporation organized and existing under and by virtue of the laws of the State of _____

and authorized to do business as a surety in the State of California, are held and firmly bound unto the

Alameda Unified School District ("District")

of _____ County, State of California as Obligee, in the sum of

_____ (\$ _____)

lawful money of the United States of America, for the payment of which sum well and truly to be made, we, and each of us, bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that whereas the Principal has submitted a bid to the District for all Work specifically described in the accompanying bid;

NOW, THEREFORE, if the Principal is awarded the Contract and, within the time and manner required under the Contract Documents, after the prescribed forms are presented to Principal for signature, enters into a written contract, in the prescribed form in accordance with the bid, and files two bonds, one guaranteeing faithful performance and the other guaranteeing payment for labor and materials as required by law, and meets all other conditions to the contract between the Principal and the Obligee becoming effective, or if the Principal shall fully reimburse and save harmless the Obligee from any damage sustained by the Obligee through failure of the Principal to enter into the written contract and to file the required performance and labor and material bonds, and to meet all other conditions to the Contract between the Principal and the Obligee becoming effective, then this obligation shall be null and void; otherwise, it shall be and remain in full force and effect. The full payment of the sum stated above shall be due immediately if Principal fails to execute the Contract within seven (7) days of the date of the District's Notice of Award to Principal.

Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract or the call for bids, or to the work to be performed thereunder, or the specifications accompanying the same, shall in any way affect its obligation under this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract or the call for bids, or to the work, or to the specifications.

In the event suit is brought upon this bond by the Obligee and judgment is recovered, the Surety shall pay all costs incurred by the Obligee in such suit, including a reasonable attorneys' fee to be fixed by the Court.

If the District awards the bid, the security of unsuccessful bidder(s) shall be returned within sixty (60) days from the time the award is made. Unless otherwise required by law, no bidder may withdraw its bid for ninety (90) days after the date of the bid opening.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named, on the _____ day of _____, 20__.

DESIGNATED SUBCONTRACTORS LIST

TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

Industrial Arts Building Roof Repairs

1. **Listed.** Bidder must list hereinafter the name and location of each subcontractor who will be employed, and the scope of Work that each will perform if the Contract is awarded to the Bidder. Bidder acknowledges and agrees that under Public Contract Code section 4100, et seq., it must clearly identify the name and location of each subcontractor who will perform work or labor or render service to the Bidder in or about the construction of the Work in an amount in excess of one-half of one percent (1/2 of 1%) of Bidder's total Bid.
2. **Same Scope.** In case more than one subcontractor is named for the same scope of Work, state the portion that each will perform.
3. **No Vendors or Suppliers.** Bidder need not list entities that are only vendors or suppliers of materials.
4. **Not Listed.** As to any Work that Bidder fails to list that is in excess of one-half of one percent (1/2 of 1%) of Bidder's total Bid, Bidder agrees to perform that portion itself or be subjected to penalty under applicable law.
5. **Alternate Work.** If alternate bids are called for and Bidder intends to use Subcontractors different from or in addition to those Subcontractors listed for work under the base Bid, Bidder must list Subcontractors that will perform Work in an amount in excess of one half of one percent (1/2 of 1%) of Bidder's total Bid, including alternates.
6. **DVBEs.** Bidder must indicate which, if any, of these subcontractors are disabled veteran business enterprises (DVBE) and the estimated percentage of the Work those subcontractor(s) will perform.
7. **CSLB Number.** Bidder must provide the Contactor State License Board number ("CSLB No.") for all listed subcontractors.
8. **DIR Number.** Bidder must provide the Department of Industrial Relations registration number ("DIR No.") for all listed subcontractors.
9. **THE DISTRICT WILL PERMIT EACH BIDDER TO SUBMIT EACH LISTED SUBCONTRACTOR'S CSLB NO. AND THE DIR NO. NO LATER THAN TWENTY-FOUR (24) HOURS AFTER BID OPENING.**
10. **Additional Sheets.** If further space is required for the list of proposed subcontractors, additional sheets showing the required information, as indicated below, shall be attached hereto and made a part of this document.

I certify and declare under penalty of perjury under the laws of the State of California that all the information listed on the following page(s) is complete, true, and correct.

NONCOLLUSION DECLARATION
Public Contract Code § 7106

TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ **[PRINT YOUR TITLE]**

of _____ **[PRINT FIRM NAME],**

the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on the following date:

IRAN CONTRACTING ACT CERTIFICATION (Public Contract Code § 2204)

Industrial Arts Building Roof Repairs

Pursuant to Public Contract Code (PCC) section 2204, an Iran Contracting Act certification is required for solicitations of goods or services of one million dollars (\$1,000,000) or more.

Bidder shall complete **ONLY ONE** of the following three paragraphs.

1. Bidder's Total Base Bid is less than one million dollars (\$1,000,000).

OR

2. Bidder's Total Base Bid is one million dollars (\$1,000,000) or more, but Bidder is **not** on the current list of persons engaged in investment activities in Iran created by the California Department of General Services ("DGS") pursuant to Public Contract Code § 2203(b), and Bidder is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person, for 45 days or more, if that other person will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS.

OR

3. Bidder's Total Base Bid is one million dollars (\$1,000,000) or more, but the District has given prior written permission to Bidder to submit a proposal pursuant to PCC 2203(c) or (d). **A copy of the written permission from the District is included with Bid.**

I certify that I am duly authorized to legally bind the Bidder to this certification, that the contents of this certification are true, and that this certification is made under the laws of the State of California.

NOTICE OF AWARD

Dated: _____, 2025

To: _____
("Contractor")

(Address)

From: Governing Board ("Board") of **Alameda Unified School District** ("District")

Re: **Industrial Arts Building Roof Repairs**

Contractor was awarded the Contract on _____, 2025, by the authority by the Alameda Unified School District Board.

The Contract Price is _____ Dollars (\$ _____), and includes alternates _____.

Three (3) copies of each of the Contract Documents (except Drawings) accompany the Notice of Award. Three (3) sets of the Drawings will be delivered separately or otherwise made available. Additional copies are available at cost of reproduction.

Contractor must comply with the following conditions precedent within **SEVEN (7)** calendar days of the date of this Notice of Award.

Contractor shall execute and submit the following Contract Documents by 5:00 p.m. of the **SEVENTH (7TH)** calendar day following the date of the Notice of Award. Failure to properly and timely submit the following Contract Documents entitles District to foreclose on Contractor's bid bond and award the contract to the next responsive, responsible bidder.

- a. Agreement: Submit four (4) copies, each bearing an original signature. **If Contractor is a corporation, Contractor must attach a certified copy of the corporation's by-laws, or the resolution of the Board of Directors of the corporation, authorizing the signatory to execute the Agreement and the bonds required by the Contract Documents.**
- b. Escrow of Bid Documentation: Include all required documentation. Refer to the Escrow of Bid Documentation document for details.
- c. Performance Bond (100%): Fully executed form provided in the Contract Documents.
- d. Payment Bond (100%) (Contractor's Labor and Material Bond): Fully executed form provided in the Contract Documents.
- e. Insurance Certificates and Endorsements as required.
- f. Certifications to be Completed by Contractor.
- g. Disabled Veterans' Business Enterprise Participation Certification.
- h. Criminal Background Investigation/Fingerprinting Certification.

Failure to comply with these conditions within the time specified will entitle District to consider Contractor's bid abandoned, to annul the Notice of Award, and to declare Contractor's Bid Security forfeited, as well as any other rights the District may have against Contractor.

District will return to Contractor one fully signed counterpart of the Agreement.

DOCUMENT 00 45 10

AGREEMENT

This agreement is made and entered into on _____, 2025, by and between the **Alameda Unified School District** ("District") and _____ ("Contractor") ("Agreement"). The District and the Contractor agree as follows:

1. **The Work:** Contractor shall furnish all tools, equipment, apparatus, facilities, labor, and material necessary to perform and complete in a good and workmanlike manner, the work of the following project:

Industrial Arts Building Roof Repairs

The Work shall be performed and completed as required in the Contract Documents as defined in the General Conditions including, without limitation, the Drawings and Specifications, under the direction and supervision of, and subject to, the approval of the District or its authorized representative.

2. **The Contract Documents:**

- a. The complete Contract consists of all Contract Documents as defined in the General Conditions and incorporated herein by this reference. All obligations of the District and Contractor are fully set forth and described in the Contract Documents. The Contract Documents are intended to cooperate so that Work called for in one and not mentioned in the other or vice versa is to be performed the same as if mentioned in all Contract Documents.
- b. **Interpretation of Contract Documents/Order of Precedence:** Questions concerning the intent, precedence, or meaning of the Contract Documents, including the Drawings or Specifications, shall be submitted to the District for interpretation. Inconsistencies in the Contract Documents shall be resolved by giving precedence in the following order:
- (i) District-approved modifications, beginning with the most recent (if any);
 - (ii) Agreement;
 - (iii) Special Conditions (if any);
 - (iv) Supplemental Conditions (if any);
 - (v) General Conditions;
 - (vi) Remaining Division 0 documents (Documents beginning with "00");
 - (vii) Division 1 Documents (Documents beginning with "01");
 - (viii) Division 2 (Existing Conditions)
 - (ix) Division 7 (Technical Specifications);
 - (x) Small-scale drawings.

In case of conflict, the greater quantity and/or higher standard of workmanship shall apply unless the District expressly in writing (e.g., via a Change Order) accepts a lesser quantity or lower quality of workmanship and the Contract Price is adjusted accordingly. The decision of the District in the matter shall be final.

3. **Integration / Modification.** The Contract Documents and any documents specifically incorporated by reference are completely integrated as the complete and exclusive statement of the terms of the Agreement. This Agreement supersedes all previous contracts, agreements, and / or communications, both oral and written, and constitutes the entire understanding of the District and Contractor. No extrinsic evidence whatsoever shall be admissible or used to explain or supplement the terms of the Contract, Contract Documents, or any items incorporated by reference. No changes, amendments or alterations shall be effective unless in writing, signed by both Parties, and unless provided otherwise by the Contract Documents.

4. **Time for Completion:** It is hereby understood and agreed that the Contractor shall complete the Work by **August 8, 2025**. The District shall not approve an early completion schedule by Contractor. A schedule showing the Work completed in less than the Contract Time indicated in the Contract, shall be considered to have Project Float

5. **Completion-Extension of Time:** If Contractor fails to complete the Work within the Contract Time, due allowance being made for the contingencies provided for herein, Contractor shall become liable to District for all loss and damage that District may suffer on account thereof. Contractor shall coordinate its Work with the work of all other contractors. The District shall not be liable for delays resulting from Contractor's failure to coordinate its Work with other contractors in a manner that allows for timely completion of Contractor's Work. Contractor shall be liable for delays to other contractors caused by Contractor's failure to coordinate its Work with the work of other contractors.

6. **Contract Price:** In consideration of the foregoing covenants, promises, and agreements, Contractor offers, in the amounts stated below, to perform the Work according to the Contract Documents. District covenants, promises, and agrees that it will pay and cause to be paid to Contractor in full, and as the Contract Price the following amount(s):

	Dollars	(\$)
<hr/>				
(Base Contract Amount)				
Twenty Thousand	Dollars	(\$	20,000.00)
<hr/>				
(Allowance) <i>(For damaged roof decking, failed flashings, or other miscellaneous roof accessories)</i>				
<hr/>				
	Dollars	(\$)
<hr/>				
("Contract Price")				

THE ABOVE ALLOWANCES ARE WITHIN THE CONTRACT PRICE ONLY TO THE EXTENT CONTRACTOR HAS PERFORMED WORK ENCOMPASSED BY THE ALLOWANCE DESCRIPTION, THE CONTRACTOR HAS APPROPRIATELY INVOICED FOR THAT WORK, AND DISTRICT HAS APPROVED CONTRACTOR'S INVOICE. CONTRACTOR SHALL INVOICE ONLY FOR COMPONENTS OF THE WORK ENCOMPASSED BY THE ALLOWANCE DESCRIPTION, IN THE IDENTICAL STRUCTURE AS A CHANGE ORDER. THE UNUSED PORTION OF EACH ALLOWANCE SHALL BE RETAINED BY THE DISTRICT.

- a. The Contract Price shall be paid in lawful money of the United States pursuant to the payment provisions in the General Conditions.

- b. The District may, at its sole discretion, increase or decrease the Contract Price by unit prices or alternates contained in Contractor's original bid. If the Bid for the Work included proposal(s) for Alternate Bid Item(s), during Contractor's performance of the Work, the District may elect to add any such Alternate Bid Item(s) if the that item did not form a basis for award of the Agreement or delete any such Alternate Bid Item(s) if that item formed a basis for award of the Agreement. If the District elects to add or delete an Alternate Bid Item(s) pursuant to the foregoing, the cost or credit for that Alternate Bid Item(s) shall be as set forth in the Contractor's Bid, at the District's discretion. If any Alternate Bid Item is added or deleted from the Work pursuant to the foregoing, the Contract Time shall be adjusted by the number of days allocated for the added or deleted Alternate Bid Item in the Contract Documents; if days are not allocated for any Alternate Bid Item added or deleted pursuant to the foregoing, the Contract Time shall be equitably adjusted.

7. **Insurance and Bonds:** Contractor shall provide all required certificates of insurance, and payment and performance bonds.

8. **Performance of Work:** If Contractor fails to perform the Work properly or fails to perform any provisions of this Contract, the District, may, pursuant to the General Conditions and without prejudice to any other remedy it may have, cure the deficiencies and deduct the cost thereof from the payment then or thereafter due Contractor.

9. **Authority of Architect, Project Inspector, and DSA:** Contractor hereby acknowledges that the Architect(s), the Project Inspector(s), and the Division of the State Architect have authority to approve and/or stop Work if Contractor's Work does not comply with the requirements of the Contract Documents, Title 24 of the California Code of Regulations, and all applicable laws. Contractor shall be liable for any delay caused by its non-compliant Work.

10. **Assignment of Contract:** Neither the Contract, nor any part thereof, nor any moneys due or to become due thereunder, may be assigned by Contractor without the written approval of District, nor without the written consent of the Surety on Contractor's Performance Bond (the "Surety"), unless the Surety has waived in writing its right to notice of assignment.

11. **Classification of Contractor's License:** Contractor hereby acknowledges that it currently holds valid Type A, B, C-33, or C-61 Contractor's license(s) issued by the State of California, Contractor's State Licensing Board, in accordance with division 3, chapter 9, of the Business and Professions Code and in the classification called for in the Contract Documents.

12. **Payment of Prevailing Wages:** Contractor and all Subcontractors under Contractor shall pay all workers on Work performed pursuant to this Contract not less than the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work as determined by the Director of the Department of Industrial Relations, State of California, for the type of work performed and the locality in which the work is to be performed within the boundaries of the District, pursuant to sections 1770 et seq. of the California Labor Code.

13. **Contractor & Subcontractor Registration:** Contractor shall comply with the registration and compliance monitoring provisions of Labor Code section 1771.4, including complying with any applicable enforcement by the Department of Industrial Relations.

14. **Authority of Contractor's Representative:** Contractor hereby certifies that its legal representative as defined in the General Conditions and the person(s) it employees on the Project at or above the level of project superintendent, each have the authority to legally bind the Contractor.

15. **Severability:** If any term, covenant, condition, or provision of the Contract Documents is held by a court of competent jurisdiction to be invalid, void or unenforceable, the remainder of the provisions in the Contract Documents shall remain in full force and effect and shall in no way be affected, impaired, or invalidated thereby.

IN WITNESS WHEREOF, accepted and agreed on the date indicated above:

DOCUMENT 00 45 40

CERTIFICATIONS TO BE COMPLETED BY CONTRACTOR

THE UNDERSIGNED MUST CHECK EACH BOX AND EXECUTE THIS FORM AND HEREBY CERTIFIES TO THE GOVERNING BOARD OF THE DISTRICT THAT:

- He/she is a representative of the Contractor,
- He/she is familiar with the facts herein certified and acknowledged,
- He/she is authorized and qualified to execute this Agreement and these certifications on behalf of Contractor and that by executing this Agreement he/she is certifying the following items.

Labor Code Sections 1860-1861 (Workers' Compensation). In accordance with Labor Code section 3700, every contractor will be required to secure the payment of compensation to his or her employees. I acknowledge and certify under penalty of perjury that I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract.

Government Code Sections 8355-8357 (Drug-Free Workplace). I acknowledge and certify under penalty of perjury that I will provide a drug-free workplace by doing all of the following:

- (1) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited in the person's or organization's workplace and specifying the actions that will be taken against employees for violations of the prohibition.
- (2) Establishing a drug-free awareness program to inform employees about all of the following:
 - (A) The dangers of drug abuse in the workplace.
 - (B) The person's or organization's policy of maintaining a drug-free workplace.
 - (C) Any available drug counseling, rehabilitation, and employee assistance programs.
 - (D) The penalties that may be imposed upon employees for drug abuse violations.
- (3) Requiring that each employee engaged in the performance of the contract or grant be given a copy of the statement required by subdivision (a) and that, as a condition of employment on the contract or grant, the employee agrees to abide by the terms of the statement.

I also acknowledge that this Contract may be subject to suspension of payments under the contract or grant or termination of the contract or grant, or both, and the contractor or grantee thereunder may be subject to debarment, in accordance with the requirements of the above-referenced statute, if the contracting or granting agency determines that any of the following has occurred:

- (1) The contractor or grantee has made a false certification under Section 8355.
- (2) The contractor or grantee violates the certification by failing to carry out the requirements of subdivisions (a) to (c), inclusive, of Section 8355.

I also acknowledge that the Department of General Services shall establish and maintain a list of individuals and organizations whose contracts or grants have been canceled due to failure to comply with the above-referenced statute. This list shall be updated monthly and published each month. No state agency shall award a contract or grant to a person or organization on the published list until that person or organization has complied with the above-referenced statute.

Tobacco-Free Environment. Pursuant to, without limitation, 20 U.S.C. section 6083, Labor Code section 6400 et seq., Health & Safety Code section 104350 et seq. and District Board Policies, all District sites, including the Project site, are tobacco-free environments. Smoking and the use of tobacco products by all persons is prohibited on or in District property. District property includes school buildings, school grounds, school owned vehicles and vehicles owned by others while on District property.

I acknowledge and certify under penalty of perjury that I am aware of the District's policy regarding tobacco-free environments at District sites, including the Project site and acknowledge and certify that I will adhere to the requirements of that policy and not permit any of my firm's employees, agents, subcontractors, or my firm's subcontractors' employees or agents to use tobacco and/or smoke on the Project site. The District also prohibits electronic cigarettes, "vaping" or similar product uses on District sites.

No Hazardous Materials. I acknowledge and certify under penalty of perjury that no Asbestos, or Asbestos-Containing Materials, polychlorinated biphenyl (PCB), or any material listed by the federal or state Environmental Protection Agency or federal or state health agencies as a hazardous material, or any other material defined as being hazardous under federal or state laws, rules, or regulations ("New Hazardous Material"), shall be furnished, installed, or incorporated in any way into the Project or in any tools, devices, clothing, or equipment used to affect any portion of Contractor's work on the Project for District. I have instructed our employees with respect to the above-mentioned standards, hazards, risks, and liabilities.

- (i) Asbestos and/or asbestos-containing material shall be defined as all items containing but not limited to chrysotile, crocidolite, amosite, anthophyllite, tremolite, and actinolite. Any or all material containing greater than one-tenth of one percent (.1%) asbestos shall be defined as asbestos-containing material. Any disputes involving the question of whether or not material is New Hazardous Material shall be settled by electron microscopy or other appropriate and recognized testing procedure, at the District's determination. The costs of any such tests shall be paid by Contractor if the material is found to be New Hazardous Material.
- (ii) All Work or materials found to be New Hazardous Material or Work or material installed with equipment containing "New Hazardous Material," will be immediately rejected and this Work will be removed at Contractor's expense at no additional cost to the District.

The Contractor must immediately notify the District within two (2) Business Days, if the Contractor finds and before it disturbs, any material that the Contractor believes may be hazardous waste, as defined in section 25117 of the Health and Safety Code, and requires removal to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law

I acknowledge and certify under penalty of perjury that this certification provides notice to the Contractor that:

- (1) The Contractor's work may disturb lead-containing building materials.
- (2) The Contractor must notify the District if any work may result in the disturbance of lead-containing building materials.

Lead as a Health Hazard

Lead poisoning is recognized as a serious environmental health hazard facing children today. Even at low levels of exposure, much lower than previously believed, lead can impair the development of a child's central nervous system, causing learning disabilities, and leading to serious behavioral problems. Lead enters the environment as tiny lead particles and lead dust disburse when paint chips, chalks, peels, wears away over time, or is otherwise disturbed. Ingestion of lead dust is the most common pathway of childhood poisoning; lead dust gets on a child's hands and toys and then into a child's mouth through common hand-to-mouth activity. Exposures may result from construction or remodeling activities that disturb lead paint, from ordinary wear and tear of windows and doors, or from friction on other surfaces.

Ordinary construction and renovation or repainting activities carried out without lead-safe work practices can disturb lead-based paint and create significant hazards. Improper removal practices, such as dry scraping, sanding, or water blasting painted surfaces, are likely to generate high volumes of lead dust.

Because the Contractor and its employees will be providing services for the District, and because the Contractor's work may disturb lead-containing building materials, **Contractor is hereby notified** of the potential presence of lead-containing materials located within certain buildings utilized by the District. All school buildings built prior to 1993 are presumed to contain some lead-based paint until sampling proves otherwise.

(i) **Overview of California Law**

Education Code section 32240 et seq. is known as the Lead Safe Schools Protection Act. Under this act, the Department of Health Services ("DHS") is to conduct a sample survey of schools in the State of California for the purpose of developing risk factors to predict lead contamination in public schools. (Ed. Code, § 32241.)

Any school that undertakes any action to abate existing risk factors for lead is required to utilize trained and state-certified contractors, inspectors, and workers. (Ed. Code, § 32243, subd. (b).) Moreover, lead-based paint, lead plumbing, and solders, or other potential sources of lead contamination, shall not be utilized in the construction of any new school facility or the modernization or renovation of any existing school facility. (Ed. Code, § 32244.)

Both the Federal Occupational Safety and Health Administration ("Fed/OSHA") and the California Division of Occupational Safety and Health ("Cal/OSHA") have implemented safety orders applicable to all construction work where a contractor's employee may be occupationally exposed to lead.

The OSHA Regulations apply to all construction work where a contractor's employee may be occupationally exposed to lead. The OSHA Regulations contain specific and detailed requirements imposed on contractors subject to that regulation. The OSHA Regulations define construction work as work for construction, alteration, and/or repair, including painting and decorating. It includes, but is not limited to, the following:

- a. Demolition or salvage of structures where lead or materials containing lead are present;
- b. Removal or encapsulation of materials containing lead;
- c. New construction, alteration, repair, or renovation of structures, substrates, or portions thereof, that contain lead, or materials containing lead;
- d. Installation of products containing lead;

- e. Lead contamination/emergency cleanup;
- f. Transportation, disposal, storage, or containment of lead or materials containing lead on the site or location at which construction activities are performed; and
- g. Maintenance operations associated with the construction activities described in the subsection.

Because it is assumed by the District that all painted surfaces (interior as well as exterior) within the District contain some level of lead, it is imperative that the Contractor, its workers and subcontractors fully and adequately comply with all applicable laws, rules and regulations governing lead-based materials (including title 8, California Code of Regulations, section 1532. 1).

The Contractor must notify the District if any Work may result in the disturbance of lead-containing building materials. Any and all Work that may result in the disturbance of lead-containing building materials must be coordinated through the District. A signed copy of this Certification must be on file prior to beginning Work on the Project, along with all current insurance certificates.

(ii) **Renovation, Repair and Painting Rule, Section 402(c)(3) of the Toxic Substances Control Act**

In 2008, the U.S. Environmental Protection Agency, issued a rule pursuant to the authority of Section 402(c)(3) of the Toxic Substances Control Act, requiring lead safe work practices to reduce exposure to lead hazards created by renovation, repair and painting activities that disturb lead-based paint (Renovation, Repair and Painting Rule). Renovations in homes, childcare facilities, and schools built prior to 1978 must be conducted by certified renovations firms, using renovators with accredited training, and following the work practice requirements to reduce human exposures to lead.

Contractor, its workers and subcontractors must fully and adequately comply with all applicable laws, rules and regulations governing lead-based materials, including those rules and regulations appearing within title 40 of the Code of Federal Regulations as part 745 (40 CFR 745).

The requirements apply to all contractors who disturb lead-based paint in a six-square-foot area or greater indoors or a 20-square-foot area outdoors. If a DPH-certified inspector or risk assessor determines that a home constructed before 1978 is lead-free, the federal certification is not required for anyone working on that particular building.

(iii) **Contractor's Liability**

If the Contractor fails to comply with any applicable laws, rules, or regulations, and that failure results in a site or worker contamination, the Contractor will be held solely responsible for all costs involved in any required corrective actions, and shall defend, indemnify, and hold harmless the District, pursuant to the indemnification provisions of the Contract, for all damages and other claims arising therefrom.

If lead disturbance is anticipated in the Work, only persons with appropriate accreditation, registrations, licenses, and training shall conduct this Work.

It shall be the responsibility of the Contractor to properly dispose of any and all waste products, including, but not limited to, paint chips, any collected residue, or any other visual material that may occur from the prepping of any painted surface. It will be the responsibility of the Contractor to provide the proper disposal of any hazardous waste by a certified hazardous waste hauler. This company shall be registered with the Department of Transportation (DOT) and shall be able to issue a current manifest number upon transporting any hazardous material from any school site within the District.

The Contractor shall provide the District with any sample results prior to beginning Work, during the

Work, and after the completion of the Work. The District may request to examine, prior to the commencement of the Work, the lead training records of each employee of the Contractor.

I acknowledge and certify under penalty of perjury, that:

1. I have received notification of potential lead-based materials on the District's property;
2. I am knowledgeable regarding and will comply with all applicable laws, rules, and regulations governing work with, and disposal of, lead.

Imported Materials. All soils, aggregate, or related materials ("Fill") that Contractor, a Subcontractor, agent or supplier, in any way, provides or delivers and/or supplies to the Project Site shall be free of any and all hazardous material as defined in section 25260 of the Health and Safety Code, shall satisfy the requirements of any environmental review of the Project performed pursuant to the statutes and guidelines of the California Environmental Quality Act, sections 21000 et seq. of the Public Resources Code ("CEQA"), and shall comply with the requirements of sections 17210 et seq. of the Education Code, including requirements for a Phase I environmental assessment acceptable to the State of California Department of Education and Department of Toxic Substances Control. I acknowledge that, to the furthest extent permitted by California law, the indemnification provisions in the Contract Documents apply to, without limitation, any claim(s) connected with providing, delivering, and/or supplying Fill.

I acknowledge and certify under penalty of perjury that I am duly authorized to legally bind the Contractor to all provisions and items included in this certification, that the contents of this certification are true, and that this certification is made under the laws of the State of California.

DISABLED VETERAN BUSINESS ENTERPRISE PARTICIPATION CERTIFICATION

Section 17076.11 of the Education Code requires school districts using funds allocated pursuant to the State of California School Facility Program ("Program") for the construction and/or modernization of school buildings to have a participation goal for disabled veteran business enterprises ("DVBE(s)") of at least three percent (3%), per year, of the overall dollar amount expended each year by the school district on projects that receive state funding.

Section 2001 of the Public Contract Code requires school districts to require each Bidder to provide in its bid certain information about its Subcontractors. In addition to completing this certification as indicated herein, each Bidder must provide the information related to DVBEs as required in the Designated Subcontractors List.

1. **Disabled Veteran Business Enterprise.** A DVBE is a business enterprise certified by the California Office of Small Business as a DVBE.
2. **DVBE Participation Policy.** The District is committed to achieving this DVBE participation goal. The District encourages Contractor to ensure maximum opportunities for the participation of DVBEs in the Work of the Contract.
3. **DVBE Participation Goal.** The three percent (3%) participation goal is not a quota, set-aside or rigid proportion.
4. **Certification of Participation.** At the time of execution of the Contract, the Contractor will provide a statement to the District of anticipated participation of DVBEs in the contract.
5. **Submission of Report.** During performance of the Contract, Contractor shall monitor the Work of the Contract, award of subcontracts and contracts for materials, equipment and supplies for the purpose of determining DVBE participation in the Work of the Contract.
 - a) Contractor shall report on a monthly basis all DVBEs utilized in the performance of the Work, the type or classification of the Work performed by each DVBE, and the dollar value of the Work performed by each DVBE.
 - b) Upon completion of the Work of the Contract, Contractor shall submit a report to the District in the form attached hereto identifying all DVBEs utilized in the performance of the Work, the type or classification of the Work performed by each DVBE, and the dollar value of the Work performed by each DVBE.
 - i) The submission to the District of this report is a condition precedent to the District's obligation to make payment of the Final Payment under the Contract Documents. The submission of this report shall be in addition to, and not in lieu of, any other conditions precedent set forth in the Contract Documents for the District's obligation to make payment of the Final Payment.
 - ii) The District reserves the right to request additional information or documentation from the Contractor evidencing efforts to comply with the three percent (3%) DVBE participation goal.

DVBE PARTICIPATION REPORT

Contractor Name: _____ Date: _____

Project Name: _____ Project Number: [PROJECT NO.]

DVBE Firm Name	Trade / Portion of Work	Subcontract/ Contract Value
Add more sheets as needed to include all information for each DVBE		

Does the cumulative dollar value of these DVBE contracts meet or exceed the participation goal of three percent (3%) of the final Contract Price, as adjusted by all change orders?

YES _____ NO _____

If your response is "NO," please attach to this report a detailed description of the reasons your firm did not achieve the participation goal of three percent (3%) of the final Contract Price.

I certify and declare under penalty of perjury under the laws of the State of California that all the foregoing information is complete, true, and correct.

CRIMINAL BACKGROUND INVESTIGATION / FINGERPRINTING CERTIFICATION

The undersigned does hereby certify to the governing board of the District that he/she is a representative of the Contractor, is familiar with the facts herein certified, is authorized and qualified to execute this certificate on behalf of Contractor; and that the information in this Criminal Background Investigation / Fingerprinting Certification is true and correct.

1. **Education Code.** Contractor has taken at least one of the following actions with respect to the Project (check all that apply):

The Contractor has complied with the fingerprinting requirements of Education Code section 45125.1 with respect to all Contractor's employees and all of its subcontractors' employees who may have contact with District pupils in the course of providing services pursuant to the Contract, and the California Department of Justice ("DOJ") has determined (per the DOJ process for Applicant Agencies described more fully on its website, located at:) that none of those employees have been convicted of a felony, as that term is defined in Education Code section 45122.1. A complete and accurate list of Contractor's employees and of all of its subcontractors' employees who may come in contact with District pupils during the course and scope of the Contract is attached hereto; and/or

Pursuant to Education Code section 45125.2, Contractor has installed or will install, prior to commencement of work, a physical barrier at the Project site, that will limit contact between Contractor's employees and District pupils at all times; and/or

Pursuant to Education Code section 45125.2, Contractor certifies that all employees will be under the continual supervision of, and monitored by, an employee of the Contractor who the California Department of Justice has ascertained has not been convicted of a violent or serious felony. The name and title of the employee who will be supervising Contractor's employees and its subcontractors' employees is:

Name: _____ Title: _____

The Work on the Contract is at an unoccupied school site and no employee and/or subcontractor or supplier of any tier of Contract shall come in contact with the District pupils.

2. **Megan's Law (Sex Offenders).** I have verified and will continue to verify that the employees of Contractor that will be on the Project site and the employees of the Subcontractor(s) that will be on the Project site are **not** listed on California's "Megan's Law" Website (<http://www.meganslaw.ca.gov/>).

Contractor's responsibility for background clearance extends to all of its employees, subcontractors, and employees of subcontractors coming into contact with District pupils regardless of whether they are designated as employees or acting as independent contractors of the Contractor.

ESCROW AGREEMENT FOR SECURITY DEPOSITS IN LIEU OF RETENTION
(Public Contract Code § 22300)

This Escrow Agreement ("Escrow Agreement") is made and entered into on _____, 2025, by and between the following:

Alameda Unified School District ("District"), whose address is _____, California, and

_____ ("Contractor"), whose address is _____, and

_____ ("Escrow Agent"), a state or federally chartered bank in California, whose address is _____.

For the consideration hereinafter set forth, District, Contractor, and Escrow Agent agree as follows:

1. Pursuant to section 22300 of Public Contract Code of the State of California, which is hereby incorporated by reference, Contractor has the following two (2) options:

Deposit securities with Escrow Agent as a substitute for retention earnings required to be withheld by District pursuant to the Construction Contract No. _____ entered between District and Contractor for the _____ Project, in the amount of _____ (\$ _____) dated, _____, 2025, (the "Contract");

OR

On written request of Contractor, District shall make payments of the retention earnings for the Contract directly to Escrow Agent.

When Contractor deposits the securities as a substitute for Contract earnings, Escrow Agent shall notify District within ten (10) calendar days of the deposit. The market value of the securities at all times from substitution until the termination of the Escrow Agreement shall be at least equal to the cash amount then required to be withheld as retention pursuant to the Contract.

Securities shall be held in name of **Alameda Unified School District**, and shall designate Contractor as beneficial owner.

2. District shall make payments to Contractor for those funds which otherwise would be withheld from payments pursuant to Contract provisions, provided that Escrow Agent holds securities in the form and amount specified above.
3. When District makes payment of retention earned directly to Escrow Agent, Escrow Agent shall hold them for the benefit of Contractor until the time that the escrow created under this Escrow Agreement is terminated. Contractor may direct the investment of the payments into securities. All terms and conditions of this Escrow Agreement and the rights and responsibilities of the Parties shall be equally applicable and binding when District pays Escrow Agent directly.
4. Contractor shall be responsible for paying all fees for the expenses incurred by Escrow Agent in administering the Escrow Account, and all expenses of District. The District will charge Contractor \$ _____ for each of District's deposits to the escrow account. These expenses and payment terms shall be determined by District, Contractor, and Escrow Agent.

5. Interest earned on securities or money market accounts held in escrow and all interest earned on that interest shall be for sole account of Contractor and shall be subject to withdrawal by Contractor at any time and from time to time without notice to District.
6. Contractor shall have the right to withdraw all or any part of the principal in the Escrow Account only by written notice to Escrow Agent accompanied by written authorization from District to Escrow Agent that District consents to withdrawal of amount sought to be withdrawn by Contractor.
7. District shall have the right to draw upon the securities and/or withdraw amounts from the Escrow Account in event of default by Contractor. Upon seven (7) days written notice to Escrow Agent from District of the default, if applicable, Escrow Agent shall immediately convert the securities to cash and shall distribute the cash as instructed by District.
8. Upon receipt of written notification from District certifying that the Contract is final and complete, and that Contractor has complied with all requirements and procedures applicable to the Contract, Escrow Agent shall release to Contractor all securities and interest on deposit less escrow fees and charges of the Escrow Account. The escrow shall be closed immediately upon disbursement of all monies and securities on deposit and payments of fees and charges.
9. Escrow Agent shall rely on written notifications from District and Contractor pursuant to Paragraphs 5 through 8, inclusive, of this Escrow Agreement and District and Contractor shall hold Escrow Agent harmless from Escrow Agent's release and disbursement of securities and interest as set forth above.
10. Names of persons who are authorized to give written notice or to receive written notice on behalf of District and on behalf of Contractor in connection with the foregoing, and exemplars of their respective signatures are as follows:

DOCUMENT 00 61 14

PERFORMANCE BOND (100% of Contract Price)

(Note: Contractors must use this form, NOT a surety company form.)

KNOW ALL PERSONS BY THESE PRESENTS:

WHEREAS, the governing board ("Board") of the **Alameda Unified School District**, ("District") and _____
_____, ("Principal") have entered into a contract for the furnishing of all materials
and labor, services and transportation, necessary, convenient, and proper to perform the following project:

Industrial Arts Building Roof Repairs

which Contract dated _____, 2025, and all of the Contract Documents attached to or
forming a part of the Contract, are hereby referred to and made a part hereof, and

WHEREAS, said Principal is required under the terms of the Contract to furnish a bond for the faithful performance
of the Contract;

NOW, THEREFORE, the Principal and _____ ("Surety") are held and
firmly bound unto the Board of the District in the penal sum of:

_____ DOLLARS

(\$ _____), lawful money of the United States, for the payment of which sum well and
truly to be made we bind ourselves, our heirs, executors, administrators, successors, and assigns jointly and
severally, firmly by these presents, to:

- Perform all the work required to complete the Project; and
- Pay to the District all damages the District incurs as a result of the Principal's failure to perform all the
Work required to complete the Project.

In the event the Principal is declared by the District to be in breach or default in the performance of the Contract,
then, after written notice from the District to the Surety, as provided for herein, the Surety shall either remedy the
default or breach of the Principal or shall take charge of the Work of the Contract and complete the Contract with
a Contractor other than the Principal at its own expense; provided, however, that the procedure by which the
Surety undertakes to discharge its obligations under this Bond shall be subject to the advance written approval of
the District.

The condition of the obligation is such that, if the above bounden Principal, his or its heirs, executors,
administrators, successors, or assigns, shall in all things stand to and abide by, and well and truly keep and perform
the covenants, conditions, and agreements in the Contract and any alteration thereof made as therein provided,
on his or its part to be kept and performed at the time and in the intent and meaning, including all contractual
guarantees and warranties of materials and workmanship, and shall indemnify and save harmless the District, its
trustees, officers and agents, as therein stipulated, then this obligation shall become null and void, otherwise it
shall be and remain in full force and virtue.

As a condition precedent to the satisfactory completion of the Contract, the above obligation shall hold good for a
period equal to the warranty and/or guarantee period of the Contract, during which time Surety's obligation shall
continue if Contractor shall fail to make full, complete, and satisfactory repair, replace, and totally protect the
District from loss or damage resulting from or caused by defective materials or faulty workmanship. The
obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein
shall limit the District's rights or the Contractor's or Surety's obligations under the Contract, law or equity,
including, but not limited to, California Code of Civil Procedure section 337.15.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration, or addition to the terms of the Contract or to the Work to be performed thereunder shall in any way affect its obligation on this bond, and it does hereby waive notice of any such change, extension of time, alteration, or addition to the Contract Documents or to the Work.

Any claims under this bond may be addressed to the Surety at the following address. This cannot be the Contractor's broker for this bond, but must be an employee of the Surety or the Surety's legal counsel:

DOCUMENT 00 61 15

PAYMENT BOND -- Contractor's Labor & Material Bond (100% of Contract Price)
(Note: Contractors must use this form, NOT a surety company form.)

KNOW ALL PERSONS BY THESE PRESENTS:

WHEREAS, the governing board ("Board") of the **Alameda Unified School District**, (or "District") and _____, ("Principal") have entered into a contract for the furnishing of all materials and labor, services and transportation, necessary, convenient, and proper to

Industrial Arts Building Roof Repairs

which Contract dated _____, 2025, and all of the Contract Documents attached to or forming a part of the Contract, are hereby referred to and made a part hereof, and

WHEREAS, pursuant to law and the Contract, the Principal is required, before entering upon the performance of the work, to file a good and sufficient bond with the body by which the Contract is awarded in an amount equal to 100 percent (100%) of the Contract price, to secure the claims to which reference is made in the Civil Code of California, including section 9100, and the Labor Code of California, including section 1741.

NOW, THEREFORE, the Principal and _____, ("Surety") are held and firmly bound unto all laborers, material men, and other persons referred to in said statutes in the penal sum of:

_____ DOLLARS

(\$ _____), lawful money of the United States, being a sum not less than the total amount payable by the terms of Contract, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, or assigns, jointly and severally, by these presents.

The condition of this obligation is that if the Principal or any of his or its subcontractors, of the heirs, executors, administrators, successors, or assigns of any, all, or either of them shall fail to pay for any labor, materials, provisions, provender, or other supplies, used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor, that the Surety will pay the same in an amount not exceeding the amount herein above set forth, and also in case suit is brought upon this bond, will pay a reasonable attorney's fee to be awarded and fixed by the Court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file claims under sections 9000 through 9566 of the Civil Code, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void; otherwise it shall be and remain in full force and affect.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration, or addition to the terms of the Contract or to the Work to be performed thereunder shall in any way affect its obligation on this bond, and it does hereby waive notice of any such change, extension of time, alteration, or addition to the Contract Documents or to the Work.

IN WITNESS WHEREOF, two (2) identical counterparts of this instrument, each of which shall for all purposes be deemed an original thereof, have been duly executed by the Principal and Surety above named, on the _____ day of _____, 2025.

NOTICE TO PROCEED

Dated: _____, 2025.

To: _____
("Contractor")

(Address)

From: Governing Board ("Board") of **Alameda Unified School District** ("District")

Re: **Industrial Arts Building Roof Repairs**

Contractor is hereby notified that the Contract Time under the Contract will commence to run on _____, 2025. By that date, Contractor shall start performing its obligations under the Contract Documents. In accordance with the Agreement executed by Contractor, the Contract Time and Project Completion is August 8, 2025.

Contractor must submit the following documents by 5:00 p.m. of the **TENTH (10TH)** calendar day following the date of this Notice to Proceed:

1. Contractor's preliminary schedule of construction.
2. Contractor's preliminary schedule of submittals, including Shop Drawings, Product Data, and Samples submittals.
3. Contractor's preliminary schedule of values for all of the Work.
4. Contractor's preliminary Contractor's Safety Plan specifically adapted for the Project.
5. A complete subcontractors list, including the name, address, telephone number, facsimile number, California State Contractor's License number, classification, and monetary value of all Subcontracts.

Thank you. We look forward to a successful Project.

WARRANTY AND GUARANTEE FORM

1. _____ ("Contractor")

hereby agrees that the _____ ("Work" of Contractor)

which Contractor has installed for the **Alameda Unified School District** ("District") for the following project:

Industrial Arts Building Roof Repairs

was performed in accordance with the requirements of the Contract Documents and that the Work as installed fulfills the requirements of the Contract Documents.

2. Contractor agrees to repair or replace all of the Work that may prove to be defective in workmanship or material and any other adjacent Work that may be displaced in connection with such replacement within a period of **30 YEARS (Manufacturer) & 4 YEARS (Workmanship)** from the date of Completion as defined in the Contract, ordinary wear and tear and unusual abuse or neglect excepted. The date of completion is _____, 2025.

3. In the event Contractor fails to comply with the above-mentioned conditions within a reasonable period of time, as determined by District, but not later than **SEVEN (7)** calendar days after being notified in writing by District, Contractor authorizes District to proceed to repair or replace the defective Work at the expense of Contractor. Contractor shall pay the costs and charges therefor upon demand.

4. **Representatives to be contacted for service subject to the terms of Contract:**

1. **CONTRACT TERMS AND DEFINITIONS**

1.1. **Definitions**

Wherever used in the Contract Documents, the following terms shall have the meanings indicated, which shall be applicable to both the singular and plural thereof:

- 1.1.1. **Adverse Weather:** Weather that satisfies all of the following conditions: (1) unusually severe precipitation, sleet, snow, hail, heat, or cold conditions in excess of the norm for the location and time of year it occurred, (2) unanticipated, and (3) occurring at the Project Site.
- 1.1.2. **Allowance(s):** Amount(s) stated in the Agreement for specific scopes of work for which Contractor may bill its time, materials, and other items in the identical structure as a Change Order.
- 1.1.3. **Approval, Approved, and/or Accepted:** Refer to written authorization, unless stated otherwise.
- 1.1.4. **Architect:** The individual, partnership, corporation, joint venture, or any combination thereof, named as Architect that has the rights and authority assigned to the Architect in the Contract Documents. The term Architect means the District's Architect on this Project or the Architect's authorized representative.
- 1.1.5. **As-Built Drawings:** A reproducible full-size sets of drawings to be prepared on a monthly basis, and upon Project Completion, pursuant to the Contract Documents, that reflect changes made during the performance of the Work, recording differences between the original design of the Work and the Work as constructed since the preceding monthly submittal.
- 1.1.6. **Bidder:** A contractor who intends to provide a bid to the District to perform the Work of the Contract.
- 1.1.7. **Change Order:** A written order to the Contractor authorizing an addition to, deletion from, or revision in the Work, and/or authorizing an adjustment in the Contract Price or Contract Time. If a Change Order is required to be approved by DSA, the District may call it a Construction Change Document.
- 1.1.8. **Completion:** When the entire Work shall have been completed to the satisfaction of District, including all punch list items. Final DSA approval of the Project is not required for Completion.
- 1.1.9. **Construction Manager:** The individual, partnership, corporation, joint venture, or any combination thereof, or its authorized representative, named as such by the District. If no Construction Manager is used on the Project, then all references in the Contract Documents to Construction Manager shall be read to refer to District.
- 1.1.10. **Construction Schedule:** The progress schedule of construction of the Project as provided by Contractor and approved by District.
- 1.1.11. **Contract, Contract Documents:** The Contract consists exclusively of the documents evidencing the agreement of the District and Contractor, identified as the Contract Documents. The Contract Documents consist of the following documents:
 - 1.1.11.1. Notice to Bidders / Invitation to Bid
 - 1.1.11.2. Instructions to Bidders
 - 1.1.11.3. Bid Form

- 1.1.11.4. Bid Bond
- 1.1.11.5. Designated Subcontractors List
- 1.1.11.6. Noncollusion Declaration
- 1.1.11.7. Iran Contracting Act Certification
- 1.1.11.8. Certifications to be Completed by Contractor
- 1.1.11.9. Disabled Veteran’s Business Enterprise Participation Certification
- 1.1.11.10. Criminal Background Investigation/Fingerprinting Certification
- 1.1.11.11. Notice of Award
- 1.1.11.12. Agreement
- 1.1.11.13. Escrow of Bid Documentation (if applicable)
- 1.1.11.14. Escrow Agreement for Security Deposits in Lieu of Retention
- 1.1.11.15. Storm Water Pollution Prevention Plan (if applicable)
- 1.1.11.16. Notice to Proceed
- 1.1.11.17. Performance Bond
- 1.1.11.18. Payment Bond (Contractor’s Labor and Material Bond)
- 1.1.11.19. District Contract Forms (if applicable)
- 1.1.11.20. District Closeout Forms (if applicable)
- 1.1.11.21. Warranty and Guarantee Form
- 1.1.11.22. General Conditions
- 1.1.11.23. Special Conditions
- 1.1.11.24. Project Plans, Specifications, Technical Specifications, and Drawings
- 1.1.11.25. Addenda to any of the above documents
- 1.1.11.26. Schedules if approved in writing by the District
- 1.1.11.27. Change Orders or written modifications to the above documents if approved in writing by the District

1.1.12. Contract Price: The total monies payable to the Contractor under the terms and conditions of the Contract Documents.

1.1.13. Contract Time: The time period stated in the Agreement for the Completion of the Work.

1.1.14. Contractor: The person or persons identified in the Agreement as contracting to perform the

Work, or the legal representative of such person(s).

1.1.15. Daily Job Report(s): Daily Project reports prepared by the Contractor's employee(s) who are present on Site, which shall include the information required herein.

1.1.16. Day(s): Unless otherwise designated, day(s) means calendar day(s). **"Business Day(s)"** shall mean days except Saturday, Sunday, a day that is federally-recognized holiday, or a day that is a California-recognized holiday.

1.1.17. Defective or Nonconforming Work. Defective or nonconforming Work is any Work which is unsatisfactory, faulty or deficient by: (a) not conforming to the requirements of the Contract Documents; (b) not conforming to the standards of workmanship of the applicable trade; (c) not being in compliance with the requirements of any inspection, reference, standard, test, or approval required by the Contract Documents; or (d) damage to Work occurring prior to Completion.

1.1.18. District: The public agency or the school district for which the Work is performed.

1.1.19. Drawings: (or "Plans") The graphic and pictorial portions of the Contract Documents showing the design, location, scope and dimensions of the Work, generally including plans, elevations, sections, details, schedules, sequence of operation, and diagrams.

1.1.20. DSA: Division of the State Architect.

1.1.21. Force Account Directive: A process that may be used when the District and the Contractor cannot agree on a price for a specific scope of work or before Contractor prepares a price for the scope of work, Contractor performs on a time and materials basis.

1.1.22. Premises: The real property owned by the District on which the Project Site is located.

1.1.23. Product(s): New material, machinery, components, equipment, fixtures and systems forming the Work, including existing materials or components required and approved by the District for reuse.

1.1.24. Product Data: Illustrations, standard schedules, performance charts, instructions, brochures, diagrams, and other information furnished by Contractor to illustrate a material, product, or system for a scope of the Work.

1.1.25. Project: The planned undertaking as provided for in the Contract Documents.

1.1.26. Project Inspector: (or "Inspector") Individual(s) retained by the District in accordance with title 24 of the California Code of Regulations to monitor and inspect the Project.

1.1.27. Program Manager: The individual, partnership, corporation, joint venture, or any combination thereof, or its authorized representative, named as such by the District. If no Program Manager is designated for the Project, then all references to Project Manager shall refer to District.

1.1.28. Proposed Change Order: A written request prepared by the Contractor requesting that the District and the Architect issue a Change Order based upon a proposed change to the Work.

1.1.29. Provide: Shall include "provide complete in place," that is, "furnish and install," and "provide complete and functioning as intended in place" unless specifically stated otherwise.

1.1.30. Request for Information: (or "RFI") A written request prepared by the Contractor requesting that the Architect provide additional information necessary to clarify or amplify an item in the Contract Documents that the Contractor believes is not clearly shown or called for in the Drawings or Specifications

or other portions of the Contract Documents, or to address issues that have arisen under field conditions.

1.1.31. Request for Substitution: A request by Contractor to substitute an equal or superior material, product, thing, or service for a specific material, product, thing, or service that has been designated in the Contract Documents by a specific brand or trade name.

1.1.32. Safety Orders: Written and/or verbal orders for construction issued by the California Division of Industrial Safety ("CalOSHA") or by the United States Occupational Safety and Health Administration ("OSHA").

1.1.33. Safety Plan: Contractor's safety plan specifically adapted for the Project. Contractor's Safety Plan shall comply with all provisions regarding Project safety, including all applicable provisions in these General Conditions.

1.1.34. Samples: Physical examples that illustrate materials, products, equipment, finishes, colors, or workmanship and that, when approved in accordance with the Contract Documents, establish standards by which portions of the Work will be judged.

1.1.35. Shop Drawings: All drawings, prints, diagrams, illustrations, brochures, schedules, and other data that are prepared by the Contractor, a subcontractor, manufacturer, supplier, or distributor, that illustrate how specific portions of the Work shall be fabricated or installed.

1.1.36. Site: The Project site as shown on the Drawings.

1.1.37. Specifications: That portion of the Contract Documents, Division 1 through Division 17, and all technical sections, and addenda to all of these, if any, consisting of written descriptions and requirements of a technical nature of materials, equipment, construction methods and systems, standards, and workmanship.

1.1.38. Subcontractor: A contractor and/or supplier who is under contract with the Contractor or with any other subcontractor, regardless of tier, to perform a portion of the Work.

1.1.39. Submittal Schedule: The schedule of submittals as provided by Contractor and approved by District.

1.1.40. Surety: The person, firm, or corporation that executes as surety the Contractor's Performance Bond and Payment Bond and must be a California admitted surety insurer as defined in the Code of Civil Procedure section 995.120.

1.1.41. SWPPP: The District's Storm Water Pollution Prevention Plan.

1.1.42. Terms. The term "provide" means "provide complete in place" or to "furnish and install" such item. Unless otherwise provided in the Contract Documents, the terms "approved;" "directed;" "satisfactory;" "accepted;" "acceptable;" "proper;" "required;" "necessary" and "equal" shall mean as approved, directed, satisfactory, accepted, acceptable, proper, required, necessary and equal, in the opinion of the District. The term "typical" as used in the Drawings shall require the installation or furnishing of such item(s) of the Work designated as "typical" in all other areas similarly marked as "typical"; Work in such other areas shall conform to that shown as "typical" or as reasonably inferable therefrom.

1.1.43. Unilateral Change Order: A written order prepared and issued by the District, the Construction Manager, and/or the Architect and signed by the District and the Architect, directing a change in the Work. **A Unilateral Change Order is NOT a Construction Change Document (which is defined above as a Change Order that DSA must approve).**

1.1.44. Work: All labor, materials, equipment, components, appliances, supervision, coordination, and services required by, or reasonably inferred from, the Contract Documents, that are necessary for the construction and Completion of the Project.

1.2. Laws Concerning the Contract

Contract is subject to all provisions of the Constitution and laws of California and the United States, governing, controlling, or affecting District, or the property, funds, operations, or powers of District, and such provisions are by this reference made a part hereof. Any provision required by law to be included in this Contract shall be deemed to be inserted.

1.3. No Oral Agreements

No oral agreement or conversation with any officer, agent, or employee of District, either before or after execution of Contract, shall affect or modify any of the terms or obligations contained in the Contract Documents.

1.4. No Assignment

Contractor shall not assign the Contract or any part thereof including, without limitation, any services or money to become due without the prior written consent of the District. Assignment without District's prior written consent shall be null and void. Any assignment of money due or to be come due under the Contract shall be subject to a prior lien for services rendered or material supplied for Work performed in favor of all persons, firms, or corporations rendering services or supplying material to the extent that claims are filed pursuant to the Civil Code, Code of Civil Procedure, Government Code, Labor Code, and/or Public Contract Code, and shall also be subject to deductions for Liquidated Damages or withholding of payments as determined by District in accordance with the Contract. Contractor shall not assign or transfer in any manner to a Subcontractor or supplier the right to prosecute or maintain an action against the District.

1.5. Confidentiality

Contractor shall maintain the confidentiality of all information, documents, programs, procedures and all other items that Contractor encounters while performing the Work. This requirement shall be ongoing and shall survive the expiration or termination of the Contract and specifically includes, without limitation, all student, parent, and employee disciplinary information and health information.

1.6. Notice and Service Thereof

1.6.1. Any notice required by the Contract shall be in writing, dated and signed by the party giving notice or by a duly authorized representative of that party. Notice shall be served and considered effective if given in one of the following manners:

1.6.1.1. By personal delivery; considered delivered on the day of delivery.

1.6.1.2. By overnight delivery service; considered delivered one (1) day after date deposited, as indicated by the delivery service.

1.6.1.3. By depositing same in United States mail, enclosed in a sealed envelope; considered delivered three (3) days after date deposited, as indicated by the postmarked date.

1.6.1.4. By registered or certified mail with postage prepaid, return receipt requested; considered delivered on the day the notice is signed for.

1.7. No Waiver

The failure of District in any one or more instances to insist upon strict performance of any term of the Contract or to exercise any District option shall not be construed as a waiver or relinquishment of the right to assert or rely upon any such term or option on a future occasion. No action or failure to act by the District, Architect, or Construction Manager shall constitute a waiver of any right or duty afforded the District under the Contract, nor shall any action or failure to act constitute an approval of or acquiescence in any breach hereunder, except as may be specifically agreed in writing.

1.8. Substitutions for Specified Items

See Special Conditions.

1.9. Materials and Work

1.9.1. Except as otherwise stated in the Contract, Contractor shall provide and pay for all materials, labor, tools, equipment, transportation, supervision, temporary constructions of every nature, and all other services, management, and facilities of every nature whatsoever necessary to execute and complete the Contract within the Contract Time.

1.9.2. Unless otherwise specified, all materials shall be new and the best of their respective kinds and grades as noted or specified, and workmanship shall be of good quality.

1.9.3. Materials shall be furnished in sufficient quantities and at such times as to ensure uninterrupted progress of Work and shall be stored properly and protected as required.

1.9.4. For all materials and equipment specified or indicated in the Drawings, the Contractor shall provide all labor, materials, equipment, and services necessary for complete assemblies and complete working systems, functioning as intended. Incidental items not indicated on Drawings, nor mentioned in the Specifications, that can legitimately and reasonably be inferred to belong to the Work described, or be necessary in good practice to provide a complete assembly or system, shall be furnished as though itemized here in every detail. In all instances, material and equipment shall be installed in strict accordance with each manufacturer's most recent published recommendations and specifications.

1.9.5. Contractor shall, after award of Contract by District and after relevant submittals have been approved, place orders for materials and/or equipment as specified so that delivery of same may be made without delays to the Work. Contractor shall, upon demand from District, present documentary evidence showing that orders have been placed.

1.9.6. District reserves the right but has no obligation, for any neglect in complying with the above instructions, to place orders for such materials and/or equipment as it may deem advisable in order that the Work may be completed at the date specified in the Agreement, and all expenses incidental to the procuring of said materials and/or equipment shall be paid for by Contractor or withheld from payment(s) to Contractor.

1.9.7. Contractor warrants good title to all material, supplies, and equipment installed or incorporated in Work and agrees upon Completion of all Work to deliver the Site to District, together with all improvements and appurtenances constructed or placed thereon by it, and free from any claims, liens, or charges. Contractor further agrees that neither it nor any person, firm, or corporation furnishing any materials or labor for any Work shall have any right to lien any portion of the Premises or any improvement or appurtenance thereon, except that Contractor may install metering devices or other equipment of utility companies or of political subdivision, title to which is commonly retained by utility company or political subdivision. In the event of installation of any such metering device or equipment, Contractor shall advise District as to owner thereof.

1.9.8. Nothing contained in this Article, however, shall defeat or impair the rights of persons furnishing materials or labor under any bond given by Contractor for their protection or any rights under law permitting such protection or any rights under law permitting such persons to look to funds due Contractor in hands of District (e.g., stop payment notices). This provision shall be inserted in all subcontracts and material contracts and notice of its provisions shall be given to all persons furnishing material for work when no formal contract is entered into for such material.

1.9.9. Title to new materials and/or equipment for the Work and attendant liability for its protection and safety shall remain with Contractor until incorporated in the Work of this Contract and accepted by District. No part of any materials and/or equipment shall be removed from its place of storage except for immediate installation in the Work. Contractor shall keep an accurate inventory of all materials and/or equipment in a manner satisfactory to District or its authorized representative and shall, at the District's request, forward it to the District.

1.9.10. Contractor certifies that it shall comply with the recycled product requirements of Public Contract Code section 22150, et seq., including, without limitation, section 22154 which states, "All businesses shall certify in writing to the contracting officer, or his or her representative, the minimum, if not exact, percentage of postconsumer material in the products, materials, goods, or supplies being offered or sold to any local public entity."

2. DISTRICT

2.1. The governing board of the District or its designees will act for the District in all matters pertaining to the Contract.

2.2. The District may, at any time,

2.2.1. Direct the Contractor to communicate with or provide notice to the Construction Manager or the Architect on matters for which the Contract Documents indicate the Contractor will communicate with or provide notice to the District; and/or

2.2.2. Direct the Construction Manager or the Architect to communicate with or direct the Contractor on matters for which the Contract Documents indicate the District will communicate with or direct the Contractor.

2.3. District's Rights if Contractor Fails to Perform. If the District at any time believes that the Contractor is behind schedule, is failing to construct the Project pursuant to the Contract Documents or is otherwise failing to perform any provisions of this Contract, the District, after **FORTY-EIGHT (48)** hours written notice to the Contractor, may take any action necessary or beneficial to the District to complete the Project, takeover the Work of the Contract, terminate or suspend the Contract as indicated herein, or any combination or portion of those actions. The Contractor and the Surety shall be liable to the District for any cost incurred by the District in those actions and the District has the right to deduct the cost thereof from any payment then or thereafter due the Contractor.

3. ARCHITECT

3.1. Architect shall have the authority to act on behalf of District to the extent expressly provided in the Contract Documents and to the extent determined by District to, among other things, observe the progress and quality of the Work on behalf of the District.

3.2. Architect shall have authority to reject materials, workmanship, and/or the Work whenever rejection may be necessary, in Architect's reasonable opinion, to insure the proper execution of the Contract and if Work is defective or does not conform to the requirements of the Contract Documents. Whenever the Architect considers it necessary or advisable, for implementation of the intent of the

Contract Documents, the Architect will have authority to require additional inspections or testing of the Work, whether or not such Work is fabricated, installed or completed. Neither this authority of the Architect nor a decision made in good faith by the Architect to exercise or not to exercise that authority shall give rise to a duty or responsibility to the Contractor, Subcontractors, material suppliers, their agents or employees, or other persons performing portions of the Work.

- 3.3. Architect shall, with the District and on behalf of the District, determine the amount, quality, acceptability, and fitness of all parts of the Work, and interpret the Specifications, Drawings, and shall, with the District, interpret all other Contract Documents.
- 3.4. Architect shall have all authority and responsibility established by law, including title 24 of the California Code of Regulations.
- 3.5. Contractor shall provide District and the Construction Manager with a copy of all written communication between Contractor and Architect at the same time as that communication is made to Architect, including, without limitation, all RFIs, correspondence, submittals, claims, and proposed change orders.

4. **CONSTRUCTION MANAGER**

- 4.1. If a Construction Manager is used on this Project, the Construction Manager will provide administration of the Contract on the District's behalf. After execution of the Contract and Notice to Proceed, all correspondence and/or instructions from Contractor and/or District shall be forwarded through the Construction Manager. The Construction Manager will not be responsible for and will not have control or charge of construction means, methods, techniques, sequences, or procedures or for safety precautions in connection with the Work, which shall all remain the Contractor's responsibility.
- 4.2. Construction Manager, however, will have authority to reject materials and/or workmanship not conforming to the Contract Documents, as determined by the District, the Architect, and/or the Project Inspector. Construction Manager shall also have the authority to require special inspection or testing of any portion of the Work, whether it has been fabricated, installed, or fully completed. Any decision made by Construction Manager, in good faith, shall not give rise to any duty or responsibility of the Construction Manager to the Contractor, any Subcontractor, their agents, employees, or other persons performing any of the Work. Construction Manager shall have free access to all parts of Work at any time.
- 4.3. If the District does not use a Construction Manager on this Project, all references to Construction Manager or CM shall be read as District.

5. **INSPECTOR, INSPECTIONS AND TESTS**

5.1. **Project Inspector**

5.1.1. One or more Project Inspector(s), including special Project Inspector(s), as required, will be assigned to the Work by District, in accordance with requirements of title 24, part 1, of the California Code of Regulations, to enforce the building code and monitor compliance with Plans and Specifications for the Project previously approved by the DSA. Duties of Project Inspector(s) are specifically defined in section 4-342 of said part 1 of title 24.

5.1.2. No Work shall be carried on except with the knowledge and under the inspection of the Project Inspector(s). The Project Inspector(s) shall have free access to all parts of Work at any time. Contractor shall furnish Project Inspector(s) reasonable opportunities for obtaining such information as may be necessary to keep Project Inspector(s) fully informed respecting progress and manner of work and character of materials. Inspection of Work shall not relieve Contractor from the obligation to fulfill the

Contract. Project Inspector(s) and the DSA are authorized to stop work whenever the Contractor and/or its Subcontractor(s) are not complying with the Contract Documents. Any work stoppage by the Project Inspector(s) and/or DSA shall be without liability to the District. Contractor shall instruct its Subcontractors and employees accordingly.

5.1.3. If Contractor and/or any Subcontractor requests that the Project Inspector(s) perform any inspection off-site, this shall only be done if it is allowable pursuant to applicable regulations and DSA, if the Project Inspector(s) agree to do so, and at the expense of the Contractor.

5.1.4. Limitations on Project Inspector Authority. The Project Inspector does not have authority to interpret the Contract Documents or to modify the Work depicted in the Contract Documents. No Work inconsistent with the Contract Documents shall be performed solely on the basis of the direction of the Project Inspector, and the Contractor shall be liable to the District for the consequences of all Work performed on such basis.

5.2. Tests and Inspections

5.2.1. Tests and Inspections shall comply with title 24, part 1, California Code of Regulations, group 1, article 5, section 4-335, and with the provisions of the Specifications.

5.2.2. If the Contract Documents, laws, ordinances or any public authority with jurisdiction over the Work requires the Work, or any portion thereof, to be specially tested, inspected or approved, the Contractor shall give the Architect, the Construction Manager and the Project Inspector written notice of the readiness of such Work for observation, testing or inspection at least seventy-two (72) hours prior to the time for the conducting of such test, inspection or observation. If inspection, testing or observation is by authority other than the District, the Contractor shall inform the Project Inspector and the Construction Manager not less than seventy-two (72) hours prior to the date fixed for such inspection, test or observation. The Contractor shall not cover up any portion of the Work subject to tests, inspections or observations prior to the completion and satisfaction of the requirements of such test, inspection or observation. In the event that any portion of the Work subject to tests, inspection or approval shall be covered up by Contractor prior to completion and satisfaction of the requirements of such tests, inspection or approval, Contractor shall be responsible for the uncovering of such portion of the Work as is necessary for performing such tests, inspection or approval without adjustment of the Contract Price or the Contract Time on account thereof.

5.2.3. The District will select an independent testing laboratory to conduct the tests. Selection of the materials required to be tested shall be by the laboratory or the District's representative and not by the Contractor. The Contractor shall notify the District's representative a sufficient time in advance of its readiness for required observation or inspection.

5.2.4. The Contractor shall notify the District's representative a sufficient time in advance of the manufacture of material to be supplied under the Contract Documents, that must by terms of the Contract Documents be tested, in order that the District may arrange for the testing of same at the source of supply. This notice shall be, at a minimum, seventy-two (72) hours prior to the manufacture of the material that must be tested.

5.2.5. Any material shipped by the Contractor from the source of supply prior to having satisfactorily passed required testing and inspection or prior to the receipt of notice from the representative that testing and inspection will not be required, shall not be incorporated into and/or onto the Project.

5.2.6. The District will select and pay testing laboratory costs for all tests and inspections. Costs of tests of any materials found to be not in compliance with the Contract Documents shall be paid for by the District and reimbursed by the Contractor or deducted from the Contract Price.

5.3. Costs for After Hours and/or Off Site Inspections

5.3.1. If the Contractor performs Work outside the Inspector's regular working hours, over a period of more than eight (8) hours per day by any single person, on weekends/holidays or requests the Inspector to perform inspections off Site, then the costs of any inspections required outside regular working hours, over a period of more than eight (8) hours per day by any single person, on weekends/holidays or off Site, shall be borne by the Contractor and may be invoiced to the Contractor by the District or the District may deduct those expenses from the next Progress Payment.

6. CONTRACTOR

Contractor shall construct the Work for the Contract price including any adjustment(s) to the Contract Price pursuant to provisions herein regarding changes to the Contract Price. Except as otherwise noted, Contractor shall provide and pay for all labor, materials, equipment, permits, fees, licenses, facilities, transportation, taxes, and services necessary for the proper execution and Completion of the Work, except as indicated herein.

6.1. Status of Contractor

6.1.1. Contractor is and shall at all times be deemed to be an independent contractor and shall be wholly responsible for the manner in which it and its Subcontractors perform the services required of it by the Contract Documents. Nothing herein contained shall be construed as creating the relationship of employer and employee, or principal and agent, between the District, or any of the District's employees or agents, and Contractor or any of Contractor's Subcontractors, agents or employees. Contractor assumes exclusively the responsibility for the acts of its employees as they relate to the services to be provided during the course and scope of their employment. Contractor, its Subcontractors, agents, and its employees shall not be entitled to any rights or privileges of District employees. District shall be permitted to monitor the Contractor's activities to determine compliance with the terms of the Contract.

6.1.2. As required by law, Contractor and all Subcontractors shall be properly licensed and regulated by the Contractor's State License Board, located at 9821 Business Park Drive, , Sacramento, California 95827, with a mailing address of Post Office Box 26000, Sacramento, California, and with a website at <http://www.cslb.ca.gov>.

6.2. Contractor's Supervision

6.2.1. During progress of the Work, Contractor shall keep on the Premises, and at all other locations where any Work related to the Contract is being performed, a competent project manager and construction superintendent who are employees of the Contractor, to whom the District does not object and at least one of whom shall be fluent in English, written and verbal.

6.2.2. The project manager and construction superintendent shall both speak fluently the predominant language of the Contractor's employees.

6.2.3. Before commencing the Work, Contractor shall give written notice to District of the name of its project manager and construction superintendent. Neither the Contractor's project manager nor construction superintendent shall be changed except with prior written notice to District, unless the Contractor's project manager and/or construction superintendent proves to be unsatisfactory to Contractor, District, any of the District's employees, agents, the Construction Manager, or the Architect, in which case, Contractor shall notify District in writing. District retains the right to reasonably refuse Contractor's replacement personnel. The Contractor's project manager and construction superintendent shall each represent Contractor, and all directions given to Contractor's project manager and/or construction superintendent shall be as binding as if given to Contractor.

6.2.4. Contractor shall give efficient supervision to Work, using its best skill and attention. Contractor shall carefully study and compare all Contract Documents, Drawings, Specifications, and other instructions and shall at once report to District, Construction Manager, and Architect any error, inconsistency, or omission that Contractor or its employees and Subcontractors may discover, in writing, with a copy to District's Project Inspector(s). The Contractor shall have responsibility for discovery of errors, inconsistencies, or omissions.

6.2.5. The Contractor's project manager shall devote sufficient time to the Project on site, and in the Contractor's home office to pre-plan activities to meet the Project schedule and fulfill all Contract obligations. This includes making timely submittals, issuing and disseminating necessary RFI's, promptly processing and distributing bulletins, change orders and payments, keeping required logs current etc. If any of these activities fall behind contract requirements or dates necessary to complete the Project on time, the Contractor must provide a full time project manager on the Project Site dedicated solely to the Project, until the deficiencies are corrected.

6.2.6. The Contractor shall verify all indicated dimensions before ordering materials or equipment, or before performing Work. The Contractor shall take field measurements, verify field conditions, and shall carefully compare such field measurements and conditions and other information known to the Contractor with the Project Documents before commencing work. Errors, inconsistencies or omissions discovered shall be immediately reported to the District. Upon commencement of any item of Work, the Contractor shall be responsible for dimensions related to the Work and shall make any corrections necessary to make Work properly fit at no additional cost to District. This responsibility for verification of dimensions is a non-delegable duty and may not be delegated to subcontractors or agents.

6.2.7. Omissions from the Drawings or Specifications, or the misdescription of details of Work which are manifestly necessary to carry out the intent of the Drawings and Specifications, or which are customarily performed, shall not relieve the Contractor from performing such omitted or misdescribed Work, but they shall be performed as if fully and correctly set forth and described in the Drawings and Specifications.

6.2.8. The Contractor shall be solely responsible for the means, methods, techniques, sequences, and procedures of construction. The Contractor shall be responsible to see that the finished Work complies accurately with the Contract Documents.

6.3. Duty to Provide Fit Workers

6.3.1. Contractor and Subcontractor(s) shall at all times enforce strict discipline and good order among their employees and shall not employ or work any unfit person or anyone not skilled in work assigned to that person. It shall be the responsibility of Contractor to ensure compliance with this requirement. District may require Contractor to permanently remove unfit persons from Project Site.

6.3.2. Any person in the employ of Contractor or Subcontractor(s) whom District may deem incompetent or unfit shall be excluded from working on the Project and shall not again be employed on the Project except with the prior written consent of District.

6.3.3. The Contractor shall furnish labor that can work in harmony with all other elements of labor employed or to be employed in the Work.

6.3.4. If Contractor intends to make any change in the name or legal nature of the Contractor's entity, Contractor must first notify the District. The District shall determine if Contractor's intended change is permissible while performing the Contract.

6.3.5. Compliance with Immigration Reform and Control Act of 1986. As required by law, Contractor and all Subcontractors shall employ individuals for the Work in conformity with the Immigration Reform

and Control Act of 1986, 8 USC §§1101 et seq.

6.4. Personnel

6.4.1. All persons working for Contractor and Subcontractor(s) shall refrain from using profane or vulgar language, or any other language that is inappropriate on the job site.

6.4.2. The Contractor shall employ a full-time superintendent and necessary assistants who shall have complete authority to represent and act on behalf on the Contractor on all matters pertaining to the Work. The superintendent shall be competent and have a minimum of five (5) years' experience in construction supervision on projects of similar scale and complexity. The superintendent shall be satisfactory to the District and, if not satisfactory, shall be replaced by the Contractor with one that is acceptable to the District. The superintendent shall not be changed without the written consent of the District unless the superintendent ceases to be employed by the Contractor.

6.4.3. The Contractor shall employ a competent estimator and necessary assistants, or contract for sufficient services of an estimating consultant and to process proposed change orders. The estimator shall have a minimum of five (5) years' experience in estimating. The estimator shall be satisfactory to the District and, if not satisfactory, shall be replaced by the Contractor with one that is acceptable. The estimator shall not be changed without the written consent of the District unless the estimator ceases to be employed by the Contractor. The Contractor shall submit PCO's requested by the District within fourteen (14) calendar days.

6.4.4. The Contractor shall employ a competent scheduler and necessary assistants, or contract for sufficient services of a scheduling consultant. The scheduler shall have a minimum of five (5) years' experience in scheduling. The scheduler shall be satisfactory to the District and, if not satisfactory, shall be replaced by the Contractor with one that is acceptable. The scheduler shall not be changed without the written consent of the District unless the scheduler ceases to be employed by the Contractor.

6.4.5. Contractor shall at all times enforce strict discipline and good order among Contractor's employees, and shall not employ on the Project any unfit person or anyone not skilled in the task assigned.

6.4.6. If Contractor or any Subcontractor on the Project site fails to comply with any provision herein, the District may have the offending person(s) immediately removed from the Site, and the person(s) shall be replaced within three (3) days, at no additional expense to the District. Contractor, on behalf of it and its Subcontractors, hereby waives any claim that the provisions of this paragraph or the enforcement thereof interferes, or has the potential to interfere, with its right to control the means and methods of its performance and duties under this Contract.

6.5. Prohibition on Harassment

6.5.1. In addition to the non-discrimination requirements in the Contract Documents, the Contractor and all Subcontractors must comply with these provisions prohibiting harassment at the Site. The District is committed to providing a campus and workplace free of sexual harassment and harassment based on factors such as race, color religion, national origin, ancestry, age, medical condition, marital status, disability or veteran status. Harassment includes without limitation, verbal, physical or visual conduct which creates an intimidating, offensive or hostile environment such as racial slurs; ethnic jokes; posting of offensive statements, posters or cartoons or similar conduct. Sexual harassment includes without limitation the solicitation of sexual favors, unwelcome sexual advances, or other verbal, visual or physical conduct of a sexual nature.

6.5.2. Contractor shall take all reasonable steps to prevent harassment from occurring, including without limitation affirmatively raising the subject of harassment among its employees, expressing strong

disapproval of any form of harassment, developing appropriate sanctions, informing employees of their right to raise and how to raise the issue of harassment and informing complainants of the outcome of an investigation into a harassment claim.

6.5.3. Contractor shall not permit any person, whether employed by Contractor or a Subcontractor or any other person or entity, performing any Work at or about the Site to engage in any prohibited form of harassment. Any person performing or providing Work on or about the Site engaging in a prohibited form of harassment directed to any student, faculty member or staff of the District or directed to any other person on or about the Site shall be subject to immediate removal and shall be prohibited thereafter from providing or performing any portion of the Work. Upon the District's receipt of any notice or complaint that any person employed directly or indirectly by Contractor on any Subcontractor in performing or providing the Work has engaged in a prohibited form of harassment, the District will promptly undertake an investigation of such notice or complaint. In the event that the District, after such investigation, reasonably determines that a prohibited form of harassment has occurred, the District shall promptly notify the Contractor of the same and direct that the person engaging in such conduct be immediately removed from the Site. Unless the District's determination that a prohibited form of harassment has occurred is grossly negligent or without reasonable cause, District shall have no liability for directing the removal of any person determined to have engaged in a prohibited form of harassment nor shall the Contract Price or the Contract Time be adjusted on account thereof. The indemnity provisions of the Contract Documents apply to any assertion by any person dismissed from performing or providing work at the direction of the District pursuant to this provision; or (ii) the assertion by any person that any person directly or indirectly under the employment or direction of the Contractor has engaged in a prohibited form of harassment directed to or affecting such person. The obligations of the Contractor and the Surety under the preceding sentence are in addition to, and not in lieu of, any other obligation of defense, indemnity and hold harmless whether arising under the Contract Documents, at law or otherwise; these obligations survive completion of the Work or the termination of the Contract.

6.6. Conferences and Meetings.

6.6.1. In addition to the conference and meeting requirements in the Specifications, Contractor's supervisory personnel for the Work and the Contractor's management personnel shall attend all required meetings as required by the Contract Documents or as requested by the District. The Contractor's personnel participating in conferences and meetings relating to the Work shall be authorized to act on behalf of the Contractor and to bind the Contractor. The Contractor is solely responsible for arranging for the attendance by Subcontractors and Material Suppliers at meetings and conferences relating to the Work as necessary, appropriate or as requested by the District.

6.6.2. Preconstruction Conference. The Contractor's representatives (and representatives of Subcontractors as requested by the District) shall attend a preconstruction conference at such time and place as designated by the District. The preconstruction conference will generally address the requirements of the Work and Contract Documents, and to establish construction procedures. Subject matters of the preconstruction conference will include as appropriate: (a) administrative matters, including an overview of the respective responsibilities of the District, Architect, Construction Manager, Contractor, Subcontractors, Project Inspector, and others performing any part of the Work or services relating to the Work; (b) Submittals; (c) Changes; (d) employment practices, including Certified Payroll preparation and submission and prevailing wage rate responsibilities of the Contractor and Subcontractors; (e) Progress Schedule development and maintenance; (f) development of Schedule of Values and payment procedures; (g) implementation of BIM, if applicable; (h) communication procedures, including the handling of Requests for Information; (i) emergency and safety procedures; (j) Site visitor policies; (k) conduct of Contractor/Subcontractor personnel at the Site; and (l) Completion, Punchlist and closeout procedures.

6.6.3. Progress Meetings. Progress meetings will be conducted on regular intervals (weekly unless otherwise expressly indicated elsewhere in the Contract Documents). The Contractor's representatives

and representatives of Subcontractors (as requested by the District) shall attend progress meetings. Progress Meetings will be chaired by the District or the Construction Manager and will generally include as agenda items: Site safety, field issues, coordination of Work, construction progress and impacts to timely Completion, if any. The purposes of the progress meetings include: a formal and regular forum for discussion of the status and progress of the Work by all Project participants, a review of progress or resolution of previously raised issues and action items assigned to the Project participants, and reviews of the Progress schedule and submittals.

6.6.4. Special Meetings. As deemed necessary or appropriate by the District, special meetings will be conducted with the participation of the Contractor, Subcontractors and other Project participants as requested by the District.

6.6.5. Minutes of Meetings. following conclusion of the preconstruction conference, progress meetings and special meetings, the Architect or the Construction Manager will prepare and distribute minutes reflecting the items addressed and actions taken at a meeting or conference. Unless the Contractor notifies the Architect and the Construction Manager in writing of objections or corrections to minutes prepared hereunder within five (5) days of the date of distribution of the minutes, the minutes as distributed shall constitute the official record of the meeting or conference. No objections or corrections of any Subcontractor or Material Supplier shall be submitted directly to the Architect or the Construction Manager; such objections or corrections shall be submitted to the Architect and the Construction Manager through the Contractor. If the Contractor timely interposes objections or notes corrections, the resolution of such matters shall be addressed at the next scheduled progress meeting.

6.7. Purchase of Materials and Equipment

6.7.1. The Contractor is required to order and obtain materials and equipment sufficiently in advance of its Work at no additional cost or advance payment from District to assure that there will be no delays.

6.7.2. Off-Site Storage of Materials and Equipment Only Upon District's Written Consent. Contractor shall not store materials and/or equipment off site without first obtaining the District's express, written consent. If Contractor receives District's consent to store materials and/or equipment off site ("Stored Materials"), Contractor shall comply with all of the following:

6.7.2.1. Property of Others Insurance. Contractor shall procure and maintain, during the entire time Stored Materials are in off-site storage, insurance coverage acceptable to the District that shall protect Contractor and District from all claims for Stored Materials that are lost, stolen, or damaged. The District shall be named as a loss payee for this insurance coverage. The insurance coverage shall include a "loss payable endorsement" stating that all amounts payable will be paid as a joint-check to the Contractor and District. If approved in advance by District, this required insurance may be obtained by an "Employee Theft Protection Insurance Policy" or an "Employee Theft Protection Bond."

6.7.2.2. Payment for Stored Materials. District shall only make payment to Contractor for Stored Materials if agreed upon in advance, in writing, by the District and provided that Contractor submits an itemized list of all Stored Materials with Contractor's Application for Payment. Contractor's itemized list of all Stored Materials shall be supported by all of the following:

6.7.2.2.1. Itemized breakdown of the Stored Materials for the purpose of requesting partial payment, identifying the serial numbers and exact storage location of each piece of equipment and material; and

6.7.2.2.2. Verified invoices for the Stored Materials; and

6.7.2.2.3. Original copy of Property of Others Insurance, Employee Theft Protection

Insurance Policy, or an Employee Theft Protection Bond based on the type of insurance required by the District. These documents shall include certificates and endorsements stating the coverage and that the District is a loss payee or obligee, as appropriate.

6.8. Documents on Work

6.8.1. Contractor shall at all times keep on the Work Site, or at another location as the District may authorize in writing, one legible copy of all Contract Documents, including Addenda and Change Orders, and titles 19 and 24 of the California Code of Regulations, the specified edition(s) of the Uniform Building Code (electronic versions are acceptable), all approved Drawings, Plans, Schedules, and Specifications, and all codes and documents referred to in the Specifications, and made part thereof. These documents shall be kept in good order and available to District, Construction Manager, Architect, Architect's representatives, the Project Inspector(s), and all authorities having jurisdiction. Contractor shall be acquainted with and comply with the provisions of these titles as they relate to this Project. (See particularly the duties of Contractor, title 24, part 1, California Code of Regulations, section 4-343.) Contractor shall also be acquainted with and comply with all California Code of Regulations provisions relating to conditions on this Project, particularly titles 8 and 17. Contractor shall coordinate with Architect and Construction Manager and shall submit its verified report(s) according to the requirements of title 24.

6.8.2. Daily Job Reports.

6.8.2.1. Contractor shall maintain, at a minimum, at least one (1) set of Daily Job Reports on the Project. These must be prepared by the Contractor's employee(s) who are present on Site, and must include, at a minimum, the following information:

- 6.8.2.1.1.** A brief description of all Work performed on that day.
- 6.8.2.1.2.** A summary of all other pertinent events and/or occurrences on that day.
- 6.8.2.1.3.** The weather conditions on that day.
- 6.8.2.1.4.** A list of all Subcontractor(s) working on that day,
- 6.8.2.1.5.** A list of each Contractor employee working on that day and the total hours worked for each employee.
- 6.8.2.1.6.** A complete list of all equipment on Site that day, whether in use or not.
- 6.8.2.1.7.** A complete list of all materials, supplies, and equipment delivered on that day.
- 6.8.2.1.8.** A complete list of all inspections and tests performed on that day.

6.8.2.2. Each day Contractor shall provide a copy of the previous day's Daily Job Report to the District or the District's Construction Manager.

6.9. Preservation of Records

District shall have the right to examine and audit all Daily Job Reports or other Project records of Contractor's project manager(s), project superintendent(s), and/or project foreperson(s), all certified payroll records and/or related documents including, without limitation, payroll, payment, timekeeping and tracking documents; all books, estimates, records, contracts, documents, bid documents, bid cost data, subcontract job cost reports, and other data of the Contractor, any Subcontractor, and/or supplier, including computations and projections related to bidding, negotiating, pricing, or performing the Work or

Contract modification, in order to evaluate the accuracy, completeness, and currency of the cost, manpower, coordination, supervision, or pricing data at no additional cost to the District. These documents may be duplicative and/or be in addition to any Bid Documents held in escrow by the District. Contractor shall make available at its office at all reasonable times the materials described in this paragraph for the examination, audit, or reproduction until three (3) years after final payment under this Contract. Notwithstanding the provisions above, Contractor shall provide any records requested by any governmental agency, if available, after the time set forth above.

6.10. Integration of Work

6.10.1. Contractor shall do all cutting, fitting, patching, and preparation of Work as required to make its several parts come together properly, to fit it to receive or be received by work of other contractors, and to coordinate tolerances to various pieces of work, showing upon, or reasonably implied by, the Drawings and Specifications for the completed structure, and shall conform them as District and/or Architect may direct.

6.10.2. All cost caused by defective or ill-timed Work shall be borne by Contractor, inclusive of repair work.

6.10.3. Contractor shall not endanger any work performed by it or anyone else by cutting, excavating, or otherwise altering work and shall not cut or alter work of any other contractor except with written consent of District.

6.11. Obtaining of Permits and Licenses

6.11.1. Contractor shall secure and pay for all permits, licenses, and certificates as indicated in the Special Conditions.

6.12. Work to Comply with Applicable Laws and Regulations

6.12.1. Contractor shall give all notices and comply with all applicable laws, ordinances, rules, and regulations relating to the Work, including the specific laws, ordinances, rules, and regulations as indicated and specified in the Contract Documents and identified below, including but not limited to the appropriate statutes and administrative code sections. If Contractor observes that Drawings and Specifications are at variance therewith, or should Contractor become aware of the development of conditions not covered by Contract Documents that will result in finished Work being at variance therewith, Contractor shall promptly notify District in writing and any changes deemed necessary by District shall be made as provided in Contract for changes in Work.

6.12.1.1. National Electrical Safety Code, U. S. Department of Commerce

6.12.1.2. National Board of Fire Underwriters' Regulations

6.12.1.3. Uniform Building Code, latest addition, and the California Code of Regulations, title 24, including amendments.

6.12.1.4. Manual of Accident Prevention in Construction, latest edition, published by A.G.C. of America

6.12.1.5. Industrial Accident Commission's Safety Orders, State of California

6.12.1.6. Regulations of the State Fire Marshall (title 19, California Code of Regulations) and Pertinent Local Fire Safety Codes

- 6.12.1.7. Americans with Disabilities Act
- 6.12.1.8. Education Code of the State of California
- 6.12.1.9. Government Code of the State of California
- 6.12.1.10. Labor Code of the State of California, division 2, part 7, Public Works and Public Agencies
- 6.12.1.11. Public Contract Code of the State of California
- 6.12.1.12. California Art Preservation Act
- 6.12.1.13. U. S. Copyright Act
- 6.12.1.14. U. S. Visual Artists Rights Act

6.12.2. Contractor shall comply will all applicable mitigation measures, if any, adopted by any public agency with respect to this Project pursuant to the California Environmental Quality Act (Public Resources Code sections 21000 et. seq.)

6.12.3. If Contractor performs any Work that it knew, or through exercise of reasonable care should have known, to be contrary to any applicable laws, ordinance, rules, or regulations, Contractor shall bear all costs arising therefrom.

6.12.4. Where Specifications or Drawings state that materials, processes, or procedures must be approved by the DSA, State Fire Marshall, or other body or agency, Contractor shall be responsible for satisfying requirements of such bodies or agencies.

6.13. Safety/Protection of Persons and Property

6.13.1. Contractor will be solely and completely responsible for conditions of the Work Site, including safety of all persons and property during performance of the Work. This requirement will apply continuously and not be limited to normal working hours.

6.13.2. The wearing of hard hats will be mandatory at all times for all personnel on Site. Contractor shall supply sufficient hard hats to properly equip all employees and visitors.

6.13.3. Any construction review of the Contractor’s performance is not intended to include review of the adequacy of the Contractor’s safety measures in, on, or near the Work Site.

6.13.4. Implementation and maintenance of safety programs shall be the sole responsibility of the Contractor.

6.13.5. Contractor shall furnish to the District a copy of the Contractor's safety plan within the time frame indicated in the Contract Documents and specifically adapted for the Project.

6.13.6. Contractor shall be responsible for all damages to persons or property that occur as a result of its fault or negligence in connection with the performance of the Contract and shall take all necessary measures and be responsible for the proper care and completion and final acceptance by District. All Work shall be solely at Contractor’s risk with the exception of damage to the Work caused by “acts of God” as defined in Public Contract Code section 7105.

6.13.7. Contractor shall take, and require Subcontractors to take, all necessary precautions for safety of workers on the Project and shall comply with all applicable federal, state, local, and other safety laws,

standards, orders, rules, regulations, and building codes to prevent accidents or injury to persons on, about, or adjacent to premises where Work is being performed and to provide a safe and healthful place of employment. Contractor shall furnish, erect, and properly maintain at all times, all necessary safety devices, safeguards, construction canopies, signs, nets, barriers, lights, and watchmen for protection of workers and the public and shall post danger signs warning against hazards created by such features in the course of construction.

6.13.8. Hazards Control. Contractor shall store volatile wastes in covered metal containers and remove them from the Site daily. Contractor shall prevent accumulation of wastes that create hazardous conditions. Contractor shall provide adequate ventilation during use of volatile or noxious substances.

6.13.9. Contractor shall designate a responsible member of its organization on the Project, whose duty shall be to post information regarding protection and obligations of workers and other notices required under occupational safety and health laws, to comply with reporting and other occupational safety requirements, and to protect the life, safety, and health of workers. Name and position of person so designated shall be reported to District by Contractor.

6.13.10. Contractor shall correct any violations of safety laws, rules, orders, standards, or regulations. Upon the issuance of a citation or notice of violation by the Division of Occupational Safety and Health, Contractor shall correct such violation promptly.

6.13.11. Storm Water. Contractor shall comply with the District's Storm Water Pollution Prevention Plan (SWPPP) and, if indicated in the Special Conditions, shall be the District's Qualified SWPPP Practitioner, at no additional cost to the District.

6.13.12. In an emergency affecting safety of life or of work or of adjoining property, Contractor, without special instruction or authorization, shall act, at its discretion, to prevent such threatened loss or injury. Any compensation claimed by Contractor on account of emergency work shall be determined by agreement.

6.13.13. All salvage materials will become the property of the Contractor and shall be removed from the Site unless otherwise called for in the Contract Documents. However, the District reserves the right to designate certain items of value that shall be turned over to the District unless otherwise directed by District.

6.13.14. All connections to public utilities and/or existing on-site services shall be made and maintained in such a manner as to not interfere with the continuing use of same by the District during the entire progress of the Work.

6.13.15. Contractor shall provide such heat, covering, and enclosures as are necessary to protect all Work, materials, equipment, appliances, and tools against damage by weather conditions, such as extreme heat, cold, rain, snow, dry winds, flooding, or dampness.

6.13.16. Contractor shall protect and preserve the Work from all damage or accident, providing temporary roofs, window and door coverings, boxing, or other construction as required by the Architect. Contractor shall be responsible for existing structures, walks, roads, trees, landscaping, and/or improvements in working areas; and shall provide adequate protection therefor. If temporary removal is necessary of any of the above items, or damage occurs due to the Work, the Contractor shall replace same at its expense with same kind, quality, and size of Work or item damaged. This shall include any adjoining property of the District and others.

6.13.17. Contractor shall take adequate precautions to protect existing roads, sidewalks, curbs, pavements, utilities, adjoining property, and structures (including, without limitation, protection from settlement or loss of lateral support), and to avoid damage thereto, and repair any damage thereto

caused by construction operations.

6.13.18. Contractor shall confine apparatus, the storage of materials, and the operations of workers to limits indicated by law, ordinances, permits, or directions of Architect, and shall not interfere with the Work or unreasonably encumber Premises or overload any structure with materials. Contractor shall enforce all instructions of District and Architect regarding signs, advertising, fires, and smoking, and require that all workers comply with all regulations while on Project Site.

6.13.19. Contractor, Contractor's employees, Subcontractors, Subcontractors' employees, or any person associated with the Work shall conduct themselves in a manner appropriate for a school site. No verbal or physical contact with neighbors, students, and faculty, profanity, or inappropriate attire or behavior will be permitted. District may require Contractor to permanently remove noncomplying persons from Project Site.

6.13.20. Contractor shall take care to prevent disturbing or covering any survey markers, monuments, or other devices marking property boundaries or corners. If such markers are disturbed, Contractor shall have a civil engineer, registered as a professional engineer in California, replace them at no cost to District.

6.13.21. In the event that the Contractor enters into any agreement with owners of any adjacent property to enter upon the adjacent property for the purpose of performing the Work, Contractor shall fully indemnify, defend, and hold harmless each person, entity, firm, or agency that owns or has any interest in adjacent property. The form and content of the agreement of indemnification shall be approved by the District prior to entering the adjacent property. The Contractor shall also indemnify the District as provided in the indemnification provision herein. These provisions shall be in addition to any other requirements of the owners of the adjacent property.

6.13.22. Use of Drones. Contractor may utilize drones or similar aerial equipment to monitor the progress of the Work and for security purposes, but Contractor must comply with all legal requirements of the Federal government, the State of California, and the County and City in which the Project is located, applicable to the use of drones or similar aerial equipment. In addition, Contractor shall ensure that no photographs, videos or digital recordings of any kind are taken of District students or staff.

6.14. Working Evenings and Weekends

Contractor may be required to work evenings and/or weekends at no additional cost to the District. Contractor shall give the District seventy-two (72) hours' notice prior to performing any evening and/or weekend work. Contractor shall perform all evening and/or weekend work only upon District's written approval and in compliance with all applicable rules, regulations, laws, and local ordinances including, without limitation, all noise and light limitations. Contractor shall reimburse the District for any Inspector charges necessitated by the Contractor's evening and/or weekend work.

6.15. Noise and Dust Control

6.15.1. In addition to the noise control, dust control and related requirements in the Specifications, Contractor shall control the noise and dust at the Site as indicated here.

6.15.2. Noise Control. The Contractor shall install noise reducing devices on construction equipment. Contractor shall comply with the requirements of the city and county having jurisdiction with regard to noise ordinances governing construction sites and activities. Construction equipment noise at the Site shall be limited as required by applicable law, rule or regulation. If classes are in session at any point during the progress of the Work, and, in the District's reasonable discretion, the noise from any Work disrupts or disturbs the students or faculty or the normal operation of the school at the Site, at the District's request, the Contractor shall schedule the performance of that Work around normal school

hours or make other arrangements so that the Work does not cause disruption or disturbance. In no event shall those arrangements result in adjustment of the Contract Price or the Contract Time.

6.15.3. Dust Control. The Contractor shall be fully and solely responsible for maintaining and upkeeping all areas of the Site and adjoining areas, outdoors and indoors, free from flying debris, grinding powder, sawdust, dirt and dust as well as any other product, product waste or work waste, that by becoming airborne may cause respiratory inconveniences to persons, particularly to students and District personnel. Additionally, the Contractor shall take specific care to avoid deposits of airborne dust or airborne elements. Those protection devices, systems or methods shall be in accordance with the regulations set forth by the EPA and OSHA, and other applicable law, rule or regulation. Additionally, the Contractor shall be responsible to regularly and routinely clean up and remove any and all deposits of dust and other elements. Damage and/or any liability derived from the Contractor's failure to comply with these requirements shall be exclusively at the cost of the Contractor, including, without limitation, any and all penalties that may be incurred for violations of applicable law, rule or regulation, and any amounts expended by the District to pay such damages shall be due and payable to the District on demand. Contractor shall replace any damages property or part thereof and professionally clean any and all items that become covered or partially covered to any degree by dust or other airborne elements. If classes are in session at any point during the progress of Work, and, in the District's reasonable discretion, flying debris, grinding powder, sawdust, dirt or dust from any Work disrupts or disturbs the students or faculty or the normal operation of the school, at the District's request, the Contractor shall schedule the performance of all that Work around normal school hours and make other arrangements so that the Work does not cause disruption or disturbance. In no event shall those arrangements result in adjustment of the Contract Price or the Contract Time.

6.15.4. Contractor Failure to Comply. If the Contractor fails to comply with the requirements for dust control, noise control, or any other maintenance or clean up requirement of the Contract Documents, the District, Architect, Project Inspector, or Construction Manager shall notify the Contractor in writing and the Contractor shall take immediate action. Should the Contractor fail to respond with immediate and responsive action and not later than twenty-four (24) hours from that notification, the District shall have the absolute right to proceed as it may deem necessary to remedy such matter. Any and all costs incurred by the District in connection with those actions shall be the sole responsibility of, and be borne by, the Contractor; the District may deduct those amounts from the Contract Price then or thereafter due the Contractor.

6.16. Cleaning Up

6.16.1. The Contractor shall provide all services, labor, materials, and equipment necessary for protecting the Work, all school occupants, furnishings, equipment, and building structure from damage until its Completion and final acceptance by District. Dust barriers shall be provided to isolate dust and dirt from construction operations. At Completion of the Work and portions thereof, Contractor shall clean to the original state any areas beyond the Work area that become dust laden as a result of the Work. The Contractor must erect the necessary warning signs and barricades to ensure the safety of all school occupants. The Contractor at all times must maintain good housekeeping practices to reduce the risk of fire damage and must make a fire extinguisher, fire blanket, and/or fire watch, as applicable, available at each location where cutting, braising, soldering, and/or welding is being performed or where there is an increased risk of fire.

6.16.2. Contractor at all times shall keep Premises free from debris such as waste, rubbish, and excess materials and equipment caused by the Work. Contractor shall not leave debris under, in, or about the Premises, but shall promptly remove same from the Premises on a daily basis. If Contractor fails to clean up, District may do so and the cost thereof shall be charged to Contractor. If Contract is for work on an existing facility, Contractor shall also perform specific clean-up on or about the Premises upon request by the District as it deems necessary for the continuing education process. Contractor shall comply with all related provisions of the Specifications.

6.16.3. If the Construction Manager, Architect, or District observes the accumulation of trash and debris, the District will give the Contractor a 24-hour written notice to mitigate the condition.

6.16.4. Should the Contractor fail to perform the required clean-up, or should the clean-up be deemed unsatisfactory by the District, the District will then perform the clean-up. All cost associated with the clean-up work (including all travel, payroll burden, and costs for supervision) will be deducted from the Contract Price, or District may withhold those amounts from payment(s) to Contractor.

7. SUBCONTRACTORS

- 7.1.** Contractor shall provide the District with information for all Subcontracts as required in the Contractor's Submittals and Schedules Section.
- 7.2.** No contractual relationship exists between the District and any Subcontractor, supplier, or sub-subcontractor by reason of the Contract.
- 7.3.** Contractor agrees to bind every Subcontractor by terms of the Contract as far as those terms are applicable to Subcontractor's work. If Contractor shall subcontract any part of the Contract, Contractor shall be as fully responsible to District for acts and omissions of any Subcontractor and of persons either directly or indirectly employed by any Subcontractor, as it is for acts and omissions of persons directly employed by Contractor. The divisions or sections of the Specifications are not intended to control the Contractor in dividing the Work among Subcontractors or limit the work performed by any trade.
- 7.4.** District's consent to, or approval of, or failure to object to, any Subcontractor under the Contract shall not in any way relieve Contractor of any obligations under the Contract and no such consent shall be deemed to waive any provisions of the Contract.
- 7.5.** Contractor acknowledges sections 4100 through 4114 of the Public Contract Code of the State of California, as regards subletting and subcontracting, and shall comply with all applicable requirements therein. In addition, Contractor acknowledges sections 1720 through 1861 of the Labor Code of the State of California, as regards the payment of prevailing wages and related issues, and shall comply with all applicable requirements therein all including, without limitation, section 1775 and the Contractor's and Subcontractors' obligations and liability for violations of prevailing wage law and other applicable laws.
- 7.6.** No Contractor whose Bid is accepted shall, without consent of the awarding authority and in full compliance with section 4100, et seq, of the Public Contract Code, including, without limitation, sections 4107, 4107.5, and 4109 of the Public Contract Code, either:
 - 7.6.1.** Substitute any person as a Subcontractor in place of the Subcontractor designated in the original Bid; or
 - 7.6.2.** Permit any Subcontract to be assigned or transferred, or allow any portion of the Work to be performed by anyone other than the original Subcontractor listed in the Bid; or
 - 7.6.3.** Sublet or subcontract any portion of the Work in excess of one-half of one percent (1/2 of 1%) of the Contractor's total bid as to which his original bid did not designate a Subcontractor.
- 7.7.** The Contractor shall be responsible for the coordination of the trades, Subcontractors, sub-subcontractors, and material or equipment suppliers working on the Project.
- 7.8.** Contractor is solely responsible for settling any differences between the Contractor and its

Subcontractor(s) or between Subcontractors.

7.9. Contractor must include in all of its subcontracts the assignment provisions as indicated in the Termination section of these General Conditions.

8. OTHER CONTRACTS/CONTRACTORS

8.1. District reserves the right to let other contracts, and/or to perform work with its own forces, in connection with other portions of the Project or other construction or operations at or about the Site. Contractor shall afford other contractor's reasonable opportunity for introduction and storage of their materials and execution of their work and shall properly coordinate and connect Contractor's Work with the work of other contractors.

8.2. In addition to Contractor's obligation to protect its own Work, Contractor shall protect the work of any other contractor that Contractor encounters while working on the Site.

8.3. If any part of Contractor's Work depends for proper execution or results upon work of District or any other contractor, Contractor shall inspect and promptly report to the District in writing before proceeding with its Work any defects in District's or any other contractor's work that render Contractor's Work unsuitable for proper execution and results. Contractor shall be held accountable for damages to District for District's or any other contractor's work that Contractor failed to inspect or should have inspected. Contractor's failure to inspect and report shall constitute Contractor's acceptance of all District's or any other contractor's work as fit and proper for reception of Contractor's Work, except as to defects that may develop in District's or any other contractor's work after execution of Contractor's Work.

8.4. To ensure proper execution of its subsequent work, Contractor shall measure and inspect work already in place and shall at once report to the District in writing any discrepancy between that executed work and the Contract Documents.

8.5. Contractor shall ascertain to its own satisfaction the scope of the Project and nature of District's or any other contracts that have been or may be awarded by District in completion of the Project to the end that Contractor may perform this Contract in light of the other contracts, if any.

8.6. Nothing herein contained shall be interpreted as granting to Contractor exclusive occupancy of the Site, the Premises, or of the Project. The District shall have complete access to the Project Site for any reasonable purpose at all times. Contractor shall not cause any unnecessary hindrance or delay to the use and/or school operation(s) of the Premises and/or to District or any other contractor working on the Project. If simultaneous execution of any contract or school operation is likely to cause interference with performance of Contractor's Contract, Contractor shall coordinate with those contractor(s), person(s), and/or entity(s) and shall notify the District of the resolution.

9. DRAWINGS AND SPECIFICATIONS

9.1. A complete list of all Drawings that form a part of the Contract is to be found as an index on the Drawings themselves, and/or may be provided to the Contractor and/or in the Table of Contents.

9.2. Materials or Work described in words that so applied have a well-known technical or trade meaning shall be deemed to refer to recognized standards, unless noted otherwise.

9.3. Trade Name or Trade Term. It is not the intention of the Contract to go into detailed descriptions of any materials and/or methods commonly known to the trade under "trade name" or "trade term." The mere mention or notation of "trade name" or "trade term" shall be considered sufficient notice to Contractor that it will be required to complete the work so named, complete, finished, and operable,

with all its appurtenances, according to the best practices of the trade.

- 9.4. The naming of any material and/or equipment shall mean furnishing and installing of same, including all incidental and accessory items thereto and/or labor therefor, as per best practices of the trade(s) involved, unless specifically noted otherwise.
- 9.5. Contract Documents are complementary, and what is called for by one shall be binding as if called for by all. As such, Drawings and Specifications are intended to be fully cooperative and to agree. However, if Contractor observes that Drawings and Specifications are in conflict, Contractor shall promptly notify District and Architect in writing, and any necessary changes shall be made as provided in the Contract Documents.
- 9.6. In the case of discrepancy or ambiguity in the Contract Documents, the order of precedence in the Agreement shall prevail. However, in the case of discrepancy or ambiguity solely between and among the Drawings and Specifications, the discrepancy or ambiguity shall be resolved in favor of the interpretation that will provide District with the functionally complete and operable Project described in the Drawings and Specifications. In case of ambiguity, conflict, or lack of information, District will furnish clarifications with reasonable promptness.
- 9.7. Drawings and Specifications are intended to comply with all laws, ordinances, rules, and regulations of constituted authorities having jurisdiction, and where referred to in the Contract Documents, the laws, ordinances, rules, and regulations shall be considered as a part of the Contract within the limits specified. Contractor shall bear all expense of correcting work done contrary to said laws, ordinances, rules, and regulations.

9.8. Ownership of Drawings

9.8.1. All copies of the Drawings, Designs, Specifications, and copies of other incidental architectural and engineering work, or copies of other Contract Documents furnished by District, are the property of District. They are not to be used by Contractor in other work and, with the exception of signed sets of Contract Documents, are to be returned to District on request at Completion of Work, or may be used by District as it may require without any additional costs to District. Neither the Contractor nor any Subcontractor, or material or equipment supplier shall own or claim a copyright in the Drawings, Specifications, and other documents prepared by the Architect. District hereby grants the Contractor, Subcontractors, sub-subcontractors, and material or equipment suppliers a limited license to use applicable portions of the Drawings prepared for the Project in the execution of their Work under the Contract Documents.

10. CONTRACTOR'S SUBMITTALS AND SCHEDULES

Contractor's submittals shall comply with the provisions and requirements of the Specifications including, without limitation Submittals. No submittal, unless approved in writing by the District as acceptable and complete, shall be a Contract Document.

10.1. Schedules, Safety Plan and Complete Subcontractor List

10.1.1. Within **TEN (10)** calendar days after the date of the Notice to Proceed (unless otherwise specified in the Notice to Proceed or in the Special Conditions), Contractor shall prepare and submit to the District for review, in a form supported by sufficient data to substantiate its accuracy as the District may require:

10.1.1.1. **Schedule of Work.** Contractor shall provide a preliminary schedule of construction indicating the starting and completion dates of the various stages of the Work, including any information and following any form as may be specified in the Specifications. Once approved by District, this shall become the Construction Schedule. This schedule shall include and identify all tasks

that are on the Project's critical path with a specific determination of the start and completion of each critical path task, all contract milestones and each milestone's completion date(s) as may be required by the District, and the date of Project Completion.

10.1.1.1.1. Proposed Advanced Schedule. The District is not required to accept an early completion ("advanced") schedule; i.e., one that shows early completion dates for the Contract completion or milestones. Contractor shall not be entitled to extra compensation if the District allows the Contractor to proceed performing the Contract on an earlier ("advanced") schedule and Contractor completes the Project, for whatever reason, beyond the date shown in that earlier ("advanced") schedule, but within the Time for Completion indicated in the Contract. A schedule showing the work completed in less than the Time for Completion indicated in the Contract, shall be considered to have Project Float.

10.1.1.1.2. Float or Slack in the Schedule. Float or slack is the amount of time between the early start date and the late start date, or the early finish date and the late finish date, of any of the activities in the schedule. Float or slack is not for the exclusive use of or benefit of either the District or the Contractor, but its use shall be determined solely by the District.

10.1.1.2. Schedule of Submittals. The Contractor shall provide a preliminary schedule of submittals, including Shop Drawings, Product Data, and Samples submittals. Once approved by District, this shall become the Submittal Schedule. All submittals shall be forwarded to the District by the date indicated on the approved Submittal Schedule, unless an earlier date is necessary to maintain the Construction Schedule, in which case those submittals shall be forwarded to the District so as not to delay the Construction Schedule.

10.1.1.3. Schedule of Values. The Contractor shall provide a preliminary schedule of values for all component parts of the Work for which progress payments may be requested. The schedule of values must include quantities and prices of items totaling the Contract Price and must subdivide the Work into component parts in sufficient detail to serve as the basis for progress payments during construction. The preliminary schedule of values should include, at a minimum, the following information and the following structure:

10.1.1.3.1. Divided into at least the following categories:

- 10.1.1.3.1.1.** Overhead and profit;
- 10.1.1.3.1.2.** Supervision;
- 10.1.1.3.1.3.** General conditions;
- 10.1.1.3.1.4.** Layout;
- 10.1.1.3.1.5.** Mobilization;
- 10.1.1.3.1.6.** Submittals;
- 10.1.1.3.1.7.** Bonds and insurance;
- 10.1.1.3.1.8.** Closeout documentation;
- 10.1.1.3.1.9.** Demolition;
- 10.1.1.3.1.10.** Installation;
- 10.1.1.3.1.11.** Rough-in;
- 10.1.1.3.1.12.** Finishes;
- 10.1.1.3.1.13.** Testing;
- 10.1.1.3.1.14.** Punch List and acceptance.

10.1.1.3.2. Divided by each of the following areas:

- 10.1.1.3.2.1.** Site work;
- 10.1.1.3.2.2.** By each building;
- 10.1.1.3.2.3.** By each floor.

10.1.1.3.3. The preliminary schedule of values shall not provide for values any greater than the following percentages of the Contract value:

- 10.1.1.3.3.1.** Mobilization and layout combined to equal not more than 1%;
- 10.1.1.3.3.2.** Submittals, samples and shop drawings combined to equal not more than 3%;
- 10.1.1.3.3.3.** Bonds and insurance combined to equal not more than 2%.

10.1.1.3.4. Closeout Documentation. Closeout Documentation shall have a value in the preliminary schedule of not less than 5%. The value for Closeout Documentation shall be in addition to and shall not be a part of the Contract retention.

10.1.1.3.5. All items on the Schedule of Values must have a specific completion date on the Construction Schedule, or District has approved the Construction Schedule and the Construction Schedule is fully cost-loaded and resource-loaded, unless waived by the District in writing, and detailed as required by the Contract Documents

10.1.1.3.6. Contractor shall certify that the preliminary schedule of values as submitted to the District is accurate and reflects the costs as developed in preparing Contractor's bid. The preliminary schedule of values shall be subject to the District's review and approval of the form and content thereof. In the event that the District objects to any portion of the preliminary schedule of values, the District shall notify the Contractor, in writing, of the District's objection(s) to the preliminary schedule of values. Within five (5) calendar days of the date of the District's written objection(s), Contractor shall submit a revised preliminary schedule of values to the District for review and approval. The foregoing procedure for the preparation, review and approval of the preliminary schedule of values shall continue until the District has approved the entirety of the preliminary schedule of values.

10.1.1.3.7. Once the preliminary schedule of values is approved by the District, this shall become the Schedule of Values. The Schedule of Values shall not be thereafter modified or amended by the Contractor without the prior written consent and approval of the District, which may be granted or withheld in the sole discretion of the District.

10.1.1.3.8. Notwithstanding any provision of the Contract Documents to the contrary, payment of the Contractor's overhead, supervision, general conditions costs, and profit, as reflected in the Schedule of Values, shall be paid by the District in equal installments, based on percentage complete, with the disbursement of Progress Payments and the Final Payment.

10.1.1.3.9. The Contractor shall not "front-load" the Schedule of Values with false dollar amounts for activities to be performed in the early stages of the Project. The District may, in its sole discretion, utilize the costs listed in the Schedule of Values as the true cost of items to be deducted from the Contract Price through credit or deductive Change Order. The values for each line item shall include the amount of overhead and profit applicable to each item of work and shall include, at a minimum, a breakdown between rough and finish Work for the basic trades as well as individual dollar figures for large dollar equipment and materials to be installed or furnished for the Project. No individual line item or scope of work in the Schedule of Values shall exceed \$50,000, except with the express, written consent of the District. Exceptions will be given by the District for a single item of Equipment for which the true cost exceeds \$50,000. The Schedule of Values shall be subject to the District's review and approval of the form and content thereof. Upon request, Contractor shall provide District with data and documentation substantiating the accuracy of the proposed line items. In the event that the District shall reasonably object to any portion of the Schedule of Values, within ten (10) days of the District's receipt of the Schedule of Values, the District shall notify the Contractor, in writing of the District's objection(s) to the Schedule of Values together with any request for substantiating data

or documentation. Within five (5) days of the date of the District's written objection(s) and request for substantiating data and documentation, Contractor shall submit a revised Schedule of Values to the District for review and approval together with the requested data and documentation. The foregoing procedure for the preparation, review and approval of the Schedule of Values shall continue until the District has approved of the entirety of the Schedule of Values. Once the Schedule of Values is approved by the District, the Schedule of Values shall not be thereafter modified or amended by the Contractor without the prior consent and approval of the District, which may be granted or withheld in the sole reasonable discretion of the District. Notwithstanding any provision of the Contract Documents to the contrary, payment of the Contractor's overhead, supervision and general conditions costs and profit, as such items are reflected in the Schedule of Values, shall be made incrementally as included in the activities included in the Approved Construction Schedule.

10.1.1.4. Safety Plan. The Contractor shall provide a preliminary Contractor's Safety Plan specifically adapted for the Project. Contractor's Safety Plan shall comply with the following requirements:

10.1.1.4.1. All applicable requirements of California Division of Industrial Safety ("CalOSHA") and/or of the United States Occupational Safety and Health Administration ("OSHA").

10.1.1.4.2. All provisions regarding Project safety, including all applicable provisions in these General Conditions.

10.1.1.4.3. Contractor's Safety Plan shall be prepared in both English and in the predominant language(s) of the Contractor's and its Subcontractors' employees.

10.1.1.5. Complete Subcontractor List. Contractor shall provide a preliminary Subcontractor List stating the name, address, telephone number, facsimile number, California State Contractors License number, classification, and monetary value of all Subcontracts for parties furnishing labor, material, or equipment for the Project.

10.1.2. Contractor must provide all schedules both in hard copy and electronically, in a format (e.g., Microsoft Project or Primavera) approved in advance by the District.

10.1.3. The District will review the schedules submitted and the Contractor shall make changes and corrections in the schedules as requested by the District and resubmit the schedules until approved by the District.

10.1.4. The District shall have the right at any time to revise the Schedule of Values if, in the District's sole opinion, the Schedule of Values does not accurately reflect the value of the Work performed.

10.1.5. All submittals and schedules must be approved by the District before Contractor can rely on them as a basis for payment.

10.2. Monthly Progress Schedule(s)

10.2.1. Contractor shall provide Monthly Progress Schedule(s) to the District. A Monthly Progress Schedule shall update the approved Construction Schedule or the last Monthly Progress Schedule, showing all work completed and to be completed. The Monthly Progress Schedule shall be sent to the District and shall be in a format acceptable to the District and contain a written narrative of the progress of work that month and any changes, delays, or events that may affect the work. The process for District approval of the Monthly Progress Schedule shall be the same as the process for approval of the Construction Schedule.

10.2.2. Contractor shall also submit Monthly Progress Schedule(s) with all payment applications.

10.3. Material Safety Data Sheets (MSDS)

Contractor is required to ensure Material Safety Data Sheets are available in a readily accessible place at the Work Site for any material requiring a Material Safety Data Sheet per the Federal “Hazard Communication” standard, or employees right to know law. The Contractor is also required to ensure proper labeling on substances brought onto the Project Site and that any person working with the material or within the general area of the material is informed of the hazards of the substance and follows proper handling and protection procedures. Two additional copies of the Material Safety Data Sheets shall also be submitted directly to the District.

10.4. Logistic Plan

Contractor shall provide a staging and logistics plan identifying laydown areas, loading and unloading areas, crane locations, fence locations, temporary utility connections, trailer locations, and emergency evacuation meeting area. This Logistics Plan must be approved by the District prior to the Contractor mobilizing on the Site.

10.5. Information Included in Submittals.

All Submittals shall be accompanied by a written transmittal and each set of plans shall carry a “wet stamp” or other writing by the Contractor providing an identification of the portion of the Drawings or the Specifications pertaining to the Submittal, with each Submittal numbered consecutively for ease of reference along with the following information: (i) date of submission; (ii) Project name; (iii) name of submitting Subcontractor; and (iv) if applicable, the revision number. The foregoing information is in addition to, and not in lieu of, any other information required for the District’s review, evaluation and approval of the Contractor’s Submittals. Each Submittal shall be complete with its required number of copies, no piecemeal documentation is allowed. Any Submittal not bearing the required wet stamp as stated herein, shall be rejected until the appropriate wet stamp information is provided on each submittal.

10.6. Verification of Submittal Information.

By approving and submission of Submittals, the Contractor represents to the District and Architect that the Contractor has determined and verified materials, field measurements, field construction criteria, catalog numbers and similar data related thereto and has checked and coordinated the information contained within such Submittals with the requirements of the Work and of the Contract Documents. Each Submittal shall include the following certification duly executed by the Contractor’s Superintendent or Project Manager for the Work: “The Contractor has reviewed and approved the field dimensions and construction criteria of the attached Submittal. The Contractor has verified that the Submittal is complete and includes notations of any portion of the Work depicted in the Submittal which is not in strict conformity with the Contract Documents. The information in the attached Submittal has been reviewed and coordinated by the Contractor with information included in other Submittals.”

10.7. Contractor Responsibility for Deviations.

The Contractor shall not be relieved of responsibility for correcting deviations from the requirements of the Contract Documents by the District’s and Architect’s review of Submittals unless the Contractor has specifically informed the District in writing of such deviation at the time of submission of the Submittal and the District has given written approval to the specific deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Submittals by the District’s and Architect’s review or comments thereon.

10.8. No Performance of Work Without Architect Review.

The Contractor shall perform no portion of the Work requiring the District's and Architect's review of Submittals until the District and Architect have completed their review and returned the Submittal to the Contractor indicating "No Exception Taken" to that Submittal. The Contractor shall not perform any portion of the Work forming a part of a Submittal or which is affected by a related Submittal until the entirety of the Submittal or other related Submittal has been fully processed. All Work shall be in accordance with the final action taken by the District and the Architect review in review of Submittals and other applicable portions of the Contract Documents.

10.9. District and Architect Review of Submittals.

The purpose of the District's and Architect's review of Submittals and the time for the District's and Architect's return of Submittals to the Contractor shall be as set forth elsewhere in the Contract Documents. If the District and/or Architect return a Submittal as rejected or requiring correction(s) with re-submission, the Contractor, so as not to delay the progress of the Work, shall promptly thereafter resubmit a Submittal conforming to the requirements of the Contract Documents; the resubmitted Submittal shall indicate the portions thereof modified in accordance with the District's and Architect's direction. When professional certification of performance criteria of materials, systems or equipment is required by the Contract Documents, the District shall be entitled to rely upon the accuracy and completeness of the Contractor's calculations and certifications accompanying Submittals. The District's and Architect's review of the Submittals is for the limited purposes described in the Contract Documents. The District and Architect will review each Submittal twice. Should additional Submittals be required as a result of failure of the Contractor to address comments, the Contractor will pay for the Architect's services on a time and material basis for each subsequent review.

10.10. Deferred Approval Items.

In the event that any portion of the Work is designated in the Contract Documents as a "Deferred Approval" item from DSA, Contractor shall be solely and exclusively responsible for the preparation of Submittals for such item(s) in a timely manner so as not to delay or hinder the completion of the Work within the Contract Time. All work, labor, materials, equipment or services necessary to complete the design, engineering and permitting/approval of the Deferred Approval items shall be provided by the Contractor without adjustment of the Contract Price or the Contract Time.

10.11. Contractor Responsibility for Deviations

The Contractor shall not be relieved of responsibility for correcting deviations from the requirements of the Contract Documents by the District's or Architect's review of Submittals unless the Contractor has specifically informed the District and the Architect in writing of such deviation at the time of submission of the Submittal and the District and the Architect have given written approval to the specific deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Submittals by the District's or the Architect's review or comments thereon.

11. SITE ACCESS, CONDITIONS AND REQUIREMENTS

11.1. Site Investigation

Before bidding on the Work, Contractor shall make a careful investigation of the Site and thoroughly familiarize itself with the requirements of the Contract. By the act of submitting a bid for the Work included in the Contract, Contractor shall be deemed to have made a complete study and investigation, and to be familiar with and accepted the existing conditions of the Site.

11.2. Soils Investigation Report

11.2.1. When a soils investigation report obtained from test holes at Site is available, that report shall be available to the Contractor but shall not be a part of the Contract. Any information obtained from that report or any information given on Drawings as to subsurface soil condition or to elevations of existing grades or elevations of underlying rock is approximate only, is not guaranteed, does not form a part of the Contract, and Contractor may not rely thereon. By submitting its bid, Contractor acknowledges that it made visual examination of Site and made whatever tests Contractor deems appropriate to determine underground condition of soil.

11.2.2. Contractor agrees that no claim against District will be made by Contractor for damages and hereby waives any rights to damages if, during progress of Work, Contractor encounters subsurface or latent conditions at Site materially differing from those shown on Drawings or indicated in Specifications, or for unknown conditions of an unusual nature that differ materially from those ordinarily encountered in the work of the character provided for in Plans and Specifications, except as indicated in the provisions of these General Conditions regarding trenches, trenching, and/or existing utility lines.

11.3. Access to Work

District and its representatives shall at all times have access to Work wherever it is in preparation or progress, including storage and fabrication. Contractor shall provide safe and proper facilities for access so that District's representatives may perform their functions.

11.4. Layout and Field Engineering

11.4.1. All field engineering required for layout of this Work and establishing grades for earthwork operations shall be furnished by Contractor at its expense. This Work shall be done by a qualified, California-registered civil engineer approved in writing by District and Architect. Any required Record and/or As-Built Drawings of Site development shall be prepared by the approved civil engineer.

11.4.2. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility, and general character of the Site and for having satisfied itself as to the conditions under which the Work is to be performed. District shall not be liable for any claim for allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site.

11.4.3. Contractor shall protect and preserve established benchmarks and monuments and shall make no changes in locations without the prior written approval of District. Contractor shall replace any benchmarks or monuments that are lost or destroyed subsequent to proper notification of District and with District's approval.

11.5. Utilities for Construction

Utilities necessary to complete the Work and to completely perform all of the Contractors' obligations shall be obtained by the Contractor without adjustment of the Contract Price. The Contractor shall furnish and install necessary or appropriate temporary distributions of utilities, including utilities furnished by the District. Any such temporary distributions shall be removed by the Contractor upon completion of the Work. The costs of all such utility services, including the installation and removal of temporary distributions thereof, shall be borne by the Contractor and included in the Contract Price. Also refer to other utility requirements as indicated in the Specifications.

11.6. Sanitary Facilities

At all times during Work at the Site, the Contractor shall obtain and maintain temporary sanitary facilities in conformity with applicable law, rule or regulation. The Contractor shall maintain temporary sanitary facilities in a neat and clean manner with sufficient toilet room supplies. Personnel engaged in the Work are not permitted to use toilet facilities at the Site. Also refer to other Sanitary facility requirements as

indicated in the Specifications.

11.7. Surveys

Contractor shall provide surveys done by a California-licensed civil engineer surveyor to determine locations of construction, grading, and site work as required to perform the Work.

11.8. Regional Notification Center

Contractor, except in an emergency, shall contact the appropriate regional notification center at least two (2) days prior to commencing any excavation if the excavation will be conducted in an area or in a private easement that is known, or reasonably should be known, to contain subsurface installations other than the underground facilities owned or operated by the District, and obtain an inquiry identification number from that notification center. No excavation shall be commenced and/or carried out by the Contractor unless an inquiry identification number has been assigned to the Contractor or any Subcontractor and the Contractor has given the District the identification number. Any damages arising from Contractor's failure to make appropriate notification shall be at the sole risk and expense of the Contractor. Any delays caused by failure to make appropriate notification shall be at the sole risk of the Contractor and shall not be considered for an extension of the Contract time.

11.9. Existing Utility Lines

11.9.1. Pursuant to Government Code section 4215, District assumes the responsibility for removal, relocation, and protection of main or trunk utility lines and facilities located on the construction Site at the time of commencement of construction under the Contract with respect to any such utility facilities that are not identified in the Plans and Specifications. Contractor shall not be assessed for liquidated damages for delay in completion of the Project caused by failure of District or the owner of a utility to provide for removal or relocation of such utility facilities.

11.9.2. Locations of existing utilities provided by District shall not be considered exact, but approximate within reasonable margin and shall not relieve Contractor of responsibilities to exercise reasonable care nor costs of repair due to Contractor's failure to do so. District shall compensate Contractor for the costs of locating, repairing damage not due to the failure of Contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the Plans and Specifications with reasonable accuracy, and for equipment necessarily idle during such work.

11.9.3. No provision herein shall be construed to preclude assessment against Contractor for any other delays in completion of the Work. Nothing in this Article shall be deemed to require District to indicate the presence of existing service laterals, appurtenances, or other utility lines, within the exception of main or trunk utility lines, whenever the presence of these utilities on the Site can be inferred from the presence of other visible facilities, such as buildings, meter junction boxes, on or adjacent to the Site.

11.9.4. If Contractor, while performing Work, discovers utility facilities not identified by District in Contract Plans and Specifications, Contractor shall immediately, but in no case longer than two (2) Business Days, notify the District and the utility in writing. The cost of repair for damage to above-mentioned visible facilities without prior written notification to the District shall be borne by the Contractor.

11.10. Notification

Contractor understands, acknowledges and agrees that the purpose for prompt notification to the District pursuant to these provisions is to allow the District to investigate the condition(s) so that the District shall have the opportunity to decide how the District desires to proceed as a result of the condition(s). Accordingly, failure of Contractor to promptly notify the District in writing, pursuant to the applicable

provisions of these General Conditions, shall constitute Contractor's waiver of any claim for damages or delay incurred as a result of the condition(s).

11.11. Hazardous Materials

Contractor shall comply with all provisions and requirements of the Contract Documents related to hazardous materials including, without limitation, certifications related to hazardous materials in the document entitled Certifications to be Completed by Contractor.

11.12. No Signs

Neither the Contractor nor any other person or entity shall display any signs not required by law or the Contract Documents at the Site, fences trailers, offices, or elsewhere on the Site without specific prior written approval of the District.

12. TRENCHES

12.1. Trenches Greater Than Five Feet

Pursuant to Labor Code section 6705, if the Contract Price exceeds \$25,000 and involves the excavation of any trench or trenches five (5) feet or more in depth, the Contractor shall, in advance of excavation, promptly submit to the District and/or a registered civil or structural engineer employed by the District or Architect, a detailed plan showing the design of shoring for protection from the hazard of caving ground during the excavation of such trench or trenches.

12.2. Excavation Safety

If such plan varies from the Shoring System Standards established by the Construction Safety Orders, the plan shall be prepared by a registered civil or structural engineer, but in no case shall such plan be less effective than that required by the Construction Safety Orders. No excavation of such trench or trenches shall be commenced until said plan has been accepted by the District or by the person to whom authority to accept has been delegated by the District.

12.3. No Tort Liability of District

Pursuant to Labor Code section 6705, nothing in this Article shall impose tort liability upon the District or any of its employees.

12.4. No Excavation without Permits

The Contractor shall not commence any excavation Work until it has secured all necessary permits including the required CAL OSHA excavation/shoring permit. Any permits shall be prominently displayed on the Site prior to the commencement of any excavation.

12.5. Discovery of Hazardous Waste, Unusual Conditions and/or Unforeseen Conditions

12.5.1. Pursuant to Public Contract Code section 7104, if the Work involves digging trenches or other excavations that extend deeper than four (4) feet below the surface, the Contractor shall immediately, but in no case longer than two (2) Business Days, and before the following conditions are disturbed, notify the District, in writing, of any:

12.5.1.1. Material that the Contractor believes may be material that is hazardous waste, as defined in section 25117 of the Health and Safety Code, and requires removal to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

12.5.1.2. Subsurface or latent physical conditions at the Site differing from those indicated.

12.5.1.3. Unknown physical conditions at the Site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract.

12.5.2. The District shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the Work, shall issue a Change Order under the procedures described herein.

12.5.3. In the event that a dispute arises between District and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the Work, the Contractor shall not be excused from any scheduled Completion date provided for by the Contract, but shall proceed with all work to be performed under the Contract. The Contractor shall retain any and all rights provided by the Contract or by law that pertain to the resolution of disputes and protests, which include the requirement that Contractor complies with the notice and PCO provisions of the Contract Documents. Contractor's failure to submit a proposed change order pursuant to the terms of the Contract Documents shall be deemed a waiver of Contractor's right to an adjustment of the Contract Price of Contract Time.

13. INSURANCE AND BONDS

13.1. Insurance

Unless different provisions and/or limits are indicated in the Special Conditions, all insurance required of Contractor and/or its Subcontractor(s) shall be in the amounts indicated herein and include the provisions set forth herein.

13.1.1. Commercial General Liability and Automobile Liability Insurance

13.1.1.1. Contractor shall procure and maintain, during the life of the Contract, Commercial General Liability Insurance and Automobile Liability Insurance that shall protect Contractor, District, State, Construction Manager(s), Project Inspector(s), and Architect(s) from all claims for bodily injury, property damage, personal injury, death, advertising injury, and medical payments arising from operations under the Contract. This coverage shall be provided in a form at least as broad as the Insurance Services Office (ISO) standard form. Contractor shall ensure that Products Liability and Completed Operations coverage, Fire Damage Liability, and any Auto including owned, non-owned, and hired, are included within the above policies and at the required limits, or Contractor shall procure and maintain these coverages separately.

13.1.1.2. Contractor's deductible or self-insured retention for its Commercial General Liability Insurance policy shall not exceed \$25,000 unless approved in writing by District.

13.1.2. Umbrella Liability Insurance

13.1.2.1. Contractor shall procure and maintain, during the life of the Contract, an Excess Liability and/or Umbrella Liability Insurance Policy. Any Umbrella Liability Insurance Policy shall protect Contractor, District, State, Construction Manager(s), Project Manager(s), and Architect(s) in the amounts indicated herein, and shall comply with all requirements for Commercial General Liability and Automobile Liability and Employers' Liability Insurance. This coverage shall be provided in a form at least as broad as the Insurance Services Office (ISO) standard form.

13.1.2.2. There shall be no gap between the per occurrence amount of any underlying policy and

the start of the coverage under the Umbrella Liability Insurance Policy.

13.1.2.3. Whether this Excess Liability and/or Umbrella Liability Insurance Policy is written on a “follow form” or “stand alone” form, the coverages shall equal or greater than the Contractor’s Commercial General Liability and Automobile Liability and Employers’ Liability Insurance with no exclusions that reduce or eliminate coverage items.

13.1.3. Subcontractor(s): Contractor shall require its Subcontractor(s), if any, to procure and maintain Commercial General Liability Insurance, Automobile Liability Insurance, and Umbrella Liability Insurance with minimum limits equal to at least fifty percent (50%) of the amounts required of the Contractor.

13.1.4. Workers’ Compensation and Employers’ Liability Insurance

13.1.4.1. In accordance with provisions of section 3700 of the California Labor Code, the Contractor and every Subcontractor shall be required to secure the payment of compensation to its employees.

13.1.4.2. Contractor shall procure and maintain, during the life of this Contract, Workers’ Compensation Insurance and Employers’ Liability Insurance for all of its employees engaged in Work under the Contract, on/or at the Site of the Project. This coverage shall cover, at a minimum, medical and surgical treatment, disability benefits, rehabilitation therapy, and survivors' death benefits. Contractor shall require its Subcontractor(s), if any, to procure and maintain Workers’ Compensation Insurance and Employers’ Liability Insurance for all employees of Subcontractor(s). Any class of employee or employees not covered by a Subcontractor’s insurance shall be covered by Contractor’s insurance. If any class of employee or employees engaged in Work under the Contract, on or at the Site of the Project, are not protected under the Workers’ Compensation Insurance, Contractor shall provide, or shall cause a Subcontractor to provide, adequate insurance coverage for the protection of any employee(s) not otherwise protected before any of those employee(s) commence work.

13.1.5. Builder's Risk Insurance: Builder's Risk “All Risk” Insurance.

Contractor shall procure and maintain, during the life of this Contract, Builder’s Risk (Course of Construction), or similar first party property coverage acceptable to the District, issued on a replacement cost value basis. The cost shall be consistent with the total replacement cost of all insurable Work included within the Contract Documents. Coverage is to insure against all risks of accidental physical loss and shall include without limitation the perils of vandalism and/or malicious mischief (both without any limitation regarding vacancy or occupancy), sprinkler leakage, water damage, mold, civil authority, theft, sonic disturbance, earthquake, flood, collapse, wind, fire, war, terrorism, lightning, smoke, and rioting. Coverage shall include debris removal, demolition, increased costs due to enforcement of all applicable ordinances and/or laws in the repair and replacement of damaged and undamaged portions of the property, and reasonable costs for the Architect’s and engineering services and expenses required as a result of any insured loss upon the Work and Project, including completed Work and Work in progress, to the full insurable value thereof. Contractor must review the **Special Conditions** to confirm the scope of this requirement and if the District has modified this provision.

13.1.6. Proof of Carriage of Insurance and Other Requirements: Endorsements and Certificates

13.1.6.1. Contractor shall not commence Work nor shall it allow any Subcontractor to commence Work under the Contract, until Contractor and its Subcontractor(s) have procured all required insurance and Contractor has delivered in duplicate to the District complete endorsements (or entire insurance policies) and certificates indicating the required coverages have been obtained, and the District has approved these documents.

13.1.6.2. Endorsements, certificates, and insurance policies shall include the following:

13.1.6.2.1. A clause stating:

13.1.6.2.1.1. “This policy shall not be amended, canceled or modified and the coverage amounts shall not be reduced until notice has been mailed to District, Architect, and Construction Manager stating date of amendment, modification, cancellation or reduction. Date of amendment, modification, cancellation or reduction may not be less than thirty (30) days after date of mailing notice.”

13.1.6.2.1.2. In lieu of receiving an endorsement with this clause, the District may, at its sole discretion, accept written notification from Contractor and its insurer to the District of any amendments, modifications, cancellations or reduction in coverage, not less than thirty (30) days prior to such coverage changes occur.

13.1.6.2.2. Language stating in particular those insured, extent of insurance, location and operation to which insurance applies, expiration date, to whom cancellation and reduction notice will be sent, and length of notice period.

13.1.6.3. All endorsements, certificates and insurance policies shall state that District, its trustees, employees and agents, the State of California, Construction Manager(s), Project Manager(s), Inspector(s) and Architect(s) are named additional insureds under all policies except Workers’ Compensation Insurance and Employers’ Liability Insurance.

13.1.6.4. Contractor’s and Subcontractors’ insurance policy(s) shall be primary and non-contributory to any insurance or self-insurance maintained by District, its trustees, employees and/or agents, the State of California, Construction Manager(s), Project Manager(s), Inspector(s), and/or Architect(s).

13.1.6.5. All endorsements shall waive any right to subrogation against any of the named additional insureds.

13.1.6.6. All policies shall be written on an occurrence form.

13.1.6.7. Unless otherwise stated in the Special Conditions, all of Contractor’s insurance shall be placed with insurers **ADMITTED** in California with a current A.M. Best’s rating of no less than **A-** or **A:VII**.

13.1.6.8. The insurance requirements set forth herein shall in no way limit the Contractor’s liability arising out or relating to the performance of the Work or related activities.

13.1.6.9. Failure of Contractor and/or its Subcontractor(s) to comply with the insurance requirements herein shall be deemed a material breach of the Agreement.

13.1.7. Insurance Policy Limits

Unless different limits are indicated in the **Special Conditions**, the limits of insurance shall not be less than the following amounts:

Commercial General Liability	Includes: Personal & Advertising Injury, Product Liability and Completed Operations	\$2,000,000 each occurrence; \$4,000,000 general aggregate
Automobile Liability – <u>Any Auto</u>	Combined Single Limit	\$2,000,000 per occurrence
Excess Liability (Umbrella)		\$6,000,000 per occurrence;

		\$6,000,000 aggregate
Workers Compensation		Statutory limits pursuant to State law
Employers' Liability		\$2,000,000 each accident, each disease; \$2,000,000 policy limit
Builder's Risk (Course of Construction)		Issued for the value and scope of Work indicated herein.
Property of Others	Combined Single Limit General Aggregate	Issued for the value and scope of Work stored off-site.

13.2. Contract Security – Bonds

13.2.1. Contractor shall furnish two surety bonds issued by a California admitted surety insurer as follows:

13.2.1.1. Performance Bond: A bond in an amount at least equal to one hundred percent (100%) of Contract Price as security for faithful performance of this Contract.

13.2.1.2. Payment Bond: A bond in an amount at least equal to one hundred percent (100%) of the Contract Price as security for payment of persons performing labor and/or furnishing materials in connection with the Contract.

13.2.2. Cost of bonds shall be included in the Bid and Contract Price.

13.2.3. All bonds related to the Project shall be in the forms set forth in the Contract Documents and shall comply with all requirements of the Contract Documents, including, without limitation, the bond forms.

14. WARRANTY/GUARANTEE/INDEMNITY

14.1. Warranty/Guarantee

14.1.1. Contractor shall obtain and preserve for the benefit of the District, manufacturer's warranties on materials, fixtures, and equipment incorporated into the Work.

14.1.2. In addition to guarantees required elsewhere, Contractor shall, and hereby does guarantee and warrant all Work against all defects for a period of **ONE (1)** year after the later of the following dates:

14.1.2.1. The date of completion as defined in Public Contract Code section 7107, subdivision (c),

14.1.2.2. The commissioning date for the Project, if any.

14.1.3. At the District's sole option, Contractor shall repair or replace any and all of that Work, together with any other Work that may be displaced in so doing, that may prove defective in workmanship and/or materials within a **ONE (1)** year period from date of Completion as defined above without expense whatsoever to District. In the event of failure of Contractor and/or Surety to commence and pursue with diligence said replacements or repairs within **TEN (10)** days after being notified in writing, Contractor and Surety hereby acknowledge and agree that District is authorized to proceed to have defects repaired and made good at expense of Contractor and/or Surety who hereby agree to pay costs and charges therefore immediately on demand.

14.1.4. If, in the opinion of District, defective work creates a dangerous condition or requires immediate

correction or attention to prevent further loss to District or to prevent interruption of operations of District, District will attempt to give the notice required above. If Contractor or Surety cannot be contacted or neither complies with District's request for correction within a reasonable time as determined by District, District may, notwithstanding the above provision, proceed to make all corrections and/or provide attentions the District believes are necessary. The costs of correction or attention shall be charged against Contractor and Surety of the guarantees provided in this Article or elsewhere in the Contract Documents.

14.1.5. The above provisions do not in any way limit the guarantees on any items for which a longer guarantee is specified or on any items for which a manufacturer gives a guarantee for a longer period. Contractor shall furnish to District all appropriate guarantee or warranty certificates as indicated in the Specifications or upon request by District.

14.1.6. Nothing herein shall limit any other rights or remedies available to District.

14.2. Indemnity

14.2.1. To the furthest extent permitted by California law, Contractor shall indemnify, defend with legal counsel reasonably acceptable to the District, keep and hold harmless the District and its consultants, the Architect and its consultants, the Construction Manager and its consultants, separate contractors, and their respective board members, officers, representatives, contractors, agents, and employees, in both individual and official capacities ("Indemnitees"), against all suits, claims, damages, losses, and expenses, including but not limited to attorney's fees, caused by, arising out of, resulting from, or incidental to, the performance of the Work by Contractor, its Subcontractors, vendors, or suppliers, including, without limitation, any such suit, claim, damage, loss, or expense attributable to, without limitation, bodily injury, sickness, disease, death, alleged patent violation or copyright infringement, or to injury to or destruction of tangible property (including damage to the Work itself) including the loss of use resulting therefrom, except to the extent caused by the sole negligence, active negligence, or willful misconduct of the Indemnitees, and/or to any extent that would render these provisions void or unenforceable. This agreement and obligation of Contractor shall not be construed to negate, abridge, or otherwise reduce any right or obligation of indemnity that would otherwise exist as to any party or person described herein. This indemnification, defense, and hold harmless obligation includes any failure or alleged failure by Contractor to comply with any provision of law, any failure or alleged failure to timely and properly fulfill all of its obligations under the Contract Documents in strict accordance with their terms, and without limitation, any stop payment notice actions or liens, including liens by the California Department of Labor Standards Enforcement.

14.2.2. Contractor shall give prompt notice to the District in the event of any injury (including death), loss, or damage included herein. Without limitation of the provisions herein, if Contractor's agreement to indemnify, defend, and hold harmless the Indemnitees as provided herein against liability for damage arising out of bodily injury to persons or damage to property caused by or resulting from the negligence of any of the Indemnitees shall to any extent be or be determined to be void or unenforceable, it is the intention of the parties that these circumstances shall not otherwise affect the validity or enforceability of Contractor's agreement to indemnify, defend, and hold harmless the rest of the Indemnitees, as provided herein, and in the case of any such suits, claims, damages, losses, or expenses caused in part by the default, negligence, or act or omission of Contractor, any Subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, and in part by any of the Indemnitees, Contractor shall be and remain fully liable on its agreements and obligations herein to the full extent permitted by law.

14.2.3. In any and all claims against any of the Indemnitees by any employee of Contractor, any Subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, Contractor's indemnification obligation herein shall not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for Contractor or

any Subcontractor under workers' compensation acts, disability benefit acts, or other employee benefit acts.

14.2.4. The defense and indemnification obligations hereunder shall survive the Completion of Work, including the warranty/guarantee period, and/or the termination of the Agreement.

15. TIME

15.1. Notice to Proceed

District may issue a Notice to Proceed as indicated in the Instructions to Bidders.

15.2. Hours of Work

Work shall be performed during regular working hours as permitted by the appropriate governmental agency except that in the event of an emergency, or when required to complete the Work in accordance with job progress, Work may be performed outside of regular working hours with the advance written consent of the District and approval of any required governmental agencies. Contractor and Subcontractors shall continuously furnish sufficient forces to ensure the performance of the Work in accordance with the Construction Schedule.

15.3. Progress and Completion

15.3.1. Time of the Essence

Time limits stated in the Contract Documents are of the essence to the Contract. By executing the Agreement, Contractor confirms that the Contract Time is a reasonable period for performing the Work.

15.3.2. No Commencement Without Insurance

15.3.2.1. Contractor shall not commence operations on the Project or elsewhere prior to the effective date of insurance and bonds. The date of commencement of the Work shall not be changed by the effective date of such insurance. If Contractor commences Work without insurance and bonds, all Work is performed at Contractor's peril and shall not be compensable until and unless Contractor secures bonds and insurance pursuant to the terms of the Contract Documents and subject to District's claim for damages.

15.4. Schedule

Contractor shall provide to District, Construction Manager, and Architect a schedule in conformance with the Contract Documents and as required in the Notice to Proceed and the Contractor's Submittals and Schedules section of these General Conditions.

15.5. Expeditious Completion

The Contractor shall proceed expeditiously with adequate forces and shall achieve Completion within the Contract Time.

16. EXTENSIONS OF TIME –

16.1. Contractor's Notice of Delay

16.1.1. In addition to the requirements indicated in this subsection, Contractor shall submit any request for an adjustment of the Contract Price or the Contract Time through the Change Order provisions in

these General Conditions.

16.1.2. Contractor shall, within **FIVE (5)** calendar days of any delay impacting the critical path in completing the Work, notify District in writing of the causes of the delay including documentation and facts explaining the delay.

16.1.3. Any request by Contractor for an adjustment of the Contract Price or the Contract Time for a delay shall be submitted in accordance with the provisions in the Contract Documents governing changes in Work. When requesting time, requests must be submitted with full justification and documentation. Such justification must be based on the official Construction Schedule as updated at the time of occurrence of the delay or execution of Work related to any changes to the Scope of Work.

16.1.4. Any claim for delay must include the following information as support, without limitation:

16.1.4.1. Duration. The duration of the activity relating to the changes in the Work and the resources (manpower, equipment, material, etc.) required to perform the activities within the stated duration.

16.1.4.2. Logical Ties / Fragnets. Specific logical ties to the Contract Schedule for the proposed changes and/or delay showing the activity/activities in the Construction Schedule that are affected by the change and/or delay. (A portion of any delay of seven (7) days or more must be provided.) Include a "fragnet" analysis for the portion of the schedule and the activities the Contractor contends are impacted by the delay.

16.1.4.3. Updated Construction Schedule. A recovery or updated Construction Schedule must be submitted.

16.1.5. District shall review the facts and extent of any noticed delay and may grant Contract Time extension(s) of time for completing Work when, in the District's judgment, the findings of fact justify an extension.

16.1.6. Extension(s) of time shall apply only to that portion of Work affected by delay, and shall not apply to other portions of Work not so affected.

16.1.7. An extension of time may only be granted if Contractor has timely submitted the updated Construction Schedule as required herein.

16.1.8. Following submission of a notice of delay, the District may determine whether the delay is to be considered:

16.1.8.1. Excusable and Compensable, Excusable and Non-Compensable, or Unexcused;

16.1.8.2. How long the delay continues; and

16.1.8.3. To what extent the prosecution and Completion of the Work might be delayed thereby.

16.1.9. Contractor's failure to request adjustment(s) of the Contract Time in strict conformity with applicable provisions of the Contract Documents shall be deemed Contractor's waiver of its right to assert a claim for a delay.

16.1.10. Limitations Upon Adjustment of Contract Time on Account of Delays. Any adjustment of the Contract Time on account of an Excusable Delay or a Compensable Delay shall be limited as set forth herein. No adjustment of the Contract Time shall be made on account of any Excusable Delays or Compensable Delays unless those delay(s) actually and directly impact Work or Work activities on the

critical path of the then current and updated approved Construction Schedule as of the date on which a delay first occurs. The District shall not be deemed in breach of, or otherwise in default of any obligation hereunder, if the District shall deny a request by the Contractor for an adjustment of the Contract Time for any delay that does not actually and directly impact Work on the then current and updated approved Construction Schedule. In submitting a request for an adjustment of Contract Time, and as a condition precedent to the District's review of that request, Contractor shall insert into the then current and updated approved Construction Schedule a "fragnet" analysis representing the event that Contractor claims to result in delay to the critical path as depicted in the updated approved Construction Schedule. If an Excusable Delay and a Compensable Delay occur concurrently, the maximum extension of the Contract Time shall be the number of days from the commencement of the first delay to the cessation of the delay that ends last. If an Unexcused Delay occurs concurrently with either an Excusable Delay or a Compensable Delay, the maximum extension of the Contract Time shall be the number of days, if any, which the Excusable Delay or the Compensable Delay exceeds the period of time of the Unexcused Delay.

16.2. Excusable and Compensable Delay(s)

16.2.1. Contractor is **not** entitled to additional compensation for any delay, even a delay caused by Adverse Weather or an Excusable Delay, unless **all** of the following conditions are met:

- 16.2.1.1.** The District is responsible for the delay;
- 16.2.1.2.** The delay is unreasonable under the circumstances involved and impacts the critical path of the Work and extends the most current Contract Completion date;
- 16.2.1.3.** The delay was not within the contemplation of District and Contractor;
- 16.2.1.4.** Contractor complies with the Change Order procedures, and if necessary, the Claims procedures of the Contract Documents;
- 16.2.1.5.** The delay could not have been avoided or mitigated by the Contractor's care, prudence, foresight, and diligence;
- 16.2.1.6.** The delay extends the most current Contract Completion date; and
- 16.2.1.7.** The delay is not concurrent with a Contractor-caused delay or other type of Excusable Delay.

16.2.2. In accordance with California Public Contract Code section 7102, if the Contractor's progress is delayed by the events described in the preceding subsection, Contractor shall not be precluded from the recovery of damages directly and proximately resulting therefrom. In that event, Contractor's damages, if any, shall be limited to direct, actual and unavoidable additional costs of labor, materials or construction equipment directly resulting from that delay, and shall exclude special, indirect or consequential damages. In no event shall Contractor seek costs or damages for delays, interruptions, hindrances or disruptions to the Work for on-Site or off-Site costs or damages based upon formulas, e.g. Eichleay or other formula. Except as expressly provided for herein, Contractor shall not have any other claim, demand or right to adjustment of the Contract Price arising out of delay, interruption, hindrance or disruption to the progress of the Work. Adjustments to the Contract Price and the Contract Time, if any, on account of Changes to the Work or Suspension of the Work shall be governed by the applicable provisions of the Contract Documents, including without limitation, the "Changes in the Work" section and the percentages in the "Format for Proposed Change" section of these General Conditions.

16.3. Excusable and Non-Compensable Delay(s)

16.3.1. An "Excusable Delay" shall mean an interruption of the Work beyond the reasonable control of

the Contractor and that:

16.3.1.1. Could have not been avoided by the Contractor exercising care, prudence, foresight, and diligence, and

16.3.1.2. Actually extended the most current Project Completion date.

16.3.2. The Contractor may be entitled to an extension of the Project Completion date if there is an Excusable Delay, but the Contractor shall not be entitled to additional compensation for an Excusable Delay.

16.3.3. Excusable Delays are limited to interruptions that satisfy the above requirements and that are acts of God; acts of a public enemy; fires; floods; windstorms; tornadoes; earthquakes; wars; riots; insurrections; epidemics; quarantine restrictions; strikes; lockouts; fuel shortages; freight embargoes; and Adverse Weather that satisfies the requirements herein.

16.3.4. Contractor is aware that governmental agencies and utilities, including, without limitation, the Division of the State Architect, the Department of General Services, gas companies, electrical utility companies, water districts, and other agencies may have to approve Contractor-prepared drawings or approve a proposed installation. Contractor shall include in its bid, time for possible review of its drawings and for reasonable delays and damages that may be caused by such agencies. Contractor is not entitled to make a claim for damages or delays or an Excusable Delay arising from the review of Contractor's drawings or other approvals from the Division of the State Architect, the Department of General Services, gas companies, electrical utility companies, water districts, and other agencies.

16.3.5. Neither the financial resources of the Contractor or any person or entity directly or indirectly engaged by the Contractor in performance of any portion of the Work shall be deemed conditions beyond the control of the Contractor. If an event of Excusable Delay occurs, the Contract Time shall be subject to adjustment hereunder only if the Contractor establishes: (i) full compliance with all applicable provisions of the Contract Documents relative to the method, manner and time for Contractor's notice and request for adjustment of the Contract Time; (ii) that the event(s) forming the basis for Contractor's request to adjust the Contract Time are outside the reasonable control and without any fault or neglect of the Contractor or any person or entity directly or indirectly engaged by Contractor in performance of any portion of the Work; and (iii) that the event(s) forming the basis for Contractor's request to adjust the Contract Time directly and adversely impacted the critical path of the Work as indicated in the approved Construction Schedule or the most recent updated approved Construction Schedule relative to the date(s) of the claimed event(s) of Excusable Delay.

16.3.6. Computation of Time / Adverse Weather

16.3.6.1. The Contractor will only be allowed a time extension for Adverse Weather conditions if requested by Contractor within five (5) calendar days of the Adverse Weather event, and only if all of the following conditions are met – thereby making the resulting delay an Excusable Delay.

16.3.6.1.1. The weather conditions constitute Adverse Weather, as defined herein and further specified in the Special Conditions;

16.3.6.1.2. Contractor can verify that the Adverse Weather caused delays in excess of five (5) hours of the indicated labor required to complete the scheduled tasks of Work on the day affected by the Adverse Weather;

16.3.6.1.3. The Contractor's crew is dismissed as a result of the Adverse Weather; and

16.3.6.1.4. The number of days of delay for the month exceed those indicated in the

Special Conditions.

16.3.6.2. A day-for-day extension will only be allowed for those days in excess of those indicated in the Special Conditions.

16.3.6.3. The Contractor shall work seven (7) days per week, if necessary, irrespective of inclement weather, to maintain access and the Construction Schedule, and to protect the Work under construction from the effects of Adverse Weather, all at no further cost to the District.

16.3.6.4. The Contract Time has been determined with consideration given to the average climate weather conditions prevailing in the County in which the Project is located.

16.4. Unexcused Delay(s) – Liquidated Damages

16.4.1. Unexcused Delays refer to any delay to the progress of the Work caused by events or factors other than those specifically identified in the “Excusable and Compensable Delay(s)” or the “Excusable and Non-Compensable Delay(s)” sections above. Neither the Contract Price nor the Contract Time shall be adjusted on account of Unexcused Delays.

16.4.2. Contractor and District hereby agree that the exact amount of damages for failure to complete the Work within the time specified is extremely difficult or impossible to determine. If the Work is not completed within the time specified in the Contract Documents, it is understood that the District will suffer damage. It being impractical and unfeasible to determine the amount of actual damage, it is agreed the Contractor shall forfeit and pay to District as fixed and liquidated damages, and not as a penalty, the amount set forth in the Agreement for each calendar day of delay in Completion. Contractor and its Surety shall be liable for the amount thereof pursuant to Government Code section 53069.85.

16.4.3. Contractor shall not forfeit or pay liquidated damages for an Excusable Delay or an Excusable and Compensable Delay.

17. CHANGES IN THE WORK

17.1. No Changes Without Authorization

17.1.1. There shall be no change whatsoever in the Drawings, Specifications, or in the Work without an executed Change Order, a written Unilateral Change Order, or a written Force Account Directive authorized by the District as herein provided. District shall not be liable for the cost of any extra work, any changes to the Contract Time, or any substitutions, changes, additions, omissions, or deviations from the Drawings and Specifications unless the District's governing board has authorized the same and the cost thereof has been approved in writing by an executed Change Order, a written Unilateral Change Order, or a written Force Account Directive.

17.1.2. Verbal Order of Change in the Work. Any verbal order, direction, instruction, interpretation, or determination from the District, the Project Inspector or the Architect which in the opinion of the Contractor causes any change to the scope of the Work, or otherwise requires an adjustment to the Contract Price or the Contract Time, shall be treated as a Change only if the Contractor gives the Architect written notice within three (3) Business Days of the order, directions, instructions, interpretation or determination and prior to acting in accordance therewith. Time is of the essence in Contractor's written notice pursuant to the preceding sentence so that the District can promptly investigate and consider alternative measures to address the order, direction, instruction, interpretation or determination giving rise to Contractor's notice. Accordingly, Contractor acknowledges that its failure, for any reason, to give written notice within three (3) Business Days of any verbal order, direction, instruction, interpretation or determination shall be deemed Contractor's waiver of any right to assert or claim any entitlement to an adjustment of the Contract Time or the Contract Price on account of that verbal order, direction,

instruction, interpretation or determination. The written notice shall state the date, circumstances, extent of adjustment to the Contract Price or the Contract Time, if any, requested, and the source of the verbal order, directions, instructions, interpretation or determination that the Contractor regards as a Change. Unless the Contractor acts in strict accordance with this procedure, any verbal order, direction, instruction, interpretation or determination shall not be treated as a Change and the Contractor hereby waives any claim for any adjustment to the Contract Price or the Contract Time on account thereof.

17.1.3. The Surety, in executing and providing the Performance Bond and the Payment Bond, shall be deemed to have expressly agreed to any change to the Contract and to any extension of time made by reason thereof.

17.1.4. No extension of time for performance of the Work shall be allowed hereunder unless claim for such extension is made at the time changes in the Work are ordered, and such time duly adjusted in writing in the Change Order, Unilateral Change Order, or Force Account Directive. The provisions of the Contract Documents shall apply to all such changes, additions, and omissions with the same effect as if originally embodied in the Drawings and Specifications.

17.1.5. Contractor shall perform immediately all work that has been authorized by a fully executed Change Order, Unilateral Change Order, or Force Account Directive. Contractor shall be fully responsible for any and all delays and/or expenses caused by Contractor's failure to expeditiously perform this Work and Contractor's failure or refusal to so proceed with that Work may be deemed to be Contractor's default of a material obligation of the Contractor under the Contract Documents.

17.1.6. Should any Change Order result in an increase in the Contract Price, the cost of that Change Order shall be agreed to, in writing, in advance by Contractor and District and be subject to the monetary limitations set forth in Public Contract Code section 20118.4. In the event that Contractor proceeds with any change in Work without a Change Order executed by the District, Unilateral Change Order, or Force Account Directive, Contractor waives any claim of additional compensation or time for that additional work.

17.1.7. Contractor understands, acknowledges, and agrees that the reason for District authorization is so that District may have an opportunity to analyze the Work and decide whether the District shall proceed with the Change Order or alter the Project so that a change in Work becomes unnecessary.

17.1.8. In an emergency affecting safety of life or of work or of adjoining property, Contractor, without special instruction or authorization, shall act, at its discretion, to prevent all threatened loss or injury. Any compensation or time claimed by Contractor on account of emergency work shall be determined as indicated herein as a PCO.

17.1.9. No payments will be made, nor will District accept proposed change orders until the Contractor has complied with all the requirements of the Escrow of Bid Documentation document (if applicable).

17.2. Architect Authority

The Architect will have authority to order minor changes in the Work not involving any adjustment in the Contract Price, or an extension of the Contract Time, or a change that is inconsistent with the intent of the Contract Documents. These changes shall be effected by written Change Order, Unilateral Change Order, or by Architect's response(s) to RFI(s).

17.3. Change Orders

17.3.1. A Change Order is a written instrument prepared and issued by the District and/or the Architect and signed by the District (as authorized by the District's governing board), the Contractor, the Architect, and approved by the Project Inspector (if necessary) and DSA (if necessary), stating their agreement

regarding all of the following:

- 17.3.1.1. A description of a change in the Work;
- 17.3.1.2. The amount of the adjustment in the Contract Price, if any; and
- 17.3.1.3. The extent of the adjustment in the Contract Time, if any.

17.3.2. If a Change Order is required to be approved by DSA, the District may call it a Construction Change Document.

17.3.3. If the District approves of a Change, the District or the Architect shall provide a written Change Order to the Contractor describing the Change and setting forth the adjustment to the Contract Time and the Contract Price, if any, on account of that Change. All Change Orders shall be full payment and final settlement of all rights for direct, indirect and consequential costs, including without limitation, costs of delays or impacts related to, or arising out of, items covered and affected by the Change Order, as well as any adjustments to the Contract Time. Any demand or request for an adjustment to the Contract Time or the Contract Price relating to any Change incorporated into a Change Order not presented by the Contractor for inclusion in the Change Order shall be deemed waived. The Contractor shall execute the Change Order prepared pursuant to the foregoing. After the Change Order has been prepared and forwarded to the Contractor for execution, the Contractor shall not modify or amend the form or content of such Change Order, or any portion thereof.

17.4. Unilateral Change Orders

17.4.1. A Unilateral Change Order is a written order prepared and issued by the District, the Construction Manager, and/or the Architect and signed by the District and the Architect, directing a change in the Work. The District may as provided by law, by Unilateral Change Order and without invalidating the Contract, order changes in the Work consisting of additions, deletions, or other revisions. Any dispute as to the sum of the Unilateral Change Order or timing of payment shall be resolved pursuant to the Payment provisions and the Claims and Disputes provisions herein. **A Unilateral Change Order is NOT a Construction Change Document (which is defined above as a Change Order that DSA must approve).**

17.4.2. The District may issue a Unilateral Change Order in the absence of agreement on the terms of a Change Order.

17.5. Force Account Directives

17.5.1. When work, for which a definite price has not been agreed upon in advance, is to be paid for on a force account basis, all direct costs necessarily incurred and paid by the Contractor for labor, material, and equipment used in the performance of that Work, shall be subject to the approval of the District and compensation will be determined as set forth herein.

17.5.2. District will issue a Force Account Directive to proceed with the Work on a force account basis, and a not-to-exceed budget will be established by District.

17.5.3. All requirements regarding direct cost for labor, labor burden, material, equipment, and markups on direct costs for overhead and profit described in this section shall apply to Force Account Directives. However, District will only pay for actual costs verified in the field by the District or its authorized representative(s) on a daily basis.

17.5.4. Contractor shall be responsible for all cost related to the administration of Force Account Directive. The markup for overhead and profit for Contractor modifications shall be full compensation to

the Contractor to administer Force Account Directive.

17.5.5. Contractor shall notify District or its authorized representative(s) at least twenty-four (24) hours prior to proceeding with any of the force account work. Furthermore, the Contractor shall notify the District when it has consumed eighty percent (80%) of the budget, and shall not exceed the budget unless specifically authorized in writing by the District. Contractor will not be compensated for force account work in the event that Contractor fails to timely notify the District regarding the commencement of force account work, or exceeding the force account budget.

17.5.6. Contractor shall diligently proceed with the work, and on a daily basis, submit a daily force account report on a form supplied by the District no later than 5:00 p.m. each day. The report shall contain a detailed itemization of the daily labor, material, and equipment used on the force account work only. The names of the individuals performing the force account work shall be included on the daily force account reports. The type and model of equipment shall be identified and listed. District will review the information contained in the reports, and sign the reports no later than the next work day, and return a copy of the report to Contractor for its records. District will not sign, nor will Contractor receive compensation for work District cannot verify. Contractor will provide a weekly force account summary indicating the status of each Force Account Directive in terms of percent complete of the not-to-exceed budget and the estimated percent complete of the work.

17.5.7. In the event Contractor and District reach a written agreement on a set cost for the work while the work is proceeding based on a Force Account Directive, the Contractor's signed daily force account reports shall be discontinued and all previously signed reports shall be invalid.

17.6. Price Request

17.6.1. Definition of Price Request. A Price Request ("PR") is a written request prepared by the Architect requesting the Contractor to submit to the District and the Architect an estimate of the effect of a proposed change in the Work on the Contract Price and the Contract Time.

17.6.2. Scope of Price Request. A Price Request shall contain adequate information, including any necessary Drawings and Specifications, to enable Contractor to provide the cost breakdowns required herein. Contractor shall not be entitled to any additional compensation for preparing a response to a Price Request, whether ultimately accepted or not.

17.6.3. Contractor shall not consider Price Requests to be instructions either to stop work in progress or to execute the proposed change.

17.6.4. Within the time specified in Price Request after receipt of Price Request, Contractor shall submit a quotation estimating cost adjustments to the Contract Price and the Contract Time necessary to execute the change, with the following documentation and information:

17.6.4.1. Include a list of quantities of products required or eliminated and unit costs, with total amount of purchases and credits to be made. If requested, furnish survey data to substantiate quantities.

17.6.4.2. Indicate applicable taxes, delivery charges, equipment rental, and amounts of trade discounts.

17.6.4.3. Include costs of labor and supervision directly attributable to the change.

17.6.4.4. Include an updated Contractor's Construction Schedule that indicates the effect of the change, including, but not limited to, changes in activity duration, start and finish times, and activity relationship. Use available total float before requesting an extension of the Contract Time.

17.7. Proposed Change Order

17.7.1. Proposed Change Order. The Contractor may issue a Proposed Change Order (“PCO”), only as a written request prepared by it to the District and the Architect, requesting that the District issue a Change Order based upon a proposed change to the Work.

17.7.2. Changes in Contract Price. A PCO shall include breakdowns pursuant to the provisions herein to validate any change in Contract Price and include all reasonable documentation as required herein.

17.7.3. Changes in Time. A PCO shall also include any changes in time required to complete the Project. Include an updated Contractor's Construction Schedule that indicates the effect of the change, including, but not limited to, changes in activity duration, start and finish times, and activity relationships. Use available total float before requesting an extension of the Contract Time. Any additional time requested shall not be the number of days to make the proposed change, but must be based upon the impact to the Construction Schedule as defined in the Contract Documents. If Contractor fails to request a time extension in a PCO, then the Contractor is thereafter precluded from requesting time and/or claiming a delay. If the Contractor is requesting additional time and believes that time is both Excusable and Compensable, then the Contractor must provide detailed documentation that supports its position and that addresses all the components of the “Excusable and Compensable Delay(s)” section above.

17.7.4. Unknown and/or Unforeseen Conditions. If Contractor submits a PCO requesting an increase in Contract Price and/or Contract Time that is based at least partially on Contractor’s assertion that Contractor has encountered unknown and/or unforeseen condition(s) on the Project, then Contractor shall base the PCO on provable information that, beyond a reasonable doubt and to the District’s satisfaction, demonstrates that the unknown and/or unforeseen condition(s) were actually unknown and/or unforeseen and that the condition(s) were reasonably unknown and/or unforeseen. If not, the District shall deny the PCO and the Contractor shall complete the Project without any increase in Contract Price and/or Contract Time based on that PCO.

17.7.5. Time to Submit PCO. Contractor shall submit its PCO within five (5) days of the date Contractor discovers, or reasonably should discover, the circumstances giving rise to the proposed change order, unless additional time to submit a proposed change order is granted in writing by the District. Time is of the essence in Contractor's written notice pursuant to the preceding sentence so that the District can promptly investigate and consider alternative measures to address the basis for the PCI. Accordingly, Contractor acknowledges that its failure, for any reason, to give written notice (with Supporting Documentation to permit the District's review and evaluation) within this time frame shall be deemed Contractor's waiver, release, discharge and relinquishment of any right to assert or claim any entitlement to an adjustment of the Contract Time or the Contract Price on account of the circumstances giving rise to the PCO.

17.8. Format for Proposed Change Order

17.8.1. The following “Format For Proposed Change For Subcontractor Performed Work” and “Format For Proposed Change For Contractor Performed Work” shall be used as applicable by the District and the Contractor (e.g. Change Orders, PCO’s) to communicate proposed additions and deductions to the Contract, supported by attached documentation.

FORMAT FOR PROPOSED CHANGE FOR SUBCONTRACTOR PERFORMED WORK

	<u>SUBCONTRACTOR PERFORMED WORK</u>	<u>ADD</u>	<u>DEDUCT</u>
(A)	<u>Labor Charge</u> 1. Hours. Attach total itemized hours. 2. Rate. This shall be no more than the Straight-Time Total Hourly Rate as determined by the Department of Industrial Relations (“DIR”) for the applicable labor category.		
(B)	<u>Labor Burden & Worker’s Compensation Charge</u> 1. This shall be no more than twenty percent (20%) of item (A) , the Labor Charge. 2. This shall be the total cumulative charge permitted for all Subcontractors or all labor performed by the Subcontractor or Subcontractor’s Subcontractor(s) (i.e., all “lower-tier” Subcontractor(s)).		
(C)	<u>Subtotal (A+B)</u>		
(D)	<u>Material Charge</u> Attach itemized quantity and unit cost plus sales tax and invoice(s) from vendor(s).		
(E)	<u>Equipment Charge</u> Attach invoice(s) from supplier(s).		
(F)	<u>Subtotal (C+D+E)</u>		
(G)	<u>Subcontractor’s Overhead and Profit Charge</u> 1. This shall be no more than five percent (8%) of item (F) . 2. This shall be the total cumulative mark-up permitted for the Subcontractor and Subcontractor’s Subcontractor(s) (i.e., all “lower-tier” Subcontractor(s)).		
(H)	<u>Subtotal (F+G)</u>		
(I)	<u>Contractor’s Overhead, Profit, Bond and Insurance</u> 1. This shall be no more than six percent (6%) of Item (F) . 2. This shall be the total mark-up permitted for Contractor.		
(J)	<u>TOTAL (H+I)</u>		
(K)	<u>Time</u>	_____ Days

17.8.2. All Proposed Change Order requests by Contractor for a change shall include a complete itemized breakdown with the following detail:

17.8.2.1. Labor. Labor breakdown by trade classification, wage rates, and estimated hours. Labor costs shall only include fringe benefits indicated by governing trade organizations. Wages shall not exceed current prevailing wages in the locality for performance of the changes.

17.8.2.1.1. The Contractor's or Subcontractors' labor burden and Workers' Compensation premium shall only be charged as indicated herein. In no event shall Contractor include any other charges than as indicated herein without the prior written approval of the District.

17.8.2.2. Material. Material quantities, and types of products, and transportation costs, if applicable.

17.8.2.3. Equipment. Equipment breakdown by make, type, size, rental rates (if not owned), equipment hours and transportation costs, if applicable.

17.8.2.3.1. The equipment costs shall not exceed one hundred percent (100%) of the Association of Equipment Distributors (AED) rental rates or Caltrans rates, whichever is less. Hourly, daily, weekly, or monthly rates shall be used, whichever is lower. Hourly rates including operator shall not be used.

17.8.2.3.2. The time to be paid for equipment shall be the actual time that the equipment is in productive operation on the Work or idled as a result of the event or circumstance giving rise to the Proposed Change Order. In computing the hourly rental of equipment, any time less than thirty (30) minutes shall be considered one-half (1/2) hour. No payment will be made for time while equipment is inoperative due to breakdown, or for non-workdays. In addition, the rental time shall not include the time required to move the equipment to and from the project site. No mobilization or demobilization will be allowed for equipment already on site. If such equipment is not moved by its own power, then loading and transportation costs will be paid in lieu of rental time thereof. However, neither moving time nor loading and transportation costs will be paid if the equipment is used on the Project Site in any other way than upon the work directly related to the event or circumstance giving rise to the Proposed Change Order.

17.8.2.3.3. Individual pieces of equipment having a replacement value of one thousand dollars (\$1,000) or less shall be considered to be small tools or small equipment, and no payment will be made since the costs of these tools and equipment is included as part of the markup for overhead and profit defined herein.

17.8.2.3.4. Payment to the Contractor for the use of equipment as set forth above shall constitute full compensation to the Contractor for the cost of fuel, power, oil, lubricants, supplies, small equipment, necessary attachments, repairs and maintenance of any kind, depreciation, storage, insurance, labor (except for equipment operators), and any and all costs to the Contractor incidental to the use of the equipment.

17.8.2.3.5. Should Contractor, or any of its owners, officers, directors or agents, hold any ownership interest in any company, organization, association or corporation from whom rental equipment is secured. Contractor shall immediately notify District of such and the price set for any such rental shall be agreed upon in advance by the Contractor and the District.

17.8.2.3.6. Overhead, Profit, Bond and Insurance Costs. Markup for overhead and profit, which shall be used to compensate Contractor for all costs for all administration, general conditions, and supervision, including, without limitation:

17.8.2.3.6.1. All home office overhead, field office overhead, field office personnel including, but not limited to, principals, project managers, superintendents, supervisory foremen, estimators, project engineers, detailers, draftsmen, schedulers, consultants, watchmen, payroll clerks, administrative assistants, labor compliance costs and secretaries.

17.8.2.3.6.2. All field and field office expenses including, but not limited to, field trailers, parking, storage sheds, office equipment and supplies, telephone service and long distance telephone calls, computers, fax machines, temporary utilities, sanitary facilities and services, janitorial services, small tools and equipment with a cost under \$1000 each, portable scaffolding, blocking, shores, appliances, job vehicles, security and fencing, conformance to regulatory requirements including compliance to safety regulations, safety programs and meetings, cartage, warranties, As-Built Drawings, as well as any related maintenance costs.

17.8.2.3.6.3. Administrative functions such as, but not limited to, reviewing, coordinating, distributing, processing, posting, recording, estimating, negotiating, expediting, engineering, drawing, detailing, revising shop drawings, carting, cleaning, protecting the work, and other incidental Work related to the change.

17.8.2.3.6.4. All other costs and taxes required to be paid, but not included under direct costs as defined above including, without limitation, payroll taxes, social security, etc.

17.8.2.3.6.5. All costs for Contractor's bonds and insurance.

17.8.2.3.6.6. Taxes: Federal excise tax shall not be included. District will issue an exemption on request.

17.8.2.3.7. Contract Time. Justification for any adjustment in Contract Time including a schedule analysis identifying critical schedule activities delayed by the request. Contract Time shall be extended or reduced by Change Orders, Unilateral Change Orders, or Force Account Directives for a period of time commensurate with the time reasonably necessary to perform a Change. This time must be requested in writing by the Contractor with the Price Request, PCO, or expressly in writing as part of its documentation for Unilateral Change Orders, or Force Account Directives. The Contractor shall justify any Contract Time extension by submittal of a schedule analysis as required in this Changes section of these General Conditions accurately portraying the impact of the change on the critical path of the Construction Schedule. Changes performed within available float shall not justify an extension to the Contract Time. The District shall make the final determination of the amount of Contract Time to allocate to any Change.

17.8.2.4. Supporting Documentation. Contractor shall include with each PCO, along with the itemized breakdown as required herein, reasonable documentation substantiating the requested change in the Contract Price and Contract Time. If the District deems Contractor's supporting documentation incomplete or inadequate to substantiate the requested change to the Contract Price and Contract Time, the District may request that Contractor supplement the PCO with additional, reasonable supporting documentation.

17.9. Change Order Certification

17.9.1. All Change Orders and PCOs shall include the following certification by the Contractor. The Parties acknowledged that if a Change Order is approved that does not include this language, that Change Order shall be deemed to include this certification language:

The Contractor approves the foregoing as to the changes, if any, and the price specified for each item and the extension of time allowed, if any, for completion of the entire Work as stated herein, and agrees to furnish all

labor, materials, and service, and perform all work necessary to complete all additional work specified for the consideration stated herein. Submission of sums which have no basis in fact or which Contractor knows are false are at the sole risk of Contractor and may be a violation of the False Claims Act set forth under Government Code section 12650 et seq. It is understood that the changes herein to the Contract shall only be effective when approved by the governing board of the District. It is expressly understood that the value of the extra Work or changes includes all of the Contractor's costs, expenses, field overhead, home office overhead, profit, both direct and indirect, resulting from additional time required on the Project or resulting from delay to the Project. Any costs, expenses, damages, or time extensions not included are deemed waived.

17.10. Determination of Change Order Cost

17.10.1. The amount of the increase or decrease in the Contract Price from a Change Order, if any, shall be determined in one or more of the following ways as applicable to a specific situation and at the District's discretion:

17.10.1.1. District acceptance of a PCO;

17.10.1.2. By agreement between District and Contractor.

17.10.1.3. By unit prices or alternates contained in Contractor's original bid. If the Bid for the Work included proposal(s) for Alternate Bid Item(s), during Contractor's performance of the Work, the District may elect to add any such Alternate Bid Item(s) if the that item did not form a basis for award of the Contract or delete any such Alternate Bid Item(s) if that item formed a basis for award of the Contract. If the District elects to add or delete an Alternate Bid Item(s) pursuant to the foregoing, the cost or credit for that Alternate Bid Item(s) shall be as set forth in the Contractor's Bid, at the District's discretion. If any Alternate Bid Item is added or deleted from the Work pursuant to the foregoing, the Contract Time shall be adjusted by the number of days allocated for the added or deleted Alternate Bid Item in the Contract Documents; if days are not allocated for any Alternate Bid Item added or deleted pursuant to the foregoing, the Contract Time shall be equitably adjusted.

17.10.1.4. By the District, based upon actual and necessary costs incurred by the Contractor as determined by the District on the basis of the Contractor's records. Promptly upon determining the extent of adjustment to the Contract Price, the District shall notify the Contractor in writing of the same; the Contractor shall be deemed to have accepted the District's determination of the amount of adjustment to the Contract Price on account of a Change to the Work unless Contractor shall notify the District, in writing, not more than fifteen (15) days from the date of the District's written notice, of any objection to the District's determination. Failure of the Contractor to timely notify the District of Contractor's objections to the District's determination of the extent of adjustment to the Contract Price shall be deemed Contractor's acceptance of the District's determination and a waiver of any right or basis of the Contractor to thereafter protest or otherwise object to the District's determination. Notwithstanding any objection of the Contractor to the District's determination of the extent of any adjustment to the Contract Price pursuant to this provision, Contractor shall diligently proceed to perform and complete any such Change.

17.11. Deductive Change Orders

If Contractor offers a proposed amount for a deductive Change Order(s), Contractor shall include a minimum of five percent (5%) total overhead and profit to be deducted with the amount of the work of the Change Order(s). If Subcontractor work is involved, Subcontractors shall also include a minimum of five percent (5%) overhead and profit to be deducted with the amount of its deducted work, for a total

minimum of ten percent (10%) total overhead and profit to be deducted. Any deviation from this provision shall not be allowed.

17.12. Discounts, Rebates and Refunds

For purposes of determining the cost, if any, of any change, addition, or omission to the Work hereunder, all trade discounts, rebates, refunds, and all returns from the sale of surplus materials and equipment shall accrue and be credited to the Contractor, and the Contractor shall make provisions so that such discounts, rebates, refunds, and returns may be secured, and the amount thereof shall be allowed as a reduction of the Contractor's cost in determining the actual cost of construction for purposes of any change, addition, or omission in the Work as provided herein.

17.13. Accounting Records

With respect to portions of the Work performed by Change Orders, Unilateral Change Orders, or Force Account Directives, Contractor shall keep and maintain cost-accounting records satisfactory to the District, which shall be available to the District on the same terms as any other books and records Contractor is required to maintain pursuant to the Contract Documents.

17.14. Notice Required

If Contractor is seeking an adjustment in the Contract Price, or any extension in the Contract Time for Completion, it shall notify District pursuant to the provisions of the Contract Documents. No adjustment in the Contract Price or Contract Time shall be considered unless made in accordance with the Contract Documents. Contractor shall proceed to execute the Work even though the adjustment may not have been agreed upon. Any change in the Contract Price or extension of the Contract Time resulting from such contract adjustment shall only be authorized by a Change Order.

17.15. Applicability to Subcontractors

Any requirements under this Article shall be equally applicable to Change Orders, Unilateral Change Orders, or Force Account Directives issued to Subcontractors by the Contractor to the extent as required by the Contract Documents.

17.16. Alteration to Change Order Language

Contractor shall not alter Change Orders or reserve time in Change Orders. Contractor shall execute finalized Change Orders and proceed under the provisions herein with proper notice.

17.17. Failure of Contractor to Execute Change Order

Contractor shall be in default of the Contract if Contractor fails to execute a Change Order when the Contractor agrees with the addition and/or deletion of the Work in that Change Order.

18. REQUEST FOR INFORMATION

18.1. Any Request for Information ("RFI") shall reference all applicable Contract Document(s), including Specification section(s), detail(s), page number(s), drawing number(s), and sheet number(s), etc. Contractor shall make suggestions and interpretations of the issue raised by each RFI. An RFI cannot modify the Contract Price, Contract Time, or the Contract Documents.

18.2. Contractor shall be liable to the District for all costs incurred by the District associated with the processing, reviewing, evaluating and responding to any RFI, including without limitation, fees of the Architect and any other design consultant to the Architect or the District, that District reasonably

determines:

18.2.1. Does not reflect adequate or competent supervision or coordination by the Contractor or any Subcontractor; or

18.2.2. Does not reflect the Contractor's adequate or competent knowledge of the requirements of the Work or the Contract; or

18.2.3. Requests an interpretation or decision of a matter where the information sought is equally available to the Contractor; or

18.2.4. Is not justified for any other reason.

18.3. Prior to submitting the RFI, Contractor shall diligently review the Contract Documents for information responsive to the RFI, including information incorporated by reference. Contractor should not issue an RFI regarding information contained in or inferable from the Contract Documents, including information incorporated by reference. An RFI is invalid if the RFI response is contained in or inferable from the Contract Documents.

18.4. Contractor shall be responsible for preparing and submitting each RFI so as to not cause delay to the progress of the Work nor to cause any impact to the Contractor's labor productivity. An RFI may be considered untimely if not submitted within **Forty Eight (48) hours** of receipt from a Contractor's subcontractor. Untimely submission of any RFI will preclude Contractor from asserting any claims for delay or for labor impact against the District.

18.5. If the Contractor fails to timely notify the Architect in writing of any Conditions encountered and the Contractor proceeds to perform any portion of the Work containing or affected by such Conditions the Contractor shall bear all costs associated with or required to correct, remove, or otherwise remedy any portion of the Work affected thereby without adjustment of the Contract Time or the Contract Price. In requesting information of the District to address and resolve any conditions, the Contractor shall act with promptness in submitting any written request so as to allow the District a reasonable period of time to review, evaluate and respond to any request, taking into account the then current status of the progress and completion of the Work and the actual or potential impact of any conditions upon the completion of the Work within the Contract Time. The Contract Time shall not be subject to adjustment in the event that the Contractor shall fail to timely request information from the District.

19. PAYMENTS

19.1. Contract Price

19.1.1. The Contract Price is stated in the Agreement and, including authorized adjustments, is the total amount payable by the District to the Contractor for performance of the Work pursuant to the Contract Documents. If all or a portion of the Project is being funded by funds requiring approval by the State Allocation Board (SAB), payment may be subject to that approval being received, funding by the SAB, and funds being released by the Office of Public School Construction (OPSC).

19.2. Applications for Progress Payments

19.2.1. Procedure for Applications for Progress Payments

19.2.1.1. Application for Progress Payment

19.2.1.1.1. Not before the fifth (5th) day of each calendar month during the progress of the Work, Contractor shall submit to the District and the Architect an itemized Application for

Payment for Work completed in accordance with the Schedule of Values. The Application for Payment shall be notarized, if required, and supported by the following or each portion thereof unless waived by the District in writing:

- 19.2.1.1.1.1. The amount paid to the date of the Application for Payment to the Contractor, to all its Subcontractors, and all others furnishing labor, material, or equipment for its Contract;
- 19.2.1.1.1.2. The amount being requested by the Application for Payment by the Contractor on its own behalf and separately stating the amount requested on behalf of each of the Subcontractors and all others furnishing labor, material, and equipment under the Contract;
- 19.2.1.1.1.3. The balance that will be due to each of the entities after payment is made;
- 19.2.1.1.1.4. A certification that the As-Built Drawings and annotated Specifications are current;
- 19.2.1.1.1.5. An Itemized breakdown of Work performed;
- 19.2.1.1.1.6. An updated and acceptable construction schedule in conformance with the provisions herein;
- 19.2.1.1.1.7. The additions to and subtractions from the Contract Price and Contract Time;
- 19.2.1.1.1.8. A total of the retention held;
- 19.2.1.1.1.9. The material invoices, evidence of equipment purchases, rentals, and other support and details of cost as the District may require from time to time;
- 19.2.1.1.1.10. The percentage of completion of the Contractor's Work by line item;
- 19.2.1.1.1.11. The Schedule of Values updated from the preceding Application for Payment;
- 19.2.1.1.1.12. A duly completed and executed conditional waiver and release upon progress payment compliant with Civil Code section 8132 from each subcontractor of any tier and supplier to be paid from the current progress payment;
- 19.2.1.1.1.13. A duly completed and executed unconditional waiver and release upon progress payment compliant with Civil Code section 8134 from each subcontractor of any tier and supplier that was paid from the previous progress payment; and
- 19.2.1.1.1.14. A certification by the Contractor of the following:

The Contractor warrants title to all Work performed as of the date of this payment application. The Contractor further warrants that all Work performed as of the date of this payment application is free and clear of liens, claims, security interests, or encumbrances in favor of the Contractor, Subcontractors, material and equipment suppliers, workers, or other persons or entities making a claim by reason of having provided labor, materials, and equipment relating to the Work, except those of which the District has been informed.
- 19.2.1.1.1.15. If requested by the District, a third party, or as required by the California

Department of Industrial Relations, all requested or required certified payroll record ("CPR(s)") for each journeyman, apprentice, worker, or other employee employed by the Contractor and/or each Subcontractor in connection with the Work for the period of the Application for Payment.

19.2.1.1.2. Except as expressly provided for herein, no payments shall be made by the District on account of any item of the Work, including without limitation, materials or equipment that, at the time of the Contractor's submittal of an Application for Progress Payment, has/have not been incorporated into and made a part of the Work.

19.2.1.1.3. Contractor shall be subject to the False Claims Act set forth under Government Code section 12650 et seq., for information provided with any Application for Progress Payment.

19.2.2. Prerequisites for Progress Payments

19.2.2.1. First Payment Request: The following items, if applicable, must be completed before District will accept and/or process Contractor's first payment request:

- 19.2.2.1.1.** Installation of the Project sign;
- 19.2.2.1.2.** Installation of field office;
- 19.2.2.1.3.** Installation of temporary facilities and fencing;
- 19.2.2.1.4.** Schedule of Values;
- 19.2.2.1.5.** Contractor's Construction Schedule;
- 19.2.2.1.6.** Schedule of unit prices, if applicable;
- 19.2.2.1.7.** Submittal Schedule;
- 19.2.2.1.8.** Receipt by Architect of all submittals due as of the date of the payment application;
- 19.2.2.1.9.** Copies of necessary permits;
- 19.2.2.1.10.** Copies of authorizations and licenses from governing authorities;
- 19.2.2.1.11.** Initial progress report;
- 19.2.2.1.12.** Surveyor qualifications;
- 19.2.2.1.13.** Written acceptance of District's survey of rough grading, if applicable;
- 19.2.2.1.14.** List of all Subcontractors, with names, license numbers, telephone numbers, and Scope of Work;
- 19.2.2.1.15.** All bonds and insurance endorsements; and
- 19.2.2.1.16.** Resumes of Contractor's project manager, and if applicable, job site secretary, record documents recorder, and job site superintendent.

19.2.2.2. Second Payment Request: District will not process the second payment request until and unless all submittals and Shop Drawings have been accepted for review by the Architect.

19.2.2.3. No Waiver of Criteria: Any payment made to Contractor where criteria set forth herein have not been met shall not constitute a waiver of said criteria by District. The approval of any Application for Progress Payment or the disbursement of any Progress Payment to the Contractor shall not be deemed nor constitute acceptance of defective Work or Work not in conformity with the Contract Documents. Instead, such payment shall be construed as a good faith effort by District to resolve differences so Contractor may pay its Subcontractors and suppliers. Contractor agrees that failure to submit such items may constitute a material breach of the Contract by Contractor and may subject Contractor to termination.

19.3. Progress Payments

19.3.1. District's Approval of Application for Payment

19.3.1.1. Upon receipt of an Application for Payment, District shall act in accordance with the following:

19.3.1.1.1. Each Application for Payment shall be reviewed by the District as soon as practicable after receipt for the purpose of determining that the Application for Payment is a proper Application for Payment.

19.3.1.1.2. Any Application for Payment determined not to be a proper Application for Payment suitable for payment shall be returned to the Contractor as soon as practicable, but not later than seven (7) days, after receipt. An Application for Payment returned pursuant to this paragraph shall be accompanied by a document setting forth in writing the reasons why the Application for Payment is not proper. The number of days available to the District to make a payment without being subject to any applicable statute regarding prompt payment or interest accrual, shall be reduced by the number of days by which the District exceeds this seven-day return requirement.

19.3.1.1.3. An approved Application for Payment shall be considered payable if funds are available for payment after the deduction of amounts allowed by law and/or pursuant to the section herein entitled "Decisions to Withhold Payment,"

19.3.1.2. The District's review of the Contractor's Application for Payment will be based on the District's and the Architect's observations at the Site and the data comprising the Application for Payment that the Work has progressed to the point indicated and that, to the best of the District's and the Architect's knowledge, information, and belief, the quality of the Work is in accordance with the Contract Documents. The foregoing representations are subject to:

19.3.1.2.1. Observation of the Work for general conformance with the Contract Documents,

19.3.1.2.2. Results of subsequent tests and inspections,

19.3.1.2.3. Minor deviations from the Contract Documents correctable prior to Completion, and

19.3.1.2.4. Specific qualifications expressed by the Architect.

19.3.1.3. District's approval of each Application for Payment shall be based on Contractor complying with all requirements for a fully complete and valid Application for Payment.

19.3.2. Payments to Contractor

19.3.2.1. Within thirty (30) days after District's receipt of each undisputed and properly submitted Application for Payment, Contractor shall be paid a sum equal to ninety-five percent (95%) of the value of the Work performed (as verified by Architect and Inspector and certified by Contractor) up to the last day of the previous month, less the aggregate of previous payments and amount to be withheld. The value of the Work completed shall be Contractor's best estimate. No inaccuracy or error in Contractor's estimate shall operate to release the Contractor, or any Surety upon any bond, from damages arising from such Work, or from the District's right to enforce each and every provision of this Contract, and the District shall have the right subsequently to correct any error made in any estimate for payment.

19.3.2.2. District shall withhold five percent (5%) retention from all Progress Payments.

19.3.2.3. District may withhold ten percent (10%) retention from all Progress Payments pursuant to Public Contract Code section 7201, if the Project is determined to be "substantially complex."

19.3.2.4. The Contractor shall not be entitled to have any payment requests processed, or be entitled to have any payment made for Work performed, so long as any lawful or proper direction given by the District concerning the Work, or any portion thereof, remains incomplete.

19.3.2.5. In accordance with Public Contract Code §20104.50, in the event that the District shall fail to make any Progress Payment within thirty (30) days after receipt of an undisputed and properly submitted Application for Progress Payment, the District shall pay the Contractor interest on the undisputed amount of such Application for Progress Payment equal to the legal rate of interest set forth in California Code of Civil Procedure §685.010(a).

19.3.3. No Waiver

No payment by District hereunder shall be interpreted so as to imply that District has inspected, approved, or accepted any part of the Work. Notwithstanding any payment, the District may enforce each and every provision of this Contract. The District may correct or require correction of any error subsequent to any payment.

19.3.4. Warranty of Title

19.3.4.1. If a lien or a claim based on a stop notice or stop payment notice of any nature should at any time be filed against the Work or any District property, by any entity that has supplied material or services at the request of the Contractor, Contractor and Contractor's Surety shall promptly, on demand by District and at Contractor's and Surety's own expense, take any and all action necessary to cause any such lien or a claim based on a stop notice or stop payment notice to be released or discharged immediately therefrom.

19.3.4.2. If the Contractor fails to furnish to the District within ten (10) calendar days after demand by the District, satisfactory evidence that a lien or a claim based on a stop notice or stop payment notice has been so released, discharged, or secured, the District may discharge such indebtedness and deduct the amount required therefore, together with any and all losses, costs, damages, and attorney's fees and expense incurred or suffered by District from any sum payable to Contractor pursuant to the Contract.

19.4. Decisions to Withhold Payment

19.4.1. Reasons to Withhold Payment

District may withhold payment in whole, or in part, to the extent reasonably necessary to protect the District if, in the District's opinion, the representations to the District required herein cannot be

made. District may withhold payment, in whole, or in part, to such extent as may be necessary to protect the District from loss because of, but not limited to:

- 19.4.1.1.** Defective Work not remedied within **FORTY-EIGHT (48)** hours of written notice to Contractor;
- 19.4.1.2.** Stop notices, stop payment notices or other liens served upon the District as a result of the Contract;
- 19.4.1.3.** Liquidated damages assessed against the Contractor;
- 19.4.1.4.** The cost to complete the Work if there exists reasonable doubt that the Work can be completed for the unpaid balance of the Contract Price or by the Completion Date;
- 19.4.1.5.** Damage to the District or other contractor(s);
- 19.4.1.6.** Unsatisfactory performance of the Work by Contractor;
- 19.4.1.7.** Failure to store and properly secure materials;
- 19.4.1.8.** Failure of the Contractor to submit, on a timely basis, proper, sufficient, and acceptable documentation required by the Contract Documents, including, without limitation, a Construction Schedule, Schedule of Submittals, Schedule of Values, Monthly Progress Schedules, Shop Drawings, Product Data and samples, Proposed product lists, executed Change Orders, and/or verified reports;
- 19.4.1.9.** Failure of the Contractor to maintain As-Built Drawings;
- 19.4.1.10.** Erroneous estimates by the Contractor of the value of the Work performed, or other false statements in an Application for Payment;
- 19.4.1.11.** Unauthorized deviations from the Contract Documents;
- 19.4.1.12.** Failure of the Contractor to perform the Work in a timely manner in compliance with the Construction Schedule, established progress schedules, and/or completion dates;
- 19.4.1.13.** If requested by the District, or the failure to provide to the DIR, certified payroll records acceptable to the District and the DIR for each journeyman, apprentice, worker, or other employee employed by the Contractor and/or each Subcontractor in connection with the Work for the period of the Application for Payment;
- 19.4.1.14.** Failure to properly pay prevailing wages as defined in Labor Code sections 1720 et seq. and/or failure to comply with any other Labor Code requirements;
- 19.4.1.15.** Failure to properly maintain or clean up the Site;
- 19.4.1.16.** Failure to timely indemnify, defend or hold harmless the District;
- 19.4.1.17.** Any payments due to the District, including but not limited to payments for failed tests, utilities changes, or permits;
- 19.4.1.18.** Failure to pay Subcontractor(s) or supplier(s) as required by law and by the Contract Documents;
- 19.4.1.19.** Failure to pay any royalty, license or similar fees;

19.4.1.20. Failure of the Contractor to submit on a timely basis all Closeout Documentation in a manner and form that is proper, sufficient, and reasonably acceptable to the District, and to not cause a delay in the Completion or approval of the Project; or

19.4.1.21. Failure to perform any implementation and/or monitoring required by any SWPPP for the Project and/or the imposition of any penalties or fines imposed therefore against Contractor or District.

19.4.1.22. Payment is delayed due to an audit inquiry by the State, the County Office of Education, the County, or any entity with jurisdiction related to the Project.

19.4.1.23. Contractor is otherwise in breach, default or in substantial violation of any provision of the Contract;

19.4.2. Reallocation of Withheld Amounts

19.4.2.1. District may, in its discretion, apply any withheld amount to pay outstanding claims or obligations as defined herein. In so doing, District shall make such payments on behalf of Contractor. If any payment is so made by District, then that amount shall be considered a payment made pursuant to the Contract and District shall not be liable to Contractor for any payment made in good faith. These payments may be made without prior judicial determination of claim or obligation. District will render Contractor an accounting of funds disbursed on behalf of Contractor.

19.4.2.2. If Contractor defaults or neglects to perform the Work in accordance with the Contract Documents or fails to perform any provision thereof, District may, after **FORTY-EIGHT (48)** hours written notice to the Contractor and, without prejudice to any other remedy, make good such deficiencies. District shall adjust the total Contract Price by reducing the amount thereof by the cost of making good such deficiencies. If District deems it inexpedient to correct Work that is damaged, defective, or not done in accordance with Contract provisions, an equitable reduction in the Contract Price (of at least one hundred twenty-five percent (125%) of the estimated reasonable value of the nonconforming Work) shall be made therefor.

19.4.3. Payment After Cure

When Contractor cures the grounds for declining approval, payment shall be made for amounts so withheld. No interest shall be paid on any retention or amounts withheld due to the failure of the Contractor to perform in accordance with the terms and conditions of the Contract Documents.

19.5. Subcontractor Payments

19.5.1. Payments to Subcontractors. No later than seven (7) days after receipt, or pursuant to Business and Professions Code section 7108.5 and Public Contract Code section 7107, the Contractor shall pay to each Subcontractor, out of the amount paid to the Contractor on account of such Subcontractor's portion of the Work, the amount to which said Subcontractor is entitled. Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to its Sub-subcontractors in a similar manner.

19.5.2. No Obligation of District for Subcontractor Payment. District shall have no obligation to pay, or to see to the payment of, money to a Subcontractor except as may otherwise be required by law.

19.5.3. Joint Checks. District shall have the right in its sole discretion, if necessary for the protection of the District, to issue joint checks made payable to the Contractor and Subcontractors and material or equipment suppliers. The joint check payees shall be responsible for the allocation and disbursement of funds included as part of any such joint payment. In no event shall any joint check payment be construed

to create any contract between the District and a Subcontractor of any tier, any obligation from the District to such Subcontractor, or rights in such Subcontractor against the District.

20. COMPLETION OF THE WORK

20.1. Completion

20.1.1. The Project may only be accepted by action of the governing board of the District.

20.1.2. District shall accept the Project and may have a Notice of Completion recorded when Project Completion has been achieved in accordance with the Contract Documents and to the satisfaction of District. For purposes of the payment of Retention, Completion is defined in Public Contract Code section 7107. For purposes of the timely filing of Stop Payment Notices, Completion is defined in California Civil Code section 9200, et seq.

20.1.3. Although there is no “substantial completion” for this Project, the District, at its sole option, may accept the Project and record a Notice of Completion when Project Completion has been completed to the satisfaction of District, except for minor corrective items, as distinguished from incomplete items. If Contractor fails to complete all minor corrective items within thirty-five (35) days after the date of the District’s acceptance of the Project, District shall withhold from the final payment one hundred fifty percent (150%) of an estimate of the amount sufficient to complete the corrective items, as determined by District, until the item(s) are completed.

20.1.4. At the end of the thirty-five (35) day period, if there are any items remaining to be corrected, District may elect to proceed as provided herein related to adjustments to Contract Price, and/or District’s right to perform the Work of the Contractor.

20.2. Closeout Procedures

20.2.1. Punch List

Contractor shall notify the Architect when Contractor considers the Work complete. Upon notification, Architect will prepare a list of minor items to be completed or corrected (“Punch List”). Contractor and/or its Subcontractors shall proceed promptly to complete and correct items on the Punch List. Failure to include an item on Punch List does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

20.2.2. Closeout Requirements

20.2.2.1. Utility Connections

Buildings shall be connected to water, gas, sewer, and electric services, complete and ready for use. Service connections shall be made and existing services reconnected.

20.2.2.2. As-Built Drawings

20.2.2.2.1. In addition to its requirement to provide monthly As-Built Drawings to the District, the Contractor shall provide a final set of As-Built Drawings, sometimes referred to as “Record Drawings,” showing all of the Work as actually constructed upon Completion of the Project as indicated in the Specifications.

20.2.2.2.2. Contractor is liable and responsible for any and all inaccuracies in the As-Built Drawings, even if inaccuracies become evident at a future date.

20.2.2.2.3. Upon Completion of the Work and as a condition precedent to approval of final payment, Contractor shall obtain the Inspector's approval of the final set of As-Built Drawings.

20.2.2.3. Operations & Maintenance Manuals: Contractor shall prepare all operation and maintenance manuals and date as indicated in the Specifications.

20.2.2.4. Closeout Documentation: Contractor shall provide all Closeout Documentation, which shall include the following, without limitation:

20.2.2.4.1. A full set of final As-Built Drawings, as further defined herein.

20.2.2.4.2. All Operations & Maintenance Manuals and information, as further defined herein.

20.2.2.4.3. All Warranties, as further defined herein.

20.2.2.4.4. Verified report(s) for all scope(s) of work (DSA 6-C, Rev 03/22/13, or more recent revision if available).

20.3. Final Inspection

20.3.1. Contractor shall comply with Punch List procedures as provided herein, and maintain the presence of a Project Superintendent and Project Manager until the Punch List is complete to ensure proper and timely completion of the Punch List. Under no circumstances shall Contractor demobilize its forces prior to completion of the Punch List. Upon receipt of Contractor's written notice that all of the Punch List items have been fully completed and the Work is ready for final inspection and acceptance, Architect and Project Inspector will inspect the Work and shall submit to Contractor and District a final inspection report noting the Work, if any, required in order to complete in accordance with the Contract Documents. Absent unusual circumstances, this report shall consist of the Punch List items not yet satisfactorily completed.

20.3.2. Upon Contractor's completion of all items on the Punch List and any other uncompleted portions of the Work, the Contractor shall notify the District and Architect, who shall again inspect such Work. If the Architect finds the Work complete and acceptable under the Contract Documents, the Architect will notify Contractor, who shall then jointly submit to the Architect and the District its final Application for Payment.

20.3.3. Final Inspection Requirements

20.3.3.1. Before calling for final inspection, Contractor shall determine that the following have been performed:

20.3.3.1.1. The Work has been completed.

20.3.3.1.2. All life safety items are completed and in working order.

20.3.3.1.3. Mechanical and electrical Work are complete and tested, fixtures are in place, connected, and ready for tryout.

20.3.3.1.4. Electrical circuits scheduled in panels and disconnect switches labeled.

20.3.3.1.5. Painting and special finishes complete.

20.3.3.1.6. Doors complete with hardware, cleaned of protective film, relieved of sticking

or binding, and in working order.

20.3.3.1.7. Tops and bottoms of doors sealed.

20.3.3.1.8. Floors waxed and polished as specified.

20.3.3.1.9. Broken glass replaced and glass cleaned.

20.3.3.1.10. Grounds cleared of Contractor's equipment, raked clean of debris, and trash removed from Site.

20.3.3.1.11. Work cleaned, free of stains, scratches, and other foreign matter, of damaged and broken material replaced.

20.3.3.1.12. Finished and decorative work shall have marks, dirt, and superfluous labels removed.

20.3.3.1.13. Final cleanup, as provided herein.

20.4. Costs of Multiple Inspections

More than two (2) requests of the District to make a final inspection shall be considered an additional service of District, Architect, Construction Manager, and/or Project Inspector, and all subsequent costs will be invoiced to Contractor and if funds are available, withheld from remaining payments.

20.5. Partial Occupancy or Use Prior to Completion

20.5.1. District's Rights to Occupancy. The District may occupy or use any completed or partially completed portion of the Work at any stage. Neither the District's Final Acceptance, the making of Final Payment, any provision in Contract Documents, nor the use or occupancy of the Work, in whole or in part, by District shall constitute acceptance of Work not in accordance with the Contract Documents nor relieve the Contractor or the Contractor's Performance Bond Surety from liability with respect to any warranties or responsibility for faulty or defective Work or materials, equipment and workmanship incorporated therein. The District and the Contractor shall agree in writing to the responsibilities assigned to each of them for payments, security, maintenance, heat, utilities, damage to the Work, insurance, the period for correction of the Work, and the commencement of warranties required by the Contract Documents. Any dispute as to responsibilities shall be resolved pursuant to the Claims and Disputes provisions herein, with the added provision that during the dispute process, the District shall have the right to occupy or use any portion of the Work that it needs or desires to use.

20.5.2. Inspection Prior to Occupancy or Use. Immediately prior to partial occupancy or use, the District, the Contractor, and the Architect shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

20.5.3. No Waiver. Unless otherwise agreed upon, partial or entire occupancy or use of a portion or portions of the Work shall not constitute beneficial occupancy or acceptance of the Work not complying with the requirements of the Contract Documents.

21. FINAL PAYMENT AND RETENTION

21.1. Final Payment

21.1.1. Upon receipt and approval of a valid and final Application for Payment, the Architect will issue a final Certificate of Payment or similar document indicating Architect's agreement that the Project has

reached Completion. The District shall thereupon jointly inspect the Work and either accept the Work as complete or notify the Architect and the Contractor in writing of reasons why the Work has not reached Completion to the satisfaction of the District.

21.1.2. Upon acceptance of the Work of the Contractor as having reached Completion to the satisfaction of the District (that, absent unusual circumstances, will occur when the Punch List items have been satisfactorily completed), the District may record a Notice of Completion with the County Recorder, and the Contractor shall, upon receipt of final payment from the District, pay all the amount(s) due to its Subcontractors.

21.2. Prerequisites for Final Payment

The following conditions must be fulfilled prior to Final Payment:

21.2.1. A full and final waiver or release of all stop notices and stop payment notices in connection with the Work shall be submitted by Contractor, including a release of stop notice or stop payment notice in recordable form, together with (to the extent permitted by law) a copy of the full and final release of all stop notice or stop payment notice rights.

21.2.2. A duly completed and executed conditional waiver and release upon final payment compliant with Civil Code section 8136 from each subcontractor of any tier and supplier to be paid from the current progress payment;

21.2.3. A duly completed and executed unconditional waiver and release upon final payment compliant with Civil Code section 8138 from each subcontractor of any tier and supplier that was paid from the previous progress payment; and

21.2.4. Contractor shall have made all corrections to the Work that are required to remedy any defects therein, to obtain compliance with the Contract Documents or any requirements of applicable codes and ordinances, or to fulfill any of the orders or directions of District required under the Contract Documents.

21.2.5. Each Subcontractor shall have delivered to the Contractor all written guarantees, warranties, applications, and bonds required by the Contract Documents for its portion of the Work.

21.2.6. Contractor must have completed all requirements set forth under "Closeout Procedures," including, without limitation, submission of an approved set of complete Record Drawings.

21.2.7. Architect shall have issued its written approval that final payment can be made.

21.2.8. Contractor shall have delivered to the District all manuals and materials required by the Contract Documents.

21.2.9. Contractor shall have completed final clean up as provided herein.

21.3. Retention

21.3.1. The retention, less any amounts disputed by the District or that the District has the right to withhold pursuant to provisions herein, shall be paid:

21.3.1.1. After approval of the District by the Architect's Certificate of Payment;

21.3.1.2. After the satisfaction of the conditions set forth herein;

21.3.1.3. Within sixty (60) days after Completion;

21.3.1.4. No earlier than thirty-five (35) days of the recording of the Notice of Completion by District, if a Notice of Completion is recorded by the District.

21.3.2. No interest shall be paid on any retention, or on any amounts withheld due to a failure of the Contractor to perform, in accordance with the terms and conditions of the Contract Documents, except as provided to the contrary in any Escrow Agreement between the District and the Contractor pursuant to Public Contract Code section 22300.

21.4. Substitution of Securities

The District will permit the substitution of securities in accordance with the provisions of Public Contract Code section 22300.

21.5. Claims Asserted After Final Payment

Any lien, stop payment notice or other claim filed or asserted after the Contractor's acceptance of the Final Payment by any Subcontractor, of any tier, laborer, Material Supplier or others in connection with or for Work performed under the Contract Documents shall be the sole and exclusive responsibility of the Contractor pursuant to the indemnification obligations of the Contract Documents. In the event any lien, stop payment notice or other claim of any Subcontractor, Laborer, Material Supplier or others performing Work under the Contract Documents remain unsatisfied after Final Payment is made, Contractor shall refund to District all monies that the District may pay or be compelled to pay in discharging any lien, stop payment notice or other claim, including, without limitation all costs and reasonable attorneys' fees incurred by District in connection therewith.

22. UNCOVERING WORK, CORRECTION OF WORK AND RIGHT TO TAKEOVER WORK

22.1. Uncovering of Work

If a portion of the Work is covered without Project Inspector or Architect approval or not in compliance with the Contract Documents, it must, if required in writing by the District, the Project Inspector, or the Architect, be uncovered for the Project Inspector's or the Architect's observation and be replaced at the Contractor's expense without change in the Contract Price or Contract Time.

22.2. Rejection of Work

Prior to the District's Acceptance of the Work, any Work or materials or equipment forming a part of the Work or incorporated into the Work that is defective or not in conformity with the Contract Documents may be rejected by the District, the Architect or the Project Inspector and the Contractor shall correct all rejected Work without any adjustment to the Contract Price or the Contract Time, even if the Work, materials or equipment have been previously inspected by the Architect or the Project Inspector or even if they failed to observe the defective or non-conforming Work, materials or equipment.

22.3. Nonconforming Work

22.3.1. Contractor shall promptly remove from Premises all Work identified by District as failing to conform to the Contract Documents whether incorporated or not. Contractor shall promptly replace and re-execute its own Work to comply with the Contract Documents without additional expense to the District and shall bear the expense of making good all work of other contractors destroyed or damaged by any removal or replacement pursuant hereto and/or any delays to the District or other Contractors caused thereby.

22.3.2. If Contractor does not remove Work that District has identified as failing to conform to the Contract Documents within a reasonable time, not to exceed **FORTY-EIGHT (48)** hours, District may

remove it and may store any material at Contractor's expense. If Contractor does not pay expense(s) of that removal within ten (10) days' time thereafter, District may, upon ten (10) days' written notice, sell any material at auction or at private sale and shall deduct all costs and expenses incurred by the District and/or District may withhold those amounts from payment(s) to Contractor.

22.4. Correction of Work

22.4.1. Correction of Rejected Work. Pursuant to the notice provisions herein, the Contractor shall promptly correct the Work rejected by the District, the Architect, or the Project Inspector as failing to conform to the requirements of the Contract Documents, whether observed before or after Completion and whether or not fabricated, installed, or completed. The Contractor shall bear costs of correcting the rejected Work, including additional testing, inspections, and compensation for the Inspector's or the Architect's services and expenses made necessary thereby.

22.4.2. One-Year Warranty Corrections. If, within one (1) year after the date of Completion of the Work or a designated portion thereof, or after the date for commencement of warranties established hereunder, or by the terms of an applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, the Contractor shall correct it promptly after receipt of written notice from the District to do so. This period of one (1) year shall be extended with respect to portions of the Work first performed after Completion by the period of time between Completion and the actual performance of the Work. This obligation hereunder shall survive acceptance of the Work under the Contract and termination of the Contract. The District shall give such notice promptly after discovery of the condition.

22.5. District's Right to Takeover Work

22.5.1. If the Contractor should neglect to prosecute the Work properly or fail to perform any provisions of this Contract, the District, after **FORTY-EIGHT (48)** hours written notice to the Contractor, may, without prejudice to any other remedy it may have, make good such deficiencies and may deduct the cost thereof from the payment then or thereafter due the Contractor.

22.5.2. If it is found at any time, before or after Completion of the Work, that Contractor has varied from the Drawings and/or Specifications, including, but not limited to, variation in material, quality, form, or finish, or in the amount or value of the materials and labor used, District may require at its option:

22.5.2.1. That all such improper Work be removed, remade or replaced, and all work disturbed by these changes be made good by Contractor at no additional cost to the District;

22.5.2.2. That the District deduct from any amount due Contractor the sum of money equivalent to the difference in value between the work performed and that called for by the Drawings and Specifications; or

22.5.2.3. That the District exercise any other remedy it may have at law or under the Contract Documents, including but not limited to the District hiring its own forces or another contractor to replace the Contractor's nonconforming Work, in which case the District shall either issue a deductive Change Order, a Unilateral Change Order, or invoice the Contractor for the cost of that work. Contractor shall pay any invoices within thirty (30) days of receipt of same or District may withhold those amounts from payment(s) to Contractor.

22.5.3. Acceptance of Defective or Non-Conforming Work. The District may, in its sole and exclusive discretion, elect to accept Work that is defective or that is not in accordance with the requirements of the Contract Documents, instead of requiring its removal and correction, in which case the Contract Price shall be reduced as appropriate and equitable.

23. TERMINATION AND SUSPENSION

23.1. District's Right to Terminate Contractor for Cause

23.1.1. Grounds for Termination. The District, in its sole discretion, may terminate the Contract and/or terminate the Contractor's right to perform the work of the Contract based upon the following:

23.1.1.1. Contractor refuses or fails to execute the Work or any separable part thereof with sufficient diligence as will ensure its completion within the time specified or any extension thereof, or

23.1.1.2. Contractor fails to complete said Work within the time specified or any extension thereof, or

23.1.1.3. Contractor persistently fails or refused to perform Work or provide material of sufficient quality as to be in compliance with Contract Documents; or

23.1.1.4. Contractor files a petition for relief as a debtor, or a petition is filed against the Contractor without its consent, and the petition not dismissed within sixty (60) days; or

23.1.1.5. Contractor makes a general assignment for the benefit of its creditors, or a receiver is appointed on account of its insolvency; or

23.1.1.6. Contractor persistently or repeatedly refuses fails, except in cases for which extension of time is provided, to supply enough properly skilled workers or proper materials to complete the Work in the time specified; or

23.1.1.7. Contractor fails to make prompt payment to Subcontractors, or for material, or for labor; or

23.1.1.8. Contractor persistently disregards laws, or ordinances, or instructions of District; or

23.1.1.9. Contractor fails to supply labor, including that of Subcontractors, that can work in harmony with all other elements of labor employed or to be employed on the Work; or

23.1.1.10. Contractor or its Subcontractor(s) is/are otherwise in breach, default, or in substantial violation of any provision of this Contract.

23.1.2. Notification of Termination

23.1.2.1. Upon the occurrence at District's sole determination of any of the above conditions, District may, without prejudice to any other right or remedy, serve written notice upon Contractor and its Surety of District's termination of this Contract and/or the Contractor's right to perform the work of the Contract. This notice will contain the reasons for termination. Unless, within three (3) days after the service of the notice, any and all condition(s) shall cease, and any and all violation(s) shall cease, or arrangement satisfactory to District for the correction of the condition(s) and/or violation(s) be made, this Contract and/or the Contractor's right to perform the Work shall cease and terminate. Upon termination, Contractor shall not be entitled to receive any further payment until the entire Work is finished.

23.1.2.2. Upon termination, District may immediately serve written notice of tender upon Surety whereby Surety shall have the right to takeover and perform this Contract only if Surety:

23.1.2.2.1. Within three (3) days after service upon it of the notice of tender, gives District written notice of Surety's intention to takeover and perform this Contract; and

23.1.2.2.2. Commences performance of the Contract within seven (7) days from date of serving of its notice to District.

23.1.2.3. If Surety fails to notify District or begin performance as indicated herein, District may takeover the Work and execute the Work to completion by any method it may deem advisable at the expense of Contractor and/or its Surety. Contractor and/or its Surety shall be liable to District for any excess cost or other damages the District incurs thereby. Time is of the essence in the Contract. If the District takes over the Work as herein provided, District may, without liability for so doing, take possession of and utilize in completing the Work such materials, appliances, plan, and other property belonging to Contractor as may be on the Site of the Work, in bonded storage, or previously paid for.

23.1.2.4. Conversion to Termination for Convenience. In the event the Contract is terminated under this "District's Right to Terminate Contractor for Cause" section and it is finally determined by an arbitrator, court, jury or other tribunal having jurisdiction, for any reason, that the Contractor was not in default under the provisions hereof or that the District's exercise of its rights under this section was defective, deficient, ineffective, invalid or improper for any reason, the termination shall be deemed a termination for convenience of the District under the "Termination of Contractor for Convenience" section herein and thereupon, the rights and obligations of the District and the Contractor shall be determined in accordance with the "Termination of Contractor for Convenience" section herein.

23.1.3. Effect of Termination

23.1.3.1. Contractor shall, only if ordered to do so by the District, immediately remove from the Site all or any materials and personal property belonging to Contractor that have not been incorporated in the construction of the Work, or which are not in place in the Work. District retains the right, but not the obligation, to keep and use any materials and personal property belonging to Contractor that have not been incorporated in the construction of the Work, or which are not in place in the Work. Contractor and its Surety shall be liable upon the performance bond for all damages caused the District by reason of the Contractor's failure to complete the Contract.

23.1.3.2. In the event that the District shall perform any portion of, or the whole of the Work, pursuant to the provisions of the General Conditions, the District shall not be liable nor account to the Contractor in any way for the time within which, or the manner in which, the Work is performed by the District or for any changes the District may make in the Work or for the money expended by the District in satisfying claims and/or suits and/or other obligations in connection with the Work.

23.1.3.3. In the event that the Contract is terminated for any reason, no allowances or compensation will be granted for the loss of any anticipated profit by the Contractor or any impact or impairment of Contractor's bonding capacity.

23.1.3.4. If the expense to the District to finish the Work exceeds the unpaid Contract Price, Contractor and Surety shall pay difference to District within twenty-one (21) days of District's request.

23.1.3.5. Assignment and Assumption of Subcontracts. District shall have the right (but shall have no obligation) to assume and/or assign to a general contractor or construction manager or other third party who is qualified and has sufficient resources to complete the Work, the rights of the Contractor under its subcontracts with any or all Subcontractors. In the event of an assumption or assignment by the District, no Subcontractor shall have any claim against the District or third party for Work performed by Subcontractor or other matters arising prior to termination of the Contract. The District or any third party, as the case may be, shall be liable only for obligations to the Subcontractor arising after assumption or assignment. Should the District so elect, the Contractor shall execute and deliver all documents and take all steps, including the legal assignment of its contractual rights, as the District may require, for the purpose of fully vesting in the District the rights and benefits of it

Subcontractor under Subcontracts or other obligations or commitments. All payments due the Contractor hereunder shall be subject to a right of offset by the District for expenses and damages suffered by the District as a result of any default, acts, or omissions of the Contractor. Contractor must include this assignment provision in all of its contracts with its Subcontractors.

23.1.3.6. The foregoing provisions are in addition to and not in limitation of any other rights or remedies available to District.

23.2. Emergency Termination of Public Contracts Act of 1949

23.2.1. The Contract is subject to termination as provided by sections 4410 and 4411 of the Government Code of the State of California, being a portion of the Emergency Termination of Public Contracts Act of 1949.

23.2.1.1. Section 4410 of the Government Code states:

In the event a national emergency occurs, and public work, being performed by contract, is stopped, directly or indirectly, because of the freezing or diversion of materials, equipment or labor, as the result of an order or a proclamation of the President of the United States, or of an order of any federal authority, and the circumstances or conditions are such that it is impracticable within a reasonable time to proceed with a substantial portion of the work, then the public agency and the contractor may, by written agreement, terminate said contract.

23.2.1.2. Section 4411 of the Government Code states:

Such an agreement shall include the terms and conditions of the termination of the contract and provision for the payment of compensation or money, if any, which either party shall pay to the other or any other person, under the facts and circumstances in the case.

23.2.2. Compensation to the Contractor shall be determined at the sole discretion of District on the basis of the reasonable value of the Work done, including preparatory work. As an exception to the foregoing and at the District's discretion, in the case of any fully completed separate item or portion of the Work for which there is a separate previously submitted unit price or item on the accepted Schedule of Values, that price shall control. District, in its sole discretion, may adopt the Contract Price as the reasonable value of the Work performed or any portion thereof.

23.3. Termination of Contractor for Convenience

23.3.1. District in its sole discretion may terminate the Contract upon three (3) days written notice to the Contractor. Under a termination for convenience, the District retains the right to all the options available to the District if there is a termination for cause. In case of a termination for convenience, Contractor shall have no claims against the District except:

23.3.1.1. The actual cost for labor, materials, and services performed that is unpaid and can be documented through timesheets, invoices, receipts, or otherwise, and

23.3.1.2. Five percent (5%) of the total cost of work performed as of the date of termination, or five percent (5%) of the value of the Work yet to be performed, whichever is less. This five percent (5%) amount shall be full compensation for all Contractor's and its Subcontractor(s)' mobilization and/or demobilization costs and any anticipated loss profits resulting from termination of the Contractor for convenience.

23.4. Suspension of Work

23.4.1. District may, without cause, order Contractor in writing to suspend, delay or interrupt the Project in whole or in part for such period of time as District may determine. When the District resumes the Project, the Parties will attempt to negotiate an adjustment in the Contract Price for increases or decreases in the cost of performance of the Project caused by suspense, delay or interruption. If the parties cannot agree on an adjusted Contract Price, the District may terminate the Contract as permitted herein.

23.4.2. In the event the District shall order suspension of the Work, an adjustment shall be made to the Contract Price for increases in the direct cost of performance of the Work of the Contract Documents, actually caused by suspension, delay or interruption ordered by the District; provided however that no adjustment of the Contract Price shall be made to the extent: (i) that performance is, was or would have been so suspended, delayed or interrupted by another cause for which the Contractor is responsible under the Contract Documents; or (ii) that an equitable adjustment is made or denied under another provision of the Contract Documents. The foregoing notwithstanding, any adjustment of the Contract Price shall not include any adjustment to increase the Contractor's overhead, general administrative costs or profit, all of which will remain as reflected in the Schedule of Values submitted by the Contractor pursuant to the Contract Documents. In the event of the District's suspension of the Work, the Contract Time shall be equitably adjusted.

23.5. Scope Reduction

In cases of suspension, partial or complete termination, or at the discretion of the District, the District reserves the right to unilaterally approve a deductive Change Order to reduce scope of work or perform work with other forces or its own forces.

24. CLAIMS RESOLUTION

24.1. Exclusive Remedy.

24.1.1. Compliance with the claim resolution process and timelines described in this Claims Resolution section as well as the notice provisions of the Contract are express conditions precedent to Contractor's right to commence litigation or arbitration, file a claim under the California Government Code, or commence any other legal action related to the Project ("Claims Resolution Process").

24.1.2. Contractor acknowledges that its failure, for any reason, to provide written notice and all required supporting documentation to permit the District's review and evaluation within the time frame required by this Claims Resolution Process, shall be deemed Contractor's waiver, release, discharge and relinquishment of any right to assert, request, or demand any entitlement to an adjustment of the Contract Time or the contract Price on account of any instruction, request, drawings, specifications, action, condition, omission, default or other situation.

24.1.3. To the extent any provision(s) of this Claims Resolution Process conflict with or otherwise impair the timeframes and procedures of Public Contract Code section 9204, the provisions of Section 9204 shall control. If provisions of this Claims Resolution Process are supplementary and/or in addition to the requirements of Section 9204, but do not conflict with or otherwise impair the timeframes and procedures of Section 9204, the provisions of this Claims Resolution Process and the Contract shall control.

24.2. Performance during Claim Resolution Process.

The Contractor shall diligently proceed with Work on the Project at the same time that Claims are addressed under the Claims Resolution Process. It is the intent of District to resolve Claims with the Contractor as close to the events giving rise to the Claims as possible, and to avoid stale or late Claims and the late documenting of Claims. Contractor's failure to diligently proceed in accordance with the District's

instructions or the Contract terms will be considered a material breach of the Contract and a waiver of Contractor's rights under this Contract.

24.3. Waiver.

If Contractor fails to timely submit any written notices required under the terms of the Contract or in this Claims Resolution section, Contractor waives and releases its rights regarding further review of its Claim, unless Contractor and District mutually agree in writing to other time limits.

24.4. Intention.

The Claims Resolution Process required herein is intended to provide a concise mechanism for resolving Claims as they arise during the Project, while requiring accurate documentation related to contested issues as to those Claims that are not contemporaneously resolved.

24.5. Other Provisions.
